ACCREDITATION AND APPROVALS

Adler University holds the following accreditations, approvals, recognitions, and memberships:

- Adler University has been continuously accredited since 1978 by the Higher Learning Commission. The Commission can be contacted at 230 South LaSalle St., Suite 7-500, Chicago, IL 60604; 800.621.7440 or 312.263.0456; email: info@hlcommission.org; website: hlcommission.org.
- The Doctoral Program in Clinical Psychology at the Adler University Chicago campus has been accredited by the American Psychological Association (APA) since 1998. The APA's Committee on Accreditation can be contacted at the Office of Program Consultation and Accreditation, 750 First St. NE, Washington, DC 20002; 800.374.2721; website: apa.org.
- The Master of Arts in Counseling: Specialization in Clinical Mental Health Counseling is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). CACREP can be contacted at 1001 North Fairfax St., Suite 510, Alexandria, VA 22314; 703.535.5990; website: cacrep.org.
- The Master of Arts in Counseling: Specialization in Rehabilitation Counseling is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). CACREP can be contacted at 1001 North Fairfax St., Suite 510, Alexandria, VA 22314; 703.535.5990; website: cacrep.org.
- Adler University's Community Health Services Internship in Clinical Psychology at the Adler University Chicago Campus has been accredited by the American Psychological Association (APA) since 2005. The APA's Committee on Accreditation can be contacted at the Office of Program Consultation and Accreditation, 750 First St. NE, Washington, DC 20002; 800.374.2721; email: apaaccred@apa.org; website: apa.org.
- The Master of Arts in Couple and Family Therapy is accredited by the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE). COAMFTE can be contacted at 112 South Alfred St., Alexandria, VA 22314; 703.838.9808; email: coa@aamft.org.
- The Doctor of Philosophy in Couple and Family Therapy is accredited by the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE). COAMFTE can be contacted at 112 South Alfred St., Alexandria, VA 22314; 703.838.9808; email: coa@aamft.org.
- The Doctoral Program in Clinical Psychology is listed as a Designated Doctoral Program in Psychology by the National Register of Health Service Psychologists. The Register can be contacted at 1200 New York Ave. NW, Suite 800, Washington, DC 20005; 202.783.7663; website: nationalregister.org.
- The Substance Abuse Counseling certificate program is approved by the Illinois Alcohol and Other Drug Abuse Professional Certification Association (IAODAPCA) as an advanced counselor training program. The IAODAPCA can be contacted at 401 E. Sangamon Ave., Springfield, IL 62702; 217.698.8110; website: iaodapca.org.
- The Master of Arts in Counseling: Art Therapy (Chicago) is approved by the American Art Therapy Association (AATA). AATA can be contacted at 4875 Eisenhower Ave., Suite 240, Alexandria, VA 22304; 888.290.0878; website: arttherapy.org.
- The Master of Arts in Counselling: Art Therapy (Vancouver) is approved by the British Columbia Art Therapy Association (BCATA) and the Canadian Art Therapy Association (CATA). BCATA can be contacted at Suite 123 101-1001 West Broadway, Vancouver, BC V6H 4E4; 1-604-878-6393; website: <http://bcarttherapy.com/bcata>. CATA can be contacted at P.O. Box 658, Stn Main, Parksville, BC V9P 2G7; website: <http://canadianarttherapy.org/>
- Degree programs offered at Adler University's Vancouver Campus have consent of the Minister of Advanced Education, Skills, and Training under the authority of the Degree Authorization Act. The Ministry can be contacted at Ministry of Advanced Education, Skills, and Training, Government of British Columbia, P.O. Box 9080, Stn Prov Govt, Victoria, BC V8W 9E2; website: gov.bc.ca/aetit.
- Adler University is approved to operate and grant degrees in the state of Illinois by the Illinois Board of Higher Education (IBHE). IBHE can be contacted at 431 East Adams St., 2nd Floor, Springfield, IL 62501; website: ibhe.org. In addition to utilizing Adler's complaint resolution processes, students can file complaints with the IBHE at <http://complaints.ibhe.org/>.
- Select Adler University educational programs are approved by the Illinois Department of Veterans' Affairs.
- Adler University is approved by the American Psychological Association and the Illinois Department of Financial & Professional Regulation as a provider of Continuing Education (CE) programs.
- All of Adler's degree programs offered in British Columbia qualify for Education Quality Assurance (EQA) designation, as provided by the Ministry of Advanced Education, Skills, and Training.
- Adler University is an institutional participant in the National Council for State Authorization Reciprocity Agreements (NC-SARA). A list of current, authorized SARA member states is available at www.nc-sara.org/content/sara-state-status. As a participating institution, Adler University adheres to a common set of standards for offering postsecondary distance education among member states, districts, and territories. The Agreement establishes comparable national standards for interstate offering of postsecondary distance education courses and programs.
- Adler University is registered with the Minnesota Office of Higher Education pursuant to Minnesota Statutes sections 136A.61 to 136A.71. Registration is not an endorsement of the institution. Credits earned at the institution may not transfer to all other institutions. Minnesota Office of Higher Education, 1450 Energy Park Dr., Suite 350, St. Paul, MN 55108; www.ohe.state.mn.us; 651-642-0567.

THE UNIVERSITY: AN OVERVIEW

Adler University educates students to engage communities and create a more just society. Established in 1952 to advance the pioneering work of Alfred Adler – who advocated social change to improve community health – the University offers a range of graduate degree programs that focus on graduating socially responsible practitioners, engaging communities, and advancing social justice.

Approximately 1,600 students are enrolled at the University's campuses in downtown Chicago and Vancouver and through our Online Campus. Our Institute and Centers engage students, faculty, practitioners, and communities in applied research and action for social justice. Adler University holds the Community Engagement Classification by the Carnegie Foundation for the Advancement of Teaching, recognizing higher institution practices for exemplary community engagement.

Adler University is named for Alfred Adler (1870–1937), a physician, psychotherapist, and founder of Adlerian psychology. His work pioneered attention to community life, prevention, and population health and emphasized the human need and ability to create positive social change and impact. Alfred Adler held equality, civil rights, mutual respect, and the advancement of democracy as core values. He was one of the first to use public education as a way to address community health and was among the first to write about the social determinants of physical health and mental health. His values and concepts drive the mission, work, and values at Adler University today.

Adler University continues the pioneering work of Alfred Adler by graduating socially responsible practitioners, engaging communities, and advancing social justice. This mission drives our curricula, which have earned national and international recognition. Across all academic programs, coursework and training are embedded with our unique emphasis on socially responsible practice.

Through practica, internships, training, and community engagement with our hundreds of community partners, including government, advocacy, human service, and other agencies at all levels, Adler University students participate in more than 556,000 direct service hours in communities each year.

Campus Facilities

CHICAGO CAMPUS

Adler University
17 North Dearborn St.
Chicago, IL 60602
312.662.4000
adler.edu

Adler University's downtown Chicago facility is the location for its Chicago Campus and for the leadership and administration of the Online Campus. The campus boasts LEED Gold certification for environmental innovation and provides Adler University students with classrooms equipped with state-of-the-art smart technology; a library with dedicated space for instructional support; Mediascape collaborative workspaces; a wellness studio for yoga, meditation, and relaxation; and many other features that support wellness and a collaborative learning environment.

The Chicago Campus is easily accessible by bus, train, or automobile, and features secure bicycle storage facilities. Located near campus are a number of prestigious colleges and universities, government centers, public libraries, lakefront parks, theater and shopping districts, and museums. Major tourist attractions include the Art Institute of Chicago, Water Tower Place, Navy Pier, Auditorium Theatre, Chicago Theater, Oriental Theater, Willis Tower, Shedd Aquarium, Adler Planetarium, and the Field Museum of Natural History.

VANCOUVER CAMPUS

Adler University
520 Seymour St.
Vancouver, BC V6B 3J5
Canada
236.521.2500
adler.edu

The Vancouver Campus is a state-of-the-art facility in downtown Vancouver comprised of 30,500 square feet on five contiguous floors of the building. The campus holds the Gold rating for Leadership in Energy and Environmental Design (LEED). The campus is highly functional, supports the culture of the University, and maintains the identity of the community within. It has considerable open space for collaboration and movement

that creates a positive student experience and connections among students, faculty, and staff while supporting the technology requirements of future generations.

In addition to these features, the building in which the campus is situated includes underground parking, a workout/yoga studio, and a rooftop terrace. The campus is also close to regional transit. Access to the Canada Line, SkyTrain, and SeaBus is within two blocks of the facility, and many of the city's major bus routes converge close to campus.

ONLINE CAMPUS

Adler University
17 North Dearborn St.
Chicago, IL 60602
312.662.4000
adler.edu

The Online Campus brings together Adler University's fully online degree programs under one virtual campus, enabling students to earn advanced degrees wherever they live. Online classes are limited in size to ensure students receive focused faculty attention, mentoring, and academic support. Coursework is developed and delivered by faculty members who are qualified experts in their disciplines, as well as trained in online instruction to meet the industry standards for effective online course design. Administration and staff affiliated with the Online Campus are housed in the Chicago Campus facility.

Mission, Values, and Vision

Adler University continues the pioneering work of Alfred Adler, the first community psychologist, by graduating socially responsible practitioners, engaging communities, and advancing social justice.

The values held by Adler University as relevant to its mission are:

- **Social Interest:** We are part of and invested in community, and we act and collaborate with compassion and social responsibility.
- **Pluralism:** We respect and celebrate human diversity and difference.
- **Courage:** We encourage leadership, innovation, and creativity, act on principle, and challenge the status quo.
- **Excellence:** We embrace the highest level of quality, rigor, and integrity for education, scholarship, performance, and outcomes.
- **Pragmatism:** We are outcome-oriented and evidence-based, and we pursue real-world solutions and measurable results.

The University's vision is to be the leading academic institution advancing socially responsible practice, healthy communities, and a more just society.

Socially Responsible Practice

Advancing the work of Alfred Adler, Adler University and its mission emphasize the importance of educating socially responsible practitioners. Today's social challenges demand highly trained, relevant, and inventive practitioners to address them. No other institution prepares practitioners in the particular way that Adler University prepares socially responsible practitioners because we are uniquely and specifically informed by Alfred Adler's ideas and constructs. *Gemeinschaftsgefühl* – Adler's concept of social interest, or the relationship between health and community – is the foundation upon which we engage in the work of social justice and preparing practitioners to work in our communities.

The ability to engage in socially responsible practice is a required competency in all Adler University degree programs. Attainment of this competency is achieved through practical training, coursework, and other activities. The Social Justice Practicum (SJP) offers students a broad range of community-based experiences; classes provide information on theories and research on the effects of structural and systemic variables on human well-being; and educational and community engagement activities and programs through Adler Community Health Services, the Department of Community Engagement, and the University's institutes and centers provide students with opportunities to learn how to identify and address a wide range of clinical and social issues.

Organization and Governance

Adler University is a private, independent, nonprofit institution of higher education. The University is incorporated in, and operates under, the provisions of the State of Illinois General Not-For-Profit Corporation Act and is declared a 501(c)(3) tax-exempt organization by the U.S. Department of the Treasury. The University is extra-provincially registered under the laws of British Columbia as Adler University.

Rights Reserved

This catalog and its contents are not to be construed as a binding contract between Adler University and the student. The catalog presents the offerings and requirements in effect at the time of publication. Adler University may amend, without prior notice, the policies or procedures as stated in this catalog, Adler University handbooks, and other documents. These changes include, but are not limited to, changes in admission or academic requirements, rules, policies and procedures, tuition, fees, curricula, courses, course content, and graduation requirements. Changes to Adler University's policies, procedures, and requirements affect all students who have not yet graduated. Clarification of matters contained in this catalog or institutional handbooks can be obtained from the directors of the appropriate administrative or academic departments and offices. The University, while always working to communicate changes that affect its learning community, may make such changes as necessary and with or without advance notice. Degree and course offerings and requirements are continually under examination, and revisions are expected.

Adler University reserves the right to refuse to admit or readmit any applicant. Adler University reserves the right to dismiss any student at any time who fails to give satisfactory evidence of academic or clinical ability, earnestness of purpose, acceptable student conduct, or active cooperation in all requirements for acceptable program completion.

Diversity

Celebrating the richness of human diversity is at the heart of Adler University's commitment to social responsibility and is reflected in the content of our curricula and makeup of our community. Apparent differences in race, ethnicity, language, religion, values, beliefs, abilities, class, sexuality, gender, and age are woven into the fabric of excellence at Adler University. At every level of our organization, we invite and embrace diversity of faculty, staff, students, sponsors, trustees, vendors, and our wide range of business partners.

The curricula for all programs provide the opportunity for students to acquire knowledge, skills, and values related to individual and group diversity. Field placements for clinical training are available in areas where the clientele is partly or primarily from traditionally underserved communities.

ADLER UNIVERSITY LIBRARY SERVICES

The Adler University Library plays a key role in the development of socially responsible practitioners and collaborates with faculty to support students in their achievement of the University's institutional learning outcomes at all Adler University campuses. In the service of our mission, we select, organize, present, preserve, and teach the resources that best address the current and anticipated academic needs of our students and faculty.

Faculty librarians specializing in instruction, research, electronic collections, interlibrary borrowing, and distance services guide the discovery and use of essential library resources in all Adler University fields of study. Adler's librarians also provide research guidance and support students in all phases of the research process through one-on-one consultations and in-class workshops that are available to students on all campuses.

Library services for Adler University students and faculty include:

- Individual instruction in the selection and use of catalogs and databases
- Individual and ongoing research consultation for papers, theses, and dissertations
- Discipline- and degree-specific online and face-to-face classroom instruction sessions
- Inter-library delivery of books and articles not owned in our collection
- Identification of Library resources for course enhancement
- A reserves collection of required and recommended class materials

The Library manages access to 56 online databases in the social sciences including peer-reviewed journal article databases, virtual reference libraries, and streaming video collections. The Library also subscribes to more than 700 individual journal titles through single-title subscriptions and journal packages. Through these collections and our article databases, we provide access to discipline-specific, peer-reviewed journals in all Adler University areas of study.

The Library provides access to more than 379,000 unique e-book titles, and the Library's print collection includes 14,300 circulating print books. The Library is also a governing member of the Consortium of Academic and Research Libraries in Illinois (CARLI) and participates in CARLI's I-Share integrated library system composed of 86 college and university member libraries in Illinois. Through I-Share, the Adler University community has access to a combined collection of more than 38 million unique items. The Library is also a member of the Center for Research Libraries (CRL) and the Reaching Across Illinois Library System (RAILS). These memberships enable the Library to participate in resource sharing and collection development programs on a statewide and national scale.

For individual assistance or group instruction, please contact the Library by email (library@adler.edu) or telephone 312.662.4230.

THE CENTER FOR LEARNING AND TEACHING

The Center for Learning and Teaching (CLT) supports and advances Adler University's culture of academic excellence. The CLT serves the students, faculty, and staff of Adler University by fostering the enhancement of professional and academic skills. We promote an atmosphere of inclusion, lifelong learning, and authentic contribution.

The CLT offers writing and research support utilizing individual consultation and technology to provide greater access to all students, faculty, and staff. Information about the resources offered through the CLT are available on Adler Connect. Anyone who would like to receive more information or to offer suggestions for programming may contact the CLT by email (CLT@adler.edu) or telephone (312.662.4200).

DEPARTMENT OF EDUCATIONAL DESIGN AND INNOVATION

The Department of Educational Design and Innovation at Adler University is responsible for ensuring the development of high-quality instructional experiences, including online courses and programs. Beyond the development of courses, the department provides education, training, support, and thought leadership in the areas of online teaching and learning, curriculum development, instructional strategies, innovative delivery formats, and educational technology. The department also supports faculty and administration in developing frameworks for quality teaching and learning in diverse environments. The department collaborates with other departments and offices throughout the University to promote a cohesive learning environment.

ADLER COMMUNITY HEALTH SERVICES

Adler Community Health Services (ACHS), the community-embedded clinical training services entity of Adler University, provides students the opportunity to learn trauma-informed and evidence-based mental health services for underserved populations. ACHS is composed of three divisions: Division of Community Health Chicago; Division of Juvenile Justice Illinois; and Division of Community Health Vancouver.

Both the Division of Community Health Chicago and Division of Juvenile Justice Illinois offer American Psychological Association–accredited doctoral internship programs for students in the Doctor of Psychology in Clinical Psychology program. Both of these Divisions are also members of the Association of Psychology Postdoctoral and Internship Centers (APPIC) and participate in the APPIC match process. The Division of Community Health Chicago has eight APA-accredited internship positions for Adler Chicago and Vancouver PSYD students. The Division of Juvenile Justice Illinois has three APA-accredited internship positions for Adler Chicago PSYD students. The Division of Community Health Vancouver is beginning its first cohort of four doctoral internship placements for students in the Doctor of Psychology in Clinical Psychology program at the Vancouver Campus. This Division is not accredited by the Canadian Psychological Association or the American Psychological Association and does not participate in the APPIC match process. All three Divisions offer practica placements for students in multiple academic programs based on the number of available opportunities at its contracted clinical community partner sites.

ACHS forms partnerships with community-based service agencies that are unable to offer mental health services on their own. ACHS contracts with these community-based service agencies to deliver a wide range of mental health services provided through its student trainees and supervised by registered/licensed clinical supervisors. Clinical services students engage in individual and group psychotherapy; couple and family therapy; neuropsychological, personality, and cognitive-ability assessment; support groups; parenting groups; consultation; and/or psychoeducational programs.

Interns and externs will be assigned to one or more community sites based on their interests, training and educational needs, availability of sites and opportunities, and the clinical skill level of the student trainees. In addition to providing direct clinical service, trainees receive individual, group, and peer supervision, may participate in case management and case disposition meetings, and attend didactic presentations and seminars.

For complete information on all three Divisions of ACHS, please visit www.adler.edu/achs.

THE INSTITUTE ON PUBLIC SAFETY AND SOCIAL JUSTICE

The purpose of the Institute on Public Safety and Social Justice (IPSSJ) is to meet public safety challenges with socially just solutions. We work with community groups, peer institutions, and systems partners to address public safety challenges. By forging creative collaborations, we can devise empirically sound methods beyond mere suppression to create environments where a more lasting and meaningful sense of peace and wellness can prevail. We believe that by working together and bringing all concerned people into the mix, we can improve urban safety outcomes by enhancing human potential and community wellness.

Rather than rely completely on safety strategies that isolate and confine, we strive to develop transformative alternatives that restore people, families, and neighborhoods to their optimal functionality. By mobilizing the wisdom and assets of stakeholders at all levels, IPSSJ seeks to shift the tide in public safety thinking and create momentum for 21st century solutions that strengthen communities, protect families, and bring people closer together. We aim to create communities where all people can reach their full potential.

Every time we remove someone from society, there are serious, long-term consequences. While this is often a necessary step in protecting family and/or community members, our society has become far too reliant on strategies of confinement and control. We must rediscover our capacity for lifting up all members of our society, no matter their needs, challenges, or personal traumas. By focusing on peoples' potential – rather than just their negative behaviors – we can begin to build stronger and safer neighborhoods. We believe that real safety is the result of vibrant communities and systems that promote self-reliance, interdependence, and accountability.

IPSSJ addresses the following objectives through community collaboration, public education, and applied research:

- Working to build public safety systems that heal and address trauma rather than recreate it
- Helping organizations plan strategies that promote functionality and wellness
- Supporting a cultural shift away from punishment and toward positive human and community development

THE CENTER FOR ADLERIAN PRACTICE AND SCHOLARSHIP

The mission of the Center for Adlerian Practice and Scholarship is to maintain, promote, and develop the core theory, research, and methods of Adlerian psychology, its foundational roots, and best practice applications in schools, at home, in clinical settings, in the workplace, and in the community.

The Center's areas of focus include education, training, consultations, and curriculum design on Adlerian approaches to human development, organizational development, human communities, counseling and psychotherapy, and teaching for Adler University faculty, staff, students, alumni, site supervisors, and community partners, on all three campuses, face-to-face, and online. For more information, please visit adler.edu/page/community-engagement/center-for-adlerian-practice-and-scholarship/about.

UNIVERSITY POLICIES

Credit Hour Policy

Adler University assigns and awards credit hours that conform to commonly accepted practices in higher education and comply with federal standards. A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:

- Students are expected to be in class 825 minutes per credit earned. For a one credit class, this would be 825 minutes. They are expected to be engaged in two hours of outside-of-class activities for every hour they are in class, so approximately 30 hours.
- At least an equivalent amount of work as required in paragraph (1) of this definition for other activities as established by the institution, including laboratory work, internships, practica, internship, independent study, studio work, and other academic work leading to the award of credit hours.
- Adler University operates on a semester calendar. A semester is defined as a term of 16 weeks. Instruction is scheduled over three terms: fall, spring, and summer. Standard length courses run for 15 weeks of the 16-week term. Adler University offers courses throughout the academic year in sessions of varying lengths shorter than the full semester.
- For traditional lecture-discussion and seminar courses, a one-credit-hour class meets for no less than 55 minutes per week over the course of a semester (15 weeks of instruction).

A one-credit class requires a minimum of:

- 825 minutes of contact per semester
- 30 hours of outside work per semester

A two-credit class requires a minimum of:

- 1650 minutes of contact per semester
- 60 hours of outside work per semester

A three-credit class requires a minimum of:

- 2475 minutes of contact per semester
- 90 hours of outside work per semester

Short-Term Courses: Courses offered over an abbreviated period of time will require the same amount of classroom and out-of-class work per credit hour as required of semester-long courses, with work distributed over the shorter period of time.

Practicum, Fieldwork, and Internship: These courses require the completion of an institutionally sanctioned academic activity that is equivalent to the amount of work stipulated in paragraph (1) that may occur over a different amount of time.

Online and Hybrid Courses: The expectation of contact time and student effort outside the class is the same as in traditional courses. A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not fewer than the same amount of classroom and out-of-class work per credit hour as required of semester-long courses.

Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) of 1974, as amended, sets forth requirements regarding the privacy of student records and affords students certain rights with respect to their education records. Although FERPA contains exceptions for the release of “directory information” without a student’s prior written consent, students have the right to request that even such directory information be withheld from disclosure to third parties. Applicants who are not admitted to Adler University or who do not matriculate following admission have no right of access to their submitted education records.

Education records include any information or documentation that is recorded in any way, including records produced by handwriting, computer, email, audio, video, handwritten, emailed, electronic, computer, audio, and video content created or submitted by students for class assignments, among others. Educational records contain information directly related to a student and are maintained by Adler University or any party acting on its behalf. Adler University does not maintain education records in one central office. Education records are maintained in the Office of the Registrar and in the respective academic program and department offices. Other education records are maintained in Financial Aid (financial aid information), Student Accounts (financial account payment information), Student Affairs, the Office of Community Engagement, the Training Department, and other offices. Questions regarding individual student records should be directed to the appropriate department.

Adler does not release copies of students’ transcripts from other institutions. Students are encouraged to contact their previous institutions for copies of their transcripts.

FERPA provides students the following rights:

- To inspect and review educational records by submitting a written request to the Office of the Registrar. Requests can take up to 45 days. Students should submit to the Office of the Registrar, Dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The Adler University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Adler University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
- To request the amendment of the student’s educational records that the student believes are inaccurate or misleading. Students may ask the University to amend records that they believe are inaccurate. The student should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
- To consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent, such as directory information. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff), or a person or company with whom the University has contracted (such as an attorney, auditor, collection agent, or the National Student Clearinghouse). A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

- Students who believe their privacy has been violated have the right to file a written grievance with the Office of the Registrar by following the Student Complaint policy and procedures online at adler.edu.
- Students are informed of their rights under FERPA each October by the Office of the Registrar. The annual FERPA notice is located on the Office of the Registrar page on Adler Connect. For the annual notice, please go to <https://connect.adler.edu/studentservices/registrar>. Given the restrictions of FERPA, Adler University faculty and staff and any entity acting on behalf of Adler University should assume that all students must provide written consent that follows the format specified in FERPA before any education records may be released to anyone other than the student. Information cannot be released to any third party, including a student's parents, relatives, and friends. Particularly sensitive information includes a student's Social Security number, race or ethnicity, gender, nationality, academic performance, disciplinary records, and grades.

DIRECTORY INFORMATION

Certain information classified by Adler University as "directory information" may be disclosed to the public at the discretion of the appropriate Adler University representative without obtaining the student's permission. The items classified as directory information include:

- Student's full name
- Local and permanent addresses
- Local and permanent phone numbers
- Adler University email address
- Date and place of birth
- Enrollment status
- Major and minor field(s) of study, including the college, division, department, or program in which the student is enrolled
- Dates of attendance and graduation, and degrees received
- Previous colleges/universities attended
- Degrees earned at previous colleges/universities
- Picture

Adler University reserves the right to ask for additional information, such as a written release from a student, before releasing directory information or denying any request for directory information.

Students may restrict the release of any item of information considered directory information by submitting a written request via their Adler University email account to their campus Office of the Registrar. The decision to restrict directory information will apply to all requests for directory information from within and outside Adler University, including prospective employers. These restrictions will remain in effect until the Office of the Registrar is informed in writing to remove the restrictions.

Students may restrict the release of any item of information considered directory information by submitting a written request via their Adler University email account to their campus's Office of the Registrar. The decision to restrict directory information will apply to all requests for directory information from within and outside Adler University, including prospective employers. These restrictions will remain in effect until the Office of the Registrar is informed in writing to remove the restrictions.

COMMENCEMENT/GRADUATION ACTIVITIES

The Degree Completion and Graduation Application signals a student is nearing completion of their degree program. By submitting the Degree Completion and Graduation Application, the student is giving permission to the University to print the following information in any Adler University graduation program and/or announce this information at any Adler University commencement ceremony: the student's name, their Adler degree, and any other academic credentials completed by the student at Adler.

If a restriction on directory information request was previously submitted, the student's signature and/or submission of the Degree Completion and Graduation Application temporarily releases (for graduation ceremony/program purposes only) the directory information restrictions enacted by the student so the information can be published in any Adler University graduation program and/or announced at any Adler University commencement ceremony. In addition, the student's signature permits Adler University to release the student's name and address to the external photographer/videographer vendor with whom Adler contracts and to have the vendor place graduation photographs of the student on its website. The recording of the graduation ceremony could also appear on the Adler University website and/or social media sites, including, but not limited to, YouTube, Twitter, and Facebook.

If there are questions about how the information will be used for graduation or commencement purposes, please speak with the Office of the Registrar before signing and/or submitting the Degree Completion and Graduation Application.

RECORDS OF DECEASED STUDENTS

Adler University does not permit the release of education record information of a deceased student unless required by law and/or authorized by the executor of the deceased student's estate, or parents or next of kin if an executor has not been appointed. Inquiries regarding this policy should be made to the Office of the Registrar.

MAILING LISTS

Adler University does not release the names, addresses, phone numbers, or email addresses of its current or former students as mailing lists unless required to by law (i.e., the Solomon Amendment).

ADDITIONAL QUESTIONS

The Office of the Registrar is the compliance office for FERPA at Adler University. If there are additional questions, please contact your campus Office of the Registrar.

Personal Information Protection Act (PIPA) – Vancouver Campus

British Columbia's Personal Information Protection Act (PIPA) sets out the rules for how private sector and nonprofit organizations, such as Adler University, may collect, use, or disclose information about its students.

Adler University collects relevant personal information about its students and has processes in place to protect the privacy of these records. Student records will not be disclosed to a third party unless the student has given written consent or the request qualifies as a legal exception. To release their information to a third party, students must complete and submit the FERPA-PIPA document release form online at adler.edu.

Students have access to their academic file through the Office of the Registrar. Students who wish to see the contents of their academic file should submit a written request to the Office of the Registrar. The Office of the Registrar can take up to 30 days to respond to a student request. Students can submit correspondence to be filed in their academic file to the Office of the Registrar.

Students who believe that their privacy rights have been violated have the right to file a written complaint with the University Commissioner. The designated University Commissioner is the Vancouver Campus Executive Dean. The University Commissioner can conduct an investigation and will respond to the complaint in writing. For questions about confidentiality of records and privacy of students, please contact the Dean of the Vancouver Campus at 236.521.2401. If the concern is not resolved with the University Commissioner, students can contact the Office of the Information and Privacy Commissioner for British Columbia at info@oipc.bc.ca.

Students with Disabilities

It is the policy of Adler University to offer reasonable accommodations to students with qualified disabilities in accordance with the Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973 and the B.C. Human Rights Code. If a student with a disability wishes to receive accommodations in order to participate in the courses, programs, or activities offered by the University, the student may request accommodations by contacting the Office of Student Affairs. The use of these services is voluntary and confidential. Students must request accommodations prior to the implementation of needed accommodations. Accommodations cannot be applied retroactively.

Any student with an appropriately documented disability, including psychological, medical, physical, visual, hearing, and learning disabilities, is eligible for reasonable accommodations. Faculty should direct all students with inquiries or concerns regarding disabilities or accommodations to the Office of Student Affairs, whose staff will work directly with students to develop reasonable accommodation plans. The Office of Student Affairs will work with any faculty member regarding the provision of reasonable accommodations to students with documented disabilities. Students seeking accommodations on the Vancouver Campus should contact the Director of Admissions and Student Services.

Active Duty Military

Adler University will promptly readmit a service member returning from active duty with the same academic status and enrollment status, to the same program to which the student was last admitted. (If that exact program is no longer offered, the student will be admitted to the program that is most similar to the former program, unless the student requests or agrees to admission to a different program.) The student will be readmitted with the same number of credit hours completed previously (unless the student is readmitted to a different program to which the completed credit hours or clock hours are not transferable).

A student going on a military leave must give advance electronic or written notice of service to the University, and to be readmitted, a student must provide proper documentation as listed in 34 CFR 668.18 (g). For the Active Duty Military Readmission policy to apply, the cumulative length of the absence, and of all previous absences from Adler University by reason of service, cannot exceed five years. A student must apply for readmission no later than three years after the completion of the period of service (unless a student is hospitalized and recovering from injuries suffered during service). Adler is not required to readmit a student, after undertaking reasonable efforts, if it determines that the student is not prepared to resume the program at the point where the student left off.

When a student is readmitted to the same program, for the first academic year in which the student returns, the student is assessed the tuition and fee charges that the student was or would have been assessed for the academic year during which the student left the University. However, if his or her veterans' education benefits or other service member education benefits will pay the higher tuition and fee charges that other students in the program are paying for the year, Adler will assess those fees as well.

FINANCIAL RESPONSIBILITY POLICY – CHICAGO AND ONLINE CAMPUSES

Payment of Fees/Promise to Pay

Students understand that when they register for any class at Adler University or receive any service from Adler University, they accept full responsibility to pay all tuition, fees, and other associated costs assessed as a result of their registration and/or receipt of services. Students further understand and agree that their registration and acceptance of these terms constitutes a promissory note agreement (i.e., a financial obligation in the form of an educational loan as defined by the U.S. Bankruptcy Code at 11 U.S.C. §523(a)(8)) in which Adler University is providing the students with educational services, deferring some or all of their payment obligation for those services, and they promise to pay for all assessed tuition, fees, and other associated costs by the published or assigned due date).

Students understand and agree that if they drop or withdraw from some or all the classes for which they register, they will be responsible for paying all or a portion of tuition and fees in accordance with the published tuition refund schedule at Adler University located at <https://connect.adler.edu/student-services/student-accounts/Pages/policies.aspx#refunds>.

Students have read the terms and conditions of the published tuition refund schedule and understand those terms are incorporated herein by reference. Students further understand that their failure to attend class or receive a bill does not absolve them of their financial responsibility as described above.

Delinquent Account/Collection

Financial Hold: Students understand and agree that if they fail to pay their student account bill or any monies due to Adler University by the scheduled due date, Adler University will place a financial hold on their student account, preventing them from registering for future classes, requesting transcripts, or receiving their diploma.

Late Payment Charge: Students understand and agree that if they fail to pay their student account bill or any monies due to Adler University by the scheduled due date, Adler University will assess late payment and/or finance charges at the rate of two percent (2%) per month on the past due portion of their student account.

Collection Agency Fees: Students understand and accept that if they fail to pay their student account bill or any monies due to Adler University by the scheduled due date and fail to make acceptable payment arrangements to bring their account current, Adler University may refer their delinquent account to a collection agency. Students further understand that if Adler University refers their student account balance to a third party for collection, a collection fee will be assessed and will be due in full at the time of the referral to the third party. The collection fee will be calculated at the maximum amount permitted by applicable law, but not to exceed thirty percent (30%) of the amount outstanding of the past due balance. For purposes of this provision, the third party may be a debt collection company or an attorney. If a lawsuit is filed to recover an outstanding balance, students shall also be responsible for any costs associated with the lawsuit, such as court costs. Finally, students understand that their delinquent account may be reported to one or more of the national credit bureaus.

NONDISCRIMINATION AND ANTI-HARASSMENT POLICY AND PROCEDURES – CHICAGO AND ONLINE CAMPUSES

It is the policy of Adler University that no person shall be the object of discrimination or harassment on the basis of race, color, creed, ancestry, ethnicity, religion, sex, gender, sexual orientation, gender identity or expression, body size and shape, national origin, political belief, age, marital status, family relationship status, parental status, physical or mental disability, status as a victim of domestic violence, arrest record, pregnancy, childbirth (including but not limited to conditions related to pregnancy or childbirth), genetic information, citizenship status, military or veteran status (including unfavorable military discharge), conviction of criminal offense that is unrelated to the employment or the intended employment of that person, or any other status protected by local or federal law in employment or educational settings (“Prohibited Grounds”).

The University is committed to maintaining an environment that is free of discrimination and harassment. In keeping with this commitment, we will not tolerate harassment of University employees, students, or others by anyone, including any supervisor, co-worker, vendor, client, or student of the University, or any third party. Adler University reserves the right to take actions that are consistent with its policies and procedures to deal with individuals found to have engaged in harassment, discrimination, and/or retaliation in violation of this Policy. Please see the Employee Handbook for the Respectful Workplace Policy.

1. Prohibited Discrimination

Discrimination means any form of unequal treatment – whether that treatment imposes extra burdens or denies benefits – based on any of the Prohibited Grounds. Discrimination may be intentional or unintentional. It may involve direct actions that are discriminatory on their face, or it may involve rules, practices, or procedures that appear neutral but have the effect of disadvantaging any protected group of people. Discrimination may take obvious forms, or it may occur in very subtle ways. In any case, even if there are many factors affecting a decision or action, if discrimination is one factor, that is a violation of this Policy.

2. Prohibited Harassment

Harassment is a form of discrimination. Harassment means an incident or a course of comments or actions that are known, or ought reasonably to be known, to be unwelcome. It can involve words or actions that are known, or ought reasonably to be known, to be offensive, embarrassing, humiliating, demeaning, or unwelcome. This includes any microaggression or macroaggression, defined as a statement, action, or incident regarded as an instance of indirect, subtle, or unintentional discrimination against members of a marginalized group such as a racial or ethnic minority.

Examples of harassment include but are not limited to:

- Making remarks, jokes, or innuendos related to an individual’s race, disability, religion, age, or any of the Prohibited Grounds of discrimination
- Displaying or circulating offensive pictures, graffiti, or materials related to any of the Prohibited Grounds, whether in print form or via e-mail or other electronic means
- Singling out an individual for humiliating or demeaning “teasing” or jokes because the individual is a member of a protected group
- Ridiculing an individual because of dress, language, or other characteristic that is related to any of the Prohibited Grounds

Sexual harassment is a form of harassment that can include:

- Unwelcome remarks, jokes, or innuendoes about gender, sex, or sexual orientation

- Unwanted comments or questions about an individual’s personal life
- Refusal to work with others because of their sex or sexual orientation
- Display or distribution of sexually explicit or otherwise offensive material through print or electronic media
- Derogatory or degrading comments about a person’s body
- Leering or other offensive or sexually aggressive gestures
- Unwelcome advances, invitations, or propositions of a sexual nature or repeated invitations after previous requests have been refused
- Advances, invitations, or propositions of a sexual nature which might on reasonable grounds be perceived as placing a condition on a person’s future employment, assignments, or opportunity for promotion or training
- Unwanted physical contact or verbal abuse or threats of a sexual nature

An extreme form of sexual harassment includes sexual assault. Sexual assault is a form of sexual misconduct and is an attempt, coupled with the ability, to commit a violent injury on the person of another because of that person’s gender or sex. Any person who may experience a sexual assault has the right to pursue all options to address this behavior including processes internal to Adler University, as well as any legal and civil options. This Policy does not preclude an individual at any time during the process from contacting law enforcement to file a report of sexual assault.

To file a complaint of sexual assault, any person may contact one of the Title IX coordinators identified in this Policy and may also get assistance by calling the police (911) and/or by going to a local emergency room. Please see the Human Resources/People and Culture page on Adler Connect for the University’s Title IX Policy.

3. Sexual Harassment – Consensual Relationships

Romantic/sexual relationships that might be appropriate in other circumstances present serious difficulties within the University community. Relationships between individuals in inherently unequal positions (such as teacher and student, supervisor and employee) undermine the real or perceived integrity of the supervision and evaluation process, as well as affect the trust inherent in the educational environment. Consensual romantic or sexual relationships in which one party is in a position to review work or influence the career of the other provides grounds for complaint when that relationship gives undue access or advantage to, restricts opportunities of, or creates a hostile, unethical, and unacceptable environment for one of the parties to the relationship, or for others. For these reasons, the University prohibits any employee of the University to engage in a consensual romantic or sexual relationship with any University student or any University employee under their supervision.

Consent will generally not be considered a defense against a charge of sexual harassment in violation of this Policy. The determination of what constitutes sexual harassment depends on the specific facts and the context in which the conduct occurs. Please see the Employee Handbook for the University’s Workplace Violence Policy.

4. Prohibited Retaliation

Adler University prohibits retaliation and the threat of retaliation against any person (including complainants, respondents, and witnesses) exercising their rights and/or responsibilities in good faith under this Policy or federal or local law prohibiting discrimination, harassment, or retaliation. For purposes of this Policy, retaliation includes any conduct directed against an individual or someone affiliated with the individual, on the basis of, or in reaction to, the exercise of rights accorded and/or defined by this Policy, or federal, provincial, or local law, that is likely to dissuade the individual from exercising their rights in the future.

Claims of retaliation will be investigated and if substantiated, constitute a separate violation of this Policy. Any acts of retaliation will be subject to appropriate disciplinary action, including but not limited to reprimand, change in work assignment, loss of privileges, mandatory training, suspension, and/or termination.

Adler University takes good faith complaints of discrimination, harassment, and/or retaliation seriously. Individuals who knowingly make false allegations under this Policy may be subject to disciplinary action, including but not limited to reprimand, suspension, and/or termination.

5. Complaints of Discrimination, Harassment, or Retaliation

The Office of People and Culture (OPC) is responsible for receiving, processing, and investigating complaints of discrimination, harassment, and/or retaliation involving employees of Adler University, as well as vendors, clients, and other third parties.

A student may file a complaint with the OPC as long as it concerns the actions of a University faculty or staff employee, vendor, client, or any third party with whom the University has interaction. Complaints should be directed to the Office of People and Culture (Chicago and Online Campus) at 312.662.4415 or to the Executive Dean, Vancouver Campus (Vancouver Campus) at 236-521-2401.

The Division of Student Affairs (DSA) is responsible for receiving, processing, and investigating complaints of discrimination, harassment, and/or retaliation involving student complaints against other students. Students who wish to make such a complaint may contact the Office of Student Affairs (Chicago and Online Campus) at 312.662.4141 or the Manager, Student Services (Vancouver Campus) at 236-521-2433.

Employees or students who report incidents of discrimination, harassment, and/or retaliation may bring a support person with them to OPC or DSA when filing the complaint. Every effort will be made to help employees and/or students through the process in a respectful and supportive manner. Employees who hear about incidents of discrimination, harassment, and/or retaliation from students are expected to review this Policy with them and work with the student to bring forward the complaint to the appropriate office (OPC or DSA).

There are multiple channels for the reporting of violations of this Policy. If any person believes they have been the subject of, or have witnessed, or are aware of discrimination, harassment, or retaliation, they should make a complaint as soon as possible to the OPC and/or the DSA, or to their supervisor, Chair or Program Director, or Executive Dean. If an individual contacts their supervisor, Chair or Program Director, or Executive Dean, this person must direct the individual to OPC or DSA based on the nature of the complaint. Formal complaints must be received by OPC or DSA from the person filing the complaint.

The University's ability to investigate a complaint may be harmed if it is not made within a reasonable time period after the alleged occurrence(s). The University therefore strongly encourages complainants to contact the OPC and/or the DSA as soon as possible, to the extent practicable, after the alleged conduct. While the University acknowledges it is often difficult to come forward in a timely fashion, it advises that complaints be filed as soon as possible and within 120 days of the alleged occurrence(s). All members of Adler University who serve in a supervisory capacity are responsible for relaying all complaints of discrimination, harassment, or retaliation that come to their attention as supervisors and that may be in violation of this Policy to the Vice President of People and Culture at 312.662.4415 or to the Executive Dean, Vancouver Campus at 236.521.2401.

Adler University strongly encourages individuals to make a complaint as soon as possible after the alleged conduct. The quicker a complaint of discrimination, harassment, or retaliation is made, the better the

University will be able to investigate the complaint. A complainant should receive an acknowledgement of receipt from the OPC and/or DSA within ten (10) business days of filing a complaint. If this does not occur, then that person should directly contact the OPC and/or DSA to confirm receipt of original complaint.

If a criminal investigation is pursued by a person filing a complaint, such investigations can be conducted concurrently to any internal investigation conducted by Adler University.

6. Investigation and Resolution Process

When the OPC or the DSA, or both, receive a complaint of discrimination, harassment, and/or retaliation, they will promptly designate an individual to investigate the allegation in a fair and expeditious manner. The role of the investigator is to conduct a neutral investigation and then to make a finding as to whether or not a policy violation exists. The investigator can also make recommendations regarding disciplinary actions to be reviewed by the appropriate University officials (see Resolution of Complaint section below). In rare instances, the OPC or DSA may engage an external investigator for some or all portions of the investigation at the discretion of the University.

Every complaint is based on its own facts and circumstances, which can impact the course of the investigation. The following is an outline of the procedure generally followed once a complaint has been brought to the attention of the OPC and/or the DSA.

At any time in the process, a complaint may be resolved voluntarily prior to the completion of the investigation process when the issues have been addressed to the satisfaction of the parties involved, and in consultation with the OPC and/or the DSA.

A. Filing a Complaint

If any person believes they have been the subject of, or have witnessed, or are aware of discrimination, harassment, or retaliation, they should make a complaint as soon as possible to the Office of People and Culture (OPC) and/or the Division of Student Affairs (DSA). An individual may also contact their supervisor, Chair or Program Director, or Executive Dean who will then support and direct the person to OPC or DSA based on the nature of the complaint. Formal complaints must be received by OPC or DSA from the person filing the complaint.

For a complaint against an employee of Adler, as well as vendors, clients, and other third parties:

Chicago and Online Campus

Office of People and Culture
17 North Dearborn St., Suite 16-200
Chicago, IL 60602
312.662.4415

Vancouver Campus

Executive Dean, Vancouver Campus
520 Seymour Street
Vancouver, BC V6B 3J5
236.521.2401

For a complaint against a student:

Chicago and Online Campus

Division of Student Affairs
17 North Dearborn Street
Chicago, IL 60602
312.662.4141

Vancouver Campus

Manager, Student Services
520 Seymour Street
Vancouver, BC V6B 3J5
236.521.2401

B. Processing a Complaint

In processing a complaint, the OHR and/or DSA will:

- Acknowledge receipt of the complaint in writing
- Work closely with the person filing the complaint to provide supportive resources, (e.g., connection with Adler Student Assistance Program or Employee Assistance Program) as they move through the process. Consideration of the need for self-care and resources to address any trauma response related to the complaint will be a high priority
- Collect and retain documents and information related to the complaint in a secure and locked location within OPC or DSA as required by law within the jurisdiction in which the complaint is filed
- Conduct a preliminary assessment of allegations to determine whether the alleged conduct, if substantiated, could constitute a violation of this Policy

C. Fact-Finding

The specific fact-finding steps may vary depending on the facts and circumstances of the complaint. Generally speaking, an investigator will:

- Inform the complainant and respondent of the start of the investigation
- Collect and review relevant documentation
- Interview complainant, respondent, and witnesses to the reported event or events. The complainant and respondent are permitted and encouraged to bring a support person to this meeting
- Prepare a summary of the investigation and the findings for the OPC and/or DSA. Findings will be determined utilizing a preponderance-of-the-evidence standard after examining the entirety of the information available at the time of the investigation

D. Resolution of Complaint

The OPC and DSA are charged, as appropriate, with the responsibility of investigating complaints of discrimination, harassment, and/or retaliation, making findings, and reporting their findings to the appropriate relevant University officials.

Depending upon the nature of the complaint and findings, the appropriate University officials will be notified and may include, but are not limited to the supervisor department heads of the complainant and respondent, the Vice President of Administration, the Vice President of Finance, the Vice President of Academic Affairs or Executive Dean, the applicable Chair or Program Director, and the Office of the President. In cases in which policy violations and/or findings and recommendations are presented involving students, the DSA will also notify the Student Development Committee or Student Comprehensive Evaluation Committee.

The OPC and/or the DSA will provide written notification to the complainant, respondent, and the appropriate University officials of its findings and recommendations. A face-to-face meeting will generally accompany the written documentation.

Following the investigation, if the OPC or the DSA determines that the Nondiscrimination and Anti-Harassment Policy has been violated, it will work with the appropriate University officials to recommend appropriate corrective action, up to and including discharge/expulsion.

Whether or not the Nondiscrimination and Anti-Harassment Policy is deemed to have been conclusively violated, it is acknowledged that conflicts that make their way through a complaint process may result in schisms that create ongoing resentments between parties.

It is the goal of the process that examines conflict to acknowledge and not vilify any party to a conflict. Additionally, in an effort to restore the community to its highest form of function, a restorative justice process may be made available to all sides of a conflict, should all sides voluntarily choose to participate. This would entail a separate restorative justice practitioner meeting with each party to the conflict to fully understand the residual harm the individual is experiencing due to the conflict. Each party will also be asked if they are interested in participating in a restorative justice process that allows each party to bring a support person, to discuss residual harm, and to create a repair-of-harm agreement in collaboration with the restorative practitioner. If all parties desire to participate voluntarily in a restorative justice process, it will be arranged.

Supervisors, department heads, and other Adler University managers have the responsibility for implementing appropriate corrective action. The OPC may advise in the implementation of corrective action and may monitor the implementation of the corrective actions. To the extent that the OPC concludes that other University policies may have been violated by the reported conduct, the appropriate University official(s) will be notified.

E. Confidentiality

The OPC and DSA are committed to balancing the interests of all parties involved in discrimination, harassment, and/or retaliation complaints. To the extent possible, the OPC and DSA will limit the disclosure of information related to the complaint and its investigation. Nonetheless, due to the nature of the investigative process, the OPC and DSA cannot promise confidentiality of any information received in a complaint or during an investigation.

The files of complaints will be maintained in the appropriate office – either the OPC or the DSA, depending upon the nature of the complaint and the office that is charged with investigation. Documents and information collected by the OPC or DSA through its investigation of the complaint will not be kept in relevant personnel or academic records, except that any discipline or sanction imposed as a result of a policy violation will be documented in the disciplined individual's personnel or academic record in accordance with applicable University procedures.

F. Other Resources

Although the University encourages employees and students to utilize the complaint process described above to resolve any complaints, use of this process does not prohibit an employee or student from filing a complaint with external agencies at any time. Employees or students may file a formal complaint with various external agencies, to include, but not be limited to, the government agencies listed below. Online students can file a claim at the EEOC agency in the state in which they live and/or the EEOC in Illinois.

The U.S. Equal Employment Opportunity Commission

500 West Madison St., Suite 2800
Chicago, IL 60661
312.353.2713

7. Discipline for Discrimination or Harassment

Any employee, whether co-worker, supervisor, or manager, who is found to have engaged in discrimination or harassment contrary to this Policy will be subject to appropriate disciplinary action, up to and including termination of employment.

Any employee, whether co-worker, supervisor or manager, who is found to have known about discrimination or harassing behavior and who took no action to report it or to stop it, may be subject to appropriate disciplinary action, up to and including termination of employment.

Any student who is found to have engaged in discrimination or harassment contrary to this Policy will be subject to appropriate disciplinary action, up to and including dismissal from their degree program.

8. Appeal Procedures

The respondent has the right to submit an appeal. An individual who wishes to appeal part or all of the outcome of the University's investigation must submit a written appeal to the President of the University within ten (10) days of being notified of the outcome of the investigation. Appeals of the decision or the sanctions may be filed on grounds of:

- New, relevant, and substantive information not previously available and sufficient to substantially alter the outcome
- Allegations that the investigator deviated from the investigation and resolution process outlined in the Policy in a way that substantially altered the outcome of the case or influenced the nature of the sanction
- The sanction is disproportionate with the violation (i.e., excessively harsh or excessively lenient)

The President may affirm the outcome or sanctions, modify either or both, impose new sanctions and/or remedies, or may return the matter for further investigation. The President will issue a determination within fourteen (14) days after receiving the individual's submissions, unless the President determines in their discretion that more time is required. The individual will be notified in writing of the outcome of the appeal within seven (7) days after the conclusion of the review of findings or sanctions, including any changes to the determination of whether a violation occurred, the sanctions, or both. The decision of the President is final.

NONDISCRIMINATION AND ANTI-HARASSMENT POLICY AND PROCEDURES – VANCOUVER CAMPUS

It is the policy of Adler University that no person shall be the object of discrimination or harassment on the basis of race, colour, ancestry, nationality, religion, sex, sexual orientation, gender identity or expression, body size and shape, place of origin, political belief, age, marital status, family status, physical or mental disability, past or current occupation, or because the person has been convicted of a criminal or summary conviction offence that is unrelated to the employment or the intended employment of that person, or any other status protected by local, provincial, or federal law in its employment or its educational settings ("Prohibited Grounds").

The University is committed to maintaining an environment that is free of discrimination and harassment. In keeping with this commitment, we will not tolerate harassment of University employees, students, or others by anyone, including any supervisor, co-worker, vendor, client, or student of the University, or any third party. Adler University reserves the right to take actions that are consistent with its policies and procedures to deal with individuals found to have engaged in harassment, discrimination, and/or retaliation in violation of this Policy. Please see the Employee Handbook for the Respectful Workplace Policy.

1. Prohibited Discrimination

Discrimination means any form of unequal treatment – whether that treatment imposes extra burdens or denies benefits – based on any of the Prohibited Grounds. Discrimination may be intentional or unintentional. It may involve direct actions that are discriminatory on their face, or it may involve rules, practices, or procedures that appear neutral, but have the effect of disadvantaging any protected group of people. Discrimination may take obvious forms, or it may occur in very subtle ways. In any case, even if there are many factors affecting a decision or action, if discrimination is one factor, that is a violation of this Policy.

2. Prohibited Harassment

Harassment is a form of discrimination. Harassment means an incident, and/or course of comments or actions that are known, or ought reasonably to be known, to be unwelcome. It can involve words or actions that are known or ought reasonably to be known to be offensive, embarrassing, humiliating, demeaning, or unwelcome. This includes any microaggression or macroaggression, defined as a statement, action, or incident regarded as an instance of indirect, subtle, or unintentional discrimination against members of a marginalized group such as a racial or ethnic minority.

Examples of harassment include but are not limited to:

- Making remarks, jokes, or innuendos related to an individual's race, disability, religion, age, or any of the Prohibited Grounds of discrimination
- Displaying or circulating offensive pictures, graffiti, or materials related to any of the Prohibited Grounds, whether in print form or via e-mail or other electronic means
- Singling out an individual for humiliating or demeaning "teasing" or jokes because the individual is a member of a protected group
- Ridiculing an individual because of dress, language, or other characteristic that is related to any of the Prohibited Grounds

Sexual harassment is a form of harassment that can include:

- Unwelcome remarks, jokes, or innuendoes about gender, sex, or sexual orientation
- Unwanted comments or questions about an individual's personal life
- Refusing to work with others because of their sex or sexual orientation
- Displaying or distributing sexually explicit or otherwise offensive material through print or electronic media
- Derogatory or degrading comments about a person's body
- Leering or other offensive or sexually aggressive gestures
- Unwelcome advances, invitations, or propositions of a sexual nature or repeated invitations after previous requests have been refused
- Advances, invitations, or propositions of sexual nature, which might, on reasonable grounds, be perceived as placing a condition on a person's future employment, assignments, or opportunity for promotion or training
- Unwanted physical contact or verbal abuse or threats of a sexual nature

An extreme form of sexual harassment includes sexual assault. Sexual assault is a form of sexual misconduct and may include an attempt, coupled with the ability, to commit a violent injury on the person of another because of that person's gender or sex. Any person who may experience a sexual assault has the right to pursue all options to address this behavior including processes internal to Adler University, as well as any legal and civil options. This Policy does not preclude an individual at any time during the process from contacting law enforcement to file a report of sexual assault. Please click on the link for the Canadian Criminal code on sexual assault: <https://www.sexassault.ca/criminalprocess.htm>.

To file a complaint of sexual assault, any person may contact one of the Title IX coordinators identified in this Policy, and may also get assistance by calling the police (911) and/or by going to a local emergency room. Please see the Human Resources/People and Culture page on Adler Connect for the University's Title IX Policy.

3. Sexual Harassment – Consensual Relationships

Romantic/sexual relationships that might be appropriate in other circumstances present serious difficulties within the University community. Relationships between individuals in inherently unequal positions (such as teacher and student, supervisor and employee) undermine the real or perceived integrity of the supervision and evaluation process, as well as affect the trust inherent in the educational environment. Consensual romantic or sexual relationships in which one party is in a position to review work, or influence the career of the other, provides grounds for complaint when that relationship gives undue access or advantage to, restricts opportunities of, or creates a hostile, unethical and unacceptable environment for one of the parties to the relationship, or for others. For these reasons, the University prohibits any employee of the University to engage in a consensual relationship with any University student or any University employee under their supervision.

Consent will generally not be considered a defense against a charge of sexual harassment in violation of this Policy. The determination of what constitutes sexual harassment depends on the specific facts and the context in which the conduct occurs. Please see the Employee Handbook for the University's Workplace Violence Policy.

4. Prohibited Retaliation

Adler University prohibits retaliation and the threat of retaliation against any person (including complainants, respondents, and witnesses) exercising their rights and/or responsibilities in good faith under this Policy or federal, provincial, or local law prohibiting discrimination, harassment, or retaliation.

For purposes of this Policy, retaliation includes any conduct directed against an individual or someone affiliated with the individual, on the basis of, or in reaction to, the exercise of rights accorded and/or defined by this Policy, or federal, provincial, or local law, that is likely to dissuade the individual from exercising their rights in the future.

Claims of retaliation will be investigated and, if substantiated, constitute a separate violation of this Policy. Any acts of retaliation will be subject to appropriate disciplinary action, including but not limited to, reprimand, change in work assignment, loss of privileges, mandatory training, suspension, and/or termination.

Adler University takes good faith complaints of discrimination, harassment, and/or retaliation seriously. Individuals who knowingly make false allegations under this Policy may be subject to disciplinary action, including, but not limited to, reprimand, suspension, and/or termination.

5. Complaints of Discrimination, Harassment, or Retaliation

The Office of People and Culture (OPC) is responsible for receiving, processing, and investigating complaints of discrimination, harassment, and/or retaliation involving employees of Adler University, as well as, vendors, clients, and other third parties.

A student may file a complaint with the OPC as long as it concerns the actions of a University faculty or staff employee, vendor, client, or any third party with whom the University has interaction. Complaints should be directed to the Office of People and Culture directly at 312.662.4415. or to the Executive Dean, Vancouver Campus at 236.521.2401.

The Division of Student Affairs (DSA) is responsible for receiving, processing, and investigating complaints of discrimination, harassment, and/or retaliation involving student complaints against other students. Students who wish to make such a complaint may contact the Office of Student Affairs directly at 312.662.4141 or in Vancouver the manager, Student Services at 236.521.2433.

Employees or students who report incidents of discrimination, harassment, and/or retaliation may bring a support person with them to OPC or DSA when filing the complaint. Every effort will be made to help employees and/or students through the process in a respectful and supportive manner. Employees who hear about incidents of discrimination, harassment, and/or retaliation from students are expected to review this Policy with them and work with the student to bring forward the complaint to the appropriate office (OPC or DSA).

There are multiple channels for the reporting of violations of this Policy. If any person believes they have been the subject of, or have witnessed, or are aware of, discrimination, harassment, or retaliation, they should make a complaint as soon as possible to the OPC and/or the DSA or to their supervisor, Chair or Program Director, or Executive Dean. If an individual contacts their supervisor, Chair or Program Director, or Executive Dean, this person must direct the individual to OPC or DSA based on the nature of the complaint. Formal complaints must be received by OPC or DSA from the person filing the complaint.

The University's ability to investigate a complaint may be harmed if it is not made within a reasonable time period after the alleged occurrence(s). The University therefore strongly encourages complainants to contact the OPC and/or the DSA as soon as possible, to the extent practicable, after the alleged conduct. While the University acknowledges it is often difficult to come forward in a timely fashion, it advises that complaints be filed as soon as possible and within 120 days of the alleged occurrence(s). All members of Adler University who serve in a supervisory capacity are responsible for relaying all complaints of discrimination, harassment, or retaliation that come to their attention as supervisors and that may be in violation of this Policy to the Vice President of People and Culture at 312.662.4415 or to the Executive Dean of the Vancouver Campus at 236.521.2401.

Adler University strongly encourages individuals to make a complaint as soon as possible after the alleged conduct. The quicker a complaint of discrimination, harassment, or retaliation is made, the better the University will be able to investigate the complaint. A complainant should receive an acknowledgement of receipt from the OPC and/or DSA within ten (10) business days of filing a complaint. If this does not occur, then that person should directly contact the OPC and/or DSA to confirm receipt of original complaint.

If a criminal investigation is pursued by a person filing a complaint, such investigations can be conducted concurrently to any internal investigation conducted by Adler University.

6 Investigation and Resolution Process

When the OPC or the DSA, or both, receive a complaint of discrimination, harassment, and/or retaliation, they will promptly designate an individual to investigate the allegation in a fair and expeditious manner. The role of the investigator is to conduct a neutral investigation and then to make a finding as to whether or not a policy violation exists. The investigator can also make recommendations regarding disciplinary actions to be reviewed by the appropriate University Officials (see Resolution of Complaint section below). In rare instances, the OPC or DSA may engage an external investigator for some or all portions of the investigation at the discretion of the University.

Every complaint is based on its own facts and circumstances, which can impact the course of the investigation. The following is an outline of the procedure generally followed once a complaint has been brought to the attention of the OPC and/or the DSA.

At any time in the process, a complaint may be resolved voluntarily prior to the completion of the investigation process when the issues have been addressed to the satisfaction of the parties involved and in consultation with the OPC and/or the DSA.

A. Filing a Complaint

If any person believes they have been the subject of, or have witnessed, or are aware of discrimination, harassment, or retaliation, they should make a complaint as soon as possible to the Office of People and Culture (OPC) and/or the Division of Student Affairs (DSA). An individual may also contact their supervisor, Chair or Program Director, or Executive Dean who will then support and direct the person to OPC or DSA based on the nature of the complaint. Formal complaints must be received by OPC or DSA from the person filing the complaint.

For a complaint against an employee of Adler, as well as vendors, clients, and other third parties:

Chicago and Online Campus

Office of People and Culture
17 North Dearborn St., Suite 16-200
Chicago, IL 60602
312.662.4415

Vancouver Campus

Executive Dean, Vancouver Campus
520 Seymour Street
Vancouver, BC V6B 3J5
236.521.2401

For a complaint against a student:

Chicago and Online Campus

Division of Student Affairs
17 North Dearborn Street
Chicago, IL 60602
312.662.4141

Vancouver Campus

Manager, Student Services
520 Seymour Street
Vancouver, BC V6B 3J5
236.521.2401

B. Processing a Complaint

In processing a complaint, the OPC and/or DSA will:

- Acknowledge receipt of the complaint in writing
- Work closely with the person filing the complaint to provide supportive resources, (e.g., connection with Adler Student Assistance Program or Employee Assistance Program) as they move through the process. Consideration of the need for self-care and resources to address any trauma response related to the complaint will be a high priority.
- Collect and retain documents and information related to the complaint in a secure and locked location within OPC or DSA as required by law within the jurisdiction in which the complaint is filed
- Conduct a preliminary assessment of allegations to determine whether the alleged conduct, if substantiated, could constitute a violation of this Policy

C. Fact-Finding

The specific fact-finding steps may vary depending on the facts and circumstances of the complaint. Generally speaking, an investigator will:

- Inform the complainant and respondent of the start of the investigation
- Collect and review relevant documentation
- Interview complainant, respondent, and witnesses to the reported event or events. The complainant and respondent are permitted to bring a support person to this meeting
- Prepare a summary of the investigation and the findings for the OPC and/or DSA. Findings will be determined utilizing a preponderance of the evidence standard after examining the entirety of the information available at the time of the investigation

D. Resolution of Complaint

The OPC and/or DSA are charged with the responsibility of investigating complaints of discrimination, harassment, and/or retaliation, making findings, and reporting their findings to the appropriate University officials.

Depending upon the nature of the complaint and findings, the appropriate University officials will be notified and may include, but are not limited to, the supervisors or department heads of the complainant and respondent, the Vice President of Administration, the Vice President of Finance, the Vice President of Academic Affairs or Executive Dean, the applicable Chair or Program Director, and the Office of the President. In cases in which policy violations and/or findings and recommendations are presented involving students, the DS will also notify the Student Development Committee or Student Comprehensive Evaluation Committee.

The OPC and/or the Division of Student Affairs will provide written notification to the complainant, respondent, and the appropriate University officials of its findings and recommendations. A face-to-face meeting will generally accompany the written documentation.

Following the investigation, If the OPC and/or the DSA determines that the Nondiscrimination and Anti-Harassment Policy has been violated, it will work with the appropriate University officials to recommend appropriate corrective action, up to and including discharge/expulsion. Whether or not the Nondiscrimination and Anti-Harassment Policy is deemed to have been conclusively violated, it is acknowledged that conflicts that make their way through a complaint process may result in schisms that create ongoing resentments between parties. It is the goal of the process that examines conflict to acknowledge and not vilify any party to a conflict. Additionally, in an effort to restore the community to its highest form of function, a restorative justice process may be made available to all sides of a conflict, should all sides voluntarily choose to participate. This would entail a separate restorative justice practitioner meeting with each party to the conflict to fully understand the residual harm they are experiencing due to the conflict.

Each party will also be asked if they are interested in participating in a restorative justice process that allows each party to bring a support person, to discuss residual harm, and to create a repair-of-harm agreement in collaboration with the restorative practitioner. If all parties desire to participate voluntarily in a restorative justice process, it will be arranged.

Supervisors, department heads, and other Adler University managers have the responsibility for implementing appropriate corrective action. The OPC may advise in the implementation of corrective action and may monitor the implementation of the corrective actions.

To the extent that the OPC concludes that other University policies may have been violated by the reported conduct, the appropriate University official(s) will be notified.

E. Confidentiality

The OPC and DSA are committed to balancing the interests of all parties involved in discrimination, harassment, and/or retaliation complaints. To the extent possible, the OPC and DSA will limit the disclosure of information related to the complaint and its investigation. Nonetheless, due to the nature of the investigative process, the OPC and DSA cannot promise confidentiality of any information received in a complaint or during an investigation.

The files of complaints will be maintained in the appropriate office, either the OPC or the DSA, depending upon the nature of the complaint and the office that is charged with investigation. Documents and information collected by the OPC through its investigation of the complaint will not be kept in relevant personnel or academic records, except that any discipline or sanction imposed as a result of a policy violation will be documented in the disciplined individual's personnel or academic record in accordance with applicable University procedures.

F. Other Resources

Although the University encourages employees and students to utilize the complaint process described above to resolve any complaints, use of this process does not prohibit an employee or student from filing a complaint with external agencies at any time.

7. Discipline for Discrimination or Harassment

Any employee, whether co-worker, supervisor or manager, who is found to have engaged in discrimination or harassment contrary to this Policy will be subject to appropriate disciplinary action, up to and including termination of employment.

Any employee, whether co-worker, supervisor or manager, who is found to have known about discrimination or harassing behaviour, and who took no action to report it or to stop it, may be subject to appropriate disciplinary action, up to and including termination of employment.

Any student who is found to have engaged in discrimination or harassment contrary to this Policy will be subject to appropriate disciplinary action, up to and including dismissal from their degree program

8. Appeal Procedures

The Respondent has the right to submit an appeal. An individual who wishes to appeal part or all of the outcome of the University's investigation must submit a written appeal to the President of the University within ten (10) days of being notified of the outcome of the investigation.

Appeals of the decision or the sanctions may be filed on grounds of:

- New, relevant, and substantive information not previously available and sufficient to substantially alter the outcome
- Allegations that the Investigator deviated from the Investigation and Resolution Process outlined in the Policy in a way that substantially altered the outcome of the case or influenced the nature of the sanction
- The sanction is disproportionate with the violation (i.e., excessively harsh or excessively lenient)

The President may affirm the outcome or sanctions, modify either or both, impose new sanctions and/or remedies, or may return the matter for further investigation. The President will issue a determination within fourteen (14) days after receiving the individual's submissions, unless the President determines in their discretion that more time is required. The individual will be notified in writing of the outcome of the appeal within seven (7) days after the conclusion of the review of findings or sanctions, including any changes to the determination of whether a violation occurred, the sanctions, or both. The decision of the President is final.

U.S. FINANCIAL AID

In order to be awarded financial assistance through the Office of Financial Aid, a student must complete an annual financial aid application and meet all eligibility requirements.

Students begin the financial aid process by completing and submitting a Free Application for Federal Student Aid (FAFSA) at FAFSA.gov using Adler University's school code (G20681). Financial aid applications are year-specific and must be renewed each academic year in order to continue funding.

In certain instances, other aid application materials may be required. These additional items will be formally requested, via Adler student email, by the Office of Financial Aid if they are necessary to complete the aid application process.

Once students are admitted to an eligible program of study and have a valid FAFSA on file, aid eligibility can be evaluated. Students will be notified of their aid offer via their Adler student email and will be directed to review, request aid revisions, accept awards, and electronically sign their award letter via Financial Aid Self-Service, accessed in the Quick Links area of Adler Connect. Students receive access to this site shortly after being officially accepted to Adler University.

Full information related to Adler University's financial assistance programs can be obtained online at adler.edu/disclosures.

Financial Aid Eligibility Requirements

In order to be eligible for most types of federal and institutional assistance, an aid applicant must:

- Be actively enrolled in a degree or certificate program at Adler University
- Have a high school diploma, a recognized equivalent of a high school diploma (GED), or completed schooling at the secondary level
- Have a complete financial aid application on file with the University
- Maintain the Standards of Satisfactory Academic Progress as defined in Adler University's Student Financial Assistance disclosures at adler.edu/disclosures
- Maintain the minimum required enrolled hours for aid programs (e.g., federal loans require half-time enrollment)
- Not have a federal or state drug conviction
- Not be incarcerated, except for certain federal assistance programs
- Be a U.S. citizen, national, permanent resident, other eligible noncitizen, or a citizen of the Freely Associated States
- Not be in default on a federal education loan
- Not owe an overpayment on a federal education grant
- Not have a defaulted federal education loan or federal grant overpayment in active bankruptcy claim (under certain circumstances)
- Not have federal education loans that were discharged due to total and permanent disability (under certain circumstances)
- Not have borrowed more than the aggregate limits established for the federal loan programs
- Not have been convicted of, or pled no contest or guilty to, a crime involving fraud in obtaining FSA funds
- Not have property subject to a judgment lien for a debt owed to the United States
- Have a Social Security number and provide it to Adler University, with the exception of eligible non-citizens as defined by Federal Student Aid
- Have registered with Selective Service (males only), if required by law
- Meet all aid program-specific criteria (certain programs require satisfactory credit checks, require the student to be degree-seeking in a specified academic program, etc.)

ENROLLMENT STATUS

Federal student loans require a student to maintain at least half-time enrollment as defined by their academic program. Federal work-study does not require at least half-time enrollment. Enrollment status definitions are as follows, with all measures being taken on a per term basis. Only credits required for degree or certificate completion count in a student's enrollment status for the term.

Program	Full-Time	Half-Time	Less Than Half-Time
All Adler Graduate-Level Programs	6+ credits	3-5 credits	1-2 credits

Exceptions to credit hour requirements for enrollment status are as follows:

- Chicago, Vancouver, or Online Campus graduate students registered for practicum, practicum continuation, dissertation proposal (non-Psy.D students only), dissertation, full-time internship, internship continuation, or externship satisfy the full-time enrollment definition.
- Chicago, Vancouver, or Online Campus graduate students registered for dissertation proposal continuation (non-Psy.D students only), doctoral dissertation continuation, or half-time internship satisfy the half-time enrollment definition.
- Important Note: Effective beginning in the 2017–2018 academic year, dissertation proposal and dissertation proposal continuation have been removed as exceptions to credit hour requirements for enrollment status for Psy.D. students.

ENROLLMENT STATUS CONSIDERATIONS WHEN RETAKING COURSEWORK

Please note that for the purposes of determining a student's enrollment status, there are special considerations for students who are repeating coursework:

- A student who has failed a course (grade of F, or grade of NC in a credit/no credit course) can have the repeated failed course calculated in their enrollment status as many times as it is necessary to get a passing grade. See the next bullet for an exception.
- A student who is retaking a previously passed course to improve his or her grade in it may have exactly one repetition of that course included in his or her enrollment status. In the case when a student retakes the previously passed course to improve his or her grade and fails the second time, the student may not be paid for retaking the class a third time.

Types of Financial Aid

Aid is available from the U.S. federal government and from institutional and outside programs. Aid can come in the form of:

- **Grants and Scholarship:** Free money that does not need to be repaid. Most times, this assistance is based on financial need, academics, personal background, essay completion, or some combination of these categories.
- **Loan:** Money that must be repaid at some point in the future, with interest. Graduate student federal loans are not need-based, but there may be a credit check required.
- **Federal Work-Study:** Assistance that is earned through service to the institution or an outside organization. This assistance is need-based.
- **Veterans Education Benefits and Military Assistance:** Assistance available to veterans of the U.S. Armed Forces and their dependents or those on active duty/reserve.

GRANTS AND SCHOLARSHIPS

Adler University Scholarships

Adler University is committed to enrolling a diverse and outstanding student body. As such, we offer scholarships for both incoming and current students ranging up to half tuition.

Adler University applicants and full-time students are eligible to apply for institutional scholarships. Descriptions of each scholarship and application information can be found on the Adler University website.

LOANS

Many Adler University students find it necessary to take out loans to finance all or a portion of their costs. The Office of Financial Aid strongly encourages those who qualify to explore U.S. federal student loan options first. Federal student loans that a student took out prior to enrolling with Adler University are eligible for in-school deferment as long as the student maintains at least half-time enrollment.

FEDERAL DIRECT STAFFORD LOANS

The William D. Ford Federal Direct Loan (Direct Loan) program is the basic component of a student's financial aid award offer. A student must be enrolled at least half-time to be eligible for federal Direct loans.

Interest rates on these loans are fixed, and there are several repayment plans available.

Direct Unsubsidized Loans are not need-based and are available to degree and certificate students at all academic levels. The amount awarded for the year cannot exceed the annual loan limit and is based on the student's academic level and/or program.

To qualify for a Federal Direct Stafford Loan, a student must:

- Apply for student financial assistance with the University using the FAFSA form
- Accept or reject each Federal Direct Loan offered and sign their Award Letter through Financial Aid Self-Service
- Complete both a master promissory note and an entrance counseling session (new borrowers)

Maximum Annual and Aggregate Loan Amounts

The Federal Direct Loan Program has annual and aggregate (lifetime) loan limits. These amounts are based on a student's academic level and/or program.

Program	Annual Loan Limit	Lifetime Aggregate Loan Limit
Graduate Students (Except Chicago Campus Psy.D. Students)	\$20,500 (Unsubsidized only)	\$138,500 (including undergraduate Subsidized/Unsubsidized loan borrowing)
Psy.D. Graduate Students (Chicago Campus only)	\$37,167 in a 12-month academic year (Unsubsidized only; prorated for academic year less than 12 months)	\$224,000 (including undergraduate Subsidized/Unsubsidized loan borrowing)

Interest Rates

- Federal Direct Loans first disbursed on or after July 1, 2019, and before July 1, 2020, have a fixed interest rate of 6.08%.
- Federal Direct Stafford Loans first disbursed on or after July 1, 2020, and before July 1, 2021, have a fixed interest rate of 4.30%.

Loan Fees

The federal government assesses a mandatory loan fee on all Federal Direct Loans before the funds arrive at Adler. These fees are as follows:

- Federal Direct Loans first disbursed on or after October 1, 2019, and before October 1, 2020, will have a loan fee of 1.059%.
- Federal Direct Loans first disbursed on or after October 1, 2020, and before October 1, 2021, are not known at the time of printing.

FEDERAL DIRECT PLUS LOANS

Graduate students may apply for a Federal Direct PLUS Loan to assist with educational costs. To be eligible for federal loans, a student must be enrolled at least half-time. These loans have fixed interest rates, and several repayment plans are available. Federal Direct PLUS Loans are not need-based and a credit check is required. The total amount awarded for the year cannot exceed the student's cost of attendance minus all other forms of financial assistance received. There is no aggregate cap on this loan program.

To be offered a Federal Direct Graduate PLUS Loan, graduate students must:

- Apply for student financial assistance with the University using the FAFSA form
- Accept or reject each Federal Direct PLUS Loan offered and sign their award letter through Financial Aid Self-Service
- Obtain credit approval for the Federal Direct PLUS Loan online at studentaid.gov
- Complete both a master promissory note and entrance counseling session (new borrowers)

If graduate students are unable to obtain credit approval on their own, they can add a creditworthy co-borrower (endorser), or they may be able to appeal the credit decision due to extenuating circumstances. Additional steps will be necessary in either case.

Interest Rates

Federal Direct PLUS Loans first disbursed on or after July 1, 2019, and before July 1, 2020, have a fixed interest rate of 7.08%. Federal Direct PLUS Loans first disbursed on or after July 1, 2020, and before July 1, 2021, have a fixed interest rate of 5.30%. Interest begins to accrue on these loans as soon as money is disbursed to the student's tuition account.

Loan Fees

The federal government assesses a mandatory loan fee on all Federal Direct PLUS Loans before the funds arrive at Adler. These fees are as follows:

- Federal Direct PLUS Loans first disbursed on or after October 1, 2019, and before October 1, 2020, will have a loan fee of 4.236%.
- Federal Direct PLUS Loans first disbursed on or after October 1, 2020, and before October 1, 2021, are not known at the time of printing.

Loan Repayment

Borrowers of federal student loans are required to complete Exit Counseling on the loan whenever they graduate, withdraw from school (including taking a leave of absence), or cease to maintain at least half-time enrollment.

If exit counseling is required, the student will be notified by the Office of Financial Aid.

- Federal Direct Loans: Repayment does not begin until the conclusion of a six-month grace period. This grace period begins after a student graduates, withdraws from school (including taking a leave of absence), or ceases to maintain at least half-time enrollment.
- Federal Direct PLUS Loans: Repayment begins as soon as the loan is fully disbursed. Students have the option of deferring repayment while the student is enrolled at least half-time, and for a six-month grace period following graduation, or in the event the student withdraws (including taking a leave of absence) or ceases to maintain at least half-time enrollment.

Borrowers have the option of a standard 10-year repayment or other extended repayment options based on time to repayment or the borrower's income. These loans also allow for specific deferments, or time periods when the lender will temporarily suspend collection activity on the loan. Borrowers requiring a temporary postponement or partial reduction in monthly payment may request a forbearance in case deferment is not available.

ALTERNATIVE LOANS

Alternative loans are private, credit-based loans the student applies for directly with a financial institution. These loans cannot be combined with Federal Direct Loans into a Federal Consolidation Loan following graduation. Alternative loans may be available to international students who have a U.S. citizen or permanent resident co-borrower or to borrowers who are not able to file a FAFSA. Interest rates on alternative loans are variable or fixed and vary based on the lender and the borrower's credit rating.

Students who are eligible for Federal Direct Loans are encouraged to explore federal loans first as there are many benefits that may be unavailable through an alternative loan program.

FEDERAL WORK STUDY PROGRAM

The Federal Work-Study (FWS) program is a need-based employment program funded partially by the U.S. government. FWS participants are paid an hourly rate to work part-time. Time commitments vary by position; students may work up to 20 hours per week while classes are in session. Positions are available at Adler's Chicago and Online Campuses.

To qualify for a Federal Work-Study position, a student must:

- Apply for student financial assistance with the University, using the FAFSA form, and demonstrate financial need as determined by the FAFSA
- Submit a Work-Study Authorization Form through the Office of Financial Aid
- Complete all required paperwork with the Office of Financial Aid and People and Culture
- Interview and be hired for a student worker position

FWS is a need-based employment program that is factored into the student's overall financial aid offer for the year. Student worker positions are not guaranteed, and the earliest a FWS student may begin work is the first official day of class. FWS earnings are taxable and paid biweekly for all hours worked. View open jobs on the Financial Aid page of Adler Connect.

VETERANS EDUCATION BENEFITS AND MILITARY ASSISTANCE

U.S. military veterans or those who are on active duty/reserve may qualify for education benefits to help fund their Adler education. A student must be admitted prior to applying for veteran education or military benefits. Once admitted, the student can start the process of applying for benefits by following the steps below.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government website at benefits.va.gov/gibill.

Veterans Education Benefits

Veterans education benefits are approved by the Illinois State Approving Agency. These programs offer a variety of benefits for students based on their individual military enlistment history. Below are the different benefits that are approved by the Illinois State Approving Agency. Use the GI Bill® Comparison Tool (vets.gov/gi-bill-comparison-tool) to determine which benefit program is the right one for you. Payment rates for each type of benefit are also available on the VA website (benefits.va.gov).

THE POST-9/11 GI BILL®

Ch. 33, benefits.va.gov/gibill/post911_gibill.asp) provides the following benefits to, or on behalf of, the student:

- A scaled tuition and fee payment ranging between 40 percent to 100 percent of billed mandatory charges, which is dependent on length of active service. This payment is made directly to Adler. The 40 percent benefit level will be eliminated on August 1, 2020.
- A monthly housing allowance (MHA) paid to the student and payable for the zip code of the campus where the student physically attends the majority of classes. This applies to the first enrollment in an educational program on or after August 1, 2018.

Note: Students in Adler's Online Campus will be paid at one-half the BAH national average. Students on active duty, or who are enrolled half-time or less, are not eligible for the MHA.

- A books and supplies stipend paid to the student of up to \$1,000 per year paid proportionally based on enrollment.
- Some veterans may be able to transfer their benefits to a spouse or dependent.
- Adler participates in the Yellow Ribbon Program, which entitles veterans at the 100 percent tier level to receive full payment of their mandatory charges in excess of the annual cap. Active duty service members and their spouses are not currently eligible for Yellow Ribbon consideration.
- The Montgomery GI Bill® Active Duty (MGIB-AD, Ch. 30) provides a monthly benefit paid directly to the student.
- The Montgomery GI Selected Reserve (MGIB-SR, Ch. 1606) provides a monthly benefit paid directly to the student.
- The Reserve Educational Assistance Program (REAP, Ch. 1607) provides a monthly benefit paid directly to the student.
- The Veterans Educational Assistance Program (VEAP, Ch. 32) provides a monthly benefit paid directly to the student.
- The Survivors and Dependents Assistance Program (Ch. 35) provides a monthly benefit paid directly to the student who is a survivor or dependent of the veteran.
- Vocational Rehabilitation and Employment (VR&E, Ch. 31) benefits provide payments to Adler for mandatory tuition and fees.

Applying for Veterans Education Benefits

To begin using VA education benefits, the student must submit the appropriate forms to the VA:

- First-time users of VA education benefits must apply to use their benefits with the VA.
- Veterans who have used their benefits before and who wish to transfer those benefits to Adler must submit form 22-1995 or form 22-5495 (as appropriate) to the VA.

After applying for, or transferring benefits, the Department of Veterans Affairs will determine the student's eligibility and issue a Certificate of Eligibility (COE) to the student. The student must provide a copy of the COE to the Office of Financial Aid before benefits can be certified.

Students using vocational rehabilitation benefits should contact Adler's Office of Student Accounts for specific information at 312.662.4407 or studentaccounts@adler.edu.

Pending Tuition and Fee Payments

Students utilizing Post 9/11 G.I. Bill® (Ch. 33) or Vocational Rehabilitation and Employment (Ch. 31) education benefits may have a tuition and fees payment sent directly to Adler University. While the tuition and fee payment is pending from the U.S. Department of Veterans Affairs, Adler will not take any of the following actions:

- Prevent enrollment
- Assess a late payment fee

- Require alternative or additional funding
- Deny access to any resources (access to classes, libraries, or other Adler facilities) available to other students who have satisfied their tuition and fee bills.

This pending payment provision supersedes other policies listed elsewhere in the Course Catalog.

To qualify for this provision, Ch. 31 and 33 students may be required to submit the following to the Office of Financial Aid:

- Provide a Certificate of Eligibility by the first day of class
- Submit a written request to be certified
- Provide additional information needed in order for the Office of Financial Aid to properly certify enrollment to the VA.

Military Tuition Assistance

- Complete the correct enrollment form associated with your branch of the U.S. military for approval by your Military Education Officer
- Submit the approved Tuition Assistance (TA) form to Adler University's Office of Student Accounts

Note: Army TA users will need to complete the TA process through the Go Army Ed website.

More Information

If you have questions about using your veterans and/or military benefits at Adler University, do not hesitate to reach out to Adler University staff.

Financial Aid Verification Process

The federal government randomly selects certain federal student aid applicants for a process called verification. An aid applicant whose Free Application for Federal Student Aid (FAFSA) is selected for verification will be required to provide additional documentation to the Adler University Office of Financial Aid (AUOFA). These additional documents may require the AUOFA to make corrections to the student's aid application with the federal government. In most cases, these corrections will be made by financial aid personnel directly. Otherwise, students will be notified in writing (via email) if they are required to make a correction to their financial aid application.

Submission of these additional items is not optional for students who are selected for verification. The financial aid application cannot be processed until all required items are received.

Complete details regarding the financial aid verification process are available online by selecting Student Financial Assistance at adler.edu/disclosures.

Satisfactory Academic Progress

Federal regulations require the Adler University Office of Financial Aid to monitor the academic progress of all financial aid recipients toward the completion of their degree.

This process is called Satisfactory Academic Progress (SAP). This SAP policy is enforced in conjunction with all other institutional policies and procedures, including the academic status and satisfactory progress policies

of the University. The below criteria are checked at the end of each term (Chicago and Vancouver Campuses, and Online Campus students beginning in August 2017 or later) or course (Online Campus students starting before August 2017), once final grades are in, to determine whether students are maintaining satisfactory academic progress.

Note that Adler University scholarships also require a student to be meeting the standards of this policy. Students in a Financial Aid Warning status are permitted to retain their scholarships while in a Warning status; students who are Suspended from financial aid under this policy will lose their scholarship for any terms they are suspended.

The Office of Financial Aid shall have primary responsibility in administering this policy.

GRADUATE STUDENTS

SAP for Adler University graduate students is monitored using three factors: maximum time frame measurement, cumulative progress toward completion of the degree or certificate, and cumulative grade point average (GPA).

Maximum Time Frame Measurement

Students may receive financial assistance for attempted credit hours up to 150 percent of the credits required for their academic program. The total allowable attempted hours are calculated by multiplying the hours required to complete the degree at Adler by 1.5 and rounding down to the nearest whole number. For example, for a program that requires 36 credit hours, a student may attempt up to 54 hours. Please note that non-degree certificate programs are approved by the U.S. Department of Education for financial assistance at a specific number of credit hours. Regardless of a student's actual plan of study, the maximum time frame is calculated using the number of hours for which the program was approved with the U.S. Department of Education.

Additionally, students must satisfactorily complete all degree or certificate requirements within the time frames listed below, from the date of first registration following admission to the program:

- Certificate students: two years
- M.A. students: five years
- Doctoral students: seven years

Periods of approved leave of absence do not count against this maximum time measurement.

Cumulative Progress toward Completion of the Degree or Certificate

Students must successfully complete at least 70 percent of the credit hours they attempt. This will be measured cumulatively over the course of the student's program. For the purpose of this measurement, all of the following are applicable:

- Successful completion for Chicago and Vancouver Campuses non-PSYD students is defined as a grade of B– or better for a letter-grade course, or a grade of CR for a credit/no credit course. These credits are counted in both attempted and completed hour totals.
- Successful completion for Chicago and Vancouver Campuses PSYD students is defined as a grade of B or better for a letter-grade course, or a grade of CR for a credit/no credit course. These credits are counted in both attempted and completed hour totals.
- Successful completion for Online Campus non-Doctoral students is defined as a grade of C or better for a letter-grade course, or a grade of CR for a credit/no credit course. These credits are counted in both attempted and completed hour totals.
- Successful completion for Online Campus Doctoral students is defined as a grade of B or better for a letter-grade course, or a grade of CR for a credit/no credit course. These credits are counted in both attempted and completed hour totals.

- All other grades (including incomplete grades) are counted in the attempted hour total but not the completed hour total. If an incomplete grade is later converted to a grade that is considered to be a successfully completed grade, the cumulative progress percentage can be recalculated. It is the student's responsibility to notify the Office of Financial Aid when an incomplete grade has been converted.
- Students who drop individual courses but who remain enrolled at the University will not have those dropped courses counted in the attempted hours total if they are dropped during the add/drop period. Dropped courses after the add/drop period will be counted in the attempted hours total.
- Repeated courses are counted as attempted hours during all attempts.
- Transfer credits that count toward the student's current academic program count as both attempted and completed hours.
- Students who change programs will only have hours that were previously attempted counted in their cumulative totals if they are applicable to the new academic program.
- Audited courses do not count in either the attempted or completed hour totals.

Cumulative Grade Point Average (GPA)

Graduate students must maintain a minimum cumulative GPA of 3.0.

Courses in Progress

If a student has any courses in progress (CIP) on his or her transcript, this means that no grade was assigned to the course. If a student is missing any grades for any term, SAP cannot be calculated. The Office of Financial Aid may place a hold on all future federal financial aid disbursements and student refund checks in the case when a student has courses in progress or missing grades at the time that SAP is being reviewed.

Financial Aid Warning

Graduate students are allowed a Financial Aid Warning period. Graduate students who fail to meet the requirements of the satisfactory academic progress policy will be placed on Financial Aid Warning for one academic term. Students will be allowed to continue receiving financial assistance during the warning period.

Students placed on Financial Aid Warning will be sent notification by hard copy letter (through the U.S. Postal Service) and through their Adler email account. The notification will include SAP requirements, steps necessary to meet SAP in the upcoming term, and the consequences for failing to meet SAP requirements by the end of the warning period.

Students will be placed on Financial Aid Suspension if they fail to meet the standards of this SAP policy after the one-term Financial Aid Warning period.

Suspension of Financial Aid Eligibility

Students who are suspended from financial aid eligibility will be notified by hard copy letter (through the U.S. Postal Service) and through their Adler email account. Students who still fail to meet the requirements of this policy after their single term on Financial Aid Warning will be placed on Financial Aid Suspension.

Appealing Suspension of Financial Aid Eligibility

Students may appeal the suspension of their financial aid eligibility for extenuating circumstances. Appeals from other parties on behalf of the student will not be accepted. All appeals should be submitted to the Director of Financial Aid in writing. Each appeal must include: (1) the reasons the standards of this policy were not met; (2) what has changed in the student's situation that will allow the student to make satisfactory progress during the next evaluation period; and (3) an academic plan for the remainder of the student's studies. Documentation of any statements made in the appeal should be included, as appropriate.

All appeals must be submitted within 10 business days of the receipt of a suspension notice. The Director of Financial Aid will review the appeal and will respond to the student within 10 business days from the receipt of the appeal. If the student's appeal is approved, the student will be placed on a financial aid probationary period for one term, or for the duration of an academic plan developed by the student's Faculty Advisor, as appropriate. The probationary period will be defined to include checkpoints that must be achieved in order for the student to remain eligible for financial assistance. Students failing to abide by the terms of their probationary period will be suspended from financial aid after their probationary period.

The decision of the Director of Financial Aid is final, binding, and not subject to further appeal.

Reinstatement of Financial Aid Eligibility

A student's eligibility for financial aid will be reinstated at such time as the student successfully meets the standards of the SAP policy. It is the student's responsibility to present evidence to the Office of Financial Aid at the time the student meets the requirements for reinstatement.

Withdrawing and Financial Aid

WITHDRAWING FROM THE UNIVERSITY

Students wishing to withdraw in good standing from Adler University must follow the published Withdrawal in Good Standing policy of their respective campus. Please see the University catalog for complete details.

TUITION REFUND POLICY

The tuition refund policy can be found in the Tuition and Fees section of your respective campus. Please note that students may be found liable for tuition and fee amounts charged for the term in which they are withdrawing, and they may have limited eligibility for financial assistance to pay for those charges.

FEDERAL REGULATIONS REGARDING WITHDRAWALS

For the purposes of this discussion, students taking a leave of absence are treated in an identical manner to those students who withdraw in good standing, who are administratively withdrawn, who are dismissed, or who unofficially withdraw from Adler University. The terms "leave of absence" and "withdrawal" are interchangeable throughout this policy.

Some coursework at Adler University is considered to be modular in nature. Modules exist when courses do not span the entire academic term. In the case of modular coursework, a student is considered to have withdrawn for Title IV aid purposes if the student ceases attendance at any point prior to completing the payment period or period of enrollment (the academic term), unless Adler University receives written confirmation from the student at the time of withdrawal indicating that the student will resume attendance in the term no later than 45 calendar days after the end of the module the student ceased attending. If the student provides written confirmation that they will resume attendance within 45 days, and the student fails to return at that future date, the student is considered to have withdrawn for Title IV aid purposes.

TITLE IV FUNDS INCLUDED

The following funds are considered Title IV assistance and are included in the calculations described below:

- Unsubsidized Direct Loans
- Federal Direct Graduate PLUS Loans

EARNED TITLE IV AID

Title IV funds are awarded to students under the assumption they will attend school for the entire period for which the aid is awarded. Upon withdrawing from Adler University, a student may no longer be eligible for the entire amount of Title IV aid they were awarded and/or received. The Adler University Office of Financial Aid is required to calculate how much of the Title IV assistance the student earned based on the period of time the student remains enrolled for a particular term:

$(\text{Enrolled Days in Term} / \text{Total Days in Term}) = \text{Percent of Title IV Aid Earned}$

If students withdraw after 60 percent of the term has passed, they are considered to have earned all of their Title IV aid for that period.

POST-WITHDRAWAL DISBURSEMENT

If the amount of Title IV aid disbursed is less than the amount the student is eligible to receive, the student may receive a post-withdrawal disbursement to his or her tuition account at Adler University.

If this post-withdrawal disbursement contains loan funds, the student may elect to decline these funds so they do not incur additional debt. The student will be notified in writing of any post-withdrawal disbursements they are eligible to receive. Adler University may automatically use all or a portion of a post-withdrawal disbursement (including accepted loan funds) for tuition and fees. The student must authorize Adler to use the post-withdrawal disbursement to cover all other charges on the student's account. If the student does not authorize the school to use these funds, they will be refunded to the student, and the student will be responsible for the balance due.

There are some Title IV funds that the student may have been scheduled to receive that cannot be disbursed once the student has withdrawn because of other eligibility requirements. For example, a Direct Loan disbursement cannot be made if the student has not signed the appropriate promissory note for that program.

FAILURE TO EARN A PASSING GRADE IN ALL COURSES

Any student who begins classes at Adler, applies for financial aid, completes all of the requirements to obtain that aid, and then fails to receive at least one passing grade for the term may be treated as unofficially withdrawing from the University. For students in this situation, attendance records and academically related activity for the student will be reviewed with the course instructors to determine the withdrawal date. Grades of F and I are considered to be non-passing grades for the purposes of this policy.

REPAYMENT OF UNEARNED AID

If the amount of aid disbursed to the student is greater than the amount the student is eligible to receive, this overage must be returned to the federal programs. If a balance is created on the student's tuition account, the student will be billed and is responsible for these charges. Students may also be required to return amounts that were given to them to use for living expenses for the term.

The student and/or Adler University may be responsible for returning the assistance. Adler University's share is the lesser of:

- The total amount of unearned aid, or
- The institutional charges for the term multiplied by the percentage of unearned aid.

In general, the student is responsible for returning any amounts of unearned aid in excess of the amount calculated above. Any loan amounts that must be returned must be repaid in accordance with the terms of that loan's promissory note (i.e., the student will make scheduled payments to the holder of the loan over a period of time).

QUESTIONS

Students with questions about this process should first call the Office of Financial Aid at 312.662.4150. Students with questions may also call the Federal Student Aid Information Center at 800.4.FEDAID. The Office of Financial Aid is open from 9 a.m. to 5 p.m. (CST) Monday through Friday, and the Federal Student Aid Information Center is open from 8 a.m. to midnight (EST) seven days per week. TTY users may call the Federal Student Aid Information Center at 800.730.8913. The Center also has information online at studentaid.gov.

INSTITUTIONAL REGULATIONS REGARDING WITHDRAWALS

All institutional grants for the withdrawal term will be reduced if they exceed the student's tuition charges for that term. If the student withdraws and all of the tuition is not refunded to the student, any state or institutional grants received for that term can be used to help cover this expense, not to exceed tuition.

If the student has taken out a private loan for the withdrawal term, and the student has a credit on his or her account after all other aid has been returned, according to the regulations listed above, Adler University will return private loan funds to the student's lender. The amount returned will be the lesser of the credit amount on the student's tuition account or the total amount of the private loan for the term. Any remaining credit will be sent to the student in the form of a check from the Office of Student Accounts.

REFUND OPTIONS

Students are encouraged to authorize the Office of Student Accounts to directly deposit refund checks to a bank account. Please contact the Office of Student Accounts for information about signing up for direct deposit at 312.662.4407 or via email (studentaccounts@adler.edu). Students who choose not to sign up for direct deposit will have their refund issued by paper check via the U.S. Postal Service.

Financial Aid Disbursement Timeline

In order for students to receive their financial aid disbursements in a timely manner, we strongly recommend that financial aid recipients finalize their course registration at least two weeks prior to the start of a term. Students may add courses after their financial aid has disbursed. If a loan increase is required, students may request an increase via the financial aid self-service portal.

- Students attending the Chicago and Vancouver Campuses, and Online Campus students beginning on or after August 2017, are on a standard semester-based term, and loans can be disbursed up to 10 days prior to the start of the term, or start date of courses within that term, whichever is later.
- Online Campus students beginning before August 2017 are on a nonstandard, 32-week term, consisting of four, eight-week classes. Loans can be disbursed up to 10 days prior to the start of the term, or start date of courses within that term, whichever is later.

Students who have financial aid in excess of their charges for the term will be issued a refund. In general, refunds are issued within 14 days of the credit being created on the student's tuition account, or the first day of the term, whichever is later. The following refund schedule applies for funds released prior to/on the beginning of a term:

- For Chicago/Vancouver Campus students, up to \$2,000 of this amount will be released to the student within the first seven days of the term, or within the first seven days of the start of their courses within the term, whichever is later, assuming the student has completed all requirements to have his or her aid released. Any refund amounts that exceed the initial \$2,000 as described above will be issued to the student within 14 days of the start of the term, or within the first 14 days of the start of their courses within the term, whichever is later, assuming the student has completed all requirements to have his or her aid released.

- For Online Campus students, up to \$500 of this amount will be released to the student within the first seven days of the term, or within the first seven days of the start of their courses within the term, whichever is later, assuming the student has completed all requirements to have his or her aid released. Any refund amounts that exceed the initial \$500 as described above will be issued to the student within 14 days of the start of the term, or within the first 14 days of the start of their courses within the term, whichever is later, assuming the student has completed all requirements to have his or her aid released.

Living expenses in a student's allowable cost of attendance are calculated only for periods of time during which the student is enrolled. Students are not eligible for student loans for living expenses during periods of non-enrollment.

Loan Counseling

Federal regulations stipulate that all first-time borrowers of federal student loans complete loan entrance counseling prior to the loan disbursing. Additionally, a federal student loan borrower must complete an exit counseling session upon graduation, withdrawal from Adler University (including taking a leave of absence), or dropping below half-time enrollment.

Debt Management

Recipients of federal financial aid must complete at least one debt management activity prior to graduation. Using any of the below resources will satisfy the University requirement:

- CashCourse (cashcourse.org) includes a series of tools for students to develop strong money management skills that can help with both personal and educational finances. These tools are funded by the National Endowment for Financial Education, and the information that is presented is "commercial free." Please visit cashcourse.org for more information on how to create a free account and how to navigate CashCourse.org.
- After registering with the site, select the "My Assignments" link to view assigned lessons. Please complete the following required lessons listed under the "Coursework" section:
 - Paying Back Student Loans
 - Budgeting Basics
 - Be Credit Savvy
- The Office of Financial Aid strongly encourages students to explore the "Financial Tools" link as this section offers a variety of self-paced tools that would benefit any student loan borrower. This link will provide you with information on all available resources "Financial Tools" has to offer. If you need further assistance or have any questions, please do not hesitate to visit or contact the Office of Financial Aid at financialaid@adler.edu or call toll-free 844.459.3710.
- Financial Loan Simulator (studentaid.gov) uses your personal federal loan history to help you better understand the loans that you are using to finance your education at Adler University. In addition, it will give you valuable tips on managing your spending as a student and give you an indication of what to expect from loan repayment post-graduation. To access the Financial Loan Simulator, log in to studentaid.gov with your FSA ID and select "Loan Simulator" from the "Manage Loans" menu.
- The Office of Financial Aid hosts several Debt Management webinars over the course of the academic year. This webinar covers topics including wise borrowing, loan repayment, and budgeting basics. Please visit the Financial Aid page of Adler Connect to view the schedule of upcoming sessions and to RSVP if you would like to attend one of the webinars listed.

Students will see a reminder at Adler Connect to complete one debt management activity, and once the requirement has been fulfilled, the notification will be removed in one to two business days.

International Students

International students are eligible to apply for alternative loans. Alternative loans are approved based on credit ratings and typically require a cosigner who is a U.S. citizen or permanent resident. Students should also contact their appropriate government and provincial agencies to find out about additional sources of aid to help cover expenses while completing their coursework.

CONTINUOUS ENROLLMENT

Adler University requires students to maintain continuous enrollment throughout their academic program, including summer semesters. Students must request a leave of absence for any portion of their academic program when they cannot enroll. Students must be formally registered in the term in which their degree or certificate is conferred.

Students who have registered for all required coursework must register for Continuous Enrollment (CER-001 – Chicago Campus; CER-002 – Online Campus; CER-003 – Vancouver Campus) for all semesters leading up to the conferral of their degree or certificate. Continuous Enrollment is repeatable for up to one academic year. Students who fail to register for a degree requirement, or Continuous Enrollment each term until conferral of their degree, may be administratively withdrawn from the University. “Administrative Withdrawal” will be indicated on their transcript.

The enrollment status for this course is less than half time. The Continuous Enrollment course is not eligible for financial aid. Students are charged the universal fee of their highest program. Please see the Tuition and Fees section for your program's universal fee.

Chicago campus

ADMISSION POLICIES AND PROCEDURES – CHICAGO CAMPUS

Application Process

Adler University takes pride in its diverse student body, representing a wide range of professional interests, ethnic and cultural backgrounds, and academic and work histories. The University admits individuals with a record of outstanding academic achievement and a commitment to social responsibility. Ideal candidates for admission are those who will make a difference in their communities and in the lives of the individuals and families they plan to serve upon graduation. Applicants nearing completion of a baccalaureate degree may apply for admission contingent on successful completion of the undergraduate degree.

Applicants must submit the following:

- Adler University Application for Admission
- Application fee (\$30.00)
- Statement of intent
- Resume or curriculum vitae
- Transcripts from all colleges or universities attended. Official transcripts are required from all degree-granting programs
- Letters of recommendation and accompanying recommendation form*
- Graduate Record Examination (GRE) scores.**

*See minimum admission requirements under each program for specific program requirements around letters of recommendation.

**The GRE general test is required for applications to the Doctor of Psychology in Clinical Psychology program.

Application for admission is completed online. Students submitting U.S. or Canadian transcripts should have official transcripts sent directly to the Office of Admissions. Other international transcripts must be evaluated by a transcript evaluation service. Please contact the Office of Admissions for specific transcript evaluation requirements.

The Office of Admissions does not maintain student files for students who do not enroll by their intended start date. Supporting admission documents without a submitted application will be kept on file for one year.

Application Deadlines

PRIORITY DEADLINES

While applications are accepted throughout the year, the following deadlines ensure that students receive full consideration. Programs fill early, and applicants are strongly encouraged to begin the application process at least six to 12 months before their desired term of entry.

Applicants seeking admission to the Doctor of Psychology (PSY.D.) program should submit all application materials by the priority deadline of February 15 in order for interviews to be scheduled and notification of acceptance to be completed by April 1. Those who are admitted must notify the Office of Admissions and submit their tuition deposit no later than April 15, indicating their intent to matriculate for the subsequent fall term.

Space permitting, applications submitted after the deadline will be accepted subject to the Council of Graduate Departments of Psychology (COGDOP) criteria. These criteria state that acceptance of an offer of admission that is given or left in force after April 15 commits students to not solicit or accept an offer from Adler University, without first obtaining a written release from any institution to which a commitment has already been made.

CHICAGO CAMPUS

Admissions Deadlines	Early Consideration	Priority Available	Space Entry	Term of
All Doctoral programs	December 1	February 15	August 15	Fall
All M.A./M.S. programs	February 1	April 1	August 15	Fall
Master of Arts in Counseling; Specialization in Clinical Mental Health Counseling				Fall, Spring, and Summer
Certificates	Rolling Admissions			All

Evaluation of Applicants

Completed applications will be reviewed by the Admissions Committee. Applicants who are approved by the Admissions Committee will then be scheduled for an interview with a member of the Adler University faculty.

Applicants are evaluated on many factors, including the following:

- Academic performance
- Content and clarity of written and verbal communication
- Strength of recommendations
- Personal and professional presentation throughout the admission processes
- Community service interest and/or experience
- Professional and/or prior work experience
- Integrity, motivation, and personal ethics

Acceptance of Admission

Students who have been fully admitted into a degree program may be able to defer their admission for up to one year from their original term of admission. To defer admission, students must sign their statement of acceptance, submit the appropriate tuition deposit, as well as a \$500 nonrefundable deferment fee and a statement indicating why they would like to defer their admission to the Office of Admissions. Students who are approved to defer their admission will be notified in writing and will be subject to program requirements in effect at the time of the new application. Students who defer forfeit their scholarship award and are not eligible for scholarships the following year. Students who defer admission but do not matriculate must reapply for admission as outlined in the Application Process – Chicago Campus section of the current catalog.

International Applicants

In addition to submitting a completed application, all transcripts from outside of Canada or the United States must be evaluated by an acceptable transcript evaluation service such as World Education Service (wes.org) or Educational Course Evaluation (ece.org). A course-by-course international credential evaluation must be submitted. Students must send in all of their transcripts for the course-by-course analysis.

ENGLISH LANGUAGE PROFICIENCY ASSESSMENT

Applicants whose first language is not English must submit scores from the Test of English as a Foreign Language (TOEFL), International English Language Testing System (IELTS), or Pearson Test of English (PTE). Students who have earned a bachelor's or master's degree in an accredited program in Canada or the United States may not be required to take an English Proficiency Exam. Applicants should request that language proficiency test scores be sent directly to the University by the testing service. These test results are valid for two years only.

TOEFL (ETS.ORG/TOEFL)

Adler University–Chicago Campus's code number for receiving test scores is 1147. Applicants who take the paper-based TOEFL must receive a minimum score of 580. Applicants who take the computer-based TOEFL must receive a minimum score of 240. Applicants who take the Internet-based TOEFL must receive a minimum of score of 92.

IELTS (IELTS.ORG)

Applicants who take the IELTS must receive a minimum Academic score of seven overall with no band score lower than seven.

PTE (PEARSONPTE.COM)

Applicants who take the PTE must receive a minimum Academic score of 62 overall. International applicants must also submit documentation of sufficient financial resources to complete the program and provide for living expenses while attending Adler University. Once enrolled in the program, students must pay tuition and fees according to the University's payment schedule. Current international students will not be allowed to register for classes if they have an outstanding balance that jeopardizes the student's ability to remain in the United States under their F-1 student visa.

Students who have been accepted into a degree program at the University will be issued an I-20 upon receipt of their financial verification paperwork. Students should allow enough time for securing an F-1 student visa in their country for travel to the United States. It is the student's responsibility to provide the Office of Admissions with a current foreign address and mailing address, if different, along with the intended U.S. address. I-20s cannot be mailed to post office box numbers.

Once students arrive on campus, they must notify the Office of Compliance of their arrival and update their U.S. address. This information is required by Homeland Security, and student I-20s cannot be updated until we receive this information.

International students must have their I-20s updated each year they are in attendance at the University. Students must maintain full-time status each term as outlined by the University for their program. If the student has extenuating circumstances that require less than full-time enrollment, the student can work with the Office of Compliance to obtain an exemption from the Federal Government.

Students should not attempt to enter the United States without their current and updated I-20. Although the University does not provide financial assistance for international students in the form of financial aid or tuition reduction, students are eligible for Adler University scholarships and on-campus employment unless otherwise noted.

Students should not attempt to enter the United States without their current and updated I-20. Although the University does not provide financial assistance for international students in the form of financial aid or tuition reduction, students are eligible for Adler University scholarships unless otherwise noted.

Students-at-Large / Non-degree Seeking

Students who wish to take classes for personal pursuit not related to a degree program at Adler University, or qualified graduate students and mental health professionals, may be admitted as students-at-large/non-degree seeking (SAL/NDS) students. Qualified professionals may take courses as SAL/NDS students for continuing education credit, or for professional enrichment, as long as they meet the minimum eligibility for admission. Graduate students in degree programs at other regionally accredited institutions bear the responsibility of verifying with their home institutions whether Adler University courses will be transferred back and accepted for credit.

Applicants for SAL/NDS status must submit a completed application, nonrefundable \$30 application fee, statement of intent, a resume or curriculum vitae, and official transcripts from all degree-granting undergraduate and graduate schools attended. Applications will be reviewed by the Admissions Committee, and applicants will not be allowed to register until they have been approved for admission as SAL/NDS students.

Those admitted as SAL/NDS students may complete a maximum of nine credits within one academic year and must comply with all prerequisites and course requirements as given in the Adler University Catalog. Graduates of Adler University degree programs who are approved as SAL/NDS students may take up to 18 credits within one academic year. SAL/NDS students are not eligible for financial aid and may not enroll in courses that are reserved for students fully admitted to particular degree programs. Appropriate courses taken for credit may apply toward completing a degree for SAL/NDS students who are admitted to a degree program within one year of completing SAL/NDS courses. Successful completion of coursework, however, does not guarantee admission to a degree or certificate program. A student-at-large whose application to a degree or certificate program has been denied may not enroll in further courses or continue as a student-at-large.

Because students-at-large are limited to a total of nine credit hours of coursework within one academic year, persons who plan to pursue a degree or certificate program should apply for admission at the earliest opportunity. Students-at-large who have completed nine credit hours of courses may not register for additional courses until such time as they have been formally admitted to a degree or certificate program. Those who seek admission to a degree or certificate program within one year of completing their last course as SAL/NDS students will not be required to pay an additional application fee for the admission application, but they will be required to submit additional information as is required to make that degree program application complete.

Changing or Adding Programs

Doctoral students may apply to add a master's degree program, and master's degree students may apply to change from one Adler University master's degree program to another by submitting the appropriate application forms. Students must satisfy admission requirements for the degree or certificate program at the time of application to the new program. Acceptance into, and/or successful completion of, one degree or certificate program does not guarantee admission to another program.

Master's degree students who wish to apply to a doctoral program are required to apply for admission as outlined in the Application Process – Chicago Campus section of the current catalog. The application deadlines for doctoral applicants apply to Adler University master's students who are applying to a doctoral program. Once all materials are received, the Admissions Committee will review the application and determine whether the applicant will be scheduled for an interview with doctoral core faculty as the final stage of the application process. Students from master's programs who have been accepted to a doctoral program must complete all requirements for their master's degree no later than one year after acceptance.

Readmission

Students who were previously enrolled at Adler University but withdrew from their degree program or were administratively withdrawn may submit a new application for admission, no less than one year from the date of withdrawal, and will be evaluated according to current admission requirements. If readmitted, applicants/students are subject to the program requirements in effect at the time of the new application. This also applies to students who seek to return to the University following a withdrawal in good standing.

When previously withdrawn students are granted readmission to Adler University, or when alumni apply for admission to a different program, a case-by-case review of the student's prior academic record will be done to determine whether credit can be granted for formerly completed coursework. Many factors are pertinent to the University's determination to give credit for previously completed coursework, including but not limited to: (1) the length of time that has passed since the coursework was originally completed; (2) the grade earned in the course; (3) the performance evaluation completed by the student's Faculty Advisor/ supervisor; and (4) curriculum changes that may have occurred and been formally instituted since the student's withdrawal from the University. There are no fixed and absolute rules regarding granting credit for previously completed coursework. Instead, a formal review of the unique academic and training history of each applicant will occur, and a determination will be made at the discretion of the Admissions Committee in consultation with the Program Director. A formal audit of previously completed coursework will be undertaken only after enrollment in a degree program.

Transfer Credit

A student accepted for admission may be granted transfer credit for graduate-level courses previously taken at another accredited institution within the last five years. Upon enrollment into a degree program, a review of the student's unique academic history will occur, and a determination about granting transfer credit will be made at the discretion of the University. Requesting transfer credit is an extensive process that involves a review of previous academic work, including syllabi and grades earned. It is Adler University policy that transfer credit must be requested with all supporting documentation received by the end of the second semester of enrollment.

Transfer of credit is subject to the following conditions:

- Transferred course credit is restricted to graduate-level courses from recognized and regionally accredited degree-granting institutions.
- Completed course matches 80 percent of the content of the course requirement.
- Number of credits earned for the completed course matches or exceeds number of credit hours for the requested course.
- Transfer of credit is not granted for practicum or internship.
- Transfer of credit is granted only for courses in which the grade earned was a B or higher. Pass/fail or credit/no credit courses are ineligible.
- No credit will be transferred for coursework that is more than five years old.

A maximum of 12 credit hours from other accredited institutions may be transferred into a master's program; a maximum of 24 credit hours may be transferred into Adler University doctoral programs. Students will be charged a transfer of credit fee for each course evaluated for transfer consideration. Please reference the current schedule of fees and tuition schedule for transfer of credit fee information.

ACADEMIC POLICIES AND PROCEDURES – CHICAGO CAMPUS

Attendance

This policy establishes the obligations of students to adhere to class attendance standards. Students are responsible for maintaining regular and punctual attendance for each class session. Students who expect to miss or arrive late for class should notify the instructor in advance. Students who miss more than two unexcused class sessions, or an accumulation of five hours of class time, due to late arrival or tardiness, may receive a grade of F (fail) and may be required to repeat the course. Students whose absence or tardiness affects the quality of their work, or the work of the class, may be given a lower grade at the discretion of the faculty instructor.

Due to the unique structure of the practicum seminar courses, students who miss more than one class session in a semester may receive a grade of NC (no credit) and may be referred to the appropriate Student Development Committee for review.

Application of the Attendance Policy

This policy establishes the obligations of students to adhere to class attendance standards and the rights of instructors to give students lower or failing grades for breaches of the policy.

Instructors consider extenuating circumstances and/or student accommodation needs when applying the class attendance policy and therefore, have some discretion in providing accommodations to students whose attendance breaches the standard. Thus, instructors may develop an alternative plan for students who are unable to comply with the attendance policy, but only if the plan enables the student to meet the course exit competencies.

In accordance with Title IX of the Education Amendments Act of 1972, the University does treat pregnancy (including, but not limited to, childbirth, false pregnancy, termination of pregnancy, and recovery therefrom) and related conditions as a justification for which no penalty may be imposed for absences deemed medically necessary by the student's physician. Requests for excused absences related to pregnancy or related conditions should be directed to the student's instructor(s), and questions about Title IX should be directed to the University's Title IX Coordinator. Appropriate documentation from the student's physician specifying the length of absence needed for pregnancy or related conditions may be required in order to consider absences excused. At the conclusion of such excused absences, the student shall resume the status held at the time the absences began.

Accommodations due to pregnancy or related issues may need to be made in situations where an extended leave is medically necessary.

Statement of Student Responsibilities

Adler University expects students to:

1. Adhere to all applicable University policies and procedures
2. Uphold University rules applicable to conduct both in on-campus and off-campus settings, including clinical, field, internship, in-service, and other activities
3. Abide by local, state, and federal laws
4. Maintain academic honesty and integrity
5. Comply with ethical and professional standards applicable to their program of study
6. Contribute actively to the process of learning, including complying with attendance or participation requirements, completing assignments, and preparing for class
7. Conduct themselves in an ethical, professional, and civil manner
8. Demonstrate respect for the rights of others
9. Regularly monitor their student accounts

Academic Status

Students in the Doctor of Psychology in Clinical Psychology (PSY.D.) program, please see the Psy.D. Program Policies Handbook for additional details on Academic statuses, SDC referrals, and SCEC referrals.

ACADEMIC GOOD STANDING

To remain in academic good standing, a student must:

1. Maintain consistent enrollment
2. Take a course load that ensures steady movement toward degree completion within the maximum time limits outlined in the catalog
3. Meet all academic, comportment, and professional standards as well as applicable program requirements
4. Maintain a minimum cumulative grade point average of 3.0 on a 4.0 scale

Note: The Department of Education additionally requires that students keep their accounts current and successfully complete (B grade or better) 70 percent of attempted coursework in each term in order to be eligible to receive federal student financial aid.

ACADEMIC ALERT

Students with a minimum cumulative GPA of 3.0 who earn a B- grade for the first time will be placed on Academic Alert status for the following semester.

ACADEMIC WARNING

Students will be placed on Academic Warning when they meet any of the following conditions:

1. Earn a first grade of C with a minimum cumulative GPA of 3.0
2. Earn a second B- with a minimum cumulative GPA of 3.0

This status will be in effect for one semester subsequent to the receipt of the second low grade.

ACADEMIC PROBATION

Students will be placed on Academic Probation the first time they meet any of the following conditions:

1. Earn a second grade of C
2. Earn a single D, F, WF, or NC grade without a prior history of low grades (B- or C)
3. Earn three or more grades of B-
4. Fall below a minimum cumulative GPA of 3.0 on a 4.0 scale

Students on Academic Probation shall have a maximum of two consecutive semesters following the status change in which to address the issue that generated probationary status.

ACADEMIC DISMISSAL

Students may be subject to Academic Dismissal when they meet any of the following conditions:

1. Earn two or more grades of D, F, WF, or NC
2. Earn a third grade of C
3. Fail to maintain a minimum cumulative GPA of 3.0 on a 4.0 scale for two semesters
4. Fail to comply with any prior academic remediation plan

The transcript of a student who has been dismissed will carry the notation "Academic Dismissal." Students who have been dismissed are ineligible to reapply to the University.

Satisfactory Progress

To maintain Satisfactory Progress, students must remain consistently registered until completion of all degree requirements and take a course load that ensures steady movement toward degree completion within the maximum time limits for the program.

Students who fail to register each term may be administratively withdrawn from the University, and "Administrative Withdrawal" will be indicated on the transcript.

Master's students should complete a minimum of 12 credit hours every 12 months and must satisfactorily complete all of the requirements for graduation within five years of the date of first registration following admission to the program. For degree programs with more than 60 total credits, students may need to take up to 14 credits every 12 months in order to complete their degree requirements within five years.

Doctoral students should complete at least 18 credit hours every 12 months and must satisfactorily complete all requirements for graduation within seven years of the date of first registration following admission to the program. Students enrolled in dissertation or internship are considered to be maintaining minimum credit requirements for satisfactory academic progress.

Continuous Enrollment

Adler University requires students to maintain continuous enrollment throughout their academic program, including summer semesters. Students must request a leave of absence for any portion of their academic program when they cannot enroll. Students must be formally registered in the term in which their degree or certificate is conferred.

Students who have registered for all required coursework and are completing ancillary degree requirements must register for Continuous Enrollment, CER-001, for all semesters leading up to the conferral of their degree or certificate. Students may register for this course a maximum of three times.

The enrollment status for this course is less than half time. The Continuous Enrollment course is not eligible for financial aid. Students are charged the universal fee of their highest program. Please see the Tuition and Fees section for your program's universal fee.

Students who fail to register for a degree requirement or Continuous Enrollment each term until conferral of their degree may be administratively withdrawn from the University. "Administrative Withdrawal" will be indicated on their transcript.

Student Referral Policy

Adler University requires all students to uphold the highest standards of academic, personal, and professional conduct. The Student Referral policy applies to all academic and professional training-related conduct, including online, on-campus, and at the training sites. The University reserves the right to exercise jurisdiction over events or actions occurring off campus, or in virtual communities where Adler University's community interest is affected. This policy is designed to contribute to the personal as well as professional growth of the students and to ensure the welfare of the University and its related communities.

Student Development Committee (SDC)

The Student Development Committee (SDC) is a standing committee within each academic department that monitors students' Academic Status and compliance with Student Responsibilities found in this Catalog. The primary function of the committee is to provide early and structured assistance to students in successfully completing their program.

The Registrar forwards a list of students who have fallen below Academic Good Standing to the appropriate departmental Student Development Committee at the beginning of each term. When students breach one or more of the Student Responsibilities, any employee of the Adler community may alert the appropriate Student Development Committee by submitting a Student SDC Referral form (available online).

The Student Development Committee reviews the grade reports and referral forms, determines the level of severity of the concern (outlined below), and may direct the student to take remedial action. Depending on the seriousness of the concern, the student will be referred to the Faculty Advisor, to meet with the Student Development Committee, or to the Student Comprehensive Evaluation Committee. A description of the "Referral Process" is below.

Student Comprehensive Evaluation Committee (SCEC)

Serious or repeated breaches of Academic Good Standing or of the Student Responsibilities policy will be addressed through the Student Comprehensive Evaluation Committee (SCEC). The Committee will evaluate the referral, provide a plan for remediation if appropriate, and deliver a decision on the outcome. This decision may include dismissal or administrative withdrawal.

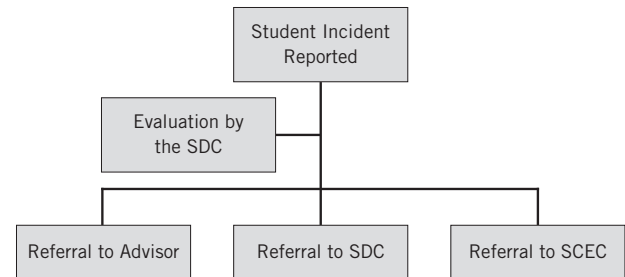

Referral Process

When students breach one or more of the Student Responsibilities, any employee of the Adler community may alert the appropriate Student Development Committee (SDC) by submitting an SDC Referral form (available online). Examples of why a student may be referred to SDC include, but are not limited to, when students: receive a grade of B- or lower; display a pattern of noncompliance at a training site; have been placed on a practicum or internship remediation plan; and/or demonstrate a lack of professional standards in or out of the classroom. Each academic department has its own SDC, which will complete the initial review of the referral.

At Adler University, our goal is to support students throughout their academic program. Referrals will be directed to the SDC, which will determine the level of severity of the concern in accordance with the criteria and direct the referral to the student's Faculty Advisor, to review by the SDC, or to the Student Comprehensive Evaluation Committee (SCEC). The student referral process below denotes the role of each level of referral.

1. Students who display general difficulty with the process of learning or who fail to regularly monitor their student accounts will meet with their Advisor. The role of the Advisor is to offer support, help students develop an action plan, and monitor improvements.
2. Students who struggle to maintain expected grades, fail to comply with conduct standards, demonstrate a pattern of noncompliance during a field or practicum placement, are placed on a practicum or internship remediation plan, or display ethically questionable behavior will meet with the Student Development Committee (SDC). The role of the SDC is to help the student understand patterns of difficulty, identify recommended resources, and establish a plan for continued success.
3. Students who have a pattern of low grades, display egregious lapses in professional and/or ethical judgment and/or conduct, or fail to comply, with earlier levels of intervention will meet with the Student Comprehensive Evaluation Committee (SCEC). The role of the SCEC is to determine whether students are able to continue studies at Adler University in a satisfactory manner.

The diagram below serves as a basic visual illustration of the process:

ADVISOR LEVEL REFERRALS

SDC directs Faculty Advisors to meet with students who do any of the following:

- Fail to adhere to any applicable University policies and procedures (Student Responsibility 1.)
- Fail to contribute actively to the process of learning as outlined in the relevant syllabi, including complying with attendance or participation requirements, completing assignments, and preparing for class (Student Responsibility 6.)
- Fail to regularly monitor their student accounts (Student Responsibility 9.)
- Violations of the Academic Honesty Policy (Academic Misconduct)

DEPARTMENT-LEVEL REFERRALS

SDC meets with students who do any of the following:

- Earn a single B-, C, D, F, NC, or NP grade (Academic Probation)
- Fall below a minimum cumulative GPA of 3.0 on a 4.0 scale for a semester (Academic Probation)
- Fail to adhere to any applicable University policies and procedures (Student Responsibility 1.)
- Conduct non-compliance in off-campus settings including clinical, field, internship, or in-service activities, as outlined in practicum documents or site-specific procedures, or is placed on a practicum or internship remediation plan (Student Responsibility 2.)
- Fail to comply with any ethical and professional standards applicable to their program of study (Student Responsibility 5.)
- Fail to conduct themselves in an ethical, professional, and civil manner (Student Responsibility 7.)
- Fail to demonstrate respect for the rights of others (Student Responsibility 8.)
- Violations of the Academic Honesty Policy (Academic Misconduct)

INSTITUTION-LEVEL REFERRALS

SDC refers to SCEC students who do any of the following:

- Earn two (2) or more grades of B-, C, D, F, NC, or NP
- Fail to maintain a minimum cumulative GPA of 3.0 on a 4.0 scale for two (2) semesters
- Fail to comply with any prior academic remediation plan
- Fail to adhere to any applicable University policies and procedures (Student Responsibility 1.)
- Fail to abide by any local, state, and federal laws (United States), or federal, provincial, and municipal laws (Canada). See policies on Criminal Activity, Sexual Offense, Disorderly Behavior, Unauthorized Entry, and Weapons (Student Responsibility 3.)
- Any form of cheating on examinations, assignments, etc.
- Violations of the Adler University Academic Honesty Policy (Academic Misconduct)

- Violations of the Adler University Nondiscrimination and Anti-Harassment Policy
- Demonstrate an egregious lapse(s) in professional and/or ethical judgment/conduct

Please note that the descriptions above represent only a general overview of the student referral process. Further, some Student Responsibilities and policies or violations are listed in more than one level above. Hence, the unique details of an individual situation will be taken into consideration, and may warrant an approach not specifically outlined above.

SDC and SCEC Appeals

Students have the right to appeal the decisions made by the SDC or the SCEC. A student may appeal the decision based on the following criterion:

1. There is procedural error identified that indicates a substantial breach of institutional processes or procedures.
2. There is new information of a substantive nature that was not available at the time the decision was made. New information may require documentation.
3. The initial decision is biased or in violation of stated student rights.

Students who wish to appeal for reasons stated above must present an appeal in writing within 10 business days of the initial decision date.

Students who wish to appeal are encouraged to consult with their Advisor and/or the Office of Student Affairs.

Qualifying Examinations

In addition to satisfying coursework, practica, and other program requirements, master's and doctoral programs require qualifying exams that differ by program. Please consult the requirements for each program. Qualifying examinations are important requirements, providing students with the opportunity to integrate course material and practical training, reflect on the educational and training experiences, and apply their learning to clinical and social issues. In addition, the exams enable faculty to evaluate students' progress toward expected learning outcomes.

Registration

Term schedules are published and updated online via Student Planner. Students register online, and registration deadlines are published each term. Please consult the academic calendar for specific dates. Students who wish to take more than 15 credits within a term must receive written approval from their Program Director.

Preregistration tools such as the catalog, advisement sheet, and the progress tab in Student Planner are great resources. Students are strongly encouraged to ensure all course are in "registered" status prior to the end of the add/drop period. A student's ability to add and drop courses and exams end on the final date of the add/drop period. Students wishing to add courses or exams after the published add/drop period must submit the Registration Exception Form, located on the Registrar page on Adler Connect. The form must have approval from the course instructor and Program Director. Students will incur the late registration fee for courses and exams added after the published add/drop period. A hold will be placed on the student's account until payment in full is submitted to Student Finance. Financial aid recipients should consult with the Office of Financial Aid. Students risk forfeiture of all earned grades if they are not officially registered for a course or exam.

Course Add / Drop

Students wishing to add or drop a course or exam must do so before or during the published registration and add/drop period. Please consult the academic calendar for specific dates.

Students must add or drop all courses or exams via Student Planner. A drop fee is assessed for each course or exam dropped once the course period begins. When a student drops a course or exam, the official drop date is the date the student drops the course or exam via Student Planner. Students who drop a course or exam during the add/drop period may receive refunds in accordance with the established refund policy. Students who are withdrawn due to disciplinary or academic reasons may receive a prorated refund. No refunds will be made when students never attend a course or stop attending class without officially withdrawing from the course.

If a student decides to take a leave of absence before the term starts or during the add/drop period, the student is required to log onto Student Planner or WebAdvisor to drop all of their courses and exams and complete the Leave of Absence Request form. Failure to do so will result in the student being charged the drop fee and/or tuition.

A student's ability to add and drop courses and exams ends on the final date of the add/ drop period. Students who wish to drop a practicum or internship course must have prior approval from the Director, Civic Learning and Community Action or Director of Training.

Course Withdrawal and Withdrawal Fail

After the published add/drop period of a course period, a student who wishes to withdraw from a course or exam must send an email from their Adler email account to their Faculty Advisor, Student Success Coach, or Program Director to obtain approval to withdraw. Notifying the instructor or ceasing class attendance/participation does not constitute an official withdrawal. The official date of the withdrawal is the date the student sends the email request to withdraw from the course or exam to their Faculty Advisor, Student Success Coach, or Program Director.

Students who stop attending class or request to withdraw from a course or exam after the published withdrawal grade (W grade) deadline will receive a WF grade or a final grade from the instructor that reflects the work completed and the work that was not completed. A WF grade factors into the grade point average as an F. In addition, students may not withdraw from a course or exam after the published end date of the course or due date of the exam. Students are not eligible for a refund after the add/drop period concludes.

Please consult the academic calendar for the specific dates to withdraw from each of the course periods.

Leave of Absence

Students may take a Leave of Absence (LOA) due to illness or other extenuating circumstances by completing a Leave of Absence form, including necessary signatures, and submitting the form via their Adler email account to the Office of the Registrar. It is the student's responsibility to obtain the signatures on the leave of absence form and to understand the potential academic and financial implications of taking an LOA. The Office of the Registrar accepts the Leave of Absence request via email. Forms that are missing information and signatures will be returned to the student. An LOA may be taken for up to a total of three terms (one calendar year). The LOA form is located on the Registrar page on Adler Connect. Incomplete forms, including forms with missing signatures, will not be accepted by the Office of the Registrar.

If a student has accepted a practicum or internship prior to requesting a leave, or is completing a practicum/internship at the time of the request, the student must contact the Director of Training or Center for Civic Learning and Community Action prior to submission of the form to his or her Faculty Advisor. The LOA will be noted on the student's transcript for each term until the student returns to the University. Time approved for an LOA does not impact the maximum time allowed for degree completion. LOA refers to the specific time period during a program when a student is not in active attendance. Students are strongly encouraged to monitor their Adler email account during their LOA. Students on an LOA are considered to have withdrawn for financial aid purposes, and their student loans will come due after any applicable grace period.

Students who do not return from an LOA by the agreed-upon term may be administratively withdrawn from the University. In order to be readmitted, administratively withdrawn students must submit a new application for admission no sooner than one year after the date upon which they were dismissed and, if admitted, must follow the program requirements in effect at the time of the new admission.

If a student decides to take an LOA before the term starts or during the add/drop period, the student is required to log onto Student Planner or WebAdvisor and drop all of his or her courses. Failure to do so will result in the student being charged the drop fee and/or tuition in accordance with the University's tuition refund policy.

Medical Leave of Absence

A student who cannot begin or complete a term due to illness or other health related conditions may submit a request for a medical leave of absence.

Students must submit the Medical Leave of Absence form and provide documentation on official letterhead from their health care provider supporting their request for a medical leave of absence and the anticipated timeframe in which the student is able to resume coursework. The medical leave documentation from the health care provider does not have to indicate the student's specific health condition.

Students may take a medical leave of absence for up to one year. Requests to extend a medical leave must be recommended by the student's health care provider. Documentation recommending the extension must be submitted from the student's health care provider on official letterhead. A student returning from a medical leave of absence must provide documentation on official letterhead from their health care provider once their condition has been resolved or managed and the student is able to resume their studies.

Students are strongly encouraged to log onto Student Planner or WebAdvisor and drop all courses if they decide to take a medical leave of absence before the term starts or during the add/drop period. When a medical leave of absence is granted, withdraw (W) grades will be posted for courses that have not concluded but remain on the student's schedule for that term. Students may elect to petition for incomplete grades. If the petition is granted the student must sign an incomplete grade agreement and complete all coursework in accordance with the incomplete grade agreement. If a student has incomplete grades from prior terms, the deadline for completing the course is not changed by a leave of absence.

While a leave of absence for medical reasons may be granted at any time during the term, tuition is refunded in accordance with the University's refund policy. Please see your campus's Tuition Refund Policy in the most recent University catalog. Students taking a medical leave of absence who are recipients of U.S. Title IV financial aid should refer to the U.S. Financial Aid portion of the most recent catalog to determine the financial implications of their leave. A medical leave of absence may result in the partial or complete loss of financial aid for the term. Questions about individual cases should be directed to the Office of Financial Aid.

Students who stop attending classes without formally submitting a medical leave of absence request risk academic and financial consequences. Academic consequences include, but are not limited to, receiving failing grades in all courses, being placed on academic probation, and academic dismissal. Financial consequences include, but are not limited to, incurring a balance which impacts the ability to register, and financial aid eligibility being suspended.

Administrative Withdrawal

Once enrolled, students are expected to maintain Academic Good Standing, meet all Student Responsibilities, maintain Satisfactory Progress, and register each consecutive term until completing the program in which they have been admitted. Students who fail to register for each consecutive term may be administratively withdrawn from the University. The University also retains the right to administratively withdraw students whose accounts are past due and to charge all associated fees.

"Administrative Withdrawal" will be noted on the transcripts of students who have been administratively withdrawn. Students who have been administratively withdrawn and wish to be reconsidered for matriculation must submit a new application for admission no sooner than one year after their administrative withdrawal and, if admitted, must meet the program requirements and policies in effect at the time of the new admission. Students readmitted to the University may be eligible to receive up to 24 credits for coursework completed either at Adler University or another institution. Students who wish to appeal the decision of administrative withdrawal can follow the procedures of the Student Grievance and Appeal Policy posted online at adler.edu.

Withdrawal in Good Standing

Students may withdraw from Adler University in good standing by completing the Student Withdrawal form, including necessary signatures, and submitting the form via their Adler email account to the Office of the Registrar. The Student Withdrawal form is located on the Registrar page on Adler Connect. It is the student's responsibility to obtain the signatures on the student withdrawal form and to understand the potential academic and financial implications of withdrawing from the University. Forms that are missing information and signatures will be returned to the student. To withdraw in good standing, students must be in Academic Good Standing at the time of withdrawal, have completed all requirements for courses and clinical work for which they are registered, and may not be subject to pending disciplinary or academic inquiries. "Withdrawal" is noted on the transcript.

If a student decides to withdraw from the University before the term starts, or during the add/drop period, the student is required to log onto Student Planner or WebAdvisor and drop all of his or her courses. Failure to do so will result in the student being charged the drop fee and/or tuition in accordance with the University's tuition refund policy.

Former students who wish to return to the University after withdrawing in good standing must submit a new application for admission and, if admitted, must follow the policies, procedures, and program requirements in effect at the time of the new admission. Students readmitted to the University may be eligible to receive up to 24 credits for coursework completed either at Adler University or another institution.

Grading System

It is the responsibility of the faculty to provide careful, detailed, timely, and thoughtful feedback and evaluation of students' work. The policies pertinent to grading, as outlined in the Adler University Catalog, are as follows:

CHICAGO CAMPUS

Grade	Description	Grade Point
A	Excellent	4.0
A-		3.75
B+		3.5
B	Satisfactory	3.0
B-	Marginal	2.75
C	At Risk	2.0
D	Unsatisfactory	1.0
F	Failure	0.0
AU	Audit	0.0
CR	Credit	0.0
NC	No Credit	0.0
I	Incomplete	N/A
IP	In Progress	N/A
TR	Transfer	N/A
W	Withdrawal	N/A
WF	Withdrawal Fail	N/A
WCF	Withdrawal No Credit	N/A

Traditional letter grades are given for most of the courses offered. A limited number of courses are evaluated on a credit/no credit basis. The grading system for the Chicago Campus is as follows:

Grade Scale	
95 – 100%	A
90 – 94%	A-
85 – 89%	B+
80 – 84%	B
77 – 79%	B-
70 – 76%	C
60 – 69%	D
Below 59%	F

Only two grades of C (for all programs except the Psy.D. in Clinical Psychology) and no grades of D, F, NC, or AU may be counted toward completion of degree requirements. Psy.D. students who receive a grade of B- or below in a required course must retake the course and pass it with a grade of at least B. If the course is an elective, the student has the option to retake the course and achieve a grade of at least B, or elect a different elective and pass it with a grade of at least B. Please see the Psy.D. Policies Handbook for additional details.

A maximum of six credit hours may be repeated to remediate deficient grades and qualify for graduation. Both the original course grade and the repeated course grade will be calculated in the overall GPA, and both will appear on the transcript.

AUDIT

Students registered to audit a course will receive, upon successful completion of the course, a designation of "AU" on their transcripts, which signifies neither credit nor a grade. Students cannot change an audited course to the credit option after the add/drop period ends. Please see the academic calendar for dates. Audited courses do not count toward graduation requirements and are not eligible for financial aid. Once an audited course is completed, it cannot be changed to credit at a later time.

CREDIT/NO CREDIT

A grade of CR (credit) is assigned upon satisfactory completion of undergraduate prerequisite classes, professional development seminars, practicum seminars, practicum/internship requirements, qualifying examinations, the master's thesis, and the doctoral dissertation.

A grade of NC (no credit) is assigned upon unsatisfactory performance in a practicum or a course offered on a credit/no credit basis. Grades of CR are not used in calculating the grade point average; however, grades of NC, while not used in calculating the grade point average but are considered failing grades for the purposes of academic Satisfactory Academic Progress.

INCOMPLETE

An I (incomplete) grade will be granted only in exceptional situations when requirements for a course cannot be completed in the time allowed. An incomplete grade is allowed only with the written consent of the instructor and indicates that the student has presented a satisfactory reason for receiving an incomplete grade. Students must request an incomplete grade prior to the due date of the final requirement of the class in question.

For an incomplete grade to be granted, students must complete an Incomplete Grade Agreement form with the instructor. The form is available to faculty only on Adler Connect. The Incomplete Grade Agreement should state specifically what the student must do to satisfy the course requirements, including the instructor's grading criteria and the agreed-upon completion date. The agreed-upon completion date cannot exceed the final date of the subsequent term in which the course was taken. A Grade Change form must be submitted by the instructor no later than two weeks from the agreed-upon completion date indicated on the Incomplete Grade Agreement. Incomplete grades automatically convert to a failing grade if a Grade Change form is not submitted two weeks after the agreed-upon completion date. The student and instructor must sign the Incomplete Grade Agreement. The instructor must submit the form to the Office of the Registrar via the instructor's Adler email account. The Office of the Registrar will not accept the Incomplete Grade Agreement from the student. Please see the Incomplete Grade Agreement for complete details.

Receipt of one or more incomplete grades may preclude a student from enrolling in subsequent terms, may render the student ineligible for federal student aid, and may result in the student being referred to the Student Development Committee.

If the coursework is not successfully completed within the time limit established by the instructor, the incomplete grade will be changed to an F (fail) or NC (no credit).

IN PROGRESS

A temporary grade of IP (in progress) can be given to students who are engaged in applied field experiences (e.g., practicum, internship), or who are pending completion of a comprehensive exam. The IP will be removed from the transcript when the final grade has been posted. The maximum time frame to complete course requirements for an IP grade is the final date of the subsequent term.

TRANSFER

A grade of TR is awarded for transfer credit from external institutions. Please see the Transfer Credit policy for details regarding course transferability. Transfer credit grades are not used to calculate a student's cumulative grade point average. The TR grade is not utilized to calculate a student's academic standing or credit attempted.

WITHDRAW

A W grade indicates the student officially withdrew from a course with written permission of the student's Program Chair, Program Director, or Faculty Advisor through the allowed withdrawal period. Please see the academic calendar for dates. The grade W is not counted in a student's earned credit hours, nor calculated in the student's grade point average.

A W grade impacts a student's time to complete his or her degree program.

WITHDRAW FAIL

A grade of WF indicates withdrawal from a class or exam without proper authorization and is also assigned for withdrawal after the "W" grade deadline (see the academic calendar for dates), when a student ceases attending a course or exam, or never attends a course or exam. A course with WF is counted as attempted credit hours in the computation of academic standing, is calculated as an F in the student's grade point average, and impacts a student's time to complete his or her degree program.

WITHDRAW NO CREDIT

A grade of Withdraw No Credit, WNC, indicates withdrawal from a credit (CR) or no credit (NC) class or exam without proper authorization and is also assigned for withdrawal after the "W" grade deadline (see the academic calendar for dates), when a student ceases attending a course or exam, or never attends a course or exam. Grades of WNC are not used in calculating the grade point average and are considered failing grades for the purposes of Satisfactory Academic Progress and impacts a student's time to complete their degree program.

Grade Corrections and Grade Appeals

A student may appeal a final course grade for one or more of the following criteria:

- The faculty member violated a specific University rule or policy pertaining to grading, including refusal to discuss a grade with the student.
- The faculty member did not provide stated grading criteria and a grading scale, did not follow the stated criteria or grading scale, or applied either of them inconsistently.
- A clerical or administrative error was made in the process of recording or reporting the grade, and the faculty member has not corrected it.
- The faculty member did not report any grade for the individual student.
- The grade reflects discriminatory, biased, abusive, exploitive, or otherwise improper conduct toward the individual student. These allegations will be referred to the appropriate office, as determined by legal counsel, for investigation. The scope of the investigation will be limited to the allegation(s) and will not address the grade appeal. Hence, the following appeal process may be placed on hold during the investigation of the alleged discrimination but will not circumvent the grade appeal process. The Program Director and Department Chair (Second Level) will be informed of the determination of the investigation. Should the appeal involve the Program Director or the Chair as the instructor, his or her immediate supervisor will be informed. Due to the confidential nature of harassment, discrimination, and Title IX investigations, the substance of the investigation will not be shared, only the outcome. In cases where a violation has been found, the Second Level reviewer will assess whether the violation impacted the appellant's grade. Determination of the final grade will be made through the formal grade appeal process.

APPEAL PROCESS

For the purpose of this procedure, "days" means academic/business days, not calendar days. Dates when classes are not in session will not count toward the timeline. "Term" means fall, spring, or summer academic terms.

First Level: Appeal to the Faculty Member

- A student who wishes to appeal a grade for any of the criteria (A through D above) must first notify the instructor of record by email that he or she wishes to appeal and discuss the reason(s) for questioning the final grade. If the grade appeal uses criterion E, then students may appeal directly to the Program Director or Department Chair (Second Level).
- The deadline for a student to take the complaint to the faculty member is 5 p.m. CST on the 10th business day of the semester following the final grade being appealed.
- A student having a verbal discussion of an appeal related to criteria A through D above must follow up with an email or written statement to the instructor summarizing the basis of the appeal.
- In most cases, the discussion between the student and the instructor should suffice to resolve the issue. The instructor must respond in writing to the student, copying the Department Chair or Program Director, within five business days of the student's email concerning the disputed grade.

Second Level: Appeal to the Department Chair/Program Director

If the student's concerns remain unresolved after discussion with the instructor, or if the instructor does not respond within the allotted time of five business days, the student may submit a written Grade Appeal form according to the following process. The Grade Appeal form must be submitted within 10 business days of the response from the instructor. In the case of receiving no response from the instructor after five business days, students can submit the written Grade Appeal form to the Program Director or Chair directly. This timeline may not apply in situations where criterion E was designated as the basis of the appeal.

Completion of the Grade Appeal Form, to include:

- The criterion for the appeal (see A through E of the grade appeal criteria above)
- The grounds for challenging the original grade
- A description of the remedy sought
- Full documentation of the efforts to resolve the appeal of the grade taken to date

Submission of the completed Grade Appeal Form to:

- Chair or Program Director responsible for the degree program
- Instructor of record

Departmental Review (within 20 business days of Grade Appeal form submission). Upon receiving a Grade Appeal form, the Department Chair or Program Director will review the appeal documents, including the instructor's response to the student, within the department or program.

The Chair or Program Director will determine the outcome of the appeal and communicate it to the student and the instructor. The departmental review process, terminating with notification from the Chair or Program Director, is to be completed within 20 business days of Grade Appeal form submission.

Departmental review may be governed to an extent by accreditation requirements applicable to the program.

Third Level: Appeal to Academic Affairs Grade Appeal Committee
(within 10 business days of departmental determination)

If the departmental review process does not result in resolution of the student's concerns, the student has 10 business days after receiving the determination to notify the Department Chair or Program Director that the student wishes to appeal the decision. The Department Chair or Program Director shall then direct the Grade Appeal form and all associated communications to the Chair of the Faculty Council, who will refer this appeal to the Grade Appeal Committee, an ad-hoc faculty committee that provides a higher level of appeal beyond the department. The ad-hoc faculty committee is to be established by the Executive Committee of the Faculty Council, as needed, and is to consist of no fewer than three faculty members.

The Grade Appeal Committee shall convene a meeting, choose a chair and review all relevant and supporting documents. The committee shall consult with the Vice President of Academic Affairs (VPAA) and make a final decision within 20 business days of having received the Grade Appeal form and supporting documentation. After a final decision is made by the Grade Appeal Committee, the Grade Appeal Committee Chair will respond directly to the student to communicate the decision as well as the basis for the outcome. This written response consists of an e-mail, as well as a paper copy sent to the student's address on file in the registrar's office. The instructor, program director/department chair, and the VPAA shall also be included in the communication. The decision of the Grade Appeal Committee is final.

COMMONLY CITED EXCEPTION: If the instructor of record is also serving as Chair or Program Director, the student, after an unsuccessful attempt at resolution with the faculty member, may direct the Grade Appeal form to the immediate supervisor, who will serve as the second-level reviewer. Should the student not be satisfied with the second-level reviewer's decision, the student will request an appeal to the Grade Appeal Committee by notifying the second-level reviewer that he or she wishes to appeal.

Degree Conferral

The Office of the Registrar is the department that processes degree conferrals at the University. The degree conferral process is an ongoing process and is not restricted to one time of the year. The annual commencement ceremony is not related to how degrees are conferred.

The Office of the Registrar will perform a comprehensive audit of a student's entire academic record once:

- the graduation application is submitted (due dates are available on the academic calendar)
- all grades are posted by the student's instructors
- all other degree requirements have been fulfilled (including practicum/internship/Social Justice Practicum; for doctoral students this also includes the student's upload of their final dissertation and the student's academic program's approval of the uploaded final dissertation).

FINAL GRADES

Instructors are required to post grades no later than five business days after the end of the course period.

Once an instructor posts final grades, the grades are immediately available for the student to view in Student Planner. Questions regarding missing grades should always be referred to the instructor on record (instructor name is located on the student's schedule). Since faculty are responsible for posting final grades, the Office of the Registrar does not have knowledge regarding the status of missing grades.

INTERNSHIP/PRACTICUM/EXTERNSHIP/SOCIAL JUSTICE PRACTICUM

Students are required to have all internship/practicum/externship/Social Justice Practicum requirements complete before degree conferral. Students with questions regarding the status of their internship/practicum/externship/Social Justice Practicum grades or questions regarding where documentation should be sent from their training sites should connect directly with the instructor of record (instructor name is located on the student's schedule). The Office of the Registrar has no involvement in training related courses and does not obtain or retain documentation relating to these experiences.

Once all grades are posted and **all** degree requirements are completed (including practicum, internship, submission of the final dissertation to the student's academic department, and confirmation from the student's academic program the final dissertation has been accepted) auditing for degree conferral commences.

DEGREE CONFERRAL PROCESS

Please allow up to 30 calendar days from the point all degree requirements have been satisfied or 30 calendar days from the point your last grade was posted by your instructor for your degree to be conferred. Students will receive email notification to their Adler email account once their degree has been posted to their academic record.

Students are automatically in queue for degree conferral once all degree requirements (including practicum, internship, submission of the final dissertation to their academic department, and confirmation from the academic program their final dissertation has been accepted) are fulfilled.

Students who anticipate beginning a job or post-doc by a specific date, should plan ahead by submitting all degree requirements well in advance of their start date.

The degree completion and conferral dates reflected on a student's transcript will reflect the date **all degree requirements** were satisfied (this includes last dates of attendance posted by instructors for each course, completion of practicum and internship, submission of the final dissertation to their academic department, and confirmation from their academic program their final dissertation has been accepted).

TUITION AND FEES – CHICAGO CAMPUS

2020-2021 Tuition and Fees Schedule

Chicago Campus: Tuition (per credit hour)*

Clinical M.A. Programs	\$ 1,342
Non-Clinical M.A. Programs	\$ 854
Psy.D. Programs	\$ 1,558
Ph.D. Programs	\$ 1,506
Audit Clinical M.A.	\$ 672
Audit Non-Clinical M.A.	\$ 426
Audit Psy.D.	\$ 780
Audit Ph.D.	\$ 754

Chicago Campus: Universal Fee (per semester)

Note: A student in multiple programs will be assessed the Universal Fee associated with their highest program each period.

Certificate Programs	\$ 400
M.A. in Counseling: Art Therapy	\$ 420
M.A. in Counseling: Clinical Mental Health Counseling - Full Time	\$ 514
M.A. in Counseling: Clinical Mental Health Counseling - Part Time	\$ 338
M.A. in Counseling: Forensic Psychology	\$ 436
M.A. in Forensic Mental Health Leadership	\$ 112
M.A. in Forensic Mental Health Leadership & Clinical Mental Health Counseling	\$ 514
M.A. in Forensic Mental Health Leadership & Rehabilitation Counseling	\$ 514
M.A. in Counseling: Rehabilitation Counseling	\$ 514
M.A. in Counseling: Sport and Health Psychology	\$ 678
M.S. in Sport and Human Performance	\$ 170
M.S. in Sport and Human Performance & Clinical Mental Health Counseling	\$ 514
M.S. in Sport and Human Performance & Rehabilitation Counseling	\$ 514
M.A. in Couple and Family Therapy	\$ 436
M.A. in Public Policy or Public Administration - Full Time	\$ 384
M.A. in Public Policy or Public Administration - Part Time	\$ 190
Ph.D. in Art Therapy	\$ 512
Ph.D. in Couple and Family Therapy	\$ 450
Ph.D. in Counselor Education and Supervision	\$ 482
Doctor of Psychology in Clinical Psychology (PSY.D.): All emphases except Child and Adolescent Clinical Psychology	\$ 718
Doctor of Psychology in Clinical Psychology (PSY.D.): Emphasis in Child and Adolescent Clinical Psychology	\$ 732

Chicago Campus: Registration-Based Fees

Psy.D. Dissertation/Dissertation Continuation Course	\$ 1,558
Psy.D. Internship Course: Full-Time	\$ 1,558
Psy.D. Internship Course: Half-Time	\$ 780
M.A. Prerequisite	\$ 2,010
Psy.D. Prerequisite	\$ 2,338
Study Abroad Fee - MAT-655-A	\$ 300
Study Abroad Fee - MCFT-870-A	\$ 400
Study Abroad Fee - CFTD-870-A	\$ 400
Study Abroad Fee - MAT-652-D	\$ 300
Study Abroad Fee - MAT-652-E	\$ 300
Study Abroad Fee - MAT-652-IS	\$ 300

Degree Completion Fees

Late Degree Completion and Graduation Application	\$ 50
Replacement Diploma	\$ 60

Admissions Fees & Deposits

Admissions Application Fee	\$ 30
Deposit (nonrefundable) - M.A. Programs	\$ 200
Deposit (nonrefundable) - Doctoral Programs	\$ 300
Deferment Fee	\$ 500

Chicago Campus: Miscellaneous Fees

Course Drop	\$ 70
Late Payment Fee (% of past due balance)	2%
Late Registration	\$ 440
Official Transcript	\$10 plus applicable fees
Post-Add/Drop Registration Fee	\$ 440
Returned Check (per occurrence)	\$ 70
Stop Payment	\$ 35
Transfer/Waiver Credit Evaluation (per request)	\$ 55
U-PASS (charged per course period of full-time enrollment)	\$ 165
U-PASS Replacement	\$ 500

Please note that all tuition and fees are subject to change and students in multiple programs will be assessed the Tuition Rate and Universal Fee associated with their highest program each period.

Payment Information – Chicago Campus

METHODS OF PAYMENT

By Web: Finance Self-Service is the fastest and easiest way to pay tuition and fees at Adler University. MasterCard, Discover, American Express, Visa, and e-check payment methods are available through Finance Self-Service. Payments made through Finance Self-Service will be assessed a convenience fee of 2.5% of the payment amount for credit card payments and \$3.00 for e-check payments.

By Mail: Payment may also be remitted by paper check or money order on campus at the Office of Student Accounts. Checks are to be made payable to Adler University. Unless otherwise indicated, tuition and fees are listed in U.S. dollars, and remittance must be made in U.S. dollars.

Mailed payments must be received by the Office of Student Accounts by the scheduled due date (payments postmarked on or before the due date will have late payment fees waived).

Payments made by check or money order should be mailed to:

Adler University
ATTN: STUDENT ACCOUNTS
17 North Dearborn St.
Chicago, IL 60602

Tuition and fees are due in full, two weeks prior to the start of each course period. Payments made to the University are first applied against previous balances and then to current charges.

Students are responsible for all tuition and fees on the due date, regardless of pending employer or third-party reimbursement (pending other financial arrangements). Students receiving financial aid funds are responsible for submitting payment for all tuition and fees that will not be covered by the amount of aid anticipated.

Payment plans (monthly installments) are available. Interested students can contact the Office of Student Accounts via email for more information. Inquiries should be initiated prior to the published tuition due date.

Students whose financial accounts are delinquent are not eligible to register for subsequent course periods, begin a practicum or internship, obtain transcripts, or graduate until all outstanding balances are paid in full. The University retains the right to administratively withdraw students whose accounts are past due and to charge all associated fees. It is the policy of Adler University to submit delinquent accounts to external collection agencies.

Tuition Refund Policy – Chicago Campus

Students who have officially withdrawn from the University, have withdrawn from specific courses, or have been administratively withdrawn may be entitled to a tuition refund. This refund is to be paid within 14 business days of processing the withdrawal or drop. Please note that a drop fee will be assessed, per course, to all Chicago Campus student accounts regardless of the course period week in which students drop. Refunds will be based on the total charge incurred, rather than the amount paid by the student. Mandatory fees are not refundable once the course period has begun. Only tuition charges will be refunded based on the following schedule:

Fall, Spring and Summer Course Periods – Chicago Campus

End of 10th calendar day of the course period (11:59 p.m. CST)	100%
11th calendar day of the course period through the end of the course period	0%

Students who formally withdraw from Adler University will be refunded in accordance with the University's refund policy based on the official withdrawal date processed by the Office of the Registrar.

Students who are approved for a leave of absence and are currently registered for coursework will be refunded in accordance with the University's refund policy based on the official drop date processed by the Office of the Registrar.

Students who are administratively withdrawn from the University are subject to the University's tuition refund policy. In addition, those students who participate in financial aid programs are subject to the return of Title IV funds as mandated by the federal government. Please see the Financial Aid section of this catalog for more information.

PROGRAMS OF STUDY – CHICAGO CAMPUS

Adler University is committed to serving students with diverse needs and interests through multiple degree options. A number of degree programs, certificates, and emphases and concentrations can be completed on either a full-time or part-time basis via online, blended, or traditional on-ground delivery methods. It is strongly recommended that students pursuing a counseling or clinical psychology degree enroll full-time in order to focus the necessary time and attention to their studies and clinical training. Degree programs, certificates, emphases, and concentrations are offered in the following areas:

Master of Arts (M.A.):

- Counseling: Art Therapy
- Counseling: Specialization in Clinical Mental Health Counseling
- Counseling: Specialization in Rehabilitation Counseling
- Couple and Family Therapy
- Forensic Mental Health Leadership

Master of Science (M.S.):

- Sport and Human Performance

Dual Degree:

- Master of Science in Sport and Human Performance / Master of Arts in Counseling: Specialization in Rehabilitation Counseling
- Master of Science in Sport and Human Performance / Master of Arts in Counseling: Specialization in Clinical Mental Health Counseling
- Master of Arts in Forensic Mental Health Leadership / Master of Arts in Counseling: Specialization in Rehabilitation Counseling
- Master of Arts in Forensic Mental Health Leadership / Master of Arts in Counseling: Specialization in Clinical Mental Health Counseling

Master of Public Administration (MPA):

- Public Administration: Community Health Concentration
- Public Administration: Criminal Justice Concentration
- Public Administration: Human Rights Advocacy Concentration
- Public Administration: Sustainable Communities Concentration

Master of Public Policy (MPP):

- Public Policy: Community Health Concentration
- Public Policy: Criminal Justice Concentration
- Public Policy: Human Rights Advocacy Concentration
- Public Policy: Sustainable Communities Concentration

Certificates:

- Substance Abuse Counseling

Doctoral Programs:

- Doctor of Philosophy in Art Therapy (Ph.D.)
- Doctor of Philosophy in Counselor Education and Supervision (Ph.D.)
- Doctor of Philosophy in Couple and Family Therapy (Ph.D.)
- Doctor of Psychology in Clinical Psychology (PSY.D.) with emphasis in:
 - Advanced Adlerian Psychotherapy
 - Child and Adolescent Clinical Psychology
 - Clinical Neuropsychology
 - Military Clinical Psychology
 - Primary Care Psychology and Behavioral Medicine
 - Substance Abuse Treatment
 - Traumatic Stress Psychology

MASTER OF ARTS IN COUNSELING: ART THERAPY

Program Overview

The Master of Arts in Counseling: Art Therapy program is an integrated degree in art therapy and counseling. The program prepares students to be both counselors and art therapists and leads to dual credentialing in art therapy and licensure in counseling. It provides education and clinical training within the context of the philosophy, theories, and principles of counseling and art therapy as well as Adlerian Psychology, Adlerian Art Therapy and the institutional mission and vision. The program fosters collaboration, compassion, leadership, service in the community, cultural competence, innovation, and the creative artistic process in order to promote peace and healing. The program focuses on mastering clinical counseling principles, skills, and techniques that include competency in documentation, treatment planning, and diagnostics in conjunction with the principles, skills, and techniques of art therapy. The combination of the curriculum and the applied practica experiences produce graduates who are not only strong counselors and art therapists, but also socially responsible practitioners who engage in their communities and promote social justice.

Immediately upon graduation from this program, a graduate may apply to take the Illinois Licensed Professional Counselor (LPC) examination and the National Counselor Examination (NCE). After receiving this license, a practitioner may work to complete additional requirements in order to apply to take the Licensed Clinical Professional Counselor (LCPC) examination. This program also provides students with the academic and clinical training needed to meet the education requirements to apply for registration as an art therapist and to seek counselor licensure in Illinois. Students wishing to seek licensure outside of Illinois are strongly encouraged to research the requirements to sit for licensure for each state or province in which they wish to practice. An online search on a state's or province's website is a useful source of this information.

The Provisional Registered Art Therapist (ATR-Provisional) is the credential that ensures an art therapist meets established educational standards, with successful completion of advanced specific graduate-level education in art therapy, and is practicing art therapy under an approved supervisor(s). Students are eligible to apply for this credential once they have completed their degree (or education requirements for the ATR-Provisional) and are engaged in a supervisory relationship with a qualified supervisor(s). The ATR-Provisional is not a required credential to apply for the ATR.

After completing graduate studies and 1,000 hours of supervised clinical art therapy practice, a graduate may apply for art therapy registration (ATR) through the Art Therapy Credentials Board (ATCB). ATR requires 1,000 hours of clinical art therapy (direct client contact), including at least 100 hours of supervision or at least one hour of supervision for every 10 hours of direct client contact. A minimum of 500 hours of this work experience needs to be supervised by a credentialed art therapist (ATR-BC). Up to 500 hours may be supervised by a clinical supervisor who is credentialed in a related field (e.g., social worker, counselor, or psychologist). After an art therapist is awarded an ATR, they may work to complete additional requirements in order to apply for the board certification examination.

With successful completion of this examination, an art therapist is awarded the credential of ATR-BC by the Art Therapy Credentials Board.

Counselors and art therapists work in a wide variety of clinical, educational, and social service settings including medical and psychiatric hospitals, schools, wellness centers, drug and alcohol treatment programs, community mental health centers, private practice, correctional institutions, shelter programs and treatment centers for those who experience interpersonal violence, and community programs for immigrants and refugees.

Program Learning Objectives

1. To develop graduates who ethically assess, appraise, evaluate, and intervene with diverse populations, using multiple methods, including art therapy, counseling, and psychotherapy across many settings and in changing and evolving contexts.

Objectives for Goal 1:

- 1.1 Demonstrate knowledge of, and ability to, conduct comprehensive art therapy, counseling, psychotherapeutic and related mental health field directives, assessments, and evaluations that integrate social and cultural aspects
- 1.2 Demonstrate knowledge of, and ability to, conduct comprehensive art therapy and counseling directives and evaluations that utilize multiple intervention strategies based on current clinical research, and that integrate social and cultural considerations
- 1.3 Demonstrate the ability and commitment to apply those principles in assessment, appraisal, intervention, and evaluation in art therapy, counseling, and psychotherapy practices within all types of populations
- 1.3 Evaluate the efficacy of their interventions and use this information to continuously inform the treatment plan and intervention methods
- 1.4 Understand that all types of art therapy and counseling assessments are ongoing processes that inform practice and research

2. To develop graduates who have mastered the scientific foundations of art therapy, counseling, and psychotherapy and who apply this knowledge to their work and who use research methods to understand human problems.

Objectives for Goal 2:

- 2.1. Acquire knowledge of art therapy, counseling, and psychotherapy as a scientific discipline that serves as the basis for professional practice
- 2.2. Integrate, synthesize, and critique scientific knowledge and literature from multiple sources, taking into account and weighing the significance of multiple determinants of human behavior and to design and conduct a research study
- 2.3. Apply scientific knowledge to design, conduct, interpret, and report research, methodology, and statistical concepts to the practice of art therapy, counseling, and psychotherapy

3. To train graduates to understand art therapy, counseling, and psychotherapy within a social and cultural context with the attitudes, knowledge, and skills needed to work professionally and ethically in a multicultural society.

Objectives for Goal 3:

- 3.1. Integrate knowledge of cultural and social diversity theories and competency models, social sensitivity, and relevant skills regarding individual, ethical and cultural differences into all aspects of their work.
- 3.2. Develop knowledge of themselves as cultural beings in assessment, therapy sessions, treatment planning, evaluation and all other professional activities.
- 3.3. Develop socially responsible, engaged and embedded practitioners, sensitive and appreciative to individual and cultural diversity, as an active, genuine agent of positive change, helping to strengthen and revitalize the health of the community by providing counseling and art therapy services with an emphasis on working with underserved local and global communities, all in the spirit of the Adlerian founders of the school.

4. To prepare graduates who are knowledgeable in the application of management, supervision, consultation, and education methods within the profession of art therapy, counseling, and psychotherapy, including knowledge and experience of managing, facilitating, and maintaining an art therapy open studio/practice and upon eligibility, managing and supervising others.

Objectives for Goal 4:

- 4.1. Understand the role of the art therapist, counselor, and psychotherapist in complex systems, including the discipline of art making, skills, knowledge of art materials and processes, and the general principles of management, supervision, consultation and education
- 4.2. Demonstrate knowledge of and skills in the application of management, supervision, consultation, and education methods within art therapy, counseling, and psychotherapy and are knowledgeable how they differ from other roles

5. To develop graduates with the essential attitudes, knowledge, and skills to effectively engage in socially responsible practice and who can apply Adlerian theory, art therapy and counseling methods, and values in their work.

Objectives for Goal 5:

- 5.1. Understand the role of Individual Psychology within a social context in the practice of art therapy, counseling, and psychotherapy
- 5.2. Integrate knowledge, attitudes, and relevant skills regarding the relationship between health community, and the arts into all aspects of work
- 5.3. Acquire knowledge of Adlerian theory/philosophy and develop Adlerian values that apply to clinical work taking into consideration the social and cultural context and clinical applications

Program-Specific Minimum Admission Requirements

Applicants to this program are typically required to present the following:

- An undergraduate/baccalaureate degree or the equivalent from an accredited institution.
- A grade point average of 3.0 or higher on a 4.0 scale for all undergraduate and graduate coursework. Exceptions may be made for applicants who demonstrate improved academic performance or academic ability in other ways.
- The equivalent of 12 semester credit hours in psychology with grades of C or better. These courses need to include general or introductory psychology, abnormal psychology, and life span development. All prerequisites should be completed by the end of a student's first semester at Adler University.
- Eighteen semester credit hours or 27 quarter credit hours in studio art that demonstrate proficiency and disciplined commitment to visual art in three or more visual art media.
- A portfolio of original artwork (15 examples in three or more different media) demonstrating competence with art materials is required to be presented at the admission interview.

Approved applicants will be invited for a personal interview as the final step in the application process.

Degree Requirements

Successful completion of the following courses is required for this degree:

* MACAT-510	Professional Development Seminar I	1 cr.
* SJP-513	Social Justice Practicum I	1 cr.
* SJP-514	Social Justice Practicum II	1 cr.
* MACAT-515	Professional Development, Issues, and Ethics in Art Therapy, Counseling, and Psychopathology	3 cr.
MACAT-517	Community Psychology	3 cr.
* MACAT-***	Advanced Counseling Methods and Adlerian Psychology and Psychopathology	3 cr.
MACAT-519	Adlerian Theories and Integrative Interventions for Families, Parents, and Teachers	2 cr.
MACAT-520	Introduction to Addictive Disorders	3 cr.
MACAT-521	Lifestyle and Career Development	3 cr.
MACAT-522	Biopsychosocial Bases of Health and Dysfunction for Counselors	3 cr.
* MACAT-523	Basic Skills for Psychotherapy and the Use of Art Therapy	3 cr.
MACAT-524	Research Methods in Art Therapy, Counseling, and Psychotherapy	3 cr.
* MACAT-525	Historical and Theoretical Perspectives of Art Therapy, Counseling, and Psychotherapy	3 cr.
* MACAT-526	Assessment and Appraisal in Art Therapy, Counseling, and Psychotherapy	3 cr.
* MACAT-527	Use of Art Therapy in Group Psychotherapy and Psychopathology	3 cr.
* MACAT-650	Life Span Development in Art Therapy, Counseling, and Psychotherapy	3 cr.
MACAT-651	Sociocultural and Multicultural Approaches in Art Therapy, Counseling, and Psychotherapy	3 cr.
MACAT-652	Theories and Methods of Intervention in Art Therapy, Counseling, and Psychotherapy I: Couples, Families, and Older Adults	3 cr.
* MACAT-653	Theories and Methods of Intervention in Art Therapy, Counseling, and Psychotherapy II: Trauma, Loss, Grief, and Bereavement	3 cr.
MACAT-654	Neuroscience in Art Therapy, Counseling, and Psychotherapy: Special Populations	3 cr.
MACAT-655	Studio Art in Art Therapy, Counseling, and Psychotherapy	3 cr.
MACAT-656	Special Populations: Adaptive Methods in Art Therapy, Counseling, and Psychotherapy	2 cr.
MACAT-667	Practicum Seminar in Art Therapy, Counseling, and Psychotherapy: Consultation and Supervision I	2 cr.
MACAT-668	Practicum Seminar in Art Therapy, Counseling, and Psychotherapy: Consultation and Supervision II	2 cr.
MACAT-677	Practicum in Art Therapy, Counseling, and Psychotherapy: Consultation and Supervision I	1 cr.
MACAT-678	Practicum in Art Therapy, Counseling, and Psychotherapy: Consultation and Supervision II	1 cr.
MACAT-995	Master of Arts Clinical Qualifying Examination	0 cr.
# MACAT-610	Practicum Continued in Art Therapy, Counseling, and Psychotherapy: Consultation and Supervision (This extended practicum course is offered ONLY in Summer II Session)	0 cr.
# MACAT-669	Practicum Seminar in Art Therapy, Counseling, and Psychotherapy: Consultation and Supervision III	1 cr.
# MACAT-679	Practicum in Art Therapy, Counseling, and Psychotherapy: Consultation and Supervision III	1 cr.

Total Credit Hours Required: 64

* Required before beginning art therapy practicum.

If needed

Graduation Requirements

1. Satisfactory completion of all required credit hours, including all required courses.
2. Satisfactory completion of Social Justice Practicum I & II.
3. Satisfactory completion of a minimum of 700 clock hours of counseling and art therapy practicum/internship, with 350 of those hours in direct client contact.
4. A cumulative grade point average of 3.0 or higher and no more than two grades (or six credit hours) of C.
5. Successful completion of the Master of Arts Clinical Qualifying Examination.
6. Successful second-year portfolio review.
7. Submission of completed Graduation Application and full payment of all outstanding tuition and fees.
8. Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Master of Arts in Counseling: Art Therapy.

Professional Practice and Field Training

SOCIAL JUSTICE PRACTICUM (SJP)

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that occurs during the fall and spring terms. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society.

The SJP is designed to help students learn how to work alongside the community as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity.

The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. Upon completing the SJP, students gain, maintain, and strengthen connections to communities by developing critical problem-solving skills necessary to be socially responsible practitioners.

All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include (1) completion of a minimum of 200 hours at an approved SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP.

The SJP may not be waived, and life credit is not admissible to meet this requirement.

CLINICAL PRACTICUM

The Master of Arts in Counseling: Art Therapy program combines education and clinical training in the field of counseling and art therapy that includes core counseling education and training incorporating the theories and practices of Adlerian psychotherapy. The program requires 64 credit hours in coursework, including 700 hours of counseling and art therapy practicum that is completed over a nine to 12-month period. Some students may not be able to complete their 700 supervised hours within the time frame and will need to continue their MACAT Practicum into the second session of the summer term of their second year. They would then enroll in MACAT-610: Practicum Continued in Art Therapy, Counseling, and Psychotherapy: Consultation and Supervision, which was developed for students who need more time for completion. The Master of Arts in Counseling: Art Therapy program can be completed in two years with a full-time course load over three terms for each of the two years. For further information, consult the Clinical Practicum Handbook: Master of Arts in Counseling: Art Therapy.

Master of Arts in Counseling: Art Therapy Course Descriptions

MAT-510

Professional Development Seminar I

1 Credit

This one-hour, once-a-week seminar is required of all Adler students in their first term. This course will provide students opportunities to meet in small groups with peers and one faculty member who will also serve as the students' Faculty Advisor. The course covers advisement, consultation, supervision, and mentoring around Adler degree requirements and mission; orientation to the field of professional counseling, art therapy, and mental health and issues of diversity as it relates to the field and students' personal and professional growth; and the development of art therapist and counselor identity in an interactive lecture-discussion. It provides an overview of the ethical codes and professional standards of the students' course of study that includes the American Art Therapy Association (AATA), the Art Therapy Credentials Board (ATCB), and of the American Counseling Association (ACA) in the field of mental health and counseling. This course will also assist in orienting and preparing students for the Community Service Practicum. In addition, advisement and mentoring around Adler's mission, degree requirements, Community Service Practicum Experience, practicum, and internship are discussed. Art experientials enhance this course as the students use self-reflective methods, including mindfulness-based practices, to develop their skills for employment in the field of art therapy and counseling.

MACAT-515

Professional Development, Issues, and Ethics in Art Therapy, Counseling, and Psychopathology

3 Credits

This course is designed to provide students with a solid foundation for the ethical practice of art therapy and of counseling. Students will learn the codes of ethics of the American Art Therapy Association, the Art Therapy Credentials Board, and the American Counseling Association. Students will learn to apply ethical and professional decision-making skills to current issues in art therapy and counseling. An overview of concepts and theories of social justice as applied to decision-making in art therapy and in counseling will be presented. This course provides a foundation for the ethical practice of professional counseling. It introduces students to the history of the counseling profession, as well as professional roles (practitioner, supervisor, educator, clinician, art therapist) and its professional organizations. The American Counseling Association (ACA) Code of Ethics will be examined and applied to a variety of ethical and legal situations using a variety of ethical decision-making models.

MACAT-517

Community Psychology

3 Credits

Students learn theory and research on the role of community psychology in treating problems related to a range of pervasive social justice issues that impact the health of individuals and communities. Community Psychology takes an ecological approach to human functioning, locating health and dysfunction in the interaction between individuals and larger social systems. This area of psychology is also concerned with preventive interventions and encourages collaboration across disciplines. Intervention strategies that involve community needs assessment, program development, consultation, and evaluation, community organizing, activism/advocacy, fundraising, and policy analysis will be emphasized. In addition, art therapy and art making through an Adlerian lens in relation to community and social interest is explored. This course also focuses on consultation and supervision within the healthcare field as it relates to documentation, treatment planning, and diagnosis with an emphasis on theories and strategies that are used to provide services to individuals, groups, and organizations. This class explores the mission of the university, Adlerian Theory and its application to Community Psychology, community engagement, and healthcare services. In addition, it covers the topics of intersectionality, working with marginalized, oppressed populations, the homeless population, the foster care system, and the rights and advocacy of immigrants and refugees.

MACAT- 518**Advanced Counseling and Adlerian Psychology and Psychopathology****3 Credits**

This course introduces and integrates advanced methods of historical and theoretical approaches to counseling along with the principles of Alfred Adler's theory and philosophy of communities and humankind as a basis for understanding the development of an individual's unique style of living or personality. These principles include the purposiveness of behavior, the indivisible self, goal-directed behavior, and the role of social interest in mental health and social progress. Students learn how to apply these principles in counseling and treatment planning, with the goal to improve well-being of individuals, couples, groups, families, and society. This course covers the advanced theoretical principles of counseling and individual psychology with an emphasis on the self-creation of one's unique style of life and includes other integrative approaches. Focus is on the context of the advanced understanding of human nature and development, theories of psychopathology and Adler's view on psychopathology, approaches to treatment, and the beliefs about the nature of helping relationships in relation to the individual's original family constellation and socioeconomic setting. It further emphasizes the contextual setting of pathological development of the style of life within families and society. The course addresses cognitive, affective, and sociocultural dimensions in the individual's development and self-training; the selectivity of perception in the formation of one's worldview; the purposive nature of behavior; and creativity, self-determination, and the indivisibility of the person. It also covers the maladaptive manifestation of these aspects as the psychodynamics of psychopathology. Attention is paid to the recursive influence between society and the individual on both adaptive and maladaptive levels. Art therapy and art-making through an Adlerian lens based on the work of Sadie Dreikurs is explored.

MACAT-519**Adlerian Theories and Integrative Interventions for Families, Parents, and Teachers****2 Credits**

This course provides an opportunity to develop family and child guidance, parenting knowledge and skills, as well as instruction and behavioral skills to be used by teachers in the classroom based on Adlerian principles. Through lecture, class discussion, observation, and participative demonstrations, students are taught how to facilitate a family or parenting group or teacher training group. Students will receive supervision from Adlerian faculty as they lead or co-lead a family or parenting group or teacher training group in the community. This course highlights Alfred Adler's and Rudolf Dreikurs's place in history with family, parenting, and child guidance practices and integrates them within other family, parenting, and child guidance theories and paradigms. Adlerian-based family and parenting programs and other therapeutic approaches are recognized as evidence-based programs. This course should not be taken in the first year of any program.

MACAT-520**Introduction to Addictive Disorders****3 Credits**

This course provides an introduction to substance use and the treatment of addictive disorders. Assessment of substance use disorders and current treatment models for substance use, misuse, abuse, dependence, and concurrent disorders are discussed.

Information about pharmacological, physiological, and medical aspects of chemical dependence, as well as an overview of treatment delivery systems and alternative treatment settings (inpatient and outpatient treatment, prevention programs, mutual-help groups, harm-reduction programs, and recovery homes) is provided. Each of these areas includes a focus on the historical context of substance use, along with consideration of current diversity and social justice issues related to substance use and regulation. Included is an overview of the information needed to assess, along with the treatment models of addictive disorders and the tools needed to recognize

the signs and symptoms of substance use, misuse, abuse, dependence, dual disorders, and the mentally ill substance abusers (MISA). The understanding of the basic pharmacological, physiological, and medical aspects of chemical dependence is included, along with the historical development of alcohol and other drug usage, self-help groups, and treatment delivery systems. The use and application of Adlerian Theory with Addictions is also explored.

MACAT-521**Lifestyle and Career Development****3 Credits**

Prerequisite: MACAT-523. This course examines a person's career trajectory and dynamics within the context of the lifestyle, including Adlerian Theory and the use of the Adlerian Lifestyle Assessment. Students learn to assess career interests, aptitudes, and options. These will be explored as individual and collective sources of work information. Understanding how these are embedded within the lifestyle allows students to help clients with career decisions and transitions in the broader perspective of total personal development. This course examines career development and decision-making models and ethical counseling applications to diverse/multicultural client populations. Students select, administer, interpret, and evaluate a variety of art therapy-related (as well as counseling and psychotherapy-related) assessment instruments and utilize information for the purpose of educational and labor market information for the purpose of career planning and development. In addition, students develop and evaluate career services/programs for particular groups in school, agency, or business settings.

MACAT-522**Biopsychosocial Bases of Health and Dysfunction for Counselors****3 Credits**

This course provides an overview of the major disorders in the current edition of the DSM. A range of mental disorders, from adjustment disorders to serious psychopathologies, is discussed. Additional topics include an overview of the etiology, developmental course, diagnosis, treatment planning, and policy/advocacy issues associated with various disorders to address socially responsible practice. Biological, environmental, cultural, intrapersonal, and interpersonal risk and protective factors are addressed, along with the sociocultural and theoretical critiques of limitations of diagnosis and the DSM. Topics also include an overview of the etiology, developmental course, treatment, and policy/advocacy issues associated with each disorder, focusing on socially responsible practice. This course also focuses on consultation and supervision within the healthcare field as it relates to documentation, treatment planning, and diagnosis with an emphasis on theories and strategies that are used to provide services to individuals, groups, and organizations.

MACAT-523**Basic Skills for Psychotherapy and the Use of Art Therapy****3 Credits**

This course teaches art therapy and counseling students basic and in-depth relationship micro- and macro-counseling and psychotherapy skills that use role-plays, artwork, art-making, art directives, and other experiential activities to demonstrate these concepts. The course covers counseling skills (e.g., attending, active listening, building rapport), intake interviewing, and self-reflection/self-assessment procedures and other experiential activities to prepare for clinical work on practicum. Students learn to formulate treatment goals and intervention strategies integrating theory, assessment, and diagnostic information for a variety of client problems, including assessing and managing suicidal risk and crisis intervention. This course also includes the direct experience of various art processes and materials in order to identify the therapeutic effect of art-making that in turn leads to comprising treatment goals and intervention strategies as related to the latest version of the DSM to understand diagnostic criteria and the relationship between diagnosis, formal and informal counseling assessments evaluations, appraisals, including Adlerian Assessments and art therapy assessments (formal and informal, projective, objective, and subjective) and treatment planning within the realm of case conceptualization

formulations. It also addresses additional skills such as confrontation, immediacy, here-and-now processing, self-disclosure, and stages of change. This course is designed to provide a foundation of knowledge, awareness, and skills needed for providing more effective counseling services in a multicultural society. The course covers theories, research, and best practices associated with ethical, multicultural, socially responsible, social justice, and wellness competencies. It also introduces brain research and neuroscience in art therapy and counseling theory and skills integration. This course emphasizes both between-group and within-group differences and the intersections of race, ethnicity, gender, religion, sexual orientation, country of origin, disability, and socioeconomic status. Students are introduced to topics including oppression and privilege, racism, discrimination, sexism, power, and ageism, with a focus on the management, administration, supervision, and consultation roles of clinical mental health counselors. Students are oriented to the principles of development, management, and efficacy of programs and service delivery formats with reference to public mental health policies, financing, and regulatory process. In addition, students learn about models of supervision and consultation within clinical mental health agencies with a focus on art therapy in the community. This also prepares students for the practicum experience.

MACAT-524

Research Methods in Art Therapy, Counseling, and Psychotherapy **3 Credits**

This course is an introduction to approaches to research design, data collection methodology, and data analysis, with a focus on the field of art therapy. It emphasizes the importance of evidence-based research in advancing the field of art therapy and counseling. Qualitative and quantitative research and mixed methods will be examined and synthesized by a major research proposal. Also, art therapy research protocols, ethical issues in conducting research, and multicultural considerations are explored. This course is a master's-level approach to research methods and program evaluation as it pertains to the fields of art therapy, counseling, psychotherapy, and clinical mental health counseling. Major research designs including both quantitative and qualitative methods are explored. In addition, the course surveys the history and development of program evaluation and provides an introduction to needs assessment, data collection methodology, and data analysis. Ethical and culturally relevant strategies for interpreting and reporting the results of research and program evaluation studies are also covered.

MACAT-525

Historical and Theoretical Perspectives of Art Therapy, Counseling, and Psychotherapy **3 Credits**

This course introduces the history, philosophy, theory, and practice of art therapy, counseling, and psychotherapy within the fields of counseling, mental health, and psychology. The fundamental elements of the history and theories of art therapy, counseling, and psychotherapy are addressed with attention to the theoretical foundations of each field of study. The impact of diversity issues such as culture, age, gender, and diverse intersections, as they apply to different psychotherapy approaches, will be a central theme in this course. Learning in this course is attained through lectures, oral and written assignments, art directives, and experiential exercises. In addition, this course explores the nature and the history of clinical mental health counseling, Adlerian Theory, and the role of counselors in relation to different service delivery modalities, other mental health professionals in the community, mental health services agencies, and organizations. Students are exposed to various crisis intervention models, associated responses to clients' mental health needs during crises, and professional response to various traumatic events. This course takes a systems approach to explain human functioning, health, and dysfunctional behavior when interacting with the larger social systems, and it emphasizes the role of the art therapist and counselor in advocating and promoting client welfare, including an understanding of the impact of a range of pervasive social justice issues on their mental health. In addition, ethical and professional issues that affect the practice of clinical mental health counselors are discussed.

MACAT-526

Assessment and Appraisal in Art Therapy, Counseling, and Psychotherapy **3 Credits**

This course introduces and assists students in expanding their counseling knowledge and skills, as well as their art therapy knowledge and skills. Students will learn to formulate treatment goals and intervention strategies integrating theory, assessment, and diagnostic information for a variety of client problems, including assessing and managing suicidal risk and crisis intervention. Students are also trained in the creation and administration of a test battery, current record-keeping standards, and protocol in clinical mental health settings. This course also includes the topic of Intersectionality; working with marginalized, oppressed populations, the homeless population, the foster care system, and the rights and advocacy of immigrants and refugees. This course covers disability and educational rights, the Americans with Disabilities Act and the Educational Rights and Responsibilities, Special Education and Support Services, as well as 504 Plans and Individual Education Plans. Students explore the concept of appraisal as it pertains to an Adlerian Approach, art therapy, counseling, and psychotherapy practice. It also provides foundational knowledge of individual and group approaches to assessment and evaluations commonly used in art therapy and counseling. Students explore the tools and methods of appraisal, assessment, and evaluation using the latest DSM, in addition to formal standardized and informal assessments, to practice treatment planning and socially responsible best practices. Psychometric statistics such as measures of central tendency and standard errors, as well as psychometric properties of instruments such as validity and reliability are discussed. Strategies for ethical selection, practice of the administration, and interpretation of assessment and evaluation instruments and techniques with multicultural considerations are addressed. Experiential art activities, role play exercises, lectures, evaluations via quizzes and exams, as well as regular written assignments, and the submission of a comprehensive, full length test battery evaluation on a mock client, and the presentation of the full report are the primary means of learning in this course. This class develops cultural awareness and sensitivity regarding professional identity within the realm of the role and responsibilities of an art therapist, counselor, and psychotherapist as it relates to effectively using evaluations, assessments, and appraisals.

MACAT-527

Use of Art Therapy in Group Psychotherapy and Psychopathology **3 Credits**

This course introduces students to the history, theory, methods, principles, and applications of group dynamics, as well as the developmental stages of groups. In addition, group members' roles and behaviors and the therapeutic factors of group work are discussed. Students have the opportunity to apply these principles through role-playing and participating as group members in art experiential components of this course, as well as designing, planning, leading, and co-leading group sessions for diverse client populations in an effort to process their experiences and learn to relate more effectively and creatively in the group setting. Special consideration of trust-building in socially excluded groups is addressed with a focus on art therapy directives especially suited to these groups. This course offers models, approaches, and skills in leading group counseling, group psychotherapy, and group art therapy. Through seminal readings on the theory and practice of group therapy, films, current journal articles, role-plays, and art experientials, the understanding and experience to facilitate engagement and change is gained through a here-and-now, multimodal approach.

MACAT-650**Life Span Development in Art Therapy, Counseling, and Psychotherapy** **3 Credits**

This course presents an overview of various art therapy and counseling models and theories in the discussion of the characteristics, developmental needs, and tasks at different stages of a person's life cycle. The impact of social, cultural, biological, and psychological factors on prenatal life, childhood, adolescence, adulthood, and aging is discussed. Students learn about psychosocial development, cognitive functioning, life transitions, coping and adaptation, work and retirement, bereavement, and related issues in a person's life cycle in relation to their work as counselors. Theories of psychological development and graphic development provide models for understanding human behavior across the life span. Art therapy perspectives, counseling, and psychotherapy interventions are presented through readings, lectures, art-making activities, films, and class discussion. Students review major theories of psychological and psychosocial development that have provided models for understanding human behavior across the life span. This understanding, in addition to learning the various stages of graphic development (includes Lowenfeld's), is the basis for specific age-appropriate interventions in art therapy. Additionally, understanding the development of socially excluded populations (due to racism, sexism, ableism, etc.) enhances the overview of this course.

MACAT-651**Sociocultural and Trans Multicultural Approaches in Art Therapy, Counseling, and Psychotherapy** **3 Credits**

This course provides a basic foundation of knowledge, awareness, and skills needed for providing more effective counseling services in a trans-multicultural society. The course covers theories, research, and practices associated with trans-multicultural competence with emphases on both between-group and within-group differences and the intersections of race, ethnicity, gender, religion, sexual orientation, country of origin, disability, and socioeconomic status. Students are introduced to topics including oppression and privilege, racism, discrimination, sexism, power, and ageism. Through readings, lectures, films, and art-based activities, students address a broad spectrum of cultural factors that influence art therapy, counseling, and psychotherapy practice. Issues and tools to develop cultural competence in an art therapy, counseling, and psychotherapy practice are presented. Focus is placed on gaining an understanding of the historical, social, and political factors that influence beliefs, attitudes, and behaviors toward individual difference. Students examine critical methods and best practices of transcultural/multicultural art therapy and counseling, including Adlerian Theory, through class discussions, exercises, and assessment assignments. Emphasis is placed on developing increased awareness and application of transcultural/multicultural art therapy and counseling skills to become a culturally competent and ethical practitioner, as well as gaining an understanding of multicultural art therapy and counseling techniques that highlight sociocultural and diverse perspectives. Additional emphasis is placed on developing an awareness of individual and group processes and how the clinician's individual, group, and cultural identity impact ethical assessment and treatment of clients from diverse groups. Integrating science and practice is also highlighted. Through readings, lectures, videos, and art-based activities, students address a broad spectrum of cultural and social exclusion factors that influence art therapy practice. Issues and tools to develop cultural competence in counseling and art therapy practice are presented. Using written, oral, and artistic skills, students are expected to explore their own racial and cultural roots to build a foundation for working with diverse clients. This class develops cultural awareness and sensitivity regarding socially responsible professional identity within the realm of the role and responsibilities of an art therapist, counselor, and psychotherapist.

MACAT-652**Theories and Methods of Intervention in Art Therapy, Counseling, and Psychotherapy I: Couples, Families, and Older Adults** **3 Credits**

The focus of this course is family dynamics and treatment strategies in culturally diverse families and varied family constellations including older adults. Readings, presentations, and art-based activities provide the class learning experiences. This course focuses on understanding family dynamics and treatment strategies involving interviewing and intervention techniques and approaches in art therapy, counseling, and psychotherapy through selected readings, discussions, and film presentations. This course introduces the process of clinical art therapy and counseling interventions with families across the life span and across generations. Definitions of "couple" and "family" are discussed in reference to traditional, single-parent, and alternative parenting practices. This course also addresses issues arising in culturally diverse families and effective approaches to treatment utilizing predominant theoretical models in family therapy. Learning in this course focuses on information and strategies in couple and family art therapy and counseling through experiential exercises and lectures as well as written and oral assignments. The impact of multigenerational and environmental factors on family dynamics and couples' relations is examined through various systemic perspectives. Students learn about the leading figures, feature concepts, and typical techniques and intervention strategies of these models.

Students are encouraged to evaluate the strengths and limitations of these models with consideration of power and hierarchy, gender bias, and diversity factors when working with different client populations. This course explores the major models of couples and family therapy with consideration of power, gender bias, and diversity factors when working with different client populations. It also addresses individual and family counseling, cultural diversity, ageism, caregiving, and social justice advocacy and innovative approaches, including an Adlerian perspective, in promoting emotional and cognitive wellbeing.

MACAT-653**Theories and Methods of Intervention in Art Therapy, Counseling, and Psychotherapy II: Trauma, Loss, Grief, and Bereavement** **3 Credits**

This course covers crisis intervention models, including an Adlerian approach, and associated responses to clients' mental health needs during crises, disasters, and other trauma-causing events. Strategies and procedures for assessing risk, including suicide, aggression, and self-harm are discussed and demonstrated through counseling assessments and interventions in addition to art therapy assessments and interventions. Through readings, class presentations, discussions, and art-making directives, this course provides information and skill-building exercises that elucidate several aspects of the trauma spectrum. The subjects of trauma recovery, loss, grief and bereavement, vicarious trauma, and the effects of trauma on diverse populations are covered in depth. This course is designed to assist students in expanding their art therapy and counseling knowledge and skills, such as interviewing and intervention techniques. Students learn to formulate treatment goals and intervention strategies integrating theory, assessment, and diagnostic information for a variety of client problems, including assessing and managing suicidal risk and crisis intervention. The course also focuses on students' application of theory-specific counseling techniques in the context of therapeutic relationships (e.g., stages of treatment, common factors in the change process, and multicultural issues). Students are trained in current record-keeping standards and protocol in clinical mental health settings.

MACAT-654**Neuroscience in Art Therapy, Counseling, and Psychotherapy: Special Populations 3 Credits**

This course addresses the relationships among counseling, neuroscience, biology, art, creativity, perception, and memory as they relate to the application and practice of counseling, psychotherapy, and art therapy, including Adlerian Theory. This course also covers Neurodiversity, Neuroaesthetics, Poly-Vagal Theory, Biofeedback, Synesthesia, Epigenetics, Mindfulness Meditation, Transcendental Meditation and a host of other evidence-based approaches to helping neurological concerns, with a focus on brain screening evaluations, including brain scans and brain imaging. The perception and aesthetics of the visual elements of art are highlighted and discussed in relation to counseling and neurological functioning. This course covers the structures and functions of the areas of the brain and executive-functioning skills such as working memory, symbolic process/symbol formation, reasoning, and problem-solving, as well as developing an understanding of visual-spatial abilities. The emphasis throughout the class covers various specialized topics ranging from Adlerian approaches to neurological disorders to Jungian archetypes, symbolism, and complex clinical case studies that include various syndromes and neurocognitive/neurological disorders that may include, but are not limited to, traumatic brain injury, dementia, and cerebrovascular diseases. This course explores advanced historical and theoretical approaches to counseling, art therapy, and Adlerian Theory in conjunction with the scientific theory and the science of counseling and art therapy using mind-body approaches and the application of art therapy in neuropsychological settings to demonstrate how such principles can be utilized for enhanced clinical practice, efficacy, and therapeutic outcomes within a developmental, behavioral, and sociocultural context. Students participate in research regarding their choice in special populations in order for them to expand their knowledge base and understanding of potential clients. Art experientials enhance this course as the students use self-reflective methods, including mindfulness-based best practices, as well as more in-depth counseling methods and art therapy directives that relate to the functions of the brain and its impact within the art therapy and counseling milieu in order to further develop and enhance their skills for employment in the field of art therapy and counseling.

MACAT-655**Studio Art in Art Therapy, Counseling, and Psychotherapy 3 Credits**

This course provides studio time to gain skills, develop visual art techniques, explore artistic creativity via materials and media in art therapy through visio-spatial and perception skills as they relate to counseling and psychotherapeutic health and wellness goal setting for clients. Students explore personal creativity in relation to the art therapy and counseling profession. An emphasis is placed on the process of materials and media involved in art-making as it relates to the profession of art therapy, as well as how it is integrated within the realm of increased mental health and wellness. Additionally, students share information about art-making techniques to expand each individual's repertoire of media and approaches. Art experientials that use symbolism, the formal elements of art, and the Expressive Therapies Continuum, enhance this course as the students use self-reflective methods, including mindfulness-based best practices, to develop their skills for employment in the field of art therapy and counseling. Students also collaborate and consult within a peer and supervisory model in the planning, publicizing, staging, and execution of a studio art show that highlights their art made throughout the course. This course also focuses on consultation and supervision within the healthcare field, as it relates to counseling and art therapy documentation, treatment planning, and diagnosis, with an emphasis on various strategies that are used to provide art therapy services, including the use of a studio space and art making to individuals, groups, and organizations.

MACAT-656**Special Populations: Adaptive Methods in Art Therapy, Counseling, and Psychotherapy 2 Credits**

This course develops student competencies by utilizing conceptual frameworks and best practices for the appropriate selection and use of a wide range of art media, including processes and adaptive measures that incorporate medical art therapy and technology within special populations. These populations may include hematology; oncology; combat and moral injury with veterans; spinal cord injury; paralysis; hearing, sight, speech, and movement impairments; learning disabilities; and developmental delays. This course also includes the topic of Intersectionality; working with marginalized, oppressed populations, the homeless population, the foster care system, and the rights and advocacy of immigrants and refugees. This course covers disability and educational rights, the Americans with Disabilities Act and the Educational Rights and Responsibilities, Special Education and Support Services, as well as 504 Plans and Individual Education Plans. This course discusses intervention strategies based on the therapeutic effect of art-making, including benefits, limitations, and contraindications of art materials, as well as the medical and psychosocial aspects of disabilities, in order to enhance the independence and quality of life for persons with behavioral, medical, and/or physical disabilities.

MACAT-667**Practicum Seminar in Art Therapy, Counseling, and Psychotherapy: Consultation and Supervision I 2 Credits**

Prerequisites: Completion of a minimum of 27 credit hours of coursework, including SJP 513, SJP 514, MACAT-510 MACAT-523 or MACAT-525 or; MACAT-526 MACAT-527 MACAT-518 MACAT-650 MACAT-653 or concurrent with MACAT-677; and consent of Chair and Director of Training required.

This clinical practicum in an approved agency or institution requires 700 hours onsite with at least 350 hours in direct client contact. Along with the field experience, students receive individual supervision by faculty and attend group supervision in seminar. The seminar is designed to be responsive to students' practicum experiences and concerns for their clients and sites. In a group consultation model, this course provides eight students in practicum with group discussion on counseling, psychotherapy, and art therapy practicum topics and issues. The focus is on increasing knowledge, skills, and professional growth within ethical, socially responsible, and culturally diverse perspectives in art therapy and mental health counseling. This seminar is designed to assist students in expanding their counseling knowledge and skills. Students learn to formulate treatment goals and intervention strategies integrating theory, assessment, and diagnostic information for a variety of client problems, including assessing and managing suicidal risk and crisis intervention. The course also focuses on students' application of theory-specific counseling techniques in the context of therapeutic relationships (e.g., stages of treatment, common factors in the change process, and multicultural issues). Students will also be trained in current record-keeping standards and protocol in clinical mental health settings, as well as learning consultative skills. Art experientials enhance this course as students use self-reflective methods, including mindfulness-based best practices, to develop their skills for employment in the field of art therapy and counseling. Students discuss and present cases that include artwork to demonstrate their ability in applying counseling theories and techniques, assessment and diagnostic information in relation to clients' characteristics in case conceptualization, and treatment planning. Practicum seminar also provides peer support and consultation that instills an understanding of the process of psychoeducational consultation with emphasis on theories and strategies that are used to provide services to individuals, groups, and organizations.

MACAT-668**Internship Seminar in Art Therapy, Counseling, and Psychotherapy: Consultation and Supervision II** **2 Credits**

Prerequisites: MACAT-667; concurrent with MACAT-678. Along with the field experience, students receive individual supervision by faculty and attend group supervision in seminar. The seminar is designed to be responsive to students' practicum experiences and concerns for their clients and sites. In a group consultation model, this course provides eight students in practicum with group discussion on art therapy practicum topics and issues. The focus is on increasing knowledge, skills, and professional growth within ethical, socially responsible, and culturally diverse perspectives in art therapy. This seminar is designed to further assist students in expanding their counseling knowledge and skills. Students learn to continue to formulate treatment goals and intervention strategies integrating theory, assessment, and diagnostic information for a variety of client problems, including assessing and managing suicidal risk and crisis intervention. The course also focuses on students' application and demonstration of theory-specific art therapy and counseling techniques in the context of therapeutic relationships (e.g., stages of treatment, common factors in the change process, and multicultural issues). Students are trained in current record-keeping standards and protocol in clinical mental health settings. Students discuss and present cases to demonstrate their ability in applying art therapy and counseling theories and techniques, assessment and diagnostic information in relation to clients' characteristics in case conceptualization, and treatment planning. Practicum seminar also provides peer support and consultation, as well as professional development. Art experientials enhance this course as the students use self-reflective methods, including mindfulness-based best practices, to further develop and enhance their skills for employment in the field of art therapy and counseling. Practicum seminar also provides peer support and consultation that instills an understanding of the process of psychoeducational consultation with emphasis on theories and strategies that are used to provide services to individuals, groups, and organizations.

MACAT-669**Internship Seminar in Art Therapy, Counseling, and Psychotherapy: Consultation and Supervision III** **1 Credit**

Prerequisites: MACAT-668; concurrent with MACAT-679. Along with the field experience, students receive supervision by faculty and attend group supervision in seminar. The seminar is designed to be responsive to students' practicum experiences and concerns for their clients and sites. Using a peer consultation model, the practicum seminar provides discussion of professional issues, clinical art therapy practice, and onsite practicum supervision experiences. Class participants discuss specific clinical cases with attention to the principles of art therapy practice, counseling skills, assessment, and intervention. The focus is on the development of knowledge, skills, and values essential to competent and ethical art therapy and counseling practice. Students are further oriented to the principles of development, management, and evaluation of programs and service delivery formats with reference to public mental health policies, financing, and regulatory processes. In addition, students learn about models of supervision and consultation, and the operation and management of risk and emergency systems within clinical mental health agencies and in the community. This course takes a systems approach to explain human functioning, health, and dysfunctional behavior when interacting with the larger social systems, and it emphasizes the role of the counselor in advocating and promoting client welfare, including an understanding of the impact of a range of pervasive social justice issues on their mental health. In addition, ethical and professional issues that affect the practice of art therapists and mental health counselors are discussed. Practicum seminar also provides peer support and consultation, as well as professional development. Students demonstrate competencies that enable them to be clinically and culturally competent, ethical, and socially responsible entry-level practitioners. Art experientials enhance this course as the

students use self-reflective methods, including mindfulness-based best practices, to further develop and enhance their skills for employment in the field of art therapy and counseling. Practicum seminar also provides peer support and consultation that instills an understanding of the process of psychoeducational consultation with emphasis on theories and strategies that are used to provide services to individuals, groups, and organizations.

MACAT-677**Practicum in Art Therapy, Counseling, and Psychotherapy: Consultation and Supervision I** **1 Credit**

Prerequisites: Completion of a minimum of 27 credit hours of coursework, including MACAT-510, MACAT-523, MACAT-525, MACAT-526, MACAT-527, MACAT-518 or MACAT-650, MACAT-653. This clinical practicum in an approved agency or institution requires a minimum of 700 hours onsite, with at least 350 hours in direct client contact. Practicum also provides supervision, peer support, and consultation that instills an understanding of the process of psychoeducational consultation with emphasis on theories and strategies that are used to provide services to individuals, groups, and organizations.

MACAT-678**Internship in Art Therapy, Counseling, and Psychotherapy: Consultation and Supervision II** **1 Credit**

Prerequisites: Completion of a minimum of 27 credit hours of coursework, including MACAT-510, MACAT-523, MACAT-525, MACAT-526, MACAT-527, MACAT-518 or MACAT-650, MACAT-653; concurrent with MACAT-667/ MACAT-668. This clinical practicum in an approved agency or institution requires a minimum of 700 hours onsite, with at least 350 hours in direct client contact. Practicum also provides supervision, peer support, and consultation that instills an understanding of the process of psychoeducational consultation with emphasis on theories and strategies that are used to provide services to individuals, groups, and organizations.

MACAT-679**Internship in Art Therapy, Counseling, and Psychotherapy: Consultation and Supervision III** **1 Credit**

This clinical practicum in an approved agency or institution requires a minimum of 700 hours onsite, with at least 350 hours in direct client contact. Practicum also provides supervision, peer support, and consultation that instills an understanding of the process of psychoeducational consultation with emphasis on theories and strategies that are used to provide services to individuals, groups, and organizations.

MACAT-610**Internship Continued in Art Therapy, Counseling, and Psychotherapy: Consultation and Supervision** **0 Credit**

This extended practicum course is offered in Summer II and is for students in need of additional practicum hours. This clinical practicum in an approved agency or institution requires a minimum of 700 hours onsite, with at least 350 hours in direct client contact. Practicum also provides supervision, peer support, and consultation that instills an understanding of the process of psychoeducational consultation with emphasis on theories and strategies that are used to provide services to individuals, groups, and organizations.

SJP-513**Social Justice Practicum I** **1 Credit**

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that begins in the fall term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility

to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. The SJP may not be waived and life credit is inadmissible to meet this requirement. *Note: During the fall term, students enrolled in the SJP attend at least two SJP workshops and complete a minimum of 50 hours upon placement at site.*

SJP-514**Social Justice Practicum II****1 Credit**

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that continues through the spring term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. Upon completing the SJP, students gain, maintain, and strengthen connections to communities by developing critical problem-solving skills necessary to be socially responsible practitioners. In addition, students learn essential concepts related to civics, intersectionality, and community organizing as they are necessary to establish and enhance critical thinking to labor for social justice. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an approved SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. The SJP may not be waived and no life credit is admissible to meet this requirement.

MASTER OF ARTS IN COUNSELING: SPECIALIZATION IN CLINICAL MENTAL HEALTH COUNSELING

Program Mission

The Master of Arts in Counseling: Clinical Mental Health Counseling (CMHC) program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). This program trains skilled and socially responsible counselors who are culturally competent and socially aware to meet the needs of diverse communities. It prepares students with knowledge in theories and methods of clinical mental health counseling. As a diverse community of learners, faculty, students, and the community work collaboratively to eradicate social inequities and enhance the well-being of individuals, groups, couples, and families across the life span. We are dedicated to social justice advocacy through exemplary instruction, clinical work, community engagement, leadership, and scholarship. Graduates of the program are prepared to work in a wide variety of mental health positions within diverse clinical settings, including but not limited to, community mental health agencies, private practice, employee assistance programs, hospitals, and government organizations.

Program Overview

The M.A. in Counseling: CMHC program consists of:

- A comprehensive theoretical curriculum (counseling and Adlerian foundations) and supervised field experiences of 62 credit hours. These may be completed in two years as a full-time student or three to four years on a part-time (evening/weekend/online) basis through the on-ground modality.
- The online modality requires three years to complete the program.
- The clinical field experience is conducted through a supervised practicum (100 hours) and internship (600 hours). Through our vast network of community partners, students are able to complete their practical training in a variety of settings.
- A Social Justice Practicum (SJP), a 200-hour social responsibility immersion experience created to develop in graduates an identity as social justice advocates and agents of social change.
- A CMHC Comprehensive Examination.

Program Learning Objectives

1. Professional Orientation and Ethical Practice: Describe and apply all aspects of professional practice, including history, roles, professional organizations, ethical and legal standards, counselor credentials, and advocacy processes.
2. Social and Cultural Diversity: Develop self-awareness and multicultural counseling competencies. Apply theory and research on cultural factors impacting counseling relationships in a multicultural and diverse society and the role of social justice and advocacy to the practice of counseling.
3. Human Growth and Development: Apply models of individual, couple, and family development in the practice of counseling with emphasis on cultural diversity across the life span.
4. Career Development: Demonstrate knowledge and apply career development and decision-making models and strategies with multicultural and diverse populations.
5. Helping Relationships: Demonstrate knowledge of theories and skills to provide ethical counseling, consultation, and crisis intervention services.
6. Group Work: Participate in, facilitate, and lead experiential group and apply group work principles and theories, methods, and skills to the practice of counseling.

7. Assessment: Demonstrate knowledge of principles of testing and measurement, including statistical concepts, and apply them to individual and group assessment and evaluation.
8. Research and Program Evaluation: Describe and recognize the importance of research- and statistical-based methods, statistical needs assessment, and program evaluation to inform evidence-based practice of counseling.
9. Clinical Mental Health Counseling: Demonstrate knowledge, skills, and practices to address a variety of issues within the clinical mental health counseling context including prevention, diagnosis, assessment, intervention, research, diversity, and advocacy roles. Apply principles of Adlerian theory such as purposiveness of behavior, the indivisible self, goal-directed behavior, and the role of social interest in counseling and treatment planning with the goal to improve well-being of individuals, couples, groups, families, and a diverse society.
10. Social Justice/Social Responsibility: Reflect on personal values and assumptions (privileges, disadvantages, etc.) about the nature and causes of social problems (such as poverty, racism, abuse) and gain experience and skills to advocate for systemic change through engagement and leadership in multidisciplinary, diverse community-based organizations.

Modalities

The CMHC program can be completed in one of two modalities: on-campus and online.

ON-CAMPUS MODALITY

In this modality, most classes are offered in a traditional classroom format; however, to meet the needs of students with different life demands, classes are also available in weekend, evening, online, and blended (partially online) formats.

ONLINE MODALITY

The online modality is designed for students who want to complete the program in a distance-learning format. All courses will be delivered online using the university's learning management system in either an eight-week or a 16-week cycle.

This modality utilizes multi-media and contemporary technology to facilitate student learning. We aim to build a supportive learning community for students coming from diverse geographic regions and backgrounds. All online courses have synchronous components which require students to attend videoconferencing classes at a predetermined time. In addition to online engagement, four courses require a five-day residency week attendance with face-to-face interaction and experiential learning during the first semester of the first and second years.

These courses include:

- COUN-534 Counseling Skills (first-year residency)
- COUN-536 Counseling Multicultural Communities (first-year residency)
- COUN-540 Group Counseling (second-year residency)
- CMHC-617 Treatment Planning and Intervention (second-year residency)

Licensure

The program curriculum is designed to meet the current requirement for the Licensed Professional Counselor (LPC) credential in Illinois. With additional post-master's supervised experience, graduates may apply for the Licensed Clinical Professional Counselor (LCPC) credential in Illinois.

CMHC students are eligible to take the National Counselor Examination (NCE) on campus during the last semester of the program before graduation as a part of the application process to earn the National Certified Counselor (NCC) credential. Upon degree completion, students can submit their NCE scores to the Illinois State Board toward the fulfillment of state LPC requirements.

Many states accept CACREP accredited programs as preliminary requirements for entry level counselor licensure, thus graduates of this CMHC program, both on-ground and online modality are eligible for the application of licensure in these states.

Students are advised that licensure criteria change frequently and that some states may require courses and/or training beyond those currently required by the program. It is the responsibility of the students to find out the licensure requirements of the state where they want to reside and practice. Students need to work with their advisor to adjust their curriculum according to specific state requirements.

Minimum Admission Requirements

Applicants to this program are required to have:

- A baccalaureate degree earned from a college or university regionally accredited by a nationally recognized accrediting agency or an equivalent degree from an international college or university.
- A minimum grade point average of 3.0 or higher on a 4.0 scale for undergraduate and graduate coursework. Exceptions may be made for applicants who demonstrate improved academic performance or academic ability in other ways.

Approved applicants will be invited for a personal interview as the final step in the application process.

Degree Requirements

Core Courses

COUN-518	Adlerian Theory and Counseling	3 cr.
* CMHC-538	Professional Functions of Clinical Mental Health Counselors	3 cr.
* COUN-532	Professional, Legal, and Ethical Issues in Counseling	3 cr.
* COUN-533	Counseling Theories	3 cr.
*# COUN-534	Counseling Skills	3 cr.
* COUN-535	Diagnosis of Maladaptive Behavior	3 cr.
*# COUN-536	Counseling Multicultural Communities	3 cr.
*# COUN-540	Group Counseling	3 cr.
*# CMHC-617	Treatment Planning and Intervention	3 cr.
COUN-618	Couple and Family Counseling	3 cr.
COUN-622	Human Growth and Development	3 cr.
COUN-625	Research and Program Evaluation	3 cr.
COUN-626	Appraisal and Assessment	3 cr.
COUN-629	Career Development Theories and Interventions	3 cr.
COUN-630	Addictions Counseling	3 cr.
CMHC-615	Crisis Intervention and Trauma Counseling	3 cr.

*Courses denoted with an asterisk are practicum prerequisites, which students need to complete prior to their counseling practicum. Students are required to attain a grade of B or higher in these courses. Students will need to retake the courses with a B- or lower grade prior to or concurrently with their practicum and attain the required grade.

Courses denoted with “#” require residency week attendance on campus

Electives (6 Credit Hours)

Students are required to take two electives that are three-hour courses each. Students can take electives offered by the CMHC program as listed below, or they can choose a course from the Department Elective Menu, upon their Faculty Advisor's approval. Please note that not all the electives are offered at the same time; it depends on the offering cycle. Canadian students are advised to take the thesis series as the elective should they plan to pursue doctoral studies in Canada.

Elective Options

Refer to your advisement sheet for Counseling and Integrated Program Elective Menu

The thesis series below:

COUN-550	Preparation for Applied Thesis	1 cr.
COUN-551	M.A. Thesis I	1 cr.
COUN-552	M.A. Thesis II	1 cr.

Note: Students must choose the thesis option before the end of the first semester in their first year. Students will need to work with their Faculty Advisor during their first-year second term with the expectation that the series will be started in the third term of the first year of the program. Should students not be able to complete the thesis by COUN-552, they will be required to take the M.A. thesis continuation courses until the thesis is completed.

Field Training and Seminars

Social Justice Practicum: On-ground Modality

SJP-513	Social Justice Practicum I	1 cr.
SJP-514	Social Justice Practicum II	1 cr.

Social Justice Practicum: Online Modality

SJP-515	Social Justice Practicum I	0.5 cr.
SJP-516	Social Justice Practicum II	0.5 cr.
SJP-517	Social Justice Practicum III	0.5 cr.
SJP-518	Social Justice Practicum IV	0.5 cr.

Clinical Training Requirements

CMHC-693	CMHC Practicum and Seminar	2 cr.
CMHC-694	CMHC Internship and Seminar I	2 cr.
CMHC-698	CMHC Internship and Seminar II	2 cr.

CMHC Comprehensive Examination

CMHC-995	CMHC Comprehensive Examination	0 cr.
----------	--------------------------------	-------

Total Credit Hours Required: 62

If students are unable to accrue the 600 required hours of internship upon completion of CMHC-698, then students will have to register for CMHC-699: CMHC Internship and Seminar II Continuation.

Graduation Requirements

1. Satisfactory completion of all required courses and seminars
2. Satisfactory completion of a minimum of 100 hours of practicum and 600 hours of internship
3. Satisfactory completion of Social Justice Practicum I & II (On-ground Modality) or Social Justice Practicum I, II, III, & IV (Online Modality)
4. A cumulative grade point average of 3.0 or higher and no more than two grades or six credit hours of C
5. Passing grade on the CMHC Comprehensive Examination
6. Submission of completed Graduation Application and full payment of all outstanding tuition and fees
7. Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Master of Arts in Counseling: Specialization in Clinical Mental Health Counseling

Professional Practice and Field Training

SOCIAL JUSTICE PRACTICUM (SJP)

The Social Justice Practicum (SJP) is a non-clinical and non-discipline-specific experiential practicum. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society.

The SJP is designed to help students learn how to work alongside the community as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity.

The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. Upon completing the SJP, students gain, maintain, and strengthen connections to communities by developing critical problem solving skills necessary to be socially responsible practitioners.

All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an approved SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP.

The SJP may not be waived and life credit is not admissible to meet this requirement.

CLINICAL MENTAL HEALTH PRACTICUM AND INTERNSHIP

Professional practice is a key element of the training of a student to become a professional counselor. During field training, students are provided with opportunities to apply theory, develop counseling skills, and formulate treatment goals and strategies with actual clients under supervision both from the site and Adler University.

CMHC field training is composed of two phases that typically both take place at the same site within students' chosen community. Practicum is the first phase of clinical field training in mental health settings as a counselor trainee. In this phase, students are to complete a minimum of 100 hours of fieldwork, consisting of 40 hours of direct client service contact, which must include both individual and group counseling experiences. Internship is the second phase of field training, which consists of a minimum of 600 hours of fieldwork, consisting of 240 direct client hours of various services, including, but not limited to, individual and group counseling, assessment, and intake.

The Council for Accreditation of Counseling and Related Educational Programs (CACREP) defines practicum as supervised clinical experience in which the student develops basic counseling skills and integrates professional knowledge. The practicum is completed prior to internship. Internship is a supervised capstone clinical experience in which the student refines and enhances basic counseling or student development knowledge and skills, and integrates and authenticates professional knowledge and skills appropriate to his or her program and initial postgraduate professional placement.

For both online and on-ground, the Directors of Clinical Training will assist students with the application process prior to the actual field placement. Adler University has a pool of approved training sites in various mental health settings and service themes. Details of the requirements and application process for the CMHC practicum and internship can be found in the CMHC Practicum and Internship Training Manual. You may obtain a copy of this manual from the Adler Connect portal at connect.adler.edu or from the program Faculty Advisor and Program Director.

CMHC Comprehensive Examination

The CMHC Comprehensive Examination evaluates eight core areas which represent the foundational knowledge required by all entry level counselor education graduates. They are: Professional counseling orientation and ethical practice; social and cultural diversity; career development, counseling and helping relationships; group counseling and group work; assessment and testing; and research and program evaluation.

Master of Arts in Counseling: Specialization in Clinical Mental Health Counseling Course Descriptions

CMHC-538

Professional Functions of Clinical Mental Health Counselors

3 Credits

This course orients students to the roles and functions of clinical mental health counselors. Topics include the nature and history of the field of clinical mental health counseling, the function of care coordination across different service delivery formats, as well as the policies and regulations that impact counselors. Administrative roles of clinical mental health counselors will also be covered. This includes the nature of program development and management as it pertains to finance and regulatory processes. In addition, students will learn about various models of supervision and consultation, as well as risk and emergency systems management within both clinical mental health and community settings.

CMHC-615

Crisis Intervention and Trauma Counseling

3 Credits

This course will introduce students to crisis intervention models and associated responses to clients' mental health needs during crises, disasters, and other trauma-causing events. Strategies and procedures for assessing risk, including suicide, aggression, and self-harm will also be covered. This course takes a systems approach to explain human functioning, health, and dysfunctional behavior when interacting with the larger social systems. An emphasis is given to the role of the counselor in advocating and promoting client welfare, including an understanding of the impact of a range of pervasive social justice issues on clients' mental health, including the cumulative effects of adverse childhood experiences (ACES). The principles of grief and bereavement processes, including cultural differences, will also be addressed.

CMHC-617

Treatment Planning and Intervention

3 Credits

Prerequisites: COUN-533, COUN-534; concurrent with COUN-535.

This course is designed to assist students in expanding their counseling knowledge and skills. Students will learn to formulate treatment goals and intervention strategies integrating theory, assessment, and diagnostic information for a variety of client problems, including assessing and managing suicidal risk and crisis intervention. The course also focuses on students' application of theory-specific counseling techniques in the context of therapeutic relationships (e.g., stages of treatment, common factors in the change process, and multicultural issues). Students will also be trained in current record-keeping standards and protocol in clinical mental health settings.

CMHC-693

CMHC Practicum and Seminar

2 Credits

Prerequisites: SJP-513, SJP-515, COUN-532, COUN-533, COUN-534, COUN-535, COUN-536, COUN-540, CMHC-538, CMHC-617.

CMHC Practicum provides a forum for students to attain supervised clinical experience in which the students develop basic counseling skills and integrate professional knowledge. Practicum requires students to complete 100 hours of field training in a clinical mental health setting, including attaining 4 direct hours through both individual and group counseling.

Along with the field experience, students receive individual supervision by faculty and attend group supervision in seminar. The seminar is designed to be responsive to students' practicum experiences and concerns for their clients and sites. Students discuss and present cases to demonstrate their ability in applying counseling theories and techniques, assessment and diagnostic information, clients' characteristics in case conceptualization, and treatment planning. Practicum seminar also provides peer support and consultation. Counseling Practicum is a prerequisite for Counseling Internship (CMHC-694).

CMHC-694

CMHC Internship and Seminar I 2 Credits

Prerequisite: CMHC-693. Following completion of practicum, internship is a supervised capstone clinical experience in which the student refines basic counseling and integrates and authenticates professional knowledge and skills appropriate to the clinical mental health counseling settings and initial postgraduate professional placement. At this stage, students are to complete the 600 hours of field training, including 240 direct counseling hours, in a clinical mental health setting. Students discuss and present cases to illustrate their ability in applying counseling theories and techniques, assessment and diagnostic information, clients' characteristics in case conceptualization, and treatment planning. Students will continue receiving support, peer consultation opportunities, and group supervision during the seminar.

CMHC-698

CMHC Internship and Seminar II 2 Credits

Prerequisite: CMHC-694. This is a continuation of students' internship experience with the goal to complete the 600-hour requirement. At the conclusion of both the practicum and internship, students should be able to demonstrate competencies that enable them to be clinically and culturally competent, ethical, and socially responsible entry-level practitioners. Students discuss and present cases to illustrate their ability in applying counseling theories and techniques, assessment and diagnostic information, clients' characteristics in case conceptualization, and treatment planning. The seminar will continue to provide support, peer consultation opportunities, and group supervision for the student interns.

CMHC-699

CMHC Internship and Seminar II Continuation 0 Credits

Prerequisite: CMHC-698. Students are required to register for this course should they not be able to meet the 600-hour requirement with a minimum of 240 direct service hours during CMHC-698. This seminar will continue to provide students with support, faculty supervision, and peer consultation opportunities. At the conclusion of the internship, students should be able to demonstrate competencies enabling them to be clinically, culturally, ethically, and socially responsible entry-level practitioners. There is a fee associated with this course. Students will need approval from the Director of Training or the Program Director to register for this course.

CMHC-995

CMHC Comprehensive Examination 0 Credits

Prerequisite: Completion or near completion of all CMHC program requirements. The CMHC Comprehensive Examination evaluates general knowledge as a professional counselor. Included in this exam is an assessment of the student's understanding of theoretical knowledge across a range of core subject areas found in the student's curriculum.

Counseling Course (Department of Counseling and Integrated Programs) Descriptions

COUN-518

Adlerian Theory and Counseling 3 Credits

This course introduces the principles of Alfred Adler's theory as a basis for understanding the development of an individual's unique style of living or personality. These principles include the purposiveness of behavior, the indivisible self, goal-directed behavior, and the role of social interest in mental health and social progress. Students will learn how to apply these principles in counseling and treatment planning, with the goal to improve well-being of individuals, couples, groups, families, and society.

COUN-532

Professional, Legal, and Ethical Issues in Counseling 3 Credits

This course provides a foundation for the ethical practice of professional counseling. It introduces students to the history of the counseling profession, as well as professional roles (practitioner, supervisor, educator, etc.) and professional organizations. The American Counseling Association (ACA) Code of Ethics, and ethical standards of its divisions, will be examined and applied to a variety of ethical and legal situations using a variety of ethical decision-making models.

COUN-533

Counseling Theories 3 Credits

This course provides a survey of models and theories consistent with current research (evidenced-based) and practice in the counseling profession. Approaches include psycho-analytic, individual psychology, person-centered, existential, cognitive-behavioral, Gestalt, family systems, and postmodern theories. The influence of sociocultural and historical factors on the development of counseling theories is also examined.

COUN-534

Counseling Skills 3 Credits

This course teaches basic relationship and counseling skills using role-plays and other experiential activities. The course covers basic counseling skills (e.g., attending, active listening, building rapport), intake interviewing, and self-reflection/self-assessment procedures. It also addresses additional skills such as confrontation, immediacy, here-and-now processing, self-disclosure, and stages of change.

COUN-535

Diagnosis of Maladaptive Behavior 3 Credits

This course provides an overview of the major disorders in the current edition of the DSM. A range of mental disorders, from adjustment disorders to serious psychopathologies, will be discussed. Additional topics will include an overview of the etiology, developmental course, multiaxial diagnosis, treatment planning, and policy/advocacy issues associated with various disorders to address socially responsible practice. Biological, environmental, cultural, intrapersonal, and interpersonal risk and protective factors will be addressed, along with the sociocultural and theoretical critiques of limitations of diagnosis and the DSM.

COUN-536

Counseling Multicultural Communities 3 Credits

This course is designed to provide a basic foundation of knowledge, awareness, and skills needed for providing more effective counseling services in a multicultural society. The course will cover theories, research, and practices associated with multicultural competence with emphases on between-group and within-group differences and the intersections of race, ethnicity, gender, religion, sexual orientation, country of origin, disability, and socioeconomic status. Students will be introduced to topics including oppression and privilege, racism, discrimination, sexism, power, and ageism.

COUN-540**Group Counseling 3 Credits**

Prerequisites: COUN-533, COUN-534. This course introduces students to theory and principles of group dynamics as well as developmental stages of groups. In addition, group members' roles and behaviors and therapeutic factors of group work will be discussed. Students will have the opportunity to apply these principles through role-playing, participating as group members in an experiential component of this course as well as designing, planning, leading, and co-leading group sessions for diverse client populations.

COUN-550**Preparation for Applied Thesis****1 Credit**

Prerequisite: Permission of the Program Director. The purpose of this course is to review policies and procedures pertinent to completion of a thesis as a degree program requirement. The course instructor will assist students in selecting and/or refining an appropriate topic for empirical study, identifying a faculty member to serve as their Thesis Advisor, identifying a second reader, and developing a research proposal that will form the foundation for their final thesis. The M.A. Thesis is a student-directed study conducted in consultation with an approved faculty member in a theoretical, methodological, or applied psychological area relevant to the curriculum. The research culminates in the completion of a scholarly paper of publishable quality in accordance with Adler University guidelines and American Psychological Association standards.

COUN-551**M.A. Thesis I 1 Credit**

Prerequisite: COUN-550. The M.A. Thesis is a student-directed study conducted in consultation with an approved faculty member in a theoretical, methodological, or applied psychological area relevant to the curriculum. The research culminates in the completion of a scholarly paper of publishable quality in accordance with Adler University guidelines and American Psychological Association standards.

COUN-552**M.A. Thesis II 1 Credit**

Prerequisite: COUN-551. The M.A. Thesis is a student-directed study conducted in consultation with an approved faculty member in a theoretical, methodological, or applied psychological area relevant to the curriculum. The research culminates in the completion of a scholarly paper of publishable quality in accordance with Adler University guidelines and American Psychological Association standards.

COUN-618**Couple and Family Counseling****3 Credits**

Prerequisites: COUN-533, COUN-534. This course presents an overview of major models of couples and family therapy. The impact of multigenerational and environment factors on family dynamics and couples' relations will be examined through various systemic perspectives. Students will learn about the leading figures, feature concepts, and typical techniques and intervention strategies of these models. Students will be encouraged to evaluate the strengths and limitations of these models with consideration of power and hierarchy, gender bias, and diversity factors when working with different client populations.

COUN-620**Child and Adolescent Counseling****3 Credits**

This course provides an overview of theory and techniques in child and adolescent counseling psychotherapy. While an overview orientation views child and adolescent problems within a context of the family system, the course focuses on a range of interventions and approaches including play therapy, problem-focused cognitive and behavioral techniques, and the interface with group work, individual treatment, and family therapy. Attention is given to the relationship of developmental tasks and treatment strategies as well as cultural frameworks that impact intervention.

COUN-622**Human Growth and Development****3 Credits**

This course presents an overview of various models and theories in the discussion of the characteristics, developmental needs, and tasks at different stages of a person's life cycle. The impact of social, cultural, biological, and psychological factors on prenatal life, childhood, adolescence, adulthood, and aging will be discussed. Students will also learn about psychosocial development, cognitive functioning, life transitions, coping and adaptation, work and retirement, bereavement, and related issues in a person's life cycle in relation to their work as counselors.

COUN-625**Research and Program Evaluation****3 Credits**

This course is a master's-level introduction to research methods and program evaluation as it pertains to the field of professional counseling. Major research designs including both quantitative and qualitative methods will be explored. Research procedures, such as data collection, sampling, and data analysis, and issues related to validity, reliability, and limitations of different approaches will be discussed. In addition, the course will survey the history and development of program evaluation and provide an introduction to needs assessment in regard to program development, data collection methodology, and data analysis. Ethical and culturally relevant strategies for interpreting and reporting the results of research and program evaluation studies will be also covered.

COUN-626**Appraisal and Assessment****3 Credits**

This course will provide foundational knowledge of individual and group approaches to the assessment and evaluation commonly used in counseling practice. Students will be introduced to a variety of formal and informal assessment tools and instruments. Psychometric statistics, such as measures of central tendency and standard errors, as well as psychometric properties of instruments, such as validity and reliability, will be discussed. Strategies for ethical selection, administration, and interpretation of assessment and evaluation instruments and techniques with multicultural considerations will be addressed.

COUN-629**Career Development Theories and Interventions****3 Credits**

Prerequisite: COUN-533. This course will examine career development and decision-making models and ethical counseling applications to diverse/multicultural client populations. Students will select, administer, interpret, and evaluate a variety of assessment instruments (online, etc.) and utilize educational and labor market information for the purpose of career planning and development. In addition, students will develop and evaluate career services/ programs for particular groups in school, agency, or business settings.

COUN-630**Addictions Counseling****3 Credits**

Prerequisites: COUN-533, COUN-534. This course provides an introduction to substance use and the treatment of addictive disorders. Assessment of substance use disorders and current treatment models for substance use, misuse, abuse, dependence, and concurrent disorders are discussed. Information about pharmacological, physiological, and medical aspects of chemical dependence, as well as an overview of treatment delivery systems and alternative treatment settings (e.g., inpatient and outpatient treatment, prevention programs, mutual help groups, harm reduction programs, and recovery homes) is provided. Each of these areas includes a focus on the historical context of substance use, along with consideration of current diversity and social justice issues related to substance use and regulation.

COUN-640**Counseling and Human Sexuality 3 Credits**

This course is a study of the foundational components in understanding human sexuality and assisting individuals and couples with sexual concerns. It is designed to provide information in the following areas: research and history about sexuality studies, sexual development, sexuality and gender expression, and social and emotional dynamics of sexuality. Clinical applications will also be addressed, including the treatment of sexual disorders and sexual trauma/abuse, sexual behavior patterns, reproductive issues, and sexually transmitted infections.

COUN-660**Introduction to Play Therapy 3 Credits**

This course is designed as an introductory to play therapy course, with emphasis on students learning play therapy rationale, research, and skills to facilitate therapeutic relationships with young children using play as a medium of communication. Students will participate in discussion, readings, and practice during the course in order to learn and integrate essential attitudes and skills of child-centered play therapy. Students will be introduced to additional topics that include: cultural considerations, ethics, parent consultations, and introduction to play therapy theories.

COUN-661**Animal-Assisted Therapy 3 Credits**

The course explores the usage of animals in counseling. It also focuses on integrating animal-assisted theory in various counseling approaches to formulate strategies for change and treatments for diverse clinical issues and clientele. This is a hands-on experiential course which will be conducted in an external site outside the Chicago campus.

COUN-688**Mind, Body, and Meditative Practices in Counseling 3 Credits**

This course provides an introduction to mindfulness and other meditative and mind-body approaches to counseling. The course focuses on theory, technique, and practice. No prior experience with meditation is required, though students must be willing to practice selected techniques daily throughout the semester, as meditative and mind-body techniques cannot be learned through description alone. The class will cover a range of approaches, including mindfulness approaches, yoga, and sensorimotor approaches.

COUN-722**Counseling Older Adults and Families 3 Credits**

This advanced course examines the developmental, historical, and social perspectives of aging. This course will also examine the impact of aging on family dynamics and relationships, including intergenerational issues and the crises or transitions experienced throughout the family life cycle. The course also addresses individual and family counseling, cultural diversity, ageism, caregiving, social justice advocacy, and innovative approaches in promoting positive emotional and cognitive well-being. The course includes discussions on viewing older adults in a holistic perspective and the role of families and healthcare professionals in the care of older adults.

COUN-750**Psychopharmacology in Counseling 3 Credits**

This course educates the non-prescribing counselor about the biological processes of psychotropic medication, with emphasis on how counselors and medication prescribers can work collaboratively in the best interest of the client. Students gain an understanding of the medical resources available to clients and how the medical model can be incorporated within the therapeutic alliance. Legal and ethical issues related to psychopharmacology will be covered, including case scenarios to assist in comprehension of appropriate medication management. Students will demonstrate knowledge of commonly prescribed Psychotropic medications including antipsychotic, antidepressant, anti-anxiety and sedative/hypnotic agents. Students

will understand and have a basic knowledge of developing psychological evaluations, using the mental status exam and psychological history when creating treatment plans for clients.

COUN-752**Advanced Adlerian Theory and Practice 3 Credits**

Prerequisites: COUN-533, COUN-518 and/or approved by the instruction f or DCES students. This course provides students a forum to explore and apply Adlerian theoretical tenets and interventions in an advanced level. The class framework is on the role of the counselor in relation to the client throughout the four stages of Adlerian therapy. Emphasis is on the Counselor/Client relationship, Life-Style case conceptualization, use of Social Interest, Encouragement, Fictional Final goals, and Treatment planning. Students will apply advanced tenets and interventions to clients across the life span using various modalities; individual, couple, family, and group. This is an online class with Synchronous sessions.

COUN- 760**Advanced Play Therapy 3 Credits**

Prerequisite: COUN-660 Introduction to Play Therapy, and/or approved by the instruction for DCES students. This course is designed as an advanced play therapy course. Students will learn about advanced play therapy topics including play therapy theories and approaches, play therapy research and assessment, child development, collaborating with caregivers and family systems, and play therapy application across diverse settings. Students will engage in discussion, experiential learning, demonstrations, and supervised role play during this course.

SJP-513**Social Justice Practicum I 1 Credit**

The Social Justice Practicum (SJP) is a non-clinical and non-discipline-specific experiential practicum. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. *Note: During the fall term, students enrolled in the SJP attend at least two SJP workshops and complete a minimum of 50 hours upon placement at site.*

SJP-514**Social Justice Practicum II 1 Credit**

The Social Justice Practicum (SJP) is a non-clinical and non-discipline-specific experiential practicum. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. Upon completing the SJP, students gain,

maintain, and strengthen connections to communities by developing critical problem solving skills necessary to be socially responsible practitioners. In addition, students learn essential concepts related to civics, intersectionality, and community organizing as they are necessary to establish and enhance critical thinking to labor for social justice. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an approved SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. The SJP may not be waived, and no life credit is admissible to meet this requirement.

SJP-515	Social Justice Practicum I	0.5 Credits
SJP-516	Social Justice Practicum II	0.5 Credits
SJP-517	Social Justice Practicum III	0.5 Credits
SJP-518	Social Justice Practicum IV	0.5 Credits

The Social Justice Practicum (SJP) is a non-clinical and non-discipline specific experiential practicum. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change, and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members. All students must complete the SJP before advancing onto any clinical or discipline specific training, respective of the program in which they are enrolled. SJP requirements include: 1) completion of a minimum of 200 hours at an approved SJP site; 2) completion of online modules; 3) a formal SJP presentation at the Social Justice Symposium; and 4) students must receive a grade of "Pass" for the mid-term and final evaluation to receive credit for completing the SJP. The SJP may not be waived and life credit is not admissible to meet this requirement.

MASTER OF ARTS IN COUNSELING: SPECIALIZATION IN REHABILITATION COUNSELING

The mission of the Master of Arts in Counseling: Specialization in Rehabilitation Counseling (MACR) program is to educate students in the profession of rehabilitation counseling, with a special emphasis on the provision of services that enhance the independence and quality of life for persons with disabilities. Special emphasis is placed on training students to become socially responsible practitioners who embrace diverse perspectives in the broadest possible sense, and who empower individuals with disabilities to build bridges across social, economic, cultural, racial, and political systems. The program will foster the development of social equality, justice, and respect for individuals with disabilities in the global community.

The MACR program is designed to provide students with a foundation in theories and methods of counseling with practical, supervised training in counseling techniques, in addition to specific training in the field of rehabilitation counseling. The program combines the best features of a traditional counseling program with Adler University's emphasis on education and training in socially responsible practice, systems change, and leadership in service to individuals with disabilities. Graduates of the program are well prepared for a wide variety of rehabilitation counseling and community mental health positions in human service agencies and organizations in both the public and private sectors.

The MACR program consists of:

- A comprehensive theoretical curriculum (counseling, rehabilitation counseling, and Adlerian foundations) and supervised field experiences of 62 credit hours. This comprehensive graduate program can be completed in 24 months of full-time attendance.
- Clinical field experience, which is conducted through a supervised practicum (100 hours minimum) and internship (600 hours). Through a large network of community partners, students are able to complete their clinical training in a variety of settings.
- A Social Justice Practicum (SJP), a 200-hour social responsibility immersion experience created to develop in graduates an identity as social justice advocates and agents of social change.

Program Learning Objectives

1. Professional Orientation and Ethical Practice: Describe and apply all aspects of professional practice, including history, roles, professional organizations, ethical and legal standards, counselor credentials and advocacy processes.
2. Social and Cultural Diversity: Develop self-awareness and multicultural counseling competencies. Apply theory and research on cultural factors impacting counseling relationships in a multicultural and diverse society and the role of social justice and advocacy in the practice of counseling.
3. Human Growth and Development: Apply models of individual, couple, and family development in the practice of counseling with emphasis on cultural diversity across the life span.
4. Career Development: Demonstrate knowledge and apply career development and decision-making models and strategies with multicultural and diverse populations.
5. Helping Relationships: Demonstrate knowledge of theories and skills to provide ethical counseling, consultation, and crisis intervention services.
6. Group Work: Participate in, facilitate, and lead experiential groups, and apply group work principles and theories, methods, and skills to the practice of counseling.
7. Assessment: Demonstrate knowledge of principles of testing and measurement, including statistical concepts, and apply them to individual and group assessment and evaluation.

8. Research and Program Evaluation: Describe and recognize the importance of research- and statistical-based methods, statistical needs assessment, and program evaluation to inform evidence-based practice of counseling.
9. Adlerian Foundations and Principles: Apply principles of Adlerian theory such as purposiveness of behavior, the indivisible self, goal-directed behavior, and the role of social interest in counseling and treatment planning with the goal to improve well-being of individuals, couples, groups, families, and a diverse society.
10. Social Justice/Social Responsibility: Reflect on personal values and assumptions (privileges, disadvantages, etc.) about the nature and causes of social problems (social injustices such as poverty, racism, abuse), and gain experience and skills to advocate for systemic change through engagement and leadership in multidisciplinary, diverse community-based organizations.
11. Clinical Rehabilitation Counseling: Demonstrate knowledge, skills, and practices to address a variety of issues within the rehabilitation counseling context, including health promotion, diagnosis, assessment, intervention, research, diversity, and advocacy roles.
12. Critical Thinking and Disability: Maintain a critical, questioning, and exploratory attitude toward issues of disability; demonstrate awareness of the complexity involved in issues of disability, including medical/ psychosocial aspects of disability, the person and environment interaction, attitudinal issues, and social systemic impact on services provided to persons with disabilities.
13. Individual Differences: Demonstrate an awareness of the ethical issues related to enhancing personal development, decision-making abilities, and quality of life for individuals with disabilities; articulate the value of client/consumer empowerment, choice, and personal responsibility in the rehabilitation process.
14. Advocacy and Disability: Demonstrate awareness and understanding of community resources available to address issues related to disability challenges of clients; advocate for services and resources for individuals with disabilities to promote full inclusion in the community and in the workforce.

Instructional Modality

This program is designed to be completed in two years on a full-time basis or three years part-time. Students seeking a part-time schedule must consult with the Program Director. Courses required for this program are offered in a variety of formats, including weekday and evening, completely online, or partially online with two weekend class meetings.

Licensure and Credentials

Upon completion of this program, students are prepared to take the Certified Rehabilitation Counselor (CRC) examination, a nationally recognized credential. This degree program exceeds the academic and pre-degree training and education requirements for the Licensed Professional Counselor (LPC) in Illinois. In addition, students who pass the CRC examination are eligible to apply for the LPC in Illinois with no additional examination requirement. The program is accredited by the Council for Accreditation and Related Educational Programs (CACREP).

Although this degree program satisfies the current academic and pre-degree training and education requirements for the Licensed Professional Counselor (LPC) credential in Illinois, students should be aware that licensure requirements in some states may require them to take courses beyond those currently required by Adler University. Students should be advised that licensure criteria may change frequently and that some states may require courses and/or training beyond those currently required by the program.

Students should plan their curriculum according to specific state requirements. Details regarding application for these credentials can be found at nbcc.org/directory. More information about the field of rehabilitation counseling can be found at arcaweb.org and crrcertification.com.

Minimum Program Admission Requirements

Applicants to this program are required to have:

- A baccalaureate degree earned from a college or university regionally accredited by a nationally recognized accrediting agency or an equivalent degree from an international college or university.
- A minimum grade point average of 3.0 or higher on a 4.0 scale for undergraduate and graduate coursework. Exceptions may be made for applicants who demonstrate improved academic performance or academic ability in other ways.

Approved applicants will be invited for a personal interview as the final step in the application process.

Degree Requirements

Core Courses

* MACR-500	Foundations of Rehabilitation Counseling	3 cr.
MACR-502	Medical and Psychosocial Aspects of Disability	3 cr.
COUN-518	Adlerian Theory and Counseling	3 cr.
* COUN-532	Professional, Legal, and Ethical Issues in Counseling	3 cr.
* COUN-533	Counseling Theories	3 cr.
* COUN-534	Counseling Skills	3 cr.
* COUN-535	Diagnosis of Maladaptive Behavior	3 cr.
* COUN-536	Counseling Multicultural Communities	3 cr.
* COUN-540	Group Counseling	3 cr.
CMHC-615	Crisis Intervention and Trauma Counseling	3 cr.
COUN-618	Couple and Family Counseling	3 cr.
COUN-622	Human Growth and Development	3 cr.
COUN-625	Research and Program Evaluation	3 cr.
COUN-626	Appraisal and Assessment	3 cr.
COUN-630	Addictions Counseling	3 cr.
MACR-642	Career Development, Vocational Rehabilitation, and Job Placement	3 cr.
MACR-644	Treatment Planning, Intervention, and Advocacy	3 cr.
MACR-995	MACR Comprehensive Examination	0 cr.

Field Training and Seminars

* SJP-513	Social Justice Practicum I	1 cr.
* SJP-514	Social Justice Practicum II	1 cr.
MACR-557	MACR Practicum and Seminar	2 cr.
MACR-657	MACR Internship and Seminar I	2 cr.
MACR-658	MACR Internship and Seminar II	2 cr.

*Courses denoted with an asterisk are counseling practicum prerequisites, which students need to complete prior to their counseling practicum. Students are required to attain a grade of B or higher in these courses. Students will need to retake the courses with a B- or lower grade prior to, or concurrently with their practicum, and attain the required grade.

Electives (3 Credit Hours)

Students are required to take an elective of a three-credit-hour class. Students can take a course from the Department Elective Menu upon their Faculty Advisor's approval. Canadian students will need to take the thesis series below as the elective if they plan to pursue doctoral studies in Canada.

The thesis series as the elective:

COUN-550	Preparation for Applied Thesis	1 cr.
COUN-551	M.A. Thesis I	1 cr.
COUN-552	M.A. Thesis II	1 cr.

Total Credit Hours Required: 62

Note: Students must choose the thesis option before the end of the fall semester of their first-year term. Students will need to work with their Faculty Advisor during their first-year spring term with the expectation that the series will be started in the summer of the first year of the program. Should students not be able to complete the thesis by COUN-552, they will be required to take the M.A. thesis continuation courses until the thesis is completed.

Graduation Requirements

1. Satisfactory completion of all required courses and seminars
2. Satisfactory completion of a minimum of 100 hours of practicum and 600 hours of internship
3. Satisfactory completion of Social Justice Practicum I & II
4. A cumulative grade point average of 3.0 or higher and no more than two grades or six credit hours of C
5. Submission of completed Graduation Application and full payment of all outstanding tuition and fees

Professional Development and Field Training

SOCIAL JUSTICE PRACTICUM (SJP)

The Social Justice Practicum (SJP) is a first-year, non-clinical and non-discipline-specific experiential practicum that occurs during the fall and spring terms. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside the community as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. Upon completing the SJP, students gain, maintain, and strengthen connections to communities by developing critical problem-solving skills necessary to be socially responsible practitioners.

All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an approved SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP.

The SJP may not be waived and life credit is not admissible to meet this requirement.

REHABILITATION COUNSELING PRACTICUM AND INTERNSHIP

Professional practice is a key element of a student's training to become a professional counselor and rehabilitation counselor. During field training, students are provided with opportunities to apply counseling theories, develop counseling skills, and formulate treatment goals and strategies with actual clients under supervision both from the site and Adler University.

The MACR field training is composed of two phases: a 100-hour minimum practicum and a 600-hour minimum internship. These typically both take place at the same site. The University has a pool of approved training sites in various settings and service themes, with emphasis on providing service to individuals with disabilities.

The MACR practicum is a supervised clinical experience in which the student develops basic counseling skills and integrates professional knowledge. The practicum is completed prior to the internship.

The MACR internship is a supervised capstone clinical experience in which the student refines and enhances basic counseling or student development knowledge and skills, and integrates and authenticates professional knowledge and skills appropriate to his or her program and initial postgraduate professional placement.

The MACR Director of Training will assist students with the application process during the academic year prior to the actual field placement. Details about the requirements and application process for the MACR practicum and internship can be found in the Adler University MACR Practicum and Internship Training Manual. You may obtain a copy of this manual from the Adler Connect portal at connect.adler.edu or from your Academic Advisor or Program Director.

Master of Arts in Counseling: Specialization in Rehabilitation Counseling Course Descriptions

MACR-500

Foundations of Rehabilitation Counseling 3 Credits

This foundation course is designed to introduce and orient students to the profession of rehabilitation counseling. Students will learn about the history and development of rehabilitation counseling and the current issues relevant to the profession of rehabilitation counseling. Historical and contemporary perspectives on disability will be described to elucidate societal attitudes toward disability and their impact on people with disabilities. Students will also acquire a working knowledge of federal laws that dictate the delivery of rehabilitation services; the various service roles performed by the rehabilitation counselor; the settings in which rehabilitation counselors perform services; and best practices in various areas of rehabilitation counseling.

MACR-502

Medical and Psychosocial Aspects of Disability 3 Credits

This is a survey course on the physical, psychological, social, and spiritual aspects of disability. The focus of the course is emphasizing the importance of a holistic understanding of individuals with disabilities and the often complex interplay of various factors as they impact the well-being of those with disabilities. An overview of a range of disabling conditions is provided including etiology, pathology, diagnosis, prevalence, and prognosis. The implications for the functioning in various spheres of these conditions will be reviewed, as well as common rehabilitation interventions employed with individuals with these conditions.

MACR-557

MACR Practicum and Seminar 2 Credits

Prerequisites: COUN-532, COUN-533, COUN-534, COUN-535, COUN-536, COUN-540, SJP 513 and SJP 514. Practicum and seminar provides students engaged in clinical training with an opportunity to discuss professional development, as well as receive individual and group supervision. Specific cases that students are working on in practica are discussed to illustrate general principles of rehabilitation counseling, counseling and intervention, with a focus on service delivery to individuals with disabilities. The focus is on the development of knowledge, skills, and values needed to provide competent and ethical rehabilitation counseling. In practica, students complete a minimum of 100 hours of field training, of which at least 40 hours is in direct service.

MACR-642

Career Development, Vocational Rehabilitation, and Job Placement 3 Credits

This course focuses on the critical interface of work and disability. The major theories of career development are reviewed and application of these theories to persons with disabilities is explored. The psychosocial and economic aspects of work and the impact of disability on employment are considered. Theories and techniques for successful integration of rehabilitation clients in the labor market are addressed, including demand-side employer perspectives, job analysis, job development, job restructuring and modification, labor market analysis, and use of specialized placement techniques. Attention is also given to the role of the rehabilitation counselor in advocating for changes in policies and practices related to attitudinal and environmental barriers to employment.

MACR-644

Treatment Planning, Intervention, and Advocacy 3 Credits

Prerequisite: COUN-533, COUN-534. This is the foundational course in the role of the rehabilitation counselor as a socially responsible practitioner. The course begins with a review of various interventions and services typically performed by rehabilitation counselors, such as interfacing with the medical system and community and governmental agencies; disability documentation and eligibility determination is also considered. In addition to preparing students to function in these roles, the course also provides students with the knowledge and skills that will enable them to work collaboratively with individuals with disabilities, in providing and coordinating treatments and interventions. Techniques for empowering individuals with disabilities and their families, as well as community organizations advocating for disability rights, as well as other forms of social action, are addressed.

MACR-657

MACR Internship and Seminar I 2 Credits

Prerequisite: MACR-557. Following student's completion of practicum, internship is a supervised clinical experience in which the student refines basic rehabilitation counseling and integrates and authenticates professional knowledge and skills appropriate to rehabilitation and clinical mental health counseling settings. At this stage, students work toward completion of 600 hours of field training, including 240 hours of direct service to people with disabilities in rehabilitation or clinical mental health settings. Students discuss and present cases to illustrate their ability in applying counseling theories and techniques, assessment and diagnostic information, case conceptualization, and treatment planning. Students will continue receiving support, peer consultation opportunities, and group supervision during the seminar.

MACR-658

MACR Internship and Seminar II 2 Credits

Prerequisite: MACR-657. This is a continuation of students' internship experience with the goal to complete the 600-hour requirement. At the conclusion of internship, students should be able to demonstrate competencies that enable them to be clinically and culturally competent, ethical, and socially responsible entry-level rehabilitation counseling practitioners. Students discuss and present cases to illustrate their ability in applying counseling theories and techniques, assessment and diagnostic information, case conceptualization, and treatment planning with a focus on service delivery to individuals with disabilities. The seminar will continue to provide support, peer consultation opportunities, and group supervision for student interns.

MACR-995

MACR Comprehensive Examination 0 Credits

Prerequisite: Completion or near completion of all MACR program requirements. The MACR Comprehensive Examination evaluates general knowledge as a professional rehabilitation counselor. Included in this exam is an assessment of the student's understanding of theoretical knowledge across a range of core subject areas found in the student's curriculum.

SJP-513**Social Justice Practicum I****1 Credit**

The Social Justice Practicum (SJP) is a first-year, non-clinical and non-discipline-specific experiential practicum that begins in the fall term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. The SJP may not be waived and life credit is inadmissible to meet this requirement. *Note: During the fall term, students enrolled in the SJP attend at least two SJP workshops and complete a minimum of 50 hours upon placement at site.*

SJP-514**Social Justice Practicum II****1 Credit**

The Social Justice Practicum (SJP) is a first-year, non-clinical and non-discipline-specific experiential practicum that continues through the spring term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. Upon completing the SJP, students gain, maintain, and strengthen connections to communities by developing critical problem solving skills necessary to be socially responsible practitioners. In addition, students learn essential concepts related to civics, intersectionality, and community organizing, as they are necessary to establish and enhance critical thinking to labor for social justice. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an approved SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. The SJP may not be waived and no life credit is admissible to meet this requirement.

MASTER OF ARTS IN COUPLE AND FAMILY THERAPY

Program Overview

The Master of Arts in Couple and Family Therapy (MCFT) program is accredited by the Commission on Accreditation of Marriage and Family Therapy Education (COAMFTE). It is a clinical program through which students acquire therapy skills emphasizing the enrichment and treatment of couples and families, as well as individuals. When working with couples, families, and individuals, students are trained to understand relational or systemic concerns within the broader contexts of development, family roles and functioning, as well as community and social circumstances. The clinically intensive coursework and practicum experiences provide students with strong conceptual, assessment, treatment planning, and intervention skills based on the major models of couple and family therapy.

Graduates of the program have the core professional identity as a Couple and Family Therapist (CFT) qualified for membership in the American Association for Marriage and Family Therapy (AAMFT). CFTs are mental health professionals who recognize that relationships and patterns of engaging influence individual and relational functioning, and therefore need to be part of the therapy process. CFTs work with couples, families, and individuals in a wide variety of clinical settings such as, but not limited to, community mental health centers and agencies, group and private practices, hospitals, schools, substance abuse treatment programs, correctional facilities, and residential treatment programs. Couple and Family Therapists work with couples, families, and individuals including children, adolescents, teenagers, adults, and geriatric populations; their training is not limited to serving only couples and families.

The curriculum and supervised training are intended to help students who complete the degree to meet the educational requirements for licensure as a Marriage and Family Therapist (LMFT) in Illinois. Licensure requirements can vary from state to state in their expectations of practicum hours and coursework. Students are strongly encouraged to review the licensing requirements in any state in which they would anticipate practicing. COAMFTE-accreditation improves portability across states as the curriculum and training meets the highest standards in the field.

The Master of Arts in Couple and Family Therapy program is dedicated to training quality Couple and Family Therapists firmly grounded in systemic theories who are socially responsible and sensitive to diversity, with a clear professional identity as a Couple and Family Therapist. This mission is achieved through a commitment to our program goals and student learning outcomes.

Program Goals

1. To role model a clear professional identity as an ethical Couple and Family Therapist
2. To train students to develop a systemic worldview in their work as a Couple and Family Therapist
3. To graduate socially responsible professional Couple and Family Therapists sensitive to social justice and diversity

Student Learning Outcomes

1. To understand and apply systems, modern, and postmodern couple and family therapy theories
2. To assess ethical, legal, and professional issues related to clinical practice
3. To demonstrate cultural competency in practicing couple and family therapy with diverse populations

4. To display proficiency in clinical skills in the practice of couple and family therapy
5. To demonstrate knowledge of Adlerian principles that can complement systemic work with couples, families, and individuals
6. To illustrate knowledge and integration of couple and family therapy research
7. To describe, understand, and identify issues of social justice, social responsibility, and oppression with couples and families
8. To establish a clear professional identity as a Couple and Family Therapist

Program-Specific Admission Requirements

In addition to admission requirements common to all of the Adler graduate clinical programs, the MCFT program will review undergraduate transcripts (and graduate transcripts, if applicable) and letters of recommendation. It is recommended that applicants' essays describe why they are choosing the field of couple and family therapy, as well as addressing any deficits where students do not meet the stated admissions requirements. Application requirements include:

- A baccalaureate degree from a college or university regionally accredited by a nationally recognized accrediting agency or an equivalent degree from an international college or university
- A grade point average of 3.0 or higher on a 4.0 scale for all undergraduate coursework and/or a 3.5 or higher on a 4.0 scale for all graduate coursework

Approved applicants will be invited to participate in an on-campus interview with core faculty as a final step in the application process.

Degree Requirements

The MCFT program is a full-time program that can be completed in two years and must be completed in no longer than five years.

Course are listed under the categories of Foundational Curricular Areas (FCA) as outlined by the COAMFTE Accreditation Standards Version 12.

FCA 1: Foundations of Relational/Systemic Practice, Theories & Models Nine area credits/Nine program credits

* MCFT-651	Assessment and Treatment Planning with Individual and Family Systems	3 cr.
* MCFT-662	Overview of Modern Approaches to Couple and Family Therapy	3 cr.
* MCFT-650	Overview of Postmodern Approaches to Couple and Family Therapy	3 cr.

FFCA 2: Clinical Treatment with Individuals, Couples and Families Nine area credits/18 program credits

* MCFT-572	Basic Skills of Therapy for CFTs	3 cr.
MCFT-670	Family Therapy with Children and Adolescents	3 cr.
MCFT-655	Couples Therapy: Theory and Techniques	3 cr.

FCA 3: Diverse, Multicultural and/or Underserved Communities Three area credits/21 program credits

MCFT-660	Culture and Diversity in Couple and Family Therapy	3 cr.
----------	--	-------

FCA 4: Research & Evaluation Three area credits/24 program credits

MCFT-597	Research Methods	3 cr.
----------	------------------	-------

FCA 5: Professional identity, Law, Ethics & Social Responsibility**Seven area credits/31 program credits**

* MCFT-505	Systemic Ethics	3 cr.
* MCFT-510	CFT Professional Development Seminar	1 cr.
MCFT-600	CFT Professional Identity and Practicum Seminar	2 cr.
MCFT-512	CFT Professional Identity Seminar and Capstone Project	1 cr. plus MAQE fee

FCA 6: Biopsychosocial Health & Development across the Life Span**Three area credits/34 program credits**

MCFT-654	Individual Life Span and the Family Life Cycle	3 cr.
----------	--	-------

FCA 7: Systemic/Relational Assessment & Mental Health**Diagnosis & Treatment****Three area credits/37 program credits**

MCFT-647	Biopsychosocial Bases of Health and Dysfunction for CFTs	3 cr.
----------	--	-------

FCA8: Contemporary Issues**Nine area credits/46 program credits**

MCFT-537	Group Psychotherapy	3 cr.
MCFT-538	Introduction to Addictive Disorders	3 cr.
MCFT-653	Sexuality with Couples and Families	2 cr.
MCFT-***	Specials Course	1 cr.
or		
MCFT-870	International Immersion and Cross-Cultural Studies	3 cr.
or		
	Other electives as offered in the department	3 cr.

FCA9: Community Intersections & Collaboration**Five area credits/51 program credits**

SJP-513	Social Justice Practicum I	1 cr.
SJP-514	Social Justice Practicum II	1 cr.
MCFT-533	Adlerian Theory and Practice in CFT	3 cr.

****Foundational Practice Component****Nine area credits/60 program credits**

MCFT-603	CFT Practicum and Practicum Seminar I	3 cr.
MCFT-604	CFT Practicum and Practicum Seminar II	3 cr.
MCFT-605	CFT Practicum and Practicum Seminar III	3 cr.

The total hours required to complete this program is 60 credits. The curriculum has been designed to meet both the licensing requirements of the state of Illinois as well as the accreditation requirements of the COAMFTE.

MCFT-670 and MCFT-655 must be taken concurrently with CFT clinical practicum.

*Courses denoted with an asterisk are prerequisites to beginning the clinical practicum (foundational practice experience). Students who do not earn a B or better in these courses must retake them, postponing the start of practicum and extending the overall length of the program.

**Continuous enrollment in CFT Practicum and Practicum Seminar is required until the necessary clinical hours for degree conferral are completed, which may extend the overall length of the program and increase the overall program credits. The sequence of courses for practicum seminar differs depending on the start date of the student's individual clinical practicum contract. Students must be enrolled in practicum seminar over the full course of the twelve-month practicum contract for a total of nine credits. Students whose practicum contracts begin on, or after the first day of the fall semester, will register in MCFT-603, 604, and 605 (3 credits each) for a total of nine credits and a required twelve months of practicum seminar. MCFT-605 runs through both the summer I and summer II term.

Students whose practicum contracts begin in July or August will register for MCFT-601 (1 credit) for summer II, MCFT-603 (3 credits), MCFT-604 (3 credits), and MCFT-602 (2 credits) for summer I across the year for a total of nine credits and a required twelve months of practicum seminar.

Specials Courses: MCFT students may choose between MCFT-653: The Clinical Practice of Sex Therapy (2 credits) offered in their second summer (MCFT-655 is a prerequisite) and a one credit elective offered in the department, MCFT-870: International Immersion and Cross Cultural Studies (3 credits), or other electives as available. The CFT Department's goal is to offer MCFT-870, the Study Abroad opportunity, on an annual basis. Professor, location of travel, additional costs/fees, and the semester may vary each academic year. Additionally, if there is insufficient student interest to support and of the specials, i.e. elective, courses, they may be cancelled.

Total Credit Hours Required: 60

CFT Professional Development – Self of the Therapist

The mission of the MCFT program is to train quality couple and family therapists firmly grounded in systemic theories who are culturally competent and socially responsible. To bring the curriculum, social justice lens, and clinical practicum experience together, the CFT program attends to self-of-the-therapist growth and development throughout the curriculum and specifically in the following course sequence: Orientation -> 510 -> 537 -> 600 -> Practicum Seminars -> 512 -> Capstone Project. Because of this sequence, students cannot transfer in a group therapy course, i.e. MCFT-537, but may use a transferred graduate level equivalent to meet the program's elective requirement.

Professional Practice and Field Training**SOCIAL JUSTICE PRACTICUM (SJP)**

The Social Justice Practicum (SJP) is a first-year, non-clinical and non-discipline-specific experiential practicum that occurs during the fall and spring terms. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside the community as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity.

The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. Upon completing the SJP, students gain, maintain, and strengthen connections to communities by developing critical problem solving skills necessary to be socially responsible practitioners. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an approved SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP.

The SJP may not be waived and life credit is not admissible to meet this requirement.

MCFT CLINICAL PRACTICUM

The clinical practicum is a vital part of training at Adler University. Providing therapy for couples, families, individuals, and groups while under close supervision is the primary path that transforms Couple and Family Therapy (CFT) students into strong entry-level therapists.

Over the course of practicum, weekly clinical supervision is provided at the practicum placement by the site supervisor and also by an AAMFT Approved Supervisor or Supervisor Candidate through the practicum seminar on campus. Site supervisors are licensed mental health professionals meeting the supervision requirements as set by the state of Illinois and with

experience and expertise with the clientele of the agency. Practicum seminar supervisors are AAMFT Approved Supervisors or Supervisor Candidates and have experience and expertise in both providing systemic therapy and supervising from a systemic perspective. This combination of supervision ensures that student therapists provide quality care to clients, as well as facilitate their growth and identity development as CFTs. Supervision by an AAMFT-Approved Supervisor or Supervisor Candidate is required in every week that students see clients throughout their clinical practicum (12 months), including breaks from instruction. This is done through the weekly practicum seminars.

The clinical practicum occurs in the second year of the program. Students spend approximately 20 hours per week for twelve months at an approved practicum site. The practicum is composed of a minimum of 350 hours of direct client contact with couples, families, individuals, and groups including a minimum of 140 relational or conjoint hours. Additionally, a minimum of 100 hours of supervision, including hours with an AAMFT-approved Supervisor or Supervisor Candidate, must be completed. Up to 100 hours of supervision can also be used toward LMFT licensure requirements in the state of Illinois. Students must maintain continuous enrollment in practicum until they have completed all practicum requirements. The Clinical Training Director of the CFT program will collaborate with students to identify the clinical experiences that meet the needs of the CFT profession and the goals of the student. Additional resources regarding clinical practicum are available in the CFT Clinical Training Manual.

CAPSTONE PROJECT

The Capstone Project required of all MCFT students consists of two parts: the Master of Arts Qualifying Exam (MAQE) and the Professional Portfolio. The Capstone Project is used as part of the evaluation of students' competencies across the programs eight Student Learning Outcomes and is completed within MCFT-512. Students only receive credit (CR) for the course once they have successfully completed and passed all parts of the Capstone Project.

Graduation Requirements

1. Successful completion of the foundational curricular areas as specified in the curriculum requirements
2. Successful completion of the foundational practice component
3. Successful completion of the capstone project including the Master's Qualifying Examination (MAQE) and professional portfolio
4. Successful completion of Social Justice Practicum I & II
5. A cumulative grade point average of 3.0 or higher and no more than two grades (or six credit hours) of C
6. Submission of completed Graduation Application and full payment of all outstanding tuition and fees
7. Demonstration of professional attitude, decorum, and ethics commensurate with the profession of couple and family therapy
8. Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Master of Arts in Couple and Family Therapy

Master of Arts in Couple and Family Therapy Course Descriptions

MCFT-505

Systemic Ethics 3 credits

This course provides students with a solid foundation for the ethical practice of therapy with individuals, couples, and families, according to the 2015 Code of Ethics of the American Association for Marriage & Family Therapy (AAMFT). In addition to the issues common to all therapists, this course will address the unique ethical, legal, and professional issues related to systemic therapy, such as working with multiple family members or combining individual with conjoint therapy. Dilemmas created by competing goals/priorities of family members, or involvement with other systems, will be highlighted. The student will learn to think ethically by employing a decision-making model to current issues in the field.

MCFT-510

CFT Professional Development Seminar

1 Credit

This professional development seminar provides MCFT students an introduction to the program and department, as well as orients students to the field of couple and family therapy. This seminar is also an opportunity for students to explore group dynamics and to build cohort connection through self of the therapist exploration.

MCFT-512

CFT Professional Identity Seminar and Capstone Project

1 Credit

This seminar is taken in the last summer semester of the program. The focus is to continue to facilitate the development of a professional identity as a Couple and Family Therapist, specifically focusing on degree completion and either clinical practice toward licensure, or beginning in a doctoral program. Students will work on their professional portfolio as part of their capstone project including the development of a resume or curriculum vitae (CV), as well as a focus on licensure paperwork. Students will also take the Master's Qualifying Examination (MAQE), also part of their capstone project, which evaluates competency as a Couple and Family Therapist. Included in this exam is assessment of practice including assessment and diagnosis, treatment design including ongoing evaluation and termination, and ethical, legal, and professional standards including clinical risk management. Specifically, students will demonstrate their competency across the program's student learning objectives (SLOs).

MCFT-513

CFT Professional Identity Seminar and Professional Portfolio

1 Credit

This seminar is taken in the last summer semester of the program. The focus is to continue to facilitate the development of a professional identity as a Couple and Family Therapist, specifically focusing on certificate completion and either clinical practice toward licensure or beginning in a doctoral program. Students will work on their professional portfolio including the development of a resume or curriculum vitae (CV), as well as a focus on licensure paperwork.

MCFT-533

Fundamentals of Adlerian Psychology and Parenting Education: Theory and Interventions

3 Credits

This course provides the couple and family therapy student with understanding of the core concepts of Adler for students to explore group dynamics and to build cohort connection through self of the therapist exploration. Competencies across the programs eight Adlerian-based approaches in working with couples and families.

MCFT-537**Group Psychotherapy****3 Credits**

The history, theory, methods, and applications of group psychotherapy are examined, discussed, and demonstrated. The development of competency in group methods is enhanced through didactic presentation, role-playing, and participation in an ongoing group. The class meets as a group in an unstructured format. Students process their experiences in the here and now. The aim is to help students become more comfortable with themselves and therefore learn to relate more effectively and creatively in the group setting.

MCFT-538**Introduction to Addictive Disorders****3 Credits**

This course is designed to provide an introduction to alcoholism, substance abuse, and other addictive disorders and an understanding of the impact of addiction on couples and families. Included is an overview of the information needed to assess, along with the treatment models of addictive disorders, and the tools to be able to recognize the signs and symptoms of substance use, misuse, abuse, dependence, dual disorders, and the mentally ill substance abuser (MISA). The understanding of the basic pharmacological, physiological, and medical aspects of chemical dependence will be included, along with the historical development of alcohol and other drug usage, self-help groups, and treatment delivery systems.

MCFT-572**Basic Skills of Therapy for CFTs****3 Credits**

Through this course, students will gain foundational assessment and intervention skills with couples, families, and individuals. The course addresses intake interviewing, introduction of the mental status exam, risk assessment, and overview of the DSM-5 approach to diagnosis. It also addresses basic counseling skills, the therapeutic relationship, common factors in psychotherapy, basics of theoretical views on human change processes, and multicultural competencies. Students learn about informed consent, confidentiality, and the importance of clinical documentation including the ability to compose cogent assessment reports and treatment plans. While basic skills are not model-specific, students are exposed to one theoretical model to show how a model is employed to gather data, develop hypotheses, plan treatment, and intervene in helping clients meet their treatment goals.

MCFT-597**Research Methods 3 Credits**

This course integrates the students' academic program of study and clinical interests with an introduction to various approaches to research design, methodology (quantitative and qualitative), and statistics. Students learn to conduct an extensive review of couple and family therapy literature and to use research findings in therapy with couples, families, and individuals.

MCFT-600**CFT Professional Identity and Practicum Seminar****2 Credits**

This seminar is taken during the summer before practicum and focuses on the development of a professional identity as a Couple and Family Therapist specifically upon the start of practicum. This focus includes an understanding of the unique qualities and clinical skills of the CFT and the scope of practice as defined by AAMFT and state licensing laws. The seminar also emphasizes the importance of membership and ongoing participation in the American Association for Marriage and Family Therapy (AAMFT) as the national professional organization for CFTs. Students receive an introduction to seminar including team observation of clinical work.

MCFT-601**CFT Practicum and Practicum Seminar****1 Credit**

Prerequisite: SJP 513, SJP 514. Students are required to actively provide therapy to couples, families, and individuals under the supervision of an on-site supervisor and their seminar instructor. Concurrent with practicum field experiences, the practicum seminar is led by an AAMFT Approved Supervisor or Supervisor Candidate and enhances the integration of theoretical and academic perspectives with clinical practice. Rotating video case presentations allow focus on intervention skills and theoretical analysis, as well as experiencing the role of case consultant. Students must continue to enroll in practicum seminar as necessary until the required hours are completed. Students must also attend practicum seminar and receive supervision in every week of their twelve-month practicum they are providing clinical services to clients, including during breaks from instruction. MCFT-601 is a one credit seminar specifically for students who begin their practicum contracts in July or August. This course, in combination with MCFT-602, replaces MCFT-605, for a total of nine credits of practicum including MCFT-603 and MCFT-604.

MCFT-602**CFT Practicum and Practicum Seminar****1 Credit**

Students are required to actively provide therapy to couples, families, and individuals under the supervision of an on-site supervisor and their seminar instructor. Concurrent with practicum field experiences, the practicum seminar is led by an AAMFT Approved Supervisor or Supervisor Candidate and enhances the integration of theoretical and academic perspectives with clinical practice. Rotating video case presentations allow focus on intervention skills and theoretical analysis, as well as experiencing the role of case consultant. Students must continue to enroll in practicum seminar as necessary until the required hours are completed. Students must also attend practicum seminar and receive supervision in every week of their twelve-month practicum they are providing clinical services to clients, including during breaks from instruction. MCFT-602 is a two credit seminar specifically for students who begin their practicum contracts in July or August and will complete their hours by the end of the following summer I term of the summer semester. This course, in combination with MCFT-601, replaces MCFT-605 for a total of nine credits of practicum including MCFT-603 and MCFT-604. Students will present a Theoretical Case (video) Demonstration and Presentation in MCFT-602.

MCFT-603**CFT Practicum and Practicum Seminar I****3 Credits****MCFT-604****CFT Practicum and Practicum Seminar II****3 Credits****MCFT-605****CFT Practicum and Practicum Seminar III****3 Credits**

Prerequisite: SJP-513, SJP-514. Students are required to actively provide therapy to couples, families, and individuals under the supervision of an on-site supervisor and their seminar instructor. Concurrent with practicum field experiences, the practicum seminar is led by an AAMFT-approved Supervisor or Supervisor Candidate and enhances the integration of theoretical and academic perspectives with clinical practice. Rotating video case presentations allow focus on intervention skills and theoretical analysis, as well as experiencing the role of case consultant. Students must present videotapes and/or audiotapes of actual sessions. Students will present their own genogram in MCFT-603 and a Theoretical Case (video) Demonstration and Presentation in MCFT-605. Students must continue to enroll in practicum seminar as necessary until the required hours are completed. Students must also attend practicum seminar and receive supervision in every week of their twelve-month practicum they are providing clinical services to clients, including during breaks from instruction and Summer II term throughout the full twelve months. MCFT-605 will meet weekly throughout Summer I and Summer II. *Note: MCFT-601 will meet in Summer II and MCFT-602 in Summer I in place of MCFT-605.*

MCFT-647**Biopsychosocial Bases of Health and Dysfunction for CFTs 3 Credits**

This class is an overview of the major DSM-5 disorders, specifically depression, anxiety, mood, psychotic, and personality disorders. The course focuses on the range of mental illnesses – from adjustment reactions to serious pathology – from a systems perspective. Topics will also include an overview of the etiology, developmental course, treatment, and policy/advocacy issues associated with each disorder, focusing on socially responsible practice.

MCFT-650**Overview of Postmodern Approaches to Couple and Family Therapy 3 Credits**

Prerequisites: MCFT-651, MCFT-662. This is an introductory course in the postmodern theory models of couple and family therapy. Several models will be covered, including solution-focused, collaborative family language systems, narrative, and feminist approaches to therapy. Discussion of each model will include history of the approach, fundamental concepts, and typical techniques of assessment and intervention. Students will be engaged in the learning process through a variety of interactional methods (e.g., role-plays and multimedia applications). Students will critique these models with consideration of power/privilege and hierarchy, gender bias, and cultural fit.

MCFT-651**Assessment and Treatment Planning with Individual and Family Systems 3 Credits**

This course explores essential concepts of systems theory including context, causality, communication, change, structure, and development to the comprehensive analysis of individual and family systems. These concepts will be applied to a range of presenting problems as well as healthy family functioning, including the impact of larger systems. Implications of systems perspectives will be explored in depth. Students will also be introduced to the genogram as an assessment tool in evaluating family systems, as well as other assessment measures.

MCFT-653**The Clinical Practice of Sex Therapy 2 Credits**

Prerequisite: MCFT-655. This course is designed to examine the diverse forms of human sexual development and sexual relationships from biopsychosocial and systems perspectives. It also studies the role of sexuality in human relationships, including varied types of committed couples. The course will introduce students to common sexual problems and issues presented by couples and individuals in therapy, as well as issues of sexuality that might present in family systems.

MCFT-654**Individual Life Span and the Family Life Cycle 3 Credits**

The individual life span is examined from a biopsychosocial perspective with a focus on normal family processes, life transitions, and their influence on individual, couple, and family issues. Multicultural issues will be addressed as they impact the transitions through different family life cycles and individual developmental markers.

MCFT-655**Couples Therapy: Theory and Techniques 3 Credits**

This is an intermediate course on the assessment and treatment of couples and must be taken concurrently with practicum. Dyadic processes pertaining to couple distress will be explored through different theoretical approaches in couple therapy, such as emotionally focused therapy, narrative therapy, and contextual therapy. Specific issues pertaining to couples' assessment and treatment will be addressed (e.g., affairs, trauma, and sexual issues).

MCFT-660**Culture and Diversity in Couple and Family Therapy 3 Credits**

This course is designed to expose students to different dimensions of culture and its interface with the practice and profession of marriage and family therapy. The course will explore race, ethnicity, socioeconomic, gender, sexual orientation, geographical variables, migration, and spirituality. Students will be encouraged to think of themselves as complex cultural beings and will be challenged to explore their inner thoughts, perceptions, beliefs, interactions, and behaviors. Particular emphasis will rest on an appreciation and application of how these issues impact students' work as family therapists.

MCFT-662**Overview of Modern Approaches to Couple and Family Therapy 3 Credits**

Prerequisite: MCFT-651. This course introduces students to the modern models of couple and family therapy. The course will review the evolution of the classic systems theories, as well as the historical development of the field of family therapy. Several approaches will be studied including strategic, structural, Bowenian, contextual, experiential, and cognitive-behavioral theories. The examination of each model will include major figures in its theoretical development, key concepts, and fundamental techniques of assessment and intervention. These models can be used in therapy with couples, families, and individuals. Students will be encouraged to critique these models with consideration of power/privilege and hierarchy, gender bias, and cultural fit.

MCFT-670**Family Therapy with Children and Adolescents 3 Credits**

This course provides students with an in-depth understanding of working with children and adolescents in the context of the family and must be taken concurrently with practicum. The course will explore concepts in child development and draw from the spectrum of family therapy models and play therapy models that aim to strengthen parent and family functioning. It will provide background in addressing the emotional, behavioral, and relational symptoms of children and adolescents, as well as treatment options for serious behavioral issues and trauma. Family therapy with special populations, such as working with LGBTQ and culturally oppressed youth, will be introduced.

MCFT-711**Couples and Families in Crisis: Forensic Work from a Systemic Perspective 1 Credit**

This one credit elective course offers insight into working with couples and families in unique crisis situations and special populations. Topics include: working with victims of intimate partner violence and when children are witnesses; persons who use violence against their partners; children with trauma reactions related to having witnessed violence; childhood sexual abuse and incest survivors; undocumented immigrants; survivors of natural disasters; first responders; and foster families.

MCFT-789**Creative Interventions with Couples and Families 1 Credit**

This course covers the Kinetic Family Drawing, Self-as-Animal, the Family Floor Plan, Sand Tray, Build-a-House, Video Play Therapy, Family Puppet Interview, Family School, and Music Therapy. This is a hands-on experiential class.

MCFT-870**International Immersion and Cross-Cultural Studies 3 Credits**

Prerequisite or concurrent enrollment in MCFT-660 or equivalent. This course will provide master's and doctoral students with a cultural-immersion experience outside of the United States. Students will be engaged in a non-clinical service-learning program for a limited period of time. The course will teach students to examine and critically think about the impact of systemic and structural barriers on health and well-being issues abroad. This will enhance students' professional values and their preparation for multicultural clinical practice. This course has additional costs including travel, room and board, and spending money.

SJP-513**Social Justice Practicum I 1 Credit**

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that begins in the fall term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. The SJP may not be waived and life credit is inadmissible to meet this requirement. *Note: During the fall term, students enrolled in the SJP attend at least two SJP workshops and complete a minimum of 50 hours upon placement at site.*

SJP-514**Social Justice Practicum II 1 Credit**

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that continues through the spring term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. Upon completing the SJP, students gain, maintain, and strengthen connections to communities by developing critical problem solving skills necessary to be socially responsible practitioners. In addition, students learn essential concepts related to civics, intersectionality, and community organizing as they are necessary to establish and enhance critical thinking to labor for social justice. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an approved SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. The SJP may not be waived and no life credit is admissible to meet this requirement.

*MCFT students may also take select elective/specials courses in the Ph.D. in Couple and Family Therapy (CFTD) program including CFTD-681, 682, 683, 728, 729, 732, 735, 736, 738, 802, 804, 805, 807, 811, 815, 821, 823, 825, 827, 831, 833, 837, 841, 843, 861, and 863.

MASTER OF ARTS IN FORENSIC MENTAL HEALTH LEADERSHIP

The Master of Arts in Forensic Mental Health Leadership program prepares individuals to become leaders, consultants and agents for change in forensic mental health and related public safety fields. Students in this program will gain personal and professional growth by learning new skills, strategies, and research driven data for dealing with the contemporary realities of mounting social problems, shifting cultural landscapes, increased public scrutiny, and the growing demand for increased accountability and transparency from the communities and stakeholders they serve.

In this program, students learn to apply contemporary leadership models and practices, individual, organizational and community based assessment and intervention skills, research and program development, consulting skills, ethical practices, and a foundation in empirically supported policies and principles that will inform your choices as leaders within forensic mental health and related public safety organizations, or as consultants to such organizations.

Program Objectives

Upon completion of this program, students will be able to:

1. Forensic Mental Health System Specialist: Perform the duties and responsibilities of a forensic mental health system specialist in a manner that assures ethnically and socially responsible delivery of services and recovery opportunities to the community.
2. Research and Evidence-Based Practice: Apply research principles and methods to formulate research for needs assessment, program development and evaluation, and evidence-based practice in response to diverse system needs in the forensic mental health and public safety field.
3. Leadership Competencies: Establish a leadership philosophy and style that capitalizes on the value of respectful interpersonal relationships and transparent group/team interactions to bring about tangible changes, innovations, and improvements in forensic and public safety organizations.
4. Consultation and Intervention Competencies: Integrate knowledge of theory, and professional literature to guide systemic case conceptualization, provide consultation and interventions, and the development of policies and strategies to promote the wellness and effectiveness of forensic mental health and public safety organizations.
5. Community Engagement and Wellbeing: Advocate for evidence-based community level policies and practices to foster community wellbeing.
6. Social, Legal, Ethical and Culturally Responsible Practice: Apply knowledge of the intersection between forensic mental health systems and related public safety agencies, and practice with reference to legal, ethical, and cultural considerations.
7. Social Responsibility/Social Justice: Determine the nature and causes of social problems (social injustices such as poverty, racism, abuse) and gain experience and skills to advocate for systemic change through engagement and leadership in multi-disciplinary, diverse forensic mental health, and related public safety organizations.
8. Adlerian Foundations and Principles: Apply principles of Adlerian Theory in forensic mental health and public safety policies, program and practices, with the goals of improving the well-being of individuals, couples, groups, families, organizations, governmental agencies, and communities.

Instructional Modality

This program is designed to be completed in 16 months on a full-time basis. Part-time student options allow students to complete the program in two to three years. Students seeking a part-time schedule must consult with the Program Director. Courses required for this program are offered in weekday and evening options; some classes are offered in a blended format (which requires students to be on campus two weekends per term).

Minimum Admission Requirements

- A baccalaureate degree earned from a regionally accredited college or university or an equivalent degree from an international college or university.
- A recommended GPA of 3.0 or higher on a 4.0 scale for undergraduate and graduate coursework. Exceptions may be made for applicants who demonstrate outstanding academic performance, academic abilities, and/or outstanding professional achievement in related fields.
- Approved applicants will be invited for an interview with faculty.

Degree Requirements

The Master of Arts in Forensic Mental Health Leadership is a 36 credit hour program that includes the following:

Core Courses (28 credit hours)

FMHL 534	Helping Skills in Coaching and Consultation	3 cr.
FMHL 535	Forensic Mental Health Responses to Maladaptive Behavior	3 cr.
FMHL 536	Forensic Mental Health Systems and Multicultural Communities	3 cr.
FMHL 600	Roles, Responsibilities, and Leadership in Forensic Mental Health and Public Safety	3 cr.
FMHL 601	Research in Program Development and Evaluation	3 cr.
FMHL 602	Organizational Consulting & Change Management	3 cr.
FMHL 603	Adlerian Principles in Community and Organizational Leadership	3 cr.
FMHL 604	Crisis, Critical Incidents, and Trauma Informed Programming and Intervention	3 cr.
FMHL 630	Addictions & Recovery Oriented Principles and Practices	3 cr.
FMHL 635	Forensic Mental Health Leadership Capstone Seminar	1 cr.

Field Experience (2 credit hours)

SJP 513	Social Justice Practicum I	1 cr.
SJP 514	Social Justice Practicum II	1 cr.

Electives (2 of the following)

FMHL 605	Conflict, Violence, Aggression and Restorative Practices	3 cr.
FMHL 606	Community Based Programming, Partnerships & Advocacy	3 cr.
FMHL 609	Counseling in Forensic Populations	3 cr.
FMHL 610	Forensic Mental Health Evaluation and Practice	3 cr.

Total Credit Hours Required: 36

Grade Requirements

1. Satisfactory completion of all required courses and seminars.
2. Satisfactory completion of Social Justice Practicum I & II.
3. Completion of Program Capstone Project.
4. A cumulative grade point average of 3.0 or higher and no more than two grades or six credit hours of C.
5. Submission of completed Graduation Application and full payment of all outstanding tuition and fees.
7. Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Master of Arts in Forensic Mental Health Leadership

Field Experience

SOCIAL JUSTICE PRACTICUM (SJP)

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline specific experiential practicum that occurs during the fall and spring terms. The SJP is an anchor of student learning at Adler University, where our academic institution and community partners unite to educate and equip students with skills to become agents of social change. The purpose of this practicum is twofold: (1) to assist community agencies in their work toward equity for all members of our community, and (2) to enable students to gain knowledge, skills, and perspectives around social justice strategies needed to build a more equitable society.

The SJP is designed to help students learn how to work alongside communities, and it serves as a catalyst for students to develop their own strengths and understand their lifelong responsibility in making a contribution toward social change and social equity. During this practicum student gain, maintain, and strengthen connection to community by developing critical problem-solving skills necessary to be socially responsible practitioners. Students must complete their practicum by the last day of spring term. SJP requirements include: (1) completion of a minimum of 200 hours; (2) attendance at a monthly Campus Community Engagement workshop; and (3) a formal SJP presentation at the Annual Community Engagement Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP.

The SJP may not be waived and life credit is not admissible to meet this requirement.

Master of Arts in Forensic Mental Health Leadership Course Descriptions

FMHL-534

Helping Skills in Coaching and Consultation

3 Credits

This course teaches basic relationship and helping skills using role-plays and other experiential activities. This course breaks down the basic concepts and skills involved in communication and helping others, including interpersonal communication principles and methods, and establishing of rapport; skills such as empathy, clarifying, summarizing and paraphrasing; the helping process; the principles of helping (self-determination, equal relationships, dignity and respect); and the differences between counseling, coaching, consultation and other helping skills. It also addresses additional skills such as appreciative inquiry, confrontation, immediacy, here-and-now processing, self-disclosure, and stages of change.

FMHL-535

Forensic Mental Health Responses to Maladaptive Behavior

3 Credits

This course will provide students with a grounding in mental health issues and community and systems-based responses for those with mental health disorders. Specifically, this course will provide an overview of the major disorders in the current edition of the DSM. A range of mental disorders from adjustment disorders to more severe and persistent disorders will be discussed. Additional topics will include an overview of the development and course of disorders, associated problematic behaviors and community challenges, and policy/advocacy issues associated with various disorders to improve socially responsible practices such as strategic community partnerships and compassionate protocols to respond to the needs of individuals with significant mental health issues. Biological, environmental, cultural, intrapersonal, and interpersonal risk and protective factors will be addressed, along with the sociocultural and theoretical critiques of limitations of diagnosis and the DSM.

FMHL-536

Forensic Mental Health Systems and Multicultural Communities

3 Credits

This course is designed to provide an operational knowledge base and skills needed for providing more effective forensic mental health and public safety services in a multicultural society. The course will cover theories, research, and practices associated with multicultural competence with an emphasis on between-group and within-group differences and the intersections of race, ethnicity, gender, religion, sexual orientation, country of origin, disability, and socioeconomic status. Students will be introduced to topics including inequity, oppression, privilege, power, racism, sexism, power, ableism, ageism, prejudice, and discrimination. The course will help students cultivate self-awareness of their own cultural identity, and awaken a greater understanding of others, which will promote ethical behaviors and values that support the provision of compassionate forensic mental health, public safety, and other human services.

FMHL-600

Roles, Responsibilities, and Leadership in Forensic Mental Health and Public Safety

3 Credits

This course will explore the historic roots of the forensic mental health and public safety professions, as well as provide clarification as to the roles, developments, professional responsibilities, legal and ethical standards, leadership styles and models, and future directions of the field. Students will be exposed to the varying areas in which the mental health professions and legal and public safety systems interact, including but not limited to: social service agencies, jails, prisons, probation, parole, law enforcement organizations, mental health agencies, and criminal, family and civil courts. The course will emphasize the role forensic mental health professionals engage in related to policy development, program development, as well as leadership and oversight, in their work with individuals, families, agencies, organizations, networks, and communities. Students will complete a course capstone assignment exploring their niche within the field and develop a career development plan.

FMHL-601**Research in Program Development and Evaluation 3 Credits**

Pre- or co-requisite: FMHL-600. In this course, students will explore the theory, methods, and practices for effective and responsive program planning that involves multi-stakeholder collaboration and ongoing evaluation. This course introduces students to research methods and program evaluation as it pertains to the field of forensic mental health and public safety professions. Major research designs including both quantitative and qualitative methods will be explored. Research procedures, such as data collection, sampling, and data analysis, and issues related to validity, reliability, and limitations of different methodical approaches to research will be discussed. In addition, the course will survey the history and development of program evaluation and introduce needs assessment related to program development, appreciative inquiry, data collection methodology, and data analysis. Ethical and culturally relevant strategies for interpreting, reporting and applying the results of research and program evaluation studies will be emphasized. This course will also focus on action research and prepare students for the capstone project as a degree requirement.

FMHL-602**Organizational Consulting & Change Management 3 Credits**

Prerequisites: FMHL-600 & FMHL-601. This course provides an analysis of structures, culture, and leadership of organizations. Much of the course addresses the theories, activities, challenges, and ethics of change management initiatives affecting individuals, work units, task groups, agencies and communities, and the role of the consultant in these processes. The course will familiarize students with organizational and group assessment techniques to use before, during, and after consultations designed to effect change. Additionally, students will learn how to evaluate various organizational interventions and choose appropriate interventions based on theory, specialized knowledge of the structure and culture of forensic mental health related organizations, and empirical research. Senge's learning organization model, appreciative inquiry, and theory of constraints are emphasized. Interwoven throughout the course is an understanding of the ethical implications of organizational interventions and enhanced cross-cultural sensitivity. Students will develop the intervention section of their action-based research capstone assignment, taking into consideration any ethical concerns with their approach to program development, and the implications of their program evaluation recommendations.

FMHL-603**Adlerian Principles in Community and Organizational Leadership 3 Credits**

Prerequisites: FMHL-600, FMHL-601 & FMHL-602. This course will apply Adlerian principles in community and organizational contexts. Students will explore the impact of Adlerian principles on quality of life for individuals, communities, and systems within diverse communities. There will be an emphasis on Adlerian principles and strength-based intervention and strategies. Students in this course will analyze contributions of Adlerian theory, and systems based conceptualizations. Students will explore theory and research on community applications of Adlerian theory as they address problems related to a range of pervasive social issues that impact the health and welfare of individuals, communities, and systems. Additionally, this course will highlight how Adlerian theory provides an effective framework for leadership and consultation.

FMHL-604**Crisis, Critical Incidents, and Trauma Informed Programming and Intervention 3 Credits**

In this course, students will explore the dynamics of crisis and crisis intervention, including the human stress response (the flight, fight, or freeze mechanism), the nature of "shock" and the signs of distress and crisis. Students will be able to recognize how the impact a crisis can have on their own wellbeing is essential to mitigating its impact on themselves, as well as those entrusted to their care. The course will equip students with the tools

they need to assess grief associated with loss and change, focusing on the elements that determine the effects of grief: the intensity of emotions, the personal values and the long-term effects connected to loss, and the resiliency needed to adapt to change. Students will also learn the principles of mental health first aid, critical incident stress management, and how to apply them in the aftermath of a traumatic event or critical incident. Emphasis will be placed on trauma informed policies, programs, and practices throughout public safety organizations and other forensic mental health related agencies.

FMHL-630**Addictions & Recovery Oriented Principles and Practices 3 Credits**

This course introduces students to a conceptual framework for understanding substance use disorders and addictions. It examines the history of alcohol and drug problems in the United States, various etiological theories and models of addiction, the role of culture in substance use and abuse, high-risk groups, the physiology and pharmacology of different types of substances, and the effects of substance abuse on individuals, families, and communities. This course will highlight how addressing the complex problem of addictions requires a multi-faceted approach and collaboration between social service agencies, public health, clinical medicine, recovery oriented systems of care, and public safety agencies at every level. Prevention initiatives such as educational workshops, overdose prevention, public awareness, harm reduction, access to recovery oriented treatment systems, medically-assisted treatment and public policy will be discussed.

FMHL-635**Forensic Mental Health Leadership Capstone Seminar 1 Credit**

Prerequisites: FMHL-600, FMHL-601 & FMHL-602. This is the capstone course for the Forensic Mental Health Leadership (FMHL) program and should be taken in the student's last semester. Students will integrate and apply the knowledge gained through the FMHL program, and showcase their developed competencies in the field as a forensic mental health and public safety professional, advocate, community leader, and consultant. Students will also further assess and work on honing their leadership skills.

FIELD EXPERIENCE (2 CREDIT HOURS)**SJP-513****Social Justice Practicum I 1 Credit**

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline specific experiential practicum that begins in the Fall Term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members.

All students must complete the SJP before advancing onto any clinical or discipline specific training, respective of the program in which they are enrolled. SJP requirements include: 1) completion of a minimum of 200 hours at an SJP site; 2) attendance at a monthly, campus-based SJP workshop; and 3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the mid-term and final evaluation to receive credit for completing the SJP. The SJP may not be waived and no life credit is admissible to meet this requirement. *During the Fall Term students enrolled in the SJP must attend at least 2 SJP Workshops and complete a minimum of 50 hours upon placement at site.

SJP-514**Social Justice Practicum II****1 Credit**

Pre-requisites: SJP-513. The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline specific experiential practicum that continues through the Spring Term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities which is an anchor of student learning at Adler University. Upon completing the SJP students gain, maintain, and strengthen connections to communities by developing critical problem-solving skills necessary to be socially responsible practitioners. In addition, students learn essential concepts related to civics, intersectionality, and community organizing as they are necessary to establish and enhance critical thinking to labor for social justice.

ELECTIVE COURSES (6 CREDIT HOURS TOTAL)**FMHL-605****Conflict, Violence, Aggression and Restorative Practices****3 Credits**

This course explores the psychosocial, political, and economic systems that influence behavior and the role they each play in the development of conflict, aggression, violence, and social deviance. Students will learn evidence based organizational and community level policies, programs and practices such as inter-agency collaboration, nonviolent communication, restorative justice, peace circles, and community policing that promote a fair, humane, and effective forensic mental health system, and foster community wellbeing. This course will provide experience in the circle process as well as an understanding of the foundational values and key structural elements for designing and conducting peacemaking circles. The class will prepare students to design and facilitate peacemaking circles in a variety of situations. Restorative Justice practice-based interventions in the workplace, schools, law enforcement, prisons, religious institutions, community gang and public violence, and in transforming historical harms will be emphasized.

FMHL-606**Community Based Programming, Partnerships & Advocacy****3 Credits**

This course will explore community based programming and social innovation using a wide range of tools, techniques, and methods intended to unleash creative solutions to deeply rooted community based challenges. Students will be introduced to the Innovator's Journey as a framework for social innovation tools and to transform the way they view community based problems. Students will learn from individual cases, as well as from the perspectives and experiences other participants bring into the course. Students will learn to define and redefine problems within a larger context using whole-systems thinking tools such as causal mapping, the adaptive cycle, and stakeholder mapping. Developing strategic partnerships are an important component of community advocacy efforts. Partners can enhance community engagement in projects, increase community awareness of the issues being addressed, and establish a framework for the continued support of policies, programs, and practices that enhance community well-being.

FMHL-609**Counseling in Forensic Populations****3 Credits**

This course exposes students to the wide gamut of approaches utilized in the treatment and rehabilitation of offenders, with attention given to the evaluation of their effectiveness. The course also explores the complexities of assessing and treating various mental health diagnoses and conditions within forensic settings. Further, this course examines the counseling theories related to the etiology, development, treatment, and prediction of violent crimes, as well the evidence based interventions within the criminal justice system and other forensic mental health contexts.

FMHL-610**Forensic Mental Health Evaluation and Practice****3 Credits**

This course prepares students to be forensic mental health evaluators. It focuses on the role of forensic mental health counselors and evaluators in legal processes relating to family violence, child custody, sex offenders, juvenile justice, and other judiciary issues in both criminal and specialized courts. Students will be provided opportunities to apply skills in forensic interviewing, designing protocols to address common referrals from the court/legal system, and conducting specialized assessment procedures/instruments including risk assessments. Students will learn about multidisciplinary collaboration in the areas of providing expert testimony, mitigation, mediation, treatment, and multidisciplinary collaboration. This course guides students through a series of applied assignments that include designing a protocol to address a forensic mental health referral from the court, conducting forensic interviews, administering assessment procedures, interpreting data, report writing, trial preparation, and providing testimony in a mock court.

MASTER OF SCIENCE IN SPORT AND HUMAN PERFORMANCE

Program Mission

The Master of Science in Sport & Human Performance (MSHP) provides students with a comprehensive foundation in theories and methods of mental skills training. The MSHP program offers the best features of graduate counseling education with sport and human performance coupled with Adler University's emphasis on socially responsible practice. Mental performance consultants with specialized training will be able to work with individuals who wish to maximize their psychological well-being and sport performance. Graduates are employed within health promotion programs, high school and university athletic departments, amateur and professional sport programs, physical rehabilitation centers, community health and recreation agencies, retirement communities, and medical facilities.

Sport Psychology Certification

Successful completion of this program will prepare graduates to apply for the Certified Mental Performance Consultant (CMPC; appliedsportpsych.org), which requires a 400-hour mentored experience.

Program Overview

The Master of Science in Sport & Human Performance:

- A comprehensive curriculum including supervised field experiences totaling 38 credit hours.
- The Social Justice Practicum, a social responsibility immersion experience created to develop an identity in graduates as social justice advocates and agents of social change (200 hours total).

A sport and human performance field training experience is required for graduation. In order to earn CMPC credentialing, students need to earn a total of 400 hours.

Sport & Human Performance Learning Objectives

Sport & Human Performance: Demonstrate an ability to conduct evidence-based and ethical practice with (a) the knowledge of the psychological constructs, theories, and related assessments of human performance; and (b) the ability to implement performance enhancement strategies and techniques.

Sport Science & Psychological Foundations: Demonstrate an ability to connect the symbiotic relationship between the physiological and psychological aspects of sport and human performance in order to develop a multidisciplinary approach to case conceptualization and intervention strategies for collaboration and/or consultation.

Helping Skills: Apply theories and skills to counsel diverse client populations and be familiar with clinical issues and diagnoses with ethical and multicultural considerations.

Research and Evidence-based Practice: Develop a proficiency in evaluating literature, research methods, and interpretation of research results and apply evidence-based practice in sport and human performance consultation.

Sport Consultation: Demonstrate the ability to conduct sport and human performance consultation, and accurately evaluate delivery methods and the effectiveness of psychological skills programming (i.e., case conceptualization, assessment, treatment planning and implementation) for individual, team/group, leaders, and/or organizations.

Adlerian Foundations and Principles: Apply principles of Adlerian theory such as purposiveness of behavior, the indivisible self, goal-directed behavior, and the role of social interest in counseling and treatment planning with the goals to improve well-being of individuals, couples, groups, families, and a diverse society.

Social Justice/Social Responsibility: Reflect on personal values and assumptions (privileges, disadvantages, etc.) about the nature and causes of social problems (as poverty, racism, abuse) and gain experience and skills to advocate for systemic change through engagement and leadership in multidisciplinary, diverse community-based organizations.

Instructional Modality

This program is designed to be flexible and completed in as little as two years with exceptions for students with extenuating circumstances. Students seeking a part-time or expedited schedule must consult with the Program Director. Courses are offered in a variety of formats: weekday and evening on campus, or a blended online format that includes two weekends of on-campus class meetings.

Minimum Program Admission Requirements

Applicants to this program are required to have:

- A baccalaureate degree earned from a college or university regionally accredited by a nationally recognized accrediting agency or an equivalent degree from an international college or university.
- A minimum grade point average of 3.0 or higher on a 4.0 scale for undergraduate and graduate coursework.
- Exceptions may be made for applicants who demonstrate improved academic performance or academic ability in other ways.

Approved applicants will be invited for a personal interview as the final step in the application process.

Degree Requirements

Core Courses

*COUN-532	Professional, Legal, and Ethical Issues in Counseling	3 cr.
*COUN-534	Counseling Skills	3 cr.
*COUN-535	Diagnosis of Maladaptive Behaviors	3 cr.
COUN-536	Counseling Multicultural Communities	3 cr.
*COUN-540	Group Counseling	3 cr.
COUN-625	Research and Program Evaluation	3 cr.
**MSHP-539	Introduction to Sport and Human Performance	3 cr.
MSHP-636	Biopsychosocial Aspects of Human Behavior	3 cr.
**MSHP-645	Contemporary Issues in Cultural Sport Psychology	3 cr.
**MSHP-652	Advanced Techniques in Sport and Human Performance	3 cr.

Field Training and Seminars

*SJP-513	Social Justice Practicum I	1 cr.
*SJP-514	Social Justice Practicum II	1 cr.
MSHP -681	Sport and Human Performance Externship and Seminar I	1 cr.
MSHP -683	Sport and Human Performance Externship and Seminar II	1 cr.
MSHP -685	Sport and Human Performance Externship and Seminar III	1 cr.
MSHP -687	Continuation in Sport Externship	0 cr.
	Elective (Choose one from the following list)	3 cr.

*Courses denoted with an asterisk are counseling practicum prerequisites, which students need to complete prior to their counseling practicum.

**Courses denoted with two asterisks are sport externship prerequisites, which students need to complete prior to their sport externship. Students are required to attain a grade of B or higher in these courses. Students will need to retake the courses with a B- or lower grade prior to, or concurrently with, their practicum and attain the required grade.

Electives (3 credit hours)

Students are required to take an elective of three credit hours. If students do not have an upper-level undergraduate exercise physiology, biomechanics, or kinesiology course (as required by standard K3 Sport Science for the CMPC credential), students are encouraged to take MSHP-560 – Motor Behavior & Skill Acquisition as their elective.

MSHP-560	Motor Behavior & Skill Acquisition	3 cr.
MSHP-648	Business Development in Sport and Health Psychology	3 cr.
MSHP 650	Special Topics in Sport & Human Performance	3 cr.

Total Credit Hours Required: 38

Graduation Requirements

1. Satisfactory completion of all required courses and seminars
2. Satisfactory completion of Social Justice Practicum I & II
3. Satisfactory completion of the MSHP Externship.
4. A cumulative grade point average of 3.0 or higher and no more than two grades or six credit hours of C in courses other than practicum prerequisites.
5. Submission of completed Graduation Application and full payment of all outstanding tuition and fees.
6. Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Master of Science in Sport & Human Performance

Professional Practice and Field Training**SOCIAL JUSTICE PRACTICUM (SJP)**

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that occurs during the fall and spring terms. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside the community as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. Upon completing the SJP, students gain, maintain, and strengthen connections to communities by developing critical problem solving skills necessary to be socially responsible practitioners. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled.

SJP requirements include: (1) completion of a minimum of 200 hours at an approved SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. The SJP may not be waived and life credit is not admissible to meet this requirement.

SPORT AND HUMAN PERFORMANCE EXTERNSHIP

Students will complete an externship in a setting that allows them to focus on the delivery of sport and performance services. The externship experience involves students providing sport- and performance-related consulting while having the mentorship of a sport psychology consultant (CMPC) who is certified by the Association of Applied Sport Psychology (AASP). An externship provides students the opportunity to work with athletes, teams, coaches, and exercisers in workshop and individual settings. The Training Coordinator will assist students with the externship application process that is outlined in the MSHP Externship Handbook. A copy of this manual may be downloaded from the Adler Connect portal at connect.adler.edu or from the MSHP Training Coordinator or Program Director.

AASP CREDENTIALING REQUIREMENT

Certified Mental Performance Consultant Credentialing requires 400 hours of experience to be completed prior to applying for certification. To be considered for CMPC, students must complete the following:

1. Acquire a minimum of 400 total hours of mentored experience spent in preparation and delivery of sport and/or performance services. Note that only 150 hours of the total 400 certification hours can be preparation hours, while a minimum of 200 of the total hours must be direct contact with individuals and/or groups.
2. Obtain a minimum of 50 of the total hours in mentorship from a certified (CMPC) mentor with a minimum of 10 hours of live or video recorded observation.

Master of Arts in Counseling: Specialization in Sport and Health Course Descriptions

Please note that this list includes only courses with the MASH prefix. Counseling (COUN) courses will be reviewed within your department.

MSHP-539**Introduction to Sport & Human Performance****3 Credits**

This foundational course is designed to help students understand the origins and functions of the related fields of sport and human performance. It will include a historical analysis of the creation of sport psychology, tracing its roots to exercise science and cognitive-behavioral theory. Professional organizations focused on both areas will be discussed (e.g., Association for Applied Sport Psychology [AASP], U. S. Olympic Committee Sport Psychology & Mental Training Registry, American Psychological Association Division 47-Sport, Exercise & Performance Psychology). Issues that impact sport and mental performance will be considered, such as personality, motivation, and stress. Theoretical foundations and evidence-based research on improving human performance that include arousal regulation, imagery, goal-setting, self-monitoring, stress management, and problem solving will be reviewed. The impact of physical activity on overall health, psychological well-being, and performance (e.g., obesity, smoking cessation) will be considered.

MSHP-636**Biopsychosocial Aspects of Human Behavior****3 Credits**

The course objectives are to: make the student aware of pertinent gross and microscopic human neuroanatomy; to build a foundational understanding of neurophysiology and the biology of the nerve; and to become familiar with a variety of clinical, sport, and health issues as they relate to neurophysiology. Areas of emphasis will include attention, memory, knowledge, language, reasoning, problem solving, the cognitive bases of affect and consciousness, human learning, and theories of motivation with a particular emphasis on sport and health. The relevance of these topics to counseling and change, as well as the possible impact of social issues on course topics, will also be examined. The role of environmental and ecological factors on biological functioning will be discussed to promote socially responsible, professional practice.

MSHP-645**Contemporary Issues in Cultural Sport Psychology****3 Credits**

This course examines the historical, social, and cultural factors influencing sport and physical activity. Pertinent cultural issues, theories, and research applications will be considered in the scholarly pursuit of knowledge and understanding of the sociological influences on sport, exercise, and physical activity. Students will acquire skills in examining multiple sides of an issue and learn how to utilize conflict management skills when broaching sociological and cultural issues present in sport, exercise, and physical activity.

MSHP-652**Advanced Techniques in Sport & Human Performance 3 Credits**

Prerequisite: Social Justice Practicum-513, Social Justice Practicum-514, COUN-532 Professional, Legal, & Ethical Issues, COUN-534 Helping Skills, COUN-535 Diagnosis of Maladaptive Behavior, COUN-536 Counseling Multicultural Communities, COUN-540 Group Counseling, MSHP-539 Introduction to Sport & Human Performance, MSHP-636 Biopsychosocial Aspects of Sport & Human Performance, MASH-539 Introduction to Sports & Human Performance. Advanced Techniques is a course designed to provide opportunities for students to develop psychological interventions for performance enhancement. Students will engage in the scientist-practitioner model and begin to acquire and implement psychological skills training for athletes and performing populations such as goal-setting, visualization, positive and productive self-talk, confidence, and arousal management for optimal human performance development. Students will be able to develop and deliver sport and human performance services under the mentorship of a sport psychology consultant who is certified by the Association for Applied Sport Psychology (CMPC). Students will receive feedback on their interventions with clients and credit towards CMPC credentialing during the course in preparation for externship.

MSHP-650**Special Topics in Sport & Human Performance 3 Credits Elective**

The course covers essential knowledge and skills necessary for professionals to begin to specialize within the field of sport and human performance. Students will be able to develop skills specific to special populations and engage in workshop development, create marketing plans, and advertising strategies. Students will begin the process of developing a professional brand through the creation of flyers, websites, workshops, and speeches. Pertinent ethical considerations will also be examined. Topics may include Psychology of Injury, Youth Development in Sport, Business Development in Sport, Exercise Psychology, and Psychology of Performance Excellence.

MSHP-681**Sport & Performance Externship Seminar I 1 Credit**

Prerequisites: COUN 534, 535, 536, 540; MSHP 539, 636, 652. Externship field placement includes delivery of sport and human performance services under the mentorship of a sport psychology consultant who is certified by the Association for Applied Sport Psychology (CMPC). The field experience is paired with a seminar during which students utilize a peer consultation model to develop skills related to sport and health psychology and professional development.

MSHP-683**Sport & Performance Externship Seminar II 1 Credit**

Prerequisites: MSHP-681 Sports & Performance Externship Seminar I. The second term of externship field placement includes delivery of sport and human performance services under the mentorship of a sport psychology consultant who is certified by the Association for Applied Sport Psychology (CMPC). The field experience is paired with a seminar during which students utilize a peer consultation model to develop skills related to sport and health psychology and professional development.

MSHP-685**Sport & Performance Externship Seminar III 1 Credit**

Prerequisites: MSHP-681 Sports & Performance Externship Seminar I & MSHP-683 Sports & Performance Externship Seminar II. The third term of externship field placement includes delivery of sport and human performance services under the mentorship of a sport psychology consultant who is certified by the Association for Applied Sport Psychology (CMPC). The field experience is paired with a seminar during which students utilize a peer consultation model to develop skills related to sport and health psychology and professional development. The focus is on the development of knowledge, skills, and values needed to provide competent and ethical

counseling. In addition, students will: (a) present a case including an audiotape and an analysis of key interchanges within the session presented; provide a written case conceptualization and treatment plan, integration of research with the clinical case, and an examination of social issues pertinent to the clinical case; and (c) make an oral presentation of the case. Students' performance on both the written and oral portions is incorporated into the final student evaluation. Students who fail to pass on the second attempt are subject to dismissal from the University.

MSHP-687**Continuation in Sport Externship 0 Credit**

Prerequisites: MSHP 681, 683, & 685 Externship Series. Students are required to register for this course to continue to accumulate hours towards certification as a mental performance consultant beyond Externship III. This seminar will continue to provide students with support, faculty mentorship, and peer consultation opportunities. At the conclusion of the externship, students should be able to demonstrate competencies enabling them to be culturally, ethically, and socially responsible entry-level practitioners. The course may be repeated as long as the student is enrolled in courses that are required for graduation. There is a fee associated with this course. Students will need the approval from the Sport and Human Performance Training Coordinator or Program Director to register for this course.

MSHP-560 Motor Behavior & Skill Acquisition**3 Credits**

This course is designed to help students understand the theories and principles explaining the performance and learning of skilled actions. Emphasis will be placed on the consideration of how factors related to the learner, the task, and the performance context influence instructional decisions. Topics will include skill acquisition, practice scheduling, feedback, stages of learning, as well as current research and methodology.

MSHP-648**Business Development in Sport and Health Psychology 3 Credits**

This course covers essential business knowledge and skills necessary for professionals in the field of sport and health psychology. Students will have the opportunity to create marketing plans and advertising strategies. Applied experiences developing and negotiating contracts as well as discussing pricing concerns will be provided. Students will begin the process of developing a professional brand through the creation of flyers, websites, workshops, and speeches. Pertinent ethical considerations will also be examined.

MSHP-650**Special Topics in Sport & Human Performance 3 Credits**

This course provides students with theory and application of principles related to sport and performance in a variety of disciplines. Current research relevant to student interests related to performance consulting will be discussed. Students will be able to develop skills specific to special populations, engage in workshop development for a variety of performers, and implement current research and best practices. Pertinent ethical considerations will also be examined. Topics may include: Motor Behavior & Skill Acquisition; Psychology of Injury; Youth Development in Sport; Business Development in Sport; Exercise Psychology; and Psychology of Performance Excellence.

MSHP-681**Sport and Performance Externship and Seminar I 1 Credit**

Prerequisites: MSHP-539, MASH-540. Externship field placement includes delivery of sport and human performance services under the mentorship of a sport psychology consultant who is certified by the Association for Applied Sport Psychology (CMPC). The field experience is paired with a seminar during which students utilize a peer consultation model to develop skills related to sport and health psychology and professional development.

MSHP-683**Sport and Performance Externship and Seminar II****1 Credit**

Prerequisite: MSHP-681. The second term of externship field placement includes delivery of sport and human performance services under the mentorship of a sport psychology consultant who is certified by the Association for Applied Sport Psychology (CMPC). The field experience is paired with a seminar during which students utilize a peer consultation model to develop skills related to sport and health psychology and professional development.

MSHP-685**Sport and Performance Externship and Seminar III****1 Credit**

Prerequisites: MSHP-681, MSHP-683. The continuation of externship field placement includes delivery of sport and human performance services under the mentorship of a sport psychology consultant who is certified by the Association for Applied Sport Psychology (CMPC). The field experience is paired with a seminar during which students utilize a peer consultation model to develop skills related to sport and health psychology and professional development.

SJP-513**Social Justice Practicum I****1 Credit**

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that begins in the fall term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. The SJP may not be waived and life credit is inadmissible to meet this requirement. *Note: During the fall term, students enrolled in the SJP attend at least two SJP workshops and complete a minimum of 50 hours upon placement at site.*

SJP-514**Social Justice Practicum II****1 Credit**

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that continues through the spring term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. Upon completing the SJP, students gain, maintain, and strengthen connections to communities by developing critical problem-solving skills necessary to be socially responsible practitioners. In addition, students learn essential concepts related to civics, intersectionality, and community organizing as they are necessary to establish and enhance critical thinking to labor for social justice. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an approved SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP.

DUAL DEGREE PROGRAMS

The Chicago campus of Adler University has developed dual degree programs to allow students the opportunity to pursue degrees in two different fields of study simultaneously. Students in dual degree programs may have a limited number of credit hours dually recognized toward the requirements of both degrees. These dually recognized courses may not be available for all dual degree options and do not apply to certificate programs.

Dual Degrees in MASTER OF SCIENCE IN SPORT AND HUMAN PERFORMANCE (MSHP) and MASTER OF ART IN COUNSELING: SPECIALIZATION IN REHABILITATION COUNSELING (MACR)

(Offered by Department of Counseling and Integrated Programs)

This dual degree option prepares clinicians to improve quality of life for individuals who face physical, developmental, and emotional challenges. Trained to confront systemic barriers and increase opportunities for inclusion, our graduates are well equipped to empower people with disabilities in a wide range of settings. Our immersive learning environment prepares students to work not only with individuals with disabilities, but also communities in addressing challenges stemming from disability, including employers, family members, education professionals, and others. Our Rehabilitation Counseling training revolves around three core elements: ethical behavior, diversity or individual differences, and critical thinking. Rigorous coursework and real-world experience focus students on creating positive social change – all led by experts in the field.

Accreditation, Licensure & Certification

Adler's M.A. in Counseling: Specialization in Rehabilitation Counseling program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Graduation from a CACREP-accredited program helps students meet the academic counselor licensure requirements of many state counseling boards. In addition, program graduates are qualified to sit for the Certified Rehabilitation Counselor (CRC) exam, a national certification. Students wishing to seek licensure are strongly encouraged to research the requirements to sit for licensure for each state or province in which they wish to practice.

In particular, Graduates of the program are eligible to apply for the following credentials:

- Certified Rehabilitation Counselor (CRC), a nationally recognized credential.
- The Licensed Professional Counselor (LPC) credential in the state of Illinois.
- The Licensed Clinical Professional Counselor (LCPC) credential in Illinois, upon completing all necessary post-graduate training and supervised experiences.

Graduates of the MACR program are also eligible to take part in the National Certified Counselor (NCC) credential, after successful passage of the National Counselor Examination (NCE) and completion of required experiences.

The dual degrees include specialized courses in sport psychology and externship opportunities to promote certification with the Association for Applied Sport Psychology (AASP). Students can gain practical experience to be eligible for the Certified Mental Performance Consultant (CMPC) credential once they complete this program. Faculty members are active in their respective areas of expertise and engage with students to promote opportunities for professional development in the field as well as at state and national conferences.

MSHP – MACR Dual Degree Program Overview

- A comprehensive curriculum covers both degrees including supervised field experiences totaling 77 credit hours
- The Social Justice Practicum, a social responsibility immersion experience created to develop an identity in graduates as social justice advocates and agents of social change (200 hours total)

- A sport and human performance field training experience, a minimum of 400 hours of externship, for CMPC credentialing
- Rehabilitation counseling clinical field experiences include a supervised practicum (100 hours) and internship (600 hours). Through our vast network of community partners, students are able to complete their practical training in a variety of settings.
- The MACR Comprehensive Examination

Full-Time or Part-Time Learning Schedule

The class offerings are designed to meet the needs of students who desire a full-time three-year track or a part-time four-year learning schedule.

Minimum Admission Requirements

Applicants to this program are required to have:

- A baccalaureate degree earned from a college or university regionally accredited by a nationally recognized accrediting agency or an equivalent degree from an international college or university.
- A minimum grade point average of 3.0 or higher on a 4.0 scale for undergraduate and graduate coursework.
- Exceptions may be made for applicants who demonstrate improved academic performance or academic ability in other ways.
- Applicants must be accepted into both programs.
- Approved applicants of the dual degree program will be invited for personal interviews with program faculty of each program as the final step in the application process.

Dual Degree (MSHP – MACR) Degree Requirements

Core Courses

COUN-518	Adlerian Theory and Counseling	3 cr.
*#COUN-532	Professional, Legal, and Ethical Issues in Counseling	3 cr.
*COUN-533	Counseling Theories	3 cr.
*#COUN-534	Counseling Skills	3 cr.
*#COUN-535	Diagnosis of Maladaptive Behavior	3 cr.
*#COUN-536	Counseling Multicultural Communities	3 cr.
*#COUN-540	Group Counseling	3 cr.
COUN-618	Couple and Family Counseling	3 cr.
COUN-622	Human Growth and Development	3 cr.
#COUN-625	Research and Program Evaluation	3 cr.
COUN-626	Appraisal and Assessment	3 cr.
COUN-630	Addictions Counseling	3 cr.
CMHC-615	Crisis Intervention and Trauma Counseling	3 cr.
MACR-500	Foundations of Rehabilitation Counseling	3 cr.
MACR-502	Medical and Psychosocial Aspects of Disability	3 cr.
MACR-642	Career Development, Vocational Rehabilitation & Job Placement.	3 cr.
MACR-644	Treatment Planning, Intervention, and Advocacy	3 cr.
** MSHP-539	Introduction to Sport & Human Performance	3 cr.

** MSHP-636	Biopsychosocial Aspects of Human Behavior	3 cr.
MSHP-645	Contemporary Issues in Cultural Sport Psychology	3 cr.
** MSHP-652	Advanced Techniques in Sport & Human Performance	3 cr.

MACR Elective (3 credit hours)

Students can use one of the FMHL courses listed above as their MACR elective, or choose a course Counseling and Integrated Programs Department (CIP) Elective Menu provided in their program of study/ advisement sheet.

MSHP Electives (3 credit hours)

Students are required to take an elective of three credit hours. If students do not have an upper-level undergraduate exercise physiology, biomechanics, or kinesiology course (as required by standard K3 Sport Science for the CMPC credential), students are encouraged to take MSHP-560 – Motor Behavior & Skill Acquisition as their elective.

MSHP-560	Motor Behavior & Skill Acquisition	3 cr.
MSHP-648	Business Development in Sport and Health Psychology	3 cr.
MSHP 650	Special Topics in Sport & Human Performance	3 cr.

Field Training and Seminars

*# SJP-513	Social Justice Practicum I	1 cr.
*# SJP-514	Social Justice Practicum II	1 cr.
MACR-557	MACR Practicum and Seminar	2 cr.
MACR-657	MACR Internship and Seminar I	2 cr.
MACR-658	MACR Internship and Seminar II	2 cr.
MSHP-681	Sport and Human Performance Externship and Seminar I	1 cr.
MSHP-683	Sport and Human Performance Externship and Seminar II	1 cr.
MSHP-685	Sport and Human Performance Externship and Seminar III	1 cr.

MACR Comprehensive Exam

MACR-995	Comprehensive Exam	0 cr.
----------	--------------------	-------

*Courses denoted with an asterisk are counseling practicum prerequisites, which students need to complete prior to their counseling practicum. Students are required to attain a grade of B or higher in these courses. Students will need to retake the courses with a B- or lower grade prior to, or concurrently with their practicum, and attain the required grade.

**Courses denoted with two asterisks are sport externship prerequisites, which students need to complete prior to their sport externship. Students are required to attain a grade of B or higher in these courses. Students will need to retake the courses with a B- or lower grade prior to, or concurrently with, their practicum and attain the required grade

#Courses denoted with the # sign are recognized by both degrees.

Professional Practice and Field Training

- Both MACR and MSHP programs require students' completion of the social justice practicum, which will be recognized by both programs.
- MACR requires students' completion of counseling practicum (a minimum of 100 clock hours) and internship (a minimum of 600 clock hours).
- MASH requires students' completion of Sport and Human Performance Externship.

Note: For details of program specific field training experiences, refer back to individual program information in this catalog.

MSHP – MACR Dual Degree Graduation Requirements

- Satisfactory completion of all required courses and seminars
- Satisfactory completion of Social Justice Practicum I & II
- Satisfactory completion of a minimum of 100 hours of practicum and 600 hours of internship in the MACR program
- Satisfactory completion of the MSHP externship
- A cumulative grade point average of 3.0 or higher and no more than two grades or six credit hours of C in courses other than practicum prerequisites
- Passing grade on the MACR Comprehensive Examination
- Submission of completed Graduation Application and full payment of all outstanding tuition and fees
- Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Master of Science in Sport & Human Performance and the Master of Art in Counseling: Specialization in Rehabilitation Counseling

Note: Also refer to specification to the individual program information in this catalog.

Course Descriptions

See each program's information section for a list of course descriptions.

Dual Degrees in MASTER OF SCIENCE IN SPORT AND HUMAN PERFORMANCE (MSHP) and MASTER OF ARTS IN COUNSELING: SPECIALIZATION IN CLINICAL MENTAL HEALTH COUNSELING (CMHC)

(Offered by the Department of Counseling and Integrated Programs)

This dual degree option prepares graduates to work with a range of clients who struggle with issues regarding mental health and wellness in relation to achieving peak performance. This unique Dual Degree program provides students a comprehensive foundation in clinical mental health counseling as well as mental skills training that leads to psychological well-being and optimal performance. This dual degree program also allows a range of dynamic career paths in both clinical mental health and sport and human performance fields. Students will also learn about utilizing their training in both areas to promote social justice and advocate for clients with diverse backgrounds and clinical issues.

Accreditation, Licensure and Certification

Adler's M.A. in Counseling: Specialization in Clinical Mental Health Counseling is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Graduation from a CACREP-accredited program helps students meet the academic and field training counselor licensure requirements of many state counseling boards. Students wishing to seek licensure are strongly encouraged to research the requirements to sit for licensure for each state or province in which they wish to practice. Graduates of the CMHC program are also eligible to take part in the National Certified Counselor (NCC) credential, after successful passage of the National Counselor Examination (NCE) and completion of required experiences.

In particular, Graduates of the program are eligible to apply for the following credentials:

- The Licensed Professional Counselor (LPC) credential in the state of Illinois.
- The Licensed Clinical Professional Counselor (LCPC) credential in Illinois, upon completing all necessary post-graduate training and supervised experiences.

The MSHP program offers specialized courses in sport psychology and externship opportunities to enable students to attain certification with the Association for Applied Sport Psychology (AASP). Students can gain practical experience to be eligible to take the certification exam once they complete this program.

- Certified Mental Performance Consultant (CMPC)

MSHP - CMHC Dual Degree Program Overview

- A comprehensive curriculum of both degrees including supervised field experiences totaling 74 credit hours
- The Social Justice Practicum, a social responsibility immersion experience created to develop an identity in graduates as social justice advocates and agents of social change (200 hours total)
- A sport and human performance field training experience (MSHP Externship)
- The Clinical Mental Health clinical field experiences include supervised practicum (100 hours) and internship (600 hours). Through our vast network of community partners, students are able to complete their practical training in a variety of settings.
- A CMHC Comprehensive Examination

Full-Time or Part-Time Learning Schedule

The class offerings are designed to meet the needs of students who desire a full-time three-year track or a part-time four-year learning schedule.

Minimum Admission Requirements

Applicants to this program are required to have:

- A baccalaureate degree earned from a college or university regionally accredited by a nationally recognized accrediting agency or an equivalent degree from an international college or university.
- A minimum grade point average of 3.0 or higher on a 4.0 scale for undergraduate and graduate coursework.
- Exceptions may be made for applicants who demonstrate improved academic performance or academic ability in other ways.
- Applicants must be accepted into both programs.
- Approved applicants of the dual degree program will be invited for personal interviews with program faculty of each program as the final step in the application process.

Dual Degrees in MASTER OF ARTS IN FORENSIC MENTAL HEALTH LEADERSHIP (FMHL) and MASTER OF ARTS IN COUNSELING: SPECIALIZATION IN REHABILITATION COUNSELING (MACR)

(Offered by the Department of Counseling and Integrated Programs)

This dual degree option prepares graduates to improve quality of life for individuals who face physical, behavioral, developmental, and emotional challenges. Trained to confront systemic barriers and increase opportunities for inclusion, our graduates are well equipped to empower populations such as the elderly, veterans, and people with disabilities in a wide range of settings. The forensic distinctions offered in the dual degree program will also prepare graduates to work as mental health counselors with individuals, families, and systems that interface with the legal and criminal justice arena. Our aim is to prepare clinicians who will be able to assess, treat, consult, and apply a full array of counseling services in forensic and correctional settings.

The dual degree option also uniquely qualifies graduates to conduct specialized evaluations and provide expert witness and consultant services to the courts in a variety of civil litigation venues, including: personal injury; product liability; Worker's Compensation; Social Security disability; employment law; discrimination; catastrophic injury with a Life Care Plan; professional malpractice; divorce; wrongful death of an adult or child; and other related areas.

Our immersive learning environment prepares students to work not only with individuals with disabilities, but also communities in addressing challenges stemming from disability, including employers, family members, education professionals, and others. Our Rehabilitation Counseling training revolves around three core elements: ethical behavior, diversity or individual differences, and critical thinking. Rigorous coursework and real-world experience focus students on creating positive social change – all led by experts in the field.

Accreditation, Licensure & Certification

Adler's M.A. in Counseling: Specialization in Rehabilitation Counseling program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Graduation from a CACREP-accredited program helps students meet the academic counselor licensure requirements of many state counseling boards. In addition, program graduates are qualified to sit for the Certified Rehabilitation Counselor (CRC) exam, a national certification. Students wishing to seek licensure are strongly encouraged to research the requirements to sit for licensure for each state or province in which they wish to practice.

In particular, Graduates of the program are eligible to apply for the following credentials:

- Certified Rehabilitation Counselor (CRC), a nationally recognized credential
- The Licensed Professional Counselor (LPC) credential in the state of Illinois
- The Licensed Clinical Professional Counselor (LCPC) credential in Illinois, upon completing all necessary post-graduate training and supervised experiences

Graduates of the MACR program are also eligible to take part in the National Certified Counselor (NCC) credential, after successful passage of the National Counselor Examination (NCE) and completion of required experiences.

We offer specialized courses in forensic mental health leadership and specialized practicum experiences to promote certification eligibility to pursue national certification as a Forensic Mental Health Evaluator through The National Board of Forensic Evaluators.

FMHL – MACR Program Overview

- A comprehensive curriculum on both degrees including supervised field experiences totaling 78 credit hours
- The Social Justice Practicum, a social responsibility immersion experience created to develop an identity in graduates as social justice advocates and agents of social change (200 hours total)
- The MACR clinical field experience is conducted through a supervised practicum (100 hours) and internship (600 hours). Through our vast network of community partners, students are able to complete their practical training in a variety of settings.
- A MACR Comprehensive Examination

Full-Time or Part-Time Learning Schedule

The class offerings are designed to meet the needs of students who desire a full-time 28-month track or a part-time three and four-year learning schedule.

Minimum Admission Requirements

Applicants to this program are required to have:

- A baccalaureate degree earned from a college or university regionally accredited by a nationally recognized accrediting agency or an equivalent degree from an international college or university.
- A minimum grade point average of 3.0 or higher on a 4.0 scale for undergraduate and graduate coursework.
- Exceptions may be made for applicants who demonstrate improved academic performance or academic ability in other ways.
- Applicants must be accepted into both programs.
- Approved applicants of the dual degree program will be invited for personal interviews with program faculty of each program as the final step in the application process.

Dual Degrees in MASTER OF ARTS IN FORENSIC MENTAL HEALTH LEADERSHIP (FMHL) and MASTER OF ARTS IN COUNSELING: SPECIALIZATION IN CLINICAL MENTAL HEALTH COUNSELING (CMHC)

(Offered by the Department of Counseling and Integrated Programs)

This dual degree option prepares graduates to work with a range of clients in traditional mental health programs as well as mental health counselors with individuals, families and systems that interface with the legal and criminal justice arena. Our aim is to prepare clinicians who will be able to assess, treat, consult and apply a full array of counseling services in forensic and correctional settings, allowing for a range of dynamic career paths.

All faculty members are active in their respective areas of expertise and engage with students to promote opportunities for professional development in the field, as well as at state and national conferences.

Accreditation, Licensure & Certification

Adler's M.A. in Counseling: Specialization in Clinical Mental Health Counseling program (CMHC) is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Graduation from a CACREP accredited program is a requirement for counselor licensure in many states.

The CMHC program is designed to prepare graduates to qualify to sit for licensing exams and to meet the academic licensure requirements of many state counseling boards. Students wishing to seek licensure are strongly encouraged to research the requirements to sit for licensure for each state or province in which they wish to practice.

Graduates of the program are also eligible to take part in the National Certified Counselor (NCC) credential, after successful passage of the National Counselor Examination (NCE) and completion of required experiences.

In particular, Graduates of the program are eligible to apply for the following credentials:

- The Licensed Professional Counselor (LPC) credential in the state of Illinois
- The Licensed Clinical Professional Counselor (LCPC) credential in Illinois, upon completing all necessary post-graduate training and supervised experiences

Our specialized courses in forensic mental health leadership and specialized practicum experiences promote certification eligibility to pursue national certification as a Forensic Mental Health Evaluator through The National Board of Forensic Evaluators.

FMHL – CMHC Dual Degree Program Overview

- A comprehensive curriculum of both degrees including supervised field experiences totaling 78 credit hours
- The Social Justice Practicum, a social responsibility immersion experience created to develop an identity in graduates as social justice advocates and agents of social change (200 hours total).
- The clinical mental health counseling field experiences including supervised practicum (100 hours) and internship (600 hours). Through our vast network of community partners, students are able to complete their practical training in a variety of settings.
- A CMHC Comprehensive Examination

Full-Time or Part-Time Learning Schedule

The class offerings are designed to meet the needs of students who desire a full-time 28 months track or a part-time three and four-year learning schedule.

Minimum Admission Requirements

Applicants to this program are required to have:

- A baccalaureate degree earned from a college or university regionally accredited by a nationally recognized accrediting agency or an equivalent degree from an international college or university.
- A minimum grade point average of 3.0 or higher on a 4.0 scale for undergraduate and graduate coursework.
- Exceptions may be made for applicants who demonstrate improved academic performance or academic ability in other ways.
- Applicants must be accepted into both programs.
- Approved applicants of the dual degree program will be invited for personal interviews with program faculty of each program as the final step in the application process.

Degree Requirements

Core Courses

#COUN-518	Adlerian Theory and Counseling (Cross-listed as FMHL-603 Adlerian Principles in Community and Organizational Leadership)	3 cr.
*COUN-532	Professional, Legal, and Ethical Issues in Counseling	3 cr.
*COUN-533	Counseling Theories	3 cr.
*#COUN-534	Counseling Skills (Cross-listed as FMHL-534 Helping Skills in Coaching and Consultation)	3 cr.
*#COUN-535	Diagnosis of Maladaptive Behavior (Cross-listed as FMHL-535 Forensic Mental Health Responses to Maladaptive Behavior)	3 cr.
*COUN-536	Counseling Multicultural Communities (Cross-listed as FMHL-536 Forensic Mental Health Systems and Multicultural Communities)	3 cr.
*COUN-540	Group Counseling	3 cr.
COUN-618	Couple and Family Counseling	3 cr.
COUN-622	Human Growth and Development	3 cr.
COUN-625	Research and Program Evaluation (Cross-listed as FMHL-601 Research in Program Development and Evaluation)	3 cr.
COUN-626	Appraisal and Assessment	3 cr.
COUN-629	Career Development Theories and Interventions	3 cr.
COUN-630	Addictions Counseling (Cross-listed as FMHL-630 Addictions & Recovery Oriented Principles and Practices)	3 cr.
*CMHC-538	Professional Functions of Clinical Mental Health Counselors	3 cr.
*CMHC-615	Crisis Intervention and Trauma Counseling	3 cr.
*CMHC-617	Treatment Planning and Intervention	3 cr.
FMHL-600	Roles, Responsibilities, and Leadership in Forensic Mental Health and Public Safety	3 cr.
FMHL-602	Organizational Consulting & Change Management	3 cr.

FMHL-604	Crisis, Critical Incidents, and Trauma Informed Programming and Intervention	3 cr.
FMHL-635	Forensic Mental Health Leadership Capstone Seminar	1 cr.

*Courses denoted with an asterisk are counseling practicum prerequisites, which students need to complete prior to their counseling practicum. Students are required to attain a grade of B or higher in these courses. Students will need to retake the courses with a B- or lower grade prior to, or concurrently with, their practicum and attain the required grade.

Courses denoted with a “#” are recognized by both programs

FMHL Elective (Choose two from list below) (6 credit hours)

Students are required to take 2 elective courses, totaling 6 credit hours.

FMHL-605	Conflict, Violence, Aggression and Restorative Practices	3 cr.
FMHL-606	Community Based Programming, Partnerships & Advocacy	3 cr.
FMHL-609	Counseling in Forensic Populations	3 cr.
FMHL-610	Forensic Mental Health Evaluation and Practice	3 cr.

CMHC Electiv (6 credit hours)

See Department of Counseling and Integrated Programs Elective Menu provided on their program of study/advisement sheets; or take two of the FMHL course lists above as their electives.

Field Training and Seminars

*#SJP-513	Social Justice Practicum I	1 cr.
*#SJP-514	Social Justice Practicum II	1 cr.
CMHC-693	CMHC Practicum and Seminar	2 cr.
CMHC-694	CMHC Internship and Seminar I	2 cr.
CMHC-698	CMHC Internship and Seminar II	2 cr.

CMHC Comprehensive Exam

CMHC-995	CMHC Comprehensive Exam	0 cr.
----------	-------------------------	-------

Graduation Requirements

1. Satisfactory completion of all required courses and seminars
2. Satisfactory completion of Social Justice Practicum I & II
3. Satisfactory completion of CMHC counseling field training with a minimum of 100 hours of practicum and 600 hours of internship.
4. A cumulative grade point average of 3.0 or higher and no more than two grades or six credit hours of C in courses other than practicum prerequisites
5. Passing grade on the CMHC Comprehensive Examination
6. Submission of completed Graduation Application and full payment of all outstanding tuition and fees
7. Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Master of Arts in Counseling: Specialization in Clinical Mental Health Counseling and the M.A. in Forensic Mental Health Leadership.

Professional Practice and Field Training

- Both CMHC and MSHP programs require students' completion of the social justice practicum, which will be recognized by both programs.
- CMHC requires students' completion of counseling practicum (a minimum of 100 clock hours) and internship (a minimum of 600 clock hours).
- MSHP requires students' completion of Sport and Human Performance Externship.
- For details of program specific field training experiences, refer back to individual program information in this catalog.

Course Descriptions

See each program's information section for a list of course descriptions.

MASTER OF PUBLIC ADMINISTRATION

Program Overview

The Master of Public Administration (MPA) is a professional degree that prepares students for management careers in public and nonprofit organizations. It is an ideal course of study for students who are committed to being public servants and strong leaders in public or nonprofit organizations, and who want to make a positive difference in the world. The MPA program at Adler University collaborates with Adler's Institute on Public Safety and Social Justice, as well as community-based organizations that help train students to be future leaders, innovators, and managers in the public sector. MPA graduates are prepared by useful, professional experiences and the theoretical foundation needed to challenge and change today's societal challenges. The program combines rigorous academic instruction with civic-engaged experiences that give students the opportunity for hands-on learning under the supervision of faculty and professionals in the field and offers the best features of traditional graduate education and training in public administration and service, coupled with Adler University's emphasis on graduates being socially responsible professionals.

The MPA program provides students with the core knowledge and skills in policy implementation, organizational leadership, management, and program development and evaluation; all of which are necessary for work in the public arena, including national, state, and local governments, research centers, consulting firms, community action groups, and direct-service providers at various levels of government and services in the United States and around the world. The core objectives of the Master in Public Administration (MPA) program includes program development, evaluation, and management for organizations wanting strong, ethical leadership and efficient and effective systems of delivery. Core learning outcomes also include public financing; ethics and leadership; economic analysis and policy development; historical and theoretical foundations of the administrative state; organizational theory in public administration; and research and evaluation methods.

Students choose from one of the four areas of concentration in Community Health, Criminal Justice, Human Rights Advocacy or Sustainable Communities. Concentrations are designed to assist students in becoming effective public administration professionals. Concentration courses help advance graduates abilities in leadership, advocacy and in the design of public programs and organizations that encourage the growth of a fair and just society. Learning to communicate and interact with diverse groups within a rapidly changing society is essential, as is the ability to articulate and contribute new perspectives in discussions on addressing social, economic, and environmental problems.

MPA Program Objectives

At the completion of this program, the student will be able to:

1. Apply public administration, management models, and organizational theory
2. Lead, manage, and provide services within a diverse workplace and to a diverse citizenry
3. Perform program evaluations and forecasting
4. Apply concepts of social equity to public affairs, administration, and policy
5. Work within the institutional, structural, and political contexts of policy implementation
6. Prepare a budget reflecting policy and organizational priorities
7. Understand the relationship between policy formation and public services.
8. Manage public-private partnerships
9. Communicate effectively in both oral and written form tailored to the diverse audiences addressed in public service

Community Health Concentration

The Community Health concentration provides a specialized understanding of key health determinants that shape both mental and physical health outcomes at a community level. This concentration educates students on the economic and environmental factors linked to indicators that support and grow healthy communities, especially in urban areas.

The curriculum introduces students to public health strategies using population-based research designed to test health outcomes within communities and explore more holistic policy solutions that consider the intersectionality of policy areas (healthy food, transportation, economic growth, health care, education, violence, etc.). The goal is to produce graduates trained in community needs assessment who also have the knowledge and training to work with local community members in finding solutions to pressing urban problems.

CONCENTRATION OBJECTIVES

1. Explain the economic and environmental (political, social, physical, etc.) factors linked to indicators that support and grow healthy communities, especially in urban areas
2. Apply population-based research strategies and tools designed to test health outcomes within communities and explore more holistic policy solutions that consider the intersectionality of policy areas (healthy food, transportation, economic growth, health care, education, violence, etc.) including conducting needs assessment.

Criminal Justice Concentration

The Criminal Justice concentration offers professional development in management and leadership within law enforcement and criminal justice for those seeking to improve crime prevention, reduce recidivism, and find solutions to community re-entry. By preparing public managers for leadership roles as change agents that bring together key stakeholders (i.e., community members, law enforcement and other criminal justice officials, and mental health professionals), students will learn how to develop long-term, efficient, and compassionate solutions that support individual and community health and safety.

The curriculum introduces students to finding collaborative solutions for the major issues in criminal justice policy and administration, such as the incarceration of people with mental illness, gang violence, gun violence, racial and economic disparities, and improvement in services and community involvement. The goal is to educate future leaders to understand the relationship between government agencies and nonprofit agencies that interact to improve outcomes of prevention, crime reduction, and service delivery.

CONCENTRATION OBJECTIVES

1. Create collaborative solutions for key issues in criminal justice policy and administration (i.e., the incarceration of people with mental illness, gang violence, gun violence, racial and economic disparities, improvement in services and community involvement, crime prevention, recidivism reduction, and solutions to community re-entry)
2. Explain the relationship between government agencies and nonprofit agencies that interact to improve outcomes of prevention, crime reduction, and service delivery

Human Rights Advocacy Concentration

The Human Rights Advocacy concentration focuses on providing students with the historical, theoretical, and technical tools necessary for advocacy and leadership positions in government, nonprofit agencies, and nongovernmental organizations. This concentration educates students on human rights laws, issues, and effective and efficient implementation of policy solutions through a variety of culturally appropriate approaches.

The curriculum includes courses that provide students with a critical understanding of human rights issues, methods of analysis used to analyze human rights abuses, current policy and services, and impact assessments. The outcome of the coursework is for students to fully understand the operationalization of the right to health for all humans and the consequences when human rights are not considered. The goal is to produce graduates who possess the skills to be strong leaders and advocates for change with the ability to do so in a just and fair manner.

CONCENTRATION OBJECTIVES

1. Explain the historical and theoretical perspectives of human rights, laws, issues, and effective and efficient implementation of culturally appropriate policies.
2. Apply technical tools and methods (needs assessments, community organizing, etc.) necessary for advocacy and leadership positions in government, nonprofit agencies, and nongovernmental organizations

Sustainable Communities Concentration

The Sustainable Communities concentration provides an interdisciplinary course of study that integrates the classroom curriculum with engaged learning experiences in community development, physical and environmental planning, and economic growth. It prepares students to use practical tools such as survey design, environmental impact assessments, community-based research, and service projects in designing healthy, sustainable communities.

The curriculum aims to teach students how to integrate the community's input and vision with well-researched findings to create solutions that meet community needs. It prepares graduates for professional development in program and project management, community leadership, social and environmental advocacy, and employment in both government and nonprofit agencies.

CONCENTRATION OBJECTIVES

1. Apply practical tools such as survey design, environmental impact assessments, community-based research, and service projects in designing healthy, sustainable communities
2. Explain program and project management, community leadership, social and environmental advocacy, and employment in both government and nonprofit agencies

Social Justice Practicum (SJP)

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline specific experiential practicum that occurs during the fall and spring terms. The SJP is an anchor of student learning at Adler University, where our academic institution and community partners unite to educate and equip students with skills to become agents of social change. The purpose of this practicum is twofold: (1) to assist community agencies in their work toward equity for all members of our community, and (2) to enable students to gain knowledge, skills, and perspectives around social justice strategies needed to build a more equitable society.

The SJP is designed to help students learn how to work alongside communities, and it serves as a catalyst for students to develop their own strengths and understand their lifelong responsibility in making a contribution toward social change and social equity.

During this practicum, students gain, maintain, and strengthen connection to community by developing critical problem solving skills necessary to be socially responsible practitioners.

Students must complete their practicum by the last day of spring term. SJP requirements include: (1) completion of a minimum of 200 hours; (2) attendance at a monthly Campus Community Engagement workshop; and (3) a formal SJP presentation at the Annual Community Engagement Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP.

The SJP may not be waived and life credit is not admissible to meet this requirement.

Instruction Modality

The MPA program is designed to support working students with courses being offered during evening hours in fall and spring semesters and during summer terms, evenings and one weekend class per summer session. Full-time students complete the degree in one year taking four classes during fall, spring, and summer semesters. Part-time students complete the program in two years taking two courses during fall, spring, and "summer semesters.

Minimum Admission Requirements

Applicants to this program are required to have:

- A baccalaureate degree earned from a college or university regionally accredited by a nationally recognized accrediting agency or an equivalent degree from an international college or university.
- A minimum grade point average of 3.0 or higher on a 4.0 scale for undergraduate and graduate coursework. Exceptions may be made for applicants who demonstrate outstanding academic performance or academic ability in other ways.

For approved applicants, an invitation is extended for a personal interview with the department's Program Director as the final step in the application process.

Degree Requirements

Successful completion of the following courses is required for this degree:

Core Curriculum

PPA-500	Foundations of Public Administration and Policy	3 cr.
PPA-501	Political Economy and Economic Analysis in Public Policy Development	3 cr.
PPA-502	Ethics in Public Service	3 cr.
PAC-503	Organizational Theory and Public Personnel Management	3 cr.
PAC-504	Public Finance	3 cr.
PPA-505	Public Administration and Policy Research Methods: Models and Analytics	3 cr.
PPA-506	Applied Public Administration and Policy Research Applications	3 cr.
PAC-507	Public Management and Leadership	3 cr.
PPA-508	Comprehensive Examination	1 cr.
SJP-513	Social Justice Practicum I	1 cr.
SJP 514	Social Justice Practicum II	1 cr.

Nine credit hours within one area of concentration:**Community Health Concentration Curriculum**

COMH-509	Urban Health Determinants and Outcomes	3 cr.
COMH-510	Health Policy and Management	3 cr.
COMH-511	Topics in Urban Policy: Critical Urban Mental Health Issues	3 cr.

Criminal Justice Concentration Curriculum

CRIM-517	Re-conceptualizing Criminal Justice Involvement of Persons with Mental Illness	3 cr.
CRIM-518	Criminal Justice Administration	3 cr.
CRIM-519	Crime Prevention and Reducing Recidivism	3 cr.

Human Rights Advocacy Concentration Curriculum

HRA-512	Human Rights Policies and Outcomes	3 cr.
HRA-513	Human Right to Health	3 cr.
HRA-514	Topics in Urban Policy: Contemporary Human Rights Issues	3 cr.

Sustainable Communities Concentration Curriculum

SCOM-512	Elements of Sustainability and Livable Communities	3 cr.
SCOM-513	Tools for Sustainable Development	3 cr.
SCOM-514	Strategic Planning for Sustainability	3 cr.

Total Credit Hours Required: 36

Graduation Requirements:

- Satisfactory completion of all required credit hours, including all required courses
- Satisfactory completion of a minimum of 75 hours of fieldwork
- Successful completion a capstone project
- A cumulative grade point average of 3.0 or higher and no more than two grades or six credit hours of C
- Submission of completed Graduation Application and full payment of all outstanding tuition and fees
- Successful completion of Social Justice Practicum I and II
- Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Master of Public Administration

Master of Public Administration Course Descriptions**PPA-500****Foundations of Public Administration and Policy** **3 Credits**

This course focuses on the pursuit of public purposes; it is an introduction to public administration, public service, and public policy. Student learn the constitutional, democratic, and cultural tenets that frame ideas of acceptable government action; intergovernmental and intersectional relations in public service delivery; managerial, political, and economic aspects of governance; links between law, policy and management; and the intellectual heritage of the field. This course emphasizes the application of social justice and ethics through the consideration of the social, political, legal, economic, and ecological factors in the formation and reform of policy and public service. Through experiential activities, research, and engaging discussion this course stresses problem-solving, critical thinking skills, and application of the course material to real-world situations.

PPA-501**Political Economy and Economic Analysis in Public Policy Development** **3 Credits**

In this course, students learn the basic economic tools and microeconomic models relevant to current policy and public sector choices, including the role of government in a market-oriented economy, with an emphasis on market failures. Students learn about public goods, externalities, competition versus monopoly, opportunity cost, economic efficiency, and equity. This course focuses on political and economic factors impinging on the policy process, the current environment within vital areas of policy, and the role of key policy players (government and nonprofit agencies, community organizations/coalitions, etc.) in policy formation. Case studies are used, as well as policy alternatives and recommendations, to broaden students' policy analysis skills and understanding of how discriminatory policy creates systemic and structural inequalities.

PPA-502**Ethics in Public Service** **3 Credits**

This course is designed to provide students with a solid foundation for the ethical practice of leadership and management in the public and nonprofit sectors. Questions related to corruption, abuse of power, financial impropriety, ethics codes and standards in government and professional fields, as well as corporate codes of ethics, whistle-blowing, and other topics related to problems of conscience and judgment are examined.

PAC-503**Organizational Theory and Public Personnel Management** **3 Credits**

In this course, students learn human resource practices and styles of management in public organizations. Topics include sociological, economic, and political science theories of organizational behavior and management within the public sector; and the values associated with the five general models of public personnel systems (patronage, civil service or merit, labor-management or collective bargaining, professional, and entrepreneurial) are considered within a historical context. Students gain an understanding of issues of equity and equality in the public personnel system's general models and their impact on the core concepts, institutions, and values associated with these models. This course gives an essential overview of mainstream personnel functions and processes, including position classification, job evaluation and classification, pay and compensation, staffing, performance appraisal, and discipline.

PAC-504**Public Finance** **3 Credits**

This course provides students with a basic understanding of the methods used to analyze and evaluate public sector finances including revenues and expenditures. The primary emphasis is on government organizations in state and local government budget process (development and reform) including funding sources (e.g., taxation, user fees, fines) and expenditures (e.g., operating budgets, capital budgets, and the role of budgets in public sector agencies). In addition, students explore the public budget as a political tool and the complications of budgeting when democratic governance is used in the decision-making process at both the policy and agency level, including the allocation of resources that reflect the values of agencies and society.

PPA-505**Public Administration and Policy Research Methods: Models and Analytics** **3 Credits**

This course addresses the assumptions, approaches, and methods underlying the development of research in public policy. Covering the fundamentals of the research process from the inception of the research interest to information dissemination, students explore all the necessary requirements to conduct research on public administration and/or policy issues. Students will learn to critically evaluate the strengths and weaknesses of different research approaches (mixed, quantitative, and

qualitative) and how different designs can be used to shape the research question, data collection methods, processes for data analysis, and communication strategies for dissemination. Published public administration or policy research that uses different research designs will be critically evaluated and opportunities will be provided to explore recent advances in the field of policy and social justice initiatives. A significant emphasis is placed on ethical considerations in the research process as well as strategies for assessing research integrity, validity, and quality.

PPA-506**Applied Public Administration and Policy Research Applications****3 Credits**

This course offers an advanced investigation and hands on application of mixed, qualitative and quantitative research approaches within a policy context. Students extend their research proposal created in PPA-505 by: developing a research consent form and key informant interview guide according to research standards and Adler University's Research Ethics Board guidelines; conduct a policy-based key informant interview; apply thematic and content analyses to the transcription; and utilize the analysis in the development of a survey to address generalization.

PAC-507**Public Management and Leadership****3 Credits**

This course introduces the knowledge and skills related to strategic management and leadership in government and public services including the articulation and aligning of organizational goals in accordance with the mission; negotiating the complexities between service delivery and resource constraints; managing organizational changes; establishing measurements for outcomes; creating efficiency within production; and maintaining high staff motivation. Important strategic actions considered include developing an organizational mission and vision; developing means of accountability and legitimacy; the use of e-government technology in developing and managing challenges in the delivery of services and information electronically to constituents; understanding and employing new tools for government including privatization and contracting; restructuring an organization; shaping organizational culture; and developing human capital.

PPA 508**Comprehensive Examination****1 Credit**

All MPA students must pass a comprehensive exam in order to graduate with the MPA degree. This exam consists of questions in the field of Public Administration, Policy, and Service drawn directly from the core courses students are required to take in the Public Administration degree.

The academic program manager will create three questions per section that align with student learning outcomes and the program curriculum. Students will answer one question from each of following three sections:

1. Public administration theory that includes but is not limited to questions on policy making, implementation, and/or analysis.
2. Policy administration research that includes but is not limited to the political factors that affect the administrative state, evidence based program development, and/or the role of the public in creating and/or changing public services.
3. Substantive review on legislation that affects the services contributing to health and welfare of citizens.

SJP-513**Social Justice Practicum I****1 Credit**

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that begins in the fall term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution

and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an approved SJP site; (2) attendance at a monthly, Campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. *Note: During the fall term, students enrolled in the SJP attend at least two SJP workshops and complete a minimum of 50 hours upon placement at site.*

SJP-514**Social Justice Practicum II****1 Credit**

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that continues through the spring term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst students use to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. Upon completing the SJP, students gain, maintain, and strengthen connections to communities by developing critical problem solving skills necessary to be socially responsible practitioners. In addition, students learn essential concepts related to civics, intersectionality, and community organizing as they are necessary to establish and enhance critical thinking to labor for social justice. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an approved SJP site; (2) attendance at a monthly, Campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. The SJP may not be waived and no life credit is admissible to meet this requirement.

Concentration Courses**COMMUNITY HEALTH****COMH-509****Urban Health Determinants and Outcomes****3 Credits**

This course explores the history of mental health in cities and determinants that shape health outcomes, social distribution of health and disease, and health disparities. The determinants studied include, but are not limited to, social, economic, political, and environmental factors. Consideration is also given to how advocacy assists in bringing into the policy process values that serve to improve the conditions that promote health and well-being of individuals and communities and financial support for health and human services.

COMH-510**Health Policy and Management****3 Credits**

This course examines health policy and management through public health methods including diagnostic identification of mental illness, the links between mental and physical health, and using tools and strategies from the public health field to understand current mental health policies, practices, and services. Students are introduced to basic principles of epidemiology used in public health studies, including how to investigate the origin and development of specific illnesses and the use of population-based

research studies designed to test health-related hypotheses. This course draws from social epidemiology, showing students the correlations between social factors and mental and behavioral health outcomes.

COMH-511

Topics in Urban Policy: Critical Urban Mental Health Issues 3 Credits

This course examines topics directly affecting the health of a community and its members. It provides students with an overview of the important public policy issues facing urban centers in the 21st century. Each topic provides students with an overview of the policy issue, current debates, and local and national policy questions related to the issue.

CRIMINAL JUSTICE

CRIM-517

Re-conceptualizing Criminal Justice Involvement of Persons with Mental Illness 3 Credits

This course explores the criminalization of the mentally ill “offender;” how and why the mentally ill become involved with the criminal justice system, and responses from community, behavioral health, and the criminal justice systems. Topics include: deinstitutionalization of the mentally ill; law enforcement and court-based responses; mental health and corrections; community supervision of individuals with mental illness; violence and mental illness; and challenges associated with women and juveniles. Students are introduced to theoretical models within criminology, criminal justice, and behavioral health science to understand causes for the disproportionate presence of the mentally ill in the criminal justice system, empirical findings on alternatives for consideration, and the intersections between community, mental, or behavioral health and the criminal justice system in improving outcomes.

CRIM-518

Criminal Justice Administration 3 Credits

This course examines current policies, practices, and organizational principles of the administrative structures, functions, and processes of the criminal justice system (e.g., law enforcement, courts and corrections, health). Topics include: the use of systems theory to understand the complexity of the multilayered inter- and intra-relationship between agencies within and outside of government (including Medicaid/Medicare); public health and the community organizations; trends such as police training and police discretion; and social injustices within society that influence outcomes (e.g., racial and economic disparities, lack of community services, or lack of funding for defense attorneys).

CRIM-519

Crime Prevention and Reducing Recidivism 3 Credits

Relatively few criminal justice policy decisions use scientific evidence to assist in making informed decisions. This course emphasizes the importance of evidence-based methods to prevent crime and reduce recidivism in communities. Students are introduced to assessment techniques that test the effectiveness of correctional/behavioral health strategies, interventions, and programs while exploring treatment areas (e.g., drug treatment, cognitive skills programs, and educational programs) or community efforts (e.g., restorative justice). Results from research are used to draw conclusions about what works, what doesn't, what is promising, and what we don't know. This information informs class discussions on improving services and outcomes.

HUMAN RIGHTS ADVOCACY

HRA-512

Human Rights Policies and Outcomes 3 Credits

This course introduces students to the field of human rights. Students develop a critical understanding of the main issues that characterize the conceptualization of human rights in today's world. The course examines key historical moments in the development of human rights law and looks

at contemporary issues and topics such as globalization, neoliberalism, living conditions, military expenditures, violence, women's rights, human trafficking, and non-Western conceptions of human rights.

HRA-513

Human Right to Health 3 Credits

The human right to health is protected in multiple human rights treaties. Several countries around the world, most notably South Africa, have used the human right to health to adjudicate the quality of life needs for all citizens. A human right to health includes rights to mental, as well as physical well-being, and is not merely an absence of illness. Students learn what a right to health constitutes and how governments use the human right to health to make decisions about healthy living and public health issues (such as a right to clean water). Students examine the use of human rights law in overall health assessments, as well as the development and operationalization of the right to health within communities.

HRA-514

Topics in Urban Policy: Contemporary Human Rights Issues 3 Credits

This course examines themes directly impacting human rights of a community and its members. It provides students with an overview of the importance of human rights issues as they relate to public policy or the administration of public services. Each issue provides students with an overview of the policy issue, historical-current debates, and local, state, national, or international policy questions related to the issue.

SUSTAINABLE COMMUNITIES

SCOM-512

Elements of Sustainability and Livable Communities 3 Credits

This course focuses on formation and preservation of sustainable, healthy communities; the importance of leaders who understand the relationships between natural, built, and social environments; and the need to maintain these connections in holistic and integrative ways. Students learn the concepts of sustainability and healthy living and explore methods used to create and maintain communities working to become environmentally, economically, and socially resilient and equitable. The course also explores ways to manage urban growth or shrinkage and promote alternative means of transportation, food production and access, and affordable safe housing. Students define and explore these concepts through case studies and examples drawn from local communities.

SCOM-513

Tools for Sustainable Development 3 Credits

This course introduces students to skills needed for effective community leadership including tools, strategies, and skills needed when overseeing the creation and maintenance of sustainable communities. Students explore the fundamentals of strong leadership when building the capacity for community adjustments; assessing community needs, resources, and problems; constructing a community vision based in overall health; encouraging constituent interest and involvement; and implementing practices that improve sustainability in communities. Sustainability theories and models are presented in the course and used in the overall analysis of community development.

SCOM-514

Strategic Planning for Sustainability 3 Credits

In an increasingly complex world, leaders and managers in public and nonprofit organizations plan strategies to fulfill the organizational mission and enhance stakeholder satisfaction. This course examines the roles and practices of strategic planning, including partnerships, cooperation, and coordination. Students also examine the benefits, challenges, and pitfalls of strategic planning, while applying these planning concepts to real-life scenarios in the development of sustainable communities and the roles of nonprofit or public organization in this process.

MASTER OF PUBLIC POLICY

Program Overview

The Master of Public Policy (MPP) is a graduate professional degree that helps students prepare for careers in public policy, governance, and service. The global economy is linked to the rapid human migration into urban areas with more than 50 percent of the world's population now living and working in cities. This new economy has created a shift in developing countries toward economic growth in the areas of manufacturing, communications, and technologies. The increased migration to urban areas and challenges facing city living covers the spectrum from income inequality, to concerns for sustainable lifestyles, and social inclusion. Considering both the opportunities and problems the global economy and urbanization generate, the goal of the MPP program is to provide students with a quality education that prepares graduates for leadership and advocacy roles in government and community services. The program combines rigorous academic instruction with civic-engaged participation that gives students the opportunity for hands-on experience under the supervision of faculty and professionals in the field and offers the best features of traditional graduate education and training in policy and service coupled with Adler University's emphasis on being a socially responsible practitioner.

The MPP program provides students with core knowledge and skills in policy development, analysis, public service evaluation, economic disparities, and political work in the public arena, including national, state, and local governments, policy research centers, consulting firms, community action groups, and direct-service providers in the United States and around the world. The program requires 36 hours of coursework with a minimum of 27 hours of core coursework in public policy and nine hours of concentration coursework in one of the four concentrations: Community Health, Criminal Justice, Human Rights Advocacy, or Sustainable Communities. Each area of concentration assists in the development of students' abilities in leadership and advocacy and in becoming effective contributors to the process of creating public policy. These abilities include the analysis, synthesis, critical thinking, and problem solving that encourages the growth of a fair and just society. Learning to communicate and interact with diverse groups within a rapidly changing society is essential, as is the ability to articulate and apply new perspectives in policy discussions.

MPP Program Objectives

At the completion of this program, the student will be able to:

1. Describe and execute policymaking process, including defining the problem, setting the agenda, formulating policy, implementing policy, and evaluating policy
2. Understand and apply criteria appropriate to public affairs, administration, and policy
3. Know and apply the professional code of conduct and behave in a fair and ethical manner when creating and implementing policy
4. Communicate effectively with diverse populations and practice collaborative policymaking
5. Apply the learned skills to resolve conflict and negotiate change
6. Analyze and think critically about the social and/or economic construction of problems while brainstorming solutions
7. Understand and apply theories of decision-making and models
8. Apply concepts of social equity to public affairs and policy

Community Health Concentration

The Community Health concentration provides a specialized understanding of key health determinants that shape both mental and physical health outcomes at a community level. This concentration educates students on the economic and environmental factors linked to indicators that support and grow healthy communities, especially in urban areas.

The curriculum introduces students to public health strategies using population-based research designed to test health outcomes within communities and explore more holistic policy solutions that consider the intersectionality of policy areas (healthy food, transportation, economic growth, health care, education, violence, etc.). The goal is to produce graduates trained in community needs assessment who also have the knowledge and training to work with local community members in finding solutions to pressing urban problems.

CONCENTRATION OBJECTIVES

1. Explain the economic and environmental (political, social, physical, etc.) factors linked to indicators that support and grow healthy communities, especially in urban areas
2. Apply population-based research strategies and tools designed to test health outcomes within communities and explore more holistic policy solutions that consider the intersectionality of policy areas (healthy food, transportation, economic growth, health care, education, violence, etc.) including conducting needs assessment.

Criminal Justice Concentration

The Criminal Justice concentration offers professional development in management and leadership within law enforcement and criminal justice for those seeking to improve crime prevention, reduce recidivism, and find solutions to community re-entry. By preparing public managers for leadership roles as change agents that bring together key stakeholders (i.e., community members, law enforcement and other criminal justice officials, and mental health professionals) in finding long-term, efficient, and compassionate solutions that support individual and community health and safety.

The curriculum introduces students to finding collaborative solutions for the major issues in criminal justice policy and administration, such as the incarceration of people with mental illness, gang violence, gun violence, racial and economic disparities, and improvement in services and community involvement. The goal is to educate future leaders to understand the relationship between government agencies and nonprofit agencies that interact to improve outcomes of prevention, crime reduction, and service delivery.

CONCENTRATION OBJECTIVES

1. Create collaborative solutions for key issues in criminal justice policy and administration (i.e., the incarceration of people with mental illness, gang violence, gun violence, racial and economic disparities, improvement in services and community involvement, crime prevention, recidivism reduction, and solutions to re-entry)
2. Explain the relationship between government agencies and nonprofit agencies that interact to improve outcomes of prevention, crime reduction, and service delivery

Human Rights Advocacy Concentration

The Human Rights Advocacy concentration focuses on providing students with the historical, theoretical, and technical tools necessary for advocacy and leadership positions in government, nonprofit agencies, and nongovernmental organizations. This concentration educates students on human rights laws, issues, and effective and efficient implementation of policy solutions through a variety of culturally appropriate approaches.

The curriculum includes courses that provide students with a critical understanding of human rights issues, methods of analysis used to analyze human rights abuses, current policy and services, and impact assessments.

The outcome of the coursework is for students to fully understand the operationalization of the right to health for all humans and the consequences when human rights are not considered. The goal is to produce graduates who possess the skills to be strong leaders and advocates for change with the ability to do so in a just and fair manner.

CONCENTRATION OBJECTIVES

1. Explain the historical and theoretical perspectives of human rights, laws, issues, and effective and efficient implementation of culturally appropriate policies
2. Apply technical tools and methods (needs assessments, community organizing, etc.) necessary for advocacy and leadership positions in government, nonprofit agencies, and nongovernmental organizations

Sustainable Communities Concentration

The Sustainable Communities concentration provides an interdisciplinary course of study that integrates the classroom curriculum with engaged learning experiences in community development, physical and environmental planning, and economic growth. It prepares students to use practical tools such as survey design, environmental impact assessments, community-based research, and service projects in designing healthy, sustainable communities.

The curriculum aims to teach students how to integrate the community's input and vision with well-researched findings to create solutions that meet community needs. It prepares graduates for professional development in program and project management, community leadership, social and environmental advocacy, and employment in both government and nonprofit agencies.

CONCENTRATION OBJECTIVES

1. Apply practical tools such as survey design, environmental impact assessments, community-based research, and service projects in designing healthy, sustainable communities
2. Explain program and project management, community leadership, social and environmental advocacy, and employment in both government and nonprofit agencies

Social Justice Practicum (SJP)

The Social Justice Practicum (SJP) is a first-year, non-clinical and non-discipline specific experiential practicum for full-time students that occurs during the fall and spring terms. The SJP is an anchor of student learning at Adler University, where our academic institution and community partners unite to educate and equip students with skills to become agents of social change. The purpose of this practicum is twofold: (1) to assist community agencies in their work toward equity for all members of our community; and (2) to enable students to gain knowledge, skills, and perspectives around social justice strategies needed to build a more equitable society.

The SJP is designed to help students learn how to work alongside communities, and it serves as a catalyst for students to develop their own strengths and understand their lifelong responsibility in making a contribution toward social change and social equity. During this practicum, students gain, maintain, and strengthen connection to community by developing critical problem solving skills necessary to be socially responsible practitioners.

Students must complete their practicum by the last day of spring term. SJP requirements include: (1) completion of a minimum of 200 hours; (2) attendance at a monthly Campus Community Engagement workshop; and (3) a formal SJP presentation at the Annual Community Engagement Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP.

The SJP may not be waived and life credit is not admissible to meet this requirement.

Instruction Modality

The MPP program is designed to support working students with courses being offered during evening hours in fall and spring semesters and during summer term evenings and one weekend class per summer course. Full-time students complete the degree in one year taking four classes during fall, spring, and summer semesters. Part-time students complete the program in two years taking two courses during fall, spring, and summer semesters.

Minimum Admission Requirements

Applicants to this program are required to have:

- A baccalaureate degree earned from a college or university regionally accredited by a nationally recognized accrediting agency or an equivalent degree from an international college or university.
- A minimum grade point average of 3.0 or higher on a 4.0 scale for undergraduate and graduate coursework. Exceptions may be made for applicants who demonstrate outstanding academic performance or academic ability in other ways

For approved applicants, an invitation is extended for a personal interview with the department's Program Director as the final step in the application process.

Degree Requirements

Successful completion of the following courses is required for this degree:

Core Curriculum

PPA-500	Foundations of Public Administration and Policy	3 cr.
PPA-501	Political Economy and Economic Analysis in Public Policy Development	3 cr.
PPA-502	Ethics in Public Service	3 cr.
PPC-503	Collaborative Policymaking and Civic Engagement	3 cr.
PPC-504	Social-Urban Policy and Development	3 cr.
* PPA-505	Public Administration and Policy Research Methods: Models and Analytics	3 cr.
* PPA-506	Applied Public Administration and Policy Research Applications	3 cr.
PPC-507	Business and Government Policy	3 cr.
PPA-508	Comprehensive Examination	1 cr.
SJP-513	Social Justice Practicum I	1 cr.
SJP 514	Social Justice Practicum II	1 cr.

*Courses denoted with an asterisk are required before beginning capstone/fieldwork.

Nine credit hours within one area of concentration:

Community Health Concentration Curriculum

COMH-509	Urban Health Determinants and Outcomes	3 cr.
COMH-510	Health Policy and Management	3 cr.
COMH-511	Topics in Urban Policy: Critical Urban Mental Health Issues	3 cr.

Criminal Justice Concentration

CRIM-517	Re-conceptualizing Criminal Justice Involvement of Persons with Mental Illness	3 cr.
CRIM-518	Criminal Justice Administration	3 cr.
CRIM-519	Crime Prevention and Reducing Recidivism	3 cr.

Human Rights Advocacy Concentration Curriculum

HRA-512	Human Rights Policies and Outcomes	3 cr.
HRA-513	Human Right to Health	3 cr.
HRA-514	Topics in Urban Policy: Contemporary Human Rights Issues	3 cr.

Sustainable Communities Concentration Curriculum

SCOM-512	Elements of Sustainability and Livable Communities	3 cr.
SCOM-513	Tools for Sustainable Development	3 cr.
SCOM-514	Strategic Planning for Sustainability	3 cr.

Total Credit Hours Required: 36

Graduation Requirements

- Satisfactory completion of all required credit hours, including all required courses
- Satisfactory completion of a minimum of 75 hours of fieldwork
- Successful completion of a capstone project
- A cumulative grade point average of 3.0 or higher and no more than two grades or six credit hours of C
- Submission of completed Graduation Application and full payment of all outstanding tuition and fees
- Satisfactory completion of Social Justice Practicum I and II
- Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Master of Public Policy

Master of Arts in Public Policy Course Descriptions**PPA-500****Foundations of Public Administration and Policyn 3 Credits**

This course focuses on the pursuit of public purposes; it is an introduction to public administration, public service, and public policy. Student learn the constitutional, democratic, and cultural tenets that frame ideas of acceptable government action; intergovernmental and intersectional relations in public service delivery; managerial, political, and economic aspects of governance; links between law, policy, and management; and the intellectual heritage of the field. This course emphasizes the application of social justice and ethics through the consideration of the social, political, legal, economic, and ecological factors in the formation and reform of policy and public service. Through experiential activities, research, and engaging discussion this course stresses problem-solving, critical thinking skills, and application of the course material to real-world situations

PPA-501**Political Economy and Economic Analysis in Public Policy Development 3 Credits**

In this course, students learn the basic economic tools and microeconomic models relevant to current policy and public sector choices, including the role of government in a market oriented economy, with an emphasis on market failures. Students learn about public goods, externalities, competition versus monopoly, opportunity cost, economic efficiency, and equity. This course focuses on political and economic factors impinging on the policy process, the current environment within vital areas of policy, and the role of key policy players (government and nonprofit agencies, community organizations/coalitions, etc.) in policy formation. Case studies are used, as well as policy alternatives and recommendations, to broaden students' policy analysis skills and understanding of how discriminatory policy creates systemic and structural inequalities.

PPA-502**Ethics in Public Service 3 Credits**

This course is designed to provide students with a solid foundation for the ethical practice of leadership and management in the public and nonprofit sectors. Questions related to corruption, abuse of power, financial impropriety, ethics codes, and standards in government and professional fields, as well as corporate codes of ethics, whistle-blowing, and other topics related to problems of conscience and judgment are examined.

PPC-503**Collaborative Policymaking and Civic Engagement 3 Credits**

This course explores the theories and practices in collaborative policymaking and civic engagement. Students learn different dialogue modalities, including intergroup dialogue, the use of social media, and co-intelligence or the mixing of personal intelligences, and how these skills are essential tools used in the democratic process of finding solutions to complex problems and creating new policy. The course also examines social movements and the importance of inclusiveness and community representation in policy discussions. It reviews policy case studies that discuss civic engagement and stakeholder involvement such as civic leaders, citizens, community organizations, government agencies, and the private sector. Policy professionals guest lecture, and current policy issues in the Chicago metropolitan area are explored.

PPC-504**Social-Urban Policy and Development 3 Credits**

This course examines the areas of policy that together affect the health of communities, including healthcare and prevention, education, employment, crime, housing, urban land use and planning, environmental preservation, and sustainable and economic development. Together, these areas of policy share a common concern with promoting health in the world and improving living conditions in all societies. With the majority of humans living in or moving to cities, there is a focus on the urban area, and students learn about both the opportunities and challenges in creating healthy urban communities that are sustainable and socially, economically, and politically inclusive.

PPA-505**Public Administration and Policy Research Methods: Models and Analytics 3 Credits**

This course addresses the assumptions, approaches, and methods underlying the development of research in public policy. Covering the fundamentals of the research process from the inception of the research interest to information dissemination, students explore all the necessary requirements to conduct research on public administration and/or policy issues. Students will learn to critically evaluate the strengths and weaknesses of different research approaches (mixed, quantitative and qualitative) and how different designs can be used to shape the research question, data collection methods, processes for data analysis, and communication strategies for dissemination. Published public administration or policy research that uses different research designs will be critically evaluated and will provide opportunities to explore recent advances in the field of policy and social justice initiatives. A significant emphasis is placed on ethical considerations in the research process as well as strategies for assessing research integrity, validity, and quality.

PPA-506**Applied Public Administration and Policy Research Applications 3 Credits**

This course offers an advanced investigation and hands-on application of mixed, qualitative and quantitative research approaches within a policy context. Students extend their research proposal created in PPA-505 by: developing a research consent form and key informant interview guide according to research standards and Adler University's Research Ethics Board guidelines; conduct a policy-based key informant interview; apply thematic and content analyses to the transcription; and utilize the analysis in the development of a survey to address generalization.

PPC-507**Business and Government Policy 3 Credits**

This course examines the relationship between business and government; the influence one has over the other; how governmental policies influence the decisions of corporations, businesses, and industries and vice versa; and the economic and development issues arising in an increasingly integrated global economy.

PPA-508**Comprehensive Examination****1 Credit**

All MPP students must pass a comprehensive exam in order to graduate with the MPP degree. This exam consists of questions in the field of Public Policy, Service, and Administration and drawn directly from the Core Courses students are required to take in the Public Policy degree. The academic program manager will create three questions per section that align with student learning outcomes and the program curriculum. Students will answer one question from each of following three sections:

1. Public policy theory that includes, but is not limited to, questions on policy making, implementation, and/or analysis.
2. Policy research that includes, but is not limited to, the political factors that affect policy choices, evidence based policy development, and/or the role of the public in policy creation and change.
3. Substantive policy review on legislation that affects the health and welfare of citizens.

SJP-513**Social Justice Practicum I****1 Credit**

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that begins in the fall term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. *Note: During the fall term, students enrolled in the SJP attend at least two SJP workshops and complete a minimum of 50 hours upon placement at site.*

SJP-514**Social Justice Practicum II****1 Credit**

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that continues through the spring term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. Upon completing the SJP, students gain, maintain, and strengthen connections to communities by developing critical problem solving skills necessary to be socially responsible practitioners. In addition, students learn essential concepts related to civics, intersectionality, and community organizing as they are necessary to establish and enhance critical thinking to labor for social justice. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an approved SJP site; (2) attendance at a monthly, Campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. The SJP may not be waived and no life credit is admissible to meet this requirement.

Concentration Courses**COMMUNITY HEALTH****COMH-509****Urban Health Determinants and Outcomes****3 Credits**

This course explores the history of mental health in cities and determinants that shape health outcomes, social distribution of health and disease, and health disparities. The determinants studied include, but are not limited to, social, economic, political, and environmental factors. Consideration is also given to how advocacy assists in bringing into the policy process values that serve to improve the conditions that promote health and well-being of individuals and communities, and financial support for health and human services.

COMH-510**Health Policy and Management****3 Credits**

This course exams health policy and management through public health methods including diagnostic identification of mental illness, the links between mental and physical health, and using tools and strategies from the public health field to understand current mental health policies, practices, and services. Students are introduced to basic principles of epidemiology used in public health studies, including how to investigate the origin and development of specific illnesses and the use of population-based research studies designed to test health-related hypotheses. This course draws from social epidemiology, showing students the correlations between social factors and mental and behavioral health outcomes.

COMH-511**Topics in Urban Policy: Critical Urban Mental Health Issues****3 Credits**

This course examines topics directly affecting the health of a community and its members. It provides students with an overview of the important public policy issues facing urban centers in the 21st century. Each topic provides students with an overview of the policy issue, current debates, and local and national policy questions related to the issue.

CRIMINAL JUSTICE**CRIM-517****Re-conceptualizing Criminal Justice Involvement of Persons with Mental Illness****3 Credits**

This course explores the criminalization of the mentally ill "offender," how and why the mentally ill become involved with the criminal justice system, and responses from community, behavioral health, and the criminal justice system. Topics include: deinstitutionalization of the mentally ill; law enforcement and court-based responses; mental health and corrections; community supervision of individuals with mental illness; violence and mental illness; and challenges associated with women and juveniles. Students are introduced to theoretical models within criminology, criminal justice, and behavioral health science to understand causes for the disproportionate presence of the mentally ill in the criminal justice system, empirical findings on alternatives for consideration, and the intersections between community, mental, or behavioral health and the criminal justice system in improving outcomes.

CRIM-518**Criminal Justice Administration****3 Credits**

This course examines current policies, practices, and organizational principles of the administrative structures, functions, and processes of the criminal justice system (e.g., law enforcement, courts and corrections, health). Topics include: the use of systems theory to understand the complexity of the multilayered inter- and intra-relationship between agencies within and outside of government (including Medicaid/Medicare); public health and the community organizations; trends such as police training and police discretion; and social injustices within society that influence outcomes (e.g., racial and economic disparities, lack of community services, or lack of funding for defense attorneys).

CRIM-519**Crime Prevention and Reducing Recidivism 3 Credits**

Relatively few criminal justice policy decisions use scientific evidence to assist in making informed decisions. This course emphasizes the importance of evidence-based methods to prevent crime and reduce recidivism in communities. Students are introduced to assessment techniques that test the effectiveness of correctional/behavioral health strategies, interventions, and programs while exploring treatment areas (e.g., drug treatment, cognitive skills programs, educational programs) or community efforts (e.g., restorative justice). Results from research are used to draw conclusions about what works, what doesn't, what is promising, and what we don't know. This information informs class discussions on improving services and outcomes.

HUMAN RIGHTS ADVOCACY**HRA-512****Human Rights Policies and Outcomes 3 Credits**

This course introduces students to the field of human rights. Students develop a critical understanding of the main issues that characterize the conceptualization of human rights in today's world. The course examines key historical moments in the development of human rights law and looks at contemporary issues and topics such as globalization, neoliberalism, living conditions, military expenditures, violence, women's rights, human trafficking, and non-Western conceptions of human rights.

HRA-513**Human Right to Health 3 Credits**

The human right to health is protected in multiple human rights treaties. Several countries around the world, most notably South Africa, have used the human right to health to adjudicate the quality of life needs for all citizens. A human right to health includes rights to mental, as well as physical well-being, and is not merely an absence of illness. Students learn what a right to health constitutes and how governments use the human right to health to make decisions about healthy living and public health issues (such as a right to clean water). Students examine the use of human rights law in overall health assessments, as well as the development and operationalization of the right to health within communities.

HRA-514**Topics in Urban Policy: Contemporary Human Rights Issues 3 Credits**

This course examines themes directly impacting the human rights of a community and its members. It provides students with an overview of the importance of human rights issues as they relate to public policy or the administration of public services. Each issue provides students with an overview of the policy issue, historical-current debates, and local, state, national, or international policy questions related to the issue.

SUSTAINABLE COMMUNITIES**SCOM-512****Elements of Sustainability and Livable Communities 3 Credits**

This course focuses on formation and preservation of sustainable, healthy communities; the importance of leaders who understand the relationships between natural, built, and social environments; and the need to maintain these connections in holistic and integrative ways. Students learn the concepts of sustainability and healthy living and explore methods used to create and maintain communities working to become environmentally, economically, and socially resilient and equitable. The course also explores ways to manage urban growth or shrinkage and promote alternative means of transportation, food production and access, and affordable safe housing. Students define and explore these concepts through case studies and examples drawn from local communities.

SCOM-513**Tools for Sustainable Development 3 Credits**

This course introduces students to skills needed for effective community leadership including tools, strategies, and skills needed when overseeing the creation and maintenance of sustainable communities. Students explore the fundamentals of strong leadership when building the capacity for community adjustments; assessing community needs, resources, and problems; constructing a community vision based in overall health; encouraging constituent interest and involvement; and implementing practices that improve sustainability in communities. Sustainability theories and models are presented in the course and used in the overall analysis of community development.

SCOM-514**Strategic Planning for Sustainability 3 Credits**

In an increasingly complex world, leaders and managers in public and nonprofit organizations plan strategies to fulfill the organizational mission and enhance stakeholder satisfaction. This course examines the roles and practices of strategic planning, including partnerships, cooperation, and coordination. Students also examine the benefits, challenges, and pitfalls of strategic planning, while applying these planning concepts to real-life scenarios in the development of sustainable communities and the roles of nonprofit or public organization in this process.

CERTIFICATE IN SUBSTANCE ABUSE COUNSELING

Program Overview

The Certificate in Substance Abuse Counseling is designed to provide education and training in the prevention, intervention, and treatment of alcohol and other drug abuse (AODA) disorders. Specifically, the coursework provides education in the theories, techniques, and core functions of substance abuse counseling, focusing on evidence-based research and best-practice standards. This, combined with the specialized practicum supervision and experience for entry-level practice in AODA or mentally ill substance abuser (MISA) clinical programs, provides advanced alcohol and other drug abuse counselor training.

Credentials

This certificate program is accredited as an Advanced Alcohol and Other Drug Abuse Counselor Training Program by the Illinois Alcohol and Other Drug Abuse Professional Certification Association, Inc. (IAODAPCA). This certification process is based on the Illinois Model for Certification of Alcohol and Other Drug Abuse Counselors.

This certificate program can be taken as part of the student's graduate studies at either the master's or doctoral level. The 500-hour practicum in substance abuse counseling is taken as an advanced clinical practicum.

Students may elect to take only the substance abuse counseling courses without the practicum as an emphasis. In this case, they are ineligible to sit for the IAODAPCA, Inc., certification examination for Illinois.

Non-degree-seeking students already with a counseling, social work, or psychology bachelor's, master's, or doctoral degree can enroll in the program for a Certificate in Substance Abuse Counseling. The certificate is awarded after completion of the required coursework and the 500-hour practicum.

Minimum Admission Requirements

Applicants to this program are required to have:

- A baccalaureate or higher degree earned from a college or university regionally accredited by a nationally recognized accrediting agency or an equivalent degree from an international college or university.
- A minimum grade point average of 3.0 or higher on a 4.0 scale for undergraduate and graduate coursework. Exceptions may be made for applicants who demonstrate improved academic performance or academic ability in other ways.
- Students who are currently enrolled in Adler degree programs will be exempted from the interview process. However, approval from their respective Program Directors and Faculty Advisors will be needed in order for them to add the CSAC program to their current program of study.
- Applicants who solely want to enroll in the CSAC program and are not seeking any degree program will be invited in for a personal interview, if approved, as the final step in the application process.

Course Requirements

The Certificate in Substance Abuse Counseling requires the following 12 credits of coursework:

One of the following:

* PCO-438	Introduction to Addictive Disorders	3 cr.
* MAT-520	Introduction to Addictive Disorders	3 cr.
* COUN-630	Addictions Counseling	3 cr.
* PSY-709	Diagnosis and Treatment of Addictive Disorders	3 cr.
* MCFT-538	Introduction to Addictive Disorders	3 cr.

And one of the following:

* MAT-515	Professional Development, Issues, and Ethics in Art Therapy	3 cr.
* MCFT-505	Professional Development: Issues and Ethics Professional Identity, Law, and Ethics in Couple and Family Therapy	3 cr.
* COUN-532	Professional, Legal, and Ethics Issues in Counseling	3 cr.
* PSY-645	Ethics and Professional Development in Clinical Psychology	3 cr.

And one of the following:

CSAC-889	Bio-Psycho-Social-Spiritual Aspects of Addictions	3 cr.
PSY-712	Bio-Psycho-Social-Spiritual Aspects of Addictions	3 cr.

And one of the following:

CSAC-890	Advanced Addictions Treatment	3 cr.
PSY-713	Advanced Treatment of Addictive Disorders	3 cr.

*Courses denoted with an asterisk are substance abuse counseling practicum prerequisites, which students need to complete prior to their substance abuse counseling practicum. Students are required to attain a grade of B or higher in these courses. Students will need to retake the courses with a B- or lower grade prior to, or concurrently with, their practicum and attain the required passing grade.

Specialized Practicum for Substance Abuse Certificate

In addition to the specialized coursework, students pursuing the Certificate in Substance Abuse Counseling will acquire and develop practical skills in the Alcohol and Other Drug Abuse (AODA) core functions through specialized field placements.

Students should expect to spend from 10 to 20 hours per week at a MISA/AODA-approved practicum site and must concurrently enroll in two semesters of practicum and seminars during their field training. A minimum of 500 total clock hours of practicum is required.

The Coordinator of the Substance Abuse Counseling Program and the Director of Training work in collaboration with certificate students to identify clinical experiences that will meet the required training hours and experiences.

Students who are currently enrolled in a degree program at Adler and are already placed into a MISA/AODA-approved clinical training site may apply their hours to this certification program, depending on the approval of the Program Coordinator and the Training Director. Students who are currently enrolled in a degree program at Adler and in practicum/ internship and are not placed into a MISA/AODA-approved clinical training site may not apply their hours to this certification program. They will need to enroll in the Substance Abused Counseling Practicum and Seminars listed below and attain additional required practicum hours.

The Certificate in Substance Abuse Counseling requires the following four semester credit hours of practicum (500 field hours) and seminars:

CSAC-701	Substance Abuse Counseling Practicum and Seminar I	2 cr.
CSAC-702	Substance Abuse Counseling Practicum and Seminar II	2 cr.

Completion Requirements

1. Satisfactory completion of all required credit hours of program coursework
2. Satisfactory completion of all practicum and seminars
3. A cumulative grade point average of 3.0 or higher of all coursework
4. Submission of completed Graduation Application and full payment of all outstanding tuition and fees

Certificate in Substance Abuse Counseling Course Descriptions

CSAC-701

Substance Abuse Counseling Practicum and Seminar I 2 Credits

Prerequisites: PCO-438, MAT-520, COUN-630, MCFT538, or PSY-709; and MAT-515, MCFT-505, COUN-532, or PSY-645. This course provides a forum for students to attain supervised clinical experience in which students develop substance abuse counseling skills and integrate professional knowledge. This course is designed to develop alcohol and other drug abuse counseling skills concurrent with practicum field experiences. A group supervision model provides the student with the opportunity to apply previously learned concepts while working in an outside field experience. Emphasis is on written and oral case presentations in the areas of counseling skills, intake assessment, treatment planning, and case management. Students are expected to recognize professional and legal considerations relevant to ethics, confidentiality, working relationships with referral sources, special populations, treatment options, and models of alcohol and drug abuse counseling. Students are required to spend 250 clock hours per practicum (a minimum of 500 total clock hours) in a supervised MISA/AODA-approved site.

CSAC-702

Substance Abuse Counseling Practicum and Seminar II 2 Credits

Prerequisites: PCO-438, MAT-520, COUN-630, MCFT538, or PSY-709; and MAT-515, MCFT-505, COUN-532, or PSY-645; and CSAC-701. This course is a continuation of CSAC-701. Students can use this forum to continue to develop their competency in alcohol and other drug abuse counseling competency. It is concurrent with practicum field experiences. A group supervision model provides the student with the opportunity to apply previously learned concepts while working in an outside field experience. Emphasis is on written and oral case presentations in the areas of counseling skills, intake assessment, treatment planning, and case management. Students are expected to have a higher-level understanding of professional and legal considerations relevant to ethics, confidentiality, working with referral sources, special populations, treatment options, and models of alcohol and drug abuse counseling. Students are required to spend 250 clock hours per practicum (a minimum of 500 total clock hours) in a supervised MISA/AODA-approved site.

CSAC-889

Bio-Psycho-Social-Spiritual Aspects of Addictions 3 Credits

Prerequisites: PCO-438, MAT-520, COUN-630, MCFT538, or PSY-709; and MAT-515, MCFT-505, COUN-532, or PSY-645. Biological, neurological, and cognitive neuroscientific aspects of addictions are covered in the context of social, interpersonal, sociocultural, family, community, economic, and environmental dynamics. The psychological aspects of addictions are also addressed in relation to the aforementioned contexts, as well as psycho-spiritual and spiritual perspectives. Clinical research on all of the above topics is addressed with the intent of outlining effective treatment modalities that take all of these myriad domains into account. In addition, marginalized populations, such as people of color, LGBTQ groups, people with disabilities, economically depressed persons, veterans, HIV-positive clients, immigrants, women, and adolescents, are studied in the context of addictions.

CSAC-890

Advanced Addictions Treatment 3 Credits

Prerequisites: PCO-438, MAT-520, COUN-630, MCFT-538, or PSY-709; and MAT-515, MCFT-505, COUN-532, or PSY-645. This course advances and deepens the degree of understanding of theoretical models and research related to addictions counseling. The areas of application include addictive behaviors, alcohol and substance abuse, etiology of addiction, and dual diagnosis and comorbidity. Treatment approaches such as motivational interviewing, the stages of change model, and the precursors model of change will be discussed. Students will also examine established evidence-based treatment approaches, strategies, and techniques from cognitive, behavioral, existential, Adlerian, and Gestalt therapy perspectives. In addition, advanced applications of group and family systems treatments are included in the course. The effects of addictions on the interpersonal, systemic, and environmental aspects of the client's life are studied as well. Detailed study of relapse prevention and treatment are provided. Twelve-step approaches are also discussed in detail, including their efficacy. Ethical and multicultural issues in addictions counseling and in supervision and training of addictions counselors will also be addressed.

DOCTOR OF PHILOSOPHY IN ART THERAPY

Program Overview

The Ph.D. in Art Therapy program prepares students to lead in the field of art therapy as researchers, educators, clinical supervisors, and socially responsible practitioners who are committed to healthy communities. The program emphasizes Adlerian principles with a focus on student-centered and self-directed learning. Further, the program explores epistemologies and the rationale of different knowledge claims as they relate to intersectionality. The program also incorporates integrative clinical healthcare practices and advanced research and approaches to prepare students to be stewards and scholars of the profession in order to successfully practice in a world in which understanding of individual and cultural diversity is essential for progress. Embracing diversity, the program encourages national and international clinical training and unique opportunities in areas where the clientele is primarily from traditionally underserved communities. Such experiences engage students as they acquire knowledge, skills, and values related to individual and group diversity. Focused on scholarship, socially conscious pedagogy, Adlerian principles, clinical art therapy, and socially responsible practices, students train to be leaders, equipped with the real-world experience, research background, and intellectual curiosity needed to think deeply about therapeutic creative expression in order to successfully practice in a world in which understanding of individual and cultural diversity is essential for community health and wellness. The immersive, experiential, hands-on learning experience in graduate education trains professionals who are committed to making a more just society.

Upon graduation, students will continue to add knowledge and new research to the field, becoming leaders in their communities and demonstrating Adlerian values such as social interest, pluralism, courage, excellence, pragmatism, respect for diversity, encouragement, and commitment to promote the optimal development of persons and communities.

Program Overview

The program consists of 60 credits, including 45 credits of core courses and electives,

nine credit hours of dissertation, and six credit hours of internships experiences. Students are expected to complete the curriculum in three years, or longer for part-time students.

Program requirements include:

- Completion of Social Justice Practicum I and II (2 credits) for non-Adler University graduates.
- Completion of core courses and electives (45 credits).
- Completion of Internship and Seminar I, II, and III (6 credits).
- Passage of the PhDAT Comprehensive Examination.
- Completion of Dissertation I, II, and III (9 credit hours).

Program Learning Outcomes

The PhDAT learning outcomes were developed based on the Commission on Accreditation of Allied Health Education Programs (CAAHEP) Standards and Guidelines for the Accreditation of Educational Programs in Art Therapy (ACATE) and by also considering national education standards, the mission of the program, and the mission and institutional learning outcomes at Adler University.

Program Learning Outcome 1: Demonstrate an ability to lead in the field of clinical art therapy as researchers, educators, and clinical supervisors in relation to social justice.

Program Learning Outcome 2: Implement a variety of theories and models relevant to clinical art therapy that focus on characteristics of community-based settings.

Program Learning Outcome 3: Evaluate theories from multiple perspectives, their relation to the fundamental, historical, and cultural structures of clinical art therapy, and how these theories serve diverse populations.

Program Learning Outcome 4: Develop curriculum and teaching modules using clinical art therapy-based practices in order to effectively educate and train clinical art therapists.

Program Learning Outcome 5: Examine the leadership role of clinical art therapists as advocates in social and political climates to initiate change and impact diverse factors including client welfare, treatment, and ethical interventions and strategies.

Program Learning Outcome 6: Demonstrate an aptitude in assessment and evaluation and in evidence-informed practices in the major areas within clinical art therapy, social justice advocacy, teaching, and supervision.

Program Learning Outcome 7: Integrate Adlerian principles, Adlerian art therapy principles, and social justice advocacy in a community-based, collaborative learning culture with a strong focus on social justice pedagogy approaches in areas of clinical art therapy and social justice advocacy, as researchers, scholars and educators in teaching; and in clinical supervision settings, to create complementary and integrative healthcare approaches with the ability to collaborate with those from other professions to reform structures and systems that adversely affect well-being.

Program Learning Outcome 8: Implement art therapy's commitment to socially responsible practice and adherence to ethical standards and codes of conduct as well as governing authorities.

Program Learning Outcome 9: Employ multicultural competencies and awareness of intersectionality in the practice of clinical art therapy.

Program Learning Outcome 10: Cultivate a scholarly identity through research and practice that actively contributes to the body of work within clinical art therapy and the body of work within general mental health professions through scholarly publications and professional presentations.

Licensure and Credentials

The aim of the program is to provide advanced training for Provisional or Registered or Registered Board Certified Art Therapists, Expressive Arts Therapists, Creative Arts Therapists, Licensed Counselors or Mental Health Professionals, Social Workers, Couple and Family Therapists, or a related field, who already have, or are eligible for, master's-level licensure in Illinois or other states.

Although the goal of the program is not the preparation of its students for counselor licensure that only requires a master's degree, students without a counseling license may be able to attain such a credential through this Ph.D. program in the following manner:

- If students graduated from a 48 or more credit hour program in counseling or a related field, and completed the practicum and internship requirements, they can make up the licensure course requirements through the program admission prerequisites or courses in the Ph.DAT program.
- If students came from a master's-level program with fewer than 48 credit hours, they will need to use this doctoral program as the primary degree when applying for licensure. Besides taking the necessary admission prerequisites, students may also need to have additional clinical internship hours in order to fulfill the state pre-licensure clinical training requirements.

- If students want to use this degree for licensure requirements of other states, they will need to work with their Faculty Advisor to see what additional courses and clinical practicum and internship hours are needed.

After completing graduate studies and 1,000 hours of supervised clinical art therapy practice, a graduate may apply for art therapy registration (ATR) through the Art Therapy Credentials Board (ATCB). ATR requires 1,000 hours of clinical art therapy (direct client contact) including at least 100 hours of supervision, or at least one hour of supervision for every 10 hours of direct client contact. A minimum of 500 hours of this work experience needs to be supervised by a credentialed art therapist. Up to 500 hours may be supervised by a clinical supervisor who is credentialed in a related field (e.g., social worker, counselor, or psychologist). After an art therapist is awarded an ATR, they may work to complete additional requirements in order to apply for the board certification examination. With successful completion of this examination, an art therapist is awarded the credential of ATR-BC by the Art Therapy Credentials Board.

Immediately upon graduation from this program, a graduate may apply to take the Illinois Licensed Professional Counselor (LPC) examination and The National Certified Counselor (NCC) credential, as well as sit for the National Counselor Examination (NCE) upon graduation.

Program-Specific Admission Requirements

In addition to the admission requirements common to all of the Adler graduate programs, applicants to this program are required to have:

- A master's degree, by the date of matriculation, in art therapy or a related discipline from a regionally accredited U.S. institution or a related field from an international institution.
- Applicants who did not graduate from Adler University's Master of Arts in Counseling: Art Therapy program or an equivalent program will be required to complete the equivalency requirements in addition to the doctoral curriculum.
- Proof of registration as an art therapist or 18 hours of studio credit hours.
- A cumulative grade point average (GPA) of 3.0 or higher (on a 4.0 scale) in applicant's graduate degree program.
- Two letters of recommendation from individuals who can speak to the applicant's likelihood of success in a doctoral program.

Program Prerequisites

Applicants who did not graduate from Adler University's Master of Arts in Counseling: Art Therapy, or an equivalent program, will be assessed to determine whether they have adequate coursework in the following master's-level course areas, with a letter grade of B or better, and whether they need to complete additional master's-level courses prior to beginning the doctoral program. Applicants are expected to have adequate coursework in the following areas.

Course Areas and Equivalent Courses at Adler

Human Growth and Development

MACAT-650 Life Span Development in Art Therapy, Counseling, and Psychotherapy 3 cr.

Counseling Theory

MACAT-525 Historical and Theoretical Perspectives of Art Therapy, Counseling, and Psychotherapy 3 cr.

Counseling Techniques

MACT-653 Theories and Methods of Intervention in Art Therapy, Counseling, and Psychotherapy II: Trauma, Loss, Grief, and Bereavement 3 cr.

MACT-523 Basic Skills for Psychotherapy and the Use of Art Therapy 3 cr.

MACT-654 Neuroscience in Art Therapy, Counseling and Psychotherapy 3 cr.

Group Dynamics, Processing, and Counseling

MACAT-527 Use of Art Therapy in Group Psychotherapy and Psychopathology 3 cr.

Appraisal of Individuals

MACAT-526 Assessment and Appraisal in Art Therapy, Counseling, and Psychotherapy 3 cr.

Research and Evaluation

MACAT-524 Research Methods in Art Therapy, Counseling, and Psychotherapy 3 cr.

Professional, Legal, and Ethical

MACAT-515 Professional Development, Issues, and Ethics in Art Therapy, Counseling, and Psychopathology 3 cr.

Social and Cultural Foundations

MACAT-651 Sociocultural and Transcultural Multicultural Approaches in Art Therapy, Counseling, and Psychopathology 3 cr.

Lifestyles and Career Development

MACAT-521 Lifestyle and Career Development 3 cr.

Substance Abuse

MACAT-520 Introduction to Addictive Disorders 3 cr.

Maladaptive Behavior and Psychopathology

MAT-522 Biopsychosocial Bases of Health and Dysfunction for Counselors 3 cr.

MAT-518 Advanced Counseling Methods and Adlerian Psychology and Psychopathology 3 cr.

Family Dynamics

MACAT-652 Theories and Methods of Intervention in Art Therapy, Counseling, and Psychotherapy I: Couple, Families, and Older Adults 3 cr.

MACAT-519 Adlerian Theories and Integrative Interventions for Families, Parents, and Teachers 2 cr.

Clinical Practicum/Internship

MACAT-667, MACAT-668, MACAT-669 Practicum Seminars I, and Internships I, & II in Art Therapy, Counseling, and Psychotherapy: Consultation and Supervision 2 cr. each

MACAT-677, MAT-678, MAT-679 Practicum I, Internship II, & III in Art Therapy, Counseling, and Psychotherapy: Consultation and Supervision 1 cr. each

Clinical Training: Practicum/Internship (minimum of 700 hours)

Application Requirements

Applicants must submit the following in order to be considered for admission:

- Application for admission.
- Proof of registration as an art therapist or 18 hours of studio credit.
- Two letters of recommendation.
- Interview with a faculty member.
- Official valid transcripts from all colleges or universities attended.

Applicants who are graduates, in good standing, from Adler University's Master of Arts in Counseling: Art Therapy program may have one letter of recommendation and/or interview waived.

Transfer Credits

Students accepted for admission may be granted transfer credit for graduate-level courses previously taken at another accredited institution. A maximum of nine credit hours may be transferred into the Ph.D. program. Hence, a minimum of 51 credit hours must be satisfied through courses offered by Adler University for the Ph.D. in Art Therapy program, including the comprehensive examination and dissertation courses.

Degree Requirements

SJP 513	Social Justice Practicum I (for students who did not have an SJP experience)	1 cr.
PhDAT-820	Professional Orientation I	2 cr.
PhDAT-822	Advanced Philosophy of Art I	3 cr.
PhDAT-824	Community Engagement and Socially Responsible Leadership	3 cr.
PhDAT-827	Neurodiversity and Neuroaesthetics	3 cr.
SJP 514	Social Justice Practicum II	1 cr.
PhDAT-821	Professional Orientation II	2 cr.
PhDAT-823	Advanced Philosophy of Art II	3 cr.
PhDAT-826	Qualitative and Emergent Research Methods in Art Therapy	3 cr.
PhDAT-825	Professional Identity and Advanced Ethics	3 cr.
PhDAT-828	Quantitative Research Methods and Art Therapy	3 cr.
PhDAT-829	Clinical Supervision and Consultation	3 cr.
PhDAT-830	Foundations in Thanatology in Art Therapy	3 cr.
	Elective I: Consult with Faculty Advisor (see list of electives)	2 cr.
PhDAT-831	Art Therapy Pedagogy and Art-Based Research	3 cr.
	Elective II: Consult with Faculty Advisor (see list of electives)	2 cr.
	Elective III: Consult with Faculty Advisor (see list of electives)	2 cr.
PhDAT-832	Applied Statistics in Research and Art Therapy	3 cr.
PhDAT-850	Doctoral Internship and Seminar I	2 cr.
	Elective IV: Consult with Faculty Advisor (see list of electives)	2 cr.
PhDAT-851	Doctoral Internship and Seminar II	2 cr.
PhDAT-900	PhDAT Comprehensive Examination	0 cr.
PhDAT-852	Doctoral Internship and Seminar III	2 cr.
PhDAT-901	Dissertation I	3 cr.

Year 3 Spring Term (3 credits)

PhDAT-902	Dissertation II	3 cr.
PhDAT-903	Dissertation III	3 cr.

Elective Choices for the PhDAT Program

Students choose four of the five elective course offerings with approval from their Faculty Advisor.

PhDAT-833	Special Topics in Art Therapy	2 cr.
PhDAT-834	Trauma Informed Care	2 cr.
PhDAT-835	Seminar in Human Sexuality	2 cr.
PhDAT-836	Intermodal Applications in Art Therapy	2 cr.
PhDAT-837	Advanced Adlerian Theory and Integrative Art Therapy Experientials and Interventions	2 cr.

Internship

The PhDAT internship experience is designed to provide students a forum to enrich their professional portfolios and strengthen their career possibilities and potentials as expert clinicians able to practice within a focus of their choice, to engage in research activities, to enrich their professional portfolios, and to strengthen their career possibilities as researchers, educators, clinical supervisors, and socially responsible practitioners. This course will also offer opportunities to consult with professional colleagues, to develop effective working relationships and to build awareness of clinical art therapy. Students will work with their Faculty Advisor to tailor their individual internship experiences in order to enhance their professional goals. As a result, students will be responsible for developing their internship training sites and opportunities with assistance and support from their Faculty Advisor.

The Doctoral Internship and Seminar provides the foundation for the dissertation and the development of the student's advanced clinical theory. Students are responsible for developing a 700-hour internship, in consultation with core faculty and their Faculty Advisor, and will be encouraged to tailor their individual experiences in a manner that best enhances their unique professional goals. The 700 total hours will span the doctoral internship in addition to additional hours for Seminar I, II, and III. All students will need to complete the 700-hours internship and seminar, which builds skills through some combination of research, education, administration, clinical supervision, and leadership.

Social Justice Practicum

Students who did not have Social Justice Practicum in their master's-degree program prior to their admission to the PhDAT program are expected to complete 200 hours of internship in the area of community services, leadership, or advocacy in the Social Justice Practicum I and II.

Comprehensive Examination

Each student must take and pass a written comprehensive essay examination prior to candidacy for the doctoral degree. The exam assesses competence in the core areas (clinical art therapy, research, leadership and advocacy, clinical supervision, and teaching). The comprehensive examination typically takes place in the summer semester every year. Passing the comprehensive examination is one of several prerequisites to initiating dissertation coursework. Students must have completed the PhDAT core courses with the exception of internship hours and some possible elective courses and have a GPA of 3.5 or to be eligible to take the comprehensive examination. Students must inform their Faculty Advisor of their intent to take the examination by the end of February prior to the summer in which the comprehensive examination takes place. The entire comprehensive examination must be completed during the semester in which it is begun. For further details regarding the comprehensive examination, refer to the PhDAT Doctoral Handbook.

The comprehensive examination is composed of two parts. Part one focuses on the integration of theories and practice in the areas of leadership in the field of clinical art therapy, research, leadership and advocacy, clinical supervision, and teaching. Responses to the questions are to be completed within designated time periods. Part two focuses on a question related to the student's special interest area and is jointly developed by the student and advisor. Part two is to be completed within a designated time period. Students must pass the candidacy examination before enrolling in dissertation hours and related courses.

PhDAT Dissertation

Doctoral candidates are expected to apply one or more major research models or theories to conduct a research project in a dissertation format. The research needs to be used as a means to add knowledge, preferences, and evidences in their art therapy research dissertation and to draw on quantitative, qualitative, mixed methods, emergent, or

art-based methodologies. Research will be expected to make an original contribution to the field that demonstrates program competencies that include leadership in the field of art therapy, research, education, and clinical supervision.

Graduation Requirements

1. Satisfactory completion of all core courses (39 credit hours) and electives (6 credit hours).
2. Satisfactory completion of 700 internship hours at an approved internship site.
3. A cumulative grade point average of 3.0 or higher.
4. Successful completion of the PhDAT Comprehensive Examination.
5. Successful completion of a doctoral dissertation and oral defense.
6. Submission of completed Graduation Application and full payment of all outstanding tuition and fees.
7. Satisfactory completion of Social Justice Practicum I and II.

Doctor of Philosophy in Art Therapy Course Descriptions

SJP 513

Social Justice Practicum I

1 Credit

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that begins in the fall term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members. All students must complete the SJP before advancing on to any clinical or discipline specific training, regardless of the program in which they are enrolled. SJP requirements include (1) completion of a minimum of 200 hours at an SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. The SJP may not be waived and no life credit is admissible to meet this requirement. *Note: During the fall term, students enrolled in the SJP attend at least two SJP workshops and complete a minimum of 50 hours upon placement at site.*

SJP 514

Social Justice Practicum II

1 Credit

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline specific experiential practicum that begins in the Fall Term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change; and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members. All students must complete the SJP before advancing onto any clinical or discipline specific training, respective of the program in which they are enrolled. SJP requirements include: 1) completion of a minimum of 200 hours at an SJP site; 2) attendance at a monthly, campus-based SJP workshop; and 3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the mid-term and final evaluation to receive credit for completing the SJP. The SJP may not be waived and no life credit is admissible to meet this requirement. During the Fall Term students enrolled in the SJP must attend at least 2 SJP Workshops and complete a minimum of 50 hours upon placement at site.

PhDAT-820

Professional Orientation I

2 Credits

This course will provide students with an opportunity to meet in a small group with peers and faculty. The professional orientation covers advisement and mentoring around Adler University degree requirements and mission and an orientation to the fields of art, art therapy, clinical supervision, education, advocacy, and art therapy research, informed by Adlerian values and concepts as they relate to students' personal and professional growth. Students will be introduced to ethics of practice and to supervisory requirements within the context of social responsibility.

PhDAT-821

Professional Orientation II

2 Credits

This course will continue to provide students with an opportunity to meet in a small group with peers and faculty. The professional orientation covers advisement and mentoring around Adler University degree requirements and mission and an orientation to the fields of art, art therapy, clinical supervision, education, advocacy, and art therapy research, informed by Adlerian values and concepts as they relate to students' personal and professional growth. Students will be introduced to ethics of practice and to supervisory requirements within the context of social responsibility.

PhDAT-822

Advanced Philosophy of Art I

3 Credits

In this course, students will learn to think philosophically about human creativity, symbol, image, and metaphor and the role of the arts for the advanced practice of art therapy. Historical and Western perspectives of arts-relevant philosophies will be examined in relationship to the role of aesthetics in service of alleviating human suffering. Students will learn to discern, illuminate and make transparent the inherent biases in predominantly Western philosophies informing current art-based approaches in therapy. Phenomenology, as a philosophy and methodology deeply linked with the arts therapies, will inform lectures, reflections, and assignments.

PhDAT-823**Advanced Philosophy of Art II****3 Credits**

This course provides a continued exploration of art philosophy/aesthetics, focusing on Eastern, interdisciplinary approaches and contemporary thinking such as eco-aesthetics. Students will gain an understanding of, and appreciation for, philosophies of art as these philosophies relate to current practices in the field of art therapy, particularly as they influence practices in clinical supervision, education, and research. Through critical discourse with selected contemporary and culturally diverse philosophical texts, including indigenous conceptualizations and feminist aesthetics, students will examine resonance and congruence with their advanced professional goals. Students will engage in discussions and art-making to facilitate reflection on their own experiences, values, and emerging personal philosophy of art.

PhDAT-824**Community Engagement and Socially Responsible Leadership****3 Credits**

Integrating the Adlerian foundation of community engagement into current approaches to leadership will help the student gain skills in best practices in art therapy research, education, clinical supervision, program development, and social advocacy. Students will explore what it means to be an ethical leader, identify leadership strategies and values, and investigate the role of art within the interplay of personal, collective, and cultural structures to shape work with communities and build a capacity for creative action. This inclusive course will use art-related and other texts to explore a wide array of views, including theoretical models, both mainstream and marginal, along with eco-psychological approaches. This course also focuses on strengthening a deeper awareness of intersectionality and mechanisms of exclusion. This course may also provide interested students with a cultural experience within a local community or in a national or international experience. Such experiences engage the student as they acquire knowledge, skills, and values related to individual and group diversity by contributing to the integration, transformation, and application of knowledge of the profession. This course may require additional costs including travel, living arrangements, and personal expenses. Students will explore the course topics as they develop professional skills for research, writing, and presentations.

PhDAT-825**Professional Identity and Advanced Ethics****3 Credits**

This course focuses on how the Ethical Principles for Art Therapists set forth by the American Art Therapy Association (AATA), the Art Therapy Credentials Board (ATCB), and the Commission on Accreditation of Allied Health Education Programs (CAAHEP) promote and maintain the standards of art therapy. Emphasis will be placed on understanding how these organizations align with the protection of individuals while engaging in social advocacy as well as the role that institutional review boards have in protecting the public. Attention will be given to developing leadership in supervisory capacities as well as resolving ethical dilemmas using ethical decision-making models, all of which align with the legal guidelines that formulate social justice work.

PhDAT-826**Qualitative and Emergent Research Methods in Art Therapy****3 Credits**

This course will survey major qualitative research methodologies with an emphasis on ethical and socially responsible research practices. The course will include critical reviews of major qualitative methods, such as phenomenology, case studies, and ethnographic and heuristic research designs. Students will critically review literature, practice elements of research design development, select variables and participants for study, and be introduced to qualitative data analysis software, such as ATLAS.ti.

Students will be introduced to emergent research methods in qualitative applications as responsive and adaptive approaches to challenging and changing conditions in research practice. Students will develop elements of emergent research processes to address socially meaningful questions, such as indigenous methods, visual ethnography and methodology of the oppressed, and community health practices. Skills taught in this course align with the American Art Therapy Association (AATA) and the Commission on Accreditation of Allied Health Education Programs (CAAHEP) and any other pertinent professional accrediting bodies.

PhDAT-827**Neurodiversity and Neuroaesthetics****3 Credits**

This course will examine individual differences, primarily through the lenses of neuroscience, neuroaesthetics, and evolutionary psychology. The role of art and art-making in enhancing individual strengths will be a primary focus. Literature addressing how a range of neurodiverse conditions are viewed cross-culturally and how culture impacts labels and the utilization of services will be introduced, in support of socially responsible practice. In addition to integrating a broad understanding of neuroscience, neuroaesthetics, and evolutionary psychology foundations, students will explore a particular area of study pertinent to their chosen career path and interest to expand their knowledge base as researchers, educators, clinical supervisors, and socially responsible practitioners. This course will include in-depth art therapy experientials that relate to the functions of the brain and consider the impact of such approaches within the profession.

PhDAT-828**Quantitative Research Methods and Art Therapy****3 Credits**

This course focuses on best practices in quantitative research and the application of both descriptive and inferential statistical analysis with a focus on art therapy. The course will include a critical review of current research, including design limitations and recommendations for improvement. Students will gain an in-depth understanding of how quantitative research designs can be applied to program evaluation and education. The course will explore various survey techniques as well as correlational and experimental designs and mixed-methods approaches to advance knowledge in the field of art therapy. Students will acquire a conceptual understanding of informed consent, ethical data analysis and management, logistics of data collection and entry, and the use of statistical analytical methods. Students will develop a quantitative research design congruent with their current philosophy of art.

PhDAT-829**Clinical Supervision and Consultation****3 Credits**

This course will give students an opportunity to research models and theories informing consultation and clinical supervision, including art-based supervision, in a variety of settings. A review of all dimensions of supervision will include the supervisory contract, the supervisory relationship and issues related to countertransference, diversity, gender, and power differentials. The student will learn how to structure supervision using a variety of modalities. Students will apply learning from experiential labs to develop and advance their supervisory skills. The course will consider ethical dilemmas and legal issues pertinent to supervision. A discussion of ethical considerations will include caveats regarding the introduction of art activities in supervision with non-art-based supervisees. All models, methods, and techniques will be examined within the context of leadership and of ethical and innovative practices. Students will examine diverse conceptualizations of supervision and consultation and develop nuanced discernment skills related to professional standards and socially responsible practice. Application of ideas and supervision practices with diverse supervisee populations will be explored.

PhDAT-830**Foundations in Thanatology in Art Therapy****3 Credits**

This course focuses on the foundational principles, applications, and cultural expressions within the field of thanatology. Topics to be examined include personal and societal attitudes toward death, dying, grief, bereavement, and loss as well as different models of grief. Students will also learn about social and psychological implications relating to suicide, genocide, disasters, violence, and traumatic death. Other topics include how public policy affects healthcare for both the dying and their caregivers. This course will also explore secular and religious attitudes as well as multicultural death rituals and ceremonies. Students will reflect on course material by drawing upon art-based media.

PhDAT-831**Art Therapy Pedagogy and Art-Based Research****3 Credits**

This class explores the teaching and learning approaches to cultural and clinical mental health education, application, and practice through the exploration of epistemologies of justified beliefs and the rationale of different knowledge claims as they relate to Intersectionality in regards to race, ethnicity, language, spirituality, religion, values, beliefs, abilities, class, sexuality, gender and marginalized populations. It also incorporates complementary and integrative clinical healthcare practices, advanced research, and advanced art therapy approaches to prepare students as stewards and scholars of the profession in order to successfully practice in a world in which understanding of individual and cultural diversity is essential for peace and progress. This course supports and fosters a community-based, collaborative, and supportive learning culture focused on social justice pedagogical approaches through the integration of Adlerian principles and Adlerian Art Therapy principles, as well as create collaborative, integrative healthcare approaches with individuals from various professions. This course helps foster a deeper understanding of art-based methodological tools across research elements of data collection, analysis, interpretation, and representation and focus on the arts not merely as subject, but also as the primary mode of research design.

Students will integrate the invisible and intangible aspects of human experience and its expression with research tools and theory and develop skills to further the advancement of the fields of art-based research and art therapy. Utilizing engaged and holistic art-based research practices, such as writing, visual art, music, film, and other media, students will learn to aesthetically and critically reflect on human experience, to understand and articulate their culturally informed research bias and social-justice-related values, and to develop art-based research designs congruent with a philosophy of art. Skills taught in this course align with the American Art Therapy Association (AATA) and the Commission on Accreditation of Allied Health Education Programs (CAAHEP) and any other pertinent professional accrediting bodies.

PhDAT-832**Applied Statistics in Research and Art Therapy****3 Credits**

This course provides an overview of advanced statistical methods and techniques. Upon the completion of the course, students will be able to select and apply appropriate statistical methods to specific research questions. Students will be expected to have a good working knowledge of the use of SPSS and other statistical data analysis programs and must be able to convey basic knowledge of these systems to students and supervisees. Knowledge of statistics will be applied to needs assessment and program evaluation to enable high-level decision-making with regard to treatment interventions and program development efforts. The ethical and socially responsible applicability of skills and approaches to the dissertation and to the practice of art therapy will be emphasized.

PhDAT-833**Special Topics in Art Therapy****2 Credits**

This course serves the purpose of bringing a special focus to areas of concern to leaders in the field of art therapy not fully addressed in other core courses. The Special Topics course is designed to examine special interests, including current and emerging issues and interdisciplinary topics. Topics will alternate and address the following areas: advanced life span issues; aging; military veterans and families; spiritual and alternative approaches to healing; advanced Adlerian theory and integrative therapy experientials and interventions; and advanced methods and theories of intersectionality and community engagement.

PhDAT-834**Trauma-Informed Care****2 Credits**

This course provides an advanced examination of conceptualizations and approaches to trauma related to emotional, sexual, physical, and political violence and terrorism and emotional abuse and neglect, including forms of system-induced trauma. Neurobiology affirms art therapy's efficacy in helping people to reconstruct meaning and to give expression and voice to traumatic experiences, and to help individuals and groups move toward transformation and integration. Art therapy also emerges as effective in combination with other proven approaches for trauma resolution and self-regulation, including somatic and other art-based approaches. The course integrates advanced foci, such as the role of the clinical supervisor in helping therapists work through their own experiences of secondary trauma, and on preventing retraumatization of research subjects. Community-relevant applications within an adaptive, inclusive, and creative frame will be explored.

PhDAT-835**Seminar in Human Sexuality****2 Credits**

This course will examine personal and interpersonal dimensions of the human sexual experience, including sexual issues in the context of oppression, liberation, and social justice. Several domains that influence sexuality will be explored, including gender identity, sexual orientation, sexual attitudes, and sexual behavior. Perspectives relating to lesbian, gay, bisexual, transgendered, and gender nonconforming people's concerns, as they pertain to advanced art therapy practices, will be explored, including how heterosexism and heteronormativity, homophobia, transphobia, and other mechanisms of exclusion influence gender identity development, identity development, and general health and well-being. Particular attention will be paid to the impact of the therapeutic alliance and the supervisory relationship, and understanding human sexuality and its relationship to art and artistic expression.

PhDAT-836**Intermodal Applications in Art Therapy****2 Credits**

This course will examine basic principles of expressive arts therapy, education, and consultation – in particular, the underlying theory that supports the integrated application of the arts in therapy. Course content will focus on what all art forms have in common (e.g., image, synesthetic experience, and art as a vehicle for human expression, improvisation, communication, and engaging the creative process). Students will engage a variety of art modalities through experiential exercises that explore the phenomena of intermodal transfer, crystallization, and high sensitivity/low skill and examine how these strategies deepen our understanding of images and promote therapeutic responses in individuals and in groups, large and small.

PhDAT-837**Advanced Adlerian Theory and Integrative Art Therapy Experientials and Interventions** **2 Credits**

This course covers the theoretical principles of individual psychology and Adlerian theory, including striving for holism, phenomenology, teleology, and social interest. This course addresses the cognitive, affective, and sociocultural dimensions of the individual's development; the selectivity of perception in the formation of one's worldview; motivational factors; creativity and the arts; and the indivisibility of the person. The course discusses how Adlerian practitioners help build and maintain clinical relationships through the use of social interest and social advocacy. Adlerian projective and objective lifestyle assessments and Adlerian art therapy assessments will be explored. Family constellation, life tasks, early recollections, dreams and other aspects of the lifestyle will be taught. Focus is on interventions that are congruent with social interest, and empirically supported practice toward comprehensive, culture-specific treatment planning. Emphasis is placed on the role of the practitioner and the client throughout the four stages of Adlerian therapy. The use of interventions for educators, parents, and caregivers will also be explored so that students have an opportunity to learn about being a credentialed Adlerian therapist or an Adlerian consultant within research, educational, and leadership fields.

PhDAT-850**Doctoral Internship and Seminar I** **2 Credits**

The Doctoral Internship and Seminar will provide students with a field experience designed to apply socially responsible practice within a focus of their choice, to engage in research activities, to enrich their professional portfolios, and to strengthen their career possibilities as researchers, clinical supervisors, and educators. This course will also offer opportunities to consult with professional colleagues, to develop effective working relationships, and to build awareness of clinical art therapy. This course provides the foundation for the dissertation and the development of the student's advanced clinical theory. Students are responsible for developing a 700-hour internship, in consultation with core faculty and their Faculty Advisor, and will be encouraged to tailor their individual experiences in a manner that best enhances their unique professional goals. The 700 total hours will span Doctoral Internship and Seminar I, II, and III. The course serves as a peer consultation group in which students learn to present information in a standard format to question and analyze their work and to function as peer consultants to their colleagues. Students participate in supervision through case presentations; discussion; art-based experiential activities; and reflecting on and evaluating their field experiences in research, teaching, clinical supervision, and/or social action. A credentialed clinical art therapist guides interactive dialogue and experiential exercises. Students are expected to connect emerging theoretical foundations in art therapy with their internship experiences. Students will be introduced to Adlerian concepts and asked to consider how Adlerian art therapy relates to their experiences in their internship.

PhDAT-851**Doctoral Internship and Seminar II** **2 Credits**

This is a continuation of the Doctoral Internship and Seminar I experience toward the goal of completing the 700-hour requirement. This course focuses on the implementation of the student's dissertation proposal developed and approved in Dissertation I. The student will engage in in-depth scholarship and research on an important issue in the field of art therapy. The research is student directed and conducted in consultation with a doctoral committee and advisor on a topic of quantitative, qualitative, or art-based study relevant to the theory and practice of art therapy. Doctoral Internship and Seminar II will provide students with a field experience designed to enrich their professional portfolios and to strengthen their career possibilities as expert clinical supervisors, educators, researchers, and social activists. This course will also offer opportunities to consult with professional colleagues, to develop effective working relationships, and to build leadership in the field of clinical art therapy.

PhDAT-852**Doctoral Internship and Seminar III** **2 Credits**

This course is a continuation of Doctoral Internship and Seminar II and covers advanced intensive experience congruent with the student's professional goals and the completion of the 700-hour requirement. The student will engage in in-depth scholarship and research on an important issue in the field of art therapy. The research is student directed and conducted in consultation with a doctoral committee and advisor on a topic of study relevant to the theory and practice of art therapy. Doctoral Internship and Seminar III continues to provide students with a field experience designed to enrich their professional portfolios and to strengthen their career possibilities as expert clinical supervisors, educators, researchers, leaders, and social activists. This course will also offer opportunities to consult with professional colleagues, to develop effective working relationships, and to build awareness of clinical art therapy.

PhDAT-900**PhDAT Comprehensive Examination** **0 Credits**

The PhDAT Comprehensive Examination is a milestone experience allowing faculty to evaluate the student's readiness for dissertation. It provides an opportunity for students to demonstrate their theoretical and clinical competency in the field and across the student learning outcomes (SLOs) specifically identified for the degree. The research component of the comprehensive exam additionally helps students progress in their completion of the dissertation. The comprehensive exam comprises two parts. Part one focuses on the integration of theories and practice in the field of art therapy, as researchers, educators, clinical supervisors, and leaders. Responses to the questions are to be completed within a designated time period. Part two focuses on a question related to the student's special interest area and is jointly developed by the student and Faculty Advisor and is to be completed within a designated time period. Students are given the opportunity to synthesize the advanced curricular areas and demonstrate mastery in their area(s) of expertise. Additionally, the exam assesses students' integration of their knowledge with their clinical experience into a unified, coherent model. Students are expected to demonstrate advanced professional skills in presentation, academic writing, clinical practice, professional ethics and legal issues, and research methodology and are evaluated accordingly under each of the student learning outcomes. Students must pass the Comprehensive Examination prior to Dissertation I.

PhDAT-901**Dissertation I** **3 Credits**

The doctoral dissertation is designed to contribute to a student's knowledge, skills, and values in scholarship and its importance to the practice of clinical art therapy. The student will engage in in-depth scholarship and research on an important issue in the field of art therapy. The research is student-directed and conducted in consultation with a doctoral committee and Faculty Advisor on a topic of study relevant to the theory and the profession. Dissertations should span a broad range of interests and methodologies within the field of art therapy. The dissertation provides students with the opportunity to engage in in-depth scholarship on an important issue in the field; it provides students the venue to demonstrate their skills in advanced research. Doctoral candidates are strongly encouraged in their dissertation research to utilize an art-based and/or other emergent methodology/paradigm. Research will be expected to make an original contribution to the field that demonstrates the candidate's mastery in a chosen specialization grounded in the candidate's own interest and talents. The dissertation is a student-directed research project conducted in consultation with a doctoral committee on a topic of quantitative or qualitative study relevant to the theory and practice of art therapy. The dissertation demonstrates an integration of science, practice, critical thinking skills, and ethical and cultural awareness required for a socially responsible practitioner in the field of art therapy. Doctoral candidates will

work on the dissertation for three consecutive semesters. This course will focus on the completion of the dissertation proposal. Students are unable to enroll in further dissertation courses until the proposal is completed and accepted. Dissertations must represent substantial research that contributes to the field, including a comprehensive discussion of implications for the field. Preparation and completion of the dissertation proposal, including the first three chapters (introduction, literature review, and methodology) are required. Once this proposal document has been deemed ready by the Dissertation Chair for review, the student will submit the document to the entire committee for formal review. The doctoral student will defend the proposal in an oral presentation to the dissertation committee. With the approval of the committee, the student may then register for Dissertation II. If the proposal is denied, the student must work with the Chair to revise the original proposal or submit a new proposal, continuously enrolling in Dissertation I until the proposal has been successfully defended.

PhDAT-902**Dissertation II****3 Credits**

Students will submit their study for review by Adler University's Institutional Review Board (IRB). Completion of this phase is the goal of Doctoral Internship and Seminar I. Once IRB approval has been granted, the student will complete the necessary actions to conduct research and write the document. If the student opts to do an approved project that does not require IRB approval, the student will develop significant goals in concert with the Chair to demonstrate completion of Doctoral Internship and Seminar II. Students are also required to have attended at least one dissertation defense prior to the completion of the program. This course focuses on the implementation of the student's dissertation proposal developed and approved in Dissertation I. The student will engage in in-depth scholarship and research on an important issue in the field of art therapy. The research is student-directed and conducted in consultation with a doctoral committee and Faculty Advisor on a topic of study relevant to the theory and practice of art therapy.

PhDAT-903**Dissertation III****3 Credits**

Once students have received IRB approval, they may enroll in Dissertation III. Completion of the project is the goal, including preparation for oral defense. Students successfully defend their doctoral dissertation before the dissertation committee. Any required revisions must be completed within the semester the student is registered for Dissertation III. This course will focus on preparation for the final oral defense of the student's dissertation. This course will ensure that all research is completed, has been passed by the readers, and is of publishable quality. The dissertation and oral defense will demonstrate the student's integration of science, practice, critical thinking skills, and ethical and cultural awareness required for a socially responsible practitioner in the field of art therapy. Students will complete a scholarly paper of publishable quality in accordance with Adler University guidelines and guidelines of relevant professional associations.

DOCTOR OF PHILOSOPHY IN COUNSELOR EDUCATION AND SUPERVISION

Program Mission

The mission of the Doctor of Philosophy in Counselor Education and Supervision program is to provide advanced training and education for practicing counselors to achieve advanced professional and personal development in becoming scholars, counselor educators, supervisors, leaders, and advocates in the field of counseling. The clinical and academic focus is on freedom and liberation rather than mere adjustment and adaptation for clients. It furthers the mission of Adler University through the infusion and understanding of the themes of social justice, diversity, multiculturalism, empowerment, oppression, freedom, and liberation. We emphasize scholarship and socially responsible practice.

Program Overview

The program consists of a total of 60 credit hours, including 46 credit hours of core courses and electives, six credit hours of dissertation, and eight credit hours of practicum and internship experiences. Students are expected to complete the curriculum in three years, or longer for part-time students. Program requirements include:

- Completion of core courses and electives (46 credit hours)
- Completion of field training, 100 field hours of practicum (2 credit hours), and 600 field hours of internship (6 credit hours)
- Completion of dissertation (6 credit hours)
- Passage of DCES Comprehensive Examination
- Completion of Social Justice Internship I and II for students who did not have Social Justice Practicum at Adler prior to the admission to the program

Program Learning Outcomes

The DCES program learning objectives were developed based on the 2016 Doctoral Accreditation Standards of Counselor Education and Supervision, Section 6, Doctoral Standards, set forth for the Council for Accreditation of Counseling and Related Programs, as well as the institutional learning objective at Adler University.

Program Learning Outcome 1: Demonstrate an in-depth understanding and identification of the various roles of counselor educators in the training and supervision of counselors; teaching, advancing the standards, knowledge, and skills based on the profession of counseling, research and scholarly work; advocating for the welfare of those whom they serve; and advocating for, and leadership within, the profession.

Program Learning Outcome 2: Demonstrate a conceptual understanding of, and ability to, apply various theories and models in the supervision of counselors with reference to the characteristics of the counselor supervisees, clinical settings, and relevant therapeutic issues.

Program Learning Outcome 3: Demonstrate the ability to apply, evaluate, and integrate theories from both individual and systems perspectives in the provision of interventions in different practice areas in counseling and in serving diverse populations.

Program Learning Outcome 4: Demonstrate competencies in applying teaching strategies, instructional theories, and evaluative measures in the development of curriculum and teaching modules pertaining to counselor education and the training of counselors.

Program Learning Outcome 5: Demonstrate an in-depth understanding and ability to design and implement sound scholarly research from both quantitative and qualitative paradigms and methodologies. This involves

displaying an awareness and understanding of the importance of research and the ability to conceive of research as a researcher. An additional ability is to have the capability to ask proper research questions that lead to proper research designs capable of producing substantial scholarly contributions to the profession.

Program Learning Outcome 6: Demonstrate an advanced understanding of social change theories and a keen awareness of social justice issues and their respective causes from social, cultural, and systemic perspectives.

Program Learning Outcome 7: Demonstrate an in-depth understanding of the role of counselor educators in social changes and advancement of the counseling profession, and the ability to utilize leadership and advocacy models in order to initiate changes with reference to topical and political conditions.

Program Learning Outcome 8: Demonstrate a high level of awareness and aptitude in assessment and evaluation, as well as evidence-informed practices in areas of counseling, teaching, supervision, advocacy, and program development.

Program Learning Outcome 9: Integrate Adlerian principles and counseling approach in areas of counseling, teaching, supervision, and advocacy.

Program Learning Outcome 10: Demonstrate a commitment to socially responsible practice and adherence to ethical standards established by the profession, and to regulations set up by local, regional, and national authorities.

Program Learning Outcome 11: Demonstrate multicultural competencies in all aspects of practice as a counselor educator, with advanced understanding of the impact and management of diverse factors in the preparation of counselors, provision of treatment and intervention for clients, promotion of client welfare, development of programs and services, observation of ethical and legal standards, and initiation of social change through political venues and strategies.

Program Learning Outcome 12: Form an identity and function of a scholar capable of actively contributing to the knowledge base of the profession, as well as to the knowledge base of the mental health professions in general, through scholarly publications. This can be done conceptually through scholarly writing in the form of analysis of the literature, designing research-based models, or constructively writing articles analyzing the profession itself with the intention of improving it. This also involves not only the ability to conduct quantitative and qualitative research, but also the ability to logically conceive and put in writing both the results and the implications of those results in the venue of scholarly, peer-reviewed journal articles and books.

Licensure and Credentials

The aim of the program is to provide advanced training for licensed counselors or mental health professionals who are eligible for master's-level licensure in Illinois or other states.

Although the goal of the program is not the preparation of its students for counselor licensure that only requires a master's degree, students without a counseling license may be able to attain such a credential through this Ph.D. program in the following manner:

- If students graduated from a 48 or more credit hour-program in counseling or a related field and completed the practicum and internship requirements, they can make up the licensure course requirements through the program admission prerequisites or courses in the Ph.D. program.

- If students came from a master's level program with fewer than 48 credit hours, they will need to use this doctoral program as the primary degree when applying for licensure. Besides taking the necessary admission prerequisites, students may also need to have additional clinical internship hours in order to fulfill the state pre-licensure clinical training requirements.
- If students want to use this degree for licensure requirements of other states, they will need to work with their Faculty Advisor to see what additional courses and clinical practicum and internship hours are needed.

Instructional Modality

This program is designed to accommodate the multiple life demands of working professionals. Classes are offered mostly in weekend, evening, blended, or fully online formats. Students can complete the program in three years on a full-time basis or up to seven years part-time.

Minimum Admission Requirements

- A master's degree in counseling or a related field from a regionally accredited U.S. institution or a comparable degree from an international institution.
- Applicants who did not graduate from CACREP-accredited or equivalent programs will be required to complete the equivalency requirements in addition to the doctoral curriculum. (See prerequisites of the program below).
- An academic record that demonstrates ability to fulfill the academic demands of the program. Successful applicants typically have a grade point average of 3.25 or higher on a 4.0 scale for graduate-level coursework.
- Completion of clinical training, a practicum, and/or internship as part of a master's program.
- Approved applicants will be invited to complete an interview as part of the application process

Program Prerequisites

Applicants are expected to have adequate coursework in the following areas. Applicants who did not graduate from a CACREP-accredited or equivalent program will be assessed to determine whether they have adequate coursework in the following master's-level counseling course areas and whether they need to complete additional master's-level courses prior to the beginning of the doctoral program.

Requisite Course Areas and Equivalent Courses at Adler

COUN-532	Professional, Legal, and Ethical Issues in Counseling
COUN-534	Counseling Skills
COUN-533	Counseling Theories
COUN-622	Human Growth and Development
COUN-536	Counseling Multicultural Communities
COUN-540	Group Counseling
COUN-626	Appraisal and Assessment
COUN-625	Research and Program Evaluation
COUN-629	Career Development Theories and Interventions
COUN-535	Diagnosis of Maladaptive Behavior
COUN-618	Couple and Family Counseling (or a course in systems theory/child and adolescent counseling)
COUN-630	Addictions Counseling
Clinical training: Counseling practicum/internship (a minimum of 600 hours)	

Application Requirements

- Application for admission
- Application fee
- Statement of intent
- Resume or curriculum vitae
- Official transcripts from each undergraduate and graduate school attended
- International transcripts must be evaluated by a transcript evaluation service (wes.org or ece.org). Please contact us for specific transcript translation requirements
- Three letters of recommendation accompanying the Adler University recommendation form

Appropriate recommendations are from professors and/or supervisors from significant work or volunteer experiences who can appraise your academic or professional performance.

Degree Requirements

Core Curriculum

DCES-700	Professional Orientation and Scholarly Endeavors I	1 cr.
DCES-701	Professional Orientation and Scholarly Endeavors II	1 cr.
DCES-702	Professional Orientation and Scholarly Endeavors III	1 cr.
*DCES-703	Advanced Counseling Theories, Integration, & Change	3 cr.
DCES-704	Advanced Multicultural Counseling, Advocacy, & Leadership	3 cr.
DCES-705	Pedagogy in Counselor Education	3 cr.
DCES-706	Clinical Supervision	3 cr.
DCES-801	Program Research, Evaluation, and Development	3 cr.
DCES-803	Trauma, Crisis, and Disaster Interventions	3 cr.
DCES-804	Advanced Group Counseling and Supervision	3 cr.
DCES-805	Advanced Techniques in Counseling and Psychotherapy	3 cr.
DCES-821	Qualitative Research Methods in Counseling	3 cr.
DCES-822	Quantitative Research Methods in Counseling	3 cr.
DCES-826	Applied Statistical and Qualitative Analyses in Research	3 cr.
DCES-710	Consultation in Counseling and Mental Health	1 cr.

Electives

Total of 9 cr.

Students may choose three, three-hour courses offered by the program, or 700- or 800-level courses listed in the department elective menu with approval from their Faculty Advisor.

Practicum and Internship Prerequisite Courses

The following courses are required for entry into DCES practicum and internship:

- DCES 703 is a prerequisite for Advanced Clinical Practicum
- DCES 706 is a prerequisite for Supervision internship
- DCES 705 is a prerequisite for teaching internship
- DCES 704 is an internship prerequisite and can be taken concurrently with internship.

Students must achieve grades of B or better in prerequisite courses in order to be admitted into, or continue with, practicum and/or internship seminars.

Field Training

Total of 8 cr.

Advanced Clinical Practicum

DCES-850	Advanced Clinical Counseling Practicum and Seminar	2 cr.
----------	--	-------

Field Training: Counselor Education and Supervision Interns 6 cr.

Internships and seminars listed below can be taken concurrently. However, Social Justice Internships must be taken in the order of I and II

Required Internship Courses

DCES-851	DCES Internship and Seminar I	1 cr.
DCES-852	DCES Internship and Seminar II	1 cr.
DCES-853	DCES Internship and Seminar III	1 cr.
DCES-854	DCES Internship and Seminar IV	1 cr.

For students who have taken Social Justice Practicum at Adler in their master's-level studies prior to the admissions to the Ph.D. CES program:

DCES-855	DCES Internship and Seminar V	1 cr.
DCES-856	DCES Internship and Seminar VI	1 cr.

Students who did not have Social Justice Practicum at Adler in their master's-level studies prior to the admissions to the Ph.D. CES program at Adler are required to take Social Justice Internship in the fall and spring semesters of their third year in the program:

DCES-857	Social Justice Internship I	1 cr.
DCES-858	Social Justice Internship II	1 cr.

DCES Comprehensive Examination

DCES-900	DCES Comprehensive Examination	0 cr.
----------	--------------------------------	-------

Dissertation

DCES-901	DCES Dissertation I	3 cr.
DCES-902	DCES Dissertation II	3 cr.
DCES-903	DCES Dissertation III	3 cr.

Note: Should students not be able to complete their dissertation after DCES Dissertation III, they are required to register for DCES-904, DCES Dissertation Continuation courses until the completion of the dissertation.

Total Credit Hours Required: 60

Field Training: DCES Practicum and Internship

The DCES practicum and internship provide students a forum to enrich their professional portfolios and strengthen their career possibilities and potential as expert clinicians, supervisors, researchers, scholars, and counselor educators. Students will work with their Faculty Advisor to tailor their individual practicum and internship experiences in order to enhance their professional goals. As a result, students will be responsible for developing their practicum and internship training sites and opportunities with assistance and support from their Faculty Advisor.

The Advanced Clinical Counseling Practicum and Seminar provides students a forum to be expert clinicians and advance their clinical counseling skills and experiences in their preferred areas. It consists of a minimum of 100 hours of clinical work, including 40 direct hours. Students are expected to complete these requirements in the timeline with the approval of their Faculty Advisor.

The DCES Internship and Seminar provides students venues to be trained in supervision, teaching, research, and other advanced professional experiences. Students are required to complete 600 hours of internship.

Students can complete these elements of internship in sequence or simultaneously. Students can register for various internships and seminars concurrently with the approval of the Faculty Advisor. However, students must take their supervision internship hours in a fall semester. When formulating internship plans, students should consider using the experience to enhance their career profile and, where possible, specialty areas. In addition to the field hours and site supervision, students are required to register for seminars for group supervision and support.

MANDATORY INTERNSHIP EXPERIENCES

- Supervision (minimum of 100 hours)
- Teaching (minimum of 100 hours)
- Research (minimum of 100 hours). Students are to participate and assist with either current research projects or initiate research projects with faculty members or the community at large.
- DCES-857 and DCES-858 Social Justice Internship I & II

Students who did not have Social Justice Practicum at Adler in their master's degree program prior to their admission to the doctoral CES program are expected to complete 200 hours of internship in the area of community services, leadership, or advocacy in the fall and spring semester of their third year.

OPTIONAL EXPERIENCES

In addition to the mandatory experiences, students may choose to complete their internship hours with one or a combination of the following:

- New area of clinical counseling
- Program development
- Consultation
- Professional leadership
- Other (approved by Faculty Advisor or the doctoral Training Director)

DCES Comprehensive Examination

Each student must take and pass a written comprehensive essay examination prior to candidacy for the doctoral degree. The exam assesses competence in the five CACREP core areas (counseling, leadership and advocacy, supervision, teaching, and research). The comprehensive examination typically takes place in the summer I term every year. Passing the comprehensive exam is one of several prerequisites to initiating dissertation coursework. Students must have completed the DCES core courses with the exception of internship hours and elective courses and have a grade point average of 3.5 or higher in order to be eligible to take the comprehensive examination. Students must inform their Faculty Advisor of their intent to take the examination by the end of the February prior to the summer in which the comprehensive examination takes place. The entire comprehensive examination must be completed during the semester in which it is begun. For further details regarding the comprehensive examination, refer to the DCES Doctoral Handbook.

DCES Dissertation

Students are expected to apply one or more of the major research models or theories to conduct a research project in a dissertation format. The research needs to be structured and oriented toward adding to the knowledge base of counselor education in one or more of the five core competencies in the field (teaching, supervision, advocacy, research, and counseling practice). Students start to formulate their research area during first-year courses, such as Professional Orientation and Scholarly Endeavors, and will refine their research topic as they are taking their research courses. Faculty Advisors will assist students during the process of establishing a dissertation committee, which will guide students to complete their dissertations in compliance with the required format and standards.

Graduation Requirements

1. Satisfactory completion of all core courses (39 credit hours) and electives (6 credit hours)
2. Satisfactory completion of 100 practicum hours at an approved practicum site
3. Satisfactory completion of 600 internship hours at an approved internship site

4. A cumulative grade point average of 3.0 or higher
5. Successful completion of the DCES Comprehensive Examination
6. Successful completion of a doctoral dissertation and oral defense
7. Submission of completed Graduation Application and full payment of all outstanding tuition and fees
8. Satisfactory completion of Social Justice Internship I and II (if appropriate)

Doctor of Philosophy in Counselor Education and Supervision Course Descriptions

DCES-700

Professional Orientation and Scholarly Endeavors I 1 Credit

This is the first course of a three-course sequence (DCES-700, DCES-701, and DCES-702). This course aims to foster the development of the counselor educator identity among students. It will orient students to the role of counselor educator and their ethical and legal responsibility as a scholar, trainer, supervisor, and gatekeeper of the profession. With the assistance from the course instructor and/or faculty mentor, students will start formulating a plan to develop their specialty area(s) through mindful development of practicum and internship experiences, and/or integrating the specialty area in their dissertation research and conference presentations. Students will also start building a professional portfolio and a plan for their leadership and involvement in professional organizations. Practicum and internship planning and application process, and the Institutional Review Board approval procedures, will be discussed. A primary focus of the course is to train students in the process of scholarly research, writing, and publication, along with the understanding of the rules and principles of the APA style. Students will also become familiar with the processes and resources available for the production of original research and involvement in professional organizations.

DCES-701

Professional Orientation and Scholarly Endeavors II 1 Credit

Prerequisite: DCES-700. In this second of the three-course sequence (DCES-700, DCES-701, and DCES-702), this course aims at strengthening the development of the counselor educator scholarly identity as an active contributing member dedicated to the profession. It will emphasize students' actual involvement in counseling organizations. Ethics regarding writing, publishing, and conducting scholarly activities will be discussed. With the assistance and guidance from the course instructor and/or faculty mentor, students will start implementing their plan of research specialty area by conducting a more in-depth literature review regarding the area to refine their interests and explore possible research and dissertation avenues regarding the topic. Students will explore scholarly presentation and publication opportunities. During the course, they will also start the search for practicum opportunities for second fall semester.

DCES-702

Professional Orientation and Scholarly Endeavors III 1 Credit

Prerequisite: DCES-701. In this last of the three-course sequence (DCES-700, DCES-701, and DCES-702), this course aims at further strengthening the development of the counselor educator identity as a scholar and active contributing member to the literature of the field. It will emphasize the actual development and implementation of scholarly manuscripts for submission to major peer-reviewed counseling journals. The submission process is discussed. Further refinement of the literature review of the specialty area is done so as to form a foundation for the literature review for students' dissertation, as well as a paper to be submitted to scholarly journals by the end of the semester. To conclude this professional orientation course sequence, students will learn to construct a CV as part of their professional profile.

DCES-703

Advanced Counseling Theories, Integration, and Change 3 Credits

This course provides doctoral-level counseling students with an advanced, in-depth understanding of traditional, contemporary, and emergent theories of counseling and psychotherapy as well as career counseling. The philosophical assumptions and underpinnings of the major counseling and career theories are examined in such a way as to enhance the understanding and practice of psychotherapy and career counseling at a level well beyond the foundational study of these fields in master's-level programs. The course is grounded in the research literature on effectiveness and models of psychotherapeutic change. The importance of the therapeutic relationship is emphasized along with advanced practices with diverse populations in the context of oppression, liberation, and social justice. There is a focus on infusing Adlerian theory as part of the greater context of psychotherapy integration in its five major manifestations (common factors, technical eclecticism, theoretical integration, assimilative, and teleological integration). The underlying theme of the entire course is enhancing the understanding and skill level of students, with the focus being on dialectically recognizing and meeting the therapeutic needs of the client, rather than the dogmatic acceptance of the counselor's preferred theoretical filter.

DCES-704

Advanced Multicultural Counseling, Advocacy, and Leadership 3 Credits

This course is designed to strengthen doctoral students' ethical and multicultural competencies as counselors/practitioners, counselor educators, supervisors, and researchers. In addition, this course also focuses on students' understanding of leadership and advocacy models and development of advocacy and leadership skills. Students are required to explore and analyze current policies and resources that are impacting their practice and the welfare of their clients and to formulate advocacy strategies and plans for social changes. Self-reflection and confronting personal biases are also part of the course content, along with the practice and application of social justice in the context of race, gender, age, white privilege, non-heterosexual populations, and other diversity issues.

DCES-705

Pedagogy in Counselor Education 3 Credits

This course is designed to orient doctoral-level counseling students to the major teaching and learning theories, perspectives, and developmental trends in the field of counselor education. The course includes in-depth discussion of teaching methods, pedagogy, learning styles, and characteristics of effective teachers. Also covered are issues related to accountability, accreditation, program evaluation, program development, and the role of professors as counselor educators. The course will also emphasize the role of counselor educators in training and preparing beginning and advanced counselors to make contributions to the field. Specifically addressed in the course is how to effectively teach the counseling relationship; use of techniques, counseling process factors, and effective modes of presentation; as well as criteria for gatekeeping; ethical and legal responsibilities; leadership; and becoming a successful professor of counselor education. Other foci include an in-depth exploration of pedagogical techniques; use of technology in teaching; online teaching and curriculum design; writing of learning outcomes and objectives; construction of a syllabus; and assessment of teaching and learning outcomes and evaluations. Throughout the course, students will also develop their teaching philosophy and learn how to find positions in higher education.

DCES-706

Clinical Supervision 3 Credits

This course is designed to explore and apply theoretical and practical knowledge of clinical supervision models in clinical and mental health settings. Through role-plays, case studies, and other experiential learning, students acquire supervisory skills and strategies relevant to supervisees' developmental stages, characteristics, theoretical orientations, ethical issues, and cultural backgrounds. Multicultural and diversity issues in supervision are explored. Students will also examine the multiple roles associated with being a supervisor.

DCES-707**Advanced Assessment, Diagnosis, and Treatment Planning 3 Credits**

This course aims at advancing students' clinical competencies in conducting biopsychosocial assessment, case conceptualization, treatment planning, and assessing intervention outcomes as a form of research. Students will gain a better understanding of group and individual psychometric theories and approaches to assessment and learn to integrate assessment and diagnostic data to inform treatment strategies with reference to individual clients' characteristics and clinical needs. Students will be asked to critically examine the applicability of various assessment tools and diagnostic criteria in the DSM-5 among different clienteles through research evidence and application. The course will also focus on further refinement of students' ability to select, administer, and interpret tests and inventories to assess abilities and interests, and to identify career options.

DCES-710**Consultation in Counseling and Mental Health 1 Credit**

This course is a highly practical description and demonstration of consulting in a professional counseling and mental health context. Consulting skills are compared and contrasted with counseling skills. The characteristics of the effective consultant are detailed, along with how to set up a successful consulting practice. Various consultation settings are described, including mental health agencies, schools, hospitals, and some businesses, as well as how to propose, contract and deliver professional trainings and seminars. Issues related to diversity and socially responsible practice are also addressed. In addition, students learn how to set fees and how to write up invoices. Finally, the course teaches students how to properly report consulting income and take deductions on their federal income tax returns.

DCES-801**Program Research, Evaluation, and Development 3 Credits**

This course will explore in-depth models of program evaluation and development. Students will learn about the application of research techniques and models to conduct needs assessments, input, process, and outcome program evaluation and use the evaluation data to inform program development or enhancement. Mixed research designs and action research will also be covered. Aspects of research related to program evaluation, grant writing, and fund acquisition for program development will be discussed. Students will also have a chance to explore funding opportunities for program development, as well as learn the role of program managers in observing state and federal accreditation and funding guidelines.

DCES-802**Advanced Systems, Couple and Family Counseling 3 Credits**

This course provides advanced study in couple, family, systems theories, and major models of family and couple interventions. Students will examine current research theories and analyze the applicability of these theories and models to populations rooted in diverse cultural systems. Students are expected to be able to assess and conceptualize clinical issues in family situations and select treatment modalities with reference to the family and individual members' development cycle, dynamics of the family within the systems, and the effect of cultural factors and social issues on the family. There will be a special emphasis on the application of Adlerian concepts and principles when working with couples, family, and children. Clinical and developmental issues among alternative family structures will also be explored.

DCES-803**Trauma, Crisis, and Disaster Interventions 3 Credits**

This course is designed to advance clinicians' knowledge and skills in responding to both small- and large-scale crises and trauma, as an individual practitioner and as part of an interdisciplinary team in an agency or a community. Students will study in-depth the effects of suicide, crises, disasters, and other trauma-causing events on persons of all ages, their

respective family, and the community. Students will develop a foundation for the assessment of individuals' post-trauma biopsychological conditions and provision of treatment and intervention. In addition, vulnerabilities and at-risk populations will be analyzed. Professional, diversity, and ethical concerns in working with these at-risk populations, and in the provision of treatments and interventions, will be covered. Finally, the course also reviews issues affecting therapists who work with crisis and trauma populations and suggests strategies for self-care.

DCES-804**Advanced Group Counseling and Supervision 3 Credits**

The course is designed to advance both students' theoretical understanding and skill level in actual practice in facilitating group dynamics. Several approaches to group work are covered, including wellness and personal growth, mental health, and therapeutic groups for diverse clienteles, settings, and clinical issues. Students will be able to demonstrate competency in the conceptualization of group process, group stages, clinical issues, cultural factors, and in providing intervention to bring about therapeutic effects for its members. Evidence-based interventions and research on group effectiveness and design of group treatments are also emphasized, along with the development of effective group leader characteristics and relationship styles. Students will develop supervisory skills and strategies in the training of entry-level to advanced group counselors. In addition, professional and ethical issues in leading groups in terms of both training and supervising group leaders will be discussed. The overall emphasis of the course is to produce group counselors and therapists with advanced understanding, skills, and effectiveness.

DCES-805**Advanced Techniques in Counseling and Psychotherapy 3 Credits**

Prerequisite: DCES-703. As the logical extension of the Advanced Counseling Theories, Integration, and Change course (DCES-703), this course explores the wide range of techniques, strategies, procedures, and approaches in counseling and psychotherapy; all in the context of successfully treating mental and emotional disorders, as well as bringing about enhanced states of wellness, well-being, and psychological freedom. Theory is not a focus for this course so much as actual techniques applied from an advanced integrative perspective. Techniques and procedures taken from such diverse schools as Adlerian, cognitive-behavioral, psychodynamic, Gestalt, existential, mindfulness and concentrative meditation, feminist, multicultural, and couple and family systems are explored. In addition, various models of change and change dynamics are applied, along with research findings on what brings about therapeutic change and positive outcomes in counseling and psychotherapy. Also covered is therapy with difficult clients. Skill building comprises a major part of the course, including empathy enhancement, timing, persuasion, clinical intuition, clinical decision-making, and managing countertransference and projective identifications. The approach of the course is oriented around how to best serve the needs of clients while achieving therapeutic change sooner rather than later.

DCES-821**Qualitative Research Methods in Counseling 3 Credits**

This course is designed to provide in-depth study in various qualitative research methods in counseling, program evaluation, education, and behavioral sciences. Students will learn to conceptualize, critique, and interpret qualitative research articles and to become intelligent consumers of research. Students will also become familiar with software for analyzing qualitative research data, recording, coding, and reporting of research data. Ethical and cultural strategies for interpreting and reporting the results of research and program development will also be covered.

DCES-822**Quantitative Research Methods in Counseling 3 Credits**

This course focuses on the use of quantitative data and application of both descriptive and inferential statistical research methods in the field of counseling, program evaluation, education, and behavioral sciences. Students will gain an in-depth understanding and application of various quantitative research designs, including survey techniques and correlational and experimental designs. Students will learn to critique and interpret quantitative research articles, validity, and reliability of the findings, and to become intelligent consumers of research. Ethical and diversity issues in relation to quantitative research will also be examined. Students will acquire a conceptual understanding of data categorization and management, logistics of data collection and entry, and use of corresponding statistical analytical methods for different types of data and research approaches. They will also acquire a working knowledge of basic Excel and SPSS statistical functions.

DCES-823**Applied Statistics and Analysis in Research 3 Credits**

Prerequisite: DCES-822. This course provides an overview of advanced statistical methods and techniques. Upon the completion of the course, students will be able to select and apply an appropriate multivariate statistical methodology with reference to the nature of the research and specific research questions. Students are expected to have a good command of the use of SPSS, or other computer programs, to manage data and conduct statistical analyses. Statistical approaches to be included in the course are multiple regressions, factor analysis including MANOVA, path analysis, multiple discriminant analysis, logistic regression, and structural equation modeling.

DCES-824**Qualitative Data Analysis in Research 3 Credits**

Prerequisite: DCES-822. This course provides an in-depth study of various qualitative research approaches and related data collection methods. As a result of the course, students are expected to be familiar with ways of analyzing different types of qualitative data corresponding to the purpose and the design of the research model. Students are expected to be efficient in applying computer software, such as ATLAS.ti, to enter, analyze, and induce the results of the research.

DCES-825**Clinical Research in Counseling and Psychotherapy 1 Credit**

This course is specifically designed to examine the latest research in counseling and psychotherapy. Topics studied include outcome studies, comparison studies, meta-analyses, counseling/therapy effectiveness, evidence-based practices, empirically supported treatments, effect sizes, designing and testing new techniques, and the effects of various therapist characteristics such as empathy and authenticity. The course is geared toward helping students who intend to do dissertations involving clinical research.

DCES-826**Applied Statistical and Qualitative Analyses in Research 3 Credits**

Prerequisite: DCES-821 and DCES-822. This course provides students training in advanced statistical methods and techniques in analyzing, interpreting, and reporting quantitative data in research. Upon the completion of the course, students will be able to select and apply both descriptive and inference statistical methods including multivariate analyses, with reference to the nature of the research and specific quantitative research questions. Students will also have an in-depth study of various qualitative methods in data collection and sorting and report of data corresponding to the purpose and design of different research models. Students are expected to have a good command of the use of computerized packages, such as SPSS, to manage data and conduct statistical analyses, and ATLAS.ti, or other similar software packages, in the various analyses of qualitative data.

DCES-850**Advanced Clinical Counseling Practicum and Seminar 2 Credits**

Prerequisites: DCES-703, DCES-705, DCES-706. The practicum aims at students' advancement of counseling skills in their chosen areas to that of an expert level. It requires a minimum of 100 hours at a mental health setting, including 40 hours of direct client counseling service in the form of individual, couple and family, and group counseling. When formulating practicum plans, students should consider that this is a means to either deepen or widen their current skills and career profile and experience. Practicum plan is subject to the approval of the student's Faculty Advisor or the Program Director. In addition to the field hours and site supervision, students are required to register for DCES-850 and receive weekly individual or triadic supervision from a faculty member.

DCES-851**DCES Internship and Seminar I 1 Credit**

Prerequisites: DCES-705, DCES-706, DCES-850. Students are required to complete 600 hours of internship. In this course, students are expected to provide supervision to either master's students who are in practicum, or practicing counselors, at an external site. Students apply supervision models and approaches learned in DCES-706, Clinical Supervision and Consultation, with program faculty supervision. Internship plans are subject to the approval of the student's Faculty Advisor or the Program Director.

DCES-852**DCES Internship and Seminar II 1 Credit**

Prerequisites: DCES-703, DCES-705, DCES-706, DCES-850. This is a continuation of students' internship experience toward the goal of completing the 600-hour requirement, which includes the mandatory 100 hours of experiences in group leadership and supervision for master's students or groups at an external site. Internship plans are subject to the approval of the student's Faculty Advisor or the Program Director. In addition to the field hours and site supervision, students are required to register for the seminar for group supervision and support.

DCES-853**DCES Internship and Seminar III 1 Credit**

Prerequisites: DCES-703, DCES-705, DCES-706, DCES-850. This is a continuation of students' internship experience toward the goal of completing the 600-hour requirement, which includes the mandatory 100 hours of experiences in research. Students can join an ongoing research project within or outside the university, participate in publication, scholarly writing projects, and/or grant writing activities in this internship experience. Internship plans are subject to the approval of the student's Faculty Advisor or the Program Director. Students are required to register for the seminar for group supervision and support.

DCES-854**DCES Internship and Seminar IV 1 Credit**

This is a continuation of students' internship experience toward the goal of completing the 600-hour requirement, which includes the mandatory 100 hours of experiences in teaching. Students can assist department faculty or faculty in other master's-level counseling programs at other institutions. This must involve teaching of master's-level counseling courses. Students receive supervision from the instructors of these courses, as well as register for the seminar for peer consultation and faculty supervision. Internship plans are subject to the approval of the student's Faculty Advisor or the Program Director.

DCES-855**DCES Internship and Seminar V 1 Credit**

This is a continuation of students' internship experience toward the goal of completing the 600-hour requirement, which includes 100 hours of experience in one of the following areas: program development, clinical counseling, consultation, professional leadership, and/or other approved activities. Internship plans are subject to the approval of the student's Faculty Advisor or the Program Director.

DCES-856**DCES Internship and Seminar VI****1 Credit**

This is a continuation of students' internship experience toward the goal of completing the 600-hour requirement, which includes 100 hours of experience in one of the following areas: program development, clinical counseling, consultation, professional leadership, and/ or other approved activities. Internship plans are subject to the approval of the student's Faculty Advisor or the Program Director.

DCES-857**Social Justice Internship I****1 Credit**

The Social Justice Internship (SJI) is designed to advance students' degree of understanding of leadership in affecting change at the community and professional level. The overall experience serves as a catalyst for doctoral-level students to develop strengths and competencies in the context of lifelong responsibility for ethical and culturally relevant leadership and advocacy practices. Students will gain exposure to social problems at the systemic and policy levels in which marginalized communities experience social injury. In addition, the Social Justice Internship provides strategies of leadership in relation to current multicultural and social justice issues. Students must start the SJI in the fall semester of their third year in the program and complete the internship by the last day of spring term. SJI requirements include: (1) completion of a minimum of 200 hours; (2) attendance at a monthly Campus Community Engagement workshop; and (3) a formal SJI presentation at the Annual Community Engagement Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJI. The SJI may not be waived and life credit is not admissible to meet this requirement.

DCES-858**Social Justice Internship II****1 Credit**

This is a continuation of the Social Justice Internship (SJI), which is designed to advance students' degree of understanding of leadership in affecting change at the community and professional level. The overall experience serves as a catalyst for doctoral-level students to develop strengths and competencies in the context of lifelong responsibility for ethical and culturally relevant leadership and advocacy practices. Students will gain exposure to social problems at the systemic and policy levels in which marginalized communities experience social injury. In addition, the Social Justice Internship provides strategies of leadership in relation to current multicultural and social justice issues. Students must start SJI in the fall semester of their third year in the program and complete the internship by the last day of spring term. In the spring term, students can continue their previous work or embark on another approved project or activity. SJI requirements include: (1) completion of a minimum of 200 hours; (2) attendance at a monthly Campus Community Engagement workshop; and (3) a formal SJI presentation at the Annual Community Engagement Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJI. The SJI may not be waived and life credit is not admissible to meet this requirement.

DCES-885**Dialectical Behavior Therapy****3 Credits**

Dialectical behavior therapy (DBT) has risen to prominence over the last 20 years and is now a widely accepted therapy approach. It incorporates techniques and strategies taken from cognitive-behavioral therapy, Buddhist mindfulness, and Zen Buddhism. This course teaches the application of DBT with clients suffering from borderline and other personality disorders as well as a variety of other clients, such as clients who self-mutilate and/or those who abuse drugs and alcohol. DBT skills are also covered, including those that are identified as Wise Mind, Accepts, Improve, and Self Soothe. Emotional Regulation, Distress Tolerance, the Fast approach to self-respect, and the Relationship and Objective Effectiveness skills are also taught in the context of DBT. DBT is also considered in the larger context of contemporary counseling and psychotherapy.

DCES-886**Existential and Gestalt Therapies****3 Credits**

This course is an integrative examination of the classical therapeutic approaches of Gestalt and existential therapies from an innovative and dialectical perspective, covering both theories at the doctoral level and beyond. The existential and phenomenological perspectives of Martin Heidegger, Edmund Husserl, Jean-Paul Sartre, Irvin Yalom, and Viktor Frankl are covered in-depth, with special attention given to such transcultural issues as death, meaning, isolation, freedom, powerlessness, existential anxiety, mindfulness, authenticity, empathy, consciousness, being, oppression, and liberation. In addition, many little known and some original existential techniques are discussed that are taken directly from existential sources and converted into therapy applications. A range of Gestalt therapy topics will be covered including contact, unfinished business, boundary disturbances, subpersonalities, personality integration, mindfulness, and the broad range of Gestalt techniques including the empty chair. The emphasis of the course is on instilling a practical, immediately applicable understanding of these theories and principles. Many practical techniques and strategies from both theories will be explored along with over a dozen existential growth exercises for both students and clients. The integration of cognitive, behavioral, existential, and Gestalt therapies is also addressed.

DCES-887**Asian Meditation Therapies****3 Credits**

Various methods of meditation and related techniques are examined. These include classical Asian meditation techniques, as well as lesser known techniques derived from various Buddhist, yoga, Hindu, and Taoist sources. The course also examines the relevant Asian philosophical and psychological perspectives in which meditation practices originated. Many meditation methods, such as concentration, mindfulness, surrender, bhakti, and a host of related spiritual and existential techniques such as being-there, forgiveness, inoculation of being, expansion of being, the pod technique, and many others will be studied and practiced. The emphasis is on applying these techniques with clients who are experiencing mental and emotional disorders, such as anxiety and depression, in order to achieve a greater degree of well-being and sense of fulfillment. Research support and an extensive bibliography are provided. Asian conceptions of mind, ego, self, consciousness, mind-body, mental health, psychopathology, compassion, freedom, and liberation are covered with the aim of integrating these into counseling and psychotherapy contexts. A portion of each class period will be devoted to the actual practice of techniques described.

DCES-888**Advocacy and Leadership in Higher Education****3 Credits**

This course is to provide doctoral students a forum to explore advocacy and leadership opportunities in higher education settings. Students will have an increase of understanding of university operations and structures, student learning assessment, program development and evaluations, accreditation, and other administrative duties beyond teaching and advising. There will also be in-depth discussion on contemporary jargon in higher education, including but not limited to, diversity issues from both students and faculty bodies, academic freedom and accountabilities, promotional structures, and others.

DCES-891**Counseling Children and Adolescents****3 Credits**

This course provides an overview of theories, techniques, and developmentally appropriate approaches to counseling children and adolescents (ages 5–18) in school and mental health settings. Emphasis will be given to the counselor's understanding of the impact of family structures, school settings, and social-environmental factors on the development, wellness, and mental health of this particular population. Students will be asked to examine research- and evidence-based intervention, as well as legal, diversity, and ethical issues when formulating treatments. Moreover,

students' understanding of their collaborative roles with the children's family, school systems and community resources is also a focus. Counseling issues of special populations (children with different levels of abilities, foster homes, children of non-mainstream family structures, etc.) within this age group will also be discussed.

DCES-892

Advanced Adlerian Counseling and Parent Education 3 Credits

This course provides an in-depth exploration of the use of principles of Alfred Adler's theory as a basis for understanding the development of an individual's unique style of living or personality in counseling individuals and guiding family structures and interactions. The application of the Adlerian approach in family and parental education in the contemporary diverse society will also be discussed. Upon completion of the course, students are expected to be able to design family programs and parental workshops based on the Adlerian principles in application to diverse mental health and community settings.

DCES-893

Veterans and Military Family Counseling 3 Credits

The course provides an overview of the psychological and relational issues confronted by active military personnel and veterans, as well as by their immediate and extended families and loved ones. Students will develop skills and familiarity with the assessment and formulation of specific intervention strategies to counsel and embrace the functioning of active military personnel, veterans, and their families with reference to empirically supported intervention models and practice. Emphasis will be on the students' development of strategies in establishing therapeutic alliances with military or veteran families of diverse or minority cultural backgrounds and those who have dealt with loss and/or injury upon the return of both emotionally and physically damaged military members. Both assessment of risk and protective factors, and responding and coping strategies, for active service persons, their families, and communities will be discussed. Students will also study pertinent clinical issues and treatment strategies, including combat-induced stress reaction and post-traumatic stress disorder, depression, and substance abuse issues. Career and post-military life planning issues will also be a focus of the class. In-depth discussions on legal restrictions, military guidelines and regulations, and professional and ethical considerations will be included.

DCES-897

Counseling Difficult, Defiant Adolescents 3 Credits

This course is intended to provide a comprehensive, eminently practical range of therapeutic techniques, strategies, and approaches for working with difficult, defiant, and aggressive adolescents. The focus is on the application of the precursors model of change, which provides dozens of techniques and strategies designed for use with difficult clients in general. The relevant theories integrated in this course are family systems, cognitive, behavioral, existential, Adlerian, psychodynamic, and Gestalt approaches. Group therapy is also covered in depth, as well as social justice, multiculturalism, and diversity. Therapeutic approaches to such behaviors and attitudes as suicide, depression, anger, blaming, defiance, violent impulses, criminality, gang involvement, drugs, alcohol, stealing, sexuality, lying, manipulation, attention seeking, and peer pressure are included in the course. Emphasis of the course is on family issues, existential themes, resistance, empathy, belonging, separateness, qualities of the effective counselor, and establishing the therapeutic relationship; with therapeutic change as the goal of counseling for families, groups, and individuals.

DCES-894

Technology and Counseling in CES 3 Credits

This course investigates the use of technology and electronic media in the provision of long-distance or virtual counseling, supervision, and consultation. Software for record-keeping and training will be explored. There will be in-depth discussion of professional and ethical issues involved in the use of technology in the field of counseling including credentialing, international counseling, client confidential issues, and training and supervision issues from the perspectives of the training institutes and agencies, and others.

DCES-895

Special Topics for Counseling Diverse Populations in DCES 3 Credits

This is a general course that will, in different manifestations, vary in content depending on faculty expertise and student interest. Regardless of the topic, students will explore an in-depth examination of clinical issues involved with the target population and respective theoretical and evidence-based treatment interventions, all related to diversity and ethical considerations. Doctoral students will also investigate the training and supervision of counselors who work with the chosen population.

DCES-896

Leadership in Mental Health Practice 3 Credits

This course is tailored for those students who plan to take on leadership and administrative roles in mental health agencies and practice. Students will collaborate on in-depth examinations of the principles of development, management, and evaluation of programs and service-delivery formats. This includes the contexts of public mental health policies, financing, and regulatory processes considered from local, state, and federal perspectives. The role of a community agency leader in relation to risk management and coordination in the response to crises, disasters, and trauma will also be discussed. Special emphasis will be given to the responsibilities of administrative personnel in embracing the development and welfare of agency employees. Adlerian principles will be integrated into theories and practicing models with regard to students' study and development of leadership, managerial, and supervisory skills. Finally, the course will guide students' recognition and realization of the interrelationship of leadership in agencies with leadership in the community, in order to become agents for social change and provide advocacy and aid for those in need.

DCES-898

Neuroscientific Aspects of Counseling 3 Credits

This course will examine research findings from the field of neuroscience and the relationship to counseling therapies. A special focus will be on the impact of belief and behavior on brain chemistry, which impacts our moods and health in general. Students will explore the application of neurobiological research to clinical practice. Neurochemical shifts, neural activity, and neurostructural changes as a result of counseling will be reviewed.

DCES-900

DCES Comprehensive Examination 0 Credits

Prerequisite: Completion and passage of all core courses with a grade of B or higher. Students can apply for the comprehensive examination during the last semester when they are finishing all the core courses and may take the examination in the following semester while working on the electives (option). The examination is composed of five parts. Part I is concerned with counseling theories and practice. Part II is concerned with professional issues such as, but not limited to, counselor identity, advocacy, and teaching. Part III addresses the area of clinical supervision. Part IV addresses the area of research. Part V focuses on students' teaching orientation, philosophy, and competencies. Responses to the questions are to be completed in ten days and should be replete with references. Students must pass the Comprehensive Examination before entering dissertation and related courses.

DCES-901**DCES Dissertation I****2 Credits**

Prerequisite: DCES-900. Students are expected to apply one or more of the major research models or theories to conduct a research project in a dissertation format. The research needs to be structured and oriented toward adding to the knowledge base of counseling and the five core competencies in counselor education (teaching, supervision, advocacy, research, and counseling practice). In this first course of dissertation, students are expected to form their dissertation committee; make major progress on their dissertation proposal (chapters 1 and 2); and start formulating chapter 3, the methodology section, with the consultation of a methodologist, the Dissertation Chair, and other committee members if appropriate. Students who cannot complete the objectives designated in DCES-901 will receive an incomplete grade and must continue to complete the course objectives in the following semester before they can register for DCES-902.

DCES-902**DCES Dissertation II****2 Credits**

Prerequisite: DCES-901. In this phase of the dissertation, students are to complete chapters 1, 2, and 3 with all the necessary supporting documents for the research project. Students are expected to coordinate an oral defense of the research proposal. After obtaining approval from the dissertation committee's proposal, students complete and submit their Institutional Review Board (IRB) application. At the end of the course, students are expected to earn the IRB approval or certification. Students who cannot complete the tasks designated in DCES-902 will receive an incomplete grade and must continue to complete the course objectives in the following semester before they can register for DCES-903.

DCES-903**DCES Dissertation III****2 Credits**

Prerequisite: DCES-902. Upon the approval of the study by the Institutional Review Board (IRB), students can begin to implement the methodology of the dissertation research, including data collection and analysis. Students are to complete chapter 4, the writing of the results of the study using a relevant organizing scheme, and chapter 5, the discussion, conclusions, implications, and recommendations sections. Students will need to coordinate an oral defense for the dissertation that includes all members of the dissertation committee. After the successful completion of the defense, students can conclude any final edits required by the committee and submit the final version of the dissertation. Professional editors can be used at this point. Students who cannot complete the tasks designated in DCES-903 will receive an incomplete grade and must continue to complete the course objectives in the following semester before they can register for DCES-904.

DCES-904**DCES Dissertation Continuation****1 Credit**

Prerequisite: DCES-903. This course is designed for students to continue to receive support and guidance from their dissertation committee after DCES-903. Students at this stage are expected to continue to analyze data and, at the least, outline a manuscript aimed toward publication of the study or literature review in a scholarly journal. Students will continue to register for this course until the completion of the dissertation.

DOCTOR OF PHILOSOPHY IN COUPLE AND FAMILY THERAPY

Program Overview

The Doctor of Philosophy (Ph.D.) in Couple and Family Therapy (CFTD) is accredited by the Commission on Accreditation of Marriage and Family Therapy Education (COAMFTE). It is designed for graduates with a clinical master's degree, as well as experienced clinicians, and emphasizes excellence in clinical practice, training students to apply empirically based knowledge, research, and techniques to therapy, training, and clinical supervision with a focus on self-of-the-therapist. Graduates of the program will be positioned to make a significant contribution to the practice of couple and family therapy through practice, supervision, education, leadership, and scholarly work. The CFTD program uses an experiential learning model through a social justice lens with an in-depth focus on the self-of-the-therapist.

The CFTD program emphasizes a systems perspective enabling practitioners to understand couples, families, and individuals (adults and children) in the context of complex relational, family, and societal dynamics. CFTD students are trained with advanced clinical skills to provide therapy for couples, families, and individuals using approaches based on the major models of couple and family therapy that are grounded in systems theory with specific training in grief, loss, and trauma. CFTs are mental health professionals who recognize that relationships and patterns of engaging influence individual and relational functioning, and therefore need to be part of the therapy process. CFTs assess, conceptualize, plan treatment, and intervene in order to promote change to occur in the relational systems of clients.

Graduates of the program have the core professional identity as a Couple and Family Therapist (CFT) qualified for membership in the American Association for Marriage and Family Therapy (AAMFT) and eligible for licensure as a Marriage and Family Therapist (LMFT) in the state of Illinois. Licensure requirements can vary from state to state in their expectations of practicum hours and coursework. Students are strongly encouraged to review the licensing requirements in any state in which they would anticipate practicing. COAMFTE-accreditation improves portability across states as the curriculum and training meets the highest standards in the field. The CFTD program embodies Adler University's commitment to social justice through graduating socially responsible and culturally competent therapists with a clear professional identity as a Couple and Family Therapist.

The mission of the CFTD program is to prepare professionals with the core identity of Couple and Family Therapist including attainment of advanced skills in research, theory, and application of a systemic framework and identity, including an ethical consciousness, cultural competence, and social responsibility. This mission is achieved through a commitment to our program goals and student learning outcomes.

Program Goals

1. To role model a clear professional identity as an ethical Couple and Family Therapist with advanced training, knowledge, and experience
2. To train students to develop a systemic worldview in their work as a Couple and Family Therapist and AAMFT-Approved Supervisor (Candidate)
3. To provide students with experience in scholarship, developing competence as researchers who will contribute to the field of couple and family therapy
4. To graduate socially responsible professional Couple and Family Therapists sensitive to social justice and diversity

Student Learning Outcomes

1. To understand and apply advanced knowledge of systems, modern, and postmodern couple and family therapy theories
2. To demonstrate cultural competency with diverse populations in the advanced practice as a Couple and Family Therapist across academic, clinical, research, and supervision settings
3. To demonstrate knowledge of Adlerian principles that can complement systemic work with couples, families, and individuals
4. To display advanced application in clinical and supervision skills in the practice of couple and family therapy with specific training in grief, loss, and trauma
5. To exemplify doctoral-level knowledge, skill, and integration of research in the field of couple and family therapy
6. To demonstrate sensitivity and knowledge in application of social justice, social responsibility, and oppression with couples and families
7. To establish a clear professional identity including an ethical consciousness as a Couple and Family Therapist with advanced training in preparation to serve the profession

Program Specific Admission Requirements

In addition to the admission requirements common to all of the Adler graduate programs, the CFTD requires:

- Clinical master's degree in marriage and family therapy, couple and family therapy, medical family therapy, or related clinical field such as social work, art therapy, psychology, or counseling
- Completion of clinical practicum* in applicant's graduate degree program
- Grade point average of 3.25 or higher out of 4.0 in applicant's graduate degree program
- Commitment to the profession of couple and family therapy as demonstrated in the application essay
- Licensure or licensure eligibility as an MFT in the state of Illinois. Applicants without this can be admitted as a doctoral student but must first complete coursework to meet the foundational curricular areas as required by COAMFTE.
- Letters of recommendation, including at least one from a graduate instructor and one from a clinical supervisor

*Students with a non-clinical master's degree are recommended to apply to the MCFT program.

Master's Degree Credits and Requisites

Accepted students utilize up to 39 credits from their master's degree program in marriage and family therapy, couple and family therapy, or medical family therapy as requisites to meet the foundational curricular areas as described by COAMFTE. Students who have a degree in a related clinical program may also receive credits from their graduate work but will be required to take the requisite specific CFT courses in the first year of their doctoral program. Each student's transcripts will be evaluated on an individual basis. Syllabi may be requested.

Students who did not complete their master's degree at Adler must also complete the following courses:

MCFT-533	Adlerian Theory and Practice in CFT	3 cr.
SJP-513	Social Justice Practicum I	1 cr.
SJP-514	Social Justice Practicum II	1 cr.

These courses must be successfully completed in the first year of the doctoral student's program of study and may cause an adjustment to the curriculum sequence.

Degree Requirements

The CFTD program is a full-time program to be completed in four years and no longer than seven years. Students may complete their program in as few as three years, with support from their dissertation chair to complete, i.e. register for, their dissertation and internship concurrently.

CFTD students are required to complete nine credits of specials (i.e. elective) courses. It is recommended that they complete them in their two years of advanced curriculum, but students may take them during completion of their internship and dissertation with faculty advisor approval.

The Ph.D. in Couple and Family Therapy course list is organized by Advanced Curricular Areas (ACA) as defined by the Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE). Successful completion of the following courses is required for this degree:

Advanced Research (ACA 1) – 13 area credits/13 program credits:

CFTD-740	CFT Qualitative Research Methods	3 cr.
CFTD-741	CFT Statistics	3 cr.
CFTD-742	CFT Quantitative Research Methods	3 cr.
CFTD-743	CFT Qualitative Data Analysis	3 cr.
CFTD-788	Grant Writing	1 cr.

Advanced Relational/Systemic Clinical Theory (ACA 2) – 18 area credits/31 program credits:

CFTD-720	Advanced CFT Theory I	3 cr.
CFTD-721	Advanced CFT Theory II	3 cr.
CFTD-722	Advanced Therapy with Couples	3 cr.
CFTD-724	Advanced Family Therapy with Children and Adolescents	3 cr.
CFTD-725	Grief and Loss Through the Family Life Cycle	3 cr.
CFTD-726	Trauma and the Family System	3 cr.

Advanced Relational/Systemic Applications to Contemporary Challenges (ACA 3) and Advanced Foundations of Relational/Systemic Teaching, Supervision, Consultation, and/or Leadership (ACA 4) – 16 area credits/47 program credits:

CFTD-730	Diversity and Social Justice in CFT: Issues of Access and Equity	3 cr.
CFTD-745	Supervision of Couple and Family Therapists	2 cr.
CFTD-750	CFT Professional Development Seminar	1 cr.
CFTD-790	CFT Professional Identity Seminar	1 cr.
CFTD-763	Doctoral Qualifying Exam	0 cr.

Plus nine credits of specials courses* that specifically meet these two areas of advanced curriculum.

Advanced Practical Experience (Practicum, Internship, and Dissertation) – 16 area credits/63 program credits:

CFTD-703	CFT Practicum – Clinical Practicum and Seminar I	3 cr.
CFTD-704	CFT Practicum – Clinical Practicum and Seminar II	3 cr.
CFTD-705	CFT Practicum – Clinical Practicum and Seminar III	2 cr.
CFTD-865	CFT Doctoral Internship I	1 cr.
CFTD-866	CFT Doctoral Internship II	1 cr.
CFTD-867	CFT Doctoral Internship III	1 cr.
CFTD-875	CFT Dissertation Preparation Seminar	1 cr.
CFTD-862	CFT Dissertation Literature Review	1 cr.
CFTD-876	CFT Dissertation I and Proposal Defense	1 cr.
CFTD-877	CFT Dissertation II	1 cr.
CFTD-878	CFT Dissertation III and Oral Defense	1 cr.

*Specials Courses (students must complete nine credits):

CFTD-728	Divorce Mediation and Conflict Resolution with Couples	3 cr.
CFTD-729	Sex Therapy: Theory and Techniques	3 cr.
CFTD-732	Integration of Religion and Spirituality in CFT	3 cr.
CFTD-735	LGBTQ-Competent Therapy with Couples and Families	3 cr.
CFTD-736	Medical Family Therapy	3 cr.
CFTD-738	Gerontology Issues in Family Therapy	3 cr.
CFTD-746	CFT Supervision of Supervision I	1 cr.
CFTD-747	CFT Supervision of Supervision II	1 cr.
CFTD-748	CFT Supervision of Supervision III	1 cr.
CFTD-781	CFT Instruction I	1 cr.
CFTD-782	CFT Instruction II	1 cr.
CFTD-783	CFT Instruction III	1 cr.
CFTD-789	Creative Interventions with Couples and Families	1 cr.
CFTD-802	hooks & Hardy	2 cr.
CFTD-804	Emotionally-focused Therapy	2 cr.
CFTD-805	Divorce	1 cr.
CFTD-807	Infidelity	1 cr.
CFTD-811	Pop-culture and Couple & Family Therapy	1 cr.
CFTD-815	Consensus Rorschach	1 cr.
CFTD-821	Private Practice	1 cr.
CFTD-825	Working with Families with Children with Special Needs	1 cr.
CFTD-827	How to Publish in the Field of Mental Health	1 cr.
CFTD-831	Becoming A Kink-Aware Professional: An Exploration of Kink and BDSM	1 cr.
CFTD-837	Introduction to Consensual Nonmonogamy	1 cr.
CFTD-841	Men's Mental Health	1 cr.
CFTD-861	Introduction to Mediation for Couples and Families	1 cr.
CFTD-863	Clinical Risk Management: Suicide in Couples and Families	1 cr.

Total Credits of Coursework: 63

Requisite Credits: 39

Total Credits: 102

Due to the limited size of entering cohorts, courses listed under ACA1 and ACA2 are offered every other year (with the exception of CFTD-720 and CFTD-721) while courses listed under ACA3 and ACA4 are typically offered in each academic year.

Ph.D. students are frequently surveyed by the Department Chair to schedule upcoming special courses, with courses being offered no more frequently than every other year.

The advanced practical experiences required to be completed by CFTD students include clinical practicum, the doctoral qualifying exam, internship, and dissertation. CFTD students develop advanced therapy skills and clinical practice through a three-consecutive semester clinical practicum typically done concurrently with the second year of coursework. The qualifying exam is the opportunity for students to demonstrate advanced clinical theory and practice and achievement of the student learning outcomes. Each student completes a developed internship to begin after completion of coursework (some specials may be the exception) and successfully passing the qualifying exam that meets their professional goals. CFTD students are also required to complete a dissertation demonstrating skills in advanced research. CFTD students engage in clinical practice/innovation in their practicum; advanced clinical theory in their qualifying exam; advanced research with the successful defense of their dissertation; and the opportunity to sharpen previous skills or focus on a fourth skill through their internship.

SOCIAL JUSTICE PRACTICUM (SJP)

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that occurs during the fall and spring terms. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society.

The SJP is designed to help students learn how to work alongside the community as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. Upon completing the SJP, students gain, maintain, and strengthen connections to communities by developing critical problem solving skills necessary to be socially responsible practitioners.

All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled (unless they have already completed it as part of their master's degree at Adler). SJP requirements include: (1) completion of a minimum of 200 hours at an approved SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP.

The SJP may not be waived and life credit is not admissible to meet this requirement. Students may transfer in the Social Justice Practicum completed within their master's degree at Adler University.

CFTD CLINICAL PRACTICUM

Students enroll in three consecutive semesters of clinical practicum concurrent with their second year of coursework. Successful completion of CFTD-720 and CFTD-721 are prerequisites to clinical practicum. The purpose of practicum is for CFTD students to be clinically active and begin to apply advanced clinical skills gained through the advanced curriculum. To meet degree requirements, CFTD students must complete 120 hours of relational or conjoint direct client contact and 100 hours of supervision, including hours with their AAMFT-Approved Supervisor or Supervisor Candidate through the practicum seminar. The CFTD Clinical Practicum can be a paid experience. Students can also count these hours towards licensure as long as the experience meets both the degree and licensure requirements.

CFT Doctoral Qualifying Exam

The Doctoral Qualifying Examination (DQE) provides an opportunity for students to demonstrate their theoretical and clinical competency as Couple and Family Therapists and across the student learning outcomes (SLOs) specifically identified as part of the advanced practical experiences component of the degree. The research component of the DQE additionally helps students progress in their completion of the dissertation. Students are given the opportunity to synthesize the advanced curricular areas and demonstrate mastery in their area(s) of expertise. Additionally, the DQE assesses students' integration of their knowledge with their clinical experience into a unified, coherent model for clinical work with human systems (couples, families, individuals, and communities). Students are expected to demonstrate advanced professional skills in presentation, academic writing, clinical practice, professional systemic ethics and legal issues, and research methodology, with a focus on advanced clinical theory, and are evaluated accordingly under each of the SLOs. Students must pass their DQE prior to defending their dissertation proposal.

CFT Internship

The CFTD internship is designed to provide doctoral students with a supervised, full-time experience over three semesters, emphasizing the development of the CFT professional identity (SLO7), consistent with the degree requirements and the student's professional goals. Students must be engaged in a continuous experience in the practice and profession of couple and family therapy with no fewer than 30 hours per week (full-time employment status). Students can create an internship experience that meets these requirements with more than one site or opportunity anywhere in the world. This can be a paid experience.

Detailed information about the CFT Clinical Practicum, CFT Doctoral Qualifying Exam, and the CFT Internship is available in the CFT Clinical Training Manual.

CFT Dissertation

The CFT doctoral dissertation provides students with the opportunity to engage in in-depth scholarship on an important issue in the field of couple and family therapy and provides students the venue to demonstrate their skills in advanced research. Dissertations in Couple and Family Therapy must represent substantial research that contributes to the field of MFT, including a comprehensive discussion of implications for the field. Additionally, dissertations must be original work and theory driven.

Graduation Requirements

1. Successful completion of the advanced curricular areas as specified in the curriculum requirements, including courses required to meet the foundational curricular areas as required by COAMFTE
2. Successful completion of the advanced practice experiences including practicum, the doctoral qualifying exam, internship, and dissertation
3. Successful completion of Social Justice Practicum I & II, as well as MCFT-533 or the equivalent
4. A cumulative grade point average of 3.0 or higher and no grades below B-
5. Submission of completed Graduation Application and full payment of all outstanding tuition and fees
6. Demonstration of professional attitude, decorum, and ethics commensurate with the profession of couple and family therapy
7. Faculty approval for graduation and recommendation to the Board of Trustees for the Doctor of Philosophy in Couple and Family Therapy

Doctor of Couple and Family Therapy Course Descriptions

CFTD-701

Couple and Family Therapy Ethics 1 Credit

This one-credit course is for incoming Couple and Family Therapy students who did not receive their master's degree in couple and family therapy, marriage and family therapy, or medical family therapy. This course will specifically cover the AAMFT Code of Ethics complementing the ethics course taken in the student's clinical master's degree. The goal of this course is to prepare the student for practice and licensure as a Couple and Family Therapist.

CFTD-703

CFT Practicum – Clinical Practicum and Seminar I 3 Credits

CFTD-704

CFT Practicum – Clinical Practicum and Seminar II 3 Credits

CFTD-705

CFT Practicum – Clinical Practicum and Seminar III 2 Credits

Prerequisite: SJP-513, SJP-514, CFTD-720, and CFTD-721. Each doctoral student will complete three semesters of supervised clinical practicum providing individual and relational therapy for the development of advanced CFT clinical skills. Students will also attend a weekly practicum seminar provided by an AAMFT-approved Supervisor or Supervisor Candidate, including individual and group supervision. Rotating case presentation using videotapes, audiotapes, and notes to focus on advanced theoretical analysis, skills building, and case consultation, as well as a focus on self-of-the-therapist will be included. This course moves the student beyond the doctoral-level theory courses to the application of advanced clinical skills.

CFTD-720

Advanced CFT Theory I 3 Credits

This advanced course explores the evolution of classic/modern approaches to couple and family therapy (CFT) theory, emphasizing a critical approach to both their theoretical and clinical application aspects. Students will be required to critically examine the specific theories' stands on power and privilege dynamics, as well as multicultural topics. The understanding of the systemic processes of dysfunction and change for each model is emphasized. Students also will review the research literature for each model, including evidence-based practice. Self-of-the-therapist issues will be explored throughout the course.

CFTD-721

Advanced CFT Theory II 3 Credits

This advanced course focuses on the study of the primary postmodern models of family therapy theory including their unique approach to assessment, case conceptualization, and intervention. Students will be required to critically examine the specific theories' stands on power and privilege dynamics as well as multicultural topics. The understanding of the systemic processes of dysfunction and change for each model is emphasized. Students also will review the research literature for each model, including evidence-based practice. Self-of-the-therapist issues will be explored throughout the course.

CFTD-722

Advanced Therapy with Couples 3 Credits

This is an advanced course that focuses on concepts and applications of specific couple therapy issues including, but not limited to, social media and the digital world, domestic violence and intimate partner violence, and childhood sexual abuse and adult intimate relationships. Students will explore self-of-the-therapist issues in relation to the course topics, as well as develop professional skills around research, writing, and presentations.

CFTD-724

Advanced Family Therapy with Children and Adolescents 3 Credits

This is an advanced course that focuses on therapy with children and adolescents in the context of the family system. Students will explore self-of-the-therapist issues in relation to the course topics as well as develop professional skills including clinical, academic, and research. Students will also engage in activities typical to family therapy across the semester including play.

CFTD-725

Grief and Loss Through the Family Life Cycle 3 Credits

This advanced course is designed to familiarize students with both the theoretical and clinical literature on loss, death, and bereavement. Using a family systems and a multicultural perspective, this course will explore death and dying while building on the conceptual framework of the family life cycle. Self-of-the-therapist exploration and reflection is a key component to this course. Students will increase awareness of their own assumptions, attitudes, values, and biases regarding death, dying, and grief. This course requires both the consumption of knowledge and the ability to produce it, through class presentations, discussions, and written assignments.

CFTD-726

Trauma and the Family System 3 Credits

This course will address issues of symptomatology, assessment, and treatment of stress-related disorders with a special emphasis on the impact of PTSD or PTSD symptoms on the couple and family systems. Students will learn about current theory and research on trauma and family, as well as therapeutic approaches specific to the field of marriage and family therapy. Emotionally focused couple therapy with trauma survivors will be highlighted throughout the semester. Also, self-of-the-therapist work in the context of trauma will be emphasized throughout the course. Furthermore, students will learn about the nosology, etiology, prevention, and treatment of vicarious traumatization, burnout, and compassion fatigue.

CFTD-730

Diversity and Social Justice in CFT: Issues of Access and Equity 3 Credits

This doctoral course is designed to help students critically examine issues of diversity and dimensions of culture as it pertains to families, family therapy, and themselves as therapists and citizens of the world. The course will explore dimensions of culture within a social justice framework.

CFTD-740

CFT Qualitative Research Methods 3 Credits

This course focuses on qualitative approaches to familial and relational research. It examines the theories and methods of qualitative research, such as grounded theory, narrative, case study, and hermeneutics, and phenomenology. The course is designed to prepare students for the development of their dissertation proposal.

CFTD-741

CFT Statistics 3 Credits

This course covers the concepts and applications of descriptive and inferential statistics. It focuses on the statistical methods of data analysis, the analysis of variance, multivariate analysis, and multiple regression models. The course is designed to prepare students for the statistical analysis in their doctoral dissertation.

CFTD-742

CFT Quantitative Research Methods 3 Credits

Prerequisite: CFTD-741. This course will provide an overview of basic research design and measurement. The focus of the course will be research design and methodology specific to couple and family therapy. Students are expected to conduct an extensive, guided review of couple and family therapy research literature. The course is designed to prepare students for the development of their dissertation proposal.

CFTD-743**CFT Qualitative Data Analysis 3 Credits**

Prerequisite: CFTD-740. This course provides an in-depth study of various qualitative research approaches and related data-collection methods. As a result of the course, students are expected to be familiar with ways of analyzing different types of qualitative data corresponding to the purpose and the design of the research model. Students are expected to be proficient in applying computer software, such as NVivo and ATLAS.ti, to enter, analyze, and induce the results of the research. The course is designed to prepare students for qualitative analysis in their dissertation proposal.

CFTD-745**Supervision of Couple and Family Therapists 2 Credits**

This course provides an in-depth overview of the foremost models of clinical supervision, including the unique aspects of supervising clinicians from each of the major theories of couple and family therapy. The student will learn how to structure supervision using a variety of modalities (e.g., taped session, live supervision) to provide effective case recommendations, facilitate therapist development, and solve problems in the therapist-client relationship. The course also will increase sensitivity to, and knowledge of, the distinct issues of the supervisor-supervisee relationship, as well as contextual, ethical, and legal factors in supervision. This course has been approved by AAMFT to meet the Fundamentals of Supervision requirements to become an AAMFT- Approved Supervisor Candidate.

CFTD-750**CFT Professional Development Seminar 1 Credit**

This professional development seminar provides doctoral students an introduction to the program and department. For students from other behavioral health fields, it also orients students to the field of couple and family therapy. This seminar is also an opportunity for students to explore group dynamics and to build cohort connection through self of the therapist exploration.

CFTD-763**Doctoral Qualifying Exam 0 Credits**

The qualifying examination provides an opportunity for students to demonstrate their ability to make contributions that advance the field in theory, practice, supervision, instruction, leadership, and scholarly work relevant to their areas of developed expertise. Specifically, students will demonstrate their competency across the program's student learning outcomes (SLOs).

CFTD-779**CFT Dissertation Continuation 1 Credit**

This course is designed for CFT Ph.D. students to continue to receive support and guidance from their dissertation committee during the dissertation process. With permission from the student's dissertation chair and only if in good academic standing, i.e. they do not have a pending "NC" for a previous dissertation credit, the student can enroll in CFTD-779 at any point in the dissertation process. This continuation is if the student requires additional time; for example, the student has met the requirements of CFTD-876 with the dissertation proposal and defense but requires additional time for revisions and anticipates not being able to move directly into the requirements of CFTD-877. The student must continually enroll in dissertation credits, unless they are otherwise enrolled in internship, until successful completion of the dissertation. Students enrolled in CFTD-779 are not considered full-time.

CFTD-788**Grant Writing 1 Credit**

Students will be introduced to the basics of grant writing. This course will provide an overview of the mechanics of writing a grant proposal, develop skills in finding funding opportunities, and cover the essentials of grant management.

CFTD-790**CFT Professional Identity Seminar 1 Credit**

This seminar is taken in the last summer semester of coursework in the program. The focus is to prepare students for successful completion of their degree. Tasks will include securing the dissertation committee, finalizing the topic of research, and developing an outline and timeline to guide students throughout their dissertation. Students will also develop a plan for continuing the development of a clear professional identity, including an ethical consciousness as a Couple and Family Therapist with advanced training in preparation to serve the profession (SLO 7).

CFTD-862**CFT Dissertation Literature Review 1 Credit**

Prerequisites: CFTD-875. This course will focus on supporting students in making progress on their dissertation literature review. Students will develop an organized search strategy, find resources, and create a concrete outline of their dissertation literature review. Students must have selected a dissertation topic and dissertation chair prior to starting this course in order to maximize the benefits. This course will not cover research methodology.

CFTD-865**CFT Doctoral Internship I 1 Credit****CFTD-866****CFT Doctoral Internship II 1 Credit****CFTD-867****CFT Doctoral Internship III 1 Credit**

Prerequisites: Successful completion of coursework (with the exception of some specials courses by approval of the Department Chair) and clinical practicum. Following the completion of academic and practicum requirements, doctoral students must complete an internship following the guidelines included in the CFT Handbook. Students are expected to develop their own internship with guidance from the Clinical Training Director. With express permission from the department, students may register in internship and dissertation concurrently.

CFTD-875**CFT Dissertation Preparation Seminar 1 Credit**

This seminar is designed to assist students in the early stages of developing and beginning their dissertation. The focus is on the different stages of the dissertation process with specific attention to the selection and development of a topic; selection of a Dissertation Chair; organization of the first two chapters (introduction and literature review); as well as reviewing the Institutional Review Board (IRB) requirements and application.

CFTD-876**CFT Dissertation I and Proposal Defense 1 Credit**

Preparation and completion of the dissertation proposal, including the first three chapters: introduction, literature review, and methodology. Once this proposal document has been deemed ready by the Dissertation Chair for review, the student will submit the document to the entire committee for formal review. The doctoral student will defend the proposal in an oral presentation to the dissertation committee. With the approval of the committee, the student may then register for CFTD-877. If the proposal is denied, the student must work with the Chair to revise the original proposal or submit a new proposal, continuously enrolling in CFTD-876 until the proposal has been successfully defended.

CFTD-877**CFT Dissertation II****1 Credit**

Prerequisite: CFTD-876. Students will submit their study for review by Adler University's Institutional Review Board (IRB), if necessary. Completion of this phase is the goal of CFTD-877. Once IRB approval has been granted, the student will complete the necessary actions to conduct research and write the document. If the student opts to do an approved project that does not require IRB approval, the student will develop significant goals in concert with the Chair to demonstrate completion of CFTD-877. Students are also required to have attended at least one dissertation defense prior to completion of CFTD-877.

CFTD-878**CFT Dissertation III and Oral Defense****1 Credit**

Prerequisite: CFTD-877. Once CFTD students have received Institutional Review Board approval and/or successfully completed the goals of CFTD-877, they may enroll in CFTD-878. Completion of the project is the goal, including preparation for oral defense. Students successfully defend their doctoral dissertation before the dissertation committee. Any required revisions must be completed within the semester the student is registered for CFTD-878. Continuous registration will be required until the defense has been passed and the document has been approved and submitted.

SPECIALS COURSES

CFTD students are recommended to take these elective courses during the advanced curriculum, but can take them during internship and dissertation with faculty advisor approval.

CFTD-681**CFT Special Topic I****1 Credit**

This one-credit elective course focuses on a special topic in the field of Couple and Family Therapy providing knowledge and skills for developing CFTs. The Special Topics elective courses are designed to examine special interests, including current and emerging issues for couples and families, areas of social justice, and professional matters for CFTs. Topics covered and faculty instructors will alternate.

CFTD-682**CFT Special Topic II****2 Credits**

This two-credit elective course with focus on a special topic in the field of Couple and Family Therapy providing knowledge and skills for developing CFTs. The Special Topics elective courses are designed to examine special interests, including current and emerging issues for couples and families, areas of social justice, and professional matters for CFTs. Topics covered and faculty instructors will alternate.

CFTD-683**CFT Special Topic III****3 Credits**

This three-credit elective course with focus on a special topic in the field of Couple and Family Therapy providing knowledge and skills for developing CFTs. The Special Topics elective courses are designed to examine special interests, including current and emerging issues for couples and families, areas of social justice, and professional matters for CFTs. Topics covered and faculty instructors will alternate.

CFTD-728**Divorce Mediation and Conflict Resolution with Couples****3 Credits**

This course is about understanding conflict, resolution, and divorce mediation from a relational lens and through a systemic perspective. The framework will be expanded to include the global context of conflict resolution and conceptualizing and applying a social justice orientation. Topics include defining conflict; the functions of conflict and theories of decision-making; strategies and tactics of bargaining, negotiating, and violence. Theoretical perspectives will be applied to a variety of settings including family, school, and work environments.

CFTD-729**Sex Therapy: Theory and Techniques****3 Credits**

This course addresses the current models, techniques, and research in the treatment of intimacy and sexual history, creating a sexual genogram, and knowledge of DSM-5 diagnoses and intervention explicitly designed for specific sexual disorders. Contextual issues such as gender, sexual orientation, culture, and power also will be explored.

CFTD-732**Integration of Religion and Spirituality in CFT****3 Credits**

This course examines the integration of religion and spirituality into couple and family therapy. Students will critically examine the literature on spirituality and religion, explore diverse spiritual and/or religious paths, and discuss the potential benefit/harm of spiritual and/or religious beliefs. Students will develop skills to integrate spirituality into treatment. Throughout the course, students will explore self-of-the-therapist issues and the impact of culture, power, and privilege on clients and their experiences.

CFTD-735**LGBTQ-Competent Therapy with Couples and Families****3 Credits**

This course explores perspectives on lesbian, gay, bisexual, transgender, and other sexual minority communities as it pertains to couple and family therapy. This course examines how heterosexism, homophobia, and gender norms influence gender identity development. Aspects of gender development, life span development, and postmodern theory are used in discussing the impact of culture, social justice, and power/privilege on sexual minority communities. Self-of-the-therapist issues and dimensions of culture are examined throughout the course.

CFTD-736**Medical Family Therapy****3 Credits**

This course will address biopsychosocial and spiritual aspects of illness and disability and their impact on the couple and family systems. Self-of-the-therapist work and the impact of dimensions of culture, power, and privilege will be emphasized throughout the course. Also, issues of collaboration between marriage and family therapists and other healthcare professionals will be discussed.

CFTD-738**Gerontology Issues in Family Therapy****3 Credits**

This course examines the impact of aging on family dynamics and relationships including the processes of development in later life, intergenerational issues, and the crises or transitions experienced throughout the family life cycle. The effect of a population that is living significantly longer on these family issues is explored. The course also addresses communication, mediation, and caregiving with aging family members.

CFTD-746CFT**Supervision of Supervision I****1 Credit****CFTD-747CFT****Supervision of Supervision II****1 Credit****CFTD-748CFT****Supervision of Supervision III****1 Credit**

Prerequisite: CFTD-745. This series of three, one-credit courses is for advanced CFT doctoral students and supervisor candidates and can only be taken after all other course curriculum has been completed and with special approval by the Department Chair. Students must register for all three credits in consecutive semesters: fall, spring, and summer. Supervisor candidates will receive supervision from an approved AAMFT Supervisor weekly throughout the semester. Supervisor candidates will review and discuss supervisions and continue developing their personal model of supervision. A strong emphasis is placed on self-of-the-supervisor/therapist, integration of dimensions of culture with a social justice lens, and application of, and revision of, the student's personal model of supervision.

CFTD-781**CFT Instruction I 1 Credit****CFTD-782****CFT Instruction II 1 Credit****CFTD-783****CFT Instruction III 1 Credit**

This series of three, one-credit courses is for advanced CFT doctoral students and can only be taken after all other course curriculum has been completed and with special approval by the Department Chair. It is designed for students who are interested in moving into academia or adjunct instruction in the field. In CFTD-781, the student will have the role of TA of a CFT course. In CFTD-782, the student will have the role of co-instructor of a CFT course. And in CFTD-783, the student will take lead in instruction of a CFT course with mentorship by the faculty.

CFTD-789**Creative Interventions with Couples and Families 1 Credit**

This one-credit doctoral special course covers techniques such as the kinetic family drawing, self-as-animal, the family floor plan, sand tray, build-a-house, video play therapy, family puppet interview, family school, and music therapy. This is a hands-on experiential class.

CFTD-802**Hooks and Hardy 2 Credits**

This course is designed to explore the scholarly works of bell hooks and Ken Hardy. Multiple writings of bell hooks and Ken Hardy provide frameworks to increase critical thinking in examining complex layers of cultural forces that impact lived experience and propose paradigms for impacting systemic change. Students will participate in critical reflection and sustained dialogue about hooks's and Hardy's concepts, as well as engage in assignments that apply concepts to their own work. In addition, students will explore how the works of hooks and Hardy can increase the capacity to advance Adler University's mission of social justice and social responsibility.

CFTD-804**Emotionally Focused Therapy 2 Credits**

This course will provide students with an overview of conceptual and empirical issues in adult attachment theory and its therapeutic application in working with couples through an emotionally focused (EFT) approach. Through the use of vignettes, role-plays, and educational videos, students will be helped to conceptualize dyadic distress with an attachment focus to work with couples in reprocessing emotions, as well as recreating healthier bonds. Up-to-date EFT outcome research will be reviewed as well as applications of EFT with specific populations (e.g., trauma survivors, couples with chronic illness). Self-of-the-therapist aspects that may arise in applying an EFT approach will be addressed as well.

CFTD-805**Divorce 1 Credit**

The purpose of this seminar is to examine specific issues for families who are experiencing divorce. Topics include the culture of divorce; the impact of divorce; the aftermath of divorce for men, women, and children; and remarriage and blended families. Students are encouraged to examine their current beliefs about divorce in regard to the classroom material presented and are encouraged to see, experience, and understand the world from different perspectives. Students will participate in activities to promote self- and other-awareness.

CFTD-807**Infidelity 1 Credit**

Infidelity is a common presenting problem in couple, family, and individual therapy with presentation ranging from the aftermath for couples and families, to individuals deciding between their partner and their affair. This seminar will define infidelity, understand the critical issues, and look at the treatment of infidelity in couples, families, and individuals, as well as reflect on the impact of treating infidelity on clinicians.

CFTD-811**Pop Culture and Couple and Family Therapy 1 Credit**

Popular culture is often absorbed without thinking critically about its content or consequences. This is remarkable given the enormous impact it has on our lives, our identities, and our consciousness. We often do not stop to think or question the underlying assumptions of popular culture, nor do we think about what or whom such assumptions or content may support. Questions of power and ideology are deeply interwoven in popular culture despite their seeming absence. Additionally, popular culture has an incredible impact on how we view ourselves as individuals and in relation to others. This course will focus on the reciprocal relationship between being influenced and influencing popular culture, and our responsibility as socially just Couple and Family Therapists.

CFTD-815**Consensus Rorschach 1 Credit**

The Consensus Rorschach (CR) is a projective technique for the assessment of couples that has been used to elicit and analyze communication styles, power and control dynamics, emotional processes, and interpersonal stress dynamics. This seminar will provide the history of the technique, training in the administration and interpretation of the protocol, and cutting-edge research on the use of the CR with couples.

CFTD-821**Private Practice 1 Credit**

This one-credit course introduces students to the insides of life in private practice. Whether it be a group practice, co-op practice, or solo business, working in private practice offers unique opportunities and challenges. Students will learn the four areas of being successful in private practice, as well as the logistical, administrative, ethical, and business aspects that go into starting a private practice.

CFTD-823**Building a Psychoeducation Program from the Ground Up 1 Credit**

Psychoeducation is an evidence-based practice (EBP) that can give information and support to families with a member with a diagnosis of mental and/or physical illness, and they also provide opportunities to build your clinical practice and reach clients who may be reluctant to attend therapy. This seminar will walk you through the steps of developing a psychoeducational program on the topic of your choice – developing the content, choosing the delivery mode, and integrating methods for evaluation.

CFTD-825**Working with Families with Children with Special Needs 1 Credit**

This seminar will focus on meeting the needs of, and working with, families with a child with special needs. Learning objectives include a focus on the impact of a child with special needs on the family, including parenting issues, the couple relationship, and siblings. Additionally, the process that a child with special needs goes through in determining the need to receive special education, including a discussion on the differences of accommodations versus modifications, is covered.

CFTD-827**How to Publish in the Field of Mental Health 1 Credit**

One important aspect of a career in the field of mental health is writing and publishing. Whether it be a research paper, essay, book, or blog, putting our insights into written word can be a crucial component of being a clinician. This seminar will introduce students to the process of publishing a book in the field of mental health. Participants will learn how to navigate the world of publishing, find a publisher and agent, and how to pitch your work to commercial and academic publishers. A particular focus will be paid to developing and crafting the contents of student book ideas, as well as learning the nuts and bolts of getting a book published.

CFTD-831**Becoming a Kink-Aware Professional: An Exploration of Kink and BDSM** **1 Credit**

This course will explore Kink and BDSM practices in sexuality within a systemic framework. Students will be expected to engage in intrapersonal work exploring their own attitudes and biases about Kink and BDSM practices and analyze how countertransference may impact their clinical work. Through didactic learning, students will become familiar with specific vocabulary and communication strategies that are utilized during BDSM scenes and Kinky play to foster consent. Students will increase their awareness of clinical assessment strategies to determine when situations promote safety versus abuse; students will learn appropriate clinical interventions to use in situations where abuse is present. Professional development in the field of sexuality will also be emphasized to help students foster a safe clinical environment for Kinksters and BDSM practitioners. Students will be instructed to practice self-care and be prepared as lectures may contain explicit content.

CFTD-833**Perinatal Mental Health** **1 Credit**

Perinatal mood disorders and the special issues that present during the perinatal period are prevalent. This course will examine the unique challenges and special considerations when working with couples and families during this period in the family life cycle. Students will be provided an introduction to special topics inherent in working with perinatal clients including, but not limited to, perinatal mood disorders, infertility and perinatal loss, self-of-therapist when working with perinatal clients, and assessment and intervention strategies for individuals, couples, and families.

CFTD-837**Introduction to Consensual Non-monogamy** **1 Credit**

This course will explore various forms of consensual non-monogamy within a systemic framework. Through didactic learning, the student is expected to gain knowledge regarding the various relational configurations of consensual non-monogamy and an understanding of the specific vocabulary utilized by those within the community. The student is to use their systemic understanding to conceptualize, assess, and effectively use interventions within the consensual non-monogamy community. The student is expected to explore and challenge their own potential biases and areas of countertransference that would come up in clinical work with the consensual non-monogamy community. The student will creatively collaborate on how to foster safe and sensitive spaces for consensual non-monogamy clients, as well as how to effectively market themselves as allied clinicians. The class will promote ongoing self-care and preparation as the class will include sensitive and/or explicit materials.

CFTD-841**Men's Mental Health** **1 Credit**

While there is a shared need to connect to self and others, the differences between men and women and how they connect are distinct in some ways. Clinical understanding related to the needs of each gender should not be based solely on assumptions and personal experiences but should also include an integration of human development knowledge and empirical research. This seminar will focus on key mental health issues specific to men. Topics for consideration will include men's developmental tasks across the lifespan; men's mental health risks and challenges; an examination of how men function within intimate partnerships and family systems; and key clinical considerations for supporting the well-being of men. Diversity considerations will also be incorporated across topics.

CFTD-843**Exploring Stereotypes of Women of Color** **1 Credit**

This course is designed to help students critically examine and explore stereotypes specific to women of color. This course will focus on the intersectionality of race, gender, class, and geographical variables that create racialized gender stereotypes for women of color. Through class readings, educational videos, and media, students will discuss and reflect on these stereotypes impact perceptions, thoughts, beliefs, behaviors, and interactions.

CFTD-861**Introduction in Mediation for Couples and Families** **1 Credit**

This course will cover the basics of mediation and how to apply these skills to your therapy practice to help couples and families resolve disputes more effectively and communicate in healthy and helpful ways. Course topics will include: types of mediation; aspects of positive communication; how to have difficult conversations; family and divorce mediation; parenting coordination; and how to build mediation into your therapy practice. Students will read about the steps involved in mediation, watch videos demonstrating these steps, and practice conducting mediation sessions via role plays.

CFTD-863**Clinical Risk Management: Suicide in Couples and Families** **1 Credit**

This seminar will focus on suicide as an issue of clinical risk management in therapeutic work with families. A self-of-the-therapist lens will be used to help develop the student's ability to respond to clients in crisis, specifically focusing on interpersonal behaviors, reactions, risk factors and intervention strategies. Suicidal ideation, as well as working with families after loss to suicide, will be reviewed.

CFTD-870**International Immersion and Cross-Cultural Studies** **3 Credits**

Prerequisite or concurrent enrollment in MCFT-660 or equivalent.

This course will provide master's and doctoral students with a cultural-immersion experience outside of the United States. Students will be engaged in a non-clinical service-learning program for a limited period of time. The course will teach students to examine and critically think about the impact of systemic and structural barriers on health and well-being issues abroad. This will enhance students' professional values and their preparation for multicultural clinical practice. This course has additional costs including travel, room and board, and spending money.

CFTD-871**CFT Research Application** **3 Credits**

This course will provide select doctoral students the opportunity to work on an active research project, applying knowledge and skills from a systems perspective that will contribute to the field. Students will be engaged in all stages of a research project under the direct supervision of a Couple and Family Therapist. Registration for this opportunity is selective and can only be done with permission of the instructor and the Department Chair.

SJP-513**Social Justice Practicum I** **1 Credit**

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that begins in the fall term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing

and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. The SJP may not be waived, and life credit is inadmissible to meet this requirement. *Note: During the fall term, students enrolled in the SJP attend at least two SJP workshops and complete a minimum of 50 hours upon placement at site.*

SJP-514

Social Justice Practicum II

1 Credit

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that continues through the spring term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. Upon completing the SJP, students gain, maintain, and strengthen connections to communities by developing critical problem solving skills necessary to be socially responsible practitioners. In addition, students learn essential concepts related to civics, intersectionality, and community organizing as they are necessary to establish and enhance critical thinking to labor for social justice. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an approved SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. The SJP may not be waived and no life credit is admissible to meet this requirement.

*CFTD students may also take select elective/specials courses in the M.A. in Couple and Family Therapy (MCFT) program including MCFT-653 and 711.

DOCTOR OF PSYCHOLOGY IN CLINICAL PSYCHOLOGY

The Doctor of Psychology in Clinical Psychology (Psy.D.) program is designed to prepare students for the general practice of health service psychology, an integration of psychological science and practice, with a particular focus on socially responsible practice that includes education and training regarding the broader social and systemic factors that contribute to human dysfunction (e.g., poverty, oppression, marginalization) and methods for ameliorating these broader factors (e.g., primary prevention and policy change). The program follows the practitioner-scholar model of training and education.

The primary aim of our Doctor of Psychology in Clinical Psychology program is to train socially responsible clinical psychologists. Our graduates are clinicians who empower individuals and strengthen communities around the globe. This aim is distinctive to Adler University. The focus on socially responsible practice enables students to understand the role of social context in human functioning and to integrate this understanding into their professional practice. Adler University's commitment to social justice continues the visionary work of Alfred Adler and enables its graduates to practice in a wide range of settings while also working to implement changes that will reform the social structures that adversely impact the well-being of members of the community in which they work and live. The students receive training in the theories and methods of Alfred Adler. This focused training provides students with a strong and thorough grounding in a particular theory and method of psychology that forms a foundation for other theoretical perspectives offered in the doctoral program.

This aim is grounded on nine profession-wide competencies that include assessment, intervention, ethical and legal standards, individual and cultural diversity, professional values, attitudes, and behaviors, communication and interpersonal skills, supervision, consultation and interprofessional/interdisciplinary skills, and research. In addition, the program is guided by the seven core competency areas developed by the National Council of Schools and Programs of Professional Psychology (NCSPP): relationship, assessment, intervention, research and evaluation, consultation and education, management and supervision, and individual and cultural diversity. These areas are based on a strong education in the foundations, knowledge base, and science of psychology.

The program follows the guidelines set forth by the American Psychological Association (APA) in regard to respecting and teaching evidence-based practices in psychology.

Our students are trained to recognize, critically evaluate, and contribute to the evidence base for socially responsible professional practice.

The program is fully accredited by the American Psychological Association and meets the requirements of the National Register of Health Service Psychologists and state licensure guidelines.

The program currently offers students the opportunity to enroll in one of seven emphases: Advanced Adlerian Psychotherapy, Child and Adolescent Clinical Psychology, Military Clinical Psychology, Clinical Neuropsychology, Primary Care Psychology and Behavioral Medicine, Substance Abuse Treatment, and Traumatic Stress Psychology. A description of each emphasis can be found on the pages that follow.

Review of Applications

The application priority deadline is February 15. Successful applicants who submit all required materials by the deadline, and have completed the interview portion of their application, will be notified in writing of their acceptance by April 1.

Accepted students must notify the Office of Admissions in writing by April 15 of their intent to matriculate. Space permitting, late applications are accepted subject to the Council of Graduate Departments of Psychology (COGDOP) criteria, which state that any acceptance given or left in force after April 15 commits students not to solicit or accept an offer from Adler University without first obtaining a written release from the institution to which a commitment has already been made.

Admission Requirements

Applicants to the Psy.D. program must have a baccalaureate degree earned from a college or university regionally accredited by a nationally recognized accrediting agency or an equivalent academic degree from a foreign college or university. Applicants should have a grade point average of 3.0 or higher on a 4.0 scale for undergraduate or graduate coursework. Applicants who have a record of commitment to, and experiences in community service nationally and/or abroad, are encouraged to apply. Applicants must have at least 18 semester credit hours in psychology with grades of C or better. Minimum required courses should include general or introductory psychology, abnormal psychology, and research methods or statistics. All prerequisites must be completed by the end of a student's first semester at Adler University. Equivalent coursework in other social and natural sciences may also be considered. The Graduate Record Examination is required for all applicants. Approved applicants will be invited to a personal interview as a final step in the application process.

Length of Program

The doctoral program is structured to be completed in five years for students attending full-time. Full-time students (nine credit hours or more per term) should plan to spend four years in coursework and practicum experience followed by a one-year, full-time or two-year, half-time internship. Students are required to enroll full-time in order to complete the program in a timely fashion. Part-time study is permitted for a limited time based on approval of the student's Academic Advisor and Department Chair, as long as the student meets the program's residency requirements as specified in the Program Residency Policy. Due to the demands of study and clinical training, students should limit employment while completing the program. Adherence to the Satisfactory Progress policy described in the section on general academic policies is required of all students and essential to timely completion of all program requirements.

The doctoral curriculum is based on attendance in school throughout the calendar year. Course requirements must be completed through attendance in all three academic terms. The suggested course sequence for the doctoral program curriculum provides guidelines for students to complete requirements in a manner that is timely and complies with academic requirements. Students are strongly encouraged to complete their dissertation prior to their internship.

Time to Completion

The maximum time permitted for a student to complete all requirements for the Psy.D. degree is seven years from the date of first registration following admission to the program. Students are expected to complete the program within two years of completing the internship, not exceeding seven years. Failure to do so may result in administrative withdrawal from the program.

Psy.D. Program Residency Policy

The program is designed to be completed in five years. Students who matriculate with a master's degree can transfer up to 24 credit hours of graduate-level coursework toward the 114 credit hours needed to graduate. In order to be considered a full-time student, students are required to register for nine credit hours per semester or 27 credit hours per academic year. Students who are registered for practicum or internship are considered to be full-time students regardless of the number of credits they are taking. All students are required to be full-time students for at least two years before being admitted for doctoral candidacy.

Following admittance for doctoral candidacy, students are required to be full-time students for at least one more year. Doctoral students are required to attend school full-time unless approved for part-time study by their Faculty Advisor and Department Chair. Students must complete at least three years of academic coursework and practicum training in the program before going for internship. All students are required to complete a one-year, full-time or two-year, half-time internship in order to meet the requirements for the Psy.D. degree. The complete Psy.D. Program Residency Policy can be found in the Psy.D. Program Policies and Procedures Handbook.

Doctoral Candidacy

In order to be admitted for doctoral candidacy, students are required to successfully complete all requirements for the first two years of the Psy.D. program. The complete Psy.D. Doctoral candidacy policy can be found in the Psy.D. Program Policies and Procedures Handbook.

Psy.D. Program Grade Policy

Students are required to achieve at least a grade of B to successfully pass a course. Students who receive a grade below B on any required course must retake the course in order to have it counted toward the Psy.D. degree. Students who received a grade below B on an elective course may retake the course, or take another equivalent elective course in order to have it counted toward the Psy.D. degree. The complete Psy.D. grade policy can be found in the Psy.D. Program Policies and Procedures Handbook.

Qualifying Examinations

In addition to satisfying coursework, practica, and other program requirements, students must also pass two clinical qualifying examinations. Qualifying examinations are important tasks integrated throughout the doctoral curriculum that provide students with the opportunity to integrate course material and practical training, reflect on their educational and training experiences, and apply their learning to clinical and social issues.

The two qualifying examinations are clinical-competency based and are designed to model the style of examination used at the postdoctoral level to earn board certification. In both examinations, students are required to synthesize and integrate clinical data from a range of sources to develop a clinical formulation and treatment plan using theories and methods acquired in the classroom and at practica. The two qualifying examinations are clinical-competency based and are designed to model the style of examination used at the postdoctoral level to earn board certification. In both examinations, students are required to synthesize and integrate clinical data from a range of sources to develop a clinical formulation and treatment plan using theories and methods acquired in the classroom and at practica.

The first of these examinations, Psy.D Clinical Qualifying-Assessment Competency, consists of a clinical interview and mental status exam with a current client; a comprehensive psychological report on a common individual case integrating assessment material, social history, diagnosis,

and treatment plan; a paper integrating research with a pertinent clinical issue posed by the case; and a discussion of the impact of social issues on a pertinent clinical issue.

Deadlines for submission of this examination and other details pertinent to preparation and submission of required materials are described in the Psy.D. Clinical Qualifying Examination Handbook. Following faculty review and approval of the submitted materials, students complete an oral exam in which their knowledge, skills, and attitudes pertaining to assessment and intervention are assessed. Students must register for and complete the Psy.D. Clinical Qualifying Examination – Assessment Competency during the spring term of their diagnostic practicum year.

The second clinical competency examination is the Psy.D. Clinical Qualifying Examination – Intervention Competency. Its format and intent is similar to the previous examination, with the focus being on a sample of a therapeutic intervention conducted with a client. The student is required to submit a written case formulation and treatment plan along with an audiotaped/videotaped therapy session; a paper integrating research with a pertinent clinical issue posed by the case; a formulation of the case based on two theoretical approaches, of which one is Adlerian theory and methods; and a discussion of the impact of social issues on a pertinent clinical issue. Deadlines for submission of this examination and other details pertinent to preparation and submission of required materials are described in the Psy.D. Clinical Qualifying Examination Handbook. The prerequisite to take this examination is the successful completion of the first knowledge-based qualifying exam, assessment practicum, and Psy.D. Clinical Qualifying Examination – Assessment Competency.

Students must register for and complete the Psy.D. Clinical Qualifying Examination – Intervention Competency during the spring semester of their therapy practicum year. Students must successfully pass this examination in order to receive approval to submit application materials to internship sites from the Director of Training.

The Psy.D. qualifying exams are milestone experiences that allow faculty to evaluate students' readiness for internship and ability to proceed in the program. Receiving a failing grade on these exams indicates the student demonstrated significant problems in several areas measured by these exams. Students who fail any of the Psy.D. qualifying exams the first time will be referred to their advisor to address areas of deficit and resubmit a new exam. Students who fail a doctoral qualifying exam for the second time will be referred to the Student Comprehensive Evaluation Committee to develop a formal remediation plan.

Practicum

An integral part of the doctoral program is the acquisition of practical skills gained in field placements. Ongoing involvement in community service and clinical activities at professional training sites, including Adler Community Health Services, gives students the closely supervised opportunity to apply and further develop the knowledge, skills, values, and competencies they gain in coursework. Practicum training requirements begin with a nonclinical first-year Social Justice Practicum (SJP) that focuses on developing skills related to community-based interventions, advocacy, social justice, and systemic interventions that benefit human welfare and well-being.

Students then complete clinical training that focuses first, on developing skills and providing experience in psychological assessment, and second, on developing skills-related to intervention/treatment. Students conclude their practicum training by taking an advanced practicum in their fourth year, which provides them with a deeper level of training within an area of interest, and integrates previously learned skills and knowledge with more complex populations. Because the focus is on integrating doctoral-level education with licensed doctoral-level supervised clinical training, no transfer credit is granted for practica credits earned elsewhere or in a previously completed Adler master's program.

Students must successfully complete course prerequisites prior to being approved to begin their first clinical practicum.

First-year students will spend eight to ten hours per week over the course of six months at an approved Social Justice Practicum (SJP) site while concurrently enrolled in required coursework. A minimum of 200 clock hours is required for Social Justice Practicum. Students are expected to gain the minimum required hours over a six-month period and no less. At least one of the following courses must be taken concurrently with Social Justice Practicum I & II: Ethics and Professional Development in Clinical Psychology (PSY-645), and/or Diversity and Individual Differences (PSY-642). Students must successfully complete SJP with a credit grade in order to begin clinical practicum.

The Center for Civic Learning and Community Action works in collaboration with community partners to identify and place students in projects that meet the standards and requirements of the Social Justice Practicum.

Second- and third-year doctoral students should expect to spend at least two days per week over the course of at least nine months at an approved clinical practicum site, and they must concurrently enroll in practicum seminars throughout their field training. A minimum of 1,500 total clock hours of clinical practica (combined for both practica) are required. Most doctoral students complete more than the minimum number of hours prior to beginning their internship. Fourth-year students complete an advanced practicum to obtain in-depth training in their areas of interest to strengthen their learning experience. Advanced practicum students must complete a minimum of 600 total clock hours of practicum over the course of at least nine months at an approved practicum site, and they must concurrently enroll in practicum seminars throughout the training year. Students earn a grand total of at least 2,100 practicum hours.

The training faculty work in collaboration with students in identifying clinical experiences that meet the standards and requirements of the program. Students should refer to the Practicum Handbook, available on Adler Connect, for detailed information.

Social Exclusion Simulation

First-year students participate in one of the Social Exclusion Simulations (SES) offered on multiple occasions during the academic year. This experiential learning exercise allows participants to “walk in the shoes” of individuals encountering structural and systemic barriers. Through this role-playing exercise, students gain a deep appreciation of the socially constructed processes by which certain individuals and groups of people are denied access to the rights, opportunities, and resources commonly available to members of society.

Master of Arts in Clinical Psychology

Upon successful completion of all the course requirements for the first two years of the Psy.D. degree, as well as successful completion of a clinical practicum, students who first matriculated in the Psy.D. program in fall 2013 and subsequent cohorts, are eligible to be awarded the Master of Arts in Clinical Psychology. This is a non-terminal degree that is integral to the doctoral program. As a non-terminal degree, it does not serve as an independent clinical degree that is licensable.

Internship

An important portion of the Psy.D. program is devoted to a 2,000-clock-hour internship at an approved site over a 12-month (full-time) or 24-month (half-time) period. The internship is designed to provide intensive advanced clinical training, building on coursework, practicum experiences, and clinical supervision. Because the internship is an essential component of the Psy.D. program, it cannot be waived. Students who do not successfully complete the internship are subject to dismissal from the University.

Students must successfully complete all doctoral program requirements, except for dissertation coursework and defense, prior to beginning an internship. The Director of Training works closely with students to assess readiness to apply for, accept, and begin an internship and to identify appropriate internship sites. Students requesting to apply for an internship are reviewed by the department faculty, including training faculty, to determine eligibility and readiness. If the faculty raises concerns about a student's readiness to apply for an internship based on academic, clinical, and/or professional comportment, the student will be referred to the Student Development Committee for review. All students are required to participate in the APPIC match process for internship placement. The Internship Handbook, available on Adler Connect, provides specific information regarding internship requirements.

Psy.D. Dissertation

The Psy.D. dissertation is designed to contribute to a student's knowledge, skills, and values in scholarship and its importance to the practice of professional psychology. Dissertations at Adler University may span a broad range of interests and methodologies and follow the local clinical scientist model. Traditional empirical studies, qualitative research, program development and evaluation, and case studies are all accepted forms of dissertation research. Students may identify an area of interest, conduct preliminary work – such as reading and evaluating the current literature – in the area of interest, and consult with faculty regarding a potential topic area at any time during their residency in the program. Students are encouraged to do so as early as possible.

Prior to formally beginning work on their Psy.D. Dissertation, students must successfully complete the Psy.D. Clinical Qualifying Examination in Assessment (PSY 790). In addition, Statistics (PSY-737), Quantitative Research Methods in Clinical Psychology (PSY-738), and Qualitative Research Methods in Clinical Psychology (PSY-739) should be completed before registering for the first Psy.D. Dissertation course. Students work with a faculty member in their area of interest to chair their dissertation committee and to develop a suitable dissertation topic. Beginning in their third year, students register for a series of six semesters of Psy.D. Dissertation (.5 credit each for Dissertation I-VI) and work closely across their third and fourth year in the program, starting from developing and successfully defending their dissertation proposal, through to the completion of their dissertation.

The topic, format, and scope of the dissertation project must satisfy the requirements and standards of scholarship and rigor set forth by the program, with the approval of the student's doctoral dissertation committee. The Chair of the committee must be a core faculty member in the Psy.D. program. It is permissible for outside experts to be involved in the dissertation as committee members and outside readers, but not as committee Chair. Requirements for the doctoral dissertation are detailed in the program's Dissertation Handbook.

Degree Requirements

The following courses, exams, practica, seminars, dissertation, and internship are required for this degree.

Courses

PSY-600	Clinical Interviewing and Fundamental Skills (with Lab)	4 cr.
PSY-623	Life Span Development	3 cr.
PSY-642	Diversity and Individual Differences	3 cr.
PSY-645	Ethics and Professional Development in Clinical Psychology	3 cr.
PSY-648	Psychopathology I	3 cr.
PSY-649	Psychopathology II	3 cr.
PSY-659	Community Psychology	3 cr.

PSY-661	Integrative Assessment: Cognitive, Intellectual, and Academic Functioning (with Lab)	4 cr.	Dissertation		
PSY-662	Integrative Assessment: Personality I (with Lab)	4 cr.	PSY-892	Doctoral Dissertation I	.5 cr.
PSY-663	Integrative Assessment: Personality II (with Lab)	4 cr.	PSY-893	Doctoral Dissertation II	.5 cr.
PSY-709	Diagnosis and Treatment of Addictive Disorders	3 cr.	PSY-894	Doctoral Dissertation III	.5 cr.
PSY-710	Adlerian Therapy I: Introduction to Assessment and Case Conceptualization	3 cr.	PSY-992	Doctoral Dissertation IV	.5 cr.
PSY-711	Adlerian Therapy II: Psychodynamics of Psychopathology and Interventions	3 cr.	PSY-993	Doctoral Dissertation V	.5 cr.
PSY-724	Biological Bases of Behavior	3 cr.	PSY-994	Doctoral Dissertation VI	.5 cr.
PSY-737	Statistics	3 cr.	PSY-998	Doctoral Dissertation Oral Defense	0 cr.
PSY-738	Quantitative Research Methods in Clinical Psychology	3 cr.	Internship		
PSY-739	Qualitative Research Methods in Clinical Psychology	3 cr.	PSY-920	Doctoral Internship Full-Time I	0 cr.
PSY-832	Cognitive and Affective Bases of Behavior	3 cr.	PSY-921	Doctoral Internship Full-Time II	0 cr.
PSY-833	Social Psychology	3 cr.	PSY-922	Doctoral Internship Full-Time III	0 cr.
PSY-834	History and Systems	3 cr.	or		
PSY-835	Social Determinants of Mental Health	3 cr.	PSY-923	Doctoral Internship Half-Time I	0 cr.
PSY-910	Supervision and Management in Clinical Psychology (with Lab)	4 cr.	PSY-924	Doctoral Internship Half-Time II	0 cr.
PSY-***	Intervention Electives (two)	6 cr.	PSY-925	Doctoral Internship Half-Time III	0 cr.
PSY-***	Advanced Intervention Elective	3 cr.	PSY-926	Doctoral Internship Half-Time IV	0 cr.
PSY-***	Another Intervention Elective from either category	3 cr.	PSY-927	Doctoral Internship Half-Time V	0 cr.
PSY-***	General Electives (five)	15 cr.	PSY-928	Doctoral Internship Half-Time VI	0 cr.
Qualifying Exams			Total Credit Hours Required: 114		
PSY-790	Psy.D. Clinical Qualifying Examination – Assessment Competency	0 cr.	*Successful completion of these courses is required before beginning clinical practicum.		
PSY-890	Psy.D. Clinical Qualifying Examination – Intervention Competency	0 cr.			
Practica			Electives		
SJP-513	Social Justice Practicum I	1 cr.	Menu of Required Intervention Electives**		
SJP-514	Social Justice Practicum II	1 cr.	All Psy.D. students Choose Two:		
The following practicums and seminars are taken concurrently with a total of 1 credit for both the seminar and practicum:			PSY-720	Cognitive and Behavioral Therapy Approaches I	
			PSY-721	Psychoanalytic Approaches I	
			PSY-722	Humanistic and Existential Therapy Approaches I	
			PSY-723	Couple and Family Therapy Approaches I	
			PSY-799	Military Couple, Family, and Group Psychotherapy (Military Emphasis students only; meets the requirement of PSY-723)	
			Menu of Required Advanced Intervention Electives**		
			All Psy.D. students Choose One:		
			PSY-801	Psychoanalytic Approaches II	
			PSY-802	Cognitive and Behavioral Therapy Approaches II	
			PSY-803	Humanistic and Existential Therapy Approaches II	
PSY-867	Doctoral Practicum and Seminar IV	1 cr.	PSY-804	Couple and Family Therapy Approaches II	
PSY-868	Doctoral Practicum and Seminar V	1 cr.	PSY-824	Advanced Adlerian Interventions and Assessment	
PSY-869	Doctoral Practicum and Seminar VI	1 cr.	General Electives		
PSY-967	Advanced Practicum and Seminar I	1 cr.	Psy.D. students choose five from the courses listed below (regular and/or advanced). Emphasis courses meet this requirement.		
PSY-968	Advanced Practicum and Seminar II	1 cr.	Regular Electives		
Seminars			Psy.D. students in their 2nd year or beyond		
PSY-667	Professional Development and Socially Responsible Practice Seminar I	1 cr.	PSY-712	Bio-Psycho-Social-Spiritual Aspects of Addiction (Substance Abuse Treatment Emphasis course open to 2nd Year or beyond Psy.D. students)*	
PSY-668	Professional Development and Socially Responsible Practice Seminar II	1 cr.	PSY-753	Child & Adolescent Psychopathology (C&A emphasis course open to 2nd Year or beyond Psy.D. students)*	
PSY-669	Diversity Seminar	1 cr.	PSY-756	Group Psychotherapy (this course fulfills the open C&A elective requirement)	
Diversity Seminar			PSY-763	Gay, Lesbian, Bisexual and Transgender Issues Across the Lifespan	
These seminars are now concurrent with the practicums above (total of 1 credit only for both the seminar and practicum)					
PSY-750	Doctoral Practicum Seminar I				
PSY-751	Doctoral Practicum Seminar II				
PSY-752	Doctoral Practicum Seminar III				
PSY-850	Doctoral Practicum Seminar IV				
PSY-851	Doctoral Practicum Seminar V				

PSY-783	Advanced Child & Adolescent Assessment (C&A emphasis course open to all students; open to 2nd, 3rd, 4th, and 5th year Psy.D. students)*	PSY-811	Advanced Issues in Co-Occurring Disorders (Traumatic Stress emphasis priority and Substance Abuse Treatment emphasis priority)
PSY-784	Introduction to Military Psychology (Military emphasis course open to 2nd year or beyond Psy.D. students)*	PSY-821	Neo-Adlerian Theory: Integration of Adlerian theory with Evidence Based Practice (Advanced Adlerian emphasis; open to all 3rd, 4th, and 5th year Psy.D. students)*
PSY-785	Psychology of Combat & Conflict (Military emphasis students only)	PSY-822	Death, Dying, Bereavement and Loss-Focused Approaches to Intervention (Traumatic Stress emphasis and Primary Care emphasis priority; open to all 3rd, 4th, and 5th year Psy.D. students)*
PSY-870	International Immersion and Cross-Cultural Studies		

Advanced Electives

3rd, 4th, and 5th year students

PSY-706	Trauma-Focused Approaches to Intervention (Traumatic Stress emphasis priority; open to all 3rd, 4th, and 5th year Psy.D. students; this course fulfills the open C&A elective requirement)*	PSY-823	Adlerian Parent Consultation and Family Therapy (Advanced Adlerian emphasis course open to all 3rd, 4th, and 5th year Psy.D. students; this course fulfills the open C&A elective requirement)*
PSY-713	Advanced Treatment of Addictive Disorders (Substance Abuse Treatment emphasis course open to all 3rd, 4th, and 5th year Psy.D. students)*	PSY-839	Advanced Statistical Techniques
PSY-717	Primary Care Psychology (2 cr.) (Primary Care emphasis priority; open to all 3rd, 4th, and 5th year Psy.D. students)*	PSY-864	Pediatric Neuropsychology (Clinical Neuropsychology Emphasis students only)
PSY-718	Medical Terminology and Conditions for Primary Care (1 cr.) (Primary Care emphasis priority; open to all 3rd, 4th, and 5th year Psy.D. students)*	PSY-865	Advanced Neuropsychological Assessment and Conceptualization III (Clinical Neuropsychology Emphasis students only)
PSY-719	Mindfulness Meditation (Primary Care emphasis priority; open to all 3rd, 4th and 5th year Psy.D. students)*	PSY-877	Advanced Issues in Religion & Spirituality – Theory & Therapy
PSY-733	Theories and Techniques of Clinical Hypnosis (Primary Care emphasis priority; open to all 3rd, 4th, and 5th year Psy.D. students)*	PSY-884	Geriatric Neuropsychology (Clinical Neuropsychology Emphasis students only)
PSY-735	Assessment and Intervention in Behavioral Medicine (Primary Care emphasis priority; open to all 3rd, 4th, and 5th year Psy.D. students)*	PSY-912	Psychopharmacology
PSY-736	Assessment and Intervention in Behavioral Medicine II (Primary Care emphasis priority; open to all 3rd, 4th, and 5th year Psy.D. students)*	PSY-930	Trauma, Grief, and Loss with Children, Family, and Adolescents (This course fulfills the open C&A elective requirement; open to all 3rd, 4th, and 5th year Psy.D. students)*
PSY-754	Special Topics in the Treatment of Children, Adolescents and Families (This course fulfills the open C&A elective requirement; open to all 3rd, 4th, and 5th year Psy.D. students)*	PSY-931	Developmental Disorders of Childhood and Adolescence (This course fulfills the open C&A elective requirement; open to all 3rd, 4th, and 5th year Psy.D. students)*
PSY-757	Child & Adolescent Psychotherapy (C&A emphasis course; open to all 3rd, 4th, and 5th year Psy.D. students)*	PSY-932	Assessment and Intervention with Adolescents and Young Adults (This course fulfills the open C&A elective requirement; open to all 3rd, 4th, and 5th year Psy.D. students)*
PSY-758	Biofeedback (Primary Care emphasis priority; open to 3rd, 4th, and 5th year Psy.D. all students)*		
PSY-764	Neuropsychological Assessment I		
PSY-765	Neuropsychological Assessment II		
PSY-783	Advanced Child & Adolescent Assessment (C&A emphasis course open to all students; open to 2nd, 3rd, 4th, and 5th year Psy.D. students)*		
PSY-798	Trauma-Informed Theory, Assessment, and Treatment in Military Clinical Psychology (Military emphasis students only)		
PSY-797	Testing, Assessment & Treatment in DoD & VA Healthcare Systems (Military emphasis only)		
PSY-805	Advanced Child & Adolescent Psychotherapy (C&A emphasis course open to all 3rd, 4th, and 5th year Psy.D. students)*		
PSY-806	Advanced Trauma-Focused Approaches to Interventions (Traumatic Stress emphasis priority; open to all 3rd, 4th, and 5th year Psy.D. students)*		

Note: Students enrolled in an emphasis will have priority to register in emphasis courses that are open to non-emphasis Psy.D. students.

*Courses from an emphasis that may be taken by non-emphasis students.

**Intervention and advanced intervention courses taken in excess of the required amount will meet the requirement of a general elective.

Graduation Requirements

1. Satisfactory completion of all required credit hours, including all required courses and seminars
2. Satisfactory completion of a minimum of 2,100 hours of clinical practicum
3. Satisfactory completion of Social Justice Practicum I & II
4. A cumulative grade point average of 3.0 or higher and no grades below B
5. Fulfillment of the residency requirement
6. Successful completion of all qualifying examinations
7. Successful completion of a Psy.D. dissertation and oral defense
8. Satisfactory completion of an approved internship
9. Submission of final dissertation to the Psy.D. Department and to ProQuest
10. Submission of completed Graduation Application and full payment of all outstanding tuition and fees

Doctor of Psychology in Clinical Psychology Course Descriptions

PSY-600

Clinical Interviewing and Fundamental Skills (with Lab) 3 Credits

This course teaches entry-level doctoral students fundamental relationship, intervention, diagnostic, and interviewing skills using role-plays and other experiential activities to prepare for clinical work on practicum. The course covers intake and semi-structured interviewing, the mental status exam, treatment planning, and providing client feedback. Students will be introduced to the DSM-5 system of clinical diagnosis, using especially the anxiety and mood disorders, as well as obsessive-compulsive spectrum and trauma-related disorders as examples, to understand diagnostic criteria and the relationship between diagnosis and treatment planning. Interventions are seen in the context of case conceptualization, the therapeutic relationship, stages of treatment, common factors in the change process, and multicultural issues. Students will be exposed to the elements of one theoretical model to show the relationship between theory, data gathering, hypothesizing, and treatment planning. Finally, a brief introduction to self-care and how to use clinical supervision is presented. This course includes a required lab. (Students entering prior to 2019-2020 AY.)

PSY-600

Clinical Interviewing and Fundamental Skills and Required Lab 4 Credits

This course teaches entry-level doctoral students fundamental relationship, intervention, diagnostic, and interviewing skills using role-plays and other experiential activities to prepare for clinical work on practicum. The course covers intake and semi-structured interviewing, the mental status exam, treatment planning, and providing client feedback. Students will be introduced to the DSM-5 system of clinical diagnosis, using especially the anxiety and mood disorders, as well as obsessive-compulsive spectrum and trauma-related disorders as examples to understand diagnostic criteria and the relationship between diagnosis and treatment planning. Interventions are seen in the context of case conceptualization, the therapeutic relationship, stages of treatment, common factors in the change process, and multicultural issues. Students will be exposed to the elements of one theoretical model to show the relationship between theory, data gathering, hypothesizing, and treatment planning. Finally, a brief introduction to self-care and how to use clinical supervision is presented. This course includes a required lab. (Course was modified and is applicable to students entering in 2019-20 AY or later.)

PSY-623

Life Span Development 3 Credits

Social, cultural, biological, and psychological issues of prenatal life, childhood, adolescence, adulthood, and aging are presented. Psychosocial development, cognitive functioning, life transitions, coping and adaptation, work and retirement, bereavement, and related issues are explored. The course focuses primarily on the theories and application of normal development using a systems approach.

PSY-642

Diversity and Individual Differences 3 Credits

This class is one of two courses foundational to understanding human behavior in context and examining the impact of diversity, power, and privilege. Diversity broadly defined, including aspects of individual and group identity such as age, gender, sexual orientation, culture, race, ethnicity, religion, socioeconomic status, and health/ability status, will be examined. The course emphasizes experiential and theoretical learning, including self-reflection and exploration of personal identity, so students develop culturally and socially responsive knowledge, skills, and attitudes. Research, theoretical frameworks, and models for understanding identity will be presented, as well as consideration of multiple statuses, worldviews, and the role of social constructs. Integration of these diversity perspectives into clinical work, and their application to the development of socially responsible practitioners, are interwoven into the course.

PSY-645

Ethics and Professional Development in Clinical Psychology 3 Credits

This course is designed to provide students with a solid foundation for the ethical practice of professional psychology. Students will learn the American Psychological Association Ethical Principles of Psychologists and Code of Conduct, as well as the history of professional psychology and psychotherapy. A review of theories of social justice and their relationship to ethical decision-making will be provided. This course will also introduce ethical guidelines for researchers and acquaint students with the Institutional Review Board (IRB) and its functions and requirements. The course will reinforce the basics of professional writing and provide an introduction to supervision, consulting, and leadership. Students will learn to apply ethical and professional decision-making skills to current issues facing the field of psychology.

PSY-648

Psychopathology I 3 Credits

This course examines historical and conceptual issues in diagnosis and psychopathology, including how wellness is differentiated from pathology. The course examines dimensional versus categorical models, diagnostic validity, the DSM-5 and its predecessors, models of personality development, and the biopsychosocial model of mental illness. Specific mental disorders covered in this class include the anxiety disorders, trauma, the obsessive-compulsive spectrum, mild to moderate depression, somatic symptom disorders, autistic-spectrum disorders, and the Cluster C personality disorders (e.g., avoidant, dependent, and obsessive-compulsive). A major focus of the course is DSM-5 diagnosis. Other topics will include etiology, epidemiology, behavioral genetics, developmental course, therapeutic outcome, psychopharmacology, policy, and advocacy issues. *Note: Offered only in the Fall term.*

PSY-649

Psychopathology II 3 Credits

Prerequisite: PSY-648. This course is a continuation of PSY-648 with a focus on both the science of psychopathology and DSM-5 diagnosis. The course examines the clinical manifestations of the persistent and serious mental illnesses, including the schizophrenic-spectrum disorders, dissociative disorders, bipolar disorders, features of severe mood disorders, eating and feeding disorders, gender dysphoria, and paraphilic disorders. The course also examines the Cluster A personality disorders (e.g., schizotypal, paranoid, and schizoid) and Cluster B personality disorders (e.g., borderline, antisocial, narcissistic, and histrionic). Comorbidity and differential diagnosis are major foci of this course, and other topics will include etiology, epidemiology, behavioral genetics, developmental course, treatment, therapeutic outcome, psychopharmacology, policy, and advocacy issues. *Note: Offered only in the Spring term.*

PSY-659

Community Psychology 3 Credits

Students learn theory and research in the role of community psychology in treating problems related to a range of pervasive social justice issues that impact the health of individuals and communities. Community psychology takes an ecological approach to human functioning, locating health and dysfunction in the interaction between individuals and larger social systems. This area of psychology is also concerned with preventive interventions and encourages collaboration across disciplines. Intervention strategies that involve community needs assessment, program development and evaluation, community organizing, activism/advocacy, fundraising, and policy analysis will be emphasized.

PSY-661**Integrative Assessment: Cognitive, Intellectual, and Academic Functioning (with Lab)****3 Credits**

This course introduces students to the theoretical basis, psychometrics, ethics, and clinical application of cognitive and academic assessment. Cultural influences and diversity issues involving assessment procedures are emphasized, and classical and contemporary theories of intelligence are explored to provide students with a useful framework. Students are trained to: (a) understand the conceptual and historical background of intellectual/academic assessment; (b) be proficient in administration, scoring, and interpretation of commonly used intelligence and academic achievement measures; (c) integrate data from clinical interviews, behavioral observations, and mental status examinations with formal cognitive/academic test data to appropriately conceptualize cases; (d) understand and apply DSM-5 diagnosis as related to neurodevelopmental disorders; and (e) write integrative reports based on these sources of data. Must be taken with the required lab. (Students entering prior to 2019-2020 AY.)

PSY-661**Integrative Assessment: Cognitive, Intellectual, and Academic Functioning and Required Lab****4 Credits**

This course introduces students to the theoretical basis, psychometrics, ethics, and clinical application of cognitive and academic assessment. Cultural influences and diversity issues involving assessment procedures are emphasized, and classical and contemporary theories of intelligence are explored to provide students with a useful framework. Students are trained to: (a) understand the conceptual and historical background of intellectual/academic assessment; (b) be proficient in administration, scoring, and interpretation of commonly used intelligence and academic achievement measures; (c) integrate data from clinical interviews, behavioral observations, and mental status examinations with formal cognitive/academic test data to appropriately conceptualize cases; (d) understand and apply DSM-5 diagnosis as related to neurodevelopmental disorders; and (e) write integrative reports based on these sources of data. Course includes a required lab. (Course was modified and is applicable to students entering in the 2019-20 AY or later.) *Note: Offered only in the Fall term.*

PSY-662**Integrative Assessment: Personality I (with Lab)****3 Credits**

Prerequisite: PSY-661. This course provides students with an overview of the conceptual, theoretical, empirical, and psychometric issues in clinical assessment through self-report, actuarial, and narrative approaches to the psychological assessment of personality and psychopathology. Students will learn to administer, score, and interpret broadband measures, such as NEO Personality Inventory (NEO-PI-3), Minnesota Multiphasic Personality Inventory (MMPI-2/MMPI-A), the Personality Assessment Inventory (PAI/PAI-A), and narrow-band measures, such as the Beck Depression Inventory-II (BDI-II) and State/Trait Anxiety Inventory. The course also introduces students to the assessment of personality and psychopathology through the use of narrative methods such as the Thematic Apperception Test (TAT) and the Sentence Completion Series (SCS). In this course, students will also learn how to assess basic personality strengths and assets, to integrate data from clinical interviews, and to synthesize data from behavioral observations and mental status examinations. Moreover, the course teaches students to conceptualize personality from the perspective of multiple domains of functioning; to integrate cognitive/intellectual data; to compose summaries and case formulations; to formulate DSM-5 diagnostic impressions; to conceptualize treatment recommendations; to address unique referral questions; and to write integrative assessment reports based on the aforementioned sources of clinical data. Finally, this course will provide students with a framework for how to effectively organize and cross-validate findings for a comprehensive psychological assessment. This course must be taken with the required lab. This course may not be transferred or waived, as it serves to prepare students for the Clinical Qualifying Examination – Assessment Competency. (Students entering prior to 2019-2020 AY.)

PSY-662**Integrative Assessment: Personality I and Lab****4 Credits**

Prerequisite: PSY-661. This course provides students with an overview of the conceptual, theoretical, empirical, and psychometric issues in clinical assessment through self-report, actuarial, and narrative approaches to the psychological assessment of personality and psychopathology. Students will learn to administer, score, and interpret broadband measures, such as NEO Personality Inventory (NEO-PI-3), Minnesota Multiphasic Personality Inventory (MMPI-2/MMPI-A), the Personality Assessment Inventory (PAI/PAI-A), and narrow-band measures, such as the Beck Depression Inventory-II (BDI-II) and State/Trait Anxiety Inventory. The course also introduces students to the assessment of personality and psychopathology through the use of narrative methods such as the Thematic Apperception Test (TAT) and the Sentence Completion Series (SCS). In this course, students will also learn how to assess basic personality strengths and assets, to integrate data from clinical interviews, and to synthesize data from behavioral observations and mental status examinations. Moreover, the course teaches students to conceptualize personality from the perspective of multiple domains of functioning; to integrate cognitive/intellectual data; to compose summaries and case formulations; to formulate DSM-5 diagnostic impressions; to conceptualize treatment recommendations; to address unique referral questions; and to write integrative assessment reports based on the aforementioned sources of clinical data. Finally, this course will provide students with a framework for how to effectively organize and cross-validate findings for a comprehensive psychological assessment. This course includes a required lab. This course may not be transferred or waived, as it serves to prepare students for the Clinical Qualifying Examination – Assessment Competency. (Course was modified and is applicable to students entering in the 2019-20 AY or later.) *Note: Offered only in the Spring term.*

PSY-663**Integrative Assessment: Personality II (with Lab)****3 Credits**

Prerequisite: PSY-662. This course provides students with an overview of the conceptual, theoretical, empirical, and psychometric issues in clinical assessment through the use of the Rorschach Performance Assessment System (R-PAS). Students will learn to administer, score, and interpret this evidence-based, performance-based personality measure. Specifically, the course will prepare students to derive both nomothetic and idiographic findings about an individual's personality functioning, including signs of psychopathology and wellness, using norm-referenced R-PAS data, content analysis of thematic data in Rorschach responses, and through sequence analysis. In this course, students will also learn how to assess basic personality strengths and assets, to integrate data from clinical interviews, and to synthesize data from behavioral observations and mental status examinations. Moreover, the course teaches students to conceptualize personality from the perspective of multiple domains of functioning, to integrate actuarial data from self-report personality tests, as well as from cognitive/intellectual tests. The course continues to emphasize the many foci of PSY-662 including composing summaries and case formulations, formulating DSM-5 diagnostic impressions, conceptualizing treatment recommendations, addressing unique referral questions, and writing integrative assessment reports based on the aforementioned sources of clinical data. This course continues to provide students with a framework for how to effectively organize and cross-validate findings for a comprehensive psychological assessment. This course must be taken with the required lab. This course may not be transferred or waived, as it serves to prepare students for the Clinical Qualifying Examination – Assessment Competency. (Students entering prior to 2019-2020 AY.)

PSY-663**Integrative Assessment: Personality II and Lab****4 Credits**

Prerequisite: PSY-662. This course provides students with an overview of the conceptual, theoretical, empirical, and psychometric issues in clinical assessment through the use of the Rorschach Performance Assessment System (R-PAS). Students will learn to administer, score, and interpret this evidence-based, performance-based personality measure. Specifically, the course will prepare students to derive both nomothetic and idiographic findings about an individual's personality functioning, including signs of psychopathology and wellness, using norm-referenced R-PAS data, content analysis of thematic data in Rorschach responses, and through sequence analysis. In this course, students will also learn how to assess basic personality strengths and assets, to integrate data from clinical interviews, and to synthesize data from behavioral observations and mental status examinations. Moreover, the course teaches students to conceptualize personality from the perspective of multiple domains of functioning, to integrate actuarial data from self-report personality tests, as well as from cognitive/intellectual tests. The course continues to emphasize the many foci of PSY-662, including composing summaries and case formulations, formulating DSM-5 diagnostic impressions, conceptualizing treatment recommendations, addressing unique referral questions, and writing integrative assessment reports based on the aforementioned sources of clinical data. This course continues to provide students with a framework for how to effectively organize and cross-validate findings for a comprehensive psychological assessment. This course includes a required lab. This course may not be transferred or waived, as it serves to prepare students for the Clinical Qualifying Examination – Assessment Competency. (Course was modified and is applicable to students entering in the 2019-20 AY or later.) *Note: Offered only in the Summer term.*

PSY-667**Professional Development and Social Responsibility Practice Seminar I****1 Credit**

This seminar provides first-year students with support for, and orientation to, becoming a socially responsible psychologist. The seminar focuses on personal and professional development to help students prepare to engage in clinical and community work, explore their personal and professional identity, and begin to understand the impact of diversity and social justice issues on their work. Self-awareness will be enhanced through experiential exercises, readings, written reflections, and presentations. The same seminar students continue together throughout the first year, and in this small-group environment, students are expected to engage in personal exploration and prepare to demonstrate and apply professional skills in their academic and professional work. Additional topics in ethics, professional standards of psychology and personal growth, and development of writing and academic skills will be included.

PSY-668**Professional Development and Social Responsibility Practice Seminar II****1 Credit**

This seminar continues throughout the first year and provides students with support and orientation to becoming a socially responsible psychologist. The seminar focuses on personal and professional development to help students prepare to engage in clinical work, explore their personal and professional identity, and begin to understand the impact of diversity and social justice issues on their work. Self-awareness will be enhanced through experiential exercises, readings, written reflections, and presentations. The same seminar students continue together throughout the first year, and in this small-group environment, students are expected to engage in personal exploration and prepare to demonstrate and apply professional skills in their academic and clinical work. Additional topics in ethics, socially responsible practice, professional standards of psychology and personal growth, and stress-management, wellness, and self-care will be included.

PSY-669**Diversity Seminar****1 Credit**

This seminar continues throughout the first year and builds on professional identity development and integration of socially responsible practice values and skills. In the last term of this seminar, students will continue to explore and integrate the personal and professional impact of working with diverse communities, drawing from their service-learning practicum experiences. They will begin to consider strategies and personal growth areas for socially responsible practice in clinical settings with diverse clients. They will engage in discussions and structured activities that facilitate reflection on their experiences and development of values and skills consistent with social justice. This seminar is intended to support the acquisition of knowledge, awareness, and sensitivity for considering systems and social context in clinical work. Students will recognize the need to develop relevant skills regarding individual and cultural differences in light of contextual factors in the practice of clinical psychology.

PSY-706**Trauma-Focused Approaches to Intervention****3 Credits**

This course covers the history, etiology, symptoms, diagnosis, and treatment of trauma-related dysfunction, particularly post-traumatic stress disorder (PTSD), acute stress disorder (ASD), and common comorbid conditions. Students will learn about the range of events associated with trauma; the prevalence, incidence, and developmental impact of PTSD across the life span; the major risk factors for trauma-related dysfunction; cultural factors that exacerbate or ameliorate dysfunction; specialized assessments for identifying trauma-related symptoms; and the major research-supported approaches to treatment and prevention of PTSD in the aftermath of trauma. Major treatment approaches to be covered include stage-oriented integrated therapy models, cognitive-behavioral therapy (CBT), cognitive processing therapy (CPT), eye-movement desensitization and reprocessing (EMDR), dialectical behavior therapy (DBT), imagery rehearsal therapy (IRT), stress management techniques, group and family therapy approaches, and psychopharmacological interventions. The management of countertransference reactions and the recognition, prevention, and treatment of compassion fatigue and vicarious traumatization in the clinician will be emphasized. *Note: Required course for the Traumatic Stress emphasis; satisfies program requirement as an advanced intervention elective.*

PSY-709**Diagnosis and Treatment of Addictive Disorders****3 Credits**

This course is designed to provide an introduction to alcoholism, substance abuse, and other addictive disorders. Included is an overview of the information needed to assess, along with the treatment models of addictive disorders. It also provides the tools to be able to recognize the signs and symptoms of substance use, misuse, abuse, dependence, dual disorders, and mentally ill substance abusers (MISA). The understanding of the basic pharmacological, physiological, and medical aspects of chemical dependence will be included, along with the historical development of alcohol and other drug usage, self-help groups, and treatment delivery systems.

PSY-710**Adlerian Therapy I: Introduction to Assessment and Case Conceptualization****3 Credits**

This course covers the theoretical principles of individual psychology including striving, holism, phenomenology, teleology, and social interest. The course addresses the cognitive, affective, sociocultural dimensions of the individual's development; the selectivity of perception in the formation of one's worldview; motivational factors; creativity; and the indivisibility of the person. This course introduces how Adlerian practitioners build and maintain relationships, while teaching Adlerian projective and objective measures. Family constellation, life tasks, early recollections and dreams, and other aspects of the lifestyle will be taught. Outcome assessments will also be reviewed.

PSY-711**Adlerian Therapy II: Psychodynamics of Psychopathology and Interventions 3 Credits**

This course explores the psychodynamics of psychopathology and development and maintenance of symptoms given the recursive influence between society and the individual. Students will learn to connect the Adlerian conceptualization of psychopathology to the practical application of Adlerian approaches to psychotherapy. Emphasis is placed on the roles of the therapist and the client throughout the four stages of Adlerian therapy. Focus is on interventions that are congruent with the theoretical assumptions, such as social interest, and empirically supported practice toward comprehensive, culture-specific treatment planning.

PSY-712**Bio-Psycho-Social-Spiritual Aspects of Addiction 3 Credits**

Prerequisites: PSY-645, PSY-709. Major theories of etiology, social dynamics, and psychology of alcohol and other drug disorders are presented within the context of human development. Clinical research is reviewed, which enhances a further understanding of the basic physiological, psychological, social, and spiritual aspects. Impact on the individual, family, community, and organizations/systems is presented. Considerations for how these disorders apply to special populations such as people of color, LGBTQ persons, ethnic-multicultural populations, the economically disadvantaged, the oppressed, veterans, children and adolescents, women, and HIV-positive clients are discussed.

PSY-713**Advanced Treatment of Addictive Disorders 3 Credits**

Prerequisites: PSY-645, PSY-709. This course focuses on the examination and evaluation of evidence-based treatment practices for addictive disorders, including process addictions. The course also examines core functions of the alcohol and other drug therapist. Clinical concepts, terminology, and treatment modalities including group, individual, couple, and family counseling techniques are reviewed. The importance of the clinical continuum of care is discussed with additional emphasis on prevention, intervention, treatment, and aftercare. Other topics relevant to the ATOD counselor from the treatment perspective, ethical practices, and legal aspects are presented. *Note: This class is required for the Substance Abuse Treatment emphasis.*

PSY-717**Primary Care Psychology 2 Credits**

This class covers the special and unique role of psychologists as part of an integrated healthcare team in a primary care medical setting. Students will learn about inter-professional collaboration with physicians, nurses, social workers, and other providers. Aspects of the psychologist's role unique to primary care settings, such as rapid assessment, brief interventions, non-office session locations, and coordinated care, will be important foci of the course. Clinical areas covered are traditional mental health concerns, such as anxiety and depression. The primary care psychologist/consultant role will be illustrated by conceptualizing interventions with people with health issues that are commonly confronted in primary care settings (diabetes, cancer, cardiovascular disease, etc.). The course also covers key sociocultural components of health and illness, such as health policy and healthcare systems, delivery of services to diverse populations, legal issues, and ethical issues in primary care.

PSY-718**Medical Terminology and Conditions for Primary Care Psychologists 1 Credit**

This course covers medical conditions with which psychologists usually intervene, including diseases of the endocrine system (e.g., diabetes), nervous system (e.g., multiple sclerosis, various chronic pain syndromes), cardiovascular system (e.g., atherosclerosis, thrombosis, congestive heart

failure, and cardiovascular accident; certain headaches), pulmonary system (e.g., asthma, COPD), and musculoskeletal system (e.g., arthritis). This course also includes coverage of general medical terminology, such as that connected with disease, as well as hospital "lingo" and abbreviations (DNR, PO, HS, etc.).

PSY-719**Mindfulness Meditation 3 Credits**

This integrated experiential and scientific course will teach students to manage their own stress and to teach mindfulness-based meditation to others to help them to manage their stress. Scientific studies have shown that meditation practice, as taught in this course, improves various medical and psychological outcomes and improves clinician's self-awareness. Thus, this meditation course provides a potentially valuable skill to clinicians, both for helping clients and for understanding themselves. The Mindfulness-Based Stress Reduction (MBSR) course can be useful in clinical, medical, and corporate settings. We will review methods of assessing mindfulness and scientific studies undergirding our understanding.

PSY-720**Cognitive and Behavioral Therapy Approaches I 3 Credits**

This course examines basic concepts and applications of cognitive, behavioral, and cognitive-behavioral theories and therapies within the historical context of the prominent theories. Students will be introduced to theory, basic techniques, and evidence-based applications of various models. The course will cover theoretical conceptualization and the basic application of therapeutic interventions and techniques. The focus will be on classical and operant learning, two-factor theory, and cognitive, cognitive-behavioral, and social-cognitive theories and therapies. Theorists include Watson, Thorndike, Pavlov, Skinner, Kelly, Mowrer, Beck, Meichenbaum, Foa, Young, Lazarus, Ellis, and Bandura. Topics such as classical and operant conditioning, operant procedures, reinforcement contingencies, extinction, social reinforcement, token economies and their applications, progressive muscle relaxation, in-vivo and covert systematic desensitization, in-vivo and covert exposure, flooding, behavioral assessment, cognitive restructuring, skills training, self-instructional training, and other behavior-therapy techniques will be discussed. Cognitive processes that may negatively impact human function also will be learned, as well as their applications to normal and abnormal behavior in diverse cultural populations. Special consideration will be given to ethnic, cultural, and individual differences.

PSY-721**Psychoanalytic Approaches I 3 Credits**

Prerequisite: PSY-600. This course is designed to provide an overview of the history and development of psychoanalysis, including but not limited to, classical Freudian (drives, dreams, defenses, and transference) ego psychology; object relations (British and Middle Schools); self-psychology; relational; intersubjective; affect regulation (Allan Schore and colleagues); and mentalization (Peter Fonagy and colleagues) approaches. This course will focus on applying each of these theoretical approaches to case studies in the service of formulating comprehensive case conceptualizations and treatment approaches. Additionally, this course will examine the efficacy and evidence base of brief and long-term psychoanalytic psychotherapies.

PSY-722**Humanistic and Existential Therapy Approaches I 3 Credits**

This course examines basic concepts and approaches in the humanistic, existential, constructivist, and phenomenological schools of psychology (H-E). The course will cover theoretical models, conceptualization, and the historical relevance of H-E approaches relative to other major psychological theories/approaches. The roots of humanistic approaches from existential philosophy (Kierkegaard, Nietzsche, Heidegger, and Sartre) as well as the theories of May, Maslow, Rogers, Yalom, Frankl, Perls, Kelly, Bugental,

Gendlin, Wilber, Rowan, and Elkins will be explored. Humanistic concepts such as self-actualization, congruence, and holism; existential concepts such as meaning and meaninglessness and dialectical thinking; phenomenological, postmodern, and constructivist concepts such as social and relational construction of reality and dynamic configurations of the self; as well as narrative, metaphoric, and experiential techniques will be addressed. A critique of behaviorism, psychoanalysis, and cognitive-behavioral theory from an H-E "lived experience" perspective and critiques of H-E approaches, especially pertaining to the hyper-individualism of H-E theory and Western society at large, will be provided. The course will also introduce feminist, constructivist, narrative, and critical psychology approaches as they emerge against logical positivist and rationalism. Particular attention will be paid to diverse worldviews and ethnic, cultural, and individual differences as they impact the construction of multiple selves.

PSY-723

Couple and Family Therapy Approaches I 3 Credits

Prerequisite: PSY-600. This course introduces students to the major and evolving family and couple models. It will focus on theory and conceptualization, understanding the etiology and maintenance of presenting issues, basic techniques, and evidence-based applications for various models. The course will address issues of prevention, gender, sexual orientation, race, ethnicity, and culture, as well as the family life cycle, family organization, and the impact of significant events, such as divorce, domestic violence, and infidelity. Topics in the course include the history of family therapy and its integration with clinical psychology; comparison between individual-level and family-level conceptualization; genogram development and application; assessment of families and couples; foundational family systems concepts including group dynamics; and basic skills according to various approaches. Theoretical models of family dynamics and therapy will include attachment theory, Lewin's field theory, cybernetics, Bowenian, structural, strategic, experiential (Whitaker and Satir), and emotionally focused therapy (EFT).

PSY-724

Biological Bases of Behavior 3 Credits

The course objectives are to make the student aware of pertinent gross and microscopic human neuroanatomy, to build a foundational understanding of neurophysiology and the biology of the nerve, and to become familiar with a variety of clinical issues as they relate to neurophysiology. The emphasis throughout the class will be on developing a working familiarity with the functional neuroanatomy of the human brain. The biological consequences of trauma will also be reviewed. The role of environmental and ecological factors on biological functioning will be discussed to promote socially responsible professional practice.

PSY-733

Theories and Techniques of Clinical Hypnosis 3 Credits

This course serves as an introduction to the theory and practice of clinical hypnosis in psychotherapy and medicine. Students will examine the basic question "What is hypnosis?" including its facts, fictions, history, and theory. Theories of hypnosis will be explored utilizing the body of historical knowledge, clinical research, and experimental evidence into hypnotic phenomena that has amassed for more than two centuries. Students will be able to both learn about and experience the hypnotic phenomena that are discussed in class. Students will also learn and practice basic methods of hypnotic induction, deepening, assessment, and clinical application. Particular emphasis will be maintained throughout the class regarding the ethical and safety-related guidelines students should follow when integrating hypnosis into their clinical practice.

PSY-735

Assessment and Intervention in Behavioral Medicine I 3 Credits

Prerequisites: PSY-720, PSY-737. The focus of this course is management of mild to moderate disease, disease prevention, and positive health behaviors (e.g., smoking cessation, dietary change, exercise, insomnia,

health-compromising behaviors, and wellness). Illustrative interventions that integrate wellness will involve disorders such as hypertension, diabetes, and somatoform disorders. Assessment using common behavioral medicine instrumentation will be covered. Experiential learning will be incorporated in this course in order to deepen the student's understanding of the perspective of the patient. *Note: Required course for the Primary Care Psychology and Behavioral Medicine emphasis; satisfies program requirement as a general elective.*

PSY-736

Assessment and Intervention in Behavioral Medicine II 3 Credits

Prerequisite: PSY-735. This course focuses on coping with acute and chronic disease states in which disease/disability, rather than lifestyle/prevention, dominates. The disease or disability is sufficiently severe to require major behavioral changes, and often changes in personal identity. Theories applied in the class are the biopsychosocial model and CBT. Advanced assessment, including pre-surgical evaluation and pain assessment, will be covered. There will be an emphasis on science and practice, including critical evaluation of evidence-based practice and translation research. *Note: Required course for the Primary Care Psychology and Behavioral Medicine emphasis; satisfies program requirement as a general elective.*

PSY-737

Statistics 3 Credits

This course concerns concepts and applications of descriptive and inferential statistics and focuses on the statistical methods of data analysis, t-test, F-test, nonparametric statistics (chi-square), the analysis of variance, multivariate analysis, and other techniques. Particular attention is given to the application of research methodology to psychological problems and issues, and to policy analysis and formulation.

PSY-738

Quantitative Research Methods in Clinical Psychology 3 Credits

Prerequisite: PSY-737. This course introduces various approaches to research design, methodology, and data analysis. Doctoral students' clinical interests are integrated with information about a variety of research approaches, including theoretical and quantitative designs. Students are expected to conduct an extensive, guided review of professional psychological literature and research from the field and prepare a major research paper in an area of interest. The applicability of skills and approaches taught in this course to the subsequent preparation of the dissertation is emphasized, as is the use of American Psychological Association (APA) standards for the preparation of manuscripts. The import of ethical, socially responsible, and diversity issues in research is also addressed.

PSY-739

Qualitative Research Methods in Clinical Psychology 2 Credits

Prerequisites: PSY-737. This course introduces students to the practice of qualitative research that is applicable to research and evaluation contexts in psychological practice. This course reviews the assumptions, theories, and processes of qualitative inquiry. Students will learn about the theoretical foundations necessary to understand qualitative inquiry and to enhance their abilities to conduct qualitative research and evaluation. (Students entering prior to 2019-2020 AY.)

PSY-739

Qualitative Research Methods in Clinical Psychology 3 Credits

Prerequisites: PSY-737. This course introduces students to the practice of qualitative research that is applicable to research and evaluation contexts in psychological practice. This course reviews the assumptions, theories, and processes of qualitative inquiry. Students will learn about the theoretical foundations necessary to understand qualitative inquiry and to enhance their abilities to conduct qualitative research and evaluation. (Course has been modified and is applicable to students entering in 2019-10 AY or later.)

- PSY-750**
Doctoral Practicum Seminar I **1 Credit**
- PSY-751**
Doctoral Practicum Seminar II **1 Credit**
- PSY-752**
Doctoral Practicum Seminar III **1 Credit**
Prerequisites: Concurrent with PSY-760–762. Taken concurrently with the assessment practicum, this seminar provides a setting for the student to discuss and apply the fundamentals of clinical and diagnostic interviewing; to formulate DSM diagnostic impressions; to write an accurate assessment report based on data from the interview, mental status exam, and psychological test data; and to appreciate how diversity issues affect the content and processes of clinical interviewing and more broadly of psychological assessment. The course principally affords the student with an opportunity to review and discuss assessment cases from the diagnostic practicum, as well as to examine data generated from psychological tests. Finally, the course serves as a peer consultation group in which students learn to present case material in a standard format, to question and analyze their own clinical work, and to function as peer consultants to their colleagues. (Students entering prior to 2019-2020 AY.)
- PSY-753**
Child and Adolescent Psychopathology **3 Credits**
The purpose of this course is to provide an understanding of the major psychological disorders of childhood and adolescence. The focus is on the interaction of biogenic, familial, environmental, and sociocultural factors. The importance of individual differences and responsibility in utilizing DSM-5 diagnostic labels is stressed. *Note: This course is only offered in the spring term. Required course for the Child and Adolescent Clinical Psychology emphasis; satisfies program requirement as a general elective.*
- PSY-754**
Special Topics in the Treatment of Children, Adolescents, Young Adults, and/or Families **3 Credits**
This course will provide students an opportunity to study topics pertinent to the diagnosis and treatment of children, adolescents, young adults, and/or their families. Given the ongoing changes in the field of child psychology, this course offers students the opportunity to learn about focused topics that are related to the field that are not covered in other required courses. This course may cover topics related to multicultural perspectives to treatment, innovative approaches to treatment, or other relevant topics that relate to shifts in the field of child and adolescent psychology. *Note: This course meets the open elective requirement for students in the Child and Adolescent Clinical Psychology emphasis.*
- PSY-756**
Group Psychotherapy **3 Credits**
Prerequisite: PSY-600. The history, theory, methods, and applications of group psychotherapy are examined, discussed, and demonstrated. The development of competency in group methods is enhanced through didactic presentation, role-playing, and participation in an ongoing group. The class meets as a group in an unstructured format. Students process their experiences in the here and now. The aim is to help students become more comfortable with themselves and therefore learn to relate more effectively and creatively in the group setting.
- PSY-757**
Child and Adolescent Psychotherapy **3 Credits**
Prerequisite: PSY-720. The purpose of this course is to provide a conceptual framework for interventions with children and adolescents. The course will focus on specific interventions and research on the major psychotherapeutic approaches for children and adolescents, including cognitive-behavioral, psychodynamic, family systems, Adlerian, person-centered, and parent-infant psychotherapy. The importance of addressing ethical and legal issues unique to the treatment of this population will be emphasized. Differences and diversity in treatment, and adapting treatment for clients with disabilities will also be covered. *Note: This course is only offered in the fall term. Required course for the Child and Adolescent Clinical Psychology emphasis; satisfies program requirement as a general elective.*
- PSY-758**
Biofeedback **3 Credits**
Prerequisite: PSY-600. This class presents the theory and application of applied psycho-physiology (biofeedback) as it is practiced today within mind-body medicine. A review of the components of the autonomic and central nervous systems underlying commonly used psychophysiological measures (EEG, EMG, HR, etc.) will be presented. The class will examine common applications of biofeedback and the evidence of its efficacy to specific disorders. The class will examine common psychophysiological assessment procedures, personality testing, and interview techniques employed in deciding on the proper treatment methods for each client. The historical, cultural, philosophical, and spiritual contexts of biofeedback practice will also be examined to discuss important diversity-related considerations in treatment planning. *Note: Satisfies program requirement as general elective.*
- PSY-760**
Doctoral Practicum I **1 Credit**
- PSY-761**
Doctoral Practicum II **1 Credit**
- PSY-762**
Doctoral Practicum III **1 Credit**
Prerequisites: SJP-513, SJP-514, PSY-623, PSY-642, PSY-645, PSY-648, PSY-649, PSY-661, PSY-662, PSY-663, PSY-667, PSY-668, PSY-669; permission of the Director of Training; concurrent with Assessment Seminar (PSY-750–752). Students complete a minimum of 750 clock hours of clinical training that focuses on developing skills and providing experience in psychological assessment. May not be transferred or waived. (Only for students entering prior to AY 2019-2020)
- PSY-763**
LGBTQ Issues Across the Life Span **3 Credits**
Prerequisite: PSY-642. This course focuses on LGBTQ persons across the life span and examines the evolution of the LGBTQ movement from multiple dimensions. This course includes strategies useful in working with LGBTQ individuals of different ages and ethnicities. Sources, forms, and the history of heterosexism and homophobia are covered, as are the stages of healthy and positive LGBTQ identity formation and the potential consequences of “coming out.” Discussions and research surrounding controversial issues affecting the LGBTQ community serve as the focal point.
- PSY-764**
Neuropsychological Assessment I **3 Credits**
Prerequisites: PSY-661, PSY-662, PSY 663, PSY 648, PSY 649 (PSY 724- or concurrently). This course is the first in a three-course sequence designed to familiarize students with the foundations of neuropsychological assessment. This course provides a detailed overview of cognitive domains of functioning including learning, memory, attention, executive function, language and visual-spatial processing. It provides an in-depth understanding of basic neuroanatomy and neurophysiology with an emphasis on functional neuroanatomy for clinical neuropsychologists. *Note: This class is offered in the fall semester. Required course for the Emphasis in Clinical Neuropsychology.*

PSY-765**Neuropsychological Assessment II****3 Credits**

Prerequisite: PSY-764. The course introduces key principles and techniques of neuropsychological assessment. Administration and scoring of various neuropsychological assessment instruments is introduced and test administration and scoring in a sociocultural context is emphasized. The course focuses on neuropsychological assessment of neurocognitive disorders, including but not limited to dementia, traumatic brain injury, cerebrovascular accident, and psychological disorders. Integrative interpretation of neuropsychological assessment results is emphasized. *Note: Required course for the Emphasis in Clinical Neuropsychology.*

PSY-767****Doctoral Practicum and Seminar I****1 Credit****PSY-768******Doctoral Practicum and Seminar II****1 Credit****PSY-769******Doctoral Practicum and Seminar III****1 Credit**

Prerequisites: SJP-513, SJP-514, PSY-623, PSY-642, PSY-645, PSY-648, PSY-649, PSY-661, PSY-662, PSY-663, PSY-667, PSY-668, PSY-669; *permission of the Director of Training; concurrent Practicum and Assessment Seminar.* Assessment Seminar is taken concurrently with the assessment practicum. This seminar provides a setting for the student to discuss and apply the fundamentals of clinical and diagnostic interviewing; to formulate DSM diagnostic impressions; to write an accurate assessment report based on data from the interview, mental status exam, and psychological test data; and to appreciate how diversity issues affect the content and processes of clinical interviewing and more broadly of psychological assessment. The course principally affords the student with an opportunity to review and discuss assessment cases from the diagnostic practicum, as well as to examine data generated from psychological tests. Finally, the course serves as a peer consultation group in which students learn to present case material in a standard format, to question and analyze their own clinical work, and to function as peer consultants to their colleagues. Students concurrently complete a minimum of 750 clock hours of supervised clinical training that focuses on developing skills and providing experience in psychological assessment. Practicum experience may not be transferred or waived. (Students entering in 2019-2020 AY or later.)

PSY-783**Advanced Child and Adolescent Assessment****3 Credits**

Prerequisites: PSY-623, PSY-661, PSY-662. This course presents a structured approach to the psychological assessment of children and adolescents, including advanced issues in interviewing children and adolescents; conducting mental status examinations with young clients; and evaluating cognitive, social, and emotional functioning in children and adolescents. Standard measures of intelligence and achievement will be included, as will behavior rating scales, self-report, and performance-based measures. Special topics include the assessment of learning disabilities, ADHD, pediatric mood disorders, behavior disorders, and psychosis. *Note: This course is only offered in the fall semester. This course includes a one-hour weekly lab. Required course for the Child and Adolescent Clinical Psychology emphasis; satisfies program requirement as a general elective.*

PSY-784**Introduction to Military Psychology****3 Credits**

This course introduces the student to military culture, structures, and systems. The course also introduces the student to the specialty of military psychology, which aims to improve the lives of service personnel and is applicable to a wide range of areas within the military community. Various ways psychological measures are presented that are applied to the military environment include the selection of recruits for the armed forces; determining which recruits will be best suited for various military

occupational specialties; fitness for duty via the Comprehensive Soldiers Resilience Program; as well as performing analysis on humanitarian and peace-keeping missions to determine procedures. Other applications of military psychology include its intersection with social policy, particularly with respect to issues of diversity within the military. *Note: Satisfies program requirement as a general elective.*

PSY-785**Psychology of Combat and Conflict****3 Credits**

Prerequisite: PSY-784 or permission of the Military Emphasis Coordinator. Examination of the psychological impact of direct or secondary experiencing of conflict, including the physical and psychological sequelae of combat and the impact of combat-related manifestations on family members and others. Diagnosis and treatment of acute and cumulative combat-related stress including normal and maladaptive reactions to conflict-related responses are addressed, as well as suicidal and homicidal behavior pre-, during, and post-deployment. *Note: Satisfies program requirement as a general elective.*

PSY-797**Testing, Assessment, and Treatment in DoD and VA Healthcare Systems****3 Credits**

Prerequisite: PSY-785 or permission of the Military Emphasis Coordinator. Psychological and neurological assessment of active duty, veteran, and retired military service members and their families is the focus of this course. Assessment methodology includes integrative, objective, and performance-based personality assessments and self-report measures. Students will learn about the theoretical basis, current military population-specific issues, ethics, and clinical use of a variety of assessment strategies focused on the unique service-related demands and probable comorbidities. Students will be trained in military-specific best practices in the proficient administration, scoring, and military service-informed interpretation of commonly used tests in the Department of Defense (DoD) and Veterans Affairs (VA) healthcare systems. Concurrently, students will be presented with a brief exploration of the structures, function, and policies of these federally administered medical and behavioral health delivery systems. In addition, students will learn about direct service delivery to active duty service members on base, off base, and in theaters of war, as well as in the VA healthcare system's direct service delivery to military veterans, retirees, and their families in the United States. Moreover, this course will focus on the delivery of empirically supported behavioral health treatments in the DoD's and VA's healthcare systems. These best practices in treating military personnel, veterans, retirees, and their families may address any of the following: depression, anxiety, addictions, suicidal ideation, combat-related stress, post-traumatic stress symptoms, acute stress disorder (ASD), and post-traumatic stress disorder (PTSD) and accompanying comorbidities, among others. *Note: Satisfies program requirement as a general elective.*

PSY-798**Trauma-Informed Theory, Assessment, and Treatment in Military Clinical Psychology****3 Credits**

Prerequisite: PSY-785 or permission of the Military Emphasis Coordinator. This course is dedicated to the various aspects of the trauma spectrum. Subject areas include psychological trauma due to combat or combat-related exposure, moral injury, military sexual assault, military sexual harassment, traumatization due to minority discrimination and oppression-based race, sexuality, gender, ability, and/or religious affiliation. Students will also understand, discuss, and apply empirically supported trauma-informed interventions addressing loss, grief, bereavement, injury, and/or death. Best practices in trauma recovery used in both governmental and non-governmental settings will be explored including aspects of crisis competence, resilience, and post-traumatic growth. *Note: Satisfies program requirement as a general elective.*

PSY-799**Military Couple, Family, and Group Psychotherapy****3 Credits***Prerequisite: PSY-785 or permission of the Military Emphasis Coordinator.*

This course focuses on the treatment of military clients (including reserve and active duty, veterans, and retirees) and their families. The treatment modalities will be explored in the context of individual, couples, family, and group psychotherapy techniques using both lectures and role-plays methodologies. Treatment interventions will be explored including psychodynamic, cognitive-behavioral, and other traditional as well as nontraditional intervention models to address psychological distress related to military service, pre-deployment, deployment, combat deployment in the theater of war, return to duty, and reintegration into society. Students will also learn about ethical practices in the delivery of psychotherapy in military settings, in the Veterans Affairs healthcare system, and as private practitioners working with actively serving and veteran populations and their families. *Note: Satisfies program requirement as a required regular intervention elective.*

PSY-790**Psy.D. Clinical Qualifying Examination – Assessment Competency 0 Credits**

*Prerequisites: Successful completion of PSY-751 (first term of assessment practicum and seminar) and current enrollment in PSY-752**, and approval of the Examination Coordinator.* This is a clinical competency examination focusing particularly on knowledge and skills in assessment required for entry-level practice, as well as the ability to integrate science and practice and provide service in a socially responsible manner. Students are required to submit testing protocols from a battery of psychological instruments given to a client; a detailed psychological testing report; executive summaries; a paper integrating psychological research with an issue presented by the case; and a paper discussing an issue pertinent to socially responsible practice posed by the case. Following review by a faculty member, a student meets with the faculty member for an oral portion of the examination.

PSY-801**Psychoanalytic Approaches II****3 Credit**

This course is designed to apply evidence-based theories of psychoanalysis, including but not limited to, classical Freudian (drives, dreams, defenses, and transference) ego psychology, object relations (British and Middle Schools), self-psychology, relational, intersubjective, affect regulation (Allan Schore and colleagues), and mentalization (Peter Fonagy and colleagues) approaches to clinical practice. The focus of the course will be on learning and practicing specific interventions of brief and long-term psychoanalytic psychotherapy. Additionally, this course will build on the skills acquired in Psychoanalytic Approaches I (PSY-721) toward an advanced utilization of psychoanalytic theoretical approaches in the creation of integrated case conceptualizations, treatment planning, and effective interventions. *Note: Satisfies program requirement as an advanced intervention elective.*

PSY-802**Cognitive and Behavioral Therapy Approaches II****3 Credits**

Prerequisite: PSY-720. This is an advanced course that covers in-depth applications of cognitive, cognitive-behavioral, and third wave therapies including mindfulness-based cognitive therapy (MBCT; Zindel Segal, Mark Williams, and John Teasdale), acceptance and commitment therapy (ACT; Steven Hays), dialectical behavior therapy (DBT; Marsha M. Linehan), and cognitive processing therapy (CPT; Patricia Resick). This course will build on the knowledge and skills acquired in Cognitive and Behavioral Therapy Approaches I (PSY-720). Students will practice advanced evidence-based techniques and interventions and how to apply such interventions to challenging cases, including rapport building, resistance, termination issues, and treatment planning. The course will also cover specific age groups and the use of these therapies with specific diagnoses such as phobias, panic disorder, and depression, among others.

Vignettes, role-plays, and experiential activities will be used to practice skills addressing the challenges presented by diverse and complex cases. The course will address issues of gender, sexual orientation, race, ethnicity, and culture. *Note: Satisfies program requirement as an advanced intervention elective.*

PSY-803**Humanistic and Existential Therapy Approaches II****3 Credits**

Prerequisite: PSY-722. This course builds on the knowledge and skills developed in the introductory course in humanistic and existential approaches by developing a more in-depth appreciation of particular theories and perspectives in this area of practice. The integration of humanistic/existential/transpersonal theories with each other and with other theoretical perspectives will be the focus of the class. In addition, the application of this perspective to a broad range of clinical and social issues will be emphasized. Students will be encouraged to develop their own personal integration of this perspective into their personal and professional lives. *Note: Satisfies program requirement as an advanced intervention elective.*

PSY-804**Couple and Family Therapy Approaches II****3 Credits**

Prerequisite: PSY-723. This is an advanced course that covers classical family and couple models through postmodern approaches. This course will build on the knowledge and skills acquired in Couple and Family Therapy Approaches I (PSY-723). Students will be introduced to the theory, basic techniques, and evidence-based applications of the following family therapy models: psychoanalytic (self-psychology, object relations, and interpersonal); cognitive-behavioral (Patterson, Jacobson, Masters and Johnson); postmodern approaches (narrative, feminist, solution-focused, and constructivist); and integrative approaches. Students will also learn advanced applications of techniques from classical models covered in PSY-723, such as Bowenian, structural, strategic, and experiential family and couple approaches. Vignettes, role-plays, and experiential activities will be used to practice skills addressing the challenges presented by diverse and complex family issues. The course will address issues of prevention, gender, sexual orientation, race, ethnicity, and culture as well as the family life-cycle, family organization, and the impact of significant events, such as divorce, domestic violence, and infidelity. *Note: Satisfies program requirement as an advanced intervention elective.*

PSY-805**Advanced Child and Adolescent Psychotherapy****3 Credits**

Prerequisites: PSY-623. This course covers advanced intervention strategies and emerging developments in the treatment of children and adolescents. Approaches to selected clinical problems and special populations are included, as well as work with diverse child and adolescent populations and evidence-based practices. The course focuses on advanced therapeutic methods such as play therapy and nonverbal strategies for complex pediatric referrals, group work with children and adolescents, treatment of eating disorders and self-injury, and integrative approaches. Emphasis is on integration of science and practice and the development of applied skills and preparation for effective clinical and advocacy work with child and adolescent populations. *Note: This course is only offered in the spring term. Required course for the Child and Adolescent Clinical Psychology emphasis; satisfies program requirement as a general elective.*

PSY-806**Advanced Trauma-Focused Approaches to Intervention****3 Credits**

Prerequisite: PSY-706. This course covers advanced issues concerning the diagnosis and treatment of trauma-related dysfunction, particularly post-traumatic stress disorder (PTSD) and common comorbid conditions. Building upon the theoretical knowledge gained in PSY-706, the emphasis of the course will be on the development and application of skills in conducting research-supported therapy and assessment for Type I

("single-event") and Type II ("complex") trauma, dissociative disorders, and trauma-associated somatic symptoms. Major treatment approaches to be covered will include phase-oriented integrated treatment and relational models; skills training in Affective and Interpersonal Regulation (STAIR); cognitive-behavioral therapy (CBT), stress inoculation therapy (SIT), and cognitive processing therapy (CPT); eye-movement desensitization and reprocessing (EMDR); dialectical behavior therapy (DBT); imagery rehearsal therapy (IRT); narrative exposure therapy (NET); and clinical hypnosis. The course will also address specific treatment considerations for returning military personnel, as well as ethical issues relevant to clinical work with trauma survivors. The management of countertransference reactions and the recognition, prevention, and treatment of compassion fatigue and vicarious traumatization in the clinician will be emphasized throughout the course. *Note: Required course for the Traumatic Stress Psychology emphasis; satisfies program requirement as an advanced intervention elective.*

PSY-811**Advanced Issues in Co-occurring Disorders 3 Credits**

Prerequisite: PSY-709 or PSY-706. This advanced course builds on foundational knowledge from Diagnosis and Treatment of Addictive Disorders (PSY-709) and Trauma-Focused Approaches to Interventions (PSY-706). The course will explore selected theories and methods for engaging and retaining clients in substance abuse and trauma treatment. In addition, the course will review and discuss advanced issues resulting from comorbid substance abuse and mental health problems and identify system interventions and support strategies for this population. The course will specifically focus on the intersection of traumatic experiences, substance misuse, and mental illness.

PSY-821**Neo-Adlerian Theory: Integration of Adlerian Theory with Evidence-Based Practice 3 Credits**

Prerequisites: PSY-710, PSY-711. This course will teach how many of the current theories and evidence-based practices complement and support Adlerian theory and practice. Students will learn how master therapists in most approaches focus on the relationship, social connection, schemas, and behaviors just as Adler did. This course will teach students how to integrate Adlerian theory with interventions and strategies from cognitive-behavioral therapy, rational emotive behavioral therapy, acceptance commitment therapy, Young's schema therapy, person-centered therapy, motivational interviewing, emotion-focused therapy, and positive psychology. Students will learn advanced conceptualization of human behavior that can lead to seamless implementation of interventions that master therapists apply consistently.

PSY-822**Death, Dying, Bereavement, and Loss-Focused Approaches to Intervention 3 Credits**

This course covers the psychological theories, cultural responses, individual and family system reactions, and treatment relevant to individuals facing death, dying, life-threatening illness, bereavement, other losses, and long-term caregiving. Students will learn about the range of events associated with these experiences across the life span; the major risk factors for emotional, cognitive, behavioral, social, and spiritual dysfunction; cultural factors that exacerbate or ameliorate dysfunction; and research-supported approaches to treatment. The awareness and effective management of the clinician's emotional and countertransference reactions and the recognition, prevention, and treatment of compassion fatigue and vicarious traumatization will be emphasized.

PSY-823**Adlerian Parent Consultation and Family Therapy 3 Credits**

Prerequisites: PSY-710, PSY-711. This course will teach students child guidance and parenting knowledge and skills based on Adlerian principles

to be practiced in parent consultation and family therapy. Students will understand how Adlerians integrate sociocultural considerations contexts while assessing and intervening with families and the multiple systems intersecting with clients. Through lecture, class discussion, observation, and participative demonstrations, students are taught how to facilitate a parenting group and family therapy. Students will receive supervision from Adlerian faculty as they lead or co-lead a parenting group in the community. This course demarcates Adler's and Dreikurs's place in history with parenting and child guidance. Adlerian-based parenting programs are recognized as evidence-based programs.

PSY-824**Advanced Adlerian Interventions and Assessment 3 Credits**

Prerequisites: PSY-710, PSY-711. This class teaches Adlerian theory and interventions within play therapy, group therapy, family therapy, and assessment of lifestyle and social interest. Theory and interventions related to children, adolescents, young adults, and the elderly will be reviewed, as well as an in-depth investigation and understanding of complex emotions and ideas such as guilt, shame, grief, and *Gemeinschaftsgefühl* from an Adlerian point of view. Students will explore interventions with these populations (i.e., children, adolescents, young adults, and the elderly) and macro-interventions possible as socially responsible clinicians. *Note: Satisfies program requirement as an advanced intervention elective.*

PSY-832**Cognitive and Affective Bases of Behavior 3 Credits**

This course emphasizes the most recent theoretical developments in cognitive-affective bases of behavior. Areas of emphasis will include attention, memory, knowledge, language, reasoning, problem solving, the cognitive bases of affect and consciousness, human learning, and theories of motivation. The relevance of these topics to psychotherapy and change, as well as the possible impact of social issues on course topics, will also be examined.

PSY-833**Social Psychology 3 Credits**

This course provides an overview of the social-psychological cognition, perception, and behavior of individuals and groups. The theories and empirical research into areas such as the social construction of self, interpersonal and intrapersonal attitude development and cognition, group dynamics, social learning, conformity, prejudice, aggression, obedience/compliance, and stereotypes are covered. The clinical relevance and application of the available research will be stressed throughout.

PSY-834**History and Systems 3 Credits**

A survey of the historical development of major theories, research, and practice in psychology is presented. Major systems of psychology are examined. In addition, the course is structured around a number of major philosophical issues and how major theories of psychology have understood and addressed these issues. The influence of sociocultural and historical factors on the development of theories is also examined, with particular focus to the role of psychology in promoting social justice.

PSY-835**Social Determinants of Mental Health 3 Credits**

This is an advanced course for understanding human behavior in social context. It will provide an understanding of the ways in which contemporary social forces, including globalization, impact health and well-being. The course will highlight how social and cultural values, legislation, public policy, and institutional practices shape the environments that impact health outcomes. It will highlight the complementary roles of structural and clinical interventions in the promotion of health and well-being and in narrowing inequities. It will also provide practitioners with concrete ideas about how to act on the social determinants in ways that promote the health of the most vulnerable and marginalized populations.

PSY-839**Advanced Statistical Techniques 3 Credits**

This course focuses on analysis of multiple independent/predictor variables using multiple regression and analysis of covariance (ANCOVA) approaches. In preparation for applied work with these more advanced approaches, students will learn and practice diagnosing and addressing multicollinearity, curvilinear relationships, interactions, influential residuals, and violations of assumptions. Students will also be introduced to regression analyses with categorical predictors and multivariate analyses (with multiple dependent/outcome variables). Students will work with SPSS software to plot data and conduct analyses.

PSY-850**Doctoral Practicum Seminar IV 1 Credit****PSY-851****Doctoral Practicum Seminar V 1 Credit****PSY-852****Doctoral Practicum Seminar VI 1 Credit**

Prerequisites: PSY-750–752, PSY-760–762; concurrent with PSY-860–862. Taken concurrently with the therapy practicum, this seminar provides students with an opportunity to review clinical cases integrating theory, practice, and research and discuss professional development and the supervision experience. Specific cases students are working on in their therapy practicum are discussed to illustrate general principles of therapy and intervention. The focus is on the development of knowledge, skills, attitudes, and values needed to provide competent and ethical clinical services. A variety of topics and clinical experiences are offered through class discussion, case presentation, role-playing, and structured exercises. (Students entering prior to AY 2019-2020 only)

PSY-860 Doctoral Practicum IV 1 Credit**PSY-861 Doctoral Practicum V 1 Credit****PSY-862 Doctoral Practicum VI 1 Credit**

Prerequisites: PSY-750–752, PSY-760–762; concurrent with PSY-850–852. Students complete a minimum of 750 clock hours of clinical training focused on developing skills related to intervention/treatment. May not be transferred or waived. (Students entering prior to AY 2019-2020 only)

PSY-867**Doctoral Practicum and Seminar IV 1 Credit****PSY-868******Doctoral Practicum and Seminar V 1 Credit****PSY-869******Doctoral Practicum and Seminar VI 1 Credit**

Prerequisites: PSY-767-769. Therapy seminar is taken concurrently with the therapy practicum experience. This seminar provides students with an opportunity to review clinical cases integrating theory, practice, and research and discuss professional development and the supervision experience. Specific cases students are working on in their therapy practicum are discussed to illustrate general principles of therapy and intervention. The focus is on the development of knowledge, skills, attitudes, and values needed to provide competent and ethical clinical services. A variety of topics and clinical experiences are offered through class discussion, case presentation, role-playing, and structured exercises. Students concurrently complete a minimum of 750 clock hours of supervised clinical training focused on developing skills related to intervention/treatment. Practicum experience may not be transferred or waived. (Students entering 2019-2020 AY and later)

PSY- 864**Pediatric Neuropsychology 3 Credits**

Prerequisite: PSY-765. This course provides training in the neuropsychological assessment of children, with an emphasis on trauma and developmental disorders. An array of neuropsychological instruments is used. Students develop skills in the administration, scoring, contextual interpretation, and write-up of pediatric neuropsychological assessment methods. (Elective course for the Clinical Neuropsychology Emphasis students.)

PSY- 865**Advanced Neuropsychology and Conceptualization 3 Credits**

This course offers a structured approach to case conceptualization and analysis in preparation for clinical practice and ultimately board certification. It covers advanced topics in neuropsychological assessment through the application of fact-finding exercises and didactic instruction. (Required course for Clinical Neuropsychology Emphasis students.)

PSY-870**International Immersion and Cross-Cultural Studies 3 Credits**

Prerequisite: PSY-642. This course will provide doctoral students with a cultural-immersion experience outside of the United States. Students will be engaged in a nonclinical service-learning program for a limited period of time. The course will teach students to examine and critically think about the impact of systemic and structural barriers on health and well-being issues abroad. This will enhance students' professional values and their preparation for multicultural clinical practice. This course has additional costs including travel, room and board, and spending money.

PSY-871**International Consultation on Women's Issues 3 Credits**

Prerequisites: PSY-642, PSY-659. This course will examine the social, medical, economic, and psychological oppression of women from a global perspective. Students will work in small groups on selected topics to identify strategies empowering interventions for women. They will collaborate with multidisciplinary teams to develop preventive and intervention programs that will result in models for demonstration projects. The course will focus on integrating applied research and multicultural intervention strategies that integrate multidisciplinary perspectives and systemic conceptualizations of women's health.

PSY-873**Special Topics in Diversity 3 Credits**

Prerequisites: PSY-642, PSY-738. This course will provide students with an opportunity to study and/or participate in an applied research project on a specific topic in diversity. Multicultural perspectives will be considered, and innovative approaches to addressing mental health issues and social problems will be covered in the readings, discussions, and consultation with faculty and additional experts in the areas of interest.

PSY-874**Race, Ethnicity, and Social Class 3 Credits**

Prerequisite: PSY-642. This course is designed to give students an understanding of various minority groups including African Americans, Asians, Latinos, and Native Americans. Students are exposed to the limitations and potential dangers of Western definitions of cultural groups. Specifically, emphasis is placed on facilitating awareness of biased attitudes, influences of worldview, and the consideration of the unique experiences of specific groups that have been marginalized and have experienced discrimination. Application of culturally appropriate treatment approaches will also be addressed.

PSY-877**Advanced Issues in Religion and Spirituality – Theory and Therapy 3 Credits**

Prerequisite: PSY-642. This course is designed to increase the sensitivity and competence of clinicians to the spiritual concerns of clients. This sensitivity includes familiarity with the research on spirituality and health; basic knowledge of diverse religious/spiritual paths; awareness of the potential benefits, harm, resources, and issues of spirituality for clients; as well as an understanding of the clinician's spiritual perspective. This course also strives to build competence through the development of skills to integrate spirituality with clients including spiritual assessment, case conceptualization, theory of change, treatment planning, and intervention.

PSY-878**Clinical Issues and Interventions with Sexual Orientation and Gender Identity Minorities 3 Credits**

Prerequisites: PSY-642, PSY-763. This advanced diversity course builds on the foundational knowledge from Diversity and Individual Differences (PSY-642) and LGBTQ Issues Across the Life Span (PSY-763). This course will explore mental health and substance abuse problems prevalent with sexual orientation minorities and gender non-conforming people, paying close attention to those most underserved and underrepresented. The course will focus on skill building, case conceptualization, and clinical intervention techniques for working with this population, as well as addressing the impact of oppressive systems on health and dysfunction. Providing supervision around sexual orientation and gender variance in training will also be addressed.

PSY-884**Geriatric Neuropsychology 3 Credits**

This course focuses on the development of knowledge and skills necessary to perform psychological assessments and neuropsychological screenings, with an emphasis on older adults. Students gain a conceptual grasp of (1) uses of traditional assessment instruments with older adults; (2) use of psychological tests designed specifically for older adults; (3) use of neuropsychological tests to provide a screening for cognitive deficits; and (4) use of functional assessment with older adults. The course culminates with an in-depth examination of late life cognitive disorders illustrated through the introduction of case studies. (Elective course for the Emphasis in Clinical Neuropsychology.)

PSY-890**Clinical Qualifying Examination – Intervention Competency 0 Credits**

Prerequisites: Successful completion of PSY-790. This is a clinical competency examination focusing particularly on knowledge and skills in intervention required for entry-level practice, as well as the ability to integrate science and practice and provide service in a socially responsible manner. Students are required to submit a video or audiotape of a therapy session with a client; a detailed case conceptualization of the client; a self-critique on their performance in the session being presented; an Adlerian formulation of the case; and a paper integrating psychological research with an issue presented by the case. Following review by a faculty member, the student meets with the faculty member for the oral portion of the examination.

PSY-896**Doctoral Dissertation Preparation Seminar 0 Credits**

Prerequisites: PSY-737, PSY-738. This non-credit course is designed to assist students in the early stages of developing a dissertation topic. The focus is on selection and development of a topic, selection of a committee, and different stages of the dissertation process. (Students entering prior to 2019-2020 AY)

PSY-897**Doctoral Dissertation Proposal 0 Credits**

Prerequisites: PSY-737, PSY-738, PSY-896. One of the most important phases in preparation of the dissertation is writing the proposal in the selected area of research. Registration for this course is the first formal step in completing the dissertation. Students are required to complete and successfully orally defend a proposal to the satisfaction of their dissertation committee. Approval of the dissertation proposal is also a requirement for all students prior to applying for internship. Students who do not complete this requirement during the first term of registration are required to register for PSY-897 each term thereafter until completed. Failure to successfully complete the dissertation proposal after three terms may result in referral to the Student Comprehensive Evaluation Committee. (Students entering prior to 2019-2020 AY)

PSY-898**Doctoral Dissertation Proposal Continued 0 Credits**

Students who do not complete their dissertation proposal in the first term for which they have registered must continue to register for PSY-898 and pay the necessary fee until their proposal has been approved by their committee members. Failure to complete the dissertation proposal within three consecutive terms may result in referral to the Student Comprehensive Evaluation Committee. (Students entering prior to AY 2019-2020 only)

PSY- 892*****Doctoral Dissertation I .5 Credit****PSY- 893*******Doctoral Dissertation II .5 Credit****PSY- 894*******Doctoral Dissertation III .5 Credit****PSY- 992*******Doctoral Dissertation IV .5 Credit****PSY- 993*******Doctoral Dissertation V .5 Credit****PSY- 994*******Doctoral Dissertation VI .5 Credit**

Prerequisites: PSY-737, PSY-738; successful completion of the Doctoral Clinical Qualifying Examination PSY-790. The steps and requirements for adequate progress through the Dissertation sequence are more fully outlined in the Doctoral Dissertation Handbook. Students begin to register for the dissertation sequence at the beginning of their third year in the program. Students are required to select a dissertation chair and committee and develop and successfully orally defend a proposal to the satisfaction of their dissertation committee. Approval of the dissertation proposal is also a requirement for all students prior to applying for internship. The Doctoral Dissertation provides an opportunity for students to engage in scholarship on an issue or problem that is psychological in content and professionally relevant. Students must begin registering for Doctoral Dissertation as they begin to develop their dissertation proposal and are guided through this process by their dissertation chair until the completion of their dissertation. Students must complete six semesters of Doctoral Dissertation I-VI for a total of three Credits typically across their third and fourth year. Upon completion of their dissertation, students register for Dissertation Oral Defense PSY-998. If after six semesters of dissertation, students have not completed their dissertation and are not registered for internship, they are required to register for Doctoral Dissertation Continuation (PSY-904) to maintain enrollment until they are approved for Doctoral Dissertation Oral Defense (PSY-998). Students receive a grade of CR (credit) for any term in which they are making satisfactory progress on their dissertation and a grade of NC (no credit) when they are failing to complete the project in a timely manner as outlined in the Dissertation Handbook. Any student who has received three consecutive grades of NC for Doctoral Dissertation will be

automatically referred to the Student Comprehensive Evaluation Committee for review. When a student satisfactorily completes the dissertation, a grade of CR will be issued, and all prior grades of NC will be changed to CR. (Students entering 2019-2020 AY or later)

PSY-901
Doctoral Dissertation I **0 Credits**

PSY-902
Doctoral Dissertation II **0 Credits**

PSY-903
Doctoral Dissertation III **0 Credits**

Prerequisites: PSY-896, PSY-897; successful completion of the Doctoral Clinical Qualifying Examination. The Doctoral Dissertation provides an opportunity for students to engage in scholarship on an issue or problem that is psychological in content and professionally relevant. Students must begin registering for Doctoral Dissertation within three consecutive terms after approval of their dissertation proposal, or in any term in which they are actively working on their dissertation with their committee members. Once students register for Doctoral Dissertation, they must continue registering for three consecutive terms. Students who have failed to complete their dissertation at that time are required to register for Doctoral Dissertation Continuation (PSY-904) until they are approved for Doctoral Dissertation Oral Defense (PSY-998). Students receive a grade of CR (credit) for any term in which they are making satisfactory progress on their dissertation and a grade of NC (no credit) when they are failing to complete the project in a timely manner. Any student who has received three consecutive grades of NC for either Doctoral Dissertation Proposal or Doctoral Dissertation will be automatically referred to the Student Comprehensive Evaluation Committee for review. When a student satisfactorily completes the dissertation proposal or dissertation, a grade of CR will be issued, and all prior grades of NC will be changed to CR. (Students entering prior to 2019-2020 AY)

PSY-904
Doctoral Dissertation Continuation **0 Credits**

Doctoral students who have completed the Doctoral Dissertation sequence, are not enrolled in internship, and have not yet successfully completed the oral defense must register each term for this course and pay the required fee to remain in good standing. Students enrolled in Doctoral Dissertation Continuation are expected to make steady and consistent progress on completion of their dissertation. Failure to enroll in courses or Doctoral Dissertation Continuation may result in dismissal from the Psy.D. program.

PSY-910
Supervision and Management in Clinical Psychology **3 Credits**

This course, intended to occur late in the doctoral curriculum, during or just before the internship, focuses primarily on clinical supervision with secondary focus on clinical and programmatic consultation. It provides an overview of all dimensions of supervision, including the supervisory contract; theoretical models of supervision; the supervisory relationship; issues of diversity, gender and power; supervisory modalities; developmental issues; and ethical and legal issues. The course includes an optional laboratory in which students who do not have current supervisory responsibilities can arrange to have quasi-supervisory responsibility for students in lower-level intervention courses. (Students entering prior to 2019-2020 AY.)

PSY-910**
Supervision and Management in Clinical Psychology and Lab **4 Credits**

This course, intended to occur late in the doctoral curriculum, during or just before the internship, focuses primarily on clinical supervision, with a secondary focus on clinical and programmatic consultation. It provides an overview of all dimensions of supervision, including the supervisory contract; theoretical models of supervision; the supervisory relationship; issues of diversity, gender and power; supervisory modalities; developmental issues; and ethical and legal issues. The course includes a required

laboratory in which students engage in a formal peer supervision experience, including an audio taped series of supervision sessions with analysis and application of theoretical models. The course and lab experience are designed to provide beginning, applied supervisory skill development opportunity, and integrate knowledge and skill development in this advanced competency area through direct practice with peer supervision and application of "supervision of supervision" models. (Students entering in 2019-2020 AY. or later.)

PSY-912
Psychopharmacology **2 Credits**

This course is an introduction to the scientific principles and clinical information needed for a basic understanding of the uses and limitations of the major classes of psychopharmacologic agents. The course builds on the material introduced in PSY-724. (Students entering prior to AY 2019-2020 only)

PSY-912
Psychopharmacology **3 Credits**

This course is an introduction to the scientific principles and clinical information needed for a basic understanding of the uses and limitations of the major classes of psychopharmacologic agents. The course builds on the material introduced in PSY-724. (Students entering AY 2019-2020 or later).

PSY-920
Doctoral Internship Full-Time I **0 Credits**

PSY-921
Doctoral Internship Full-Time II **0 Credits**

PSY-922
Doctoral Internship Full-Time III **0 Credits**

Prerequisites: Successful completion of required qualifying examinations, doctoral dissertation proposal, PSY-760-762 PSY-860-862, and permission of the Director of Training. Following completion of academic and practicum requirements, doctoral students must complete an internship of a minimum of 2,000 clock hours of training over a 12-to 24-month period. Most internships require a one-year, full-time commitment. A two-year, half-time internship may also be obtained. The internship is designed to provide an intensive clinical experience building on the coursework, practicum experiences, and skills supervision completed during the first four years of the doctoral program. The Department of Training assists students in identifying appropriate sites for internships. Students enroll beginning in the fall semester. (Students must enroll three consecutive times.) Students must participate in the APPIC internship application and National Match process.

PSY-923
Doctoral Internship Half-Time I **0 Credits**

PSY-924
Doctoral Internship Half-Time II **0 Credits**

PSY-925
Doctoral Internship Half-Time III **0 Credits**

PSY-926
Doctoral Internship Half-Time IV **0 Credits**

PSY-927
Doctoral Internship Half-Time V **0 Credits**

PSY-928
Doctoral Internship Half-Time VI **0 Credits**

Prerequisites: Successful completion of required qualifying examinations, doctoral dissertation proposal, PSY-760-762, PSY-860-862, and permission of the Director of Training. Following completion of academic and practicum requirements, doctoral students must complete an internship of a minimum

of 2,000 clock hours of training over a 12- to 24-month period. Most internships require a one-year, full-time commitment. A two-year, half-time internship may also be obtained. The internship is designed to provide an intensive clinical experience building on the coursework, practicum experiences, and skills supervision completed during the first four years of the doctoral program. The Department of Training assists students in identifying appropriate sites for internships. Students enroll beginning in fall semester and must enroll six consecutive times.

PSY-930**Trauma, Grief, and Loss with Children, Adolescents, and Families 3 Credits**

This course emphasizes theories and treatment approaches related to the experiences of trauma, grief, and loss with children, adolescents, and their families. A strong emphasis of this course will be to understand the ways children, adolescents, and families understand and experience trauma and loss, and ways in which culture influences these processes. Loss will be explored broadly and will include an understanding of the impact of death, parent and child illness, divorce, and other losses on the psychological health and well-being of this population. The impact of trauma on the health and functioning of the child, adolescent, and family will also be explored. Developmental perspectives outlining the normal response to such experiences will also be emphasized. Evidence-based practices for the treatment of this population will be emphasized.

PSY-931**Developmental Disorders of Childhood and Adolescence 3 Credits**

This course emphasizes assessment and intervention approaches focused on the treatment of children and adolescents diagnosed with autism spectrum and/or other developmental disorders. Research-supported treatments, such as applied behavior analysis (ABA), will be the central focus of this course. Students will also learn structured interview techniques and assessment procedures used to determine the nature and severity of this class of disorders.

PSY-932**Assessment and Intervention with Adolescents and Young Adults 3 Credits**

This course emphasizes theories and treatment approaches related to the treatment of older adolescents and young adults. Specifically, the unique developmental task associated with this phase of the life span and associated impact on mental health and well-being will be addressed. Students will learn how to conduct risk assessments, as well as how to recognize and intervene with clients who are experiencing their first symptoms of severe mental illness. Evidence-based practices, including long-term and short-term models of treatment, will be emphasized.

PSY-950**Advanced Practicum Seminar I 1 Credit****PSY-951****Advanced Practicum Seminar II 1 Credit**

Prerequisites: PSY-760–762, PSY-860–862; concurrent with Advanced Practicum (PSY-960–961). Taken concurrently with advanced practicum, this seminar provides students with an opportunity to review clinical cases integrating theory, practice, and research, and discuss professional development and the supervision experience. This seminar also provides students with opportunities to prepare for future professional development through discussion of internship and postdoctoral preparation, professional licensure, and job seeking. Specific cases students are working on in their practicum placement are discussed to illustrate general principles of therapy, assessment, intervention, and relevant and appropriate recommendations for the client. The focus is on the continued development of knowledge, skills, attitudes, and values needed to provide competent and ethical clinical services. A variety of topics and clinical experiences are offered through class discussion, case presentation, role-playing, and structured exercises. (Students entering prior to AY 2019-2020 only)

PSY-960**Advanced Practicum I 1 Credit****PSY-961****Advanced Practicum II 1 Credit**

Prerequisites: PSY-760–762, PSY-860–862; concurrent with Advanced Practicum Seminar (PSY-950–951). Students are required to complete a minimum of 600 practicum hours in order to receive credit for this training experience. May not be transferred or waived. (Students entering prior to AY 2019-2020 only)

PSY-967****Advanced Practicum and Seminar I 1 Credit****PSY-968******Advanced Practicum and Seminar II 1 Credit**

Prerequisites: PSY-7670–769, and PSY-867–869. This advanced seminar is taken concurrently with an advanced practicum experience. The seminar provides students with an opportunity to review clinical cases integrating theory, practice, and research, and discuss professional development and the supervision experience. This seminar also provides students with opportunities to prepare for future professional development through discussion of internship and postdoctoral preparation, professional licensure, and job seeking. Specific cases students are working on in their practicum placement are discussed to illustrate general principles of therapy, assessment, intervention, and relevant and appropriate recommendations for the client. The focus is on the continued development of knowledge, skills, attitudes, and values needed to provide competent and ethical clinical services. A variety of topics and clinical experiences are offered through class discussion, case presentation, role-playing, and structured exercises. Students are required to complete a minimum of 600 practicum hours in order to receive credit for this training experience. Advanced Practicum may not be transferred or waived. (Students entering 2019-2020 AY or later)

PSY-962**Advanced Practicum Continuation**

This course is for students on advanced practicum who are continuing with their training in order to complete a minimum of 600 practicum hours. Students should only register for this course if additional practicum hours are required to complete their degree program. The Training Department makes the final determination on a student's eligibility to register for this course. (Students entering prior to AY 2019-2020 only.)

PSY-969**Advanced Practicum Continuation**

This course is for students on advanced practicum who are continuing with their training in order to complete a minimum of 600 practicum hours. Students should only register for this course if additional practicum hours are required to complete their degree program. The Training Department makes the final determination on a student's eligibility to register for this course. (Students entering 2019-2020 AY or later.)

PSY-998**Doctoral Dissertation Oral Defense 0 Credits**

Prerequisites: Final dissertation course and permission of the doctoral dissertation committee. Students defend their doctoral dissertation and must submit their dissertation for publication to complete the doctoral oral defense. Students must submit the Certification of Preparedness form found in the Dissertation Handbook.

SJP-513**Social Justice Practicum I****1 Credit**

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that begins in the fall term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. The SJP may not be waived and life credit is inadmissible to meet this requirement. *Note: During the fall term, students enrolled in the SJP attend at least two SJP workshops and complete a minimum of 50 hours upon placement at site.*

SJP-514**Social Justice Practicum II****1 Credit**

The Social Justice Practicum (SJP) is a first-year, nonclinical and non-discipline-specific experiential practicum that continues through the spring term. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. Upon completing the SJP, students gain, maintain, and strengthen connections to communities by developing critical problem-solving skills necessary to be socially responsible practitioners. In addition, students learn essential concepts related to civics, intersectionality, and community organizing as they are necessary to establish and enhance critical thinking to labor for social justice. All students must complete the SJP before advancing on to any clinical or discipline-specific training, regardless of the program in which they are enrolled. SJP requirements include: (1) completion of a minimum of 200 hours at an approved SJP site; (2) attendance at a monthly, campus-based Civic and Community Action workshop; and (3) a formal SJP presentation at the Annual Social Justice Symposium. Students must also receive a grade of "Pass" for the midterm and final evaluation to receive credit for completing the SJP. The SJP may not be waived, and no life credit is admissible to meet this requirement.

PSY.D. PROGRAM EMPHASES

EMPHASIS IN ADVANCED ADLERIAN PSYCHOTHERAPY

Program Overview

Adler University doctoral students working toward the Psy.D. may pursue advanced training in Advanced Adlerian Psychotherapy concurrently with their doctoral work. This emphasis is designed to provide advanced training in the principles, techniques, and methodologies of Alfred Adler. This emphasis was developed to allow qualified individuals an opportunity to obtain deeper knowledge and advanced clinical skills and participate in supervised clinical experiences in Adlerian therapy.

The focus of the advanced emphasis is to build on the basic skills provided to all Psy.D. students. In addition, it will help the student build requisite skills that critically integrate the Adlerian foundation into current approaches and special needs areas. Attention is being given to evidence-based techniques and the best practices of the field. Following the six standard Adlerian credits required for the doctorate degree (PSY-710, PSY-711), the emphasis' advanced courses will enhance the student's/clinician's skills in assessment and interventions, as well as training in Adlerian play therapy, group therapy, family therapy, parent guidance, and couple therapy.

The emphasis in Advanced Adlerian Psychotherapy has a long history here in Chicago. The Alfred Adler Institute of Chicago initially educated practicing clinicians to be Adlerian therapists solely through a series of classes led by Rudolf Dreikurs, M.D., Bernard Shulman, M.D., and Harold Mosak, Ph.D. This approach grew into an established certification in Adlerian psychology, as well as a concentration within the Psy.D. Program.

Minimum Admission Requirements

Enrollment in the clinical psychology Psy.D. program.

Coursework Requirements

PSY-821

Neo-Adlerian Theory: Integration of Adlerian theory with Evidence Based Practice **3 credits**

Prerequisites: PSY-710 & PSY-711. This course will teach how many of the current theories and evidence-based practices complement and support Adlerian theory and practice. Students will learn how master therapists in most approaches focus on the relationship, social connection, schemas, and behaviors just as Adler did. This course will teach students how to integrate Adlerian theory with interventions and strategies from Cognitive Behavioral Therapy, Rational Emotive Behavioral Therapy, Acceptance Commitment Therapy, Young's Schema Therapy, Person Centered Therapy, Motivational Interviewing, Emotion Focused Therapy and Positive Psychology. Students will learn advanced conceptualization of human behavior that can lead to seamless implementation of interventions that master therapists apply consistently.

PSY-823

Adlerian Parent Consultation and Family Therapy **3 credits**

Prerequisites: PSY-710 & PSY-711. This course will teach students child guidance and parenting knowledge and skills based upon Adlerian principles to be practiced in parent consultation and family therapy. Students will understand how Adlerians integrate socio-cultural considerations contexts while assessing and intervening with families and the multiple systems intersecting with the clients. Through lecture, class discussion, observation, and participative demonstrations, students are taught how to facilitate a parenting group and family therapy. Students will receive supervision from Adlerian faculty as they lead or co-lead a parenting group in the community. This course demarcates Adler's and Dreikurs' place in history with parenting and child guidance. Adlerian-based parenting programs are recognized as evidence-based programs. (This course also meets C&A Emphasis Elective requirement.)

PSY-824

Advanced Adlerian Interventions and Assessment **3 credits**

Prerequisites: PSY-710, PSY-711. This class will teach Adlerian theory and interventions within play therapy, group therapy, family therapy, and assessment of lifestyle and social interest. Theory and interventions related to children, adolescents, young adults, and the elderly will be reviewed as well as an in-depth investigation and understanding of complex emotions and ideas such as guilt, shame, grief, and *Gemeinschaftsgefühl* from an Adlerian point of view. Students will explore interventions with these populations (i.e. children, adolescents, young adults, and the elderly) and possible macro interventions as socially responsible clinicians.

Training Requirements

Student can either attend the NASAP Annual conference (two days of full training), ICASSI (one week of activities), or watch previously recorded case consultation hours (15 hours) on adlerpedia.org.

Dissertation Requirement

Doctoral students seeking this emphasis must have an Adlerian focus for their dissertation. However, this focus may include other areas of interest.

Total Credit Hours Required: 15

Graduation Requirements

1. Satisfactory completion of all required credit hours, including all required courses
2. Satisfactory completion of training requirements
3. A cumulative grade point average of 3.0 or higher and no grades below "B"
4. Successful completion of a dissertation and submission to the Psy.D. department

For further information contact Leigh Johnson-Migalski, Psy.D., Advanced Adlerian Psychotherapy Emphasis Coordinator at Imigalski@adler.edu.

EMPHASIS IN CHILD AND ADOLESCENT CLINICAL PSYCHOLOGY

Program Overview

The Emphasis in Child and Adolescent Clinical Psychology prepares students to meet the growing demand in the field for well-trained child and adolescent psychologists. Students who have interest in the Emphasis in Child and Adolescent Clinical Psychology should speak with the Emphasis Coordinator as early as possible to express their interest and discuss programmatic changes.

Admission Criteria and Continued Enrollment

Students are admitted into the emphasis after completion of the first year. Admission criteria include:

- A cover letter describing the student's professional goals and interests and how the emphasis will help him or her achieve these goals
- Copies of graduate transcripts (can be unofficial transcripts)
- A letter of recommendation from one faculty member in the Adler Psy.D. program; this can include a direct email from the recommender to the emphasis coordinator
- Overall Adler grade point average of at least 3.25.
- Passing all Psy.D. program milestones up to the point of emphasis admission
- An interview with the Emphasis Coordinator
- Admission to the emphasis is not guaranteed. The decision will be weighed in conjunction with other data.

Additionally, students admitted into the emphasis must maintain the following standards, or they may risk dismissal from the emphasis:

- Maintain an overall grade point average of at least 3.0
- Obtain a grade of at least B in all required emphasis courses
- Pass all milestones in the Psy.D. program (CQE, dissertation, etc.)
- Have no SCEC referrals for comporment issues
- Have no more than one SCEC referral for any other reason

Coursework Requirements

Successful completion of the following courses is required to complete the emphasis:

PSY-723	Couple and Family Therapy Approaches I	3 cr.
PSY-753	Child and Adolescent Psychopathology	3 cr.
PSY-757	Child and Adolescent Psychotherapy	3 cr.
PSY-783	Advanced Child and Adolescent Assessment	3 cr.
PSY-805	Advanced Child and Adolescent Psychotherapy	3 cr.
PSY-***	Child and Adolescent Elective (see menu below)	3 cr.

Total Credit Hours Required: 18

Emphasis in Child and Adolescent Clinical Psychology open electives consists of any of the following (3 credits each). Students must select one course from the options below:

PSY-706	Trauma-Focused Approaches to Intervention
PSY-754	Special Topics in the Treatment of Children, Adolescents, Young Adults, and/or Families
PSY-756	Group Psychotherapy
PSY-823	Adlerian Parent Consultation and Family Therapy
PSY-874	Race, Ethnicity, and Social Class
PSY-930	Trauma, Grief, and Loss with Children, Adolescents, and Families
PSY-931	Developmental Disorders of Childhood and Adolescence
PSY-932	Assessment and Intervention with Adolescents and Young Adults

Completion Requirements

1. Satisfactory completion of all required credit hours, including all required courses.
2. At least one practicum (diagnostic or psychotherapy) in a setting that provides psychotherapy and/or diagnostic services to children and adolescents. Child and adolescent clients must make up at least half of your overall caseload.
3. Advanced practicum must allow students to have children, adolescents, and/or young adult clients as part of caseload.
4. At least one of the CQE's, assessment or therapy, must address a child or adolescent client.
5. Students will also be required to write their dissertation in the area of child and adolescent psychology. This does not mean that children or adolescents must be part of the sample; however, the topic selected must add to the literature on the assessment and treatment of this population. Young adult dissertation topics will also be considered for those students who wish to work with older adolescents and young adult populations.
6. A cumulative grade point average of 3.0 or higher and no grades below B.
7. Successful completion of a dissertation and submission to the Psy.D. Department.
8. Submission of completed Graduation Application and full payment of all outstanding tuition and fees.

For further information, contact Dr. Cristina Cox, Child and Adolescent Psychology Emphasis Coordinator, at Ccc@adler.edu.

EMPHASIS IN CLINICAL NEUROPSYCHOLOGY

Program Overview

Clinical neuropsychology is one of the fastest growing sub-specialties within psychology. Its growth has been evident in the increased number of postdoctoral training programs, high-quality, peer-reviewed professional journals, and professional organizations in neuropsychology (such as the International Neuropsychological Society (INS), the National Academy of Neuropsychology (NAN), and Division 40 of the American Psychological Association).

Neuropsychology is recognized by the National Register of Health Service Psychologists, and has a specific credentialing board, The American Board of Clinical Neuropsychology. There is also a recent emphasis on interdisciplinary collaborations with neuropsychology both within the field of psychology and amongst other health disciplines.

Division 40 of the American Psychological Association defines a clinical neuropsychologist as follows:

A Clinical Neuropsychologist is a professional psychologist who applies principles of assessment and intervention based upon the scientific study of human behavior as it relates to normal and abnormal functioning of the central nervous system. The Clinical Neuropsychologist is a doctoral-level psychology provider of diagnostic and intervention services who has demonstrated competence in the application of such principles for human welfare following:

- Successful completion of systemic didactic and experiential training in neuropsychology and neuroscience at a regionally accredited university;
- Two or more years of appropriate supervised training applying neuropsychological service in a clinical setting; and
- Licensing and concentration to provide psychological services to the public by the laws of the state or province in which they live, and review by one's peers as a test of these competencies.

Our doctoral neuropsychology emphasis is designed to provide doctoral students with the opportunity to develop a solid competence and proficiency in clinical neuropsychology. Completion of the Emphasis in Clinical Neuropsychology, within the doctoral program in Clinical Psychology, prepares graduate to complete advanced work (i.e. post-doctoral fellowship), leading to careers in clinical neuropsychology and to board certification. The program is designed to satisfy current professional guidelines for training clinical neuropsychologists. After graduating with the Psy.D. and the Clinical Neuropsychology emphasis, a year of postdoctoral training is required for licensure as a psychologist in most states and provinces. Graduates are expected to continue training on a postdoctoral level and to acquire additional supervised clinical experience increase both general and subspecialty neuropsychology competencies. Current national guidelines recommend that the graduates complete a two-year postdoctoral residency in neuropsychology following the completion of this program.

Minimum Admissions Requirements and Continued Enrollment

PREREQUISITES

Students who have completed the requisite assessment sequence (PSY-661, PSY-662, PSY-663), and Psychopathology I and II (PSY-648, PSY-649) and obtained a grade of B+ or better in all these courses are eligible to take Introduction to Clinical Neuropsychology I: Neuroanatomy (PSY-764) in the fall of their second year. They must also complete or concurrently register for Biological Bases of Behavior (PSY-724) in fall of their second year.

After completion of all the above courses with a grade of B+ or better, students may then officially apply to be admitted to the emphasis at the end of the fall term of the second year.

Application Process

Students will need to submit a one-page statement of interest, transcripts of their graduate school performance, and a letter of recommendation from a faculty member, and then complete an interview with the emphasis coordinator.

Students who are accepted into the emphasis will then be permitted to take the second course in the sequence in spring term of their second year, Neuropsychology II: Neuropsychological Assessment (PSY-765). After acceptance into the emphasis, students must complete all remaining course requirements with a grade of B+ or better. Additionally, following the completion of the assessment and psychotherapy practicums and seminars, the student will be allowed to apply for an advanced practicum in neuropsychology and the associated advanced practicum seminar with the focus in clinical neuropsychology.

Prerequisites or grade requirements may be waived by the emphasis coordinator in unusual circumstances.

Admission Criteria

- Completion of PSY-661, PSY-662, PSY 663 with a B+ or better in all courses
- Completion with PSY-724, PSY-648, PSY 649 with a B+ or better. Overall Adler GPA of at least 3.5 with no grades lower than a B
- One letter of recommendation from faculty. This may be in the form of an email to the Emphasis Coordinator
- No referrals to SCEC
- Passing all program milestones up to the point of emphasis admission
- A cover letter describing the student's professional goals and interests and how the emphasis will help them achieve these goals

Admission to the emphasis is not guaranteed and dependent on meeting criteria as well as fit with the program, student performance, and specific goals.

Additionally, students admitted into the emphasis must maintain the following standards, or they will risk dismissal from the emphasis.

- Maintain of overall GPA of at least 3.5 in the doctoral program
- Maintain at least a GPA of 3.5 in all Neuropsychology Emphasis courses
- Pass all milestones in the Psy.D. program on a timely basis
- No referrals to SCEC or other disciplinary actions
- Maintain a collaborative, team-focused attitude with no comportment issues that warrant a referral to SDC or SCEC while engaged in any neuropsychology student group (ANST) or emphasis activities, practica, or classes

Emphasis Curriculum Sequence

Year 2:

PSY-724	Biological Bases of Behavior (Regular core Psy.D. curriculum requirement)	3 cr.
PSY-764	Neuropsychology I – Neuroanatomy, Brain behavior relationships, Cognitive Domains of functioning	3 cr.

Year 3:

PSY-765	Neuropsychology II – Introduction to Neuropsychological Assessment	3 cr.
---------	--	-------

One course with Special Populations in Neuropsychology (Pediatric or Geriatric):

PSY-864	Pediatric Neuropsychology	3 cr.
PSY-884	Geriatric Neuropsychology	3 cr.

Year 3 or 4:

PSY 865	Advanced Neuropsychological Assessment and Conceptualization III	3 cr.
---------	--	-------

One elective course in Neuropsychological Intervention Techniques selected from a menu of courses offered.

PSY-9XX	Special Topics in Neuropsychology	3 cr.
---------	-----------------------------------	-------

Year 4:

PSY-967	Advanced Neuropsychology Practicum I and Seminar (Restricted Neuropsychology section) (Core Psy.D. course)	1 cr.
PSY-968	Advanced Neuropsychology Practicum II and Seminar (Restricted Neuropsychology section) (Core Psy.D. course)	1 cr.

Summary

A total of 15 credits of courses are required in the specific clinical neuropsychology courses utilizing general elective credits. An additional 5 credits* overlap with regular Psy.D. core courses but may be in specific designated sections (PSY 724 and PSY 967-968) for neuropsychology emphasis students.

Course Descriptions

PSY-764

Neuropsychological Assessment I – Neuroanatomy **3 Credits**
Prerequisite. PSY-661, PSY-662, PSY-663, PSY-648, PSY-649 (PSY724 or concurrently). This course is the first in a three-course sequence designed to familiarize students with the foundations of neuropsychological assessment. This course provides a detailed overview of cognitive domains of functioning including learning, memory, attention, executive function, language and visual-spatial processing. It provides an in-depth understanding of basic neuroanatomy and neurophysiology with an emphasis on functional neuroanatomy for clinical neuropsychologists. *Note: This class is offered in the fall semester.* (Required one elective course for the Emphasis in Clinical Neuropsychology)

PSY-765

Neuropsychological Assessment II **3 Credits**
Prerequisites PSY-764. The course introduces key principles and techniques of neuropsychological assessment. Administration and scoring of various neuropsychological assessment instruments is introduced and test administration and scoring in a sociocultural context is emphasized. The course focuses on neuropsychological assessment of neurocognitive disorders, including but not limited to dementia, traumatic brain injury, cerebrovascular accident and psychological disorders. Integrative interpretation of neuropsychological assessment results is emphasized. (Required one elective course for the Emphasis in Clinical Neuropsychology)

PSY-864

Pediatric Neuropsychology **3 Credits**
Prerequisites: PSY-765. This course provides training in the neuropsychological assessment of children, with an emphasis on trauma and developmental disorders. An array of neuropsychological instruments is used. Students develop skills in the administration, scoring, contextual interpretation, and write-up of pediatric neuropsychological assessment methods (Elective course for the Emphasis in Clinical Neuropsychology)

PSY-884

Geriatric Neuropsychology **3 Credits**
 This course focuses on the development of knowledge and skills necessary to perform psychological assessments and neuropsychological screenings, with an emphasis on older adults. Students gain a conceptual grasp of (1) uses of traditional assessment instruments with older adults; (2) use of psychological tests designed specifically for older adults; (3) use of neuropsychological tests to provide a screening for cognitive deficits; and (4) use of functional assessment with older adults. The course culminates with an in-depth examination of late life cognitive disorders illustrated through the introduction of case studies. (Elective course for the Emphasis in Clinical Neuropsychology)

PSY-865

Advanced Neuropsychological Assessment and Conceptualization III **3 Credits**
 This course offers a structured approach to case conceptualization and analysis in preparation for clinical practice and ultimately board certification. It covers advanced topics in neuropsychological assessment through the application of fact-finding exercises and didactic instruction. Additionally, students will select one neuropsychology elective course from a list of options. (Required course for the Emphasis in Clinical Neuropsychology)

PSY-9XX

Neuropsychology Special Topics **3 Credits**
 (Required one elective course for the Emphasis in Clinical Neuropsychology)

For further information, contact Dr. Andy Suth, Clinical Neuropsychology Emphasis Coordinator, at asuth@adler.edu.

EMPHASIS IN MILITARY CLINICAL PSYCHOLOGY

In support of Adler University's integrated mission of advancing socially responsible practice, healthy communities, and a more just society, the Emphasis in Military Clinical Psychology is designed for students dedicated to the delivery of best practices in assessment, evaluation, treatment, and clinical care to reservist, active-duty military personnel, veterans, retirees, couples, and their families in a broad array of clinical settings, including private practice, community mental health agencies, hospitals and interdisciplinary federal healthcare entities like the Department of Veterans Affairs (VA) hospitals and active-duty military bases for the Department of Defense (DoD), among others.

At least one military-service-related clinical practicum is preferred but not required, given the number of military-related practica available in the area. A student who wants to serve on active-duty as a military clinical psychologist and military officer, and who qualifies, may enjoy the competitive F. Edward Hebert Armed Forces Health Professions (HPSP) scholarship that offers tuition remission, a monthly stipend, and competitive positioning for an active-duty internship and postdoc.

Admission Criteria and Continued Enrollment

Students who have an interest in the Emphasis in Military Clinical Psychology should notify the Emphasis Coordinator and arrange for an interview within 60 days of the start of the first academic year (fall term). Admission to the emphasis is not guaranteed. Candidates must meet the following admission criteria:

- Copies of undergraduate and graduate transcripts
- A letter of interest (cover letter) describing the student's professional goals and interests and how the emphasis will help achieve these goals
- Overall grade point average of at least 3.25
- An interview with the Emphasis Coordinator or emphasis faculty

For students who did not enter directly into the Military Clinical Psychology emphasis, after the 60-day window and before the beginning of the second-year fall term, candidates are required to meet the following admission criteria:

- Each of the above criteria
- Overall Adler grade point average of at least 3.25
- One letter of recommendation from an Adler faculty member. This may be in the form of a brief email.
- Passing all the Psy.D. program milestones up to the point of emphasis admission

Once a student is admitted into the emphasis, the student must maintain the following standards or they will risk dismissal from the emphasis:

- Maintain an overall grade point average of at least 3.0
- Obtain a grade of at least B in all required emphasis courses (listed below)
- Pass all milestones in the Psy.D. program (CQEs, dissertation, etc.)
- Have no SCEC referrals for comportment issues
- Have no more than one SCEC referral for any other reason
- Maintain a collaborative, team-focused attitude while engaged in any emphasis activities, practica, or classes
- Attend all mandatory emphasis meetings during the student's first academic year and periodically in the student's second academic year and beyond, providing mentorship and instrumental support across cohort
- Attend at least one emphasis in-house training

Coursework Requirements

Students interested in serving this unique population will enroll in five (5) core military clinical psychology courses that address military structure, systems, clinical issues, assessment, treatment, and a variety of direct-service modalities in the treatment of military personnel, veterans, retirees, and their families.

Satisfactory completion of the following courses is required to complete the emphasis:

PSY-784	Introduction to Military Psychology	3 cr.
PSY-785	Psychology of Combat and Conflict	3 cr.
PSY-797	Testing, Assessment, and Treatment in DoD and VA Healthcare Systems	3 cr.
PSY-798	Trauma-Informed Theory, Assessment, and Treatment in Military Clinical Psychology	3 cr.
PSY-799	Military Couple, Family, and Group Psychotherapy	3 cr.

Total Credit Hours Required: 15

Completion Requirements

1. Satisfactory completion of all required credit hours
2. Satisfactory completion of practicum seminars and internship
3. A cumulative grade point average of 3.0 or higher and no grades below B
4. Successful completion of a military-related dissertation and submission to the Psy.D. Department
5. Submission of completed Graduation Application and full payment of all outstanding tuition and fees

For further information, contact the Military Clinical Psychology Emphasis Coordinator.

Course Descriptions

PSY-784 Introduction to Military Psychology 3 Credits

This course introduces the student to military culture, structures, and systems. The course also introduces the student to the specialty of military psychology, which aims to improve the lives of service personnel and is applicable to a wide range of areas within the military community. Various ways psychological measures are presented that are applied to the military environment includes the selection of recruits for the armed forces, determining which recruits will be best suited for various military occupational specialties, fitness for duty via the Comprehensive Soldiers Resilience Program, as well as performing analysis on humanitarian and peace-keeping missions to determine procedures. Other applications of military psychology include its intersection with social policy, particularly with respect to issues of diversity within the military. *Note: Satisfies program requirement as a Regular Elective.*

PSY-785 Psychology of Combat and Conflict 3 Credits

Prerequisite: PSY-784 or permission of the Military Emphasis Coordinator. Examination of the psychological impact of direct or secondary experiencing of conflict, including the physical and psychological sequelae of combat and the impact of combat-related manifestations on family members and others. Diagnosis and treatment of acute and cumulative combat-related stress, including normal and maladaptive reactions to conflict-related responses are addressed, as well as suicidal and homicidal behavior pre-, during, and post-deployment. *Note: Satisfies program requirement as a Regular Elective.*

PSY-798**Trauma-Informed Theory, Assessment, and Treatment in Military Clinical Psychology 3 Credits**

Prerequisite: PSY-785 or permission of the Military Emphasis Coordinator.

This course is dedicated to the various aspects of the trauma spectrum. Subject areas include psychological trauma due to combat or combat-related exposure, moral injury, military sexual assault, military sexual harassment, traumatization due to minority discrimination and oppression-based race, sexuality, gender, ability, and or religious affiliation. Students will also understand, discuss, and apply empirically supported trauma-informed interventions addressing loss, grief, bereavement, injury, and or death. Best practices in trauma recovery used in both governmental and non-governmental settings will be explored including aspects of crisis competence, resilience, and post-traumatic growth. *Note: Satisfies program requirement as an Advanced Elective.*

PSY-797**Testing, Assessment, and Treatment in DoD and VA Healthcare Systems 3 Credits**

Prerequisite: PSY-785 or permission of the Military Emphasis Coordinator.

Psychological and neurological assessment of active duty, veteran, and retired military service members and their families is the focus of this course. Assessment methodology includes integrative, objective, and performance-based personality assessments and self-report measures. Students will learn about the theoretical basis, current military population specific issues, ethics and clinical use of a variety of assessment strategies focused on the unique service-related demands and probable comorbidities. Students will be trained in military-specific best practices in the proficient administration, scoring, and military service-informed interpretation of commonly used tests in the Department of Defense (DoD) and Veterans Affairs (VA) healthcare systems. Concurrently, students will be presented with a brief exploration of the structures, function, and policies of these federally administered medical and behavioral health delivery systems. In addition, students will learn about direct service delivery to active duty service members on base, off base, and in theaters of war, as well as in the VA healthcare system's direct service delivery to military veterans, retirees, and their families in the United States. Moreover, this course will focus on the delivery of empirically supported behavioral health treatments in the DoD and VA's healthcare systems. These best practices in treating military personnel, veterans, retirees, and their families may address any of the following: depression, anxiety, addictions, suicidal ideation, combat-related stress, post-traumatic stress symptoms, acute stress disorder (ASD), and post-traumatic stress disorder (PTSD) and accompanying comorbidities, among others. *Note: Satisfies program requirement as an Advanced Elective.*

PSY-799**Military Couple, Family, and Group Psychotherapy 3 Credits**

Prerequisite: PSY-785 or permission of the Military Emphasis Coordinator.

This course will focus on the treatment of military clients including reserve and active duty, veterans, retirees, and their families. The treatment modalities will be explored in the context of individual, couple, family, and group psychotherapy techniques using both lectures and role-play methodologies. Treatment interventions will be explored including psychodynamic, cognitive-behavioral, and other traditional, as well as non-traditional intervention models, to address psychological distress related to military service, pre-deployment, deployment, combat deployment in the theater of war, return to duty, and reintegration into society. Students will also learn about ethical practices in the delivery of psychotherapy in military settings, the Veterans Affairs healthcare system, and as private practitioners working with actively serving and veteran populations and their families. *Note: Satisfies program requirement as a Required Intervention Elective.*

EMPHASIS IN PRIMARY CARE PSYCHOLOGY AND BEHAVIORAL MEDICINE

Emphasis Overview

The Emphasis in Primary Care Psychology and Behavioral Medicine trains students in the broader role of psychology in healthcare and the treatment of medical conditions using behavioral and psychological interventions. Primary care psychology involves working in medical settings, reducing the societal level of mental illness via early intervention, and enhancing physicians' effectiveness by consulting with them on psychological factors' impact on disease. Typical work settings are hospitals, group medical practices, community clinics, HMOs, and family practice centers. Behavioral medicine involves intervening with medical patients in order to reduce physical symptoms such as reduction in pain symptoms using mindfulness, reduction in blood pressure using biofeedback, or regulation of blood sugar in diabetics using behavioral management techniques in collaboration with a dietician. The two fields go hand-in-hand, as many patients in primary healthcare settings will need behavioral medicine interventions for their illnesses.

Required courses provide students with evidence-based knowledge and skills pertinent to several of the key principles of both primary care psychology and behavioral medicine, including mind-body interaction, pain management, stress-related illnesses and treatments, the role of behavioral factors in physical and psychological well-being, and the application of psychological assessment and intervention techniques to acute and chronic illness. The coursework also addresses an understanding of the impact of broader structural and systemic factors on well-being and the role of the psychologist in healthcare delivery. These are fast-growing and exciting fields, with the potential to alter the healthcare landscape.

Admission Criteria

Interested students in good academic standing having maintained a minimum 3.0 grade point average should apply to the Emphasis Coordinator for entry into the Emphasis in Primary Care Psychology and Behavioral Medicine toward the end of their first year. Students are also expected to attend either a Primary Care Student Organization (PCSO) meeting or event, or attend an emphasis meeting during their first year. Interested students should also meet with the Emphasis Coordinator before application to discuss their interest in the area.

Course Requirements

The following courses are necessary for completion of the emphasis:

PSY-717	Primary Care Psychology	2 cr.
PSY-718	Medical Terminology and Conditions for Primary Care Psychologists	1 cr.
PSY-735	Assessment and Intervention in Behavioral Medicine I (Prerequisites: PSY-720, PSY-737)	3 cr.
PSY-736	Assessment and Intervention in Behavioral Medicine II (Prerequisite: PSY-735)	3 cr.

Behavioral Medicine Skills (three credits). Select one:

PSY-719	Mindfulness Meditation	3 cr.
PSY-733	Theories and Techniques of Clinical Hypnosis	3 cr.
PSY-758	Biofeedback	3 cr.

Special Topics (three credits). Select one:

PSY-802	Cognitive and Behavioral Therapy Approaches II	3 cr.
PSY-822	Death, Dying, Bereavement, and Loss-Focused Approaches to Intervention	3 cr.

Total Credit Hours Required: 15

Completion Requirements

1. Satisfactory completion of all required credit hours, including all required courses, for the Psy.D. program and the emphasis as listed above
2. A cumulative grade point average of 3.0 or higher and no grades below B
3. Successful completion of a dissertation and submission to the Psy.D. Department
4. Submission of completed Graduation Application and full payment of all outstanding tuition and fees

For further information, contact Neil Bockian, Ph.D., Primary Care Psychology and Behavioral Medicine Emphasis Coordinator, at nbockian@adler.edu.

EMPHASIS IN SUBSTANCE ABUSE TREATMENT

Emphasis Overview

The Emphasis in Substance Abuse Treatment is designed to provide education and training in the prevention, assessment, intervention, and treatment of alcohol and other drug abuse (AODA) disorders. Specifically, the coursework provides education in the theories, techniques, and core functions of substance abuse treatment, focusing on evidence-based research and best practice standards.

Adler University is accredited as an Advanced Alcohol and Other Drug Abuse Counselor Training Program by the Illinois Certification Board (ICB). This certification process is based on the Illinois Model for Certification of Alcohol and Other Drug Abuse Counselors.

Students who have an interest in the emphasis should speak with the Emphasis Coordinator as early as possible to express their interest and discuss programmatic changes.

Admission Requirements

Enrollment in the clinical psychology Psy.D. program

Additionally, once students are admitted into the emphasis, they must maintain the following standards or they will be withdrawn from the emphasis:

1. Maintain an overall grade point average of at least 3.25
2. Obtain a grade of at least B in all required courses
3. Pass all milestones in the Psy.D. program (CQE, dissertation, etc.)
4. Have no SCEC referrals
5. Have no more than one SDC referral
6. Maintain a collaborative, team-focused attitude with no comportment issues that warrant a referral to the SCEC while engaged in any emphasis activities, practica, or classes

Course Requirements

The Emphasis in Substance Abuse Treatment requires the following courses:

* PSY-709	Diagnosis and Treatment of Addictive Disorders	3 cr.
* PSY-645	Ethics and Professional Development in Clinical Psychology	3 cr.
PSY-712	Bio-Psycho-Social-Spiritual Aspects of Addictions	3 cr.
PSY-713	Advanced Treatment of Addictive Disorders	3 cr.
PSY- 811	Advanced Issues in Co-occurring Disorders	3 cr.

Total Credit Hours Required: 15

*Core curriculum courses

If students also complete the advanced practicum in substance abuse counseling, they will be eligible to sit for the Illinois Certification Exam to become a Certified Alcohol and Drug Counselor (CADC).

Completion Requirements

1. Satisfactory completion of all required credit hours, including all required courses
2. A cumulative grade point average of 3.25 or higher and no more than one grade of C
3. Submission of completed Graduation Application and full payment of all outstanding tuition and fees
4. Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Emphasis in Substance Abuse Treatment

For further information, contact Cathy McNeilly, Psy.D., CADC, Associate Professor, Substance Abuse Treatment Emphasis Coordinator, at cmcneilly@adler.edu.

EMPHASIS IN TRAUMATIC STRESS PSYCHOLOGY

Program Overview

The Emphasis in Traumatic Stress Psychology is designed for students seeking specialized training to provide therapy and assessment services for individuals with symptoms of traumatic stress, including people who have experienced combat, disasters, accidents or life-threatening illness, or interpersonal violence. In the required courses, students will obtain the knowledge and skills to provide these individuals with research-supported clinical services and the support they need to improve their psychological, physical, social, and vocational functioning. An understanding of the broader structural and systemic factors that impact survivors' well-being is also emphasized.

The following courses are necessary for completion of the emphasis:

PSY-706	Trauma-Focused Approaches to Intervention	3 cr.
PSY-806	Advanced Trauma-Focused Approaches to Intervention	3 cr.

In addition, two electives must be chosen from the following menus:

Elective Menu – Special Populations*

(choose *one* of the following):

PSY-811	Advanced Issues in Co-occurring Disorders	3 cr.
PSY-822	Death, Dying, Bereavement, and Loss-Focused Approaches to Intervention	3 cr.

Elective Menu – Research-Supported Interventions**

(choose *one* of the following):

PSY-802	Cognitive and Behavioral Therapy Approaches II	3 cr.
PSY-803	Humanistic/Existential Approaches II	3 cr.

*Additional acceptable electives may from time to time be added to this Elective Menu; the Traumatic Stress Psychology Emphasis Coordinator will notify the Adler University community about such new included courses through Self-Service and will also inform the Office of the Registrar.

**If a student has taken a three-day formal training in cognitive and behavioral therapy at the Beck Institute, they may waive the requirement for a course from the Research-Supported Interventions menu above, and take two courses from the Special Populations menu instead, for a total of four emphasis courses. Proof of attendance must be submitted to the Traumatic Stress Psychology Emphasis Coordinator and the Office of the Registrar.

Note: It is expected that students will take the Traumatic Stress Psychology emphasis courses in the third or fourth year.

Minimum Acceptance Requirements

Admission to the emphasis after matriculating into the Psy.D. program requires the following:

1. Overall Adler grade point average of at least 3.25
2. Passing all Psy.D. program milestones up to the point of emphasis acceptance
3. An interview with the Emphasis Coordinator

The following requirements must also be met:

1. Students earning the Emphasis in Traumatic Stress Psychology must complete one of their doctoral practica at a site that offers significant experience in working with survivors of traumatic events.
2. Students earning the Emphasis in Traumatic Psychology must complete their dissertation on a topic relevant to traumatic stress or death, dying, bereavement, loss, or life-threatening illness.
3. If the Traumatic Stress Psychology Emphasis Coordinator is not a member of the student's dissertation committee, the student must submit the dissertation to the Coordinator for review before the dissertation defense takes place.

Students should communicate with the Traumatic Stress Psychology Emphasis Coordinator to verify that these requirements are being met.

For additional information contact Janna A. Henning, J.D., Psy.D., F.T.Professor, Traumatic Stress Psychology Emphasis Coordinator, at jhenning@adler.edu.

ADLER UNIVERSITY – ACADEMIC CALENDAR 2020-2021 CHICAGO CAMPUS (ON CAMPUS AND ONLINE CMHC PROGRAMS)

(subject to change; please ensure you have the most up to date calendar located on the Registrar page on Adler Connect)

Fall 2020: Monday, August 31, 2020 – Sunday, December 20, 2020			
Course Period	Fall 1 2020 8 Week All Campuses (08/31-10/25)	Fall 2020 15 & 16 Week Chicago	Fall 2 2020 8 Week All Campuses (10/26-12/20)
Course Period Begins	Monday, 8/31/2020	Monday, 8/31/2020	Monday, 10/26/2020
Drop Fee Begins: <i>In order to avoid being assessed the drop fee, courses must be dropped via Student Planner no later than 11:59 p.m. CST on the date prior to this date (the day before the course period begins). Mandatory fees are not refundable once the term has begun.</i>	Monday, 8/31/2020	Monday, 8/31/2020	Monday, 10/26/2020
Add/Drop Period – 100% Refund **ALL CLASSES** : <i>Registration changes must be completed via Student Planner no later than 11:59 p.m. CST on the final date indicated. Mandatory fees are not refundable once the term has begun.</i>	Monday, 8/31/2020 – Wednesday, 9/9/2020	Monday, 8/31/2020 – Wednesday, 9/9/2020	Monday, 8/31/2020 – Wednesday, 11/04/2020
Labor Day (Holiday)	Monday, September 7, 2020		
Add/Drop Period – FINAL DAY: <i>Last day to add and drop classes. Registration changes must be completed via Student Planner no later than 11:59 p.m. CST on the date indicated. After this date, students can only withdraw from a course. Please see the academic calendar for the deadline and criteria for "W" and "WF" grades. The late registration fee will be assessed to students who wish to add a class or exam after the date indicated.</i>	Wednesday, 9/9/2020	Wednesday, 9/9/2020	Wednesday, 11/04/2020
Deadline to Withdraw from a Course with a "W" Grade: How to withdraw from a course: <i>Email requests to withdraw from a course must be submitted to your Advisor or Program Director/Chair via your Adler email account no later than 11:59 p.m. CST on this date. If approved, your Advisor or Program Director/Chair will forward the email to the Office of the Registrar for processing. Students cannot withdraw from a course or exam with a W grade if the course has already ended or if the exam submission date has passed. Students who wish to withdraw from a course after this date will receive a WF grade (a WF grade factors into the GPA as an F). If you wish to withdraw from all of your courses, you must submit a Student Withdrawal form to withdraw completely from the University or a Leave of Absence form to take a leave from your program. Please see both forms for additional information and policies. The Student Withdrawal form and Leave of Absence form are located on the Registrar page on Adler Connect.</i>	Sunday, 9/27/2020	Sunday, 10/25/2020	Sunday, 11/22/2020
Advisement Begins – Spring 2021 Term: <i>Students should begin meeting with their Advisor to discuss their course selections for the Spring 2021 term.</i>	TBD *once a date is determined it will be announced via Adler email and Adler Connect*		
Indigenous Peoples' Day (Holiday)	Monday, 10/12/2020		
Commencement Ceremony: <i>Current students and recent alum please see the Student Affairs page on Adler Connect.</i>	TBD		
Course Period Ends	Sunday, 10/25/2020	Sunday, 12/13/2020 (15 week courses – most lecture courses) Sunday, 12/20/2020 (16 week courses)	Sunday, 12/20/2020
Spring 2021 Registration (on time): <i>The late registration fee will be assessed to students who have not registered for any Spring 2021 courses and are registering for the first time after 11:59 p.m. CST on Sunday, November 1, 2020.</i>	TBD *once a date is determined it will be announced via Adler email and Adler Connect*		
Spring 2021 Late Registration Begins: <i>The late registration fee will be assessed to students who have not registered for any Spring 2021 courses and are registering for the first time after 11:59 p.m. CST on Sunday, November 1, 2020.</i>	TBD		

Course Period	Fall 1 2020 8 Week All Campuses (08/31-10/25)	Fall 2020 15 & 16 Week Chicago	Fall 2 2020 8 Week All Campuses (10/26-12/20)
<p>Degree Completion & Graduation Application Due for Spring 2021 Degree Completers:</p> <p><i>Applications are due for students who will complete degree requirements during the Spring 2021 term. Applications submitted after this date will be charged the \$50.00 late fee.</i></p> <p><i>Please see the Graduation Application instructions on the Registrar page on Adler Connect for complete details.</i></p> <p><i>The application is mandatory regardless of whether you attend the commencement ceremony. Failure to submit the application may result in your being withdrawn from the program without your degree being conferred. Details regarding the ceremony are forthcoming from the Student Affairs Department. Please see their page on Adler Connect for details regarding the ceremony at (connect.adler.edu/student-services/student-affairs).</i></p> <p><i>Commencement participation guidelines are determined at the program level. Please see your Program Director or Advisor for details.</i></p>		Monday, 11/2/2020	
Thanksgiving (Holiday)		Thursday, 11/26/2020	
Day after Thanksgiving (Holiday)		Friday, 11/27/2020	
Course Period Ends	Sunday, 10/25/2020	Sunday, 12/13/2020 (15 week courses – most lecture courses) Sunday, 12/20/2020 (16 week courses)	Sunday, 12/20/2020
<p>Grades Due:</p> <p><i>Students who have questions regarding the status of a grade should connect directly with their instructor.</i></p>	Friday, 10/30/2020	Friday, 12/18/2020 (15 week courses) Tuesday, 12/29/2020 (16 week courses)	Tuesday, 12/29/2020
Christmas Eve (Holiday)		Thursday, 12/24/2020

 Summer 2 8 week courses: Monday, 6/27/2022 – Sunday, 8/21/2022

Online campus

ADMISSION POLICIES AND PROCEDURES – ONLINE CAMPUS

Application Process

Adler University takes pride in its diverse student body, representing a wide range of professional interests, ethnic and cultural backgrounds, and academic and work histories. The University admits individuals with a record of outstanding academic achievement and a commitment to social responsibility. Ideal candidates for admission are those who will make a difference in their communities and in the lives of the individuals and families they serve upon graduation.

All applicants should fulfill the minimum admission requirements for the program they choose and must demonstrate acceptable proficiency in spoken and written English.

Applicants must submit the following:

- Application for admission
- Statement of intent
- Resume
- Official transcripts from all colleges or universities attended*

*Unofficial transcripts can be used for application review. Official valid transcripts must be received prior to the end of the first course. Provisional admission may be granted until receipt of official transcripts. Transcripts from non-degree granting institutions may be eligible to be waived.

International Applicants

All transcripts from outside of Canada or the United States must be evaluated on a course-by-course basis by a NACES-approved transcript evaluation service. Please contact the Office of Admissions for specific transcript evaluation requirements.

ENGLISH LANGUAGE PROFICIENCY ASSESSMENT

Applicants whose first language is not English must submit scores from the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS). Students who have earned a bachelor's or master's degree in an accredited program in Canada or the United States may not be required to take the TOEFL. Applicants should request that language proficiency test scores be sent directly to the University by the testing service. These test results are valid for two years.

TOEFL (ETS.ORG/TOEFL)

Adler University Online Campus's code number for receiving test scores is B134. Applicants who take the paper-based TOEFL must receive a minimum score of 580. Applicants who take the computer-based TOEFL must receive a minimum score of 240. Applicants who take the Internet-based TOEFL must receive a minimum of score of 92, with a score of at least 22 on each of the four sections.

IELTS (IELTS.ORG)

Applicants who take the IELTS must receive a minimum Academic score of seven overall, with no band score lower than seven.

Admission

Adler University Online Campus employs a rolling admission process for all start dates and programs. We accept applications at all times throughout the year. Applicants will be notified of admission to an Adler University program by the Office of Admissions.

Admitted applicants who do not matriculate at their intended start date may be able to defer their admission to the next start date. A deferment request must be submitted no later than the first day of the term to be eligible for review. Admitted applicants can only defer once for one term only. Applicants who defer admission but do not matriculate, must reapply for admission as outlined in the Application Process (Online Campus section) of the current catalog. Contact the Office of Admissions with questions about the deferral process.

The Office of Admissions does not maintain student files for applicants who do not enroll by their intended start date.

Students-at-Large / Non-Degree Seeking

Students who wish to take classes for personal pursuit not related to a degree program at Adler University, or qualified graduate students and mental health professionals, may be admitted as students-at-large/non-degree seeking (SAL/NDS). Qualified professionals may take courses as SAL/NDS students for continuing education credit or for professional enrichment, as long as they meet the minimum eligibility for admission. Graduate students enrolled at other accredited institutions bear the responsibility of verifying with their home institutions whether Adler courses will be transferred back and accepted for credit.

Applicants for SAL/NDS status must submit a completed application, a statement of intent, a resume or curriculum vitae, and official transcripts from all degree-granting institutions. Applications will be reviewed by the Admissions Department, and prospective students will not be allowed to register until they have been approved for admission as SAL/NDS students.

If admitted as SAL/NDS, a student may complete a maximum of nine credits within one academic year and must comply with all prerequisites and course requirements as given in the Adler University Catalog. SAL/NDS students will have to obtain approval for each course before they are able to register. Graduates of Adler University degree programs who are approved as SAL/NDS may take up to 18 credits within one academic year. SAL/NDS students are not eligible for financial aid and may not enroll in courses that are reserved for students fully admitted to particular degree programs. Appropriate courses taken for credit may apply toward completing a degree for SAL/NDS students who are admitted to a degree program within one year of completing SAL/NDS courses. Successful completion of coursework, however, does not guarantee admission to a degree or certificate program. A student-at-large whose application to a degree or certificate program has been denied may not enroll in further courses or continue as a student-at-large.

Because students-at-large are limited to a total of nine credit hours of coursework within one academic year, persons who plan to pursue a degree or certificate program should apply for admission at the earliest opportunity. Students-at-large who have completed nine credit hours of courses may not register for additional courses until such time as they have been formally admitted to a degree or certificate program. Those who seek admission to a degree or certificate program within one year of completing their last course as SAL/NDS will be required to submit a new application for the program for which they are applying and any additional necessary documentation.

Changing or Adding Programs

Master's students may apply to change from one Adler University Online Campus master's degree program to another by submitting the appropriate application forms. Students must satisfy admission requirements in effect at the time of application to the new program. Acceptance into and/or successful completion of one degree program does not guarantee admission to another program.

TUITION AND FEES

2020-2021 Tuition and Fees Schedule

ONLINE CAMPUS: TUITION (PER CREDIT HOUR)

Online Non-clinical M.A. Programs	\$854
Online Ph.D. Programs	\$854
Audit Online Non-clinical M.A. Programs	\$426
Audit Online Ph.D. Programs	\$426

ONLINE CAMPUS: UNIVERSAL FEE (PER TERM)

All Online Programs	\$500
---------------------	-------

Miscellaneous Fees

Late Payment (% of past-due balance)	2%
Official Transcript	\$10, plus applicable fees
Returned Check (per occurrence)	\$70
Stop Payment	\$35
Deferment Fee	\$100

Degree Completion Fees

Late Degree Completion and Graduation Application	\$50
Replacement Diploma	\$60

Payment Information: Methods of Payment

By Web: Finance Self-Service is the fastest and easiest way to pay tuition and fees at Adler University. MasterCard, Discover, American Express, Visa, and e-check payment methods are available through Finance Self-Service. Payments made through Finance Self-Service will be assessed a convenience fee of 2.5% of the payment amount for credit card payments, and \$3.00 for e-check payments.

By Mail: Payment may also be remitted by paper check or money order on campus at the Office of Student Accounts. Checks are to be made payable to Adler University. Unless otherwise indicated, tuition and fees are listed in U.S. dollars, and remittance must be made in U.S. dollars.

Mailed payments must be received by the Office of Student Accounts by the scheduled due date. Please allow adequate time for mailing; payments postmarked on or before the due date will have any and all late payment fees waived, if applicable.

Payment may also be remitted by paper check or money order on campus at the Office of Student Accounts. Checks are to be made payable to Adler University. Unless otherwise indicated, tuition and fees are listed in U.S. dollars, and remittance must be made in U.S. dollars.

Mailed payments must be received by the Office of Student Accounts by the scheduled due date. Please allow adequate time for mailing; payments postmarked on or before the due date will have any and all late payment fees waived, if applicable.

Payments made by check or money order should be mailed to:

Adler University
ATTN: STUDENT ACCOUNTS
17 North Dearborn St.
Chicago, IL 60602

Tuition and fees are due and payable in full two weeks prior to the start of each course period. Payments made to the University are first applied against any previously existing balance, then to current charges.

Students are responsible for all tuition and fees at the time due regardless of pending employer or third-party reimbursement, unless other financial arrangements have been made. Students receiving financial aid funds are responsible for submitting payment for all tuition and fees that will not be covered by the amount of aid anticipated.

Payment plans (monthly installments) are available. Interested students can contact the Office of Student Accounts via email for more information. Inquiries should be initiated prior to the published tuition due date.

Students who have not paid their account balance by the due date, and for whom there is no indication of pending financial aid, will be placed on financial hold. Students on financial hold will be unable to register for subsequent course periods, obtain transcripts, or graduate until all outstanding balances are paid in full. The University retains the right to administratively withdraw students whose accounts are past due and to charge all associated fees. It is the policy of Adler University to submit delinquent accounts to external collection agencies.

Tuition Refund Policy

Students who have officially withdrawn from the University, have withdrawn from specific courses, or have been administratively withdrawn may be entitled to a tuition refund to be paid within 14 business days of the processing of the withdrawal or drop. Refunds will be based on the total charge incurred rather than the amount paid by the student. Mandatory fees are not refundable once the course period has begun.

Tuition charges will be refunded based on the following schedule:

End of 10th calendar day of each course period (11:59 p.m. CST):
100% After 10th calendar day of each course period: 0%

Students who formally withdraw from Adler University will be refunded in accordance with the University's refund policy based on the official withdrawal date processed by the Office of the Registrar.

In addition, those students who participate in financial aid programs are subject to the return of Title IV funds as mandated by the federal government. Please see the Financial Aid section of the catalog for more information.

All, or a portion of any refunds due, may be paid to sponsors furnishing grants, loans, scholarships, or other financial aid to students, in conformity with federal and state laws, regulations, and rules and requirements of financial aid sponsors. After any disbursements to financial aid sponsors have been made, the student shall receive the balance, if any, of the amount due under the University's refund policy.

ACADEMIC POLICIES AND PROCEDURES – ONLINE CAMPUS

Course Drop and Withdrawal

Students wishing to drop a course must do so before or during the published add/drop deadline. Please consult the academic calendar for specific dates. The official date of the drop is the date the Office of the Registrar receives written notification from the Department of Student Experience and Academic Advising of the student's last participation in a required course activity, with a request to drop the course.

Students who withdraw from a course(s) after the add/drop deadline, but before the Withdrawal W deadline, will receive a W grade for the course. Students who withdraw from a course after the Withdrawal W deadline will receive a WF or WNC for the course. Please consult the academic calendar for specific dates.

Failure to provide official notification of withdrawal may result in administrative withdrawal.

Attendance Policy

Students enrolled in online programs for which campus attendance is not required must fulfill the following attendance requirements:

- Students must log on to the course within the first seven days of class (the first seven days commencing with the start date of the course) and participate at least one time.
- Every week thereafter (academic week consists of 12:00 a.m. Monday through 11:59 p.m. Sunday), students must participate twice.
- Participation Options:
 - Student submission of an academic assignment
 - Student submission of an exam
 - Student posting in a discussion forum

If a student does not participate in the first seven days of a class, or a student's online activity indicates no participation for 14 days from the previous date of participation, then they may be administratively withdrawn from the course or university.

Transfer Credit

Students accepted for admission may be granted transfer credit for degree-level courses previously taken at another accredited institution. Upon enrollment into a degree program, students may request a review of their academic history, and a determination about granting transfer credit will be made at the discretion of the University. Requesting transfer credit involves a review of previous academic work, including official transcripts with the grades earned. Course syllabi may also be requested, when applicable.

It is Adler University's policy that a request for transfer credit for all courses within a student's program must be received with all supporting documentation no later than the first day of the first course of the student's degree program.

Transfer credit requests are reviewed on a case-by-case basis. Courses completed with a B or better grade, and completed within 10 years of the date of the student's program matriculation, will be considered for transfer credit. In some cases, credit earned more than 10 years prior to the start of a student's program may be considered for transfer. Students must request consideration in writing, including a justification for their request. Students may transfer up to 12 credits toward any Online Campus master's degree program. Students may transfer up to 38 credits toward the Doctor of Philosophy in Industrial and Organizational Psychology degree program. Students may transfer in up to 41 credits toward the Doctor of Philosophy in Organizational Leadership.

Leave of Absence

Students may take a leave of absence (LOA) by completing a Leave of Absence form, including necessary signatures, and submitting it to the Department of Student Experience and Academic Advising.

Master's degree students may take an LOA for no more than two consecutive full-course periods, with a total not to exceed four full-course periods. Doctoral degree students may take an LOA for no more than two consecutive full-course periods, with a total not to exceed six full-course periods.

The LOA will be noted on the student's transcript for each course period. Time approved for an LOA does not change or lengthen the maximum time allowed for degree completion.

LOA refers to the specific time period during a program when a student is not in active attendance. Students on an LOA are considered to have withdrawn for financial aid purposes, and their student loans will come due after any applicable grace period.

Students who do not return from an LOA by the agreed-upon term may be administratively withdrawn from the University.

Administrative Withdrawal

A student may be administratively withdrawn for the following reasons:

- A student does not maintain continuous enrollment by being registered or on an approved leave of absence prior to the add/drop deadline;
- A student does not meet attendance standards; or
- A student does not return from a leave of absence by the agreed upon add/drop deadline.

Administrative Withdrawal" will be noted on the student's transcript.

Students who wish to appeal the decision of administrative withdrawal can follow the procedures of the Student Grievance and Appeal Procedure listed in the Student Handbook. In the event a student is administratively withdrawn from the University, the Office of Financial Aid is required by federal law to recalculate a student's eligibility for financial aid awards.

Readmission

Students who were previously enrolled at Adler University and seek readmission within one calendar year of their withdrawal or dismissal must submit a written petition to re-enter to the Executive Dean of the Online Campus, ocdean@adler.edu. The petition should include an explanation of the circumstances for which they were withdrawn or dismissed and how they plan to be successful upon re-entry. If the petition is approved, students will be directed to the admissions team, admissions@adler.edu, for instructions on how to apply. Readmission applicants are subject to current admissions requirements. If the petition is denied, the student will need to wait until one calendar year has passed from the time of withdrawal or dismissal to submit a new application for admission.

Students who were previously enrolled at Adler University and seek readmission after more than one calendar year of their withdrawal or dismissal are required to submit a new application for admission and will be evaluated according to current admission requirements. As part of their application, students will need to submit a written statement that includes an explanation of the circumstances for which they were withdrawn or dismissed and how they plan to be successful upon re-entry.

If readmitted, applicants/students are subject to the program requirements in effect at the time of the new application. Students must also satisfy all outstanding student account balances. A formal audit of previously completed coursework will be undertaken only after acceptance into a degree program.

For students seeking readmission after military service, please see the Active Duty Military section provided earlier in the catalog.

Withdrawal in Good Standing

Students may withdraw from Adler University in good standing by completing the Student Withdrawal form and submitting it to the Department of Student Experience and Academic Advising. To withdraw in good standing, students must be in academic good standing at the time of withdrawal, have completed all requirements for courses for which they are registered, and may not be subject to pending disciplinary or academic inquiry. "Withdrawal" is noted on the transcript.

Former students who wish to return to the University after withdrawing in good standing must submit a new application for admission and, if admitted, must follow the policies, procedures, and program requirements in effect at the time of the new admission.

Grading System

Traditional letter grades are given for most courses offered. A limited number of courses are evaluated on a credit/no credit basis. The grading system is as follows:

ONLINE CAMPUS

Grade	Description	Grade Point
A+	Excellent	4.25
A		4.0
A-		3.75
B+	Satisfactory	3.5
B		3.0
B-		2.75
C	At Risk	2.0
D	Unsatisfactory	1.0
F	Failure	0.0
CR	Credit	0.0
NC	No Credit	0.0
I	Incomplete	N/A
IP	In Progress	N/A
TR	Transfer	N/A
AU	Audit	N/A
W	Withdraw	N/A
WF	Withdraw Fail	0.0

Grade Scale

99 – 100%	A+
94 – 98%	A
90 – 94%	A-
85 – 89%	B+
80 – 84%	B
77 – 79%	B-
70 – 76%	C
60 – 69%	D
Below 59%	F

Repeat Coursework

A maximum of nine credit hours may be repeated for master's-level students and 12 credit hours, including requisite coursework, may be repeated for doctoral-level students. Each course may only be repeated once. The highest grade earned for a course will be used in the overall grade point average, and all prior grades will appear on the transcript. Students admitted on a conditional basis are not eligible to repeat coursework until they achieve a full admission status.

Grades of In Progress

A temporary grade of IP (in progress) can be given to students who are engaged in applied field experiences (e.g., practicum, internship) or who are pending completion of a comprehensive exam. The IP will be removed from the transcript when the final grade has been posted. The maximum time frame to complete course requirements for an IP grade is the final date of the subsequent term.

Grades of Incomplete

An I (incomplete) grade will be granted only in exceptional situations when requirements for a course cannot be completed in the time allowed. An incomplete grade is allowed only with the written consent of the instructor and indicates that the student has presented a satisfactory reason for receiving an incomplete grade. Students must request an incomplete grade within 48 hours of the end of the course.

For an incomplete grade to be considered, students must petition their instructor in writing, via their Adler email account, for an incomplete no later than 48 hours prior to the end of the course, or the student will receive the earned grade. The faculty member must submit the incomplete grade agreement to the student and Program Director within 24 hours of the end of the course.

The incomplete grade agreement must state specifically what the student must do to satisfy the course requirements, including the instructor's grading criteria and the agreed upon completion date. Students must complete and submit outstanding coursework by the agreed-upon deadline in order for a corresponding Grade Change form to be processed. The faculty member must submit the Grade Change form to the Office of the Registrar via their Adler email account by the end of the add/drop period of the next eight-week course period. If the form is not submitted by the deadline, the grade will be converted to an F.

Grade Appeals

A student may appeal a final course grade for the following reasons:

- Breach of written policy or procedure
- Bias
- Clerical or administrative error

Grade Appeal Process

First Level: A student who wishes to appeal a grade for any of the criteria above must first appeal to the instructor. To do so, the student must email the instructor of record via their Adler email account, stating that they wish to appeal and explaining the reason(s) for questioning the final grade.

The deadline for a student to take the complaint to the faculty member and the Department of Student Experience and Academic Advising is the fifth calendar day of the next course period.

A decision by the course instructor will be communicated to the student within 10 days of the date the appeal was received.

Second Level: A student may appeal the instructor-level appeal decision by submitting a written request to the corresponding Program Director. The Program Director will review the appeal and respond to the student within 10 days. This decision is final. If the course instructor and Program Director are the same person, a student may appeal the instructor-level appeal by submitting a request to the Department Chair.

Registration

Students are administratively registered for all courses. Typically, students take one 3-credit course in every course period, alongside required 0.5 or 1-credit courses. Students may request to take more than one 3-credit course per term by submitting a written request with rationale to their Program Director. Upon approval, the Department of Student Experience and Academic Advising will adjust the student's degree completion plan.

Statement of Student Responsibilities

Adler University expects that students will:

1. Adhere to all applicable University policies and procedures
2. Uphold all rules applicable to conduct in on- and off-campus settings, including but not limited to field, internship, in-service activities, or other activities
3. Abide by all local, state/provincial, and national laws
4. Maintain academic honesty and integrity
5. Comply with all ethical and professional standards applicable to their program of study
6. Contribute actively to the process of learning, including complying with attendance and participation requirements, completing assignments, and preparing for class
7. Conduct themselves in an ethical, professional, and civil manner
8. Demonstrate respect for others
9. Regularly monitor and manage payment for tuition, fees, and other miscellaneous charges such that they maintain current payment of their student accounts

Satisfactory Academic Progress/ Minimum Cumulative GPA Standards

In order for students to maintain satisfactory academic progress, they must maintain a minimum cumulative grade point average (GPA) of 3.0 on a 4.0 scale. Students who fall below a 3.0 cumulative GPA may be dismissed. Master's students need to complete their degree requirements for graduation within five years of the date of first registration following admission to the program. Doctoral students need to complete their degree requirements for graduation within seven years of the date of first registration following admission to the program.

Academic Status

ACADEMIC GOOD STANDING

To remain in academic good standing, a student must:

- Maintain consistent enrollment
- Take a course load that ensures steady movement toward degree completion within the maximum limits outlined in the catalog
- Meet all Student Responsibilities and applicable program requirements
- Maintain a minimum cumulative grade point average of 3.0 on a 4.0 scale
- Complete each course with no less than a C grade for letter-grade master's-level courses, a B- for letter-grade doctoral-level courses, or a CR grade for credit/no-credit courses in master's-level and doctoral-level courses

ACADEMIC PROBATION

Students may be placed on academic probation the first time they meet either of the following conditions:

- Fall below a 3.0 cumulative grade point average
- Receive a grade below C in a required letter-grade master's-level course, a grade below a B- in a required letter-grade doctoral-level course, or a grade of NC for a credit/no-credit course; see Repeat Course Policy for information on repeating courses

Students on Academic Probation must meet all aspects of Academic Good Standing within three consecutive course periods or they may be dismissed.

DISMISSAL

Students may be subject to dismissal when they fail to meet the Statement of Student Responsibilities outlined in the catalog or any other policies applicable to students as identified in the Student Handbook. Students may be subject to dismissal if they meet the following conditions:

- Student is on probation and does not return to Academic Good Standing within the maximum probationary period.
- Student fails to comply with an academic remediation plan.
- Master's-level student earns two or more grades of D, F, or NC.
- Doctoral-level student earns two or more grades of C, D, F, or NC.
- Students fails to maintain minimum cumulative standards.
- Student admitted on a conditional basis earns one grade of D, F, or NC, or falls below a 3.0 cumulative grade point average in their first two courses.
- Student admitted on a provisional basis fails to submit all remaining collateral, as defined in their acceptance letter, prior to the end of student's first course.

Students who meet any of the Online Campus's dismissal criteria or have been referred for a potential violation of the Statement of Student Responsibilities will be referred to the Online Campus Student Comprehensive Evaluation Committee (SCEC). SCEC will evaluate the referral and determine a final outcome, which may include a plan for remediation or sanctions up to and including dismissal. Students admitted on a conditional or provisional basis will not be referred to SCEC.

The University reserves the right to dismiss students whose accounts are past due and to charge all associated fees. The transcript of a student who has been dismissed will carry a notation of "Dismissal."

Students who wish to appeal the decision of dismissal can follow the procedures of the Student Grievance and Appeal Procedure listed in the Student Handbook.

MASTER'S LEVEL PROGRAMS OF STUDY – ONLINE CAMPUS

- Master of Arts (M.A.) in Psychology with concentrations in:
 - Child and Adolescent Development
 - Crisis Management
 - Gender and Sexuality Studies
 - Health and Wellness
- Master of Arts (M.A.) in Industrial and Organizational Psychology with concentrations in:
 - Data Science
 - Training and Development
 - Human Resources Management
- Master of Arts (M.A.) in Psychology: Specialization in Military Psychology with a concentration in:
 - Terrorism
- Master of Public Administration (MPA) with concentrations in:
 - Crisis Management
 - Military and Veteran Services
 - Sustainable Communities
- Master of Arts (M.A.) in Organizational Leadership

Master's Level Minimum Admissions Requirements

MINIMUM ADMISSION REQUIREMENTS

Applicants are required to have:

- A baccalaureate degree by the date of matriculation, earned from an accredited college or university, or an equivalent degree from an international college or university.
- A grade point average of 3.0 or better (on a 4.0 scale) in their baccalaureate degree.
 - Applicants with a GPA between 2.5 and 2.99 will be considered for conditional admission by submitting two letters of recommendation from a current professor, supervisor, and/or someone who can attest to the applicant's ability to be successful in a graduate program. Exceptions may be made for applicants with a conferred graduate degree.
 - Applicants with a grade point average below a 2.5 will be considered on a case-by- case basis.
- Two letters of recommendation**

FULL ADMISSION STATUS

Applicants admitted with full admission status have no conditions or outstanding collateral tied to their student status.

CONDITIONAL ADMISSION STATUS

Applicants admitted on a conditional basis must achieve a 3.0 cumulative grade point average in their first two courses in order to achieve full admission status and continue in the program. Applicants not meeting this standard may be dismissed from the university. Applicants admitted on a conditional basis are not eligible to repeat coursework until they achieve a full admission status.

PROVISIONAL ADMISSION STATUS

Applicants admitted on a provisional basis must submit all outstanding collateral, as defined in their acceptance letter, prior to the end of their first course to achieve full admission status and continue in the program. Applicants not meeting this standard may be dismissed from the university.

**Letters of recommendation may be waived based on cumulative grade point average from your degree-granting institution. Letters of recommendation should be submitted by professional references on letterhead.

MASTER OF ARTS IN PSYCHOLOGY

Program Overview

The Master of Arts in Psychology is a nonclinical degree program designed to prepare socially responsible professionals and leaders to devise practical solutions to complex problems within a multitude of public and private sector employment settings. The program incorporates Adler's social justice mission, emphasizing inclusiveness and culturally competent practices that prepare passionate agents of change to meet the ever-evolving needs of dynamic workplace settings and thriving diverse communities. Students will master core competencies in socially responsible practice, applied research, business and community applications, and varied skills for leadership, program management, and global communication.

Experienced faculty members will guide students through a rigorous curriculum that focuses on building academic knowledge and developing professional skills. Students will apply real-world problem solving and develop solutions that apply the principles of applied psychology and demonstrate a commitment to social justice within a wide variety of environments. Students will also complete a thesis or capstone project that will reflect the culmination of their learning and training experiences within the program, and will serve to advance their preparation to contribute to the field.

Graduates of this program will use the knowledge they have gained to implement effective solutions, resolve practical problems, improve the experience of individuals and groups, and participate in their field of interest within a diverse global community. Program graduates will be poised to practice and lead within diverse fields and occupations such as business and industry, government and non-governmental organizations, nonprofit systems, public and behavioral healthcare systems, human resource management, sports psychology, addictions, family and domestic violence, veterans affairs, public safety and emergency management systems, and non-clinical youth and older adult services.

Program Objectives

Upon completion of this degree program, graduates will be able to:

1. Analyze principles and theories that impact individuals, systems, and groups within diverse global communities
2. Evaluate ethical standards in a variety of environments and social systems as they relate to practical problem solving within the practice of applied psychology
3. Devise evidence-based qualitative and quantitative research strategies that are responsive to diverse system needs within the field of applied psychology
4. Advance cultural competence by evaluating dynamic problems of human experience and proposing socially responsible solutions
5. Provide critical analysis of local and global systems within the professional practice of applied psychology

Degree Requirements

Core Courses (22 credits)

PSYC-500	History and Systems for Applied Psychology	3 cr.
PSYC-501	Ethics and Socially Responsible Practice for Applied Psychology	3 cr.
INDS-502	Statistics	3 cr.
INDS-503	Research Methods	3 cr.
PSYC-505	Diversity & Individual Differences	3 cr.
PSYC-506	Adlerian Psychology: Community Applications	3 cr.
PSYC-509	Cognitive, Affective, and Biological Bases of Behavior	3 cr.
INDS-531	Adlerian Theory in Socially Responsible Practice	1 cr.

Social Justice Practicum (2 credits)

SJP-515	Social Justice Practicum I	0.5 cr.
SJP-516	Social Justice Practicum II	0.5 cr.
SJP-517	Social Justice Practicum III	0.5 cr.
SJP-518	Social Justice Practicum IV	0.5 cr.

Elective Courses (9 credits)

GSS-520	Theories of Gender and Sexuality	3 cr.
GSS-521	Social and Cultural Evolution of Gender and Sexuality	3 cr.
GSS-522	Social Justice, Gender, Sexuality, and the Law	3 cr.
EML-502	Supporting Functional Needs Populations in Disasters	3 cr.
EML-505	Leading in Times of Crisis	3 cr.
PSYC-504	Life Span Development	3 cr.
PSYC-513	Multicultural Youth Development	3 cr.
CRIM-501	Juvenile Justice	3 cr.
HWP-514	Positive Psychology for Health and Wellness	3 cr.
HWP-515	Mindfulness-Based Approaches to Health & Wellness	3 cr.
HWP-516	Biological Bases for Health and Wellness	3 cr.
MAMP-500	Survey of Military Psychology	3 cr.
MAMP-501	Operational Psychology for the Military	3 cr.
MAMP-502	Mental Health Law and the Uniform Code of Military Justice	3 cr.
MAMP-503	The Psychology of Conflict and Operations Other Than War	3 cr.
MAMP-504	Ethics, Morality, and Social Justice in the Military	3 cr.
MAMP-505	War, Trauma, Grief, Death, and Loss	3 cr.
MAMP-506	Psychological Resilience and Positive Psychology	3 cr.
MAMP-508	Culture and Diversity in the Military	3 cr.
MIO-502	Organizational Theory	3 cr.
MIO-504	Organizational Development and Change	3 cr.
MIO-509	Group Dynamics	3 cr.
MIO-512	Talent Selection and Recruitment	3 cr.
MIO-517	Talent Management	3 cr.
MAMP-513	Continuum of Care for the Military, Veterans, and Their Families	3 cr.
MIO-524	Training Theory	3 cr.
MIO-520	Workplace Measurement and Performance Management	3 cr.
MIO-523	Consulting and Coaching	3 cr.
MIO-521	Employee Development	3 cr.
MIO-525	E-Learning	3 cr.
MIO-522	Data Science	3 cr.
MIO-526	Data Analytics for Programming	3 cr.

Thesis or Capstone Courses (3 credits)

PSYC-511	MA Capstone	3 cr.
<i>or</i>		
PSYC-512	MA Thesis	1-3 cr.
(may be repeated multiple times for credit; 3 credit hours of thesis are required)		

Total Credit Hours Required: 36

MASTER OF ARTS IN PSYCHOLOGY CONCENTRATIONS

Concentration in Child and Adolescent Development

This concentration will focus on youth development and how to optimize networks and resources, particularly within traditionally underserved populations. Students will be exposed to models of psychosocial development from key theoretical perspectives and apply these models to diverse social contexts. Students will gain an understanding of unique challenges presented throughout the life span and the impact of social, emotional, and educational support. This concentration will focus on the importance of fostering social interest and community connections among children and adolescents.

CONCENTRATION OBJECTIVES

1. Analyze the effective implementation of advocacy initiatives for healthy youth development
2. Apply theoretical models to evaluate successful developmental milestone acquisition

CONCENTRATION COURSE REQUIREMENTS*

Students completing the Concentration in Child and Adolescent Development must complete the following three courses for their elective coursework requirements.

PSYC-504	Life Span Development	3 cr.
PSYC-513	Multicultural Youth Development	3 cr.
CRIM-501	Juvenile Justice	3 cr.

*Thesis/Capstone topic must be consistent with concentration.

Concentration in Crisis Management

The goal of the Crisis Management Concentration is to educate students on how to respond to, and manage the impact of, natural, accidental, or premeditated disasters and a disaster's effect on communities. Further, there is a special focus on those communities that are at risk and/or marginalized during times of crisis. Students will prepare to serve as effective first responders and recovery specialists who can advocate for healthy and resilient communities in the immediate aftermath of an acute or chronic crisis. Attention is given to the critical period following a crisis where underlying vulnerabilities for psychological distress and other poor health outcomes may be exacerbated. Coursework prepares students to identify and foster psychological resiliency and promote healthy and resilient communities. Students will develop leadership skills that promote positive growth and development using natural strengths and resources inherently present in communities by way of engaging community leaders and traditionally marginalized and at-risk members of the community using primary, secondary, and tertiary prevention approaches.

CONCENTRATION OBJECTIVES

1. Apply skills to increase awareness of community crisis management and recovery
2. Evaluate the effectiveness of current practices in governmental and non-governmental organizations and their responses to communities in crisis

CONCENTRATION COURSE REQUIREMENTS*

Students completing the Concentration in Crisis Management must complete the following three courses for their elective coursework requirements.

MAMP-503	The Psychology of Conflict and Operations Other Than War	3 cr.
EML-502	Supporting Functional Needs Populations in Disasters	3 cr.
EML-505	Leading in Times of Crisis	3 cr.

*Thesis/Capstone topic must be consistent with concentration.

Concentration in Gender and Sexuality Studies

The Concentration in Gender and Sexuality Studies highlights the significant influence and impact of gender and sexuality within culture and society. This concentration explores how systemic and structural power and inequality impact individuals and groups based on gender and sexuality. This concentration will look closely at issues specific to gender and sexual minorities. Further, it will consider theories of gender, sexuality, and intersectionality. In addition, students will study the influence of media, law, and policy on gender and sexuality and the evolution of these intertwined elements.

CONCENTRATION OBJECTIVES

1. Analyze experiences, perspectives, and events through the lens of gender and sexuality theories
2. Articulate the impact of cultural and societal influences on gender and sexual minorities

CONCENTRATION COURSE REQUIREMENTS*

Students completing the Concentration in Gender and Sexuality Studies must complete the following three (3) courses for their Elective Coursework requirements:

GSS-520	Theories of Gender and Sexuality	3 cr.
GSS-521	Social and Cultural Evolution of Gender and Sexuality	3 cr.
GSS-522	Social Justice, Gender, Sexuality, and the Law	3 cr.

*Thesis/Capstone topic must be consistent with concentration.

Concentration in Health and Wellness

Students will learn how to maximize the potential resources within diverse individuals and complex social groups. A focus will be placed on analyzing social systems and structures necessary to strengthen community well-being and enhance individual integrity. Further, health promotion and health communities will be situated within the biopsychosocial model of human growth and development to explore the extent to which contextual factors may influence healthy and sustainable lifestyle change. Illness management and recovery will be conceptualized from an evidence-based perspective while specifically attending to positive psychology theory and effective practice.

CONCENTRATION OBJECTIVES

1. Advocate for health promotion and increased awareness of the impact of social and cultural values on individual health and wellness
2. Evaluate responses to challenges associated with interpersonal and group dynamics as they relate to healthy communities and the field of health psychology

CONCENTRATION COURSE REQUIREMENTS*

Students completing the Emphasis in Health and Wellness must complete the following three courses for their elective coursework requirements.

HWP-514	Positive Psychology for Health and Wellness	3 cr.
HWP-515	Mindfulness-Based Approaches to Health & Wellness	3 cr.
HWP-516	Biological Bases for Health and Wellness	3 cr.

*Thesis/Capstone topic must be consistent with concentration.

Graduation Requirements

1. Satisfactory completion of all required credit hours, including all required courses
2. Satisfactory completion of Social Justice Practicum I, II, III, & IV
3. Successful completion of Capstone or Thesis
4. A cumulative grade point average of 3.0 or higher
5. Submission of completed Graduation Application and full payment of all outstanding tuition and fees
6. Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Master of Arts in Psychology

Social Justice Practicum

The Social Justice Practicum (SJP) is a nonclinical and non-discipline specific experiential practicum. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members.

All students must complete the SJP before advancing on to any clinical or discipline specific training, respective of the program in which they are enrolled. SJP requirements include: 1) completion of a minimum of 200 hours at an approved SJP site; 2) completion of online modules; and 3) a formal SJP presentation at the Social Justice Symposium; and 4) students must receive a grade of "Pass" for the mid-term and final evaluation to receive credit for completing the SJP. The SJP may not be waived, and life credit is not admissible to meet this requirement.

MASTER OF ARTS IN INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY

Program Overview

Our comprehensive Master of Arts in Industrial and Organizational Psychology program trains students in the critical areas of measurement, selection, learning and development, talent management, and performance management. We prepare industrial and organizational professionals with insight, innovation, and skills to address today's complex organizational issues of workplace diversity and inclusiveness, employee performance, change management, organizational culture, team building, and more.

Adler University applies a unique emphasis on social justice, socially responsible practice, and inclusion. We do so through intensive online coursework that culminates with a Capstone or Thesis project. Our students and faculty embrace a broad range of perspectives and theoretical approaches. They explore techniques to build and maintain bridges across social, economic, cultural, and racial differences through applied case studies. Our program is designed to give students the skills to identify and address shared problems, and fosters the development of social responsibility, corporate citizenship, social justice, and respect through evidence-based action. This program does not lead to professional licensure or certification.

Program Objectives

Upon completion of this degree program, graduates will be able to:

1. Recognize underlying business challenges and key stakeholders involved
2. Integrate social justice to recognize and acknowledge individual differences and how they influence organizations
3. Identify and assess organizational efforts toward social responsibility and corporate citizenship
4. Use data and evidence-based practices to inform ethical decision-making
5. Develop legally defensible talent management systems
6. Apply I/O and psychological theories to deliver solutions that promote organizational effectiveness
7. Deepen self-awareness and personal growth for lifelong learning as an I/O practitioner

Degree Requirements

Core Courses (25 Credits)

MIO-502	Organizational Theory	3 cr.
INDS-502	Statistics	3 cr.
INDS-503	Research Methods	3 cr.
MIO-504	Organizational Development and Change	3 cr.
MIO-509	Group Dynamics	3 cr.
MIO-512	Talent Selection and Recruitment	3 cr.
MIO-517	Talent Management	3 cr.
MIO-524	Training Theory	3 cr.
INDS-531	Adlerian Theory in Socially Responsible Practice	1 cr.

Social Justice Practicum (2 Credits)

SJP-515	Social Justice Practicum I	0.5 cr.
SJP-516	Social Justice Practicum II	0.5 cr.
SJP-517	Social Justice Practicum III	0.5 cr.
SJP-518	Social Justice Practicum IV	0.5 cr.

Elective Courses (6 Credits; Note: Students electing to complete the Human Resources Management Concentration will take three (3) elective courses: MIO-520; MIO-527 and MIO-528)

MIO-520	Workplace Measurement and Performance Management	3 cr.
MIO-523	Coaching and Consulting	3 cr.
MIO-521	Employee Development	3 cr.
MIO-525	E-Learning	3 cr.
MIO-522	Data Science	3 cr.
MIO-526	Data Analytics for Programming	3 cr.
MIO-527	Overview of Human Resources Management	3 cr.
MIO-528	Risk and Change Management	3 cr.

Thesis or Capstone Courses (3 credits)

PSYC-511	MA Capstone	3 cr.
<i>or</i>		
PSYC-512	MA Thesis	1-3 cr.
(may be repeated multiple times for credit; 3 credit hours of thesis are required)		

Total Credit Hours Required: 36

Note: Students electing to complete the emphasis in Human Resource Management will complete one extra 3-credit course, for a total of 39 credits.

MASTER OF ARTS IN INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY CONCENTRATIONS

Note: Students electing to complete the Human Resources Management concentration will complete one extra 3-credit course, for a total of 39 credits.

Concentration in Data Science

The Data Science concentration focuses on exploring key concepts and methods in data science. Students will gain knowledge and skills in analyzing data and explore systems involved in data manipulation. Students will utilize data sets to analyze organizational issues and challenges. The fundamentals of statistical testing will be explored. Students will gain skills in data analysis, programming, and data mining.

CONCENTRATION OBJECTIVES

1. Analyze data science principles and concepts.
2. Examine the fundamental principles of data analysis, programming, and data mining
3. Apply data analytic methods to solve real world problems with relevance to social justice

CONCENTRATION COURSE REQUIREMENTS*

Students completing the Concentration in Data Science must complete the following two courses for their elective coursework requirements.

MIO-522	Data Science	3 cr.
MIO-526	Data Analytics for Programming	3 cr.

*Thesis/Capstone topic must be consistent with concentration.

Concentration in Training and Development

Students will obtain key skills and knowledge in training and employee development. In this concentration, students will explore E-learning methods and how to implement training and development from needs assessment to training evaluation. Students will gain experience developing training programs that incorporate different training methodologies to improve organizational effectiveness.

CONCENTRATION OBJECTIVES

1. Explore key theories and concepts in the field of training and development
2. Apply models and concepts of training to real world issues with relevance to social justice
3. Evaluate training methods used in e-learning

CONCENTRATION COURSE REQUIREMENTS*

Students completing the Emphasis in Training and Development must complete the following two courses for their elective coursework requirements.

MIO-521	Employee Development	3 cr.
MIO-525	E-Learning	3 cr.

*Thesis/Capstone topic must be consistent with concentration.

Concentration in Human Resources Management

The purpose of this concentration is to build competencies necessary for human resources management (HRM) in organizations and prepare learners to develop, lead, and implement all aspects of HRM program and project work. This concentration will prepare students to analyze, design, enhance, and execute effective, evidence-based Human Resources processes, programs, and practices in organizations. With a focus on both academic theory as well as practical application, this certificate allows you to recommend and implement industry best practice solutions backed by decades of psychological research. The courses within this concentration have an additional focus on strategic diversity and inclusion practices across a spectrum of industries to further develop skill in consulting for small, large, and multi-national organizations on important social justice initiatives.

CONCENTRATION OBJECTIVES

1. Evaluate organizational engagement satisfaction and performance from a human resources perspective
2. Analyze and design organizational programs addressing total reward practices, labor relations, and HR policy
3. Identify legally defensible and impactful recruitment and selection practices to bring in talent to drive organizational goals and strategies
4. Build consultative relationships that allow you to drive change in relation to leadership practices, diversity and inclusion strategies, and organizational social justice initiatives
5. Recommend people, practices, and programs that support a strategic human resources management model and link to the overall mission and vision of an organization

CONCENTRATION COURSE REQUIREMENTS*

Students completing the concentration in Human Resource Management must complete the following three courses for their elective coursework requirements:

MIO-527	Overview of Human Resources Management	3 cr.
MIO-528	Risk and Change Management	3 cr.
MIO-520	Workplace and Performance Management	3 cr.

*Thesis/Capstone topic must be consistent with concentration.

Graduation Requirements

1. Satisfactory completion of required credit hours, including all required courses
2. Satisfactory completion of Social Justice Practicum I, II, III, & IV
3. Successful completion of Capstone or Thesis
4. A cumulative grade point average of 3.0 or higher
5. Submission of completed Graduation Application and full payment of all outstanding tuition and fees
6. Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Master of Arts in Industrial and Organizational Psychology

Social Justice Practicum

The Social Justice Practicum (SJP) is a nonclinical and non-discipline specific experiential practicum. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society.

The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity.

The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members.

All students must complete the SJP before advancing on to any clinical or discipline specific training, respective of the program in which they are enrolled. SJP requirements include: 1) completion of a minimum of 200 hours at an approved SJP site; 2) completion of online modules; and 3) a formal SJP presentation at the Social Justice Symposium; and 4) students must receive a grade of "Pass" for the mid-term and final evaluation to receive credit for completing the SJP. The SJP may not be waived and life credit is not admissible to meet this requirement.

MASTER OF ARTS IN PSYCHOLOGY: SPECIALIZATION IN MILITARY PSYCHOLOGY

Program Overview

The Master of Arts in Psychology: Specialization in Military Psychology degree program educates students in the discipline of military psychology to be socially responsible graduates who engage both the military and civilian community and promote social justice nationally and globally. This discipline involves the systematic and scientific study of the selection, training, adaptation, and performance of soldiers. It focuses on how the military interacts with larger social, organizational, cultural, and technological systems. Military psychology by necessity is a heterogeneous field of inquiry. It must draw on all sub-disciplines of psychology to understand the variables that affect military performance. Military psychology includes the contributions of clinical, experimental, social, industrial/organizational, and engineering psychology. Military psychology is united by a shared interest in advancing knowledge and application of psychological science toward a specific population, as well as community engagement with social responsibility and a local, regional, and global presence.

Military psychology programming works to improve the lives of those who are serving or have served, and their families. Other applications of military psychology impact social policy programs within the military that are designed to promote diversity and equal opportunity. This includes addressing issues such as integrating diverse ethnic, religious, racial, and sexually oriented groups into the military and reducing sexual assault and discrimination. In today's world, the role of military psychology is being more pragmatic for consideration of national security, military defense, and global policy in order to ensure real-world solutions and measurable results. This program does not lead to professional licensure or certification.

Program Objectives

1. Evaluate the unique psychosocial needs of those who are serving, or have served, and their families
2. Analyze military culture, its structures and systems, and their impact, thereby developing military cultural competence
3. Apply psychological principles and theory to the military environment
4. Create institutional change by being able to work collaboratively with others to foster social justice
5. Evaluate the effectiveness of operational psychology within the military for unit cohesion, psychological operations, human terrain intelligence, military intelligence, and the promotion of behavioral health and welfare
6. Determine and manage the psychological consequences of the continuum of conflict

Degree Requirements

Core Courses (31 Credits)

MAMP-500	Survey of Military Psychology	3 cr.
MAMP-501	Operational Psychology for the Military	3 cr.
MAMP-502	Mental Health Law and the Uniform Code of Military Justice	3 cr.
MAMP-503	The Psychology of Conflict and Operations Other Than War	3 cr.
INDS-503	Research Methods	3 cr.
MAMP-504	Ethics, Morality, and Social Justice in the Military	3 cr.
MAMP-505	War, Trauma, Grief, Death, and Loss	3 cr.
INDS-531	Adlerian Theory in Socially Responsible Practice	1 cr.

Elective Courses (9 credits)

MAMP-506	Psychological Resilience and Positive Psychology	3 cr.
MAMP-508	Culture and Diversity in the Military	3 cr.
MAMP-513	Continuum of Care for the Military, Veterans, and Their Families	3 cr.
MAMP-532	Psychology of Terrorism	3 cr.
MAMP-533	Psychological Consequence Management	3 cr.
MAMP-534	Biodefense Security	3 cr.

Social Justice Practicum (2 Credits)

SJP-515	Social Justice Practicum I	0.5 cr.
SJP-516	Social Justice Practicum II	0.5 cr.
SJP-517	Social Justice Practicum III	0.5 cr.
SJP-518	Social Justice Practicum IV	0.5 cr.

Thesis or Capstone Courses (3 credits)

PSYC-511	MA Capstone	3 cr.
<i>or</i>		
PSYC-512	MA Thesis	1-3 cr.
(may be repeated multiple times for credit; 3 credit hours of thesis are required)		

Total Credit Hours Required: 36

MASTER OF ARTS IN PSYCHOLOGY: SPECIALIZATION IN MILITARY PSYCHOLOGY CONCENTRATIONS

Concentration in Terrorism

The concentration on the Psychology of Terrorism examines the bio-psycho-social-spiritual dimensions of the terrorism phenomena along with the political psychology dimension. Contributing factors such as oppression, social injustices, and inequities are examined. Psychological consequence management of terrorism and mental health disaster response to all hazards are also instructed. Biodefense and security addresses chemical, biological, radiological, and nuclear events being either premeditated, accidental or natural occurrences.

CONCENTRATION OBJECTIVES

1. Identify the contributing factors to the phenomena of terrorism
2. Know the full psychological spectrum of terrorism
3. Operationalize a psychological consequence management response
4. Develop mental health disaster response skills
5. Understand biodefense strategies and responses

CONCENTRATION COURSE REQUIREMENTS*

Students completing the Concentration in Terrorism must complete the following three courses for their elective coursework requirements.

MAMP-532	Psychology of Terrorism	3 cr.
MAMP-533	Psychological Consequence Management	3 cr.
MAMP-534	Biodefense Security	3 cr.

*Thesis/Capstone topic must be consistent with concentration.

Graduation Requirements

1. Satisfactory completion of all required credit hours, including all required courses
2. Satisfactory completion of Social Justice Practicum I, II, III, & IV
3. Successful completion of Capstone or Thesis
4. A cumulative grade point average of 3.0 or higher
5. Submission of completed Graduation Application and full payment of all outstanding tuition and fees
6. Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Master of Arts in Psychology: Specialization in Military Psychology

Social Justice Practicum

The Social Justice Practicum (SJP) is a nonclinical and non-discipline specific experiential practicum. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society.

The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity.

The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members.

All students must complete the SJP before advancing onto any clinical or discipline specific training, respective of the program in which they are enrolled. SJP requirements include: 1) completion of a minimum of 200 hours at an approved SJP site; 2) completion of online modules; 3) a formal SJP presentation at the Social Justice Symposium; and 4) students must receive a grade of "Pass" for the mid-term and final evaluation to receive credit for completing the SJP. The SJP may not be waived and life credit is not admissible to meet this requirement.

MASTER OF PUBLIC ADMINISTRATION

Program Overview

The Master of Public Administration is a professional degree that prepares students for management careers in public and nonprofit organizations. It is an ideal course of study for students who are committed to being social change leaders within public and nonprofit organizations. The Public Administration program at Adler University collaborates with Adler University's Institute on Public Safety and Social Justice and Center of Civic Learning and Community Action. Master of Public Administration graduates are prepared with the theoretical foundation and requisite management and leadership skills needed to challenge and change today's societal issues. The program offers the best features of online graduate education in public administration and service, coupled with Adler University's emphasis on graduates being socially responsible professionals.

The Master of Public Administration program provides students with the core knowledge and skills necessary for policy implementation, organizational leadership, management, and development that are necessary for work in the public arena including national, state, and local governments, research centers, consulting firms, community action groups, and direct-service providers at various levels of government and services in the United States and around the world. The core objectives of the Public Administration program are to prepare students for organizational development, evaluation, and management of organizations distinguished by strong, ethical leadership and efficient and effective systems of delivery. Core curriculum topics include: public financing, ethics and leadership, economic analysis and policy development, historical and theoretical foundations of the administrative state, organizational theory in public administration, and research and evaluation methods.

Students will elect a concentration in Crisis Management, Military and Veteran Services, or Sustainable Communities. In order to become effective public administration professionals, students advance their abilities in leadership and advocacy. They become participants in, and contributors to, the process of developing public programs and organizations, including the analysis, synthesis, critical thinking, and problem solving that encourages the growth of a fair and just society. Students learn the critical skills of communicating and collaborating with diverse groups within a rapidly changing society, and to articulate and contribute new perspectives into discussions and solutions to social, economic, and environmental problems.

Program Objectives

At the completion of this program, the student will be able to:

1. Apply public administration, management models, and organization theory
2. Lead, manage, and provide services within a diverse workplace and to a diverse citizenry
3. Perform program evaluations and forecasting
4. Apply concepts of social equity to public affairs, administration, and policy
5. Work within the institutional, structural, and political contexts of policy implementation
6. Prepare a budget reflecting policy and organizational priorities
7. Understand the relationship between policy formation and public services
8. Manage public-private partnerships
9. Communicate effectively in both oral and written form tailored to the diverse audiences addressed in the position as a public servant

Degree Requirements

Core Courses (25 credits)

PPA-500	Theories of Public Policy and Administration	3 cr.
<i>or</i>		
PAC-500	Foundations of Public Administration	3 cr.
PPA-501	Political Economy and Economic Analysis in Public Policy Development	3 cr.
PPA-502	Ethics in Public Service	3 cr.
PAC-507	Public Management and Leadership	3 cr.
PAC-503	Organizational Theory and Public Personnel Management	3 cr.
PAC-504	Public Finance	3 cr.
PPA-505	Research Methods: Models and Analytics	3 cr.
PPA-506	Research Application	3 cr.
PPA-521	Capstone Project Experience in Public Policy/Administration I	0.5 cr.
PPA-522	Capstone Project Experience in Public Policy/Administration II	0.5 cr.

Social Justice Practicum (2 credits)

SJP-515	Social Justice Practicum I	0.5 cr.
SJP-516	Social Justice Practicum II	0.5 cr.
SJP-517	Social Justice Practicum III	0.5 cr.
SJP-518	Social Justice Practicum IV	0.5 cr.

Concentration Coursework (9 credits)

EML-502	Supporting Functional Needs Populations in Disasters	3 cr.
EML-505	Leading in Times of Crisis	3 cr.
MAMP-503	The Psychology of Conflict and Operations Other Than War	3 cr.
MAMP-504	Ethics, Morality, and Social Justice in the Military	3 cr.
MAMP-508	Culture and Diversity in the Military	3 cr.
MAMP-513	Continuum of Care for the Military, Veterans, and Their Families	3 cr.
SCOM-512	Elements of Sustainability and Livable Communities	3 cr.
SCOM-513	Tools for Sustainable Development	3 cr.
SCOM-514	Strategic Planning for Sustainability	3 cr.

Total Credit Hours Required: 36

MASTER OF PUBLIC ADMINISTRATION CONCENTRATIONS

Concentration in Crisis Management

The goal of the Crisis Management concentration is to educate students on how to respond to and manage the impact of natural, accidental, or premeditated disasters and a disaster's effect on communities. Further, there is a special focus on those communities that are at-risk and/or marginalized during times of crises. Students will prepare to serve as effective first responders and recovery specialists who can advocate for healthy and resilient communities in the immediate aftermath of an acute or chronic crisis. Particular attention is given to the critical period following a crisis where underlying vulnerabilities for psychological distress and other poor health outcomes may be exacerbated. Coursework prepares students to identify and foster psychological resiliency and promote healthy and resilient communities. Students will develop leadership skills that promote positive growth and development using natural strengths and resources inherently present in communities by way of engaging community leaders and traditionally marginalized and at-risk members of the community using primary, secondary, and tertiary prevention approaches.

CONCENTRATION OBJECTIVES

1. Apply skills to increase awareness of community crisis management and recovery
2. Evaluate the effectiveness of current practices in governmental and non-governmental organizations and their responses to communities in crisis

CONCENTRATION COURSE REQUIREMENTS

Students completing the concentration in Crisis Management must complete the following three courses for their concentration coursework requirements:

EML-502	Supporting Functional Needs Populations in Disasters	3 cr.
EML-505	Leading in Times of Crisis	3 cr.
MAMP-503	The Psychology of Conflict and Operations Other Than War	3 cr.

Concentration in Military and Veteran Services

The Military and Veteran Services concentration will educate students on how to be socially responsible through the engagement of both the military and veterans' communities. This concentration focuses on how the military interacts with larger social, organizational, cultural, and technological systems and draws on all sub-disciplines of administration to understand the variables that affect the military and governmental/non-governmental veterans' sectors. Further, this concentration includes the contributions of clinical, experimental, social, industrial/organizational, and engineering psychology.

CONCENTRATION OBJECTIVES

1. Evaluate organizational and structural functions of the military and veterans services administration
2. Develop leadership and innovation skills that are principle focused and advance social responsibility

CONCENTRATION COURSE REQUIREMENTS

Students completing the concentration in Military and Veteran Services must complete the following three courses for their concentration coursework requirements:

MAMP-504	Ethics, Morality, and Social Justice in the Military	3 cr.
MAMP-508	Culture and Diversity in the Military	3 cr.
MAMP-513	Continuum of Care for the Military, Veterans, and Their Families	3 cr.

Concentration in Sustainable Communities

The Sustainable Communities concentration provides students with opportunities to develop competencies in administration, leadership, and advocacy skills used in sustainable economic development, environmental development, and building a healthier culture and society at the local, state, national and international levels of governance. The concentration is an academically challenging program that prepares graduates for organizational leadership roles in all levels of government and particular areas of community health and sustainable development, environment, research, and program planning and evaluation.

CONCENTRATION OBJECTIVES

1. Apply practical tools such as survey design, environmental impact assessments, and community-based research, and service projects in designing healthy, sustainable communities
2. Explain program and project management, community leadership, social and environmental advocacy, and employment in both government and nonprofit agencies

CONCENTRATION COURSE REQUIREMENTS

Students completing the concentration in Sustainable Communities must complete the following three courses for their concentration coursework requirements:

SCOM-512	Elements of Sustainability and Livable Communities	3 cr.
SCOM-513	Tools for Sustainable Development	3 cr.
SCOM-514	Strategic Planning for Sustainability	3 cr.

Graduation Requirements

1. Satisfactory completion of all required credit hours, including all required courses
2. Satisfactory completion of Social Justice Practicum I, II, III, & IV
3. A cumulative grade point average of 3.0 or higher
4. Successful completion of Capstone project
5. Submission of completed Graduation Application and full payment of all outstanding tuition and fees
6. Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Master of Public Administration

Social Justice Practicum

The Social Justice Practicum (SJP) is a nonclinical and non-discipline specific experiential practicum. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society.

The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity.

The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members.

All students must complete the SJP before advancing onto any clinical or discipline specific training, respective of the program in which they are enrolled. SJP requirements include: 1) completion of a minimum of 200 hours at an approved SJP site; 2) completion of online modules; and 3) a formal SJP presentation at the Social Justice Symposium; and 4) students must receive a grade of "Pass" for the mid-term and final evaluation to receive credit for completing the SJP. The SJP may not be waived and life credit is not admissible to meet this requirement.

MASTER OF ARTS IN ORGANIZATIONAL LEADERSHIP

Program Overview

The Master of Arts in Organizational Leadership program provides students with a theoretical understanding and practical tool set to prepare them to impact the learning capacity of individuals, teams, and organizations. Further, students will be able to access experiential learning opportunities in which to apply theory-informed tools and methods and leadership philosophies to socially responsible practice and applied innovation. This degree will provide pathways for students to become practitioners and/or scholars of organizational leadership and associated research.

Successful completion of the M.A. in Organizational Leadership program will prepare students to influence and invigorate organizations around the world as scholars, practitioners, or entrepreneurs. Graduates will have the ability to: impact organizational and system transformation; innovate across commercial, public, and social contexts; build solutions for complex social challenges; and translate leadership theories into real-world management and socially responsible practice. Students will develop a strong foundation in the theory and application of various contemporary leadership models, including both vertical and horizontal approaches to leadership. Further, students will enhance their ability to critically analyze research and data for the strategic and ethical implementation of organizational or societal initiatives.

Program Objectives

Upon completion of this degree program, graduates will be able to:

1. Leverage existing research to inform decision making at operational and strategic levels of an organization
2. Apply learned communication skills and awareness of cultural differences in global and domestic business interactions
3. Apply contemporary leadership models and/or theories to support organizational effectiveness in a global environment
4. Analyze problems from a diverse perspective, propose effective solutions, and evaluate the impact of executive decisions
5. Assess the ethical and strategic performance of business entities, taking into account decision making processes in domestic and global organizations
6. Apply leadership and innovation frameworks to identify problem points, mitigate organizational and system challenges
7. Evaluate entrepreneurial concepts and business strategies in order to strengthen leadership qualities

Degree Requirements

Core Courses (22 credits)

OL-500	Leadership & Management Philosophies	3 cr.
OL-501	Organizational Culture & Design	3 cr.
OL-502	Leading High Impact Teams	3 cr.
OL-503	Innovation Process	3 cr.
OL-504	Leadership Assessment & Feedback Coaching	3 cr.
OL-505	Entrepreneurship	3 cr.
INDS-503	Research Methods	3 cr.
INDS-531	Adlerian Theory in Socially Responsible Practice	1 cr.

Social Justice Practicum (2 credits)

SJP-515	Social Justice Practicum I	0.5 cr.
SJP-516	Social Justice Practicum II	0.5 cr.
SJP-517	Social Justice Practicum III	0.5 cr.
SJP-518	Social Justice Practicum IV	0.5 cr.

Elective Coursework (9 credits)

INDS-502	Statistics	3 cr.
OL-508	Systems Thinking	3 cr.
MIO-504	Organizational Development and Change	3 cr.
MIO-524	Training Theory	3 cr.

Thesis or Capstone Courses (3 credits)

OL-506	Thesis	1-3 cr.
<i>or</i>		
OL-507	Capstone	3 cr.

(may be repeated multiple times for credit;
3 credit hours of thesis are required)

Total Credit Hours Required: 36

Graduation Requirements

1. Satisfactory completion of all required credit hours, including all required courses
2. Satisfactory completion of Social Justice Practicum I, II, III, & IV
3. Successful completion of Capstone or Thesis
4. A cumulative grade point average of 3.0 or higher
5. Submission of completed Graduation Application and full payment of all outstanding tuition and fees
6. Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Master of Arts in Organizational Leadership

Social Justice Practicum

The Social Justice Practicum (SJP) is a nonclinical and non-discipline specific experiential practicum. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society.

The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity.

The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members.

All students must complete the SJP before advancing onto any clinical or discipline specific training, respective of the program in which they are enrolled. SJP requirements include: 1) completion of a minimum of 200 hours at an approved SJP site; 2) completion of online modules; 3) a formal SJP presentation at the Social Justice Symposium; and 4) students must receive a grade of "Pass" for the mid-term and final evaluation to receive credit for completing the SJP. The SJP may not be waived and life credit is not admissible to meet this requirement.

DOCTORAL-LEVEL PROGRAMS OF STUDY – ONLINE CAMPUS

- Doctor of Philosophy in Industrial and Organizational Psychology
- Doctor of Philosophy in Organizational Leadership

DOCTOR OF PHILOSOPHY IN INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY

Program Overview

The Doctor of Philosophy in Industrial and Organizational Psychology is a post-master's program that prepares students for careers in corporate, consulting, academic, and public sector human capital and human resource work settings. The curriculum is composed of a blend of courses covering information and theories across human motivation, social psychology, cognitive psychology, leadership, and organizational development. The program has a heavy emphasis on evidence-based decision-making and provides deep exploration of statistics and research methods to inform fiscally and ethically guided recommendations. Courses in the Ph.D. program will allow for the application of concepts defined within an industrial and organizational psychology master's program. Courses will feature application of the learning for various career opportunities, from consulting to academic, to corporate. Program faculty have a broad range of backgrounds with specialties in corporate, nonprofit, and consultative settings. This program combines academic theory with current, real-world examples and professional materials to prepare students for roles across industries.

The program stresses the importance of field-relevant ethical codes and statutes, such as the APA Ethical Principles of Psychologists, APA Code of Conduct, and the EEOC Uniform Guidelines on Employee Selection Procedures, 1978, to ensure principled practice.

Program Objectives

Upon completion of this degree program, graduates will be able to:

1. Demonstrate respect and understanding for human capital-related issues
2. Apply legal and ethical codes specific to industrial and organizational psychology
3. Apply academic knowledge and business and consulting skills to solve complex business challenges
4. Use interpersonal skills to integrate diversity and various perspectives in a professional setting
5. Leverage data input and analysis to identify business problems and propose thoughtful, well-rounded solutions
6. Analyze theories and concepts related to the value of individuals and groups in the workplace

Minimum Admission Requirements

Applicants to this program are required to have:

- A master's degree, by the date of matriculation, in industrial and organizational psychology, psychology, business, or a related discipline. Applicants who did not graduate from Adler University's Master of Arts in Industrial and Organizational Psychology or an equivalent program may be required to complete the equivalency requirements in addition to the doctoral curriculum. (See Program Requisites.)
- A cumulative grade point average (GPA) of 3.0 or better (on a 4.0 scale) in their master's degree. Successful applicants typically have a grade point average of 3.25 or higher on a 4.0 scale for graduate-level coursework.

- Two letters of recommendation from an individual who can speak to the applicant's likelihood of success in a doctoral program*
- A writing sample (e.g., a publication, report, or an essay or paper previously submitted as an assignment)
- An admissions interview

*Applicants who are graduates or current students in good standing from Adler University master's degree programs may have one letter of recommendation, the writing sample, and/or interview waived.

Program Requisites

Applicants are expected to have adequate coursework in the areas listed below. Applicants who did not graduate from Adler University's Master of Arts in Industrial and Organizational Psychology, or an equivalent program, will be assessed to determine whether they have adequate coursework in the following master's-level course areas, with a letter grade of B or better.

COURSE AREAS AND EQUIVALENT COURSES AT ADLER

- Organizational Theory (MIO-502) or Foundations in Organizational Psychology (MAOP-570)
- Organizational Development and Change (MIO-504) or Organizational Change and Development (MAOP-580)
- One graduate-level statistics course: Statistics (INDS-502) or Statistical Methods at Work (MAOP-525)
- One graduate-level research methods course: Research Methods (INDS-503) or Research Methods in Organizational Psychology (MAOP-546)

Provisional Admission Status

Applicants admitted on a provisional basis must submit all outstanding collateral, as defined in their acceptance letter, prior to the end of their first course to achieve full admission status and continue in the program. Applicants not meeting this standard may be dismissed from the University.

Degree Requirements

This program requires students to complete 90 post-baccalaureate credit hours, including a minimum of 12 credits toward dissertation, plus two credits of Social Justice Practicum (SJP). Coursework is in the key areas of industrial and organizational psychology, along with two advanced research courses. All core courses, with the exception of IOP-798 need to be successfully completed prior to taking IOP-800: Doctoral Qualifying Exam. IOP-800 must be successfully completed for students to proceed into Doctoral Candidacy and begin work on the research phase of their dissertation. The program will consist of 90 credit hours, which includes requisite, core, elective, thesis/capstone, and practicum requirements.

Requisite coursework (may come from M.A. degree) (14 credits)

* SJP-515 Social Justice Practicum I	.5 cr.
* SJP-516 Social Justice Practicum II.	5 cr.
* SJP-517 Social Justice Practicum III	.5 cr.
* SJP-518 Social Justice Practicum IV	.5 cr.
* INDS-502 Statistics	3 cr.
* INDS-503 Research Methods	3 cr.
* MIO-502 Organizational Theory	3 cr.
* MIO-504 Organizational Development and Change	3 cr.

Core Coursework (37 credits)

IOP-700	History and Systems of Psychology in Industrial and Organizational Psychology	3 cr.
IOP-701	Ethical, Legal, and Professional Issues	3 cr.
IOP-703	Advanced Organizational Development and Change	3 cr.
IOP-704	Advanced Statistics in IO Psychology	3 cr.
IOP-705	Job and Task Analysis	3 cr.
IOP-708	Advanced Research Methods and Design I Qualitative Methods	3 cr.
IOP-709	Advanced Research Methods and Design II Quantitative Methods	3 cr.
IOP-710	Advanced Human Factors	3 cr.
IOP-713	Leadership and Management	3 cr.
IOP-715	Advanced Recruitment, Selection, and Placement	3 cr.
IOP-716	Advanced Group Dynamics	3 cr.
IOP-717	Advanced Training and Development Training	3 cr.
IOP-798	Socially Responsible Practice Seminar	1 cr.

Comprehensive Exam (3 credits)

IOP-800	Doctoral Qualifying Examination Seminar	3 cr.
---------	---	-------

Dissertation (12 credits)

IOP-801	Dissertation (may be repeated multiple times for credit; minimum of 12 credit hours of dissertation are required.)	1-3 cr.
---------	---	---------

Elective Coursework (24 credits)

IOP-702	Advanced Organizational Theory	3 cr.
OP-706	Advanced Consulting Skills	3 cr.
IOP-707	Attitude Theory, Measurement, and Change	3 cr.
IOP-711	Assessment of Individual Differences	3 cr.
IOP-712	Advanced Talent Management and Motivation	3 cr.
IOP-714	Advanced Performance Management and Feedback	3 cr.

Master's or previous graduate credit that does not directly align with requisite or core coursework may count toward elective credit.

Total Credit Hours Required: 90

*Students who completed the Social Justice Practicum (SJP), Community Service Practicum (CSP), or Community Engagement Project (CEP) as part of a previous Adler University degree program may transfer those credits in. Doctoral Qualifying Exams

Doctoral Qualifying Exams

Doctoral qualifying exams are a key feature of the Ph.D. program and allow students to demonstrate understanding and application of the program material before formally embarking on their dissertation process. Students are eligible to apply to take comprehensive exams after all program coursework has been completed. Doctoral qualifying exams will take place during a predetermined course, and students will need to indicate their desire to take doctoral qualifying exams by signing up via the formal Doctoral Qualifying Exam Application Process. This process not only designates the exact time interactive components of the exam will take place, but will act as a review of the student's current course standing and course completion status to ensure the student is eligible to take doctoral qualifying exams at that time.

The content of doctoral qualifying exams is made up of both written responses and a "live" presentation/discussion format.

- **Written component:** Students will receive three prompts and be required to respond, in writing, to two of the three prompts during the course. Written components will include literature reviews and should incorporate research aligned to the student's dissertation topic. Prompts will be given to students three weeks before responses are due. Replies to the prompts will be due by a specific date and time, and failure to submit responses by the deadline will render the student's submission ineligible. Late deliverables are not accepted for doctoral qualifying exam submissions. Further information on the detail needed for the written component will be given after the student receives approval to participate in the doctoral qualifying exams.
- **Presentation component:** After submission of the written component, students will have one week to prepare for and deliver a "live" online meeting to present ideas and recommendations related to one of the written prompts. The live meeting will be interactive, and students will be expected to field questions related to their ideas and recommendations. Further information on the detail needed for the presentation component will be given after the student receives approval to participate in the doctoral qualifying exams.

Dissertation

The dissertation is the capstone of the Ph.D. program and showcases a student's research skills, critical thinking, and command of theories and data related to a topic of his or her choosing. Prior to working on the dissertation, students must complete all required coursework and pass the doctoral qualifying exams. In order to register for dissertation credit hours, students must be in compliance with the Satisfactory Academic Progress (SAP) policy. Upon successfully passing the competency exams, students will be assigned to a Dissertation Chair. The Dissertation Chair will select committee members who have experience and expertise related to the dissertation topic. These additional committee members, as well as the chair, serve as the formal dissertation committee for the student.

Ushering the dissertation process along is a student-owned process. Students should meet with their Dissertation Chair to discuss possible dissertation topics and plans for completing the dissertation. Dissertation Chairs can provide perspective on research needed, as well as possible measurement strategies. Students should be meeting with the Dissertation Chair on an agreed-upon schedule. Students should also work with the appointed committee members to understand their expectations on key milestones, drafts to be submitted, and so on.

Students should incorporate feedback given by the Dissertation Chair and committee on all iterations of the dissertation deliverables. Students will continue to work on the dissertation to refine it and incorporate feedback, until such a point when a decision will be collaboratively made by the student and the Dissertation Chair that a dissertation defense may be

scheduled. A date for presenting the final dissertation will be selected by the Dissertation Chair and the student. In the dissertation defense, students will present their materials to the committee and demonstrate their ability to discuss research, hypotheses, data, and findings on their selected topic and respond to questions posed by the committee. Dissertation defenses are open to the academic community, and individuals outside of the dissertation committee may be in attendance. Typically, revisions to the dissertation will need to be addressed after the defense. After a student has presented his or her findings during the defense, the committee will make one of the following decisions:

- Student does not pass
- Student passes with major revisions needed; core analyses and/or theories need to be reworked, the literature review needs to be enhanced, and so on
- Student passes with minor revisions needed; edits needed are likely cosmetic and could include creating a better reading flow in the document or clarifying points or findings for greater impact
- Student passes with no revisions needed; the committee determines no revisions are needed

Optional Professional Portfolio

For the benefit of capitalizing on career opportunities and aspirations, Adler University offers an optional professional portfolio submission. Students are strongly encouraged to build and submit a professional portfolio at the conclusion of the program because professional portfolios and/or examples of student work may be requested during the hiring process. Students will receive constructive feedback on ways to enhance the portfolio for greatest impact. A template will be provided specifying what should be addressed in the portfolio, including course activities, comprehensive exam responses, and dissertation outputs.

Graduation Requirements

1. Satisfactory completion of all required credit hours, including all required courses
2. Satisfactory completion of Social Justice Practicum I, II, III, & IV
3. Satisfactory completion of the Doctoral Qualifying Examination
4. Satisfactory completion of a doctoral dissertation proposal, dissertation, oral defense, and submission of the final document
5. A cumulative grade point average of 3.0 or higher
6. Submission of completed Graduation Application and full payment of all outstanding tuition and fees
7. Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Doctor of Philosophy in Industrial and Organizational Psychology

Social Justice Practicum

The Social Justice Practicum (SJP) is a nonclinical and non-discipline specific experiential practicum. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society.

The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity.

The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members.

All students must complete the SJP before advancing onto any clinical or discipline specific training, respective of the program in which they are enrolled. SJP requirements include: 1) completion of a minimum of 200 hours at an approved SJP site; 2) completion of online modules; 3) a formal SJP presentation at the Social Justice Symposium; and 4) students must receive a grade of "Pass" for the mid-term and final evaluation to receive credit for completing the SJP. The SJP may not be waived and life credit is not admissible to meet this requirement.

DOCTOR OF PHILOSOPHY IN ORGANIZATIONAL LEADERSHIP

Program Overview

The Ph.D. in Organizational Leadership will allow graduates to influence and invigorate organizations around the world as scholars, practitioners, and/or entrepreneurs. Students will have the ability to impact: organizational and system transformation; innovation across commercial, public, and social contexts; solution-building for complex social challenges; and socially conscious organizational leadership. Students will develop a strong foundation in the theory and application of various contemporary leadership models, including both vertical and horizontal approaches to leadership. This program provides students with multiple opportunities to acquire leadership qualities and knowledge of specific practices. Further, students will enhance their ability to critically analyze research and data for the strategic and ethical implementation of organizational or societal initiatives.

The Doctoral program will focus on providing students with innovative, organizational leadership practices that can be applied across a wide range of professional settings. Scholar-practitioners will conduct high quality research on organizational leadership and innovation, and disseminate it to scholarly and other audiences. Doctoral candidates will be prepared to teach others in academic and industry specific settings. Doctoral candidates will engage in service and outreach that enhances scholarship and its public impact. They will also be expected to conduct research with teleological objectives and social purpose. The program will prepare candidates to excel as thought leaders in a variety of institutional settings, including universities, industry and government, the nonprofit sector, and think tanks.

Program Objectives

Upon completion of this degree program, graduates will be able to:

1. Apply existing, and develop new, contemporary leadership models and/or theories to support organizational effectiveness in a global environment.
2. Implement practical, data-driven research that informs leadership decisions and contributes to the existing body of knowledge.
3. Synthesize new knowledge to inform decision making at operational and strategic levels of an organization.
4. Engage in Knowledge Translation and Exchange using advanced communication skills and awareness of cultural differences in global and domestic business interactions.
5. Analyze problems from a diverse perspective, including critical theory, to evaluate contemporary leadership practices. [SRP]
6. Assess the ethical and strategic performance of business entities, taking into account cross-functional environments as they affect ethical decision making in domestic and global organizations.

Minimum Admission Requirements

1. A master's degree, by the date of matriculation, in Organizational Leadership or a related discipline.
 - a. Applicants who did not graduate from Adler University's Master of Arts in Organizational Leadership or an equivalent program will be required to complete the equivalency requirements in addition to the doctoral curriculum. (See Program Requisites below)
2. A cumulative Grade Point Average (GPA) of 3.0 or better (on a 4.0 scale) in their master's degree.
 - a. Successful applicants typically have a grade point average of 3.25 or higher on a 4.0 scale for graduate-level coursework.
3. Two letters of recommendation from an individual who can speak to the applicant's likelihood of success in a doctoral program.

4. A writing sample (e.g. a publication, report or an essay or paper previously submitted as an assignment).
5. An admissions interview.

*Applicants who are graduates, in good standing, from Adler University's Master of Arts in Organizational Leadership may have one letter of recommendation, the writing sample, and/or interview waived.

Program Requisites

Applicants who did not graduate from Adler University's Master of Arts in Organizational Leadership or an equivalent program will be assessed to determine whether they have adequate coursework in the following master's-level course areas, with a letter grade of B or better, and whether they need to complete additional master's-level courses prior to beginning the doctoral program.

COURSE AREAS AND EQUIVALENT COURSES AT ADLER

SJP-515 Social Justice Practicum I	.5 cr.
SJP-516 Social Justice Practicum II	.5 cr.
SJP-517 Social Justice Practicum III	.5 cr.
SJP-518 Social Justice Practicum IV	.5 cr.
INDS 502 Statistics	3 cr.
INDS 503 Research Methods	3 cr.
OL 500 Leadership & Management Philosophies	3 cr.
OL 501 Organizational Culture & Design	3 cr.

Provisional Admission Status

Applicants admitted on a provisional basis must submit all outstanding collateral, as defined in their acceptance letter, prior to the end of their first course to achieve full admission status and continue in the program. Applicants not meeting this standard may be dismissed from the University.

Degree Requirements

The program will consist of 90 post-baccalaureate credit hours, which includes requisite, core, elective, thesis/capstone, and practicum requirements.

Requisite coursework (may come from M.A. degree) (14 credits)

*SJP-515 Social Justice Practicum I	.5 cr.
*SJP-516 Social Justice Practicum II	.5 cr.
*SJP-517 Social Justice Practicum III	.5 cr.
*SJP-518 Social Justice Practicum IV	.5 cr.
*INDS-502 Statistics	3 cr.
*INDS-503 Research Methods	3 cr.
*MIO-502 Organizational Theory	3 cr.
*MIO-504 Organizational Development and Change	3 cr.

Core Coursework (34 credits)

OL-700	Contemporary Perspectives in Org Leadership Theory	3 cr.
OL-701	Followership	3 cr.
IOP-716	Advanced Group Dynamics	3 cr.
OL-702	Organizational Culture and Climate	3 cr.
OL-703	Advanced Leadership Communication Strategies	3 cr.
IOP-701	Ethical, Legal, and Professional Issues	3 cr.
OL-704	Diversity and Inclusion	3 cr.
OL-705	Leading Innovation	3 cr.

IOP-708	Advanced Research Methods & Design: Qualitative Methods	3 cr.
IOP-709	Advanced Research Methods: Quantitative Methods	3 cr.
OL-706	Analyzing & Interpreting Research	3 cr.
OL-711	Socially Responsible Practice Seminar	1 cr.
Comprehensive Exam (3 credits)		
OL-707	Comprehensive Exams	3 cr.
Dissertation (12 credits)		
OL-708	Doctoral Dissertation	12 cr.
Elective Coursework (27 credits)		
IOP-714	Advanced Performance Management & Feedback	3 cr.
IOP-706	Advanced Consulting Skills	3 cr.
PPC-507	Business & Government Policy	3 cr.
PPA-510	Advocacy Strategy & Tactics for Social Change	3 cr.
OL-709	Human Resources Management	3 cr.
OL-710	Building Agility and Resilience	3 cr.
OL-504	Leadership Assessment & Feedback Coaching	3 cr.
OL-508	Systems Thinking	3 cr.
OL-502	Leading High Impact Teams	3 cr.
OL-503	Innovation Process	3 cr.
OL-505	Entrepreneurship	3 cr.

Master's or previous graduate credit that does not directly align with requisite or core coursework may count toward elective credit.

Total Credit Hours Required: 90

*Students who completed the Social Justice Practicum (SJP), Community Service Practicum (CSP), or Community Engagement Project (CEP) as part of a previous Adler University degree program may transfer those credits in. Doctoral Qualifying Exams

Doctoral Qualifying Exams

Doctoral qualifying exams are a key feature of the Ph.D. program and allow students to demonstrate understanding and application of the program material before formally embarking on their dissertation process. Students are eligible to apply to take comprehensive exams after all program coursework has been completed. Doctoral qualifying exams will take place during a predetermined course, and students will need to indicate their desire to take doctoral qualifying exams by signing up via the formal Doctoral Qualifying Exam Application Process. This process not only designates the exact time interactive components of the exam will take place, but will act as a review of the student's current course standing and course completion status to ensure the student is eligible to take doctoral qualifying exams at that time.

The content of doctoral qualifying exams is made up of both written responses and a "live" presentation/discussion format.

- **Written component:** Students will receive three prompts and be required to respond, in writing, to two of the three prompts during the course. Written components will include literature reviews and should incorporate research aligned to the student's dissertation topic. Prompts will be given to students three weeks before responses are due. Replies to the prompts will be due by a specific date and time, and failure to submit responses by the deadline will render the student's submission ineligible. Late deliverables are not accepted for doctoral qualifying exam submissions. Further information on the detail needed for the written component will be given after the student receives approval to participate in the doctoral qualifying exams.

- **Presentation component:** After submission of the written component, students will have one week to prepare for and deliver a "live" online meeting to present ideas and recommendations related to one of the written prompts. The live meeting will be interactive, and students will be expected to field questions related to their ideas and recommendations. Further information on the detail needed for the presentation component will be given after the student receives approval to participate in the doctoral qualifying exams.

Dissertation

The dissertation is the capstone of the Ph.D. program and showcases a student's research skills, critical thinking, and command of theories and data related to a topic of his or her choosing. Prior to working on the dissertation, students must complete all required coursework and pass the doctoral qualifying exams. In order to register for dissertation credit hours, students must be in compliance with the Satisfactory Academic Progress (SAP) policy.

Upon successfully passing the competency exams, students will be assigned to a Dissertation Chair. The Dissertation Chair will select committee members who have experience and expertise related to the dissertation topic. These additional committee members, as well as the chair, serve as the formal dissertation committee for the student.

Ushering the dissertation process along is a student-owned process. Students should meet with their Dissertation Chair to discuss possible dissertation topics and plans for completing the dissertation. Dissertation Chairs can provide perspective on research needed, as well as possible measurement strategies. Students should be meeting with the Dissertation Chair on an agreed-upon schedule. Students should also work with the appointed committee members to understand their expectations on key milestones, drafts to be submitted, and so on. Students should incorporate feedback given by the Dissertation Chair and committee on all iterations of the dissertation deliverables. Students will continue to work on the dissertation to refine it and incorporate feedback, until such a point when a decision will be collaboratively made by the student and the Dissertation Chair that a dissertation defense may be scheduled. A date for presenting the final dissertation will be selected by the Dissertation Chair and the student. In the dissertation defense, students will present their materials to the committee and demonstrate their ability to discuss research, hypotheses, data, and findings on their selected topic and respond to questions posed by the committee. Dissertation defenses are open to the academic community, and individuals outside of the dissertation committee may be in attendance. Typically, revisions to the dissertation will need to be addressed after the defense.

After a student has presented his or her findings during the defense, the committee will make one of the following decisions:

- Student does not pass
- Student passes with major revisions needed; core analyses and/or theories need to be reworked, the literature review needs to be enhanced, and so on
- Student passes with minor revisions needed; edits needed are likely cosmetic and could include creating a better reading flow in the document or clarifying points or findings for greater impact
- Student passes with no revisions needed; the committee determines no revisions are needed

Optional Professional Portfolio

For the benefit of capitalizing on career opportunities and aspirations, Adler University offers an optional professional portfolio submission. Students are strongly encouraged to build and submit a professional portfolio at the conclusion of the program because professional portfolios and/or examples of student work may be requested during the hiring process. Students will receive constructive feedback on ways to enhance the portfolio for greatest impact. A template will be provided specifying what should be addressed in the portfolio, including course activities, comprehensive exam responses, and dissertation outputs.

Graduation Requirements

1. Satisfactory completion of all required credit hours, including all required courses
2. Satisfactory completion of Social Justice Practicum I, II, III, & IV
3. Satisfactory completion of the Doctoral Qualifying Examination
4. Satisfactory completion of a doctoral dissertation proposal, dissertation, oral defense, and submission of the final document
5. A cumulative grade point average of 3.0 or higher
6. Submission of completed Graduation Application and full payment of all outstanding tuition and fees
7. Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Doctor of Philosophy in Organizational Leadership

Social Justice Practicum

The Social Justice Practicum (SJP) is a nonclinical and non-discipline specific experiential practicum. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society.

The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity.

The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members.

All students must complete the SJP before advancing onto any clinical or discipline specific training, respective of the program in which they are enrolled. SJP requirements include: 1) completion of a minimum of 200 hours at an approved SJP site; 2) completion of online modules; 3) a formal SJP presentation at the Social Justice Symposium; and 4) students must receive a grade of "Pass" for the mid-term and final evaluation to receive credit for completing the SJP. The SJP may not be waived, and life credit is not admissible to meet this requirement.

COURSE DESCRIPTIONS – ONLINE CAMPUS

PCO-001

Student Orientation

0 Credits

Student orientation provides new students with an overview of Adler University policies and procedures, systems, personnel, resources, and organizations. Newly admitted students are expected to complete this mandatory orientation prior to enrollment. Failure to complete orientation prior to the tenth day of their first course may result in dismissal from the program.

PCO-003

Doctoral Student Orientation

0 Credits

Student orientation provides new students with an overview of Adler University policies and procedures, systems, personnel, resources, and organizations. Newly admitted students are expected to complete this mandatory orientation prior to enrollment. Failure to complete orientation prior to the tenth day of their first course may result in dismissal from the program.

CRIM-501

Juvenile Justice

3 Credits

Young people are disproportionately impacted by criminal behavior whether they are victimized, acting as offenders, or witnessing violence or other criminal activities. The systemic responses to their experiences will shape not only their future interactions with the system, but the trajectory of their lives. This course will provide a detailed overview of the issues, policies, and procedures of the juvenile justice system, from its inception to its current state. Historical precedents for treating juveniles differently, including the types of crimes and processes they are subject to from adults in the criminal justice system, will be explored. Students will analyze current knowledge about how the biological, psychological, and social development of children influences policy and practice. During the course, the influence of individual, family, and community factors (both risk and protective) on delinquency and victimization will be considered. Tested practices for reducing delinquency and victimization such as mentoring and therapy will be examined. Finally, exposure to diversion and alternatives to incarceration via the restorative justice model will be inculcated throughout the semester.

EML-502

Supporting Functional Needs Populations in Disasters 3 Credits

This course provides an overview of vulnerable populations including the elderly, disabled, mentally ill, and others who are dependent on assistive devices, medications, or access to external support services. Students learn how disasters affect this vulnerable population and focus on strategies to support and manage them when access to what they need is disrupted or unavailable. Strategies for preventing further distress, coordinating relief, and restoring functioning as quickly as possible are discussed.

EML-505

Leading in Times of Crisis

3 Credits

This course exposes students to foundational principles for effective leadership in emergency management. Emphasis is placed on leadership, influence, and decision-making in a multi-agency emergency response environment marked by limited time, ambiguous information, and high-stakes. Leadership, management, motivation, emotional intelligence, and conflict resolution are discussed. Students learn to identify their personal leadership styles and explore the assets and limitations of their unique style. Techniques for building and maintaining effective, emergency-resilient teams are presented along with methods for developing diversity and social awareness within management practices.

GSS-520

Theories of Gender and Sexuality

3 Credits

This course provides a survey of foundational, seminal, and emerging theories of gender and sexuality, along with a view of how these theories apply to identity development and societal interactions. Topics covered will include an overview of the spectrum of gender and sexuality studies and Crenshaw's work on intersectionality. Specific theories may include queer theory, postmodern theory, and social constructionism.

GSS-521

Social and Cultural Evolution of Gender and Sexuality

3 Credits

This course explores social movements, media representations, and the cultural acceptance and exclusion of gender and sexual minorities through a historical lens. The continuous friction between acceptance and exclusionary forces sets the foundation for examining concepts in this course. Milestone movements and counter-movements, groups, and participants will be reviewed for their contributions and impacts within minority communities and society as a whole. Additionally, the evolving portrayal of gender and sexual minorities in the media, and its effect on the cultural landscape, will be analyzed.

GSS-522

Social Justice, Gender, Sexuality, and the Law

3 Credits

Recognizing the impact of law and policy on the experiences and lives of gender and sexual minorities, this course explores those effects both nationally and globally. This course examines laws and policies related to non-inclusion in equal protection clauses including marriage, housing, employment, and health services for gender and sexual minorities. Students will analyze the human rights of gender and sexual minorities on an international level. This course discusses approaches to social justice and legal support for gender and sexual minorities with a focus on advocacy and activism.

HWP-514

Positive Psychology for Health and Wellness

3 Credits

This course explores the history, theory, and research methods of positive psychology as it applies to professional settings and the public health sector. Students will be exposed to the methodology in assessment of positive emotions, character strengths, and meaning in life. The course will include an investigation of experiential understanding of positive interventions. Students will have the opportunity to learn how positive approaches may encourage cognitive emotional and character strengths throughout the life span.

HWP-515

Mindfulness-Based Approaches to Health and Wellness 3 Credits

This course provides an introduction to mindfulness and other meditative and mind-body approaches to counseling. The course focuses on theory, technique, and practice. No prior experience with meditation is required, though students must be willing to practice selected techniques daily throughout the semester, as meditative and mind-body techniques cannot be learned through description alone. The class will cover a range of approaches, including mindfulness approaches, yoga, and sensorimotor approaches.

HWP-516

Biological Bases for Health and Wellness

3 Credits

This course provides an overview of biological, physiological, and pharmacological foundations for optimal human development and psychological well-being. Students will be exposed to different explanatory models of human functioning from a naturalistic and holistic organism perspective. An emphasis will be placed on the influence of attitude, motivation, and choice in maintaining healthy and sustainable lifestyles. Further, this course will offer insight into the individual decision-making process and how using proper self-care supports biological health and wellness. The bio-psycho-social-spiritual model for health and behavioral well-being will be critically examined as it applies to illness management and recovery.

INDS-502**Statistics****3 Credits**

This course prepares students to conduct statistical analyses using SPSS. Descriptive, inferential, and multivariate statistical techniques will be examined as they relate to decision-making and problem solving in organizations and systems. This course will also include a consideration of the application of statistical methods within applied research that impacts socially responsible practice within organizations and systems.

INDS-503**Research Methods****3 Credits**

This course introduces students to the basics of social science research methodology within the context of organizations, whether public, nonprofit, governmental, or private and within society (e.g. systems that influence decision making within organizations). Students learn how to establish research questions and select the appropriate research design to answer those questions. Sampling and selection of participants, selection of variables, and data collection methods will be reviewed. Students will examine and work within the ethical principles surrounding research methodology and will process and anticipate challenges related to such research. Students will locate and review literature related to their research interest areas with specific focus on how research design can contribute to social justice initiatives and drive progressive change within organizations.

INDS-531**Adlerian Theory in Socially Responsible Practice****1 Credit**

This seminar course provides students with an overview of the principles of Adlerian theory as they relate to socially responsible professional practice in the areas of leadership and applied psychology. Topics include applications of the principle of holism in the workplace and the socially embedded nature of humans and systemic thinking in impactful collaborations. Included is a consideration of the unique ways in which a positive sense of self may be nourished through service to the community.

IOP-700**History and Systems of Psychology in Industrial and Organizational Psychology****3 Credits**

This course provides an overview of the history of psychology as a whole and details the evolution of the field over time. Students will explore major ideologies, theories, theorists, and schools of psychology that have contributed to industrial and organizational psychology. This course will focus on those tenets of the field that have been consistent over time, while also discussing components that are no longer current. After exploring past and current trends, students will be asked to discuss and reflect on future trends and topics that may be relevant for professionals in this space.

IOP-701**Ethical, Legal, and Professional Issues****3 Credits**

This course examines current and historically relevant ethical, legal, and professional issues in the field of I/O psychology. The course will examine both how I/O professionals can identify and react to ethical, legal, and professional concerns in organizations, as well as how I/O professionals are to behave and interact with organizations themselves. Through interactive discussion, students will learn about those areas of the field that have prescribed norms in terms of ethical, legal, and professional behavior, as well as those situations where discretion and judgment will be needed. Students will also be prompted to explore various case studies and identify potential ethical or legal concerns. The course will allow for discourse in areas where there are multiple accepted viewpoints.

IOP-702**Advanced Organizational Theory****3 Credits**

This advanced course uses the tenets of organizational behavior and organizational theory to explore the factors that most influence successful business decisions and interactions. Insights will be used to address

how leaders can understand, act upon, and increasingly strengthen organizational culture, values, ethics, and overall effectiveness. A core focus of the course will be addressing which theories are most appropriate for different business issues and how disparate theories can be harmonized to solve business challenges.

IOP-703**Advanced Organizational Development and Change****3 Credits**

This advanced course leverages change management theories and processes to consider the impact of change on organizations at large, and groups within organizations. Students will advise organizations on how to lead meaningful development activities by examining change research, the overall business need for change, and possible risks and rewards for that specific organization. While this course is grounded in organizational development and change research, students will incorporate insights from real-world firms and case studies to create recommendations that are academically informed but practically implementable.

IOP-704**Advanced Statistics in IO Psychology****3 Credits**

This course focuses on how to use statistics to solve for complex human capital business issues. Multiple new analyses will be explored, with a large focus of the course being prediction of outcomes from datasets. Example analyses in the course will include regression, MANOVA, and hierarchical linear models. Students will construct simplified business recommendations by analyzing multiple complex datasets and inputs. SPSS will be used to help manage large datasets.

IOP-705**Job and Task Analysis****3 Credits**

This course details the process for conducting job and task analyses in organizations. This process is used across the I/O psychology field to get foundational information used for writing job descriptions, determining organizational career paths, and having a robust understanding of the knowledge, skills, abilities, and responsibilities of each role in an organization. This course serves as a building block for many other topics in the field such as compensation initiatives and employee selection.

IOP-706**Advanced Consulting Skills****3 Credits**

This course focuses on effective consulting by presenting students with common and unique business challenges and exploring possible solutions. Students will be presented with multiple data points on organizational challenges and be asked to find solutions for these challenges with a mock client. Leveraging Block's framework, students will be asked to write proposals, respond to case study information, and interact in real time to questions posed by an outside stakeholder. The course will have interactive components where students will prepare information before a mock business meeting and then be presented with new information with which they will have to craft new ideas, solutions, or next steps in real time during that same meeting.

IOP-707**Attitude Theory, Measurement, and Change****3 Credits**

This course presents students with information on major attitude theories in the field of I/O psychology. Students will explore the inputs to job satisfaction and employee engagement, as well as other work attitudes, and examine the impact of these constructs in the workplace. Students will provide recommendations for how to increase job satisfaction and other work attitudes within the parameters laid out by mock organizations. Students will be expected to make recommendations that will create significant and lasting change while also recognizing the need to be fiscally responsible and judicious with resources for our mock organizations.

IOP-708**Advanced Research Methods and Design I: Qualitative Methods 3 Credits**

This course focuses on qualitative research methods and provides students with hands-on experience to prepare them for the initial stages of the research process. The course provides in-depth analysis and discussion of various qualitative research methods and design approaches in terms of their pros and potential cons when exploring a variety of research questions. Students will also learn how to collect information relevant to research questions that they have and how to write up summaries to capture important information from reviewed literature. Students will identify a hypothesis they want to explore related to dissertation research interests and build a literature review on a topic of their choosing. This is the first of two research courses that build upon one another. IOP-709: Advanced Research Methods and Design II should not be taken until IOP-708: Advanced Research Methods and Design I is successfully completed.

IOP-709**Advanced Research Methods and Design II: Qualitative Methods 3 Credits**

This course will cover quantitative research designs and provide students with practical experience in activities required to progress through the research process, building on concepts learned in IOP-708: Advanced Research Methods and Design I. Students will learn how to devise experiments to test hypotheses and how to evaluate the effectiveness of those designs. The course will incorporate statistical concepts as students will use various data analysis models to analyze experimental data. Students will use SPSS software to aggregate and analyze data. Throughout the course, students will design a study, collect and analyze data, and present their findings in an APA-style paper.

IOP-710**Advanced Human Factors 3 Credits**

This course explores the interaction of humans and various forms of technology within differing environments. Topics include technology and machine displays (visual and auditory), motor skills, information processing, decision-making, and biomechanics. The course is heavily focused on examining human behavior and capabilities to inform how products, technology, and work environments are designed. Students will be presented with human factors design and measurement considerations in a variety of industries and settings.

IOP-711**Assessment of Individual Differences 3 Credits**

This course focuses on how professionals engage in psychological testing in organizations with a broad scope of assessments of individuals and groups. Material will cover rationale and best practices for designing or evaluating different assessment models and instruments, as well as how to conduct and implement the assessments within a workplace environment. The course will examine differing theoretical models of assessment, as well as the ethical and professional issues that surround practice in this space. The course will also cover the use of assessment data to inform programs within organizations such as recruitment, selection, leadership and development, and succession planning.

IOP-712**Advanced Talent Management and Motivation 3 Credits**

This course covers the impacts of talent management on individuals and within organizations, as well as its impact on organizational culture and metrics. Topics will focus on how to create integrated human capital programs and processes and measure the effectiveness of those integrated designs. The course will also stress the design of talent management philosophies, programs, and measurement techniques that drive employee motivation and business impact. Students will learn how to create organizational competency models and integrate those throughout the talent management framework. The course will heavily emphasize the ways in which talent management programs work within business strategies and frameworks to create a harmonized relationship.

IOP-713**Leadership and Management 3 Credits**

This course will explore the roles of leaders and managers in organizations and discuss viewpoints regarding the similarities and differences between each role. Students will learn about various leadership styles individuals possess and how those styles impact organizational culture and team dynamics. Topics will include decision-making structures and the culture created by various management hierarchies. The course will also cover strategies and intervention techniques for developing leadership traits and behaviors.

IOP-714**Advanced Performance Appraisal and Feedback 3 Credits**

This course will analyze the impact of common performance management practices, as well as new trends and approaches in assessing individual and group performance within organizations. Topics will include assessing organizational factors that support or inhibit effective performance management, as well as how to measure the effectiveness of various performance management initiatives. Additionally, the course will cover common feedback models and give students an opportunity to practice giving feedback using different formats and across assorted organizational simulations.

IOP-715**Advanced Recruitment, Selection, and Placement 3 Credits**

This course will cover key talent management practices related to the recruitment and selection of individuals for employment in various roles and organizations. Students will learn all aspects of the recruitment cycle including determining which roles to recruit for, conducting a job analysis, sourcing candidates, interviewing candidates, and subsequently reviewing data to inform decision-making on the individual's candidacy for the role. Students will also learn about the process for developing legally defensible selection systems, programs, and assessments. The course will cover trends in recruitment and selection over time, with an emphasis on areas that have become best practice in terms of attracting and selecting talent.

IOP-716**Advanced Group Dynamics 3 Credits**

This course explores differentiated concepts of interpersonal behavior in small groups. Students will learn about research in the field of group dynamics, as well as the applicability of that research to modern organizations. The course will focus on how to enhance the effectiveness of existing small groups and also how to structure small groups based on individual assessment data. Additionally, students will learn about the roles they tend to play in groups themselves to help shape their understanding of their own preferences when operating in a group.

IOP-717**Advanced Training and Development 3 Credits**

This course evaluates theories, methodologies, and best practices for designing and implementing effective training programs in organizations. The course will cover major adult learning theories, as well modern application of those theories in training designs and programs. Students will critically analyze processes for developing training content, how to facilitate training, and proper measurement and evaluation of training initiatives. Additionally, the course will emphasize cross-cultural considerations when designing and delivering training programs.

IOP-798**Socially Responsible Practice Seminar I 3 Credits**

This course will address current topics in the I/O psychology field emphasizing socially responsible practice. Specific content to be covered will vary based on what is relevant at the time and will be specified prior to the semester in which the seminar is offered. This course cannot be taken simultaneously with IOP-799: Socially Responsible Practice Seminar II, and will address

content that is different from that of IOP-799. Students are encouraged to use the material provided in IOP-798 to inform ideas and direction for the dissertation. During this course, students will also be prompted to begin working on the optional professional portfolio, with guidance provided for content and projects to include in the submission.

IOP-799

Socially Responsible Practice Seminar II **3 Credits**

This course will address current topics in the I/O psychology field, emphasizing socially responsible practice. Specific content to be covered will vary based on what is relevant at the time and will be specified prior to the semester in which the seminar is offered. This course cannot be taken simultaneously with IOP-798: Socially Responsible Practice Seminar I, and will address content that is different from that of IOP-798. Students are encouraged to use the material provided in IOP-799 to inform ideas and direction for the dissertation.

IOP-800

Doctoral Qualifying Examination Seminar **3 Credits**

The purpose of this seminar is to assess students' mastery of I/O psychology content delivered throughout the program and to gauge students' readiness for future doctoral study. Evidence of this mastery enables program faculty to proceed with further dissertation phases of the program. During this seminar, students will be asked to complete written and oral assignments to assess their mastery of I/O program material. Students will be required to complete this seminar before formally beginning the doctoral dissertation process. The content of doctoral qualifying exams is made up of both written responses and a "live" presentation/discussion format.

- **Written component:** Students will receive three prompts and be required to respond, in writing, to two of the three prompts. Written components will include literature reviews and should incorporate research aligned to the student's dissertation topic. Prompts "will be given to students three weeks before responses are due. Replies to the prompts will be due by a specific date and time and failure to submit responses by the deadline will render the student's submission ineligible. Late deliverables are not accepted for doctoral qualifying exam submissions. Further information on the detail needed for the written component will be given after the student receives approval to participate in "the doctoral qualifying exams.
- **Presentation component:** After submission of the written component, students will "have one week to prepare for and deliver a "live" online meeting to present ideas and recommendations related to one of the written prompts. The live meeting will be interactive, and students will be expected to field questions related to their ideas and recommendations. Further information on the detail needed for the presentation component will be given after the student receives approval to participate in the doctoral qualifying exams.

IOP-801

Doctoral Dissertation **1-3 Credits**

Course may be taken multiple times for Credit. This course provides support and structure throughout the dissertation process. Students will prepare and complete a prospectus, outlining their dissertation plan. This course will also guide students through the development, presentation, and defense of a formal dissertation proposal. Students will collect "and analyze data under the supervision of their Dissertation Chair. Finally, students will complete their work by preparing a complete dissertation and defending their research, data collection methodology, and findings and opportunities for further research. Students are required to participate on a weekly basis during this course. The course will be repeated as the student progresses through the dissertation process. The course is graded on a Credit/no Credit basis, and grades are dependent on the student completing the agreed-upon deliverable at the end of each term.

MAMP-500

Survey of Military Psychology **3 Credits**

Military psychology also includes the behavioral health challenges of those who are serving, or have served, and their families – whether in times of peace or conflict. This course covers how the specialty of military psychology was historically established and evolved and how it is distinguished from other branches of psychology. The various ways military psychology is applied to leadership, organizational behavior, human resources, and operational psychology are explored as well.

MAMP-501

Operational Psychology for the Military **3 Credits**

This course provides students with the opportunity to learn about how operational psychology is used in the military and the effects it has on those who are serving, or have served, and their families. The specific aspects of operational psychology that will be discussed are unit cohesion, industrial and organizational psychology, psychological operations (PsychOps), human terrain intelligence, military intelligence, and the promotion of behavioral health and welfare, among others. Operational psychology practices will be analyzed with a social justice lens.

MAMP-502

Mental Health Law and the Uniform Code of Military Justice **3 Credits**

This course is designed to provide a basic understanding of civilian mental health law, the Uniform Code of Military Justice (UCMJ), and the military justice system. Students will examine the history and evolution of both civilian mental health law and the UCMJ, and its application in the military environment. Specific jurisdictional issues and case law will be reviewed.

MAMP-503

The Psychology of Conflict and Operations Other Than War **3 Credits**

This course examines the biological, psychological, social, and spiritual impact of conflict and operations other than war. The course also provides students with an understanding of the psychological requirements (i.e., demands and consequences) of military operations, ranging from the continuum of conflict (war, insurgency, and terrorism) to operations other than war (disaster response, humanitarian operations, and peacekeeping).

MAMP-504

Ethics, Morality, and Social Justice in the Military **3 Credits**

This course is a comprehensive study of ethical, moral, and socially just behavior within a military context. This course allows for an exploration of self and negotiation of various worldviews as they relate to the general subjects of just war theory, laws of war, rules of engagement, and the international community's laws governing war and conflict. The course intends to promote both discussion and debate centered on addressing behaviors that uphold the principles of military ethics and social justice, particularly for behaviors that challenge the status quo of organizations that deviate from these standards and codes of conduct.

MAMP-505

War, Trauma, Grief, Death, and Loss **3 Credits**

This course examines the impact of cumulative combat stress from a biological, psychological, social, and spiritual perspective. It focuses on the range of psychological distress of those who are serving, or have served, and their families. Causes of distress such as combat exposure, being wounded or permanently disabled in conflict, exposure to weapons of mass destruction, being a prisoner of war, and sexual trauma will be discussed. Students will learn how to distinguish between common and maladaptive reactions to the range of stressful events inherent in exposure to trauma, grief, death, and loss.

MAMP-506**Psychological Resilience and Positive Psychology 3 Credits**

This course explores how resiliency theory and positive psychology can be applied to the military community in an effort to minimize the long-term impact of stress related to life in the military. Students will first review existing programs and then propose potential ways to institute a resiliency framework in various settings. Students will explore the role of educational and prevention programming in mitigating psychological distress by better preparing military personnel for the impact their job can have on individual and family life.

MAMP-508**Culture and Diversity in the Military 3 Credits**

This course provides an overview of the history and evolution of the military culture. Particular focus will be paid to the psychological, sociological, and spiritual dimensions of the military. The impact on leadership, organizational structure, diversity, and military core values will be examined. Special attention will be given to the study of diversity and the cultural characteristics of race, gender, family, age-group, ethnicity, religious beliefs, socioeconomic status, sexual orientation, substance use/abuse, and its influence on the shaping of today's military culture. Specific milestones such as the desegregation of the military, opening up the military to women, and the repeal of Don't Ask, Don't Tell will serve as case examples for study and discussion. The aim of the course is to provide the learner with a better understanding of military culture in order to develop a better sensitivity in communications and interactions with those who are serving, or have served, and their families.

MAMP-513**Continuum of Care for the Military, Veterans, and Their Families 3 Credits**

This course examines the social service and behavioral health systems that are responsible for providing psychiatric, mental health, substance abuse, and family care for those who are serving, or have served, and their families. It will provide a primer on the structure and functions of these medical and behavioral health delivery systems within the Department of Defense and Department of Veterans Affairs health care systems. The course will promote an understanding of promising, best, and evidence-based practices in suicide prevention, mental health, and substance use treatment. Students will learn about both government and non-government social and behavioral health services and programs (such as veterans' courts and veterans' homeless programs). In addition, they will examine other public and private medical care and behavioral health delivery systems serving veterans. Special focus will be placed on alternative and innovative outcome-oriented programming.

MIO-502**Organizational Theory 3 Credits**

This course presents a multi-faceted view of organizational theory for the I/O practitioner. Both the history of the field and current issues related to research and practice are explored. The course begins with basic concepts of structure and systems and moves to exploring relationships in the organizational ecosystem (i.e., among leaders, the workforce, and key stakeholders). Important organizational factors such as life cycle, culture, and ethical decision-making are linked to organizational effectiveness. Special attention is given to applying these concepts to unique organizational challenges via case studies affecting large corporations and not-for-profit organizations.

MIO-504"Organizational Development and Change 3 Credits

Prerequisite: MIO-502. This course examines the vital role of organizational development (OD) to help organizations evolve to meet business challenges. Through case study and interactive discussion, students learn about the phases of planned change. Key factors such as increasing employee

commitment and decreasing resistance to change are covered. This course prepares students to design sound, evidence-based OD interventions and evaluate their impact. Experiential learning is employed to help students grapple with the impact of change. In addition, the distinct values of OD practitioners are highlighted, as these are fundamental to building successful relationships. Finally, social justice and social responsibility concepts are integrated into knowledge about OD interventions.

MIO-509**Group Dynamics 3 Credits**

Prerequisite: MIO-502. In this course, students are introduced to the function and structure of groups to promote organizational effectiveness. The science behind group decision-making, process, and communication are explored. Course topics also cover conflict resolution, leadership and power, collaboration, and shared goals. Students learn techniques to optimize group performance, with special emphasis on building high-performance teams to meet business challenges. To increase awareness of how individual difference affects group dynamics, students take a variety of personality measures highlighting personal strengths and weaknesses. They apply these findings to group membership and discuss career applications of working with groups and teams. Social justice concepts are applied to ethical decision-making in group work.

MIO-512**Talent Selection and Recruitment 3 Credits**

This course provides students with an introduction to tools and procedures used to recruit and select the best employees for organizations. It will prepare students with the skills to conduct a job analysis, create job applications and structured job interviews, and evaluate appropriate tools for employee selection. Students will also review the theory and use of ability, knowledge, personality testing, and multi-competency methods of evaluating employees, such as assessment centers. Legal issues and test measurement will be reviewed as they relate to employee selection.

MIO-517**Talent Management 3 Credits**

This course offers students an introduction to the field of talent management and what has also been known as personnel psychology. An overview of the processes used by organizations to attract, select, retain, and develop employees will be discussed. With the right talent in place, organizations can be more effective in reaching their strategic and operational objectives. The sequence of the course will follow the cycle of employment, from recruitment and selection to training, performance management, and development.

MIO-520**Workplace Measurement and Performance Management 3 Credits**

Prerequisite: MIO-517. In this course, students learn about the various strategies to assess, understand, and improve upon measurable workplace behaviors, attitudes, and topics. Students will learn all aspects of the performance management process, which begins with the organization's goals and standards and is continuously monitored by measuring and evaluating employees, distributing rewards, coaching and training employees, providing feedback, and aligning goals across the levels of the organization. Students learn about rater errors, rater-ratee relationships, contextual performance, employee motivation, and performance management in multinational organizations. As an additional input to organizational data collection, students will learn how to design a survey, evaluate the reliability and validity of a survey, utilize statistics to analyze the survey data, and interpret and present survey results to clients. Qualitative and quantitative tools of measuring consumer and employee attitudes will be discussed.

MIO-521**Employee Development****3 Credits**

This course provides students with an overview of key theories of and strategies for employee development and training. An analysis of current best practices in training and development will be explored, including adult learning theory, instructional design/ strategy, and program evaluation. This course provides practical opportunities for students to design their own employee training and development program. Students will evaluate different instructional methods that are used to develop employees. Students are presented with a big-picture perspective by evaluating the value of employee development to remedy organizational inefficiencies and meet individual employee needs and strategic organizational needs.

MIO-522**Data Science****3 Credits**

The course will provide students with an overview of key concepts and skills in the field of data science. Emphasis will be placed on the use of data for socially responsible decision making. Course concepts for examination include the identification of problems, effective communication using data, inference, visualization, analysis, and model evaluation. This course will provide students with an understanding of the applications of systems theory. Students will examine the entire data science life-cycle.

MIO-523**Coaching and Consulting****3 Credits**

This course presents students with diverse strategies with relevance to the fields of coaching and consulting. Evidence-based coaching methods will be applied in a variety of contexts. The role of culture will be explored in terms of its impact on coaching engagements and the ethical and legal behavior of I/O practitioners. Consulting skills will be examined in terms of the impact of phase in consulting engagements. Career considerations for coaching and consulting will be explored.

MIO-524**Training Theory****3 Credits**

The course provides students with a thorough understanding of the role of a training and development practitioner. Students will be provided with an analysis of current best practices as they relate to adult learning, instructional design/ strategy, and program evaluation. This course provides practical opportunities for students to design their own training program and develop instructional strategies appropriate for training programs that are delivered in various formats. Students take a big-picture perspective by understanding the value of training in addressing strategic organizational needs and individual employee development needs.

MIO-525**E-Learning****3 Credits**

In this course, students will explore concepts, methods, and theories surrounding e-learning. E-learning is a large area within training and development that explores principles of training and development in a virtual environment. Students will examine e-learning in present day and explore the future of e-learning. Ethical, cultural, and global factors will be examined in terms of their impact on e-learning. Students will apply e-learning methods within global organizations.

MIO-526**Data Analytics for Programming****3 Credits**

This course will examine the role of data analytics in different organizational settings. The mechanisms of data analytics for programming will be explored along with tools and methods used for programming. Students will focus on learning the skills and methods needed to transform data into actionable information that is applied when analyzing organizational problems and making strategic organizational decisions. Students will be provided with an overview of SAS, including the DATA and PROC steps. Introductory programming using R will also be covered.

MIO-527**Overview of Human Resources Management****3 Credits**

This course introduces roles and responsibilities within human resource management and explores the design and implementation of effective total rewards programs, recognition strategies, management practices, HR policies, workplace health and safety initiatives, and employee relations approaches. The material in this course will allow learners to identify and evaluate the human resources needs for an organization and design approaches to service those needs using job analysis, empirical data, and pilot studies.

MIO-528**Risk and Change Management****3 Credits**

This course covers the internal and external forces that necessitate change in organizations such as technological innovation, competitive pressures, generational preferences and differences, social issues, and political trends. This course covers the impact on employees and organizations when changes are managed proactively, as well as reactively. Topics will include the role of leadership in assessing risk of change or lack of change, the process of identifying individuals, systems, policies and procedures impacted by change, and how to measure the impact of change initiatives.

PPA-510**Advocacy Strategy & Tactics for Social Change****3 Credits**

This course explores theories of change and impactful social movements as a means of preparing students to lead change processes. It examines the activities, contexts, challenges and ethics of community-based social change as they relate to organizations and institutional systems, work/task groups and individuals and the role of the community leaders in these processes. The course focuses on strategies and tactics to impact policy level change and how they may be used to create social equity in today's political and social systems. Students will be encouraged to examine how advocacy groups, delivery systems and community organizations can work with all orders of government to address issues of social change. The course will also explore ways in which the involvement of community members can lead to the construction of socially just policies and services that impact on marginalized individuals and groups.

OL-500**Leadership & Management Philosophies****3 Credits**

This course explores fundamental leadership and management concepts at the individual, team, and organizational levels. This course will give students the opportunity to explore leadership and followership dynamics, as well as the role it plays in enhancing leadership capabilities and experiences. In addition, there is an emphasis on self-awareness and on understanding the importance of accountability and responsibility on individual, team, and organizational levels. The course presents a comprehensive, integrative, and practical focus related to leadership theory and management philosophies. Further, the course provides students with the opportunity to apply pertinent theories learned through literature and to enhance personal skill development through self-assessment exercises. Students will develop competitive knowledge, skills, and abilities for operating in today's global organizations.

OL-501**Organizational Culture & Design****3 Credits**

This course explores organizational culture at the interface of theory and practice to bring clarity, context, relevance, and understanding to the topic. Future leaders will be prepared to use their knowledge as a powerful tool in creating a sustainable high performance organization. This course will also explore the interface of organization design and organizational identity, which will prepare graduates to design systems and processes that influence and respond to culture. Essential challenges to leadership will be explored, such as organizational culture alignment, in an increasingly dynamic climate.

- OL-502**
Leading High Impact Teams **3 Credits**
 In this course, students will learn how to lead high-performing teams that are collaborative, consistently learning, and able to achieve bottom line results. Specifically, students will learn best practices for composing a team and aligning individual and team goals. This course explores how to establish roles, build structures, and manage decision-making so that teams excel. This course will also help students manage conflict and build trust, elements which have a profound impact on team performance. After completing this course, students will have a set of tools and practices that will enable them to effectively set up, run, evaluate, and continuously improve teams within organizations.
- OL-503**
Innovation Process **3 Credits**
 Understanding how innovation occurs within, and outside of, individual organizations is essential for entrepreneurs, policymakers, and researchers. Innovation in the creation and implementation of a new product, process, or service occurs within complex systems; and system characteristics can help or hinder innovation. This course will emphasize the non-linear and complex nature of innovation, preparing students for the uncertainty that accompanies innovation and change initiatives. Theoretical frameworks will be presented from the literature and diverse examples will be presented to illustrate the ways in which organizations may navigate economic and regulatory environments, the impact of socio-economic context, and how policy can improve innovation systems.
- OL-504**
Leadership Assessment & Feedback Coaching **3 Credits**
 This course introduces students to the principles of individual assessment and their role in leadership development. Frameworks for conceptualizing the assessment process and specific strategies for assessing individual personality, cognitive ability, and workplace relevant behaviors (such as leadership skills, managerial styles, teamwork and other interpersonal skills, etc.) will be considered. This course emphasizes strategies for the development of an ethical, individually-focused assessment process. Students gain experience in choosing appropriate, valid, and reliable instruments, incorporating non-test assessment strategies (such as interviewing and behavioral analysis) and interpreting and integrating assessment data. Included are considerations for providing feedback coaching and informative assessment reports for coaching clients at each level of the organization.
- OL-505**
Entrepreneurship **3 Credits**
 This course introduces students to entrepreneurship and the development of the entrepreneurial mindset. Students will learn about the entrepreneurial process, skills required, and the necessary resilience to meet their business goals. This course is designed to help students evaluate the business skills and commitment necessary to successfully operate an entrepreneurial venture. Included is a consideration of challenges and rewards of entrepreneurship. Students will also be introduced to socially responsible entrepreneurship and intrapreneurship that will bolster leadership capabilities for founding new organizations and improving existing organizations.
- OL-506**
Thesis **1-3 Credits**
 Course may be taken multiple times for Credit. The M.A. Thesis is a student-directed study conducted in consultation with an assigned Chair and Reader in an area of organizational leadership with relevance to the curriculum. The research culminates in the completion of a scholarly paper of publishable quality in accordance with Adler University guidelines and standards outlined by the American Psychological Association. This course provides support and structure for the thesis process.
- OL-507**
Capstone **3 Credits**
 The Capstone course provides students with a unique opportunity to complete a project that will reflect their learning and training experiences throughout the program. This project will require students to communicate with a "client" organization during which they will develop the ability to determine and communicate socially responsible recommendations based on their learnings in organizational leadership. Students will identify, with their client, a current or emerging business, policy, or organizational challenge, and complete an applied research project that demonstrates their mastery of culturally competent engagement as a socially responsible practitioner.
- OL-508**
Systems Thinking **3 Credits**
 Complex challenges and issues involve the interplay of a multitude of stakeholders, organizations, and institutions. Students will be introduced to systems design, theory, and methods to identify and design systemic interventions for social, policy, and business change. This course will prepare students to identify leverage points for intervention; evaluate the cascade effect of decisions and policies throughout a system; and effectively communicate to stakeholders how different elements of a complex challenge interconnect. This course will encourage students to identify and analyze broad questions and consider unintended consequences. While not a data visualization course, students will be encouraged to think visually and map systemic interactions to enhance their analytical abilities.
- OL-700**
Contemporary Perspectives in Org Theory **3 Credits**
 This course presents a comprehensive, integrative, and practical perspective on contemporary leadership theories that have emerged over the past several decades. Additionally, the course explores how individuals can build their leadership capabilities while acting with authenticity, integrity, and creativity. The course presents an Adlerian perspective on leadership styles and explores Adlerian approaches to democratic leadership. Included is a special consideration of designing one's personal philosophy of leadership. Further, this course firmly distinguishes leadership from management. There is an emphasis on how skills and abilities in leadership and management can be developed and applied by individuals in order to make a difference in organizations, communities, and/or societies. Ultimately, the course is intended to help students become more effective leaders in contexts where they currently serve or in contexts to which they aspire.
- OL-701**
Followership **3 Credits**
 The purpose of this course is to move away from leader-centered theory to more integrated theory that includes the leader's relationship with, and influence on, followers. In doing so, this course will take into account not only those who exercise power, authority, and influence; but also those on whom power, authority, and influence are being exercised. Students will learn about different theories and definitions of followership, various ways followers can be categorized, and how followers often become subtle but influential leaders. Students will explore Adlerian view of organizational dynamics and Adlerian approaches to democratic organizational leadership. This course will help students understand that the ability to take direction, get behind a plan and be a team player is as important as leadership to the success of an organization. To that end, the best leaders are also effective followers.
- OL-702**
Organizational Culture and Climate **3 Credits**
 This course examines how organizational culture and climate can be bolstered and transformed. Through comprehensive assessment and understanding of an organization's current strengths and weaknesses, leaders can use culture to help attract and retain loyal and committed

employees. This, in turn, can strengthen relationships with customers and other partners. This course will analyze the relationship between culture and strategy, seeking alignment between the two. The different kinds of cultures seen in high performing and low performing organizations will be explored in an effort to understand how cultural content affects organizational climate, behavior, and business results. By the end of this course, students will gain an appreciation for how culture is learned and internalized based on ceremonies, myths, rituals, and symbols.

OL-703
Advanced Leadership Communication Strategies **3 Credits**

This course presents effective communication as an integral component of leadership strategy. A leader's competence in this area will aid in developing a foundation for designing effective messages, both written and oral, from concept to delivery. This course will allow students to develop a communication model that appropriately leverages the power of diverse audience perspectives while crafting persuasive messaging that will serve as a catalyst for change and innovation. The course incorporates Adlerian leadership principles, including the Adlerian Law of Movement as applied to organizations. In addition, students will be introduced to interactive oral and interpersonal communication skills critical to leaders, including strategies for presenting to a resistant audience, running effective and productive meetings, active listening, and contributing to group decision-making.

OL-704
Diversity and Inclusion **3 Credits**

This course will introduce and advance students' exposure to issues of accessibility, and the full range of human diversity including ability, language, culture, gender, and age. The course will engage these different issues, addressing how different viewpoints can impact the interpretation and utility of knowledge. Additionally, this course will focus on how the application of different leadership principles and theories would not be applicable or would have to be changed in order to better engage with stakeholders. Furthermore, knowledge and theories from non-Western and/or critical viewpoints will be explored to challenge assumptions within the traditional organizational leadership and innovation scholarship.

OL-705
Leading Innovation **3 Credits**

This course will explore how innovation involves developing a consensus in multi-stakeholder groups, managing organizational change, or leading the development of an innovative product or service. Innovation requires leadership that has vision, the ability to inspire and empower others, and courageously make strategic decisions. This course also addresses the consequences of various leadership styles that can thwart the innovation process. In addition, students will be encouraged to embrace failure not only as a potential barrier, but as an opportunity to leverage learning for future organizational success.

OL-706
Analyzing & Interpreting Research **3 Credits**

The course will allow students to understand the process through which data becomes information, information becomes knowledge, and how knowledge can be exchanged and transferred among different stakeholders. Students will observe how different theoretical lenses, ethical and cultural values, and personal backgrounds can shape the interpretation of data and information. Effective sharing of knowledge will depend on understanding an organization's needs, as well as leadership objectives and concerns. The course will cover cognitive aspects of knowledge creation, the importance of narrative in the interpretation and communication of knowledge, and the importance of different ways of knowledge transfer for different audiences.

OL-707
Comprehensive Exams **3 Credits**

The purpose of the exams is to assess student's mastery of Organizational Leadership content delivered throughout the program, and to gauge student's readiness for future doctoral work. Evidence of this mastery is required for students to proceed with the dissertation phases of the program. The content of doctoral qualifying exams is made up of both written responses and "live" presentation/discussion format:

- **Written component:** Students will receive three (3) prompts and be required to respond, in writing, to 2 of the 3 prompts. Written components will include components of literature review and should incorporate research aligned to the student's dissertation topic. Prompts will be given to students 3 weeks before responses are due. Replies to the prompts will be due by a specific date and time, and failure to submit by the deadline will render the student's submission ineligible. Late deliverables are not accepted for doctoral qualifying exam submissions. Further information on the detail needed for the written component will be given after the student receives approval to participate in the doctoral qualifying exams.
- **Presentation component:** After submission of the written component, students will have one week to prepare for and deliver a live online meeting to present ideas and recommendations related to one of the written prompts. The live meeting will be interactive and students will be expected to field questions related to their ideas and recommendations. Further information on the detail needed for the presentation component will be given after the student receives approval to participate in the doctoral qualifying exams.

OL-708
Doctoral Dissertation **1-3 Credits**

Course may be taken multiple times for credit. This course provides support and structure to the preparation and completion of the dissertation prospectus. Students will take this course to conduct research on a topic area or idea for the dissertation. This course will consist of the student reviewing the dissertation handbook and meeting with the faculty member serving as the dissertation chair on an agreed upon schedule. The deliverables for this course include: a finalized prospectus including the problem being studied; a bibliography of sources to examine the work that has been done to study the problem in the literature; and an outline for an approach for further research as a first set of milestones. It will also include the final dissertation report/manuscript, and an oral defense of the dissertation in front of an examination committee.

OL-709
Human Resources Management **3 Credits**

This course examines everyday issues facing organizations such as attracting, selecting, and maintaining a productive workforce in today's competitive operating environment. Further, other nuances such as training and development, compensation, and employee performance evaluation will be discussed. Students will learn how to make the most effective use of their human capital through the use of human resource management strategy, organizational staffing, total rewards, employee and labor relations, and risk management. Students will also examine the responsibilities of organizational leadership for incorporating human resource issues in strategic planning and initiatives. The operational and administrative roles of human resource management will be emphasized, demonstrating that HR management is an important, complex, and strategic organizational activity that transcends accepting employment applications and keeping records.

OL-710
Building Agility and Resilience **3 Credits**

This course will examine the impact of resilient leadership on organizational sustainability. In particular, resilience will be explored on the individual, team, and organizational level. Students will learn how to ensure their own

health and productivity, as well as increase their accountability and adaptability. Students will also learn how to assist their team(s) with developing these skills and competencies. Doing so will allow leaders to foster a culture of mindfulness, resilience, and adaptability within their organization. Topics covered will include fundamentals of resilience, the mindset and behaviour of a resilient leader, strategies for building and maintaining resilient teams and organizations, and identifying risks that may impact an organization and its agility/ability to change.

OL-711

Socially Responsible Practice Seminar 1 Credit

This course will address current topics in the field of organizational leadership emphasizing socially responsible practice. Specific content to be covered will vary based on what is relevant at the time and will be specified prior to the semester in which the seminar is offered. Students are encouraged to use the material provided in OL-711 to inform ideas and direction for the dissertation. During this course, students will also be prompted to begin working on the optional professional portfolio, with guidance provided for content and projects to include in the submission.

PAC-503

Organizational Theory and Public Personnel Management 3 Credits

In this course, students learn human resource practices and styles of management in public organizations. Topics include sociological, economic, and political science theories of organizational behavior and management within the public sector; the values associated with the five general models of public personnel systems (patronage, civil service, or merit, labor-management or collective bargaining, professional, and entrepreneurial) are considered within a historical context. Students gain an understanding of issues of equity and equality in the public personnel system's general models and their impacts on the core concepts, institutions, and values associated with these models. This course gives an essential overview of mainstream personnel functions and processes, including position classification, job evaluation and classification, pay and compensation, staffing, performance appraisal, and discipline.

PAC-504

Public Finance 3 Credits

This course provides students with a basic understanding of the methods used to analyze and evaluate public sector finances including revenues and expenditures. The primary emphasis is on government organizations in state and local government budget process (development and reform) including funding sources (e.g., taxation, user fees, fines) and expenditures (e.g., operating budgets, capital budgets, and the role of budgets in public sector agencies). In addition, students explore the public budget as a political tool and the complications of budgeting when democratic governance is used in the decision-making process at both the policy and agency level, including the allocation of resources that reflect the value of agencies and society.

PAC-507

Public Management and Leadership 3 Credits

This course introduces the knowledge and skills related to strategic management and leadership in government and public services, including the articulation and aligning of organizational goals in accordance with the mission; negotiating the complexities between service delivery and resource constraints; managing organizational changes; establishing measurements for outcomes; creating efficiency within production; and maintaining high staff motivation. Important strategic actions considered include developing an organizational mission and vision; developing means of accountability and legitimacy; the use of e-government technology in developing and managing challenges in the delivery of services and information electronically to constituents; understanding and employing new tools for government including privatization and contracting; restructuring an organization; shaping organizational culture; and developing human capital.

PPA-500

Theories of Public Policy and Administration 3 Credits

This course introduces students to the historical and theoretical foundations of public policy process and administrative services, considering key participants and the environmental context. Students learn how policy is created and reformed, how government services come into existence, how political agendas shape policy and services, the government decision-making process, societal influence on policy development and reform, ethical influences in the policy process and public sector organization, and the four main values in public policy and administration: equity, economy, efficiency, and effectiveness. This course explores the application of social justice through the consideration of the social, political, legal, economic, and ecological factors in the formation and reform of policy and public service. Students learn to use social justice determinants in critical analysis and problem solving in policy and administration of public service.

PAC-500

Foundations of Public Administration 3 Credits

This course focuses on the pursuit of public purposes; it is an introduction to public administration, public service, and public policy. Students will learn the constitutional, democratic, and cultural tenets that frame ideas of acceptable government action; intergovernmental and intersectoral relations in public service delivery; managerial, political, and economic aspects of governance; links between law, policy, and management; and the intellectual heritage of the field. This course emphasizes the application of social justice and ethics through the consideration of the social, political, legal, economic, and ecological factors in the formation and reform of policy and public service. Through experiential activities, research, and engaging discussion, this course stresses problem-solving, critical thinking skills, and application of the course material to real-world situations.

PPA-501

Political Economy and Economic Analysis in Public Policy Development 3 Credits

In this course, students learn the basic economic tools and microeconomic models relevant to current policy and public sector choices, including the role of government in a market-oriented economy, with an emphasis on market failures. Students learn about public goods, externalities, competition versus monopoly, opportunity cost, economic efficiency, and equity. The course focuses on political and economic factors impinging on the policy process, the current environment within vital areas of policy, and the role of key policy players (government and nonprofit agencies, community organizations/coalitions, etc.) in policy formation. Case studies are used, as well as policy alternatives and recommendations, to broaden students' policy analysis skills and understanding of how discriminatory policy creates systemic and structural inequalities.

PPA-502

Ethics in Public Service 3 Credits

This course is designed to provide students with a solid foundation for the ethical practice of leadership and management in the public and nonprofit sectors. Questions related to corruption, abuse of power, financial impropriety, ethics codes and standards in government and professional fields, as well as corporate codes of ethics, whistle-blowing, and other topics related to problems of conscience and judgment are examined.

PPA-505

Research Methods: Models and Analytics 3 Credits

This course addresses the assumptions, approaches, and methods underlying the development of research in public policy. Covering the fundamentals of the research process from the inception of the research interest to information dissemination, students explore all the necessary requirements to conduct research on a public policy issue. Students will learn to critically evaluate the strengths and weaknesses of different research approaches (mixed, quantitative, and qualitative), and how different designs can be used to shape the research question, data collection

methods, processes for data analysis, and communication strategies for dissemination. Published policy research using different research designs will be critically evaluated and provide opportunities to explore recent advances in the field of policy and social justice initiatives. A significant emphasis is placed on ethical considerations in the research process, as well as strategies for assessing research integrity, validity, and quality.

PPA-506

Research Applications

3 Credits

This course offers an advanced investigation and hands on application of mixed, qualitative, and quantitative research approaches within a policy context. Simulating an Exploratory Sequential Mixed Methods Design (Creswell, 2014), students will extend their research proposal from PPA-505 by: developing a research consent form and key informant interview guide according to research standards and Adler University's Research Ethics Board and Institutional Review Board guidelines; conduct a policy-based key informant interview; apply thematic and content analyses to the transcription; and utilize the analysis in the development of a survey to address generalization.

PPA-521

Capstone Project Experience in Public Policy/Administration I

0.5 Credits

The capstone project provides students with the opportunity to apply a myriad of skills, strategies, and approaches to improving a policy or service area within the purview of public administration in an area of student interest. Working independently or in teams, students will design a comprehensive approach to improving a public policy or service that aligns with the University's mission of social justice and creates, or significantly strengthens, a viable, sustainable solution. Guided by a faculty instructor, the student or student team will identify and examine a policy or service area of concern, applying research methods of analysis, and propose the necessary steps towards a solution that specifically outlines the requisite authority necessary for the change (i.e., legislative, regulatory/administrative). The plan will include a timeline and the specific components of the policy or service solution, funding where indicated, and training or other support mechanisms for implementation. The plan will also include the perspectives of the effected community, where applicable, and associated advocacy and stakeholder groups to help define the problem as well as the solution.

PPA-522

Capstone Project Experience in Public Policy/Administration II

0.5 Credits

The Capstone provides students with the opportunity to apply a myriad of skills, strategies, and approaches to improving a policy or service area within the purview of Public Administration in an area of student interest. Working independently or in teams, students will design a comprehensive approach to improving a public policy or service that aligns with the University's mission of social justice and creates, or significantly strengthens, a viable, sustainable solution. Guided by a faculty instructor, the student or student team will identify and examine a policy or service area of concern, applying research methods of analysis, and propose the necessary steps towards a solution that specifically outlines the requisite authority necessary for the change, i.e. legislative, regulatory/administrative. The plan will include a timeline and the specific components of the policy or service solution, funding where indicated, and training or other support mechanisms for implementation. The plan will include the perspectives of the affected community, where applicable, and associated advocacy and stakeholder groups to help define the problem as well as the solution.

PPC-507

Business and Government Policy

3 Credits

This course examines the relationship between business and government; the influence one has over the other; how governmental policies influence the decisions of corporations, businesses, and industries and vice-versa; and the economic and development issues arising in an increasingly integrated global economy.

PSYC-500

History and Systems for Applied Psychology

3 Credits

This course focuses on the conceptual origins and evolution of modern ideas in applied psychology, with an emphasis on historical and contemporary viewpoints that have influenced and shaped accepted models and systems within the field. Students will examine major theories, frameworks, and historical influences in relation to the current practice of applied psychology. The course will include a consideration of the early philosophers and the modern integration of theory and applied research. Students will evaluate the social, cultural, political, and scientific contexts that fostered the origins and development of applied psychology, and analyze multifaceted issues related to the development of the discipline.

PSYC-501

Ethics and Socially Responsible Practice for Applied Psychology

3 Credits

This course focuses on establishing and promoting ethical and socially responsible practice within the field of applied psychology. Students will evaluate human rights, welfare, and public health and safety of groups and individuals as these constructs relate to the practice of applied psychology. This course will prepare students to apply socially responsible practice and leadership approaches within a variety of environments and systems. Students will explore foundations and delivery systems for building effective and ethical organizations, groups, and systems. Students will also apply ethical strategies for problem solving, explore best practice models within social justice-focused delivery systems, and evaluate the integration of ethical frameworks in communities and public and private sector systems.

PSYC-504

Life Span Development

3 Credits

Prerequisite: PSYC-500. In this course, students explore the stages and transitions of physical, cognitive, emotional, and social development across the life span. The course includes a consideration of cross-cultural, gender, familial, and historical perspectives as they relate to life span development. The course will focus on the interaction and relationships between genetic and environmental influences on human development. Course content areas will include personal and interpersonal growth across the life span, Adlerian birth order and family constellation theory, perception, attachment behavior, intelligence, cognitive development, moral development, and social interaction within a variety of systems. Students will explore the application of the aforementioned concepts to the practice of applied psychology throughout the course.

PSYC-505

Diversity and Individual Differences

3 Credits

Prerequisite: PSYC-500. In this course, students will examine the value and nature of diversity and individual differences within groups, communities, and global environments in contemporary society. The course will explore the meaning and dimensions of diversity from an individual and systems perspective and the various contexts of diversity at the individual, group, domestic, organizational, and global level. Concepts such as power, privilege, individual and group identity, age, gender, sexual orientation, culture, race, ethnicity, religion, socioeconomic status, and health and ability status will be examined. The course will emphasize experiential and theoretical learning, including self-reflection and the exploration of personal identity, so that students may develop and apply culturally and socially responsive skills and attitudes within their personal and professional lives. Research, theoretical frameworks, and models for understanding diversity and identity will be presented throughout the course for personal and professional development, and students will integrate diverse perspectives into their personal and professional practice as socially responsible practitioners within the field.

PSYC-506**Adlerian Psychology: Community Applications****3 Credits**

Prerequisite: PSYC-500. Adlerian Psychology takes an ecological approach to human functioning, focusing on health and wellness in the interaction between individuals and larger social systems. Dysfunction results from not having a well-developed sense of social interest and connectedness that leads to a misguided notion of place and withdrawal from effective functioning in work, social relations, and intimacy. This area of psychology is also primarily concerned with strength-based interventions and strategies that encourage collaboration across multiple systems and disciplines. In this course, students will explore the impact of Adlerian principles on quality of life for individuals, communities, and systems within diverse global communities. Students in the course will analyze contributions of Adlerian psychology in a holistic system including social interest/community feeling, belonging, functioning horizontally versus vertically, collaboration, inclusion, shared responsibility, shared commitment, mutual respect, shared ownership and problem solving, and the role of phenomenology in the creation of individual and collective mental models. Students will explore theory and research on community applications of Adlerian psychology as they address problems related to a range of pervasive social issues that impact the health and welfare of individuals, communities, and systems. This course will also include a consideration of intervention strategies that involve community needs assessment, program development and evaluation, community organizing, activism, fundraising, and policy analysis.

PSYC-509**Cognitive, Affective, and Biological Bases of Behavior****3 Credits**

Prerequisite: PSYC-500. This course explores historical and contemporary research on cognitive, affective, and biological determinants of behavior throughout the life span. Students will explore practical applications of research on brain development, emotional experiences, reality, perception, language, behavioral responses, learning, memory, and behavioral health functioning. This course will critically evaluate the impact of cognition, emotion, gender, and biology on self-regulation and well-being and will examine the biopsychosocial determinants of behavior within culture and society and through the context of socially responsible practice within communities.

PSYC-511**MA Capstone****3 Credits**

Prerequisites: INDS-503. The capstone course provides students with a unique opportunity to complete a project that will reflect their learning and training experiences throughout the program. This project will provide students with the ability to communicate socially responsible recommendations and solidify their intended contributions to the field of applied psychology. Students will identify a current or emerging social justice problem within the field of applied psychology and complete an applied research project that demonstrates their mastery of culturally competent engagement as a practitioner of social justice.

PSYC-512**MA Thesis****1-3 Credits**

Prerequisites: INDS-503. Course may be taken multiple times for Credit. The MA Thesis is a student-directed study conducted in consultation with an assigned Chair and Reader in an area of applied psychology with relevance to the curriculum. The research culminates in the completion of a scholarly paper of publishable quality in accordance with Adler University guidelines and standards outlined by the American Psychological Association. This course provides support and structure for the thesis process. Students will build upon the research which they proposed during the INDS 503, Research Methods course, prepare and complete a thesis proposal, conduct research, and defend their thesis.

PSYC-513**Multicultural Youth Development****3 Credits**

This course provides an overview of theory and techniques in youth development. The course offers an overview of the various social systems that affect child and adolescent development and well-being. Further, the course will address the natural development of children as they mature over time, along with the progressive maturational milestones that young people may experience. Students will also design programs to intentionally enhance, support, and facilitate the optimal development of young people or families. Students will examine development processes as they occur in cross-cultural contexts.

SCOM-512**Elements of Sustainability and Livable Communities****3 Credits**

This course focuses on formation and preservation of sustainable, healthy communities; the importance of leaders who understand the relationships between natural, built, and social environments; and the need to maintain these connections in holistic and integrative ways. Students learn the concepts of sustainability and healthy living and explore methods used to create and maintain communities, working to become environmentally, economically, and socially resilient and equitable. The course also explores ways to manage urban growth or shrinkage and promote alternative means of transportation, food production and access, affordable safe housing, and so on. Students define and explore these concepts through case studies and examples drawn from local communities.

MAMP-532**Psychology of Terrorism****3 Credits**

This course will introduce the students to the concepts, goals, strategies, ideologies, and psychological theories associated with terrorist groups. Emphasis will be placed on terrorist motives and on how terrorist actions have affected the course of history and current foreign and domestic policies. Different types of terrorist organizations will be examined based on various criteria: motives, means, objectives, geography, and others. Students will learn from this course why terrorism continues to be chosen as a mechanism for change in the United States and around the world, and how governments can work to limit its effects. Students will choose relevant topics for original research and will present information in small group presentations and a research paper.

MAMP-53**Psychological Consequence Management****3 Credits**

The purpose of this course is to educate the behavioral health professional in the mental health disaster response crisis counseling program model. This model differs significantly from the traditional mental health model. The behavioral health disaster response crisis counseling model is a specialized approach which requires distinct training. The skills, knowledge, and attitudes required for behavioral health disaster response and recovery crisis counseling are quite different from those needed in traditional clinical settings. This course will introduce the student to the behavioral health disaster response crisis counseling program model, the scope and limits of the program, the elements required for effective service system design, and the delivery of those services in an all-hazards disaster environment.

MAMP-53**Biodefense Security****3 Credits**

This course will provide an introduction to the ongoing efforts to implement U.S. biodefense preparedness. The range of premeditated and natural biological threats will be examined along with the surveillance systems designed to detect a chemical, biological, radiological or nuclear (CBRN) event. The role and capabilities of the World Health Organization (WHO), Center for Disease Control (CDC), and defense support to civil authorities are examined. Also examined are the public health system, public safety, law enforcement, and the health care delivery system in biodefense.

Responses and countermeasures to protect the country include legislation of health powers for dealing with public health emergencies and the Strategic National Stockpile (SNS) and SNS distribution plan. The consequence management of a CBRN event and coordination under the National Response Plan is covered.

SCOM-513

Tools for Sustainable Development 3 Credits

This course introduces students to skills needed for effective community leadership including tools, strategies, and skills needed when overseeing the creation and maintenance of sustainable communities. Students explore the fundamentals of strong leadership when building the capacity for community adjustments; assessing community needs, resources, and problems; constructing a community vision based in overall health; encouraging constituent interest and involvement; and implementing practices that improve sustainability in communities. Sustainability theories and models are presented in the course and used in the overall analysis of community development.

SCOM-514

Strategic Planning for Sustainability 3 Credits

In an increasingly complex world, leaders and managers in public and nonprofit organizations plan strategies to fulfill the organizational mission and enhance stakeholder satisfaction. This course examines the roles and practices of strategic planning, including partnerships, cooperation, and coordination. Students also examine the benefits, challenges, and pitfalls of strategic planning, while applying these planning concepts to real-life scenarios in the development of sustainable communities and the roles of nonprofit or public organization in this process.

SJP-515

Social Justice Practicum I 0.5 Credits

SJP-516

Social Justice Practicum II 0.5 Credits

SJP-517

Social Justice Practicum III 0.5 Credits

SJP-518

Social Justice Practicum IV 0.5 Credits

The Social Justice Practicum (SJP) is a nonclinical and non-discipline specific experiential practicum. Students gain the knowledge, skills, and perspectives to utilize collective power and social justice strategies to build a more equitable society. The SJP is designed to help students learn how to work alongside different communities as agents of social change and serves as the catalyst for students to realize and understand their own strengths and responsibility to contribute to social equity. The SJP unites our academic institution and larger communities, which is an anchor of student learning at Adler University. This experiential learning process includes attending monthly workshops to explore civics, intersectionality, and community organizing and completing a practicum at community-based organizations to work on projects that will strengthen the social justice missions of our community partner members. All students must complete the SJP before advancing onto any clinical or discipline-specific training, respective of the program in which they are enrolled. SJP requirements include: 1) completion of a minimum of 200 hours at an approved SJP site; 2) completion of online modules; 3) a formal SJP presentation at the Social Justice Symposium; and 4) students must receive a grade of "Pass" for the mid-term and final evaluation to receive Credit for completing the SJP. The SJP may not be waived and life Credit is not admissible to meet this requirement.

ADLER UNIVERSITY – ACADEMIC CALENDAR 2020-2021 ONLINE CAMPUS

(subject to change; please ensure you have the most up to date calendar located on the Registrar page on Adler Connect)

Fall I 2020: Monday, August 31, 2020 – Sunday, October 25, 2020

Vancouver campus

ADMISSION POLICIES AND PROCEDURES – VANCOUVER CAMPUS

Application Process

Adler University takes pride in its diverse student body, representing a wide range of professional interests, ethnic and cultural backgrounds, and academic and work histories. The University admits individuals with a record of outstanding academic achievement and a commitment to social responsibility. Ideal candidates for admission are those who will make a difference in their communities and the lives of the individuals and families they serve upon graduation.

All applicants should fulfill the minimum admission requirements for the program they choose and must demonstrate acceptable proficiency in spoken and written English. Applicants nearing completion of a baccalaureate degree may apply for early admission contingent on successful completion of the undergraduate degree.

Applicants must submit the following:

- Adler University Application for Admission
- Application fee
- Autobiographic essay/statement of purpose
- Resume or curriculum vitae
- Official transcripts from all colleges or universities attended
- Three letters of recommendation accompanying the Adler University recommendation form
- Graduate Record Examination (GRE) scores – recommended. (The GRE general test is required for applications to the Doctor of Psychology in Clinical Psychology program.)

Application forms can be completed online. Students submitting U.S. or Canadian transcripts should have official transcripts sent directly to the Office of Admissions, Vancouver Campus. Other international transcripts must be evaluated by a transcript evaluation service such as the WES-ICAP evaluation from World Education Service (wes.org) or Educational Credential Evaluators (ece.org). Please contact the Office of Admissions for specific transcript evaluation requirements.

Application Deadlines

While applications are accepted throughout the year, the following deadlines ensure that students receive full consideration. Programs fill early, and applicants are strongly encouraged to begin the application process at least six to 12 months before their desired term of entry.

VANCOUVER CAMPUS

Admissions Deadlines	Early Consideration	Priority	Space Available	Term of Entry
Psy.D. Clinical Psychology	December 1	March 15	Contact Admissions	Fall
M.A. in Counselling	N/A	February 15	Contact Admissions	Spring* and Fall
Master of Counselling Psychology	February 1	April 1	Contact Admissions	Spring* and Fall
M.A. in Counselling Psychology: School & Youth Concentration	N/A	February 15	Contact Admissions	Summer and Fall
Master of Counselling Psychology: School & Youth Concentration	February 1	April 1	Contact Admissions	Summer and Fall
Master of Counselling Psychology: Art Therapy	February 1	April 1	Contact Admissions	Fall
M.A. in Industrial and Organizational Psychology	February 1	April 1	Contact Admissions	Spring*, Summer, and Fall
Master of Industrial and Organizational Psychology	February 1	April 1	Contact Admissions	Spring*, Summer, and Fall
Master of Public Policy Administration	February 1	April 1	Contact Admissions	Spring* Summer, and Fall

*Applications for the spring term (January starting date) are accepted on a rolling basis.

Evaluation of Applicants

Completed applications will be reviewed by the Admissions Committee. Applicants who are approved by the Admissions Committee will then be scheduled for an interview with at least one member of Adler University faculty (PSYD interviews are normally scheduled with a panel of two Psy.D. faculty members).

Applicants are evaluated on many factors, including the following:

- Academic performance
- Content and clarity of written and verbal communication
- Strength of recommendations
- Personal and professional presentation throughout the admissions processes
- Community service interest and/or experience
- Professional and/or prior work experience
- Integrity, motivation, and personal ethics

Acceptance of Admission

Applicants who are offered admission to an Adler University, Vancouver Campus program have 15 days to accept the offer. Those who accept must return a signed statement of acceptance along with a \$300 (doctoral applicants) or \$200 (master's applicants) or \$3500 (international students) nonrefundable tuition deposit, which will be credited toward payment of the first term's tuition and fees. Applicants for admission may receive a refund of the tuition deposit if a letter requesting cancellation is received within five working days after their statement of acceptance is received by the University; otherwise, admitted applicants who choose not to enroll forfeit their deposit.

If a statement of acceptance is not received from applicants within the stated deadline, the offer of admission will no longer be valid, and the applicant's files will be inactivated.

Deferring Admission

Students who have been fully admitted into a degree program may be able to defer their admission for up to one year from their original term of admission. To defer admission, students must have their statement of acceptance along with the appropriate tuition deposit, a \$500 nonrefundable deferment fee, and a statement indicating why they would like to defer their admission on file with the Office of Admissions, Vancouver Campus.

Students who are approved to defer their admission will be notified in writing and will be subject to program requirements in effect at the time of the new application. Students who defer admission but do not matriculate will forfeit their deferred deposit fee and must reapply for admission as outlined in the Application Process section of the current catalog. The Office of Admissions, Vancouver Campus, does not maintain student files for students who do not enroll by their intended start date.

International Applicants

In addition to submitting a completed application, all transcripts from outside of North America must be evaluated by a transcript evaluation service, World Education Service (wes.org/ca) or Educational Course Evaluation (ece.org). All official transcripts and official translations if not in English, as well as a course-by-course international credential evaluation, must be submitted.

If you order the WES ICAP (wes.org/ca) course-by-course analysis, you will only be required to submit your official international credential evaluation to Adler University, as this service provides a verified copy of your official transcripts and translations to the University. Prospective students should send all transcripts and order the course-by-course analysis.

English Language Proficiency Assessment

Applicants whose first language is not English must submit scores from the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS). Students who have earned a bachelor's or master's degree in an accredited program in Canada or the United States may not be required to take the TOEFL.

Applicants must request that language proficiency test scores be sent directly to the University by the testing service. These test results are valid for two years only.

TOEFL (ets.org/toefl)

The Adler University, Vancouver Campus, code number for receiving test scores is 6215. Applicants who take the paper-based TOEFL must receive a minimum score of 580. Applicants who take the computer-based TOEFL must receive a minimum score of 240. Applicants who take the Internet-based TOEFL must receive a minimum score of 92, with a score of at least 22 on each of the four sections.

IELTS (ielts.org)

Applicants who take the IELTS must receive a minimum Academic score of 7 overall, with no band score lower than 6.5.

PTE (pearsonpte.com)

Applicants who take the PTE must receive a minimum Academic score of 62 overall.

International students, whose first language is not English, are required to receive a score of 88 or better on the iBT (Internet based) TOEFL or 6.5 (overall) on IELTS. Students with IELTS 6.5 overall & 6.0 in writing, or 6.0 overall, are required to successfully complete a 12-week, non-credit Graduate Preparatory Program.

Graduate Preparatory Program

The Graduate Preparatory Program, comprised of three, non-credit courses, focuses on a unique blend of academic and business English, ensuring students are able to study, and complete assignments and examinations with confidence in the fields of public policy/administration and industrial organizational psychology. Specific academic skills, such as essay writing, research methods, note taking, critical thinking and seminar or tutorial discussion, will provide a strong foundation for our students. Material in the course will cover current affairs and/or incorporate relevant public policy issues as well as key topics in industrial organizational psychology to bridge academic training with practical knowledge. Students can meet the English proficiency requirements for admission to our degree programs by successfully completing the 12-week Graduate Preparatory Program.

Study Permit

International students possessing citizenship from a country outside of Canada must apply for a study permit. For more information, please contact cic.gc.ca. Once enrolled in an Adler University program, students must pay tuition and fees according to the University's payment schedule.

Working Off Campus – International Students

International students studying at Adler University's Vancouver Campus qualify to work off campus.

Students-at-Large / Non-Degree Seeking

Students who wish to take classes for personal pursuit not related to a degree program at Adler University, or qualified graduate students and mental health professionals, may be admitted as students-at-large/non-degree seeking (SAL/NDS) students, although this is not an option for courses within

the PSYD program. Qualified professionals may take courses as SAL/NDS students for continuing education credit or for professional enrichment, as long as they meet the minimum eligibility for admission. Graduate students in psychology-related degree programs at other regionally accredited institutions bear the responsibility of verifying with their home institutions whether Adler courses will be transferred back and accepted for credit.

Applicants for SAL/NDS status must submit a completed application, nonrefundable \$50 application fee, an autobiographical essay/personal statement, a resume or curriculum vitae, and official transcripts from all undergraduate and graduate schools attended. Applications will be reviewed by the Admissions Committee, and acceptance to take courses in a program will be authorized by the Program Director. Prospective students will not be allowed to register until they have been approved for admission as an SAL/NDS student. If admitted as SAL/NDS, a student may complete a maximum of nine credits within one academic year and must comply with all prerequisites and course requirements as given in the Adler University Catalog. The course selection will need to be authorized by the Program Director, who can deny access to particular courses (e.g., clinical courses).

Graduates of Adler University degree programs who are approved as SAL/NDS students may take up to 18 credits within one academic year. SAL/NDS students are not eligible for financial aid and may not enroll in courses that are reserved for students fully admitted to particular degree programs. Appropriate courses taken for credit may apply toward completing a degree for SAL/NDS students who are admitted to a degree program within one year of completing SAL/NDS courses. Successful completion of coursework, however, does not guarantee admission to a degree or certificate program. A student-at-large whose application to a degree or certificate program has been denied may not enroll in further courses or continue as a student-at-large.

Because students-at-large are limited to a total of nine credit hours of coursework within one academic year, persons who plan to pursue a degree or certificate program should apply for admission at the earliest opportunity. Students-at-large who have completed nine credit hours of courses may not register for additional courses until such time as they have been formally admitted to a degree or certificate program. Those who seek admission to a degree or certificate program within one year of completing their last course as SAL/NDS students, will not be required to pay an additional application fee for the admissions application, but they will be required to submit additional information as is required to make that degree program application complete.

Changing or Adding Programs

Doctoral students may apply to add a master's degree program, and master's degree students may apply to change from one Adler University master's degree program to another by submitting the appropriate application forms. Students must satisfy admission requirements for the degree or certificate program at the time of application to the new program. Acceptance into and/or successful completion of one degree or certificate program neither constitutes, nor guarantees, admission to another program. A particular master's degree program can limit or restrict changes/transfers into their programs.

Master's degree students who wish to apply to a doctoral program are encouraged to have completed at least 24 credit hours of graded coursework and be actively engaged in a clinical practicum before applying. Students are required to submit a doctoral program application, meeting all deadlines and requirements of that program (please see above). Students from master's programs who have been accepted to a doctoral program must complete all requirements for their master's degree no later than one year after acceptance.

Readmission

Students who were previously enrolled at Adler University but withdrew from their degree program, or were administratively withdrawn, may submit a new application for admission no less than one year from the date of withdrawal and will be evaluated according to current admission requirements (assuming their administrative withdrawal did not prohibit readmission). If readmitted, applicants/students are subject to the program requirements in effect at the time of the new application. This also applies to students who seek to return to the University following a withdrawal in good standing.

When previously withdrawn students are granted readmission to Adler University, or when alumni apply for admission to a different program, a case-by-case review of the student's prior academic record will be done to determine whether credit can be granted for formerly completed coursework. Many factors are pertinent to the University's determination to give credit for previously completed coursework, including but not limited to: (1) the length of time that has passed since the coursework was originally completed; (2) the grade earned in the course; (3) the performance evaluation completed by the student's advisor/supervisor; and (4) curriculum changes that may have occurred and been formally instituted since the student's withdrawal from the University. There are no fixed and absolute rules regarding granting credit for previously completed coursework. Instead, a formal review of the unique academic and training history of each applicant will occur, and a determination will be made at the discretion of the Admissions Committee in consultation with the Program Director. A formal audit of previously completed coursework will be undertaken only after enrollment into a degree program.

Transfer Credit

Students accepted for admission may be granted transfer credit for graduate-level courses previously taken at another accredited institution. Upon enrollment into a degree program, a review of the unique academic and training history will occur, and a determination will be made at the discretion of the University. Requesting transfer credit is an extensive process that involves a review of previous academic work, including syllabi and grades earned. It is Adler University policy that transfer credit must be requested with all supporting documentation received by the end of the second semester of enrollment (for the PSYD program, transfer credit applications are only accepted prior to commencement of the degree and following acceptance and deposit by the student).

Transfer of credit is subject to the following conditions:

1. Transferred course credit is restricted to graduate-level courses from recognized, regionally accredited degree-granting institutions.
2. Completed course matches at least 80 percent of the content of the course requirement.
3. Number of credits earned for the completed course matches or exceeds number of credit hours for the requested course.
4. Transfer of credit is not granted for practicum or internship.
5. Transfer of credit is granted only for courses in which the grade earned was a B or higher. Pass/fail or credit/no credit courses are ineligible.
6. Rarely will credit be transferred for coursework that is more than five years old.

A maximum of 12 credit hours from other accredited institutions may be transferred into a master's program, and a maximum of 24 credit hours may be transferred into the Doctor of Psychology (PSYD) in Clinical Psychology program. Transfer credit decisions evaluated for the PSYD involve use of additional criteria that are clarified in the PSYD Transfer Credit policy that is shared with accepted and deposited students. Students will be charged a transfer of credit fee for each course evaluated for transfer consideration. Please reference the current schedule of fees and tuition schedule for transfer of credit fee information.

ACADEMIC POLICIES AND PROCEDURES – VANCOUVER CAMPUS

Class Attendance

Students are responsible for regular and punctual attendance during each class session. Students who expect to miss or arrive late for a class must notify the instructor in advance. Students whose absence or tardiness affects the quality of their work, or the work of the class, may be given a lower grade. Students who miss more than two classes in a semester, for courses that meet once a week over a fall or spring semester, may receive a grade of F (fail). For courses that meet on a weekend intensive format, which involves three or fewer class meetings in a semester, missing one class will result in a grade of F (fail). For courses that meet once every other week (e.g., seven full-day class meetings) over a fall or spring semester, students who miss more than one class in a semester may receive a grade of F (fail). Due to the unique structure of the practicum seminar courses, students who miss more than one class session in a semester may receive a grade of NC (no credit) and be referred to the Training Committee for review.

Summer Term: Students who miss more than six hours of classroom instruction in the summer semester, for courses that meet once a week over a 12-week semester, may receive a grade of F (fail). For courses that meet on a weekend intensive format, which involves three or fewer class meetings in a semester, missing one class may result in a grade of F (fail). For courses that meet once every other week (e.g., six full-day class meetings over a 12-week semester), students who miss more than six hours of classroom instruction in a semester will receive a grade of F (fail). Students who receive a grade of F (fail) for any course must repeat the course

Application of the Attendance Policy

The above policies establish the obligations of students to adhere to class attendance standards and the rights of instructors to give students lower or failing grades for breaches of the policy. The policy is on an honor system where students are expected to be present for all classes and will notify the instructor if absent. Faculty may use their discretion on how to track attendance and recognize the honor system.

Instructors consider extenuating circumstances and/or student accommodation needs when applying the class attendance policy and, therefore, have some discretion in providing accommodations to students whose attendance breaches the standard. Instructors may develop an alternative plan for students who are unable to comply with the attendance policy, but only if the plan enables the student to meet the course exit competencies.

Statement of Student Responsibilities

Adler University expects that students will:

1. Adhere to all applicable University policies and procedures
2. Uphold all rules applicable to conduct in off-campus settings, including clinical, field, internship, and in-service activities
3. Abide by all local, provincial, and federal laws
4. Maintain academic honesty and integrity
5. Comply with all ethical and professional standards applicable to their program of study
6. Contribute actively to the process of learning, including complying with attendance or participation requirements, completing assignments, and preparing for class
7. Conduct themselves in an ethical, professional, and civil manner
8. Demonstrate respect for the rights of others
9. Regularly monitor their student accounts

Academic Status

ACADEMIC GOOD STANDING

To remain in academic good standing, a student must:

1. Maintain consistent enrollment
2. Take a course load that ensures steady movement toward degree completion within the maximum time limits outlined in the catalog
3. Meet all academic, comportment, and professional standards as well as applicable program requirements
4. Maintain a minimum cumulative grade point average of 3.5 on a 4.0 scale

ACADEMIC PROBATION

Students will be referred by the Office of the Registrar to their Academic Advisor for Academic Probation if any of the following conditions occur:

1. Earn two grades or more in the range of C to B
2. Earn a single D, F, or NC grade without a prior history of low grades (B or B+)
3. Earn three or more grades of B+.
4. Fall below a minimum cumulative GPA of 3.5 on a 4.0 scale

The transcript of a student who has been referred to the Faculty/Academic Advisor based on the above criteria will carry the notation of "Academic Probation" for a minimum of two consecutive terms.

ACADEMIC DISMISSAL

Students will be referred to their Academic Advisor for consideration of Academic Dismissal based on the following:

1. Earn two or more grades of D, F, or NC
2. Earn a third grade of B, B-, or C
3. Fail to maintain a minimum cumulative GPA of 3.5 on a 4.0 scale for two semesters
4. Fail to comply with any prior academic remediation plan

The transcript of a student who has been dismissed will carry the notation "Academic Dismissal." Students who have been dismissed for academic reasons are ineligible to reapply to the University.

Satisfactory Progress

To maintain Satisfactory Progress, students must remain consistently registered until completion of all degree requirements and take a course load that ensures steady movement toward degree completion within the maximum time limits for the program.

Students who fail to register each term may be administratively withdrawn from the University, and "Administrative Withdrawal" will be indicated on the transcript.

Master's students should complete a minimum of 12 credit hours every 12 months and must satisfactorily complete all of the requirements for graduation within five years of the date of first registration following admission to the program. For degree programs with more than 60 total credits, students may need to take up to 14 credits every 12 months in order to complete their degree requirements within five years.

Doctoral students should complete at least 18 credit hours every 12 months and satisfactorily complete all requirements for graduation within seven years of the date of first registration following admission to the program. Students enrolled in dissertation or internship are considered to be maintaining minimum credit requirements for satisfactory academic progress.

Student Referral Policy

Adler University requires all students to uphold the highest standards of academic, personal, and professional conduct, as outlined in the Student Conduct and Comprehensive Evaluation Statement (SCCES) signed at orientation and Student Responsibility Statement (SRS) located in the Student Handbook. The Student Referral Policy applies to all academic, professional, and training-related conduct of students, including online, on campus, and at the training and professional sites. The University reserves the right to exercise jurisdiction over events or actions occurring off campus, or in virtual communities where Adler University's community interest is affected. This policy is designed to contribute to the personal as well as professional growth of the students and to ensure the welfare of the University and its related communities. When students breach one or more of the Student Responsibilities as outlined in the SCCES and SRS, any member of the Adler community can alert the respective Program Director by submitting a Student Incident Referral form. Other members of the Adler academic community also can report student breaches of other pertinent conduct, classroom, or academic policies. In the event of challenges in Academic Status as described in our policies related to Academic Probation and Academic Dismissal, the Office of the Registrar will contact the student's Faculty/Academic Advisor who will advise the Program Director.

The Program Director will determine the level of severity of the concern in accordance with the respective policy (e.g., Academic Status, SCCES, SRS, or other policies) and direct the referral to either a program-level or campus-level response, as outlined below.

Program-Level Response

There are two possible program-level responses: Faculty/Academic Advisor response or a Student Development Committee response. The Program Director in consultation with the student's Faculty/Academic Advisor will decide which of the responses would be most effective given the details of the referral.

- **Faculty/Academic Advisor:** The Faculty/Academic Advisor works with a student on either academic and/or comportment-based referrals. The Advisor, in consultation with the Program Director, can decide to place a student on probation, which is an early and structural assistance plan to support students in successfully navigating the policy breach and completing their program. Referral from the Office of the Registrar based on academic standing will minimally result in probation. Failure to successfully fulfill the remedial action plan outlined in the probation can lead to referral to either the Student Development Committee or the Student Comprehensive Evaluation Committee, or to a recommendation for dismissal from the program.
- **Student Development Committee:** The Student Development Committee (SDC) is a program committee that monitors a student's Academic Status and compliance with Student Responsibilities in either the SRS or the SCCES, and other pertinent policies. The SDC reviews supporting documentation (e.g., grade reports, incident forms, policy breaches), determines the level of severity of the concern, places a student on probation, and directs the student to take remedial action. Failure to successfully fulfill the remedial action plan outlined in the probation can lead to referral to the Student Comprehensive Evaluation Committee, or a recommendation for dismissal from the program.

Campus-Level Response

The Program Director, in consultation with the student's Faculty Advisor, can decide to refer the student to the Student Comprehensive Evaluation Committee (SCEC), a cross-program committee struck at the request of the Executive Dean. SCEC deals with serious or repeated breaches of policy (e.g., Academic Good Standing, SCCES, SRS). SCEC will evaluate the referral and deliver a decision on the outcome, which could include a plan for remediation if appropriate, or dismissal from the program.

Appeals

Students may appeal the referral outcomes by following the General Student Grievance and Appeal Policy (Vancouver Campus) as outlined in the Student Handbook, posted online at Adler Connect under Student Affairs.

Qualifying Examinations

In addition to satisfying coursework, practica, and other program requirements, master's and doctoral programs require qualifying exams that differ by program. Please consult the requirements for each program. Qualifying examinations are important requirements, providing students with the opportunity to integrate course material and practical training, reflect on the educational and training experiences, and apply their learning to clinical and social issues. In addition, the exams enable faculty to evaluate students' progress toward expected learning outcomes.

Registration

Term schedules are published and updated online via Student Planner. Students register online, and registration deadlines are published each term. Please consult the academic calendar for specific dates. Grades and credit are forfeited if a student is not officially registered for a course or exam. Students who wish to take more than 15 credits within a semester must receive written approval from their Program Director or Faculty/Academic Advisor. Students wishing to add courses or exams after the published add/drop period must submit a written request and written approval from the course instructor via email to the Office of the Registrar. Payment in full is due to Student Finance before the course or exam can be added to the student's academic record. Financial aid recipients should consult with the Office of Financial Aid. Students risk forfeiture of all earned grades if they are not officially registered for a course or exam.

Course Drop and Withdrawal

Students wishing to drop a course or exam must do so via the University's online registration system, Student Planner, during registration week. Students wishing to drop a course after registration week must do so in person or via email by submitting the appropriate forms to the Office of the Registrar.

Notifying your instructor or ceasing class attendance does not constitute an official drop or withdrawal. The official date of the withdrawal is the date the drop is processed online via Student Planner, or the date the drop form is received by the Office of the Registrar.

Please consult the academic calendar for the deadline to withdraw from a class.

Students who stop attending class, or fail to complete an exam without submitting an official drop or withdrawal form, will receive a grade of F, NC, or NP for the course. In addition, students may not withdraw from a course or exam after the published end date of the course or due date of the exam.

A drop fee is charged for courses dropped during the add/drop period. Students who drop a course or exam during the add/drop period may receive refunds in accordance with the established refund policy. Students who are administratively withdrawn may receive a prorated refund. No refunds will be made when students stop attending class without officially withdrawing from the course.

Leave of Absence

Students may take a leave of absence (LOA) due to illness or other extenuating circumstances by completing a Leave of Absence form, including necessary signatures, and submitting it to the Office of the Registrar.

An LOA may be taken for up to three terms (one calendar year). If a student has accepted a practicum or internship prior to requesting a leave, or is completing a practicum/internship at the time of the request, the student must contact the program's training faculty and/or Manager, Community Action & Engagement prior to submission of the form to the student's Faculty/Academic Advisor. Also, any active Incomplete Agreements in the student's program must be resolved prior to this program arrangement.

The LOA will be noted on the student's transcript for each term until the student returns to the University. Time approved for an LOA does not impact the maximum time allowed for degree completion.

In order for a financial aid recipient to be approved for an LOA, the student must file the appropriate paperwork with the Financial Aid Office. Students are required to speak with the Office of Financial Aid before requesting an LOA in order to receive full information regarding the procedure and the results of the LOA.

Students who do not return from an LOA by the agreed-upon term may be administratively withdrawn from the University. In order to be readmitted, administratively withdrawn students must submit a new application for admission no sooner than one year after the date upon which they were dismissed and, if admitted, must follow the program requirements in effect at the time of the new admission.

Administrative Withdrawal

Once enrolled, students are expected to maintain good academic standing, meet all Student Responsibilities, maintain Satisfactory Progress, and register each term until completing the program in which they have been admitted. Students who fail to register for each consecutive term may be administratively withdrawn from the University. The University also retains the right to administratively withdraw students whose accounts are past due and to charge all associated fees.

"Administrative Withdrawal" will be noted on the transcripts of students who have been administratively withdrawn. Students who have been administratively withdrawn and wish to be reconsidered for matriculation must submit a new application for admission no sooner than one year after their administrative withdrawal and, if admitted, must meet the program requirements and policies in effect at the time of the new admission. Students readmitted to the University may be eligible to receive up to 24 credits for coursework completed either at Adler University or another institution. Students who wish to appeal the decision of administrative withdrawal can follow the procedures of the Student Grievance and Appeal Policy posted online at adler.edu.

In the event a student is administratively withdrawn from the University, the Office of Financial Aid is required by federal law to recalculate a student's eligibility for U.S. financial aid awards. A calculation is used to determine the amount of "earned" and "unearned" aid based on the effective date of the administrative withdrawal. If a student completes 60 percent or less of credits taken during a term, the Office of Financial Aid determines the amount of "earned" aid based on the proportion of credits successfully completed within the term. If a student successfully completes more than 60 percent of the credits taken in a term, they are considered to have earned 100 percent of the awards disbursed for the term.

"Unearned" awards must be returned to the lender. The student is responsible for repaying the University for any balances owed as a result of the return of financial aid funds.

Withdrawal in Good Standing

Students may withdraw from Adler University in good standing by completing the Student Withdrawal form and submitting it to the Office of the Registrar. To withdraw in good standing, students must be in Academic Good Standing

at the time of withdrawal, have completed all requirements for courses and clinical work for which they are registered, and may not be subject to pending disciplinary or academic inquiries. "Withdrawal" is noted on the transcript. Former students who wish to return to the University after withdrawing in good standing must submit a new application for admission and, if admitted, must follow the policies, procedures, and program requirements in effect at the time of the new admission. Students readmitted to the University may be eligible to receive up to 24 credits for coursework completed either at Adler University or another institution.

Grading System

Traditional letter grades are given for most courses offered. A limited number of courses are evaluated on a credit/no credit basis. The grading system is as follows:

VANCOUVER CAMPUS

Grade	Description	Grade Point
A+		4.25
A	Excellent	4.0
A-		3.75
B+	Satisfactory	3.5
B		3.0
B-		2.75
C		2.0
D	Unsatisfactory	1.0
F	Failure	0.0
AU	Audit	0.0
CR	Credit	0.0
NC	No Credit	0.0
I	Incomplete	N/A
IP	In Progress	N/A
TR	Transfer	N/A
W	Withdrawal	N/A
WNC	Withdraw No Credit	N/A

Only two grades of C, and no grades of D, F, NC, or AU may be counted toward completion of degree requirements. A maximum of six credit hours may be repeated to remediate deficient grades and qualify for graduation. Both the original course grade and the repeated course grade will be calculated in the overall grade point average, and both will appear on the transcript.

Receipt of one or more I (incomplete) grades may preclude students from enrolling in subsequent terms, may render the student ineligible for federal student aid, and may result in the student being referred to the student's academic advisor.

If the coursework is not successfully completed within the time limit established by the instructor (less than one term, or within one term following the course), the incomplete grade will be changed to an F (fail) or NC (no credit).

Audit

Students registered to audit a course will receive, upon successful completion of the course, a designation of "AU" on their transcripts, which signifies neither credit nor a grade. Students cannot change an audited course to the credit option after the add/drop period ends. Audited courses do not count toward graduation requirements and are not eligible for financial aid. Once an audited course is completed, it cannot be changed

to credit at a later time. Decisions to allow students to audit courses are made by the Program Director of the respective program. The PSYD program does not permit auditing of coursework at this time.

Credit/No Credit

A grade of CR (credit) is assigned upon satisfactory completion of undergraduate prerequisite classes, professional development seminar, practicum seminars, practicum/ internship requirements, qualifying examinations, master's thesis, and the doctoral dissertation. A grade of NC (no credit) is assigned upon unsatisfactory performance in practicum or a course offered on a credit/no credit basis. Grades of CR are not used in calculating the grade point average; however, grades of NC are used in calculating the grade point average and are considered failing grades for the purposes of Academic Satisfactory Progress.

In Progress

A temporary grade of IP (in progress) can be given to students who are engaged in field experiences, thesis, or courses in which completion of work may typically be expected to exceed the end of the term. The IP will be removed from the transcript when the final grade has been posted.

Incomplete

An I (incomplete) grade will be granted only in exceptional situations when requirements for a course cannot be completed in the time allowed. An incomplete grade is allowed only with the written consent of the instructor and indicates that the student has presented a satisfactory reason for receiving an incomplete grade. Students must request an incomplete grade prior to the due date of the final requirement of the class in question.

For an incomplete grade to be granted, students must file a completed Incomplete Grade Agreement form with the instructor. The form states specifically what the student must do to satisfy the course requirements, including the instructor's grading criteria and the agreed-upon completion date. The maximum time limit for finishing incomplete work is the end of the following term. The student and instructor must sign the agreement, and must inform the student's academic advisor. The instructor must submit the form to the Office of the Registrar.

Grade Corrections/Grade Appeals

Once a grade has been recorded on the student's academic record, additional work cannot be submitted to change the grade. To change an incorrectly recorded grade, students can notify the course instructor. In order for the grade to be changed, instructors must secure the approval and signature of their immediate supervisor (e.g., Program Director). Grade Change forms should be submitted to the Office of the Registrar.

Students may file a grade appeal by following the procedures of the Grade Appeal Policy, which is posted on Adler Connect in the Student Handbook.

In addition, if a student is appealing a grade for a course that is a prerequisite for a subsequent class, they cannot register for, or attend subsequent classes, until the grade for the prerequisite has been resolved.

Grade changes or alterations to student records are not permitted after a degree has been officially posted to the academic record.

TUITION AND FEES – VANCOUVER CAMPUS**2020–2021 TUITION AND FEES SCHEDULE****Admission Fees and Deposits (in Canadian Dollars)**

Admissions Application Fee (nonrefundable)	\$ 30
Deposit (nonrefundable) – Master's programs (will be applied to first semester's tuition)	\$ 200
Deposit (nonrefundable) – Psy.D. program (will be applied to first semester's tuition)	\$ 300
Deposit (nonrefundable) – International Students	\$ 3500
Start Date Deferral Fee (nonrefundable)	\$ 500

Tuition

Tuition – Standard Master's (per Credit Hour)	\$ 1000

Late Payment Fee (% of past due balance)	2%

*applicable to all international students

Payment Information – Vancouver Campus

METHODS OF PAYMENT

In Person: Payment may be remitted in person on campus through the Student Accounts Office. Payment can be made through Interac, cheque, or money order. Cheques are to be made payable to Adler University. Unless otherwise indicated, tuition and fees are listed in Canadian dollars, and remittance must be made in Canadian dollars.

By Mail: Cheques are to be made payable to Adler University. Unless otherwise indicated, tuition and fees are listed in Canadian dollars, and remittance must be made in Canadian dollars.

Mailed payments must be received by the Student Accounts Office by the scheduled due date, which is listed on the tuition payment form. Please allow adequate time for mailing. Payments postmarked on or before the due date will have any and all late payment fees waived, if applicable.

Payments made by cheque or money order should be mailed to:

Adler University
ATTN: Office of the Registrar
520 Seymour Street
Vancouver, BC V6B 3J5

Tuition and fees are due and payable two weeks after the registration period ends. Payments made to the University are first applied against any previously existing balance, then to current charges.

Students are responsible for all tuition and fees at the time due regardless of pending employer or third-party reimbursement unless other financial arrangements have been made. Students receiving financial aid funds are responsible for submitting payment for all tuition and fees that will not be covered by the amount of aid anticipated.

Payment plans (deferred monthly installments) are available. Interested students can contact the Student Accounts Office for more information. Inquiries should be initiated prior to the published tuition due date.

Late Payment Charge: Students understand and agree that if they fail to pay their student account bill, or any monies due and owing Adler University by the scheduled due date, Adler University will assess late payment and/or finance charges at the rate of two percent (2%) per month on the past due portion of their student account until their past due account is paid in full.

Students whose financial accounts are delinquent are not eligible to register for subsequent terms, begin a practicum or internship, obtain transcripts, or graduate until all outstanding balances are paid in full. The University retains the right to administratively withdraw students whose accounts are past due and to charge all associated fees. It is the policy of Adler University to submit delinquent accounts to external collection agencies.

Tuition Refund Policy – Vancouver Campus

Students who have officially withdrawn from the School or specific courses, may be entitled to a tuition refund to be paid within 14 business days of receipt of the official withdrawal or drop request. Refunds will be based upon the total charge incurred rather than the amount paid by the student. The percentage of tuition refunded, excluding the non-refundable tuition deposit and all other fees, is determined in accordance with the following schedule:

- End of 10th calendar day of the course period 100%
- 11th calendar day of the course period through the end of the term 0%

To initiate a refund, written notice must be provided:

- By a student to the institution when the student withdraws; or
- By the institution to the student where the institution dismisses a student

*Refund entitlement is calculated on the total fees due under the contract, less the applicable non-refundable application or registration fee. Where total fees have not yet been collected, the institution is not responsible for refunding more than has been collected to date and a student may be required to make up for monies due under the contract.

Adding / Dropping Courses

To add or drop a course, students must submit their request via email to the Registrar and pay the required fee. Students are permitted to add a course prior to the first class session; enrollment is not permitted once a course begins. Students who wish to drop a practicum or internship course must have prior approval from the Manager, Community Action & Engagement or Director of Training. There is a fee of \$70 for adding/dropping a course(s) after the registration period.

CANADIAN FINANCIAL AID – VANCOUVER CAMPUS

Student loans offered by the Canadian government help students pay for their post-secondary education. Canadian students (including permanent residents, landed immigrants, and protected persons) apply for loans through their home province or territory.

Government student loans take into consideration many factors, including:

- Income and assets
- Tuition, mandatory fees, and book costs
- Living expenses

University Information for Loan Applications

- University Code: APRY
- Program Code for MACP: WAG5
- Program Code for MCP: XCZ5
- Program Code for MCP/MACP-SY: WAG6
- Program Code for MAIOP/MIOP: ZID5
- Program Code for MPPA: WFJ5
- Program Code for PSYD: XCZ6

Course Load Information

Students must be enrolled in six credits of course work in order to apply for a full time student loan application. A six-credit course load would be equivalent to a 60% of a full time course load. To stay eligible for loan or grant funding you must attend school full time for the entire period for which you have received funding.

STUDENTS FROM BRITISH COLUMBIA

StudentAid BC provides assistance in the form of Canada Student Loans or a combination of Canada Student Loans, B.C. Student Loans, and possibly grant funding. The amount and type of assistance awarded is based on need as assessed by the Provincial Authority. It takes approximately six weeks to process a student loan application. Students are therefore advised to apply early. Submitting online applications can speed up the approval process. Students are reminded that this is an assistance program aimed at complementing, not replacing, their own financial resources. To be eligible for StudentAid BC student loan funding, students must be registered in 60 percent of a full course load (see curriculum sequence for your program), or 40 percent for students with permanent disabilities.

HOW TO APPLY

Students from British Columbia can apply online through studentaidbc.ca to be considered for federal and provincial loans and grant funding.

HOW MUCH LOAN FUNDING WILL I RECEIVE?

The amount of funding you receive depends on the financial information you submit in your online application. After you have submitted your application, you will receive an assessment from SABC. This assessment will tell you how much funding you are eligible for and when you will receive it.

STUDENTS OUTSIDE BRITISH COLUMBIA

Students from a province or territory other than British Columbia are eligible to receive government student loan assistance, but they must apply through their home province.

GRANTS, SCHOLARSHIPS, AND OTHER FINANCIAL SUPPORTS

There are many programs available that can help with the cost of post-secondary education. For a list of eligible programs please visit <https://studentaidbc.ca/explore/grants-scholarships> or inquire through your home province.

INTERNATIONAL STUDENTS – VANCOUVER CAMPUS

International students attending the Vancouver Campus are not eligible for Canadian federal or provincial student loans. However, international students are eligible to work off campus through the Citizenship and Immigration Canada (CIC) off-campus work permit program. For more information about this program, please visit cic.gc.ca/english/study/work-offcampus.asp.

PROGRAMS OF STUDY – VANCOUVER CAMPUS

Master of Arts (M.A.) in Counselling Psychology

Master of Counselling Psychology

Master of Arts (M.A.) in Counselling Psychology: School and Youth Concentration

Master of Counselling Psychology: School and Youth Concentration

Master of Arts (M.A.) in Counselling Psychology: School and Youth Concentration (Long Program)

Master of Counselling Psychology: School and Youth Concentration (Long Program)

Master of Counselling Psychology: Art Therapy

Master of Arts (M.A.) in Industrial and Organizational Psychology

Master of Industrial and Organizational Psychology

Master of Public Policy and Administration

Doctor of Psychology in Clinical Psychology

MASTER OF ARTS IN COUNSELLING PSYCHOLOGY (MACP)

Program Overview

The Master of Arts in Counselling Psychology (MACP) degree program, in alignment with Adler University's scholar-practitioner model, prepares students to be knowledgeable and effective in the application of foundational theories and methods of counselling practice. The program offers comprehensive and personalized graduate degree training that qualifies students to practice as counselling professionals in primarily a Canadian context. There is an emphasis on developing self-reflexive and ethically aware practitioners who are educated both theoretically and practically in socially responsible practice.

There are five program objectives: (1) to train graduates to ethically assess and skillfully intervene to support psychological and emotional well-being in a wide range of populations with the attitudes, knowledge, and skills needed to work professionally with diverse clients; (2) to train graduates to use self-reflexivity, self-awareness, and lifelong learning for personal and professional development and competence; (3) to develop graduates who have learned how to critique the literature and can apply literature-based and research-based foundations of counselling psychology practice to their work; (4) to develop graduates who embrace a socially responsible counselling practice and who have the ability to identify and apply goals and tasks that further social justice and foster inclusive and healthy communities rooted in Adler University's mission towards social interest; and (5) to prepare graduates with the theoretical and scholarship foundations for further academic study at the doctoral level.

This comprehensive program can be completed in a two-year period as a full-time student, including summer terms, if courses are completed according to the curriculum sequence below. This program is identical to the Master of Counselling Psychology but requires the successful completion of a thesis.

Graduates of the program are well prepared for a wide variety of mental health positions in human service agencies and organizations in both the public and private sectors.

Graduates of this program are eligible to apply for membership registration with the British Columbia Association of Clinical Counsellors (bc-counsellors.org) and/or the Canadian Counselling and Psychotherapy Association (ccpa-accp.ca). Students are advised that licensure requirements are under review in various jurisdictions in Canada, and students are encouraged to regularly consult about current requirements. Students are advised to consult with the Training Director prior to starting the clinical practicum, as individual practicum training experiences may differ, and some students may need additional postgraduate experience or supervision hours to meet certification requirements. Students who intend to practice in locations other than the province of British Columbia are also encouraged to consult with the appropriate association, agency, or board relevant to local certification or licensure requirements.

Degree Requirements

Successful completion of the following courses is required for this degree:

* MACP-200	Professional Development Seminar I	1 cr.
* MACP-201	Professional Development Seminar II	1 cr.
* SJP-202	Social Justice Practicum I	1 cr.
* SJP-203	Social Justice Practicum II	1 cr.
SJP 204	Social Justice Practicum Continuation (as needed)	0 cr.
MACP-337	Group Psychotherapy	3 cr.
* MACP-402	Introduction to Adlerian Psychology and Psychopathology	3 cr.

* MACP-472	Basic Counselling Skills and Interventions	3 cr.
* MACP-473	Pre-practicum Counselling Skills Lab**	0 cr.
* MACP-474	Advanced Counselling Skills and Interventions	3 cr.
MACP-495	Research in Counselling Psychology	3 cr.
* MACP-505	Ethical Practice in Counselling Psychology	3 cr.
MACP-506	Master's Practicum I	1 cr.
MACP-507	Master's Practicum II	1 cr.
MACP-508	Master's Practicum Seminar I	2 cr.
MACP-509	Master's Practicum Seminar II	2 cr.
PCO- 610	Practicum Continuation (as needed)	0 cr.
* MACP-516	Individual Appraisal for Counsellors in Practice	3 cr.
* MACP-517	Trauma Theory and Practice	3 cr.
* MACP-520	Theories of Psychotherapy	3 cr.
* MACP-641	Multicultural Counselling for Diverse Populations	3 cr.
* MACP-647	Biopsychosocial Bases of Health and Dysfunction	3 cr.
MACP-663	Effective Couple and Family Counselling	3 cr.
MACP-671	Structural and Sociocultural Bases of Health and Dysfunction	3 cr.
MACP-995	Master's Clinical Qualifying Examination	0 cr.
MACP-525	Preparation for the M.A. Thesis	1 cr.
MACP-526	M.A. Thesis I	1 cr.
MACP-527	M.A. Thesis II	1 cr.
MACP-528	M.A. Thesis III	1 cr.
MACP-529	M.A. Thesis Continuation (as needed)	0 cr.

Clinical Elective Course Options (Students must select two)

MACP-438	Introduction to Addictive Disorders	3 cr.
MACP-569	Lifestyle and Career Development	3 cr.
MACP-673	Advanced Adlerian Psychotherapy	3 cr.
MACP-674	Introduction to Sex Therapy	3 cr.
MACP-676	Introduction to Depth Psychology and Psychotherapy	3 cr.

Total Credit Hours Required: 59

*Required before beginning clinical practicum.

**Lab fee applied.

Curriculum Sequence

Term 1

MACP-200	Professional Development Seminar I	1 cr.
SJP-202	Social Justice Practicum I	1 cr.
MACP-402	Introduction to Adlerian Psychology and Psychopathology	3 cr.

Graduation Requirements

1. Satisfactory completion of 59 required credit hours, including all required courses
2. Satisfactory completion of a minimum of 700 clock hours of practicum
3. Satisfactory completion of a minimum of 200 clock hours of Social Justice Practicum
4. A cumulative grade point average of 3.5 or higher and no more than two grades or six credit hours of C
5. Successful completion of the M.A. Thesis
6. Successful completion of the Master's Clinical Qualifying Examination
7. Submission of completed Graduation Application and full payment of all outstanding tuition and fees

Admission Requirements

At Adler University, we take great pride in our diverse student body. Students represent a wide range of professional interests, ethnic and cultural backgrounds, and academic and work histories. We admit individuals with a record of outstanding academic achievement and a commitment to social responsibility.

To be considered for admission, an applicant must meet the following criteria:

- A baccalaureate degree or equivalent from an accredited institution, preferably in psychology or counselling-related discipline.
- A grade point average of 3.0 or higher on a 4.0 scale for all undergraduate or graduate coursework.
- The equivalent of at least 12 semester credit hours in baccalaureate-level psychology coursework with a grade of C or better. These courses must include introductory psychology, abnormal psychology, research methods, and a fourth foundational course in life span/development.
- Coursework or volunteer/work experience that involves the use of counselling-related skills and demonstrates counselling capacity is required.
- Approved applicants will be evaluated through a writing sample and interview as the final step in the application process. Students must complete all coursework required for the program at Adler University–Vancouver Campus. The only exceptions to this policy are any courses accepted for transfer credit in accordance with the University's official Transfer Credit policy. For full details about our admissions requirements, visit adler.edu.

Practicum – Vancouver Campus

An integral part of the M.A. in Counselling Psychology program at Adler is the acquisition of practical counselling and scholarly skills gained in field placements. Ongoing involvement in counselling and scholarly activities at professional training sites gives students the closely supervised opportunity to apply and further develop the knowledge, skills, values, and competencies they gain in coursework. Practicum training requirements begin with

a first-year Social Justice Practicum (SJP) that offers a service-learning experience and focuses on developing skills related to community-based interventions, advocacy, social justice, and systemic interventions that benefit human welfare and well-being. Counselling training provided in students' second practicum focuses on developing the competencies needed to prepare students for entry-level practice at graduation. Because the focus is on integrating master's-level education at Adler with master's-level supervised counselling training, no transfer credit is granted for practica credits earned elsewhere. Students must successfully complete course prerequisites prior to being approved to begin their counselling practicum.

SOCIAL JUSTICE PRACTICUM (SJP)

Students completing first-year coursework will spend eight to 10 hours per week over the course of six months at an approved SJP site and must concurrently enroll in required coursework. A minimum of 200 clock hours of SJP is required. Students should contact the Manager of Community Action & Engagement, Vancouver Campus.

SOCIALLY RESPONSIBLE PRACTICE (SRP) PORTFOLIO

Students must complete 50 hours of SRP-related programming offered by or required by the program and or campus. These 50 hours must be completed before the students sits for the MCQE.

CLINICAL PRACTICUM

After completion of all first-year coursework, students should expect to spend two to three days per week over the course of eight to 12 months at an approved counselling practicum site. Students must concurrently enroll in practicum seminars during their first two semesters of field experience. Should the practicum experience extend beyond eight months or two semesters, students must enroll in MACP-610, practicum continued, which covers the requirements for third-party liability insurance. There are no class meetings for MACP-610. A minimum 700 total clock hours of counselling practica are required to successfully complete the counselling clinical practicum. The Training Director mentors students to identify and obtain counselling practicum opportunities that meet the standards and requirements of the program. Students must familiarize themselves with the content of the counselling Clinical Practicum Handbook available on Adler Connect. Students are responsible for making themselves aware of the contents of the handbook and following procedures outlined therein. While enrolled in the practicum MACP-506, students need to be concurrently enrolled in the seminar MACP-508. While enrolled in the practicum MACP-507, students need to be concurrently enrolled in the seminar MACP-509.

Please see course descriptions for prerequisites and corequisites for these courses.

M.A. Thesis – Vancouver Campus

Students are required to complete a research-based thesis as a capstone project of their MAC degree. Students begin the thesis process by registering for Preparation for the M.A. Thesis (MACP-525). Once students register for MACP-525, they are required to continuously register in M.A. Thesis courses (MACP-526, MACP-527, and MACP-528) over the next three consecutive terms. Students who have not completed their thesis after registering for M.A. Thesis I, II & III are required to register for M.A. Thesis Continuation (MACP-529) in all subsequent terms until their thesis is completed and approved. Students receive a grade of IP (in progress) for any term in which they are making satisfactory progress on their thesis and a grade of NP (no progress) when they are failing to complete the project in a timely manner. (Please see the MACP Thesis Handbook for specific thesis timeline requirements.) When a student satisfactorily completes each major thesis component (i.e., the proposal and final thesis), a grade of CR (credit) will be issued for all courses, replacing the previous grades of IP.

MASTER OF COUNSELLING PSYCHOLOGY (MCP)

Program Overview

The Master of Counselling Psychology (MCP) program, in alignment with Adler University's scholar-practitioner model, prepares students to be knowledgeable and effective in the application of foundational theories and methods of counselling practice. The program offers comprehensive and personalized graduate degree training that qualifies students to practice as counselling professionals in primarily a Canadian context. There is an emphasis on developing self-reflexive and ethically aware practitioners who are educated both theoretically and practically in socially responsible practice. There are four program objectives: (1) to train graduates to ethically assess and skillfully intervene to support psychological and emotional well-being in a wide range of populations with the attitudes, knowledge, and skills needed to work professionally with diverse clients; (2) to train graduates to use self-reflexivity, self-awareness, and lifelong learning for personal and professional development and competence; (3) to develop graduates who have learned how to critique the literature and can apply literature-based and research-based foundations of counselling psychology practice to their work; and (4) to develop graduates who embrace a socially responsible counselling practice and who have the ability to identify and apply goals and tasks that further social justice and foster inclusive and healthy communities rooted in Adler University's mission towards social interest.

Graduates of the program are well prepared for a wide variety of mental health positions in human service agencies and organizations in both the public and private sectors.

Graduates of this program are eligible to apply for membership registration with the British Columbia Association of Clinical Counsellors (bc-counsellors.org) and/or the Canadian Counselling and Psychotherapy Association (ccpa-accp.ca). Students are advised that licensure requirements are under review in various jurisdictions in Canada and are encouraged to regularly consult about current requirements. Students are advised to consult with the Training Director prior to starting the clinical practicum, as individual practicum training experiences may differ, and some students may need additional postgraduate experience or supervision hours to meet certification requirements. Students who intend to practice in locations other than the province of British Columbia are also encouraged to consult with the appropriate association, agency, or board relevant to local certification or licensure requirements.

Practicum – Vancouver Campus

An integral part of the Master's in Counselling Psychology program at Adler is the acquisition of practical counselling and scholarly skills gained in field placements. Ongoing involvement in counselling and scholarly activities at professional training sites gives students the closely supervised opportunity to apply and further develop the knowledge, skills, values, and competencies they gain in coursework. Practicum training requirements begin with a first-year Social Justice Practicum (SJP) that focuses on developing skills related to community-based interventions, advocacy, social justice, and systemic interventions that benefit human welfare and well-being. Counselling training provided in students' second practicum focuses on developing the competencies needed to prepare students for entry-level practice at graduation. Because the focus is on integrating master's-level education at Adler with master's-level supervised counselling training, no transfer credit is granted for practica credits earned elsewhere. Students must successfully complete course prerequisites prior to being approved to begin their counselling practicum.

SOCIAL JUSTICE PRACTICUM (SJP)

Students completing first-year coursework will spend eight to 10 hours per week over the course of six months at an approved SJP site and must concurrently enroll in required coursework. A minimum of 200 clock hours of SJP is required. Students should contact the Manager of Community Action & Engagement, Vancouver Campus.

SOCIALLY RESPONSIBLE PRACTICE (SRP) PORTFOLIO

Students must complete 50 hours of SRP-related programming offered by or required by the program and or campus. These 50 hours must be completed before the students sits for the MCQE.

CLINICAL PRACTICUM

After completion of all first-year coursework, students should expect to spend at least two days per week over the course of eight to 12 months at an approved counselling practicum site and must concurrently enroll in practicum seminars during their first two semesters of field experience. A minimum 700 total clock hours of counselling practica are required, which is further outlined in program descriptions within this catalog. The Training Director collaborates with students to identify and obtain counselling practicum opportunities that meet the standards and requirements of the program. Students should refer to the Practicum Handbook, available on Adler Connect, for detailed information.

MASTER OF ARTS IN COUNSELLING PSYCHOLOGY: SCHOOL AND YOUTH CONCENTRATION (MACP:SY)

Program Overview

The Master of Arts in Counselling Psychology: School and Youth Concentration (MACP:SY), in alignment with Adler University's scholar-practitioner model, prepares students to be knowledgeable and effective in the application of foundational theories and methods of counselling practice with children and adolescents. The program concentration offers comprehensive and personal graduate degree training that qualifies students as counselling professionals in a primarily Canadian context. There is an emphasis on developing self-reflexive and ethically aware practitioners who are educated both theoretically and practically in socially responsible practice.

The five established MACP:SY objectives are: (1) to train graduates to ethically assess and skillfully intervene with a wide range of populations with the attitudes, knowledge, and skills needed to work professionally with diverse young clients; (2) to train graduates to use self-reflexivity, self-awareness, and lifelong learning for personal and professional development and competence; (3) to develop graduates who have learned how to critique the literature and can apply literature-based and research-based foundations of counselling psychology practice to their work; (4) to develop graduates who embrace a socially responsible counselling practice and who have the ability to identify and apply goals and tasks that further social justice and foster inclusive healthy communities stemming from Adler University's mission towards social interest; and (5) to prepare graduates with the theoretical and scholarship foundations for further academic study at the doctoral level.

This comprehensive program can be completed in a two-year period as a full-time student, including summer terms, if courses are completed according to the curriculum sequence below. This program is identical to the Master of Counselling Psychology: School and Youth Concentration but requires the successful completion of a thesis.

Graduates of the program are well prepared for a wide variety of mental health positions in schools, human service agencies, and organizations in both the public and private sectors.

Graduates of this program are eligible to apply for membership registration with the British Columbia Association of Clinical Counsellors (bc-counsellors.org) and/or the Canadian Counselling and Psychotherapy Association (ccpa-accp.ca). Students are advised that licensure requirements are under review in various jurisdictions in Canada, and students are encouraged to regularly consult about current requirements. Students are advised to consult with the Training Director prior to starting the clinical practicum, as individual practicum training experiences may differ, and some students may need additional postgraduate experience or supervision hours to meet certification requirements. Students who intend to practice in locations other than the province of British Columbia are also encouraged to consult with the appropriate association, agency, or board relevant to local certification or licensure requirements.

Admission Requirements

At Adler University, we take great pride in our diverse student body. Students represent

a wide range of professional interests, ethnic and cultural backgrounds, and academic and work histories. We admit individuals with a record of outstanding academic achievement and a commitment to social responsibility.

To be considered for admission, an applicant must meet the following criteria:

- A baccalaureate degree or equivalent from an accredited institution, preferably in psychology or counselling-related discipline.
- A grade point average of 3.0 or higher on a 4.0 scale for all undergraduate or graduate coursework.
- The equivalent of at least 12 semester credit hours in baccalaureate-level psychology coursework with a grade of C or better. These courses must include introductory psychology, abnormal psychology, research methods, and a fourth foundational course in life span/development.
- Coursework or volunteer/work experience that involves the use of counselling-related skills and demonstrates counselling capacity is required.
- Approved applicants will be evaluated through a writing sample and interview as the final step in the application process. Students must complete all coursework required for the program at Adler University–Vancouver Campus. The only exceptions to this policy are any courses accepted for transfer credit in accordance with the University's official Transfer Credit policy. For full details about our admissions requirements, visit adler.edu.

Practicum – Vancouver Campus

An integral part of the M.A. in Counselling Psychology: School and Youth Concentration program at Adler is the acquisition of practical counselling and scholarly skills gained in field placements. Ongoing involvement in counselling and scholarly activities at professional training sites gives students the closely supervised opportunity to apply and further develop the knowledge, skills, values, and competencies they gain in coursework.

Practicum training requirements begin with a community-oriented practicum experience, the Social Justice Practicum (SJP), that offers a service-learning experience and focuses on developing skills related to community-based interventions, advocacy, social justice, and systemic interventions that benefit human welfare and well-being. Counselling training provided in students' clinically-oriented practicum focuses on developing the competencies needed to prepare students for entry-level practice at graduation. Because the focus is on integrating master's-level education at Adler with master's-level supervised counselling training, no transfer credit is granted for practica credits earned elsewhere. Students must successfully complete course prerequisites prior to being approved to begin their counselling practicum.

SOCIAL JUSTICE PRACTICUM (SJP)

In their second year, students will spend eight to 10 hours per week over the course of six months at an approved SJP site and must concurrently enroll in required coursework. A minimum of 200 clock hours of SJP is required. Students should contact the Manager of Community Action & Engagement, Vancouver Campus.

SOCIALLY RESPONSIBLE PRACTICE (SRP) PORTFOLIO

Students must complete 50 hours of SRP-related programming offered by or required by the program and or campus. These 50 hours must be completed before the students sits for the MCQE.

CLINICAL PRACTICUM

After completion of all first-year coursework, students should expect to spend at least two days per week over the course of eight to 12 months at an approved counselling practicum site and must concurrently enroll in practicum seminars during their first two terms of field experience. A minimum 700 total clock hours of counselling practica are required, which is further outlined in program descriptions within this catalog. The Training Director collaborates with students to identify and obtain counselling practicum opportunities that meet the standards and requirements of the program. Students should refer to the Practicum Handbook, available on Adler Connect, for detailed information.

M.A. Thesis – Vancouver Campus

Students are required to complete a research-based thesis as a capstone project of their MACP degree. Students begin the thesis process by registering for Preparation for M.A. Thesis (MACP-525). Once students register for MACP-525, they are required to continuously register in M.A. Thesis courses (MACP-526, MACP-527, and MACP-528) over the next three consecutive terms. Students who have not completed their thesis after registering for M.A. Thesis I, II & III are required to register for M.A. Thesis Continuation (MACP-529) in all subsequent terms until their thesis is completed and approved. Students receive a grade of IP (in progress) for any term in which they are making satisfactory progress on their thesis and a grade of NP (no progress) when they are failing to complete the project in a timely manner. (Please see the MACP Thesis Handbook for specific thesis timeline requirements.) When a student satisfactorily completes each major thesis component (i.e., the proposal and final thesis), a grade of CR (credit) will be issued for all courses, replacing the previous grades of IP. See Adler Connect for the current MACP Thesis Handbook.

MASTER OF COUNSELLING PSYCHOLOGY: SCHOOL AND YOUTH CONCENTRATION (MCP:SY)

Program Overview

The Master in Counselling Psychology: School and Youth Concentration (MCP:SY), in alignment with Adler University's scholar-practitioner model, prepare students to be knowledgeable and effective in the application of foundational theories and methods of counselling practice with children and adolescents. The program concentration offers comprehensive and personal graduate degree training that qualifies students as counselling professionals in a primarily Canadian context. There is an emphasis on developing self-reflexive and ethically aware practitioners who are educated both theoretically and practically in socially responsible practice.

The four established MCP:SY objectives are: (1) to train graduates to ethically assess and skillfully intervene with a wide range of populations with the attitudes, knowledge, and skills needed to work professionally with diverse young clients; (2) to train graduates to use self-reflexivity, self-awareness, and lifelong learning for personal and professional development and competence; (3) to develop graduates who have learned how to critique the literature and can apply literature-based and research-based foundations of counselling psychology practice to their work; and (4) to develop graduates who embrace a socially responsible counselling practice and who have the ability to identify and apply goals and tasks that further social justice and foster inclusive healthy communities stemming from Adler University's mission towards social interest.

Graduates of the program are well prepared for a wide variety of mental health positions in schools, human service agencies, and organizations in both the public and private sectors.

Graduates of this program are eligible to apply for membership registration with the British Columbia Association of Clinical Counsellors (bc-counsellors.org) and/or the Canadian Counselling and Psychotherapy Association (ccpa-accp.ca). Students are advised that licensure requirements are under review in various jurisdictions in Canada and are encouraged to regularly consult about current requirements. Students are advised to consult with the Training Director prior to starting the clinical practicum, as individual practicum training experiences may differ, and some students may need additional postgraduate experience or supervision hours to meet certification requirements. Students who intend to practice in locations other than the province of British Columbia are also encouraged to consult with the appropriate association, agency, or board relevant to local certification or licensure requirements.

Degree Requirements

Successful completion of the following courses is required for this degree:

* MACP-200	Professional Development Seminar I	1 cr.
* MACP-201	Professional Development Seminar II	1 cr.
* SJP-202	Social Justice Practicum I	1 cr.
* SJP-203	Social Justice Practicum II	1 cr.
SJP-204	Social Justice Practicum Continuation (as needed)	0 cr.
MACP-337	Group Psychotherapy	3 cr.
* MACP-402	Introduction to Adlerian Psychology and Psychopathology	3 cr.
* MACP-472	Basic Counselling Skills and Interventions	3 cr.
* MACP-473	Pre-practicum Counselling Skills Lab**	0 cr.
MACP-495	Research in Counselling Psychology	3 cr.
* MACP-505	Ethical Practice in Counselling Psychology	3 cr.
MACP-506	Master's Practicum I	1 cr.
MACP-507	Master's Practicum II	1 cr.

MACP-508	Master's Practicum Seminar I	2 cr.
MACP-509	Master's Practicum Seminar II	2 cr.
PCO-610	Practicum Continuation (as needed)	0 cr.
* MACP-516	Individual Appraisal for Counsellors in Practice	3 cr.
* MACP-520	Theories of Psychotherapy	3 cr.
* MACP-641	Multicultural Counselling for Diverse Populations	3 cr.
* MACP-647	Biopsychosocial Bases of Health and Dysfunction	3 cr.
MACP-663	Effective Couple and Family Counselling	3 cr.
MACP-671	Structural and Sociocultural Bases of Health and Dysfunction	3 cr.
* MACP-517	Trauma Theory and Practice	3 cr.
* MSYC-582	School Counselling and Consultation	3 cr.
* MSYC-583	Child Development and Counselling	3 cr.
* MSYC-584	Adolescent Development and Counselling	3 cr.
MACP-995	Master's Clinical Qualifying Examination	0 cr.

Total Credit Hours Required: 55

*Required before beginning practicum

**Lab fee applied

Curriculum Sequence

This sequence is built to support students in completing both practicums in two terms at the beginning of their second year. The practicums would align with the school year. Students would then return to the campus in their last term to complete their final courses and Master's Clinical Qualifying Examination (MCQE).

YEAR ONE

Fall Term

MACP-200	Professional Development Seminar I	1 cr.
SJP-202	Social Justice Practicum I	1 cr.
MSYC-582	School Counselling and Consultation	3 cr.
MACP-402	Introduction to Adlerian Psychology and Psychopathology	3 cr.
MACP-472	Basic Counselling Skills and Interventions	3 cr.
MACP-520	Theories of Psychotherapy	3 cr.

Term Credits = 14

Spring Term

MACP-201	Professional Development Seminar II	1 cr.
SJP-203	Social Justice Practicum II	1 cr.
MSYC-584	Adolescent Development and Counselling	3 cr.
MACP-641	Multicultural Counselling for Diverse Populations	3 cr.
MACP-505	Ethical Practice in Counselling Psychology	3 cr.
MACP-495	Research in Counselling Psychology	3 cr.

Term Credits = 14

Summer Term

MACP-516	Individual Appraisal for Counsellors in Practice	3 cr.

MACP-507	Master's Practicum II	1 cr.
MACP-995	Master's Clinical Qualifying Examination	0 cr.

Term Credits = 3**Total Credit Hours Required: 55****Graduation Requirements**

1. Satisfactory completion of 55 credit hours, including all required courses
2. Satisfactory completion of a minimum of 700 clock hours of clinical practicum and 200 clock hours of Social Justice Practicum
3. A cumulative GPA of 3.5 or higher and no more than two courses or six credits with a final grade of C
4. Successful completion of the Master's Clinical Qualifying Examination
5. Submission of completed Graduation Application and full payment of all outstanding tuition and fees

Admission Requirements

At Adler University, we take great pride in our diverse student body. Students represent

a wide range of professional interests, ethnic and cultural backgrounds, and academic and work histories. We admit individuals with a record of outstanding academic achievement and a commitment to social responsibility.

To be considered for admission, an applicant must meet the following criteria:

- A baccalaureate degree or equivalent from an accredited institution, preferably in psychology or counselling-related discipline.
- A grade point average of 3.0 or higher on a 4.0 scale for all undergraduate or graduate coursework.
- The equivalent of at least 12 semester credit hours in baccalaureate-level psychology coursework with a grade of C or better. These courses must include introductory psychology, abnormal psychology, research methods, and a fourth foundational course in life span/development.
- Coursework or volunteer/work experience that involves the use of counselling-related skills and demonstrates counselling capacity is required.

Approved applicants will be evaluated through a writing sample and interview as the final step in the application process. Students must complete all coursework required for the program at Adler University–Vancouver Campus. The only exceptions to this policy are any courses accepted for transfer credit in accordance with the University's official Transfer Credit policy. For full details about our admissions requirements, visit adler.edu.

Practicum – Vancouver Campus

An integral part of the Master of Counselling Psychology: School and Youth Concentration program is the acquisition of practical counselling and scholarly skills gained in field placements. Ongoing involvement in counselling and scholarly activities at professional training sites gives students the closely supervised opportunity to apply and further develop the knowledge, skills, values, and competencies they gain in coursework. Practicum training requirements begin with a Social Justice Practicum (SJP) that focuses on developing skills related to community-based interventions, advocacy, social justice, and systemic interventions that benefit human welfare and well-being. Counselling training provided in students' second practicum focuses on developing the competencies needed to prepare students for entry-level practice at graduation. Because the focus is on integrating master's-level education at Adler with master's-level supervised counselling training, no transfer credit is granted for practica credits earned elsewhere. Students must successfully complete course prerequisites prior to being approved to begin their counselling practicum.

SOCIAL JUSTICE PRACTICUM (SJP)

In their second year, students will spend eight to 10 hours per week over the course of six months at an approved SJP site and must concurrently enroll in required coursework. A minimum of 200 clock hours of SJP is required. Students should contact the Manager of Community Action & Engagement, Vancouver Campus.

SOCIALLY RESPONSIBLE PRACTICE (SRP) PORTFOLIO

Students must complete 50 hours of SRP-related programming offered by or required by the program and or campus. These 50 hours must be completed before the students sits for the MCQE.

CLINICAL PRACTICUM

After completion of all first-year coursework, students should expect to spend at least two days per week over the course of eight to 12 months at an approved counselling practicum site and must concurrently enroll in practicum seminars during their first two semesters of field experience. A minimum 700 total clock hours of counselling practica are required, which is further outlined in program descriptions within this catalog. The Training Director collaborates with students to identify and obtain counselling practicum opportunities that meet the standards and requirements of the program. Students should refer to the Practicum Handbook, available on Adler Connect, for detailed information.

MASTER OF ARTS IN COUNSELLING PSYCHOLOGY: SCHOOL AND YOUTH CONCENTRATION (MACP:SY) (LONG PROGRAM)

Program Overview

The Master of Arts in Counselling Psychology: School and Youth Concentration (MACP:SY), in alignment with Adler University's scholar-practitioner model, prepares students to be knowledgeable and effective in the application of foundational theories and methods of counselling practice with children and adolescents. The program concentration offers comprehensive and personal graduate degree training that qualifies students as counselling professionals in a primarily Canadian context. There is an emphasis on developing self-reflexive and ethically aware practitioners who are educated both theoretically and practically in socially responsible practice.

The five established MACP:SY objectives are (1) to train graduates to ethically assess and skillfully intervene with a wide range of populations with the attitudes, knowledge, and skills needed to work professionally with diverse young clients; (2) to train graduates to use self-reflexivity, self-awareness, and lifelong learning for personal and professional development and competence; (3) to develop graduates who have learned how to critique the literature and can apply literature-based and research-based foundations of counselling psychology practice to their work; (4) to develop graduates who embrace a socially responsible counselling practice and who have the ability to identify and apply goals and tasks that further social justice and foster inclusive healthy communities stemming from Adler University's mission towards social interest; and (5) to prepare graduates with the theoretical and scholarship foundations for further academic study at the doctoral level.

This comprehensive program is designed for qualified teachers in British Columbia who have been granted the BC Teacher Federation's Teacher Qualification Service (TQS) Category 4, and want to upgrade their training to Category 6. This degree program has been pre-approved by the TQS to be an acceptable graduate degree as a "long program" to meet the criteria of completing the course credits, capstone project, and Master's degree necessary for Category 4 teachers to obtain Category 6. As stated on the TQS website, each individual teacher should contact the TQS to request pre-approval for their Category 6 education plan and to have their undergraduate education and other coursework considered within this qualification process. This program can be completed in a two-year period as a full-time student, including summer terms, if courses are completed according to the curriculum sequence below. This program is identical to the Master of Counselling Psychology: School and Youth Concentration (Long Program) but requires the successful completion of a thesis.

Graduates of the program are well prepared for a wide variety of mental health positions in schools, human service agencies, and organizations in both the public and private sectors.

Graduates of this program are eligible to apply for membership registration with the British Columbia Association of Clinical Counsellors (bc-counsellors.org) and/or the Canadian Counselling and Psychotherapy Association (ccpa-accp.ca). Students are advised that licensure requirements are under review in various jurisdictions in Canada, and students are encouraged to regularly consult about current requirements. Students are advised to consult with the Training Director prior to starting the clinical practicum, as individual practicum training experiences may differ, and some students may need additional postgraduate experience or supervision hours to meet certification requirements. Students who intend to practice in locations other than the province of British Columbia are also encouraged to consult with the appropriate association, agency, or board relevant to local certification or licensure requirements.

Degree Requirements

Successful completion of the following courses is required for this degree:

* MACP-200	Professional Development Seminar I	1 cr.
* MACP-201	Professional Development Seminar II	1 cr.
* SJP-202	Social Justice Practicum I	1 cr.
* SJP-203	Social Justice Practicum II	1 cr.
SJP-204	Social Justice Practicum Continuation (as needed)	0 cr.
MACP-337	Group Psychotherapy	3 cr.
* MACP-402	Introduction to Adlerian Psychology and Psychopathology	3 cr.
* MACP-472	Basic Counselling Skills and Intervention	3 cr.
* MACP-473	Pre-practicum Counselling Skills Lab**	0 cr.
MACP-495	Research in Counselling Psychology	3 cr.
* MACP-505	Ethical Practice in Counselling Psychology	3 cr.
MACP-506	Master's Practicum I	1 cr.
MACP-507	Master's Practicum II	1 cr.
MACP-508	Master's Practicum Seminar I	2 cr.
MACP-509	Master's Practicum Seminar II	2 cr.
PCO-610	Practicum Continuation (as needed)	0 cr.
* MACP-516	Individual Appraisal for Counsellors in Practice	3 cr.

Fall Term

MACP-676	Introduction to Depth Psychology and Psychotherapy	3 cr.
MACP-569	Lifestyle and Career Development	3 cr.

Spring Term

MACP-673	Advanced Adlerian Psychotherapy	3 cr.
MACP-438	Introduction to Addictive Disorders	3 cr.

Summer Term

MACP-674	Introduction to Sex Therapy	3 cr.
----------	-----------------------------	-------

Graduation Requirements

1. Satisfactory completion of 62 required credit hours, including all required courses
2. Satisfactory completion of a minimum of 700 clock hours of clinical practicum
3. Satisfactory completion of a minimum of 200 clock hours of Social Justice Practicum
4. A cumulative grade point average of 3.5 or higher and no more than two grades or six credit hours of C
5. Successful completion of the M.A. Thesis
6. Successful completion of the Master's Clinical Qualifying Examination
7. Submission of completed Graduation Application and full payment of all outstanding tuition and fees

Minimum Admission Requirements

At Adler University, we take great pride in our diverse student body. Students represent

a wide range of professional interests, ethnic and cultural backgrounds, and academic and work histories. We admit individuals with a record of outstanding academic achievement and a commitment to social responsibility.

To be considered for admission, an applicant must meet the following criteria:

- A baccalaureate degree or equivalent from an accredited institution, preferably in psychology or counselling-related discipline.
- A grade point average of 3.0 or higher on a 4.0 scale for all undergraduate or graduate coursework.
- The equivalent of at least 12 semester credit hours in baccalaureate-level psychology coursework with a grade of C or better. These courses must include introductory psychology, abnormal psychology, research methods, and a fourth foundational course in life span/development.
- Coursework or volunteer/work experience that involves the use of counselling-related skills and demonstrates counselling capacity is required.

Approved applicants will be evaluated through an in-person writing sample and interview as the final step in the application process. Students must complete all coursework required for the program at Adler University–Vancouver Campus. The only exceptions to this policy are any courses accepted for transfer credit in accordance with the University's official Transfer Credit policy. For full details about our admissions requirements, visit adler.edu.

Practicum – Vancouver Campus

An integral part of the M.A. in Counselling Psychology: School and Youth Concentration program at Adler is the acquisition of practical counselling and scholarly skills gained in field placements. Ongoing involvement in counselling and scholarly activities at professional training sites gives students the closely supervised opportunity to apply and further develop the knowledge, skills, values, and competencies they gain in coursework. Practicum training requirements begin with a community-oriented practicum experience, the Social Justice Practicum (SJP), that offers a service-learning experience and focuses on developing skills related to community-based interventions, advocacy, social justice, and systemic interventions that benefit human welfare and well-being. Counselling training provided in students' clinically oriented practicum focuses on developing the competencies needed to prepare students for entry-level practice at graduation. Because the focus is on integrating master's-level education at Adler with master's-level supervised counselling training, no transfer credit is granted for practica credits earned elsewhere. Students must successfully complete course prerequisites prior to being approved to begin their counselling practicum.

SOCIAL JUSTICE PRACTICUM (SJP)

In their second year, students will spend eight to 10 hours per week over the course of six months at an approved SJP site and must concurrently enroll in required coursework. A minimum of 200 clock hours of SJP is required. Students should contact the Manager of Social Justice Practicum, Vancouver Campus.

CLINICAL PRACTICUM

After completion of all first-year coursework, students should expect to spend at least two days per week over the course of eight to 12 months at an approved counselling practicum site and must concurrently enroll in practicum seminars during their first two terms of field experience. A minimum 700 total clock hours of counselling practica are required, which is further outlined in program descriptions within this catalog. The Training Director collaborates with students to identify and obtain counselling practicum opportunities that meet the standards and requirements of the program. Students should refer to the Practicum Handbook, available on Adler Connect, for detailed information.

M.A. Thesis – Vancouver Campus

Students are required to complete a research-based thesis as a capstone project of their MACP degree. Students begin the thesis process by registering for Preparation for M.A. Thesis (MACP-525). Once students register for MACP-525, they are required to continuously register in M.A. Thesis courses (MACP-526, MACP-527, and MACP-528) over the next three consecutive terms. Students who have not completed their M.A. Thesis after registering for M.A. Thesis I, II & III, are required to register for M.A. Thesis Continuation (MACP-529) in all subsequent terms until their thesis is completed and approved. Students receive a grade of IP (in progress) for any term in which they are making satisfactory progress on their thesis and a grade of NP (no progress) when they are failing to complete the project in a timely manner. (Please see the MACP Thesis Handbook for specific thesis timeline requirements.) When a student satisfactorily completes each major thesis component (i.e., the proposal and final thesis), a grade of CR (credit) will be issued for all courses, replacing the previous grades of IP. See Adler Connect for the current MACP Thesis Handbook.

MASTER OF COUNSELLING PSYCHOLOGY: SCHOOL AND YOUTH CONCENTRATION (MCP:SY) (LONG PROGRAM)

Program Overview

The Master in Counselling Psychology: School and Youth Concentration (MCP:SY), in alignment with Adler University's scholar-practitioner model, prepare students to be knowledgeable and effective in the application of foundational theories and methods of counselling practice with children and adolescents. The program concentration offers comprehensive and personal graduate degree training that qualifies students as counselling professionals in a primarily Canadian context. There is an emphasis on developing self-reflexive and ethically aware practitioners who are educated both theoretically and practically in socially responsible practice.

The four established MCP:SY objectives are: (1) to train graduates to ethically assess and skillfully intervene with a wide range of populations with the attitudes, knowledge, and skills needed to work professionally with diverse young clients; (2) to train graduates to use self-reflexivity, self-awareness, and lifelong learning for personal and professional development and competence; (3) to develop graduates who have learned how to critique

the literature and can apply literature-based and research-based foundations of counselling psychology practice to their work; and (4) to develop graduates who embrace a socially responsible counselling practice and who have the ability to identify and apply goals and tasks that further social justice and foster inclusive healthy communities stemming from Adler University's mission towards social interest.

This comprehensive program is designed for qualified teachers in British Columbia who have been granted the BC Teacher Federation's Teacher Qualification Service (TQS) Category 4, and want to upgrade their training to Category 6. This degree program has been pre-approved by the TQS to be an acceptable graduate degree as a "long program" to meet the criteria of completing the course credits, capstone project, and master's degree necessary for Category 4 teachers to obtain Category 6. As stated on the TQS website, each individual teacher should contact the TQS to request pre-approval for their Category 6 education plan to have their undergraduate education and other coursework considered within this qualification process. This program can be completed in a two-year period as a full-time student, including summer terms, if courses are completed according to the curriculum sequence below.

Graduates of the program are well prepared for a wide variety of mental health positions in schools, human service agencies, and organizations in both the public and private sectors.

Graduates of this program are eligible to apply for membership registration with the British Columbia Association of Clinical Counsellors (bc-counsellors.org) and/or the Canadian Counselling and Psychotherapy Association (ccpa-accp.ca). Students are advised that licensure requirements are under review in various jurisdictions in Canada and are encouraged to regularly consult about current requirements. Students are advised to consult with the Associate Training Director prior to starting the clinical practicum, as individual practicum training experiences may differ, and some students may need additional postgraduate experience or supervision hours to meet certification requirements. Students who intend to practice in locations other than the province of British Columbia are also encouraged to consult with the appropriate association, agency, or board relevant to local certification or licensure requirements.

Degree Requirements

Successful completion of the following courses is required for this degree:

* MACP-200	Professional Development Seminar I	1 cr.
* MACP-201	Professional Development Seminar II	1 cr.
* SJP-202	Social Justice Practicum I	1 cr.
* SJP-203	Social Justice Practicum II	1 cr.
SJP-204	Social Justice Practicum Continuation (as needed)	0 cr.
MACP-337	Group Psychotherapy	3 cr.
* MACP-402	Introduction to Adlerian Psychology and Psychopathology	3 cr.
* MACP-472	Basic Counselling Skills and Intervention	3 cr.
* MACP-473	Pre-practicum Counselling Skills Lab**	0 cr.
MACP-495	Research in Counselling Psychology	3 cr.
* MACP-505	Ethical Practice in Counselling Psychology	3 cr.
MACP-506	Master's Practicum I	1 cr.
MACP-507	Master's Practicum II	1 cr.
MACP-508	Master's Practicum Seminar I	2 cr.
MACP-509	Master's Practicum Seminar II	2 cr.
PCO-610	Practicum Continuation (as needed)	0 cr.
* MACP-516	Individual Appraisal for Counsellors in Practice	3 cr.
* MACP-520	Theories of Psychotherapy	3 cr.
* MACP-641	Multicultural Counselling for Diverse Populations	3 cr.
* MACP-647	Biopsychosocial Bases of Health and Dysfunction	3 cr.
MACP-663	Effective Couple and Family Counselling	3 cr.
MACP-671	Structural and Sociocultural Bases of Health and Dysfunction	3 cr.
* MACP-517	Trauma Theory and Practice	3 cr.
* MSYC-582	School Counselling and Consultation	3 cr.
* MSYC-583	Child Development and Counselling	3 cr.
* MSYC-584	Adolescent Development and Counselling	3 cr.
MACP-995	Master's Clinical Qualifying Examination	0 cr.

Clinical Elective Course Options (Students select 2 of 5)

MACP-438	Introduction to Addictive Disorders	3 cr.
MACP-569	Lifestyle and Career Development	3 cr.
MACP-673	Advanced Adlerian Psychotherapy	3 cr.
MACP-674	Introduction to Sex Therapy	3 cr.
MACP-676	Introduction to Depth Psychology and Psychotherapy	3 cr.

Total Credit Hours Required: 61

*Required before beginning practicum

**Lab fee applied

Curriculum Sequence

This sequence is built to support students in completing both practicums in two terms at the beginning of their second year. The practicums would align with the school year. The student would then return to the campus in their last term to complete their final courses and Master's Clinical Qualifying Examination (MCQE).

YEAR ONE

Fall Term

MACP-200	Professional Development Seminar I	1 cr.
SJP-202	Social Justice Practicum I	1 cr.
MSYC-582	School Counselling and Consultation	3 cr.
MACP-402	Introduction to Adlerian Psychology and Psychopathology	3 cr.
MACP-472	Basic Counselling Skills and Intervention	3 cr.
MACP-520	Theories of Psychotherapy	3 cr.

Term Credits = 14

Spring Term

MSYC-201	Professional Development Seminar II	1 cr.
SJP-203	Social Justice Practicum II	1 cr.
MSYC-584	Adolescent Development and Counselling	3 cr.
MACP-641	Multicultural Counselling for Diverse Populations	3 cr.
MACP-505	Ethical Practice in Counselling Psychology	3 cr.
MACP-495	Research in Counselling Psychology	3 cr.

Term Credits = 14

Summer Term

MACP-516	Individual Appraisal for Counsellors in Practice	3 cr.
MSYC-583	Child Development and Counselling	3 cr.
MACP-517	Trauma Theory and Practice	3 cr.
MACP-473	Pre-practicum Counselling Skills Lab	0 cr.
MACP-647	Biopsychosocial Bases of Health and Dysfunction	3 cr.

Term Credits = 12

YEAR TWO

Fall Term

MACP-508	Master's Practicum Seminar I	2 cr.
MACP-506	Master's Practicum I	1 cr.
One of two required electives: see below		3 cr.

Term Credits = 3 or 6

(Depending on whether an elective is taken this term)

Spring Term

MACP-509	Master's Practicum Seminar II	2 cr.
MACP-507	Master's Practicum II	1 cr.
One of two required electives: see below		3 cr.

Term Credits = 3 or 6

(Depending on whether an elective is taken this term)

Summer Term

MACP-671	Structural and Sociocultural Bases of Health and Dysfunction	3 cr.
MACP-663	Effective Couple and Family Counselling	3 cr.
MACP-337	Group Psychotherapy	3 cr.
MACP-995	Master's Clinical Qualifying Examination	0 cr.

Term Credits = 9

Total Credit Hours Required: 61

Clinical Elective Course Options (Students select 2 of 5)

Fall Term

MACP-676	Introduction to Depth Psychology and Psychotherapy	3 cr.
MACP-569	Lifestyle and Career Development	3 cr.

Spring Term

MACP-673	Advanced Adlerian Psychotherapy	3 cr.
MACP-438	Introduction to Addictive Disorders	3 cr.

Summer Term

MACP-674	Introduction to Sex Therapy	3 cr.
----------	-----------------------------	-------

Graduation Requirements

1. Satisfactory completion of 61 credit hours, including all required courses
2. Satisfactory completion of a minimum of 700 clock hours of clinical practicum and 200 clock hours of Social Justice Practicum
3. A cumulative GPA of 3.5 or higher and no more than two courses or six credits with a final grade of C
4. Successful completion of the Master's Clinical Qualifying Examination
5. Submission of completed Graduation Application and full payment of all outstanding tuition and fees

Minimum Admission Requirements

At Adler University, we take great pride in our diverse student body. Students represent

a wide range of professional interests, ethnic and cultural backgrounds, and academic and work histories. We admit individuals with a record of outstanding academic achievement and a commitment to social responsibility.

To be considered for admission, an applicant must meet the following criteria:

- A baccalaureate degree or equivalent from an accredited institution, preferably in psychology or counselling-related discipline.
- A grade point average of 3.0 or higher on a 4.0 scale for all undergraduate or graduate coursework.
- The equivalent of at least 12 semester credit hours in baccalaureate-level psychology coursework with a grade of C or better. These courses must include introductory psychology, abnormal psychology, research methods, and a fourth foundational course in life span/development
- Coursework or volunteer/work experience that involves the use of counselling-related skills and demonstrates counselling capacity is required
- Approved applicants will be evaluated through an in-person writing sample and interview as the final step in the application process. Students must complete all coursework required for the program at Adler University–Vancouver Campus. The only exceptions to this policy are any courses accepted for transfer credit in accordance with the University's official Transfer Credit policy. For full details about our admissions requirements, visit adler.edu.

Practicum – Vancouver Campus

An integral part of the Master of Counselling Psychology: School and Youth Concentration program at Adler is the acquisition of practical counselling and scholarly skills gained in field placements. Ongoing involvement in counselling and scholarly activities at professional training sites gives students the closely supervised opportunity to apply and further develop the knowledge, skills, values, and competencies they gain in coursework. Practicum training requirements begin with a Social Justice Practicum (SJP) that focuses on developing skills related to community-based interventions, advocacy, social justice, and systemic interventions that benefit human welfare and well-being. Counselling training provided in students' second practicum focuses on developing the competencies needed to prepare students for entry-level practice at graduation. Because the focus is on integrating master's-level education at Adler with master's-level supervised counselling training, no transfer credit is granted for practica credits earned elsewhere. Students must successfully complete course prerequisites prior to being approved to begin their counselling practicum.

SOCIAL JUSTICE PRACTICUM (SJP)

In their second year, students will spend eight to 10 hours per week over the course of six months at an approved SJP site and must concurrently enroll in required coursework. A minimum of 200 clock hours of SJP is required. Students should contact the Manager of Social Justice Practicum, Vancouver Campus.

SOCIALLY RESPONSIBLE PRACTICE (SRP) PORTFOLIO

Students must complete 50 hours of SRP-related programming offered by or required by the program and or campus. These 50 hours must be completed before the students sits for the MCQE.

CLINICAL PRACTICUM

After completion of all first-year coursework, students should expect to spend at least two days per week over the course of eight to 12 months at an approved counselling practicum site and must concurrently enroll in practicum seminars during their first two semesters of field experience. A minimum 700 total clock hours of counselling practica are required, which is further outlined in program descriptions within this catalog. The Training Director collaborates with students to identify and obtain counselling practicum opportunities that meet the standards and requirements of the program. Students should refer to the Practicum Handbook, available on Adler Connect, for detailed information.

MASTER OF COUNSELLING PSYCHOLOGY: ART THERAPY (MART)

Program Overview

The Master of Counselling Psychology: Art Therapy program at Adler University's Vancouver Campus combines innovative, practical, verbal, and meta-verbal skill training with a leading-edge curriculum to educate socially responsible counsellors/art therapists. As a form of the expressive therapies, art therapy draws on artistic media, imagination, and the creative process to promote physical, mental, and emotional well-being. The program offers a unique environment focused on working with aesthetics and the senses to invite experiences related to therapeutic goals. Further, the program is committed to the practice of radical hospitality as part of the therapeutic context and focuses on the intersections of counselling and art therapy alongside expressive therapy modalities. The program trains graduates as both counsellors and art therapists by creatively combining coursework with practical and innovative field experience, clinical supervision focusing on professional development, artistic practice, and encouragement for continual personal development.

This comprehensive program can be completed in two years of full-time study, including summer semesters. It incorporates a Social Justice Practicum and an extensive clinical practicum; training in the research and scholarship of the profession; and a culminating Master's Clinical Arts Qualifying Examination to ensure students graduate with the requisite skills and knowledge for entry-level practice in professional counselling and art therapy.

Program Purpose

The purpose of the program is to train graduates as both counsellors and art therapists by creatively combining coursework with practical and innovative field experience, clinical supervision focusing on professional development, artistic practice, and encouragement for continual personal development.

Program Objectives

Both the MCP-AT program mission and purpose are realized through the implementation of the six program objectives (see below), which hold as their intention the training of professional counsellors and art therapists who are grounded in a strong theoretical framework based in the literature and research; who are also committed to life-long self-reflexivity and creativity; and are so strong in their perspective as socially responsible practitioners that they go into the world as inspired leaders promoting well-being in communities.

The six program objectives include:

1. Develop the attitudes, knowledge, and skills necessary to work professionally as counsellors and art therapists with diverse clients
2. Synthesize counselling and art therapy theories from diverse perspectives in order to build a personal framework for practice
3. Apply literature-based and research-based practices to enhance and expand the fields of counselling psychology and art therapy
4. Implement creative practices that foster self-reflexivity and self-awareness to engage life-long learning for personal and professional development and competence
5. Embrace socially responsible practice and identify goals and tasks that foster inclusive healthy communities to enhance well-being
6. Develop leadership skills necessary to promote and educate communities regarding the value of integrating the arts and psychology for the purpose of human development

Professional Registration

- This program is on the Canadian Art Therapy Association and British Columbia Art Therapy Association list of approved art therapy schools. The curriculum aligns with requirements established by: The British Columbia Association of Clinical Counsellors and the Canadian Counselling and Psychotherapy Association for application to become a Registered Clinical Counsellor in the province of British Columbia or a Canadian Certified Counsellor in Canada. (Students coming from outside British Columbia are encouraged to connect with Admissions and Training to consult on alignment of professional registration requirements in the location they wish to practice upon graduation).
- The British Columbia Art Therapy Association, the Canadian Art Therapy Association, the Art Therapy Credentials Board (ATCB), and the American Art Therapy Association for application to become a registered art therapist (upon completion of postgraduate supervised direct client hours).

Degree Requirements

Successful completion of the following courses is required for the MCP-AT degree:

MART-200	Professional Development Seminar I	1 cr.
MART-201	Professional Development Seminar II	1 cr.
MART-202	Social Justice Practicum I	1 cr.
MART-203	Social Justice Practicum II	1 cr.
*MART-204	Social Justice Practicum Continued	0 cr.

Graduation Requirements

1. Satisfactory completion of 60 credit hours, including all required courses
2. Satisfactory completion of a minimum of 700 clock hours of clinical practicum (which includes 350 direct client contact hours and 100 hours of clinical supervision) and completion of 200 minimum hours of Social Justice Practicum
3. A cumulative grade point average of 3.0 or higher and no more than two grades or six credit hours of C
4. Successful completion of the Master's Clinical Arts Qualifying Examination
5. Submission of completed Graduation Application and full payment of all outstanding tuition and fees
6. Faculty approval for graduation and recommendation to the Board of Trustees for the conferral of the Master of Counselling Psychology – Art Therapy degree

Admission Requirements

At Adler University, we take great pride in our diverse student body. Students represent a wide range of professional interests, ethnic and cultural backgrounds, and academic and work histories. We admit individuals with a record of outstanding academic achievement and a commitment to social responsibility.

To be considered for admission, an applicant must meet the following criteria:

- A baccalaureate degree or equivalent from an accredited institution, preferably in psychology or counselling-related discipline.
- A grade point average of 3.0 or higher on a 4.0 scale for all undergraduate or graduate coursework.
- The equivalent of at least 12 semester credit hours in baccalaureate-level psychology coursework with a grade of C or better. These courses must include introductory psychology, abnormal psychology, research methods, and developmental psychology.
- The equivalent of 18 semester credit hours in studio art that demonstrate proficiency and disciplined commitment in art-making. Students may earn these hours in traditional as well as non-traditional, informal ways. Please contact an Admissions Advisor for more information.
- A portfolio of original artwork (15 examples in three or more different media) demonstrating competence with art materials. Please note that no previous artistic experience is required.
- Coursework or volunteer/work experience that involves the use of counselling-related skills and demonstrates counselling capacity is highly desirable and is considered in the evaluation of applicants.

Approved applicants will be evaluated through a writing sample, a portfolio review, and an interview as the final step in the application process.

Students must complete all coursework required for the program at Adler University–Vancouver Campus. The only exceptions to this policy are any courses accepted for transfer credit in accordance with the University's official Transfer Credit policy, or courses completed as part of an exchange program with our Chicago Campus that are approved by the MCP – Art Therapy Program Director.

Practicum – Vancouver Campus

We value rich community partnerships providing quality experience and supervision in a variety of settings with a diversity of issues: Vancouver Coastal Health, Providence Health, Fraser Valley Authority, hospitals, hospices, palliative care wards, cancer agencies, mental health agencies, school districts, eldercare facilities, private practices, addiction services, and correctional facilities.

SOCIAL JUSTICE PRACTICUM (SJP)

Students completing first-year coursework will spend eight to 10 hours per week over the course of eight months at approved SJP sites and must concurrently enroll in required coursework. A minimum of 200 clock hours of SJP is required. International community service opportunities are also available. Students should contact the Manager of Community Action & Engagement, Vancouver Campus. Students can refer to the Social Justice Practicum (SJP) Handbook for detailed information.

CLINICAL PRACTICUM

After completion of all first-year coursework, students are required to complete a minimum of 700 clock hours of clinical practicum, which includes 350 direct client contact hours and 100 hours of clinical supervision. Clinical practicum sites may include working within hospitals, criminal justice systems, nonprofit organizations, mental health organizations, private practices, school systems, and addiction services. Students should expect to spend at least three days per week over the course of eight to 12 months at approved practicum sites and must concurrently enroll in practicum seminars during their field experience.

The MCP-AT Program works in collaboration with students in identifying and obtaining clinical practicum opportunities that meet the standards and requirements of the program. Students can refer to the Clinical Practicum Handbook for detailed information.

MASTER OF ARTS IN INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY (MAIOP)

Program Overview

The Master of Arts in Industrial and Organizational Psychology (MAIOP) degree program prepares graduates to work in a variety of areas related to organizational research and design, organization development, talent management, consulting and leadership for business, industry, and the public sector. The degree offers curricula that supports the integration of theory, practice, applied research, and community service within the disciplines of industrial and organizational psychology and related fields. Knowledge and skills developed in the program will enable graduates to provide consultation to, and leadership in, organizational settings on the level of the individual, the work group, and organizational systems and structures.

This degree requires students to complete two practica: a 200-hour Social Justice Practicum and a 300-hour organizational development practicum completed in an organizational setting. The program also requires students to complete the MAIOP Master's thesis. The thesis requirement requires students to demonstrate the requisite abilities to critically analyze research and theory and its application to practice in the field of Industrial and Organization Psychology. The MAIOP thesis supports students who wish to continue their academic pursuits.

Designed for the professional learner, the program is offered in a flexible weekday, weekday evening, and weekend format. This allows students to maintain their involvement with their work while completing the program.

Graduates of the core M.A. in Organizational Psychology program are not eligible for registration as a clinical counsellor.

Admission Requirements

To be considered for admission, an applicant must meet the following criteria:

- A baccalaureate degree or equivalent from an accredited institution
- A grade point average of 3.0 or higher on a 4.0 scale for all undergraduate or graduate coursework
- The equivalent of six semester credit hours in baccalaureate level psychology with a grade of C or better. These courses must include introductory psychology and research methods.

Approved applicants will be evaluated through a writing sample and an interview as the final step in the application process. Students must complete all coursework required for the program at Adler University–Vancouver Campus. The only exceptions to this policy are any courses accepted for transfer credit in accordance with the University's official Transfer Credit policy. For full details about our admissions requirements, visit adler.edu.

MASTER OF INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY (MIOP)

Program Overview

The Master of Industrial and Organizational Psychology (MIOP) degree program prepares graduates to work in a variety of areas related to organizational design, organization development, talent management, consulting and leadership for business, industry, and the public sector. The degree offers curricula that supports the integration of theory, practice, applied research and community service within the disciplines of industrial and organizational psychology and related fields. Knowledge and skills developed in the program will enable graduates to provide consultation to and leadership in organizational settings on the level of the individual, the work group, and organizational systems and structures.

This degree requires students to complete two practica: a 200-hour Social Justice Practicum and a 300-hour organizational development practicum completed in an organizational setting. The program also requires students to complete the MIOP Comprehensive Project to ensure students have the requisite understanding and delivery of an organizational project and demonstrate the ability to critically analyze research, theory and its application to practice in the field of Industrial and Organizational Psychology.

Designed for the professional learner, the program is offered in a flexible weekday, weekday evening, and weekend format. This allows students to maintain their involvement with their work while completing the program.

Graduates are not eligible for registration as a clinical counsellor.

Admission Requirements

To be considered for admission, an applicant must meet the following criteria:

- A baccalaureate degree or equivalent from an accredited institution
- A grade point average of 3.0 or higher on a 4.0 scale for all undergraduate or graduate coursework
- The equivalent of six semester credit hours in baccalaureate level psychology with a grade of C or better. These courses must include introductory psychology and research methods.
- International students, whose first language is not English, are required to receive a score of 88 or better on the iBT (Internet based) TOEFL or 6.5 (overall) on IELTS. Students with IELTS 6.5 overall & 6.0 in writing, or 6.0 overall, are required to successfully complete a 12-week, non-credit Graduate Preparatory Program.

Approved applicants will be evaluated through a writing sample and an interview as the final step in the application process. Students must complete all coursework required for the program at Adler University–Vancouver Campus. The only exceptions to this policy are any courses accepted for transfer credit in accordance with the University's official Transfer Credit Policy. MAIOP-588	Organizational Psychology Practicum Seminar	(1cr.)

Term credits = 2**Total Credit Hours = 45****Practicum – Vancouver Campus****SOCIAL JUSTICE PRACTICUM (SJP)**

In their second year of the program, students will spend eight to 10 hours per week over the course of six months at an approved Social Justice Practicum (SJP) site and must concurrently enroll in required coursework or thesis requirements. A minimum of 200 clock hours of SJP is required. For more information, students should contact the Manager of Community Action & Engagement, Vancouver Campus.

PROFESSIONAL PRACTICUM

Students are required to complete a 300-hour organizational development practicum, which is typically completed in an organizational setting. Students receive supervision by designated practitioners in the organizational setting, as well as via supervision by Organizational Psychology faculty of Adler. The goal of this training is for students to build on their knowledge, skills, attitudes, and values that are needed to become competent practitioners. Students are typically at their sites two to three days per week for a period of four months. Approved sites include a range of settings, such as HR or OD departments in public, private, or not-for-profit organizations; EAP firms; management consulting firms; and relocation or outplacement firms.

MASTER OF PUBLIC POLICY AND ADMINISTRATION

Program Overview

The Master of Public Policy and Administration program develops leaders who are sensitive to issues of social justice and capable of addressing today's complex policy problems. The program shapes future policymakers, public administrators, and community-based professionals seeking to impact systemic social change. Students in the program participate in small, dynamic classes with a cohort of learners and receive individualized attention to support their learning. Graduates will be prepared for diverse career pathways including with municipal, provincial, and federal governments and agencies, as well as with not-for-profit organizations, advocacy groups, and research institutes. The Master of Public Policy and Administration program offers two concentrations, the Social Change Leadership concentration and the International Justice Studies Concentration.

Graduates of this program will be able to:

- Execute the core facets of the policymaking process
- Analyze how social and economic structures contribute to contemporary social issues and experiences of marginalization and inequity
- Develop appropriate leadership skills for public and/or not-for-profit organizations
- Identify the impact of key developments and contextual factors on Canadian governance and leadership in public and not-for-profit organizations
- Apply a range of quantitative and qualitative methodologies in the development, analysis, and evaluation of public policy
- Apply the associated standards of ethical behavior for professionals in the public and/or not-for-profit sectors
- Construct strategies to engage diverse stakeholders in collaborative program, policy, and governance processes
- Communicate respectfully and professionally with a diverse and changing citizenry

Students graduating from the Social Change Leadership concentration will also be able to:

- Examine current and historical tactics for the advancement of social justice within a public policy framework
- Design community development initiatives to improve the lived experiences of marginalized populations

Students graduating from the International Justice Studies concentration will also be able to:

- Evaluate international governance mechanisms, legal agreements, and policy frameworks affecting Canada
- Critically assess contemporary global issues, international social justice responses, and Canada's role in achieving global justice

Admission Requirements

At Adler University, we take great pride in our diverse student body. Students represent a wide range of professional interests, ethnic and cultural backgrounds, and academic and work histories. We admit individuals with a strong record of academic achievement and a commitment to social responsibility.

Applicants to the program must have the following:

- A baccalaureate degree or equivalent from an accredited institution
- A grade point average of 3.0 or higher on a 4.0 scale for all undergraduate or graduate coursework

- Completion, with a grade of C or better, of two, three-credit courses (six credits total) in program-relevant areas such as political science, sociology, women's or gender studies, economics, policy, community development, research methods, and statistics; equivalencies are considered
- Evidence of interest and experience in community and social change efforts
- International students, whose first language is not English, are required to receive a score of 88 or better on the iBT (Internet based) TOEFL or 6.5 (overall) on IELTS. Students with IELTS 6.5 overall & 6.0 in writing, or 6.0 overall, are required to successfully complete a 12-week, non-credit Graduate Preparatory Program.

Students must complete all coursework required for the program at the Adler University–Vancouver Campus. The only exceptions to this policy are any courses accepted for transfer credit in accordance with the University's official Transfer Credit policy as well as the policy internship.

Degree Requirements

Successful completion of the following courses is required for this degree:

Core Courses

MPPA-500	Principles of Community Psychology	3 cr.
MPPA-505	Public Sector Governance	3 cr.
MPPA-510	Applied Research Methods I: Models and Analytics	3 cr.
MPPA-520	Applied Research Methods II: Applications	3 cr.
MPPA-530	Public Policy Analysis and Application	3 cr.
MPPA-540	Organizational Leadership and Management Practice	3 cr.
MPPA-550	Economy and Economic Analysis	3 cr.
MPPA-560	Social Program Planning and Implementation	3 cr.
MPPA-570	Ethics, Diversity, and Socially Responsible Practice	3 cr.
MPPA-650	Social Justice Practicum	1 cr.

Social Change Leadership Concentration Courses

MPPA-600	Foundations of Community Development	3 cr.
MPPA-610	Advocacy Strategy and Tactics for Social Change	3 cr.
MPPA-655	Policy Internship – Social Change Leadership	1 cr.
MPPA-670	Capstone Paper – Social Change Leadership	1 cr.

International Justice Studies Concentration Courses

MPPA-601	Global Governance Mechanisms	3 cr.
MPPA-611	Contemporary Issues in Global Justice	3 cr.
MPPA-660	Policy Internship – International Justice Studies	1 cr.
MPPA-675	Capstone Paper – International Justice Studies	1 cr.

Total Credit Hours: 36

Sample* Curriculum Sequence – Full-Time Model

Term credits = 6**Total Credit Hours = 36**

*Only for students who require more than two semesters to complete Social Justice Practicum and Policy Internship hours and Capstone Paper.

Practicum – Vancouver Campus**SOCIAL JUSTICE PRACTICUM (SJP)**

In their first year of the MPPA program, students will spend approximately eight to ten hours per week over the course of six months at an approved Social Justice Practicum (SJP) site, and must concurrently enroll in required coursework. A minimum of 200 clock hours of SJP is required. For more information, students should contact the Manager of Community Action & Engagement, Vancouver Campus.

POLICY INTERNSHIP

Students in the MPPA program are required to complete a 300-hour on-site internship that provides an opportunity to build professional competence, including hands-on application of their studies, network development, and direct experience of an organizational culture. Working in an organizational setting enables students to develop the ability to bring their academic training to bear on practical problems in diverse situations and develop a critical appreciation of the roles and functions of public policy practitioners in organizations and the community. Students also gain insight into the application of theory and best practices in work environments, and the relationships that exist between theory and practice. Student practica are supported by an academic supervisor who actively engages them in reflective learning and serves as a key contact for the internship host.

Graduation Requirements

1. Satisfactory completion of all required credit hours, including all required courses
2. Satisfactory completion of 200 hours of the Social Justice Practicum
3. Satisfactory completion of 300 hours of the Policy Internship
4. A cumulative grade point average of 3.0 or higher, and no more than two courses or six credits with a final grade of C
5. Successful completion of the Capstone paper
6. Submission of completed Graduation Application and full payment of all outstanding tuition and fees
7. Faculty approval for graduation and recommendation for the conferral of the Master of Public Policy and Administration degree

DOCTOR OF PSYCHOLOGY IN CLINICAL PSYCHOLOGY

Program Overview

The Doctor of Psychology in Clinical Psychology (PSYD) program prepares students for the general practice of professional clinical psychology with particular focus on socially responsible practice that includes education and training regarding the broader social and systemic factors that contribute to human dysfunction. Our PSYD program aligns with the core competencies outlined by the Mutual Recognition Agreement of the regulatory bodies for professional psychologists in Canada and the scholar-practitioner model of training and education developed by the National Council of Schools and Programs of Professional Psychology to develop knowledge, skills, and values in seven core competency areas: relationship, assessment, intervention, research and evaluation, consultation and education, management and supervision, and individual and cultural diversity.

The Vancouver Campus program curriculum was initially designed to mirror the Chicago Campus PSYD curriculum, which has received accreditation from the American Psychological Association. The program curriculum has been specifically designed to meet the curricular requirements of most provincial and state licensing and registration bodies. Graduates of the parallel Chicago Campus PSYD program have been registered or licensed as psychologists in Canada and the United States. Applicants are encouraged to consult the registration/licensure requirements of the jurisdiction in which they hope to become registered/licensed to verify that the program meets their specific jurisdictions' requirements. The program is structured for completion in five years of full-time study, which includes a full-year internship in the final year of the program.

Curriculum

The sequence of coursework is designed for full-time study over five years, including the full-year internship. Adherence to the recommended sequence assures that students are taking courses that are sequenced to be logical, cumulative, and graded in complexity.

In the first year, foundation courses help students develop knowledge and skills pertinent to relationship, diversity, and assessment competencies, as well as human development and health and dysfunction. Foundation courses also are taken in biological bases and cognitive/affective bases of behavior. In addition, students attend a professional development seminar to receive guidance on program requirements, an orientation to issues pertinent to professional psychology, and preparation for the Social Justice Practicum, the unique service-learning experience that reflects our doctoral program's goal to educate socially responsible practitioners.

In years two and three of the curriculum, students build on foundational training to expand their knowledge and skills into additional areas of competency, including assessment, intervention, and research. A foundation course in socially responsible practice is devoted to reviewing theory and research on the roles of structural and systemic factors on human well-being. Students also complete two required clinical practica and begin their doctoral dissertation.

The fourth year of the curriculum is devoted to coursework on professional practice-oriented competencies such as supervision and consultation, as well as additional coursework in psychopharmacology and socially responsible practice. Students are encouraged to complete their doctoral dissertations prior to beginning their pre-doctoral internships.

To monitor and ensure achievement of course and program competencies, capstone tasks are sequenced such that students have appropriately timed opportunities to demonstrate acquisition of specific knowledge, skills, and attitudes. These consist of the Doctoral Clinical Qualifying Examinations to assess the assessment and intervention competencies at the completion

of the assessment, and intervention practica and the doctoral dissertation. These capstone requirements enable faculty to establish that students have acquired the expected level of competency in targeted areas, as well as to assess the degree to which the curriculum is successfully preparing students for professional practice.

Clinical Training: Practica and Internship

The program requires a minimum of 600 hours of clinical practicum experience and a minimum of 300 hours of direct client contact. Students are to receive a minimum of one hour of supervision for every four hours of client contact by psychologists registered in the jurisdiction, as well as group consultation support from an appropriately credentialed University faculty member. In the fifth year of the program, students complete a minimum 1,600-hour internship at an approved site. In addition, the program requires a minimum 200-hour Social Justice Practicum that provides students with experiential learning on issues of diversity and social justice as they relate to individual and community mental health and well-being (this is a nonclinical practicum training).

Research Training and the Dissertation

The doctoral dissertation requires each student to design, prepare, and implement a research study examining an issue relevant to the practice of clinical psychology. It is designed to contribute to a student's knowledge, skills, and expertise in scholarship and in the science and practice of professional psychology. The doctoral dissertation serves as an important capstone requirement for cumulative, sequential learning in research methodologies, and in evaluating the student's ability to integrate research and practice.

Doctoral Clinical Qualifying Examinations

In addition to satisfying coursework, clinical and research training, and other program requirements, students must also pass the qualifying examination. Qualifying examinations are important tasks in the doctoral curriculum that provide students with the opportunity to integrate course material and practical training, reflect on the educational and training experiences, and apply their learning to clinical and social issues. The qualifying exams are milestone experiences allowing faculty to evaluate students' readiness for internship and ability to proceed in the program. Receiving a failing grade on this exam indicates that students demonstrate significant problems in several areas measured by the exam. Students who fail the qualifying exam the first time will receive feedback about their exam performance and will, in most cases, have an opportunity to take the exam a second time. Students who fail a doctoral qualifying exam the second time will be referred to their Program Director, and a second failure may result in dismissal from the program.

Residency Requirement

Students are required to complete a minimum of three academic years of full-time, resident graduate study. Students should be able to complete their doctoral degree within seven years of first registration to the PSYD program; students are also expected to complete the program within two years of completing the internship (failure to do so may result in administrative withdrawal from the program).

Work Outside of Teaching or Research Assistantships

Students do not work more than an average of 20 hours per week in employment outside of the program.

Admission Criteria

Applicants to the program must have the following:

- An honours baccalaureate degree in psychology or a substantial background in psychology (defined as 30 credits of coursework in psychology)
 - Coursework must include the following prerequisites: abnormal psychology, research methods, statistics, and developmental psychology/life span development.
 - Additional coursework (pending faculty approval) should include courses related to neuroscience, cognition, social psychology, developmental psychology, tests and measurement theory, personality, and learning.
- A grade point average of 3.25 or higher on a 4.0 scale for all undergraduate or graduate coursework
 - Exceptions may be made for applicants who demonstrate improved academic performance or academic ability in other ways (e.g., significant clinical or research experience, strong psychology grade point average, excellent GRE scores, or an improved grade point average over time). Applicant may be asked to provide additional supporting documentation for any extenuating circumstances.
- Practicum or work experience in psychology or a related field is highly desirable and is considered in the evaluation of applicants.

Approved applicants will be evaluated through a writing sample and interview as the final step in the application process.

Students accepted for admission who have completed previous graduate-level coursework from Adler University or another graduate institution may apply to have their previous coursework considered for transfer credit. A maximum of 24 semester credits may be transferred into the PSYD program. Adler does not grant credit for any curriculum requirements based on prior learning assessment.

Degree Requirements

The following courses are required for this degree:

PCO-337	Group Psychotherapy	3 cr.
PCO-402	Introduction to Adlerian Psychology and Psychopathology	3 cr.
PSYD-472	Basic Intervention and Assessment Skills	3 cr.
PSYD-510	Psychometric Theory	3 cr.
PSYD-515	Applied Research Design in Clinical Psychology	3 cr.
PSYD-530	Community Psychology	3 cr.
PSYD-550	Statistics	3 cr.
PSYD-560	Trauma Assessment and Intervention	3 cr.
PSYD-600	Doctoral Professional Development Seminar I	1 cr.
PSYD-601	Doctoral Professional Development Seminar II	1 cr.
PSYD-602	Social Justice Practicum I	1 cr.

1. Satisfactory completion of all required credit hours, including all required courses as outlined in the curriculum
2. Satisfactory completion of a minimum of 600 hours of clinical practicum with a minimum of 300 hours of direct client contact
3. Satisfactory completion of the Social Justice Practicum
4. A cumulative grade point average of 3.0 or higher and meeting all school policy with regard to grades
5. Fulfillment of the residency requirement described above
6. Successful completion of all qualifying and comprehensive examinations
7. Successful completion of a doctoral dissertation
8. Satisfactory completion of an institution-approved pre-doctoral internship
9. Submission of completed Graduation Application and full payment of all outstanding tuition and fees

COURSE DESCRIPTIONS – VANCOUVER CAMPUS

GPP-500

Effective English Communication 0 Credits

This seminar will review grammar and syntax in professional English, and incorporate daily writing and note-taking practice suited at the graduate level. At the end of the seminar, students will develop the ability to structure paragraphs, introductions and conclusions commonly used in report writing; write using a variety of genres, including short briefing notes and summaries; take effective notes from lectures, and utilize information from a variety of sources.

GPP-510

Fundamental Research Skills 0 Credits

This seminar focuses on developing students' practical research skills and critical thinking, with special attention to public policy materials. Class work emphasizes active learning, featuring collaborative classroom exercises. Coursework will cover research methods, an introduction to Canadian public policy sources, and critical assessment of research material. *Note: students should expect to spend considerable time outside of class in written assignment preparation. Students require a laptop in class.*

GPP-520

Fundamental Presentation Skills 0 Credits

This seminar will develop students' oral and written presentation ability through practical classroom experience. Coursework emphasizes student participation both in making presentations and critique of other students' work. At the end of the seminar, students will develop the ability to present public policy and organizational psychology information effectively in both oral and written forms, and confidently participate in academic and professional presentation environments.

MACP-200

Professional Development Seminar I 1 Credit

MACP-201

Professional Development Seminar II 1 Credit

(Vancouver Campus)

These seminars provide students opportunities to meet in a small group with peers and one faculty member who will also serve as the students' Advisor. The course covers advisement and mentoring around Adler degree requirements and mission, orientation to the field of professional psychology, issues of diversity as it relates to the field and students' personal and professional growth, and an overview of the ethical codes and professional standards of psychology. This course will also assist in orienting and preparing students for the Social Justice Practicum (SJP).

MACP-337

Group Psychotherapy 3 Credits (Vancouver Campus)

Prerequisites: MACP-472; MACP-520. This course examines the history, theory, methods, and application of group psychotherapy in professional psychology. The development of competence in group methods is enhanced through a combination of lectures, student presentations, class exercises, break-out practice groups, and participation in, and experience leading, an experiential in-class group. The class meets as a group, and students process their experiences in the here and now. The goal is to help students become more comfortable with themselves and, therefore, learn to relate more effectively and creatively in the group setting.

MACP-402

Introduction to Adlerian Psychology and Psychopathology 3 Credits (Vancouver Campus)

This course covers the major principles of Adlerian, or individual, psychology. Students learn the theoretical principles as a basis for understanding each individual's creation of a unique style of life or personality. This course will address cognitive, affective, social, cultural, and diversity aspects in the individual's formation of his or her view of self, others, and the world. The social nature of people, individual creativity, holism, purposive behaviour, family system, memory, and private logic are among the theoretical principles that will be explored. This course also includes thorough examination of Adler's futuristic principle of *Gemeinschaftsgefühl* and its potential impact on both individuals and humankind.

MACP-433

Parent Education: Adlerian Theories and Intervent 2 Credits (Vancouver Campus)

Prerequisite: MACP-402. This course prepares students to provide child guidance and parent education based on Adlerian principles. Through lecture, class discussion, observation, and participative demonstrations, students develop skills and knowledge for conducting parenting groups/workshops in the local community and gain a greater sense of parenting issues, support, and strategies. The course also provides students with an opportunity to apply the material within their practice and within the local community. There will be an in-class presentation component, as well as a presentation in the local community.

MACP-438

Introduction to Addictive Disorders 3 Credits (Vancouver Campus)

This course is designed to provide an introduction to substance dependence, substance abuse, and other addictive disorders. Included is an overview of the information needed to assess addictive disorders, along with the relevant treatment models, and to provide the tools to recognize the signs and symptoms of substance use, misuse, abuse, and dependence; dual disorders; and the mentally ill substance abusers (MISA). The understanding of the basic pharmacological, physiological, and medical aspects of chemical dependence will be included, along with the historical development of alcohol and other drug usage, self-help groups, treatment delivery systems, and social justice issues.

MACP-472

Basic Counselling Skills and Interventions 3 Credits (Vancouver Campus)

This course is designed to provide students with the foundational knowledge and skills necessary for entry-level counselling practice. In the area of intervention, the course familiarizes students with the primary elements of the psychotherapeutic relationship, common factors in counselling and psychotherapy, and basic diversity competency in helping relationships. The course covers counsellor attending, effective use of active listening skills (verbal and nonverbal) and other interventions, intake interviewing, goal setting, writing case notes, and self-reflection. Students will also learn to apply ethical standards that are relevant to issues in this course (e.g., informed consent, confidentiality, dual relationships).

MACP-473

Pre-practicum Counselling Skills Lab 0 Credits (Vancouver Campus)

Prerequisite: MACP-472; MACP 520; MACP-505. The pre-practicum lab is designed to provide additional practice of basic counselling and intervention skills before students start their clinical practicum experience. Students will have the opportunity to work with their peers or in the community, build clinical relationships, receive support and feedback from the lab supervisor, and experience a peer consultation group. (Lab fees applied.)

- MACP-474**
Advanced Counselling Skills and Interventions **3 Credits**
(Vancouver Campus)
Prerequisites: MACP-472; MACP 520. This course focuses on more advanced counselling skills (e.g., silence, immediacy, self-disclosure, use of metaphor, inferring client feelings, enhancing responses, body awareness). Students will be introduced to theories of change and will learn and practice interventions related to those theories from different counselling orientations. All counselling will be approached and practiced through a multicultural and diversity lens. The course will also cover evidence-based research that supports the importance of developing counsellor-client relationships, as well as the use and application of interventions. The growth of self-as-counsellor will be developed around self-reflexivity, self-compassion, self-care, resiliency, and use of feedback.
- MACP-495**
Research in Counselling Psychology **3 Credits**
(Vancouver Campus)
 This course discusses the assumptions and methods of a range of both qualitative and quantitative research designs used in counselling psychology research. A critical assessment is provided of the strengths and weaknesses of different research methods and their application to the study of the advancement and challenges in the field of counselling psychology. Students also gain an appreciation for the role of research in an informed and ethical counselling practice.
- MACP-505**
Ethical Practice in Counselling Psychology **3 Credits**
(Vancouver Campus)
 This course is designed to provide students with a solid foundation for the ethical practice of counselling psychology. Students will become familiar with the codes of ethics used by counsellors, as well as a systematic process of ethical decision-making when faced with ethical dilemmas. This course will also provide an overview of legal issues that affect the day-to-day work of counsellors. Issues of diversity and social justice will be discussed throughout the course and applied to ethical practice.
- MACP-506**
Master's Practicum **1 Credit**
(Vancouver Campus)
Prerequisites: Please consult program section for several prerequisites; concurrent with MACP-508. This course consists of a counselling practicum field experience at an approved practicum site. Students should expect to spend a minimum of two to three days per week over the course of the term at their practicum site.
- MACP-507**
Master's Practicum II **1 Credit**
(Vancouver Campus)
Prerequisites: MACP-506; MACP-508; concurrent with MACP-509. This course consists of a counselling practicum field experience at an approved practicum site. Students should expect to spend a minimum of two to three days per week over the course of the term at their practicum site.
- MACP-508**
Master's Practicum Seminar I **2 Credits**
(Vancouver Campus)
Prerequisites: Please consult program section for several prerequisites. Using a peer consultation model facilitated by a qualified clinical instructor, this seminar provides students engaged in practicum training with an opportunity to integrate learning about assessment, case conceptualization, and treatment planning and intervention through application to their clinical practicum experiences. Specific cases that students are working on in their respective practica are discussed to illustrate general principles of counselling and intervention. The focus is on the development of knowledge, skills, and values needed to provide competent and ethical counselling.
- MACP-509**
Master's Practicum Seminar II **2 Credits**
(Vancouver Campus)
Prerequisite: MACP-508. Using a peer consultation model facilitated by a qualified clinical instructor, this seminar provides students engaged in practicum training with an opportunity to integrate learning about assessment, case conceptualization, and treatment planning and intervention through application to their clinical practicum experiences. Specific cases that students are working on in their respective practica are discussed to illustrate general principles of counselling and intervention. The focus is on the development of knowledge, skills, and values needed to provide competent and ethical counselling.
- MACP-516**
Individual Appraisal for Counsellors in Practice **3 Credits**
(Vancouver Campus)
 This course will familiarize students with assessment and evaluation commonly used in counselling practice. The following topics will be addressed: theoretical and historical bases for assessment techniques; validity; reliability; appraisal methods; strategies for selecting, administering, interpreting, and using assessment and evaluation instruments; and techniques in counselling.
- MACP-517**
Trauma Theory and Practice **3 Credits**
(Vancouver Campus)
 This course presents an overview of the history, theory, and neurobiology of trauma and how to treat its various presentations. The impact of early trauma and/or neglect on the brain and nervous system, and how this impact differs from trauma events later in life, will be reviewed. The nature of trauma memory, how to work with both explicit and implicit memories, and why and how these memories are processed differently in counselling are presented. The assessment and treatment of trauma in its various presentations, using current and empirically-validated methodologies, as well as somatic and expressive approaches, is reviewed and practiced.
- MACP-520**
Theories of Psychotherapy **3 Credits**
(Vancouver Campus)
 This survey course presents an examination and analysis of the major theories, principles, and techniques of psychotherapy. Theories to be examined may include many of the foundational theoretical approaches to treatment, such as psychoanalytic, person-centered, existential, Gestalt, rational emotive behavioural, cognitive, family systems, feminist, solution-focused, and narrative therapies. The course will examine the relevant application of theory in conceptualizing one's ongoing work with a client. The difference between using a theory and using an intervention will be reviewed. The course will also examine the evidence base for psychotherapy.
- MACP-525**
Preparation for the M.A. Thesis **1 Credit**
(Vancouver Campus)
Prerequisite: MACP-495. This seminar provides students with an opportunity to meet in a small group format with peers and their thesis supervisor as part of the thesis advising process. With guidance from their Supervisor and peers, students will review and discuss their thesis topics and research methodologies with the goal of developing, refining, and completing their thesis proposal by the end of the seminar. Students will also learn about the ethical responsibilities related to conducting psychological research and be expected to work on their Ethics application during the term. Students are required to take this course prior to registering for MACP-526.

MACP-526

M.A. Thesis I **1 Credit**
(Vancouver Campus)

Prerequisites: MACP-495; MACP-525. Students are required to take this course prior to registering for MACP-527. The M.A. Thesis is a student-directed research project conducted in consultation with an approved faculty member of a topic of quantitative or qualitative study relevant to the theory and practice of counselling psychology. The thesis is an important capstone task (a culmination or highest point) for students' demonstration of the integration of science and practice and the critical thinking skills required for the ethical and professional practice of counselling psychology. Students are required to complete a scholarly paper of publishable quality in accordance with Adler University guidelines and Canadian Psychological Association and American Psychological Association standards.

MACP-527

M.A. Thesis II **1 Credit**
(Vancouver Campus)

Prerequisite: MACP-526. Students are required to take this course prior to registering for MAC-528. See description for MACP-526.

MACP-528

M.A. Thesis III **1 Credit**
(Vancouver Campus)

Prerequisite: MACP-527. See description for MACP-526.

MACP-529

M.A. Thesis Continuation **1 Credit**
(Vancouver Campus)

Master's students who are continuing to work on their thesis and have already registered for and completed the M.A. Thesis course must register each term for this course and pay the required fee to remain in good standing. Students enrolled in M.A. Thesis Continuation are expected to make steady and consistent progress on completion of their thesis. Failure to enroll in courses, or M.A. Thesis Continuation, may result in dismissal from the MACP program.

MACP-569

Lifestyle and Career Development **3 Credits**
(Vancouver Campus)

This course examines a person's career trajectory and dynamics within the context of the person's individual circumstances (ability, culture, ethnicity, etc.). Students will learn to assess career interests, aptitudes, and options. These will be explored as individual and collective sources of work information. Understanding how these are embedded within the larger societal context will allow students to help clients with career decisions and transitions in the broader perspective of total personal development.

MACP-610

Clinical Practicum Continued
(Vancouver Campus)

This clinical continuance course is taken after all clinical practicum courses are completed, yet clinical hours or clinical placement is not completed. (clinical fee applied)

MACP-641

Multicultural Counselling for Diverse Populations **3 Credits**
(Vancouver Campus)

This course offers students a framework to implement multicultural counselling competencies from a social justice perspective by developing necessary attitudes, knowledge, skills, and advocacy interventions when working with diverse populations. Students will critically examine the Eurocentric, patriarchal, and heteronormative ideologies commonly

embedded in counselling psychology and become familiarized with culturally based counselling methods. Substantial emphasis will be placed on students' awareness of their intersection of identities and how it shapes their own values, attitudes, beliefs, and biases, as well as how the dynamics of power, privilege, and oppression may influence the therapeutic encounter.

MACP-647

Biopsychosocial Bases of Health and Dysfunction **3 Credits**
(Vancouver Campus)

This course is designed to provide students with the foundational knowledge and skills necessary for understanding DSM-5 diagnoses from a biopsychosocial perspective. A comprehensive introduction to the clinical features and biopsychosocial etiologies of mental disorders will be reviewed, as well as the therapeutic approaches commonly used for treatment.

MACP-663

Effective Couple and Family Counselling **3 Credits**
(Vancouver Campus)

Prerequisites: MACP-472; MACP-505. This course offers an in-depth understanding of several evidence-based models for intervening with families and couples. The course covers a range of dysfunctions within couple and family systems and appropriate interventions. Emphasis is on the systematic application of techniques through theoretical analysis, intervention selection, and role-playing of interventions. Students will be encouraged to examine how these models fit for themselves theoretically and personally, and how well they fit with a variety of clinical populations.

MACP-671

Structural and Sociocultural Bases of Health and Dysfunction **3 Credits**
(Vancouver Campus)

Traditionally, psychologists and counsellors work within circumscribed clinical contexts in which mental health issues are deemed functions of individual pathology. However, many mental health issues are symptomatic of larger structural or systemic phenomena that characterize the context in which people live and over which they have limited control (e.g., public policy, institutional practices and behaviours, and large macro-trends). Therefore, effective clinical intervention and problem solving requires an ability to see, analyze and understand these phenomena, and to develop appropriate remedial responses.

MACP-673

Advanced Adlerian Psychotherapy **3 Credits**
(Vancouver Campus)

Prerequisite: MACP-402. The theoretical principles of individual psychology (IP) including holism, phenomenology, teleology, and social interest are applied to address the cognitive, affective, and sociocultural dimensions of personality development. The impact of unique and creative perception in the formation of an individual's self, ethics, and worldview will be demonstrated. Adlerian personality assessment or style of life will be emphasized as an assessment tool in the cache of the IP practitioner. Family constellation (system), early memories, dreams, life tasks, and their meaningful significance and usefulness will be used to gain an understanding of each client's unique personality development. Adlerian concepts will be practically applied to approaches to counselling and therapy. Interventions that are congruent with theoretical assumptions such as social interest, holism, phenomenology, and teleology will be examined. The lifestyle assessment will be used to develop comprehensive, diverse, and culturally specific treatment plans and goals. Adlerian therapeutic techniques will be examined and practiced.

MACP-674**Introduction to Sex Therapy
(Vancouver Campus)****3 Credits**

This course provides an introduction to sex therapy, with a focus on the foundational underpinnings required for clinical practice. The course will address theory and research about the historical, biological, psychological, and social/cultural influences on human sexuality and its expression. Students will critically examine their own personal biases and reactions to the material; reflect and evaluate the various forms of sexual expression and concerns for clients; consider the meaning of sex positivity and sex negativity and how it relates to sexual concerns; and learn basic skills about how to intervene in a clinical setting. Topics that will be addressed include sexual anatomy, sexual response, sexual health, gender expression and/or identity, sexual orientation, sexual preferences and expression, sexual concerns, and sexual communication. Students should come prepared to examine their thoughts, beliefs, preferences, and assumptions as they relate to their own sexuality

MACP-676**Introduction to Depth Psychology and Psychotherapy
(Vancouver Campus)****3 Credits**

This course is designed to introduce students to the theory and practice of depth psychology. The course will review the seminal works of Sigmund Freud and Carl Jung and the contemporary developments of their work including such authors as Anna Freud, Karen Horney, Melanie Klein, Thomas Ogden, Wilfred Bion, Sandor Ferenczi, James Hillman, and others. The practice of depth psychology will be examined, including working in the therapeutic frame, dreamwork, transference, and countertransference. Finally, contemporary practices of depth psychology will be examined, including attention to diversity, social justice, and social responsibility.

MACP-995**Master's Clinical Qualifying Examination****0 Credits**

Prerequisite: Completion or near completion of all course requirements, except thesis coursework. The Master's Clinical Qualifying Examination consists of the presentation of a clinical case including an audiotape; an analysis of key interchanges within the session presented; a written case conceptualization and treatment plan; a paper integrating research with the clinical case; and a paper examining social issues pertinent to the clinical case. Students will meet with two faculty examiners to review the material pertinent to the case. The oral presentation will take between one to one-and-a-half hours. Students' performance on both the written and oral portions is incorporated into the faculty evaluation. Students who fail to pass on the second attempt are subject to dismissal from the University.

MAIOP-215**Leadership Development
(Vancouver Campus)****3 Credits**

This course addresses the principles of identifying and developing individual leader potential and organizational leadership capacity. Students will learn the contemporary state of leadership theory and practice, as well as the methodologies that coaches/counselors/ consultants use to advise and assist leaders in their professional development. The basic intention of the course is to help the student understand leader behaviour both in themselves and others, to develop a personal leadership philosophy, and to develop skills in evidence-based methodologies to assist individuals in their personal and professional development.

MAIOP-220**Consulting Skills
(Vancouver Campus)****2 Credits**

This course is designed to help the student develop the "core" organizational consulting skills. These include relationship skills with internal and external consulting clients, contracting, managing and delivering responses to requests for proposals (RFP's), designing and delivering a training intervention, and the role and expectations of a consultant. It will provide detailed and comprehensive approaches, surveys, and materials necessary for undertaking and completing organizational consulting projects successfully. Conceptual understanding, reflection on learning and practical advice is offered.

MAIOP-222**Social Justice Practicum I
(Vancouver Campus)****1 Credit**

Students will acquire knowledge about community-based problems and the range of programs and services designed to address these problems; public health approaches, policy development, and implementation; and professional networking. Throughout the process, students are contributing to others in the community on behalf of the degree that is being earned and also the profession to which the degree leads. Students represent the reputation of Adler University through the Social Justice Practicum. They are opening doors for psychology where there may have been a historical void, and making it more accessible and less stigmatizing for others to ask for help. Upon graduating, students' experiences will allow them to demonstrate knowledge, skills, and attitudes that reflect socially responsible practices. As professionals, students' skill sets will reflect an awareness of the realities that confront our global society and the needs of the individuals in it.

MAIOP-225**Social Justice Practicum I
(Vancouver Campus)****1 Credit**

Students will acquire knowledge about community-based problems and the range of programs and services designed to address these problems; public health approaches, policy development, and implementation; and professional networking. Throughout the process, students are contributing to others in the community on behalf of the degree that is being earned and also the profession to which the degree leads. Students represent the reputation of Adler University through the Social Justice Practicum. Upon graduating, students' experiences will allow them to demonstrate knowledge, skills, and attitudes that reflect socially responsible practices. As professionals, students' skill sets will reflect an awareness of the realities that confront our global society and the needs of the individuals in it.

MAIOP-515**Communication Theory and Practice
(Vancouver Campus)****3 Credits**

Being an effective consultant requires various skills including accurate self-awareness and effective interpersonal communication skills. This course is designed to assist you to become a 'conscious' practitioner in your professional role by employing reflective practice to increase your awareness of your communication style and skills, as well as set goals for development in this area. Further, this course offers opportunities to view how you present yourself in interpersonal and group interactions. The goal here is to enhance the likelihood of your success in all types of interactions and relationships both with individuals and in working to mobilize group performance. This course will introduce basic theoretical concepts and skills designed to improve your communication competence and provide an opportunity to apply and practice these concepts and skills effectively in all aspects of interpersonal interactions. This course is specifically focused on communication skills that are necessary in carrying out the role of an organizational psychology consulting practitioner. Skills related to group communication will focus on how to use Liberating Structures and other creative strategies to transform a group's capacity for creative and collaborative action towards a desired future. Interpersonal conflict management tests our ability to practice communication skills to build mutual understanding and work towards collaborative agreements. Theory and practice of collaborative process and skills will be focused on to build competence in addressing interpersonal conflicts both personally and professionally. Ultimately the goal of this course is to raise the student's awareness of basic tools for effective communication in all aspects of the consultant/ client relationship as well as in engaging active participation in a group setting.

MAIOP-520**Introduction to IO Psychology
(Vancouver Campus)****1 Credit**

This course will introduce the core domains of Industrial Organizational (IO) Psychology. Students will be introduced to the field of IO psychology and its core principles and practices. This course will cover a wide variety of topics in order to expose students to the main organizational issues influenced by IO psychology. Furthermore, students will gain an understanding of the various ways IO psychology contributes to organizations. In addition, students will be introduced to the core concepts of Adlerian Psychology and how they relate to the discipline of IO psychology. Through the use of case studies, students will explore Adlerian practices and core concepts in the field of IO psychology.

MAIOP-523**Psychometrics Lab
(Vancouver Campus)****1 Credit**

With the increasing demand in evaluating the outcomes of organizational development initiatives, practitioners need to focus on the collection of valid and reliable data to inform policy decisions and to demonstrate to the funding authorities the effectiveness of their interventions. Additionally, organizations are expanding their definition of performance and are seeking customized and sophisticated instruments to measure the performance these outcomes with integrity. In this course you will learn applied psychometric theory and techniques required to develop and validate measures of psychological constructs that are suitable for decision making in organizations. Particular emphasis will be placed on generating measurement items and rating scales and investigating the reliability and validity of psychological data using factor analytic procedures. The psychometric issues covered will be pertinent to the present day organizational psychologist as both informed consultant and active researcher.

MAIOP-525**Statistical Methods at Work
(Vancouver Campus)****3 Credits**

This course is designed to provide students with knowledge and skills relevant to application of statistical analyses that are essential to supplement organizational effectiveness. Students will learn to translate organizational questions into research questions, determine appropriate statistical tools, and make decisions and solve problems in organizations based on quantitative data. Statistical techniques most commonly used in organizational settings will be covered, including distributions, correlations, probability, regression analyses, and group differences methodologies. Students will be provided with organizational data sets that they will use to gain competencies in framing and answering organizational questions, analyzing and interpreting quantitative data, and creatively presenting results to a variety of stakeholders, including a panel of practitioners. Finally, this course will prepare students for their thesis work by introducing a number of advanced statistical methods, such as meta-analysis and structural equation modeling.

MAIOP-535**Ethics and Socially Responsible Practice
(Vancouver Campus)****1 Credit**

This course introduces students to the relevance and importance of ethics and social responsibility in business. The objectives are to increase students' awareness and understanding of ethical issues in business and the field of Organizational Psychology, and to provide useful conceptual tools to guide analysis and decisions. The ultimate intent of the course is to leave students better equipped to identify, think critically about, and resolve ethical issues that are encountered in their professional life at the individual, organizational, and societal levels. Some of the conceptual tools and frameworks to be discussed throughout the course include: Moral Theory, Reasoning, and Development, Ethical Decision-Making, and Corporate Social Responsibility Theory. The course will apply these conceptual tools and frameworks and the ways they impact various stakeholder groups including: shareholders; employees; consumers; suppliers, the natural environment, communities, and governments. The course concludes with a discussion of how companies can establish ethical corporate cultures.

MAIOP-546**Research Methods in Organizational Psychology
(Vancouver Campus)****3 Credits**

This course discusses the assumptions and methods of a range of research designs used in organizational psychology research. A critical assessment is provided of the strengths and weaknesses of different research methods and their application to the study of individual, group, and organizational behaviour. Students are expected to generate a statement of a research problem of interest and then propose how this problem could be investigated through two different methodologies—one qualitative and one quantitative. Preparation of a research question and exploring options to answer this through research is intended to assist students in their eventual completion of the Master's Thesis Project.

MAIOP-547**Group Theory and Team Dynamics
(Vancouver Campus)****3 Credits**

This course focuses on group/team structures and processes in organizations. This course provides students with the knowledge, understanding, and skills to effectively facilitate groups and teams in need of support and development. The course will teach the methodologies that internal and external consultants use to assist teams and organizations. The emphasis is on change, conflict, problem solving, team leadership, and ethical practice. This course draws from theory and research in organizational psychology, social psychology, sociology, and organizational behaviour, as well as the history, theory, methods, and applications of group theory and practice in organizational structures are examined. The development of competency in group facilitation methods is taught through didactic presentation, role-playing, and participation in group-designed course structure.

<p>MAIOP-550 MAIOP Thesis Preparation (Vancouver Campus) 1 Credit <i>Prerequisite: MAIOP-546.</i> This seminar will provide students with an opportunity to meet in a small group format with peers and their thesis advisor as part of the thesis advising process. With guidance from their Advisor and peers, students will review and discuss their thesis topics and research methodologies with the goal of developing, refining, and completing their thesis concept paper by the end of the course. Students will also learn about the ethical responsibilities related to conducting psychological research.</p>	<p>MAIOP-571 Organizational Systems and Structure (Vancouver Campus) 1 Credit This course will provide an overview of organizational design theory relevant to the IO practitioner. The basic concepts of structure and dynamics of organizations as open systems will be introduced, along with other important organizational factors such as life cycle and culture. The focus will be given on interrelationship between the external environment, technology, structure, and organizational culture and change management. Students will also learn the practical applications of organization design and organization development concepts and the implications for the effective management of organizations.</p>
<p>MAIOP-541 MAIOP Thesis I (Vancouver Campus) 1 Credit <i>Prerequisites: MAIOP-546, MAIOP-550.</i> The MAIOP Thesis is a student-directed study conducted in consultation with an approved faculty member of a topic relevant to the theory and practice of organizational psychology. The research project is an important capstone task (a culmination or highest point) for students' demonstration of the integration of science and practice and the critical thinking skills required to complete a scholarly paper of publishable quality in accordance with Adler University guidelines and Canadian Psychological Association and American Psychological Association standards.</p>	<p>MAIOP-576 Strategic Human Resource Management (Vancouver Campus) 3 Credits This course provides students with an introduction to human resource management and the role of psychological theory and methodology in promoting strategic utilization and development of human resources in organizations. Current developments in the behavioural sciences as they apply to the business organization are stressed. Applied psychology in the workplace is explored through the study of best practices in the areas of job analysis, performance development, recruitment, selection, and training.</p>
<p>MAIOP-552 MAIOP Thesis II (Vancouver Campus) 1 Credit <i>Prerequisites: MAIOP-546, MAIOP-550.</i> The MAIOP Thesis is a student-directed study conducted in consultation with an approved faculty member of a topic relevant to the theory and practice of organizational psychology. The research project is an important capstone task (a culmination or highest point) for students' demonstration of the integration of science and practice and the critical thinking skills required to complete a scholarly paper of publishable quality in accordance with Adler University guidelines and Canadian Psychological Association and American Psychological Association standards.</p>	<p>MAIOP-578 Personnel Selection and Assessment (Vancouver Campus) 3 Credits This course focuses on how to conduct practical and professional psychological assessments for the purpose of personnel selection and development in organizational settings. Students will learn applied psychometric theory and how to evaluate, select, administer, score, interpret, and integrate the findings from the most commonly used psychological assessment techniques in the field of organizational psychology. Students will also examine the legal and ethical context of personnel selection in Canada. The primary emphasis of the course is placed on behavioural interviewing, personality inventories, cognitive ability tests, vocational interest inventories, work samples, and simulations. These techniques will be taught in the context of assisting organizations in selecting and developing leaders.</p>
<p>MAIOP-533 MAIOP Thesis III (Vancouver Campus) 1 Credit <i>Prerequisites: MAIOP-546, MAIOP-550.</i> The MAIOP Thesis is a student-directed study conducted in consultation with an approved faculty member of a topic relevant to the theory and practice of organizational psychology. The research project is an important capstone task (a culmination or highest point) for students' demonstration of the integration of science and practice and the critical thinking skills required to complete a scholarly paper of publishable quality in accordance with Adler University guidelines and Canadian Psychological Association and American Psychological Association standards.</p>	<p>MAIOP-580 Organizational Change and Development (Vancouver Campus) 3 Credits This course provides an analysis of structures, culture, and leadership of organizations and how they differ. The majority of the course addresses the theories, activities, challenges, and ethics of change management initiatives affecting work units, task groups, and individuals and the role of the consultant in these processes. The course will familiarize students with organizational and group assessment techniques to use before, during, and after consultations designed to effect change. Additionally, students will learn how to evaluate various organizational interventions and choose appropriate interventions based on theory and scholarly literature.</p>
<p>MAIOP-554 MAIOP Thesis Continued (Vancouver Campus) 0 Credit <i>Prerequisites: MAIOP-546, MAIOP-550.</i> The MAIOP Thesis is a student-directed study conducted in consultation with an approved faculty member of a topic relevant to the theory and practice of organizational psychology. The research project is an important capstone task (a culmination or highest point) for students' demonstration of the integration of science and practice and the critical thinking skills required to complete a scholarly paper of publishable quality in accordance with Adler University guidelines and Canadian Psychological Association and American Psychological Association standards.</p>	<p>MAIOP-585 Organizational and Individual Coaching (Vancouver Campus) 2 Credits This course is designed to provide students with an understanding of the principles and practices in coaching in organizations and to examine the contemporary state of the field in the context of current theory and practice. It addresses the organizational issue of developing the capacity of leaders to engage in coaching conversations, identifying and developing leadership potential, and the establishment of coaching as an appropriate response to such development. The course will focus on evidence-based coaching and teach the methodologies that coaches/consultants use to advise and assist leaders, managers, and employees in their professional development.</p>

MAIOP-586**Organizational Psychology Practicum (Vancouver Campus) 1 Credit**

The Professional Practicum is an opportunity for students to develop professional competence in a work context. Working in an organizational setting enables students to develop the ability to bring their academic training to bear on practical problems in diverse situations and to develop a critical appreciation of the roles and functions of organizational psychology practitioners in organizations and the community. Students also gain insight into the constraints that apply in work environments and the relationships that exist between theory and practice.

MAIOP-587**Organizational Psychology Practicum Continued (Vancouver Campus) 0 Credits**

The Professional Practicum is an opportunity for students to develop professional competence in a work context. Working in an organizational setting enables students to develop the ability to bring their academic training to bear on practical problems in diverse situations and to develop a critical appreciation of the roles and functions of organizational psychology practitioners in organizations and the community. Students also gain insight into the constraints that apply in work environments and the relationships that exist between theory and practice.

MAIOP-588**Organizational Psychology Practicum Seminar (Vancouver Campus) 1 Credit**

Using a peer consultation model, this seminar provides students engaged in practicum training with an opportunity to discuss professional development and the supervision experience. Specific cases students are working on in practica are discussed to illustrate general principles of organizational psychology and related business concepts. The focus is on the development of knowledge, skills, and values needed to provide competent and ethical counselling, consultation, and business practices.

MAIOP-591**Human Resource Development (HRD) (Vancouver Campus) 2 Credits**

This course will introduce students to core concepts and theories of adult learning and development. In addition, students will be introduced to the principles and practice of training and development. More specifically, the focus will be on theories, methodologies, and best practices for designing and implementing effective training programs in organizations. In addition to theory and research, students will be able to develop practical skills through assignments focused on curriculum design, presentation skills development, and application of adult learning and development tools.

MAIOP-641**Social Psychology and Well-Being (Vancouver Campus) 3 Credits**

This course focuses on the social psychology concepts and processes to understand the interaction between self, people, and organizations. It addresses the interplay between social psychological processes and organizational systems, and how these processes shape individual and organizational well-being. Students will be provided an overview of social theories, concepts, models and research that apply to our understanding of individual well-being in organizations, as well as an application of social and positive psychological theory and research to enhance performance and well-being. Students will learn the role of work in creating positive emotional experiences, engagement, meaning, and high-quality connections. The class deals with models of job-related well-being and empirical findings from occupational health and positive organizational scholarship; it explores the issues associated with the measurement of emotional experience and their causes and antecedents, and demonstrates the analytical procedures and techniques for testing various models of well-being and strain.

MAIOP-215**Leadership Development (Vancouver Campus) 3 Credits**

This course addresses the principles of identifying and developing individual leader potential and organizational leadership capacity. Students will learn the contemporary state of leadership theory and practice, as well as the methodologies that coaches/counselors/consultants use to advise and assist leaders in their professional development. The basic intention of the course is to help the student understand leader behaviour both in themselves and others, to develop a personal leadership philosophy, and to develop skills in evidence-based methodologies to assist individuals in their personal and professional development.

MAIOP-220**Consulting Skills (Vancouver Campus) 2 Credits**

This course is designed to help the student develop the “core” organizational consulting skills. These include relationship skills with internal and external consulting clients, contracting, managing and delivering responses to requests for proposals (RFP's), designing and delivering a training intervention, and the role and expectations of a consultant. It will provide detailed and comprehensive approaches, surveys, and materials necessary for undertaking and completing organizational consulting projects successfully. Conceptual understanding, reflection on learning, and practical advice is offered.

MAIOP-222**Social Justice Practicum I (Vancouver Campus) 1 Credit**

Students will acquire knowledge about community-based problems and the range of programs and services designed to address these problems; public health approaches, policy development, and implementation; and professional networking. Throughout the process, students are contributing to others in the community on behalf of the degree that is being earned and also the profession to which the degree leads. Students represent the reputation of Adler University through the Social Justice Practicum. They are opening doors for psychology where there may have been a historical void, and making it more accessible and less stigmatizing for others to ask for help. Upon graduating, students' experiences will allow them to demonstrate knowledge, skills, and attitudes that reflect socially responsible practices. As professionals, students' skill sets will reflect an awareness of the realities that confront our global society and the needs of the individuals in it.

MAIOP-225**Social Justice Practicum II (Vancouver Campus) 1 Credit**

Students will acquire knowledge about community-based problems and the range of programs and services designed to address these problems; public health approaches, policy development, and implementation; and professional networking. Throughout the process, students are contributing to others in the community on behalf of the degree that is being earned and also the profession to which the degree leads. Students represent the reputation of Adler University through the Social Justice Practicum. They are opening doors for psychology where there may have been a historical void, and making it more accessible and less stigmatizing for others to ask for help. Upon graduating, students' experiences will allow them to demonstrate knowledge, skills, and attitudes that reflect socially responsible practices. As professionals, students' skill sets will reflect an awareness of the realities that confront our global society and the needs of the individuals in it.

MAIOP-226**Social Justice Practicum Continued
(Vancouver Campus)****0 Credits**

MAIOP-515**Communication Theory and Practice
(Vancouver Campus)****3 Credits**

Being an effective consultant requires various skills including accurate self-awareness and effective interpersonal communication skills. This course is designed to assist you to become a 'conscious' practitioner in your professional role by employing reflective practice to increase your awareness of your communication style and skills, as well as set goals for development in this area. Further, this course offers opportunities to view how you present yourself in interpersonal and group interactions. The goal here is to enhance the likelihood of your success in all types of interactions and relationships both with individuals and in working to mobilize group performance. This course will introduce basic theoretical concepts and skills designed to improve your communication competence and provide an opportunity to apply and practice these concepts and skills effectively in all aspects of interpersonal interactions. This course is specifically focused on communication skills that are necessary in carrying out the role of an organizational psychology consulting practitioner. Skills related to group communication will focus on how to use Liberating Structures and other creative strategies to transform a group's capacity for creative and collaborative action towards a desired future. Interpersonal conflict management tests our ability to practice communication skills to build mutual understanding and work towards collaborative agreements. Theory and practice of collaborative process and skills will be focused on to build competence in addressing interpersonal conflicts both personally and professionally. Ultimately the goal of this course is to raise the student's awareness of basic tools for effective communication in all aspects of the consultant/ client relationship as well as in engaging active participation in a group setting.

MAIOP-520**Introduction to IO Psychology
(Vancouver Campus)****1 Credit**

This course will introduce the core domains of the Industrial Organizational (IO) Psychology. Students will be introduced to the field of IO psychology and its core principles and practices. This course will cover a wide variety of topics in order to expose students to the main organizational issues influenced by IO psychology. Furthermore, the students will gain an understanding of the various ways IO psychology contributes to organizations. In addition, students will be introduced to the core concepts of Adlerian Psychology and how they relate to the discipline of IO psychology. Through the use of case studies, students will explore Adlerian practices and core concepts in the field of IO psychology.

MAIOP-523**Psychometrics Lab
(Vancouver Campus)****1 Credit**

With the increasing demand in evaluating the outcomes of organizational development initiatives, practitioners need to focus on the collection of valid and reliable data to inform policy decisions and to demonstrate to the funding authorities the effectiveness of their interventions. Additionally, organizations are expanding their definition of performance and are seeking customized and sophisticated instruments to measure the performance of these outcomes with integrity. In this course you will learn applied psychometric theory and techniques required to develop and validate measures of psychological constructs that are suitable for decision making in organizations. Particular emphasis will be placed on generating measurement items and rating scales and investigating the reliability and validity of psychological data using factor analytic procedures. The psychometric issues covered will be pertinent to the present day organizational psychologist as both informed consultant and active researcher.

MAIOP-525**Statistical Methods at Work
(Vancouver Campus)****3 Credits**

This course is designed to provide students with knowledge and skills relevant to application of statistical analyses that are essential to supplement organizational effectiveness. Students will learn to translate organizational questions into research questions, determine appropriate statistical tools, and make decisions and solve problems in organizations based on quantitative data. Statistical techniques most commonly used in organizational settings will be covered, including distributions, correlations, probability, regression analyses, and group differences methodologies. Students will be provided with organizational data sets that they will use to gain competencies in framing and answering organizational questions, analyzing and interpreting quantitative data, and creatively presenting results to a variety of stakeholders, including a panel of practitioners. Finally, this course will prepare students for their thesis work by introducing a number of advanced statistical methods, such as meta-analysis and structural equation modeling.

MAIOP-535**Ethics and Socially Responsible Practice
(Vancouver Campus)****1 Credit**

This course introduces students to the relevance and importance of ethics and social responsibility in business. The objectives are to increase students' awareness and understanding of ethical issues in business and the field of Organizational Psychology, and to provide useful conceptual tools to guide analysis and decisions. The ultimate intent of the course is to leave students better equipped to identify, think critically about, and resolve ethical issues that are encountered in their professional life at the individual, organizational, and societal levels. Some of the conceptual tools and frameworks to be discussed throughout the course include: Moral Theory, Reasoning, and Development, Ethical Decision-Making, and Corporate Social Responsibility Theory. The course will apply these conceptual tools and frameworks and the ways they impact various stakeholder groups including: shareholders; employees; consumers; suppliers, the natural environment, communities, and governments. The course concludes with a discussion of how companies can establish ethical corporate cultures.

MAIOP-546**Research Methods in Organizational Psychology (Vancouver Campus) 3 Credits**

This course discusses the assumptions and methods of a range of research designs used in organizational psychology research. A critical assessment is provided of the strengths and weaknesses of different research methods and their application to the study of individual, group, and organizational behaviour. Students are expected to generate a statement of a research problem of interest and then propose how this problem could be investigated through two different methodologies—one qualitative and one quantitative. Preparation of a research question and exploring options to answer this through research is intended to assist students in their eventual completion of the Master's Thesis Project.

MAIOP-547**Group Theory and Team Dynamics (Vancouver Campus) 3 Credits**

This course focuses on group/team structures and processes in organizations. This course provides students with the knowledge, understanding, and skills to effectively facilitate groups and teams in need of support and development. The course will teach the methodologies that internal and external consultants use to assist teams and organizations. The emphasis is on change, conflict, problem solving, team leadership, and ethical practice. This course draws from theory and research in organizational psychology, social psychology, sociology, and organizational behaviour, as well as examining the history, theory, methods, and applications of group theory and practice in organizational structures. The development of competency in group facilitation methods is taught through didactic presentation, role-playing, and participation in group-designed course structure.

MIOP-550**MIOP Project Preparation (Vancouver Campus) 1 Credit**

Prerequisite: MAIOP-546. This seminar will provide students with an opportunity to meet in a small group format with peers and their instructor to organize and develop the focus for the Comprehensive Specialty Project. With guidance from their instructor and peers, students will review and discuss their project topics and methodologies with the goal of developing, refining, and completing their project concept paper by the end of the course.

MIOP-551**MIOP Project I (Vancouver Campus) 2 Credits**

Prerequisites: MAIOP-546, MIOP-550. The MIOP Comprehensive Specialty Project serves as a culminating master's project that requires students to draw on content across the courses, while exploring thoroughly a specialty area within organizational psychology in relation to professional practice. The purpose of this project is to assess students' ability to integrate and analyze organizational psychology knowledge, theory, and practice and analyze the implications of this knowledge and theory for their consulting and professional practice.

MIOP-552**MIOP Project II (Vancouver Campus) 1 Credit**

Prerequisites: MAIOP-546, MIOP-550. The MIOP Comprehensive Specialty Project serves as a culminating master's project that requires students to draw on content across the courses, while exploring thoroughly a specialty area within organizational psychology in relation to professional practice. The purpose of this project is to assess students' ability to integrate and analyze organizational psychology knowledge, theory, and practice and analyze the implications of this knowledge and theory for their consulting and professional practice.

MIOP-553**MIOP Project Continued (Vancouver Campus) 0 Credits**

Prerequisites: MAIOP-546, MIOP-550. The MIOP Comprehensive Specialty Project serves as a culminating master's project that requires students to draw on content across the courses, while exploring thoroughly a specialty area within organizational psychology in relation to professional practice. The purpose of this project is to assess students' ability to integrate and analyze organizational psychology knowledge, theory, and practice and analyze the implications of this knowledge and theory for their consulting and professional practice.

MAIOP-571**Organizational Systems and Structure (Vancouver Campus) 1 Credit**

This course will provide an overview of organizational design theory relevant to the IO practitioner. The basic concepts of structure and dynamics of organizations as open systems will be introduced, along with other important organizational factors such as life cycle and culture. The focus will be given on interrelationship between the external environment, technology, structure, and organizational culture and change management. Students will also learn the practical applications of organization design and organization development concepts and the implications for the effective management of organizations.

MAIOP-576**Strategic Human Resource Management (Vancouver Campus) 3 Credits**

This course provides students with an introduction to human resource management and the role of psychological theory and methodology in promoting strategic utilization and development of human resources in organizations. Current developments in the behavioural sciences as they apply to the business organization are stressed. Applied psychology in the workplace is explored through the study of best practices in the areas of job analysis, performance development, recruitment, selection, and training.

MAIOP-578**Personnel Selection and Assessment (Vancouver Campus) 3 Credits**

This course focuses on how to conduct practical and professional psychological assessments for the purpose of personnel selection and development in organizational settings. Students will learn applied psychometric theory and how to evaluate, select, administer, score, interpret, and integrate the findings from the most commonly used psychological assessment techniques in the field of organizational psychology. Students will also examine legal and ethical context of personnel selection in Canada. The primary emphasis of the course is placed on behavioural interviewing, personality inventories, cognitive ability tests, vocational interest inventories, work samples, and simulations. These techniques will be taught in the context of assisting organizations in selecting and developing leaders.

MAIOP-580**Organizational Change and Development (Vancouver Campus) 3 Credits**

This course provides an analysis of structures, culture, and leadership of organizations and how they differ. The majority of the course addresses the theories, activities, challenges, and ethics of change management initiatives affecting work units, task groups, and individuals and the role of the consultant in these processes. The course will familiarize students with organizational and group assessment techniques to use before, during, and after consultations designed to effect change. Additionally, students will learn how to evaluate various organizational interventions and choose appropriate interventions based on theory and scholarly literature.

MIOP-585**Organizational and Individual Coaching (Vancouver Campus) 2 Credits**

This course is designed to provide students with an understanding of the principles and practices in coaching in organizations and to examine the contemporary state of the field in the context of current theory and practice. It addresses the organizational issue of developing the capacity of leaders to engage in coaching conversations, identifying and developing leadership potential, and the establishment of coaching as an appropriate response to such development. The course will focus on evidence-based coaching and teach the methodologies that coaches/consultants use to advise and assist leaders, managers, and employees in their professional development.

MIOP-586**Organizational Psychology Practicum (Vancouver Campus) 1 Credit**

The Professional Practicum is an opportunity for students to develop professional competence in a work context. Working in an organizational setting enables students to develop the ability to bring their academic training to bear on practical problems in diverse situations and to develop a critical appreciation of the roles and functions of organizational psychology practitioners in organizations and the community. Students also gain insight into the constraints that apply in work environments and the relationships that exist between theory and practice.

MIOP-587**Organizational Psychology Practicum Continued (Vancouver Campus) 0 Credit**

The Professional Practicum is an opportunity for students to develop professional competence in a work context. Working in an organizational setting enables students to develop the ability to bring their academic training to bear on practical problems in diverse situations and to develop a critical appreciation of the roles and functions of organizational psychology practitioners in organizations and the community. Students also gain insight into the constraints that apply in work environments and the relationships that exist between theory and practice.

MIOP-588**Organizational Psychology Practicum Seminar (Vancouver Campus) 1 Credit**

Using a peer consultation model, this seminar provides students engaged in practicum training with an opportunity to discuss professional development and the supervision experience. Specific cases students are working on in practica are discussed to illustrate general principles of organizational psychology and related business concepts. The focus is on the development of knowledge, skills, and values needed to provide competent and ethical counselling, consultation, and business practices.

MAIOP-591**Human Resource Development (HRD) (Vancouver Campus) 2 Credits**

This course will introduce students to core concepts and theories of adult learning and development. In addition, students will be introduced to the principles and practice of training and development. More specifically, the focus will be on theories, methodologies, and best practices for designing and implementing effective training programs in organizations. In addition to theory and research, students will be able to develop practical skills through assignments focused on curriculum design, presentation skills development, and application of adult learning and development tools.

MAIOP-641**Social Psychology and Well-Being (Vancouver Campus) 3 Credits**

This course focuses on the social psychology concepts and processes to understand the interaction between self, people, and organizations. It addresses the interplay between social psychological processes and organizational systems, and how these processes shape individual and organizational well-being. Students will be provided an overview of social theories, concepts and models, and research that apply to our understanding of individual well-being in organizations, as well as an application of social and positive psychological theory and research to enhance performance and well-being. Students will learn the role of work in creating positive emotional experiences, engagement, meaning, and high-quality connections. The class deals with models of job-related well-being and empirical findings from occupational health and positive organizational scholarship; it explores the issues associated with the measurement of emotional experience and their causes and antecedents, and demonstrates the analytical procedures and techniques for testing various models of well-being and strain.

MART-200**Professional Development Seminar I (Vancouver Campus) 1 Credit**

This professional seminar will provide students with an opportunity to meet in a small group with peers and faculty. The professional orientation covers advisement and mentoring around Adler University degree requirements and mission, and an orientation to the fields of counselling and art therapy informed by Adlerian values and concepts as they relate to the students' personal and professional growth. Students will be introduced to ethics of practice and to supervisory requirements within the context of social responsibility. The seminar will assist students in orienting and preparing for the Social Justice Practicum (SJP) and provide a format for integrating students' experiences at their SJP site.

MART-201**Professional Development Seminar II (Vancouver Campus) 1 Credit**

This professional seminar will provide students with an opportunity to meet in a small group with peers and faculty. The professional orientation covers advisement and mentoring around Adler University degree requirements and mission, and an orientation to the fields of counselling and art therapy informed by Adlerian values and concepts as they relate to the students' personal and professional growth. Students will be introduced to ethics of practice and to supervisory requirements within the context of social responsibility. The seminar will assist students in orienting and preparing for the Social Justice Practicum (SJP) and provide a format for integrating students' experiences at their SJP site.

MART-202**Social Justice Practicum I (Vancouver Campus) 1 Credit**

By serving in a practical way in the community, students will acquire knowledge about community-based problems and the range of programs and services designed to address these problems; public health approaches, policy development and implementation; and professional networking. Throughout the practicum process, students are contributing to others in the community on behalf of the degree that is being earned and also the profession to which the degree leads. Students represent the reputation of the Adler program through the Social Justice Practicum. Students are opening doors for psychology and art therapy where there may have been a historical void and making it more accessible and less stigmatizing for others to ask for help.

MART-203**Social Justice Practicum II (Vancouver Campus) 1 Credit**

By serving in a practical way in the community, students will acquire knowledge about community-based problems and the range of programs and services designed to address these problems; public health approaches, policy development and implementation; and professional networking. Throughout the practicum process, students are contributing to others in the community on behalf of the degree that is being earned and also the profession to which the degree leads. Students represent the reputation of the Adler program through the Social Justice Practicum. Students are opening doors for psychology where there may have been a historical void and making it more accessible and less stigmatizing for others to ask for help.

MART-204**Social Justice Practicum Continued (Vancouver Campus) 0 Credits**

By serving in a practical way in the community, students will acquire knowledge about community-based problems and the range of programs and services designed to address these problems; public health approaches, policy development and implementation; and professional networking. Throughout the practicum process, students are contributing to others in the community on behalf of the degree that is being earned and also the profession to which the degree leads. Students represent the reputation of the Adler program through the Social Justice Practicum. Students are opening doors for psychology and art therapy where there may have been a historical void and making it more accessible and less stigmatizing for others to ask for help. This course is provided for students who require more than the usual two semesters to complete all of their practicum hours and thus require ongoing insurance to cover their practice.

MART-205**Professional Development Seminar Continued (Vancouver Campus) 0 Credits**

This course provides students who are enrolled in Social Justice Practicum Continued (MART-204) an opportunity for supervision, advisement, and mentoring as they conclude their Social Justice Practicum (SJP). Focus will continue on the provision of information about Adler University degree requirements and mission, and an orientation to the fields of counselling and art therapy informed by Adlerian values and concepts as they relate to the students' personal and professional growth. Ethics of practice and supervisory requirements within the context of social responsibility will be addressed. The course will assist students in their SJP and provide a format for integrating students' experiences at their SJP site.

MART-344**Historical and Theoretical Perspectives of Art Therapy (Vancouver Campus) 3 Credits**

This course introduces the history, philosophy, theory, and practice of art therapy and addresses the various ways the field can be integrated with counselling psychology. The course also provides an overview of the significant contributors to art therapy within Canada and internationally. Students will be introduced to knowledge of print and digital resources regarding related art therapy practices. Further, students will identify a beginning personal framework for practice in the field. The fundamental elements of art therapy are addressed with attention to the influences of diverse cultural values, beliefs, and practices. Learning in this course will be attained through lectures, oral and written assignments, and experiential exercises.

MART-345**Arts-Based Assessment, Research, and Treatment Planning (Vancouver Campus) 3 Credits**

This course introduces the purpose, issues, and process of arts-based assessment, research, and treatment planning. The main categories of arts-based assessment, the tools of report preparation, and treatment planning will be addressed with attention to the influences of diverse cultural values, beliefs, and practices. Students will explore arts-based research methodology in order to identify research method and design, explain design limitations, and make recommendations for improvement. Emphasis is on the ability to inform treatment planning through assessments and research. Ethical and legal issues will be considered in relationship to application with individuals, communities, and organizations. Exploration of emergent ideas in the field of arts-based research will be the foundation for this course.

MART-346**Theory and Interventions III: Group Skills and Practice (Vancouver Campus) 3 Credits**

This course provides an in-depth overview of clinical counselling and art therapy theories and interventions in therapeutic group work skills and practice. Focus is on exploring what group counselling is and on how to apply the key concepts of the group process to a variety of groups including work across the developmental stages of life; in a variety of treatment settings; in significant topic areas including trauma-informed care, ethnocultural diverse groups, and a variety of clinically based treatment themes and issues. A nuanced diversity perspective and exploration of ethical issues unique to group practice will infuse the content.

MART-402**Introduction to Adlerian Psychology (Vancouver Campus) 2 Credits**

This course covers the theoretical principles of individual psychology/Adlerian theory as a basis for understanding each individual's creation of a unique "style of life" or personality. Principles introduced include the social nature of people, individual creativity, holism, purposive behaviour, the family constellation, life task, early recollections, dreams, memory, private logic, and phenomenology. Addressed will be the cognitive, affective, social, cultural, historical, environmental, and diversity dimensions of the individual's development and the selectivity of perception in the formation of their view of self, others, and the world. Students will be introduced to *Gemeinschaftsgefühl* (social interest/social feeling) and its potential impact on individuals and humankind; emphasizing values such as the importance of belonging, cooperating, contributing to others and society; and affording mutual respect and equality of worth to all. The values of caring, compassion, and commitment to the betterment of society are emphasized by encouraging both confidence in human ability and a commitment to creative and constructive problem solving throughout the life span. Students will also learn about the postmodern relational constructivist vision of Adlerian theory and how it fits within current approaches in counselling psychology.

MART-433**Adlerian Theory and Interventions I: Children and Parents (Vancouver Campus) 1 Credit**

This course prepares students to provide child guidance and parent education based on Adlerian principles, which emphasize the ideas that children are naturally good, inherently curious, and desire a sense of belonging in their families. Students will learn to teach parents skills that assist in developing parenting styles that are practical, respectful, effective, and results oriented. Topics explored include encouragement, parenting styles, family constellation, goals of behaviour, problem solving, communication, promoting capability, and resiliency. Two approaches to working with Adlerian ways in parenting children effectively will be examined, including Systematic Training for Effective Parenting (STEP) and positive discipline. Other parent education systems will be introduced in

order to examine efficacy of parent education programs with diverse social, cultural, and socioeconomic groups. Focus will be on the development of facilitation skills and knowledge, and confidence for conducting parenting groups/workshops in local communities. The course will also look at attachment theory and current understanding of brain development as it relates to belonging, which sets the framework for social interest to occur. Students experience how implementing Adlerian principles in parenting lays the foundation for children to become adults who engage in their communities and become global citizens.

MART-438
Introduction to Addictions **3 Credits**
(Vancouver Campus)

This course provides an introduction to alcoholism, substance abuse, and other addictive disorders. It includes an overview of assessment methodologies; the treatment models of addictive disorders; and the tools for recognizing the signs and symptoms of substance use, misuse, abuse, dependence, and dual disorders; and mentally ill substance abusers. The basic pharmacological, physiological, and medical aspects of chemical dependence are explained, along with the historic development of alcohol (and other drug usage) self-help groups and treatment delivery systems. Interventions will be considered within an inclusive and culturally sensitive practice perspective informed by ethical and legal implications.

MART-451
Methods, Theory, and Applications of Intersectionality **3 Credits**
and Community Engagement
(Vancouver Campus)

This course is designed to help students critically examine issues of diversity and dimensions of culture as they pertain to the self as clinical counsellors, art therapists, and citizens of the world. This course will explore intersecting social identities and systems of exclusion related to race, ethnicity, socioeconomic, gender, sexual orientation, geographical variables, migration, and spirituality. This course also examines the impact of diversity, power, and privilege and related impact on community engagement. Students will be encouraged to think of themselves as complex cultural beings in relation to others and their place in the world. Through art-based applications, students will explore societal issues in relation to the course topics, as well as develop professional skills for research, writing, and presentations.

MART-452
Theory and Interventions II: Families, Couples, & Older Adults **3 Credits**
(Vancouver Campus)

This course focuses on applications of current theories and methods of intervention in the field of clinical counselling and art therapy regarding the treatment of families, couples, and older adults. Students will develop awareness and learn to evaluate contemporary issues related to these areas of practice. The course will focus on developing ethical and professional competency skills as they relate to diverse populations, communities, and familial structures. Effective approaches to treatment utilizing predominant theoretical models currently in the field will be introduced. The Gottman Method Couples Therapy Level I Clinical Training, the standard of couple therapy, will be integrated in this course.

MART-453
Theory and Interventions IV: Trauma **3 Credits**
(Vancouver Campus)

This course provides information and skill-building exercises that elucidate several aspects of the trauma spectrum. The subjects of trauma conceptualization, neurobiological research implications, resilience, trauma and attachment, vicarious trauma, and self-care are covered in-depth, as well as the effects of trauma on diverse populations. This course is designed to assist students in expanding their art therapy and clinical counselling knowledge and skills, such as intervention techniques. Students learn to

formulate treatment goals and intervention strategies integrating theory, assessment, and diagnostic information for a variety of client concerns. This course also focuses on students' application of theory-specific counselling techniques in the context of therapeutic relationships (i.e., stages of treatment, common factors in the change process). An inclusive and culturally sensitive practice perspective will be encouraged. Students will be introduced to awareness as an emergent focus in trauma treatment, in particular to techniques pertaining to arts-based practices.

MART-466
Studio Art **3 Credits**
(Vancouver Campus)

This course explores the roots of the profession of art therapy in the studio environment. Students experience personal art-making as central to the field and are encouraged to develop a perspective of practice from an arts-based model that relies on products and processes of art as core. The development of an artistic identity as an art therapist will be cultivated, and the distinguishing characteristics that art brings to the therapeutic process will be explored. Dimensions of possibilities regarding art and social action will be deepened through the creation of a community art show and fundraiser featuring student work.

MART-467
Clinical Seminar I **3 Credits**
(Vancouver Campus)

The clinical practicum seminar is taken in conjunction with the clinical practicum and offers small-group opportunities to engage in regular supervision. Students participate in supervision through case presentations, discussion, and art-based experiential activities, reflecting on and evaluating their field experiences. A credentialed clinical counsellor and registered art therapist guides interactive dialogue and experiential exercises. Students are expected to connect emerging theoretical foundations in clinical counselling and art therapy with their practicum experiences through case conceptualizations. The focus is on the development of knowledge, skills, and values essential to providing competent and ethical practice of art therapy and clinical counselling within an inclusive and culturally sensitive practice.

MART-468
Clinical Seminar II **3 Credits**
(Vancouver Campus)

This clinical practicum seminar is taken in conjunction with the Clinical Practicum II (MART-481) and offers small-group opportunities to engage in regular supervision. Students participate in supervision through case presentations, discussion, and art-based experiential activities, reflecting on and evaluating their field experiences. A credentialed clinical counsellor and registered art therapist guides interactive dialogue and experiential exercises. Students are expected to connect emerging theoretical foundations in clinical counselling and art therapy with their practicum experiences in case conceptualizations. The focus is on the development of knowledge, skills, and values essential to providing competent and ethical practice of art therapy and clinical counselling within an inclusive and culturally sensitive practice perspective.

MART-469
Clinical Seminar Continued **0 Credits**
(Vancouver Campus)

This clinical practicum seminar is provided for students who require more time to complete their clinical practicum hours. It is to be taken in conjunction with Clinical Practicum Continued (MART-482). The course offers small-group opportunities to engage in regular supervision. Students participate in supervision through case presentations, discussion, and art-based experiential activities, reflecting on and evaluating their field experiences. A credentialed clinical counsellor and registered art therapist

guides interactive dialogue and experiential exercises. Students are expected to connect emerging theoretical foundations in clinical counselling and art therapy with their practicum experiences through case conceptualizations. The focus is on the development of knowledge, skills, and values essential to providing competent and ethical practice of art therapy and clinical counselling within an inclusive and culturally sensitive practice perspective.

MART-472
Basic Intervention and Assessment Skills **3 Credits**
(Vancouver Campus)

This course teaches basic relationship, intervention, diagnostic, and interviewing skills working with role-plays and other experiential activities to prepare students for clinical work in practicum. The course covers clinical interviewing, mental status exams, treatment planning, and providing client feedback. Students are introduced to case conceptualization, the therapeutic relationship, stages of treatment, common factors in the change process, and diversity issues. Students will be exposed to the elements of theoretical models to show the relationship between theory, data gathering, hypothesizing, treatment planning, and note-taking. Microskills will be taught and practiced, including active listening, question asking, paraphrasing, summarizing, and so on. A brief introduction to self-care will be provided, including practices to assist students to access clinical supervision at the most beneficial level possible.

MART-473
Pre-practicum Counselling/Art Therapy Lab **0 Credits**
(Vancouver Campus)

This lab is designed to provide additional practice of basic counselling and intervention skills before students start their clinical practicum experience. Students will have the opportunity to record clinical relationships and receive support/supervision and feedback on the recordings in class. Students will integrate verbal counselling and art therapy skills as required on a case-by-case basis. Professional ethics will be reviewed in relationship to informed consent, management of case notes, storage of case files, and the legalities of incorporating art into case files. The importance of maintaining a diversity perspective and self-care routines will be the foundation of this class. Skills building includes establishing rapport, demonstrating accurate and consistent empathy, showing genuineness, accurate listening, and focused reflection.

MART-480
Clinical Practicum I **1 Credit**
(Vancouver Campus)

This supervised clinical training will provide students with a field experience designed to apply socially responsible counselling and art therapy practice under the direction of competent clinicians. Students will acquire the knowledge, skills, attitudes, and values needed to become competent practitioners. The clinical practicum complements classroom education, provides the opportunity to work with experienced clinicians, and helps students acquire a professional identity. The clinical practicum also offers opportunities to reach out to professional colleagues, develop effective working relationships, and build awareness of clinical counseling and art therapy. Students are responsible for developing a 700-hour clinical practicum, in consultation with core faculty advisors and training. The 700 total hours will span Clinical Practicum I and II. Within that 700-hour total, a minimum number of hours will be required in each of the following core areas: Direct Client Hrs (350 hours); Indirect Hrs (350).

MART-481
Clinical Practicum II **1 Credit**
(Vancouver Campus)

This supervised clinical training will provide students with a field experience designed to apply socially responsible counselling and art therapy practice under the direction of competent clinicians. Students will acquire the knowledge, skills, attitudes, and values needed to become competent practitioners. The clinical practicum complements classroom education, provides the opportunity to work with experienced clinicians, and helps students acquire a professional identity. The clinical practicum also offers opportunities to reach out to professional colleagues, develop effective working relationships, and build awareness of clinical counselling and art therapy. Students are responsible for developing a 700-hour clinical practicum, in consultation with core faculty advisors and training. The 700 total hours will span Clinical Practicum I and II. Within that 700-hour total, a minimum number of hours will be required in each of the following core areas: Direct Client Hrs (350 hours); Indirect Hrs (350).

MART-482
Clinical Practicum Continued **0 Credits**
(Vancouver Campus)

This clinical practicum is for students who require more than the usual two semesters to complete all of their practicum hours. The field experience is designed to apply socially responsible counselling and art therapy practice under the direction of competent clinicians. Students will acquire the knowledge, skills, attitudes, and values needed to become competent practitioners. The clinical practicum complements classroom education, provides the opportunity to work with experienced clinicians, and helps students acquire a professional identity. The clinical practicum also offers opportunities to reach out to professional colleagues, develop effective working relationships, and build awareness of clinical counseling and art therapy. Students are responsible for developing a 700-hour clinical practicum, in consultation with core faculty advisors and training. The 700 total hours will span Clinical Practicum I and II. Within that 700-hour total, a minimum number of hours will be required in each of the following core areas: Direct Client Hrs (350 hours); Indirect Hrs (350).

MART-495
Research Methods **3 Credits**
(Vancouver Campus)

This course surveys the major methodologies in the field of social science research within a context of philosophical debate about ethical and culturally relevant strategies for studying human beings, art, and the creative process. Current research will be explored in order to identify research method and design, explain design limitations, and make recommendations for improvement. Students will learn how to critique current research, conduct literature reviews, generate research designs, and select variables and participants for study. Students are expected to demonstrate appropriate ethical and cultural awareness in research design considerations throughout the course. Emphasis will be on the ability of research to inform decisions in the field.

MART-505
Professional Development, Issues, and Ethics **3 Credits**
(Vancouver Campus)

This course is designed to provide students with a solid foundation for the ethical practice of clinical counselling and art therapy. Emphasis will be placed on critical thinking, clinical integrity, and on sensitizing advanced practitioners to the complexity of professional identities in the context of community relationships. Students will study codes of ethics from a variety of professional bodies governing the practice of clinical counselling and art therapy, specifically with respect to learning best practices as a clinician, researcher, supervisor, leader, and educator. These professional bodies include the Canadian Psychological Association, the Canadian Counselling

and Psychotherapy Association, the BC Association of Clinical Counsellors, the BC Art Therapy Association, the Canadian Art Therapy Association, the Art Therapy Credentials Board, and the American Art Therapy Association. Students will learn to apply ethical decision-making models to current issues in the fields of counselling and art therapy. This course will also provide an overview of relevant legal issues that affect the day-to-day work of counsellors and art therapists with diverse populations. Students are responsible for researching registration requirements of professional associations in the location they wish to practice upon graduation.

MART-516
Individual Appraisal for Counsellors in Practice **3 Credits**
(Vancouver Campus)

This course will familiarize students with assessment and evaluation commonly used in counselling practice. The following topics will be addressed: theoretical and historical bases for assessment techniques; validity; reliability; appraisal methods; strategies for selecting, administering, interpreting, and working with assessment/evaluation instruments; and techniques in counselling. Assessment procedures in areas of risk will be emphasized (duty to protect/warn/report). Ethical and legal considerations of psychological testing within an inclusive and culturally sensitive practice perspective will be highlighted.

MART-520
Theories of Psychotherapy **3 Credits**
(Vancouver Campus)

This survey course presents an introduction to, and examination of, the treatment theories, principles, and techniques associated with major schools of thought in psychology. Theories to be examined may include many of the foundational theoretical approaches to treatment such as psychoanalytic, person-centered, existential, Gestalt, rational emotive, behavioural, cognitive, family systems, feminist, solution-focused, and narrative therapies. The course will examine the relevant application of theory in conceptualizing one's ongoing work with a client. The difference between working with a theory and implementing an intervention will be reviewed. The course will also examine the evidence base for each school of thought.

MART-623
Life Span Development **3 Credits**
(Vancouver Campus)

This course explores human development from conception to late adulthood, including social, cultural, biological, and psychological perspectives. Application to the fields of counselling and art therapy will be emphasized. Students will examine the theoretical frame and applications of research findings to selected issues, such as cognitive development, life transitions, resilience, work and retirement, bereavement, and related concerns. Art therapy perspectives will be presented throughout the course, in particular the stages of graphic development as a basis for appropriate and effective art therapy intervention selection. An overview of the cognitive, perceptual, physical, moral, and psychosocial aspects of development will be presented.

MART-647
Biopsychosocial Bases of Health **3 Credits**
(Vancouver Campus)

Upholding the complementary relationship between assessment and intervention, this course is designed to provide students with the foundational knowledge and skills necessary for entry-level clinical practice. In the area of intervention, the course familiarizes students with the essential elements of the psychotherapeutic relationship, common factors in counselling and psychotherapy, meta-theoretical views on human change processes, and basic diversity competency in helping relationships. In the area of assessment, the course covers intake interviewing, the mental status exam, the DSM-5 approach to clinical diagnosis, and arts-based assessment.

MART-995
Master's Clinical Arts Qualifying Examination (MCAQE) **0 Credits**
(Vancouver Campus)

This examination provides effective assessment of the three core student learning outcomes for students who complete the Master in Counselling Psychology: Art Therapy program. These learning outcomes are: (1) preparation for entry-level practice at the MCP-AT level; (2) ability to integrate research and practice; and (3) ability to practice in an ethical and socially responsible manner. The capstone (MCAQE) is composed of three parts. Part one focuses on the integration of theories and practice in the field of counselling and art therapy. It requires a final case conceptualization presentation to a review panel led by a Community Reviewer. Part two focuses on the development of a final portfolio highlighting the student's journey through the program. The portfolio will demonstrate integration of research in self-awareness practices highlighting the student's growth as a counsellor and art therapist. Part three is a comprehensive exam focused on ensuring mastery of informed, ethical practice within a culturally diverse society. All three parts of the MCAQE assess the student's commitment to social justice and inclusion. Students must pass the capstone to complete the program.

MPPA-500
Principles of Community Psychology **3 Credits**
(Vancouver Campus)

Community psychology investigates a range of pervasive social justice issues that impact the well-being of individuals and communities. In this course, students will study a wide variety of forces and structures in the community that affect the positive growth, development, and functioning of its members. The course offers an exploration of contemporary social policy issues and the social structures and dynamics that create and support inequity, while inviting students to consider their own social positioning as it relates to oppression.

MPPA-505
Public Sector Governance **3 Credits**
(Vancouver Campus)

This course provides an examination of the democratic institutions and processes involved in developing, influencing, and forming public policy as informed by processes such as Canada's changing national ideology, emerging and established social movements, government/legal systems, and political ideologies and practices. The course explores major reforms to the Canadian Public Sector, the principles underpinning those reforms, and their implications for the implementation of contemporary public policy, governance, and accountability. The course also explores the impact of these reforms on not-for-profit organizations. While a primary focus is on the governance of the Canadian Public Sector, comparisons with other models in the global environment are also considered.

MPPA-510
Applied Research Methods I: Models and Analytics **3 Credits**
(Vancouver Campus)

This course covers the fundamentals of the research process from inception of the research interest to sharing the research results. It includes a variety of research frameworks relevant to policy research, as well as a discussion of research methodologies that support a social justice research approach. The course explores how framework and methodological choices shape the research question, data collection methods, processes for data analysis, and communication strategies for disseminations. A significant emphasis is placed on ethical considerations in the research process, as well as strategies for assessing research integrity, validity, and quality.

MPPA-520**Applied Research Methods II: Applications (Vancouver Campus) 3 Credits**

This course offers an advanced investigation and hands-on application of qualitative and quantitative research methods. The course includes opportunities to practice data collection strategies such as the design, implementation, and evaluation of interviews, focus groups, and surveys. It also includes opportunities to undertake qualitative and statistical data analysis.

MPPA-530**Public Policy Analysis and Application (Vancouver Campus) 3 Credits**

This course focuses on all facets of the policy development process, from identifying a policy need, defining the problem, and undertaking research to inform options, to planning and evaluating policy interventions. The course explores frameworks for policy analysis, the role of citizens in the policy process, and the complex tensions between public policy and community organizing and social justice practices. It examines how community development leaders and practitioners, advocacy groups, and community organizations can work with local, provincial, and federal governments to address issues of social change.

MPPA-540**Organizational Leadership and Management Practice (Vancouver Campus) 3 Credits**

This course provides an introduction to leadership, including the diversity of leadership styles and approaches enacted in both public sector and not-for-profit organizations. The course will guide students through the identification of their own leadership style and an analysis of how it shapes their approach to a variety of management functions. The course explores public and not-for-profit sector organizational contexts and the different expectations and responsibilities of leaders in each. It includes a focus on ethical leadership and accountability as they take shape in a variety of organizational settings.

MPPA-550**Economy and Economic Analysis (Vancouver Campus) 3 Credits**

This course is focused on the basic economic tools and models relevant to current policy and public sector choices. It explores contemporary debates about the role of the state within the market economy, as well as the impacts of global neoliberalism and other global economic forces. The course provides an overview of economic policy frameworks and contemporary economic policy issues. Case studies will be used, as well as policy alternatives and recommendations, to broaden students' policy analysis skills.

MPPA-560**Social Program Planning and Implementation (Vancouver Campus) 3 Credits**

This course explores all facets of the program planning, implementation, and evaluation cycle relevant to contemporary social policy issues. Positioning programming as a policy mechanism, the course offers an opportunity to identify a program need; design and reflect on a program aimed at supporting social justice; and create an evaluation plan. With an emphasis on ethical engagement with community, the course provides students with the knowledge and skills to succeed in the complex world of social programming.

MPPA-570**Ethics, Diversity, and Socially Responsible Practice (Vancouver Campus) 3 Credits**

This course provides students with a solid foundation for ethical and socially responsible practice in public and social policy work, as well as community-based practice. Student will explore ethical standards expected of public and not-for-profit leaders and how these standards impact policy-related scenarios. They will engage in ethical decision-making processes as they develop an increasingly complex understanding of how to apply ethical codes that inform community development and policy practice. Students will develop and respond to ethics-based scenarios using key concepts such as diversity, racialization, colonialism, and intersectionality. Finally, they will articulate their own standpoint as socially responsible practitioners from within their current historical context.

SOCIAL CHANGE LEADERSHIP CONCENTRATION COURSES**MPPA-600****Foundations of Community Development (Vancouver Campus) 3 Credits**

In this course, community development is understood as a dynamic and comprehensive process that has social, political, economic, and ecological dimensions. The course explores principles of community organizing and development; specifically, the knowledge, skill, and value base underpinning community organizing, planning, development, and change. It includes consideration of systems and structures impacting community well-being and current debates relevant to policy interventions in these systems and structures. Various models of community development are shared in relation to their goals, processes, and outcomes. The course also promotes an analysis of students' social location in relation to their role within change-making processes.

MPPA-610**Advocacy Strategy and Tactics for Social Change (Vancouver Campus) 3 Credits**

This course explores theories of change and impactful social movements as a means of preparing students to lead change processes. It examines the activities, contexts, challenges, and ethics of community-based social change as they relate to organizations and institutional systems, work/task groups, and individuals and the role of community leaders in these processes. The course focuses on strategies and tactics to impact policy-level change and how they may be used to create social equity in today's political and social systems. Students will be encouraged to examine how advocacy groups, delivery systems, and community organizations can work with all orders of government to address issues of social change. The course will also explore ways in which the involvement of community members can lead to the construction of socially just policies and services that impact marginalized individuals and groups.

MPPA-620**Professional Practicum and Capstone Project (Vancouver Campus) 3 Credits**

This seminar course focuses in the social change leadership stream. The course supports student with their professional practicum experience and in development and completion of their individual capstone projects. The course will be focused on addressing issues as they arise, peer learning throughout the research process, and meeting project milestones to ensure successful completion of the capstone project.

IMMIGRATION POLICY AND PRACTICE CONCENTRATION COURSES**MPPA-605****Canadian Immigration and Refugee Policy and Practice (Vancouver Campus) 3 Credits**

This course provides students with a comprehensive overview of government law and policy related to the admission and processing of newcomers to Canada. Specific areas covered include immigration admission procedures; procedures guiding refugee claims; the distribution of responsibilities among the federal government, provinces, and municipalities; policies related to funding of immigration services; and the influence of cultural characteristics, global political factors, and economic contexts on immigration and refugee policy.

MPPA-615**Canadian Settlement Structure and Service Planning (Vancouver Campus) 3 Credits**

This course provides a comprehensive overview of settlement experience in Canada for newcomers, including an exploration of the theory and practice related to social, cultural, and political processes of integration or exclusion. It includes study of the structure and system of the settlement service regime that provides support services to newcomers, the roles that various policy actors play in this regime, and factors affecting the allocation of government funding for programs and services.

MPPA-625**Professional Practicum and Capstone Project (Vancouver Campus) 3 Credits**

This seminar course focuses on the immigration policy and practice stream. The course supports students with their professional practicum experience and in development and completion of their individual capstone projects. The course will be focused on addressing issues as they arise, peer learning throughout the research process, and meeting project milestones to ensure successful completion of the capstone project.

MSYC-582**School Counselling and Consultation (Vancouver Campus) 3 Credits**

This course broadly explores the role of the school counsellor in K–12 education settings. Students will critically examine how current theories in counselling psychology inform various therapeutic approaches to supporting the social, emotional, and behavioural needs of students in elementary, middle, and secondary schools. Class sessions will include exploration of school counselling-related topics including relevant laws and ethics, specific application of child/adolescent guidance programs, and evidence-based practice in comprehensive school counselling programs, and an introduction to legal and ethical obligations.

MSYC-583**Child Development and Counselling (Vancouver Campus) 3 Credits**

Prerequisite: MACP-472. This course provides an overview of developmentally appropriate knowledge and approaches to counselling children (approximately 4 through 11 years of age). Theories, techniques, and strategies for working with children are presented. Counselling issues are explored, as well as strengths and challenges commonly experienced by this population. Students are provided with experience in skill development using individual counselling and play therapy.

MSYC-584**Adolescent Development and Counselling (Vancouver Campus) 3 Credits**

Prerequisite: MACP 472. This course provides an overview of developmentally appropriate knowledge and approaches to counselling adolescents (approximately 12 through 19 years of age). Theories, techniques, and strategies for working with adolescents are presented. Counselling issues are explored, as well as strengths and challenges commonly experienced by this population. Students are provided with in-depth experience in skill development using individual and group counselling and group guidance.

PCO-641**Social Psychology and Individual Diversity (Vancouver Campus) 3 Credits**

This course examines, from a diversity perspective, the theories and concepts of social psychology. Factors related to individual and group identity such as age, gender, sexual orientation, race, ethnicity, socioeconomic status, and health status are examined to facilitate an understanding of the nature of human behaviour in groups, institutions, and organizations. The course also considers society's role and the role of the dominant culture in the construction and evolution of the self. Multiple determinants of behaviour are addressed. Through a variety of interactive learning methods, the following broad themes in social psychology are explored: social forces on behaviour; diversity and difference; attitudes, motivation, social perception and cognition; power and social influence; and self and self-presentation.

PSYD-472**Basic Intervention and Assessment Skills (Vancouver Campus) 3 Credits**

This course teaches entry-level doctoral students basic relationship, intervention, diagnostic, and interviewing skills using role-plays and other experiential activities to prepare for clinical work on practicum. The course covers clinical interviewing, the mental status exam, treatment planning, and providing client feedback. Students are also introduced to case conceptualization, the therapeutic relationship, stages of treatment, common factors in the change process, and multicultural issues. Students will be exposed to the elements of theoretical models to show the relationship between theory, data gathering, hypothesizing, and treatment planning. Finally, a brief introduction to self-care and how to use clinical supervision is presented.

PSYD-510**Psychometric Theory (Vancouver Campus) 3 Credits**

This course introduces students to psychometric theory. It focuses on concepts and theoretical principles central to the various forms of psychological assessment. Students will gain the theoretical and statistical knowledge necessary to understand when, why, and how to use psychometrics in their work and research.

PSYD-515**Applied Research Design in Clinical Psychology (Vancouver Campus) 3 Credits**

This course covers a wide range of research designs used to research issues in clinical psychology. The purpose is to expose students to a variety of quantitative and selected qualitative research designs most frequently used in clinical psychology. A critical assessment is provided of the strengths and limitations of these designs. The types of research covered includes a wide range of quantitative methods; for example, basic and factorial experimental designs, randomized clinical trials, quasi-experimental research, case-control studies, descriptive survey research, psychometric studies, meta-analytic studies, case study research, and program evaluation research. Selected qualitative designs of particular relevance to clinical settings will also be outlined, including thematic analysis, action research,

and phenomenological research. All of the designs covered will be examined with the aim of equipping prospective graduates with the research skills necessary to assume a local clinical scientist role in their future employment settings. Building on the local clinical scientist model, this course also emphasizes theory and application of research designs for working in both clinical and community settings. Attention will also be given to issues of cultural diversity in research, research validity and bias, the connection between research questions and appropriate methodologies, and the link between science and practice. Preparation of a research proposal is intended to assist students in their eventual work on their doctoral research project. This course will familiarize students with assessment and evaluation commonly used in counselling practice. The following topics will be addressed: theoretical and historical bases for assessment techniques; validity; reliability; appraisal methods; strategies for selecting, administering, interpreting, and using assessment and evaluation instruments; and techniques in counselling.

PSYD-530
Community Psychology **3 Credits**
(Vancouver Campus)

Community Psychology studies a wide variety of forces and structures in the community that affect the positive growth, development, and functioning of its members. The practice of community psychology is directed toward interventions that facilitate psychological competence and empowerment and promote constructive social change. Community Psychology takes an ecological approach to human functioning, locating health and well-being in the interaction between individuals and larger social systems. The general framework addresses community issues and problems from multiple levels of analysis (person, group, organization, and society), identifying and critically reviewing related interventions, evaluations, and research.

PSYD-550
Statistics **3 Credits**
(Vancouver Campus)

This course concerns concepts and applications of descriptive and inferential statistical methods. A wide range of both univariate and multivariate statistics will be covered, including t-test, ANOVA, correlation, regression, MANOVA, nonparametric statistics (e.g., chi-square), structural equation modelling, and meta-analysis. Particular attention is given to the application of research methodology to clinical psychological problems and issues of policy analysis and formulation.

PSYD-600
Doctoral Professional Development Seminar I **1 Credit**
(Vancouver Campus)

This seminar provides students an opportunity to meet in a small group with peers and one faculty member. The seminar covers advisement and mentoring around Adler degree requirements and mission, orientation to the field of professional psychology, issues of diversity as it relates to students' personal and professional growth, and a preliminary overview of ethics within the context of social responsibility. The seminar will also assist students in orienting and preparing for the Social Justice Practicum (SJP) and provide a format for integrating students' experiences at their SJP site.

PSYD-601
Doctoral Professional Development Seminar II **1 Credit**
(Vancouver Campus)

This seminar provides students an opportunity to meet in a small group with peers and one faculty member. The seminar covers advisement and mentoring around Adler degree requirements and mission, orientation to the field of professional psychology, issues of diversity as it relates to students' personal and professional growth, and a preliminary overview of ethics within the context of social responsibility. The seminar will also assist students in orienting and preparing for the Social Justice Practicum (SJP) and provide a format for integrating students' experiences at their SJP site.

PSYD-602
Social Justice Practicum I **1 Credit**
(Vancouver Campus)

PSYD-603
Social Justice Practicum II **1 Credit**
(Vancouver Campus)

PSYD-627
Assessment I: Cognitive and Intellectual Assessment **4 Credits (with Lab)**
(Vancouver Campus)

This course introduces students to the theoretical basis, current issues, ethics, and clinical use of cognitive and intelligence assessment. An appreciation of the cultural influences and diversity involving assessment procedures is emphasized. Classical and current theories of intelligence are explored. Students are trained in proficient administration, scoring, and interpretation and multi-source integrative interpretation of commonly used tests of intelligence and cognition. The course must be taken with the required lab.

PSYD-628
Assessment II: Personality Assessment **3 Credits**
(Vancouver Campus)

Prerequisite: PSYD-627. This course will provide students with an overview of the conceptual, theoretical, and empirical issues in the measurement of personality and psychopathology through an examination of the reliability and validity of objective and projective methods. Students will learn to administer, score, and interpret broad-band measures of psychological and objective psychopathology and adult personality (e.g., Minnesota Multiphasic Personality Inventory, MMPI-2; Personality Assessment Inventory, PAI; Millon Clinical Multiaxial Inventory, MCMI-III) and learn about the adolescent equivalents (i.e., MMPI-A, PAI-A, MACI). Students will also learn to administer, score, and interpret other specific symptom report measures. The course will include an introduction to projective measures (Rorschach, TAT, Sentence Completion) and will integrate the assessment of personality assets and strengths, as well as criticisms of traditional approaches to personality assessment. Although there is no required lab associated with this course, students are required to practice administering and scoring the measures during and outside of class.

PSYD-629
Assessment III: Integrative Assessment (with Lab) **4 Credits**
(Vancouver Campus)

In this course, students learn to generate hypotheses from multiple sources of data and cross-validate sources of data: interview, historical, behavioural, psychometric, and projective data; and compose professional psychological assessment reports. The course teaches students to: (1) effectively organize data; (2) understand the impact of personal bias and cultural factors in the interpretation of assessment findings; (3) use evidence-based procedures; and (4) communicate findings about liabilities, strengths, and assets. Students will become skilled in writing and communicating responses to specific referral questions, to write cogent summaries and case formulations, and to develop effective, meaningful recommendations based on assessment findings and case demands. This course may not be transferred or waived as it serves to prepare students for the assessment portion of the Clinical Qualifying Examination.

PSYD-630
Cognitive-Behavioural Approaches to Intervention **3 Credits**
(Vancouver Campus)

In recent years, cognitive-behavioural approaches to treatment have been applied with a broad range of patient populations for a variety of problems. As CBT models have gained influence, the need to understand both the theoretical and practical bases of interventions based on cognitive restructuring has become more prominent. This course is designed to

acquaint students with the fundamental principles of CBT, as well as the most recent developments in the field. A combination of lecture, demonstration, and discussion will form the basis for the course.

PSYD-632
Cognitive/Affective Bases of Behaviour **3 Credits**
(Vancouver Campus)

This course emphasizes the most recent theoretical developments in cognitive/affective bases of behaviour. Areas of emphasis will include attention, memory, knowledge, language, reasoning, problem solving, the cognitive bases of affect and consciousness, human learning, and theories of motivation. The relevance of these topics to psychotherapy and change, as well as the possible impact of social issues on course topics, will also be examined.

PSYD-634
History and Systems **3 Credits**
(Vancouver Campus)

This course presents a survey of the historical development of major theories, research, and practice in psychology, and major systems of psychology are examined. In addition, the course is structured around a number of philosophical issues and how theories of psychology have understood and addressed these issues. The influence of sociocultural and historical factors on the development of theories is also examined, with particular focus on the role of psychology in promoting social justice.

PSYD-636
Biological Bases of Behaviour **3 Credits**
(Vancouver Campus)

This course is designed to provide an examination of the structure, biology, and functioning of the human nervous system. The correlation between neuroanatomy and brain functioning will also be presented through the study and gross dissection and examination of human brains.

PSYD-647
Biopsychosocial Bases of Health and Dysfunction – Adult **3 Credits**
(Vancouver Campus)

This course examines clinical features of a wide range of mental disorders (e.g., psycho-physiological, anxiety, personality, mood, and psychotic disorders and stress-related dysfunctions). A comprehensive introduction to the biopsychosocial etiologies of mental disorders (e.g., biological and cognitive paradigms) and therapeutic approaches (e.g., psychodynamic and cognitive-behavioural therapies) commonly used for their treatment will be reviewed.

PSYD-648
Biopsychosocial Bases of Health and Dysfunction – Child **3 Credits**
(Vancouver Campus)

This course is designed to provide students with the foundational knowledge and skills necessary for understanding diagnoses in childhood from a biopsychosocial perspective. A comprehensive introduction to the biopsychosocial etiologies of mental disorders and therapeutic approaches (e.g., cognitive-behavioural, attachment, family therapies, etc.) commonly used for treatment will be reviewed. Clinical features of a wide range of mental disorders (e.g., psychophysiological, anxiety, mood, and psychotic disorders and stress-related dysfunctions) will be examined. Students will familiarize themselves with both the DSM-IV-TR and DSM-5 classification of disorders (with a focus on childhood) as a way to critically think about the reasons for the criteria changes, as well as the evolving nature of psychiatric diagnosis and nosology.

PSYD-655
Ethics and Professional Practice in Psychology **3 Credits**
(Vancouver Campus)

This course is designed to provide students with a solid foundation for the ethical practice of psychology and counselling. Students will learn codes of ethics of the Canadian Psychological Association and the College of Psychologists of British Columbia. A review of theories of social justice and their relationship to ethical decision-making will be provided. This course will also reinforce the basics of professional writing and provide an introduction to supervision, consulting, and leadership. Students will learn to apply ethical and professional decision-making skills to current issues facing the field of psychology.

PSYD-660
Humanistic/Existential Approaches to Intervention **3 Credits**
(Vancouver Campus)

This course is designed to acquaint students with the fundamental principles of humanistic/ existential approaches to psychotherapy. Beginning with the work of Carl Rogers, humanistic approaches to intervention have placed the client at the forefront of the treatment process. Understanding the value of the client's own choices in the development and progress of treatment, humanistic models operate from an assumption that clients in treatment have the capacity to decide and implement changes in their lives. This course will emphasize the evidence base underlying such interventions as emotion-focused therapy, which has established a strong body of research support. Students will learn the guiding principles, as well as specific techniques associated with these models of treatment.

PSYD-670
Psychodynamic Approaches to Intervention **3 Credits**
(Vancouver Campus)

This course provides a comprehensive overview of psychoanalytic theory and its practical applications to the treatment of psychological disorders. Students develop a thorough understanding of the basic therapeutic techniques used in psychodynamic therapy. Case examples are presented through video clips and the written language to illustrate how techniques are applied with various populations and with various presenting problems. Practical applications of psychodynamic theories that take into account the influence of gender, race, culture, and sexual orientation are explored.

PSYD-67
Structural and Sociocultural Bases of Health and Dysfunction **3 Credits**
(Vancouver Campus)

Traditionally, psychologists and counsellors work within circumscribed clinical contexts within which mental health issues are deemed functions of individual pathology. However, many mental health issues are symptomatic of larger structural or systemic phenomena that characterize the context in which people live and over which they have limited control (e.g., public policy, institutional practices and behaviours, and large macro-trends). Therefore, effective clinical intervention and problem solving requires an ability to see, analyze, and understand these phenomena and to develop appropriate remedial responses.

PSYD-680
Supervision and Consultation **3 Credits**
(Vancouver Campus)

This course, intended to occur late in the doctoral curriculum, focuses primarily on clinical supervision, with secondary focus on clinical and programmatic consultation. It provides an overview of all dimensions of supervision, including the supervisory contract, theoretical models of supervision, the supervisory relationship, issues of diversity, gender and power, supervisory modalities, developmental issues, and ethical and legal issues.

PSYD-690 Psychopharmacology (Vancouver Campus)	3 Credits	PSYD-712 Assessment Practicum Seminar II (Vancouver Campus)	1 Credit
This course is an introduction to the scientific principles and clinical information needed for a basic understanding of the uses and limitations of the major classes of psychopharmacologic agents. The course builds on the material introduced in PSYD-636. This course may be taken concurrently with PSYD-636; students choosing to do so are advised that additional self-study will most likely be required.		Taken concurrently with the diagnostic practicum, this seminar provides a setting for the student to discuss and apply the fundamentals of clinical and diagnostic interviewing, to formulate DSM-5 diagnostic impressions, to write an accurate assessment report based on data from the interview and mental status exam, and to appreciate how diversity issues affect the content and processes of clinical interviewing, and more broadly of psychological assessment. The course principally affords the student with an opportunity to review and discuss assessment cases from the diagnostic practicum, as well as to examine data generated from psychological tests. Finally, the course serves as a peer consultation group in which students learn to present case material in a standard format, to question and analyze their own clinical work, and to function as peer consultants to their colleagues.	
PSYD-691 Doctoral Clinical Qualifying Examination – Intervention (Vancouver Campus)	0 Credits	PSYD-713 Assessment Practicum Seminar III (Vancouver Campus)	1 Credit
PSYD-692 The Role of the Psychologist in Management Administration, and Leadership (Vancouver Campus)	3 Credits	Taken concurrently with the diagnostic practicum, this seminar provides a setting for the student to discuss and apply the fundamentals of clinical and diagnostic interviewing, to formulate DSM-5 diagnostic impressions, to write an accurate assessment report based on data from the interview and mental status exam, and to appreciate how diversity issues affect the content and processes of clinical interviewing, and more broadly of psychological assessment. The course principally affords the student with an opportunity to review and discuss assessment cases from the diagnostic practicum, as well as to examine data generated from psychological tests. Finally, the course serves as a peer consultation group in which students learn to present case material in a standard format, to question and analyze their own clinical work, and to function as peer consultants to their colleagues.	
This course will focus on preparing students to assume administrative and management roles in behavioural health care management, public administration, academic programs, and other settings. It is intended to provide a foundation of motivation and understanding for leadership development by offering theoretical background, practical information, and an opportunity for role modeling that will permit students to begin or continue the career-long development of their organizational leadership skills. It includes those skills necessary for psychologists' own professional growth, development, and success, as the means of assuring the highest quality management of the system that they are part of within behavioural health care or human services. Theories and practices of good and socially responsible organizational leadership, and emphasis on its applications, will form a focus of the class.			
PSYD-701 Assessment Practicum I	1 Credit	PSYD-714 Therapy Practicum Seminar I (Vancouver Campus)	1 Credit
PSYD-702 Assessment Practicum II	1 Credit	Concurrent with practicum field experiences, the therapy practicum seminar enhances the integration of theoretical and academic perspectives within clinical counselling practice and conceptualization. Various topics and clinical experiences are analyzed and discussed through class discussion, case presentation, and role-playing. This seminar runs concurrent with therapy practicum training and may not be transferred or waived.

Social Justice Practicum I	1 Credit
SJP-203	
Social Justice Practicum II (Vancouver Campus)	1 Credit

Across their master's programs, students are involved in supervised community service. Placements are assigned based on an application process overseen by the Manager of Social Justice Practicum. Students will spend eight to 10 hours per week at this placement, accruing a minimum of 150 hours over the course of six months. Students will engage in activities such as youth tutoring, research and program development, community organizing, grant writing, and advocacy work. Students may not complete this requirement at their place of employment. May not be transferred or waived.

ADLER UNIVERSITY – ACADEMIC CALENDAR 2020-2021 VANCOUVER CAMPUS

Fall I 2020: Monday, August 31, 2020 – Sunday, October 25, 2020

Event	Date	Comments
Fall Term Begins	Monday, August 31, 2020	
Orientation Day	Wednesday, September 2nd, 2020	
Orientation Day	Thursday, September 3, 2020	
International Orientation Day	Friday, September 4, 2020	
Labour Day	Monday, September 7, 2020	Campus Closed
First Day of Instruction	Tuesday, September 8, 2020	
Thanksgiving Day	Monday, October 12, 2020	Campus Closed
Remembrance Day	Wednesday, November 11, 2020	Campus Closed
Last Day of Instruction	Sunday, December 20, 2020	
Fall Term Ends.	Sunday, December 20, 2020	
Break	Monday, December 21, 2020 – Sunday, January 5, 2021	
Christmas Day	Friday, December 25, 2020	Campus Closed
Boxing Day	Saturday, December 26, 2020	Campus Closed
New Year's Day	Friday, January 01, 2021	Campus Closed
Orientation Day	Monday, January 04, 2021	
Spring Term Begins	Monday, January 4, 2021	
First Day of Instruction	Tuesday, January 5, 2021	
Family Day	Monday, February 15, 2021	Campus Closed
Spring Holiday	Friday, April 2, 2021	Campus Closed
Spring Holiday	Monday, April 5, 2021	Campus Closed
Last Day of Instruction	Sunday, April 18, 2021	
Spring Term Ends	Sunday, April 25, 2021	
Break	Monday, April 26, 2020 – Sunday, May 2, 2021	
Orientation Day	Thursday, April 29, 2021	
International Orientation Day	Friday, April 30, 2021

Eric Warner, P.T., M.S., Trustee

CALIFORNIA ONLINE STUDENT INFORMATION

The State of California established the Student Tuition Recovery Fund (STRF) to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution, who is or was a California resident while enrolled, or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition, and suffered an economic loss. Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school.

Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 2535 Capitol Oaks Drive, Suite 400, Sacramento, CA 95833, (916) 431-6959 or (888) 370-7589.

To be eligible for STRF, you must be a California resident, or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120-day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120-day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of non-collection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.

STATE CONTACT INFORMATION

COMPLAINT RESOLUTION CONTACTS BY STATE

If a student's complaint cannot be resolved after exhausting the Adler University complaint and grievance procedure, the student may file a complaint with the agency from the list below that corresponds to the student's place of residence.

This list includes contact information for all 50 states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands. The list below should not be interpreted as informative of what agencies regulate Adler University, or in what states Adler is licensed or required to be licensed. States, through the relevant agencies, will accept complaints regardless of whether Adler University is required to be licensed in that state.
